(1) IN GENERAL.—If a person fails to pay a civil penalty assessed under subsection (c) or (e) after the penalty has become final and unappealable, or after the appropriate United States district court has entered final judgment in favor of the Secretary, the Secretary shall refer the matter to the Attorney General for recovery of the amount assessed in any United States district court in which the person resides or conducts business.

(2) SCOPE OF REVIEW.—In an action by the Attorney General under paragraph (1), the validity and appropriateness of a civil penalty shall not be subject to review.

(g) ADDITIONAL REMEDIES.—The remedies provided in this title shall be in addition to, and not exclusive of, other remedies that may be available.

SEC. 1209. INVESTIGATIONS AND POWER TO SUBPOENA.

(a) INVESTIGATIONS.—The Secretary may conduct such investigations as the Secretary considers necessary for the effective administration of this title, or to determine whether any person has engaged or is engaging in any act that constitutes a violation of this title or any order or regulation issued under this title.

(b) SUBPOENAS, OATHS, AND AFFIRMATIONS.—

(1) INVESTIGATIONS.—For the purpose of conducting an investigation under subsection (a), the Secretary may administer oaths and affirmations, subpoena witnesses, compel the attendance of witnesses, take evidence, and require the production of any records that are relevant to the inquiry. The production of the records may be required from any place in the United States.

(2) ADMINISTRATIVE HEARINGS.—For the purpose of an administrative hearing held under section 1207(a)(2) or 1208(c)(3), the presiding officer may administer oaths and affirmations, subpoena witnesses, compel the attendance of witnesses, take evidence, and require the production of any records that are relevant to the inquiry. The attendance of witnesses and the production of the records may be required from any place in the United States.

(c) AID OF COURTS.—

(1) IN GENERAL.—In the case of contumacy by, or refusal to obey a subpoena issued under subsection (b) to, any person, the Secretary may invoke the aid of any court of the United States within the jurisdiction of which the investigation or proceeding is conducted, or where the person resides or conducts business, in order to enforce a subpoena issued under subsection (b).

(2) ORDER.—The court may issue an order requiring the person referred to in paragraph (1) to comply with a subpoena referred to in paragraph (1).

(3) FAILURE TO OBEY.—Any failure to obey the order of the court may be punished by the court as a contempt of court.

(4) PROCESS.—Process in any proceeding under this subsection may be served in the United States judicial district in which the person being proceeded against resides or conducts business, or wherever the person may be found.

SEC. 1210. CONFIDENTIALITY.

(a) PROHIBITION.—No information regarding names of voters or how a person voted in a referendum conducted under this title shall be made public.

(b) PENALTY.—Any person who knowingly violates subsection (a) or the confidentiality terms of an order, as described in section 1205(m)(2), shall be subject to a fine of not less that $1,000 nor more than $10,000 or to imprisonment for not more than 1 year, or both. If the person is an officer or employee of the Department of Agriculture or the Board, the person shall be removed from office.

(c) ADDITIONAL PROHIBITION.—No information obtained under this title may be made available to any agency or officer of the Federal Government for any purpose other than the implementation of this title or an investigatory or enforcement action necessary for the implementation of this title.

(d) WITHHOLDING INFORMATION FROM CONGRESS PROHIBITED.—Nothing in this title shall be construed to authorize the withholding of information from Congress.

SEC. 1211. AUTHORITY FOR SECRETARY TO SUSPEND OR TERMINATE ORDER.

(a) GROUNDS FOR SUSPENSION OR TERMINATION.—If the Secretary finds that an order, or any provision of the order, obstructs or does not tend to effectuate the policy of this title specified in section 1202(b), the Secretary shall terminate or suspend the operation of the order or provision under such terms as the Secretary determines are appropriate.

(b) EFFECT OF LACK OF APPROVAL OF ORDER.—If, as a result of a referendum, the Secretary determines that the order is not approved, the Secretary shall, within 180 days after making the determination, suspend, or terminate, as appropriate, collection of assessments under the order, and suspend or terminate, as appropriate, activities under the order in an orderly manner as soon as possible.

SEC. 1212. RULES OF CONSTRUCTION.

(a) TERMINATION OR SUSPENSION NOT AN ORDER.—The termination or suspension of an order, or a provision of an order, shall not be considered an order under the meaning of this title.

(b) RIGHTS.—This title—

(1) may not be construed to provide for control of production or otherwise limit the right of individual Hass avocado growers, handlers and importers to produce, handle, or import Hass avocados; and

(2) shall be construed to treat all persons producing, handling, and importing Hass avocados fairly and to implement any order in an equitable manner.

(c) OTHER PROGRAMS.—Nothing in this title may be construed to preempt or supersede any other program relating to Hass avocado promotion, research, industry information, and

consumer information organized and operated under the laws of the United States or of a State.

SEC. 1213. REGULATIONS.

The Secretary may issue such regulations as are necessary to carry out this title and the powers vested in the Secretary by this title, including regulations relating to the assessment of late payment charges and interest.

SEC. 1214. AUTHORIZATION OF APPROPRIATIONS.

(a) IN GENERAL.—There are authorized to be appropriated for each fiscal year such sums as are necessary to carry out this title.

(b) ADMINISTRATIVE EXPENSES.—Funds appropriated under subsection (a) may not be used for the payment of the expenses or expenditures of the Board in administering a provision of an order.

TITLE XIII—DEBT REDUCTION

DEPARTMENT OF THE TREASURY

BUREAU OF THE PUBLIC DEBT

GIFTS TO THE UNITED STATES FOR REDUCTION OF THE PUBLIC DEBT

For deposit of an additional amount for fiscal year 2001 into the account established under section 3113(d) of title 31, United States Code, to reduce the public debt, $5,000,000,000.

This Act may be cited as the ''Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Appropriations Act, 2001''.

Following is explanatory language on H.R. 5426, as introduced on October 6, 2000.

The conferees on H.R. 4461 agree with the matter included in H.R. 5426 and enacted in this conference report by reference and the following description of it. This bill was developed through negotiations by the conferees on the differences in H.R. 4461. References in the following description to the ''conference agreement'' mean the matter included in the introduced bill enacted by this conference report.

CONGRESSIONAL DIRECTIVES

The statement of the managers remains silent on provisions that were in both the House and Senate bills that remain unchanged by this conference agreement, except as noted in this statement of the managers.

The conferees agree that executive branch wishes cannot substitute for Congress' own statements as to the best evidence of congressional intentions—that is, the official reports of the Congress. The conferees further point out that funds in this Act must be used for the purposes for which appropriated, as required by section 1301 of title 31 of the United States Code, which provides: ''Appropriations shall be applied only to the objects for which the appropriations were made except as otherwise provided by law.''

The House and Senate report language that is not changed by the conference is approved by the committee of conference. The statement of the managers, while repeating some report language for emphasis, does not intend to negate the language referred to above unless expressly provided herein.

In cases in which the House or the Senate have directed the submission of a report, such report is to be submitted to both the House and Senate Committees on Appropriations.

TITLE I—AGRICULTURAL PROGRAMS

PRODUCTION, PROCESSING, AND MARKETING

OFFICE OF THE SECRETARY

The conference agreement provides $2,914,000 for the Office of the Secretary instead of $2,836,000 as proposed by the House and $27,914,000 as proposed by the Senate.

The conferees note that $40,000,000 for the development and implementation of a common computing environment is provided under the heading ''Common Computing Environment'' instead of $25,000,000 as proposed by the House.

The conference agreement does not adopt bill language as proposed by the Senate providing that funds for the development and implementation of a common computing environment shall be available only upon prior notice to the Committees on Appropriations.

The conference agreement does not include House language permitting unobligated balances of representation funds in the Foreign Agricultural Service to be used for official reception and representation purposes.

The conferees direct the Secretary to provide to the Committees on Appropriations a detailed report of all USDA activities related to Hurricane Mitch recovery efforts in Central America. The report should specifically include, but not be limited to, a list of all agencies that participated in the efforts, the specific activities by each agency, the cost incurred by each agency, and the source of funding for these costs.

The Secretary of Agriculture is urged to use ethanol, biodiesel, and other alternative fuels to the maximum extent practicable in meeting the fuel needs of the Department of Agriculture.

As the Administration proceeds with implementing the 1998 Congressional amendments to the Clean Air Act, the conferees urge that it closely follow the legislative language defining the quarantine and preshipment exemption. The conferees also urge the Administration to work with stakeholders regarding methyl bromide availability for critical post-harvest uses.

EXECUTIVE OPERATIONS

OFFICE OF THE CHIEF ECONOMIST

The conference agreement provides $7,462,000 for the Office of the Chief Economist as proposed by the Senate instead of $6,408,000 as proposed by the House.

NATIONAL APPEALS DIVISION

The conference agreement provides $12,421,000 for the National Appeals Division (NAD) as proposed by the Senate instead of $11,718,000 as proposed by the House.

The conferees direct that the Director of NAD track and make available information about Director Review Determinations that are made in favor of the Department and those that are made in favor of the producer, and that NAD make this information available to the public, and submit a report to the Committees on Appropriations no later than February 1, 2001, as proposed by the House.

OFFICE OF BUDGET AND PROGRAM ANALYSIS

The conference agreement provides $6,765,000 for the Office of Budget and Program Analysis as proposed by the Senate instead of $6,581,000 as proposed by the House.

OFFICE OF THE CHIEF INFORMATION OFFICER

The conference agreement provides $10,051,000 for the Office of the Chief Information Officer as proposed by the House instead of $10,046,000 as proposed by the Senate. This includes the following increases from the fiscal year 2000 level: $1,392,000 for a central cyber security program; $1,280,000 to strengthen the information risk management program; $1,116,000 for an information and telecommunications security architecture; and $217,000 for pay costs.

The conferees direct the Chief Information Officer to keep the Committees updated on a quarterly basis as the information security programs are implemented.

COMMON COMPUTING ENVIRONMENT

The conference agreement provides $40,000,000 in a separate account for the Common Computing Environment instead of $25,000,000 as proposed by the House.

The conferees note that incorporating geographic information systems technology and the use of geospatial information are important components of the Common Computing Environment.

OFFICE OF THE CHIEF FINANCIAL OFFICER

The conference agreement provides $5,171,000 for the Office of the Chief Financial Officer as proposed by the Senate instead of $4,783,000 as proposed by the House.

OFFICE OF THE ASSISTANT SECRETARY FOR ADMINISTRATION

The conference agreement provides $629,000 for the Office of the Assistant Secretary for Administration as proposed by the Senate instead of $613,000 as proposed by the House.

AGRICULTURE BUILDINGS AND FACILITIES AND RENTAL PAYMENTS

The conference agreement provides $182,747,000 for Agriculture Buildings and Facilities and Rental Payments as proposed by the Senate instead of $150,343,000 as proposed by the House.

The conferees expect that the five percent transfer authority will be proposed when a move into General Services Administration (GSA) space is vacated in favor of commercial space. The report further notes that this flexibility is provided to allow for incremental changes in the amount of GSA space, and is not intended to finance changes in GSA billing.

DEPARTMENTAL ADMINISTRATION

The conference agreement provides $36,010,000 for Departmental Administration instead of $34,708,000 as proposed by the House and $36,840,000 as proposed by the Senate.

The conference agreement reflects the transfer of $177,000 in FY 2000 for accounting support services from Departmental Administration to the Office of the Chief Financial Officer, and increases of $979,000 for pay costs and $500,000 for alternative dispute resolution.

OFFICE OF THE ASSISTANT SECRETARY FOR CONGRESSIONAL RELATIONS

The conference agreement provides $3,568,000 for the Office of the Assistant Secretary for Congressional Relations as proposed by the House and the Senate. The conference agreement allows funds to be transferred to the agencies, but does not prescribe the amount of funds to be transferred. The conferees direct the Department, within 30 days of enactment, to notify the Committees on the allocation of these funds, including an explanation for any agency-by-agency distribution of these funds.

OFFICE OF COMMUNICATIONS

The conference agreement provides $8,623,000 for the Office of Communications instead of $8,138,000 as proposed by the House and $8,873,000 as proposed by the Senate.

The conference agreement includes the increase requested for pay costs and $250,000 for electronic access to information.

OFFICE OF THE INSPECTOR GENERAL

The conference agreement provides $68,867,000 for the Office of the Inspector General instead of $66,867,000 as proposed by the Senate and $65,097,000 as proposed by the House.

The conference agreement includes $2,000,000 for oversight and audit activities involving the more than $16 billion provided

in emergency agricultural assistance in fiscal years 1999 and 2000. The conferees want to ensure the Inspector General's office has resources to carry out its oversight activities with respect to these funds.

The conferees do not agree to language proposed by the Senate directing the Inspector General to investigate whether National Appeals Division decisions overwhelmingly favor the Department. The conference agreement addresses this issue under the National Appeals Division account.

OFFICE OF THE GENERAL COUNSEL

The conference agreement provides $31,080,000 for the Office of the General Counsel as proposed by the Senate instead of $29,194,000 as proposed by the House.

OFFICE OF THE UNDER SECRETARY FOR RESEARCH, EDUCATION AND ECONOMICS

The conference agreement provides $556,000 for the Office of the Under Secretary for Research, Education and Economics as proposed by the Senate instead of $540,000 as proposed by the House.

ECONOMIC RESEARCH SERVICE

The conference agreement provides $67,038,000 for the Economic Research Service as proposed by the Senate instead of $66,419,000 as proposed by the House. Included in this amount is $12,195,000 for USDA food assistance program studies and evaluations, of which $1,000,000 is transferred to the Food Program Administration account of the Food and Nutrition Service as proposed by the Senate.

Of the $1,000,000 to be transferred to the Food and Nutrition Service for studies and evaluations, $500,000 is to be made available for a study on the decline in participation in the food stamp program. The FNS study on this issue is to be completed by the Food and Nutrition Service within 180 days of enactment of this Act.

The conferees note that the USDA released a study in June, 2000, on this same issue. In addition, the USDA has contracted out for a broader, more in-depth study of food stamp program access and declining food stamp participation. The conferees are concerned that the studies to date neither accounted for a large segment of the participation decline, nor did they fully account for the corresponding rise in demand among community food banks. The Department is encouraged to develop the ongoing study in a manner to answer these questions.

The conferees direct the Economic Research Service to provide an interim report, by April 15, 2001, on the number of suppliers of infant formula in each state or major marketing area, and to compare the cost of formula that is included in the WIC rebate program versus the cost of formula that is not in the WIC rebate program. The conferees expect a final report by August 31, 2001.

NATIONAL AGRICULTURAL STATISTICS SERVICE

The conference agreement provides $100,772,000 for the National Agricultural Statistics Service instead of $100,851,000 as proposed by the House and $100,615,000 as proposed by the Senate. This amount includes $159,000 to develop and implement a bi-weekly cream/milkfat price survey to benefit all segments of the dairy industry.

AGRICULTURAL RESEARCH SERVICE

SALARIES AND EXPENSES

The conference agreement provides $898,812,000 for the Agricultural Research Service instead of $843,584,000 as proposed by the House and $871,593,000 as proposed by the Senate.

The conference agreement approves all directives and provides funding for all research and related costs, as specified in the House and Senate reports accompanying the fiscal year 2001 appropriations bill. Where increased funding is provided by both the House and Senate for the same research activity, the conference agreement provides funding at the higher level.

The conferees are aware that USDA is considering the relocation of ARS scientists from the Shafter Cotton Research Station, CA. The conferees are concerned that this relocation will reduce the level of resources for cotton research conducted at the station. The conference agreement provides continued funding at the fiscal year 2000 level for this research and directs that no action be taken to shift funds or staffing resources from Shafter without the prior approval of the Committees on Appropriations of both Houses of Congress.

The conferees recognize that ARS, Stoneville, MS, should be properly credited with the development of a catfish line (USDA 103) with improved growth characteristics. The Stoneville Unit has also developed the first channel catfish detailed genetic linkage map.

Increased funding provided by the conference agreement for endophyte research, as recommended by the House, is to be divided equally among the participating institutions (University of Arkansas, University of Missouri, and Oregon State University).

Increased funding provided by the conference agreement for chicken genome mapping, as recommended by the House, is to be carried out at the Avian Disease Oncology Laboratory, currently located in East Lansing, Michigan.

The conferees encourage the Department to carry out glassy-winged sharpshooter and Pierce's disease research at Parlier, CA.

The conferees expect the Department to ensure that funds provided to the Yakima Agricultural Research Laboratory intended for potato research are fully utilized for potato research.

The conferees concur with House report language regarding increased funding, as recommended by both the House and Senate, for potato research at Prosser, WA.

Increased funding provided by the conference agreement for mosquito trapping research and West Nile virus, as recommended by the House, is to be utilized for cooperative research with the State of Connecticut Agricultural Experiment Station for research that focuses on the West Nile virus crisis. These resources will allow the experiment station to enhance its on-going efforts to control and eradicate this infectious disease.

Within the increased funding provided by the conference agreement for soil tilth research, as recommended by the House, $350,000 is to be utilized for carbon cycle research focusing on the corn-soybean rotation.

BUILDINGS AND FACILITIES

The conference agreement provides $74,200,000 for Agricultural Research Service, Building and Facilities instead of $39,300,000 as proposed by the House and $56,330,000 as proposed by the Senate.

The following table reflects the conference agreement:

Arizona: Water Conservation and Western Cotton Laboratory, Maricopa. ...	$5,000,000
California: Western Regional Research Center, Albany.	4,900,000
District of Columbia: U.S. National Arboretum.	3,330,000
Hawaii: U.S. Pacific Basin Agricultural Research Center, Hilo.	5,000,000
Illinois: USDA Greenhouse Complex, Urbana.	3,600,000
Iowa: National Animal Disease Center, Ames.	9,000,000
Kansas: U.S. Grain Marketing Research Laboratory, Manhattan.	3,500,000
Maine: Northeast Marine Cold Water Aquaculture Research Center, Orono.	2,500,000
Maryland:	
Human Nutrition Research Center, Beltsville.	13,300,000
National Agricultural Library, Beltsville.	1,770,000
Mississippi: Insect Rearing Facility, Stoneville.	5,000,000
Montana: Fort Keogh Laboratory, Miles City.	5,300,000
New York: Plum Island Animal Disease Center, Greenport.	7,000,000
Utah: Poisonous Plant Laboratory, Logan.	5,000,090
Total	$74,200,000

The conferees are aware that the Agriculture Research Station and the Animal and Plant Health Inspection Service are developing a Master Plan to construct new and expanded facilities at Ames, Iowa. The conferees direct the Secretary of Agriculture to assess the scope of and need for this project based on the research and regulatory requirements of the Department, and the relationship between this project and existing capabilities available to the Department. The Office of the Secretary of Agriculture is directed to submit a report to the Committees on Appropriations by March 1, 2001 that will include this assessment as well as current estimates of full costs and the proposed construction schedule for this project. Of the funds appropriated no more than $2,000,000 will be expended prior to March 30, 2001. The Department will not commit additional funds on any of the components of this project after that date unless the report finds that the construction of the component is found to be appropriate.

COOPERATIVE STATE RESEARCH, EDUCATION, AND EXTENSION SERVICE

RESEARCH AND EDUCATION ACTIVITIES

The conference agreement provides $506,193,000 for research and education activities instead of $481,551,000 as proposed by the House and $494,044,000 as proposed by the Senate.

The following table reflects the conference agreement:

Research and education activities

(In thousands of dollars)

	Conference Agreement
Payments under the Hatch Act ...	$180,545
Cooperative Forestry Research (McIntire-Stennis)	21,932
Payments to 1890 Colleges and Tuskegee University	32,676

Subtotal, Federal Administration	18,149
Total, Research and Education Activities	$506,193

The conference agreement includes $800,000 for alternative crops, of which $600,000 is for canola and $200,000 is for hesperaloe and other natural products from desert plants.

The conference agreement for Binational Agricultural Research and Development (BARD) is included under the ''Agricultural Research Service, Salaries and Expenses'' account, which provides $400,000 as proposed by the Senate instead of $400,000 under CSREES Research and Education Activities as proposed by the House.

The conference agreement provides $106,000,000 for the National Research Initiative (NRI), without specifying the breakdown of funds to support the ''high priority research'' areas authorized by 7 U.S.C. 450i(b). However, the conferees direct that $20,788,000 of this amount, the full request level, be made available to support the President's Food Safety Initiative. The conferees also encourage a fair distribution of resources between research on animal systems and plants.

The conferees are aware that CSREES intends to fill the position of National Program Leader, Agricultural Engineering, vacated by retirement. The conferees intend that the primary responsibilities of the position should continue to support ginning education and technology transfer and be based at a USDA ginning laboratory facility to maintain efficiency and ensure close communications with stakeholders and researchers.

NATIVE AMERICAN INSTITUTIONS ENDOWMENT FUND

The conference agreement provides $7,100,000 for the Native American Institutions Endowment Fund as proposed by both the House and the Senate, with technical corrections as proposed by the Senate.

EXTENSION ACTIVITIES

The conference agreement provides $433,429,000 for extension activities instead of $431,540,000 as proposed by the House and $427,380,000 as proposed by the Senate.

The following table reflects the conference agreement:

Extension Activities

[In thousands of dollars]

	Conference agreement
Smith-Lever sections 3(b) and (c)	$276,548
Smith-Lever section 3(d):	
Farm safety	4,000
Food and nutrition education	58,695
Indian reservation agents	2,000
Pesticide applicator training	0
Pest management	10,783
Rural development centers	908
Sustainable agriculture	3,800
Youth at risk	8,500
Youth farm safety education and certification	500

Wood biomass as an alternative farm product (NY)	197
General administration and pay	4,736
Total, Federal Administration	18,152
Total, Extension Activities	$433,429

The conference agreement includes $4,000,000 for farm safety, of which $2,800,000 is for the AgrAbility project.

INTEGRATED ACTIVITIES

The conference agreement provides $41,941,000 for integrated activities instead of $39,541,000 as proposed by the House and $43,365,000 as proposed by the Senate.

The following table reflects the conference agreement:

Integrated Activities Account

[In thousands of dollars]

	Conference agreement
Integrated Research, Education and Extension Competitive Grants Program:	
Water Quality	$13,000

	Conference agreement
Food Safety	15,000
Pesticide Impact Assessment	4,541
Crops at Risk From FQPA Implementation	1,500
FQPA Risk Mitigation Program for Major Food Crop Systems	4,900
Methyl Bromide Transition Program	2,500
Organic Transition Program	500
Total, Integrated Activities	41,941

The conferees direct the Department to continue funding for the Farm*A*Syst program at no less than the fiscal year 1999 level, and encourage the Department to give consideration to $4,000,000 for this program within the funds provided for water quality.

OFFICE OF THE UNDER SECRETARY FOR MARKETING AND REGULATORY PROGRAMS

The conference agreement provides $635,000 for the Office of the Under Secretary for Marketing and Regulatory Programs as proposed by the Senate instead of $618,000 as proposed by the House.

ANIMAL AND PLANT HEALTH INSPECTION SERVICE

SALARIES AND EXPENSES

The conference agreement provides $530,564,000 for the Animal and Plant Health Inspection Service (APHIS) instead of $469,985,000 as proposed by the House and $458,149,000 as proposed by the Senate.

The conference agreement does not include the House bill language ''reduced by $15,510.''

The conference agreement includes language permitting up to $1,000,000 for wildlife services methods development pilot projects for wildlife predation of livestock.

The conference agreement includes an additional $59,400,000 for boll weevil eradication program as proposed by the Senate in Division B.

The conferees direct the agency not to deduct administrative and overhead expenses from the additional funding provided for boll weevil eradication. The conferees support the producer-governed Boll Weevil Action Committee's unanimously approved plan for allocation of the emergency and regular funding for eradication zones active as of December 1, 2000. The conferees understand the plan provides for distribution of funds on a pro-rata basis with exceptions to address special funding requirements arising from extraordinary circumstances in Oklahoma, Mississippi and possibly Tennessee.

The conferees are concerned about the need for more control of rabies. The conferees direct the Secretary of Agriculture to issue a declaration of emergency with regard to rabies in West Virginia, Ohio, Vermont, New Hampshire, New York, Pennsylvania, and Texas, and to provide an additional $4,100,000 above the fiscal year 2000 level for control efforts by the Animal and Plant Health Service (APHIS), Wildlife Services. Of this amount, not less than $1,300,000 is to be directed toward cooperative rabies control in West Virginia.

The following table reflects the conference agreement:

[In thousands of dollars]

	Conference agreement
Pest and Disease Exclusion:	
Agricultural quarantine inspection	$38,970
User fees	85,000
Subtotal, Agricultural Quarantine Inspection	123,970
Cattle ticks	5,276
Foot-and-mouth disease	3,803
Import/export	7,025
Sanitary/phytosanitary management	8,205
Fruit fly exclusion and detection	32,610
Screwworm	30,375
Tropical bont tick	407
Total, Pest and Disease Exclusion	211,671
Plant and Animal Health Monitoring:	
Animal health monitoring and surveillance	68,653
Animal and plant health regulatory enforcement	6,263
Emergency Management System	2,997
Pest detection	6,729
Total, Plant and Animal Health Monitoring	84,642
Pest and Disease Management Programs:	
Aquaculture	920
Biocontrol	8,318
Boll weevil	79,157
Brucellosis eradication	9,943
Emerging plant pests	3,533
Golden nematode	580
Gypsy moth	4,417
Imported fire ant	2,100
Noxious weeds	1,124
Pink bollworm	1,548
Pseudorabies	4,039
Scrapie eradication	3,024

Animal welfare	12,167
Horse protection	398
Total, Animal Care	12,565
Scientific and Technical Services:	
Biotechnology/environmental protection	10,021
Integrated systems acquisition project	1,000
Plant methods development laboratories	4,806
Veterinary biologics	10,751
Veterinary diagnostics	17,514
Wildlife Services methods development	11,025
Total, Scientific and Technical Services	55,117
Contingency fund	4,105
Invasive species	0
Total, Contingency Fund and Invasive Species	4,105
Total, Salaries and Expenses	530,564

The conference agreement provides $625,000 for a cooperative agreement with Georgia Wildlife Services and the University of Georgia to conduct research on and control of game bird predation in Georgia.

The conference agreement provides an increase of $1,000,000 above the fiscal year 2000 level for predator control programs for livestock operators in Montana, Idaho and Wyoming.

The conference agreement provides $50,000 to begin studies in order to better understand the effect of American white pelicans and their associated ecology on the aquaculture industry in the Mid-south.

The conferees are aware that the General Accounting Office has been asked to provide an analysis of the likely impact of an extension of the Andean Trade Preferences Act on imports of Peruvian asparagus within six months of the date of enactment of this Act. The conferees support this request and note the importance of completion of the study by the date requested.

The conferees urge the use of the VAC–TRAC Verification System (VTVS) through Artificial Intelligence networking in the establishment of the permanent animal identification system in the United States. The VTVS will possibly help enforce APHIS' port of entry agricultural quarantine program and assure the safety and efficacy of veterinary biological and agricultural biotechnology products overseen by APHIS.

The conference agreement includes an increase of $1,000,000 above the fiscal year 2000 level for aviation operations and safety.

The conference agreement includes an increase of $2,000,000 above the fiscal year 2000 level for the shared responsibility with the states to conduct surveys, compliance monitoring, and enforcement responsibilities affiliated with the fire ant quarantine of nursery and greenhouse plants including control, management and eradication of the imported fire ant in New Mexico.

The conference agreement provides $500,000 for research and evaluation of nicarbazin as a means of controlling goose and other avian populations and to increase airport safety.

The conference agreement does not adopt House report language regarding apportionment of funds by the Office of Management and Budget. The conferees direct the Department to notify the Committees on Appropriations when funds are released from the Commodity Credit Corporation for APHIS programs.

The conference agreement provides $920,000 for aquaculture including an increase of $191,000 above the fiscal year 2000 level to continue the telemetry studies on depredating species of wildlife in the Southeast and to pay for cost increases. The conference agreement also includes $100,000 to support a wildlife biologist at the Northwest Florida Aquaculture Farm in Blountstown, FL.

The conference agreement provides an increase of $124,000 for the National Poultry Improvement Program.

The conferees emphasize that they expect the Secretary to continue to conduct a wildlife services program consistent with the program in place on the date of enactment of this Act. The Secretary is expected to take all actions deemed necessary and proper to protect agricultural resources, natural resources, property, and public health and safety on all lands with respect to injurious animals such as predators, rodents, birds, reptiles, and amphibians. The conferees also emphasize the importance to develop and implement methods that best promote and further utilize non-lethal means of control in

order to sustain diversity of and reduce harm to native species, and realize savings and efficiencies among public agencies and those seeking agency assistance. The conferees expect the Secretary to continue cooperating with all parties interested in agency activities and to conduct such investigations, experiments, and tests as he may deem necessary and proper to determine, demonstrate, and promulgate the best methods of eliminating the threats posed by injurious animals in the most efficient and humane manner practicable. The conferees further expect the General Accounting Office to provide a report to the Appropriations Committees of the House and the Senate by November 30, 2001 on actions taken or planned by Wildlife Services to reduce the threats posed by injurious animals; the nature, severity, and harm resulting from such threats; specific costs and benefits of agency operations; and opportunities for developing effective non-lethal methods of control as evidenced by evaluations of actual agency activities on farms and ranches representative of client appeals for assistance and results.

The conference agreement provides an increase of $50,000 above the fiscal year 2000 level for a cooperative agreement with Murray State University, Breathitt Veterinary Center, Hopkinsville, KY to determine the impact on animal health from common agricultural chemical usage.

The conference agreement provides an increase of $2,370,000 above the fiscal year 2000 level for the emergency management systems program so the agency can respond to crises that threaten the economic health of the animal industry.

The conferees direct the agency to evaluate its authority and its resources for sufficiency to promote the safety of companion animals transported on commercial airlines. This study should include recommendations regarding any authority needed by the agency to improve animal safety on all commercial airlines.

BUILDINGS AND FACILITIES

The conference agreement provides $9,870,000 for Animal and Plant Health Inspection Service Buildings and Facilities as proposed by the Senate instead of $5,200,000 as proposed by the House.

AGRICULTURAL MARKETING SERVICE

MARKETING SERVICES

The conference agreement provides $65,335,000 for the Agricultural Marketing Service instead of $56,326,000 as proposed by the House and $64,696,000 as proposed by the Senate. The conference agreement provides that $639,000 shall be transferred for the National Organic Standards program only after promulgation of a final rule as proposed by the House. The total amount recommended includes: $5,900,000 for the Livestock Mandatory Price Reporting Act of 1999 as proposed by the Senate instead of $3,000,000 as proposed by the House; $6,235,000 for the Microbiological Data program as proposed by the Senate; an increase of $1,106,000 for the Pesticide Data program as proposed by the House instead of $1,137,000 as proposed by the Senate; and an increase of $31,000 for the Federal-State Marketing Improvement program as proposed by the House.

The conferees expect that, prior to implementation of the recommendations of the USDA Research and Promotion Task Force, the Agricultural Marketing Service will conduct a cost and benefit analysis of the recommendations of the USDA Research and Promotion Task Force, and report to the Committees on Appropriations of the House of Representatives and the Senate on the cost implications to the affected commodity promotion boards.

The conferees place the highest emphasis on ensuring the safety of meals delivered through USDA's various feeding programs. The conferees direct that USDA will not preclude the use of any USDA-approved food safety technology in the preparation of food for its meal or nutrition programs.

PAYMENTS TO STATES AND POSSESSIONS

The conference agreement provides $1,350,000 for the Payments to States and Possessions program instead of $1,500,000 as proposed by the House and $1,200,000 as proposed by the Senate.

GRAIN INSPECTION, PACKERS AND STOCKYARDS ADMINISTRATION

SALARIES AND EXPENSES

The conference agreement provides $31,420,000 for the Grain Inspection, Packers and Stockyards Administration instead of $27,801,000 as proposed by the House and $27,269,000 as proposed by the Senate.

The conference agreement includes $600,000 for the completion of a biotechnology facility.

The conferees direct the Secretary of Agriculture to conduct a comprehensive study on the issue of captive supply, and deliver a report by September 30, 2001. In particular, the Secretary is instructed to examine and report on whether or not the cattle that are procured pursuant to a captive supply arrangement by a packer's non-reporting subsidiary, affiliate and owners, officers and employees are being included in the percentages as captive supply. The report shall also include the reasons why GIPSA's annual ''Packers and Stockyard Statistical Report'' frequently reports a captive supply percentage much lower than the percentages reported by other entities.

OFFICE OF THE UNDER SECRETARY FOR FOOD SAFETY

The conference agreement provides $460,000 for the Office of the Under Secretary for Food Safety as proposed by the Senate instead of $446,000 as proposed by the House.

FOOD SAFETY AND INSPECTION SERVICE

The conference agreement provides $696,704,000 for the Food Safety and Inspection Service instead of $673,790,000 as proposed by the House and $678,011,000 as proposed by the Senate.

The conference agreement includes $591,258,000 for federal food inspection.

The conference agreement includes $6,000,000 to be used to the extent approved by the Director of the Office of Management and Budget to liquidate obligations incurred in previous years that violated the Antideficiency Act. The conferees expect the agency to take appropriate action to avoid violations of the Antideficiency Act from occurring again.

The conference agreement does not adopt Senate bill language providing that the appropriation shall not be available for shell egg surveillance under the Egg Products Inspection Act.

The conferees direct the agency to provide $500,000 to the National Research Council for an evaluation, at the earliest date practicable, by the National Research Council of the role of scientifically determined criteria, including microbiological criteria, in the production and regulation of meat and poultry products and a report, including recommendations to the Secretary, to be prepared by the National Advisory Committee on Microbiological Criteria for Foods, no later that March 1, 2001, regarding microbiological performance standards, including the role of such standards as a means of assuring meat and poultry product safety, as well as such other considerations as the Committee deems appropriate. These activities should in no way delay the implementation of the HACCP inspection system or other food safety activities.

The conferees direct the agency to continue to provide the Quarterly Report on Budget Execution and Staffing to the Committees on Appropriations.

The conference agreement does not include language under this heading which permits FSIS to expend funds appropriated for FY 2001 to liquidate overobligations and overexpenditures incurred in previous fiscal years as proposed by the House.

The conferees note that the conference agreement provides for all mandatory pay cost increases and the full amount requested for the FSIS portion of the Food Safety Initiative.

The conference agreement includes full funding for inspection costs and activities and $2,039,000 for activities related to the Codex Alimentarius. The conferees note increased responsibilities for the agency regarding participation in the Codex Alimentarius. The conference agreement provides for not to exceed $50,000 for representational expenses associated with Codex activities.

The conferees direct a report by March 1, 2001 on meat and poultry inspection regulations in place prior to publication of the Pathogen Reduction HACCP Rule.

Furthermore, the conferees, in supporting food safety regulations based upon the best available science, recognize the importance of the National Advisory Committee for Microbiological Criteria for Foods' (NACMF) chartered mission of providing impartial, scientific advice to Federal agencies on food safety matters. The conferees, therefore, direct that as part of Department of Health and Human Services and Department of Agriculture's ongoing rechartering of the NACMF, the Secretary of Agriculture and Secretary of Health and Human Services shall: (1) appoint a number of members consistent with scientific advisory committees utilized by agencies such as the Food and Drug Administration and the U.S. Environmental Protection Agency; (2) adhere strictly to applicable Federal conflict-of-interest requirements for Federal advisory committee membership; (3) report to the Committee on Appropriations and Committee on Agriculture, Nutrition, and Forestry of the U.S. Senate, the Committee on Appropriations and Committee on Agriculture in the U.S. House of Representatives, and the Secretaries of Agriculture and Health and Human Services on any conflicts of interest of NACMF members involved in making recommendations to federal agencies, whether waived under applicable Federal law or not, and what those conflicts are.

OFFICE OF THE UNDER SECRETARY FOR FARM AND FOREIGN AGRICULTURAL SERVICES

The conference agreement provides $589,000 for the Office of the Under Secretary for Farm and Foreign Agricultural Services as proposed by the Senate instead of $572,000 as proposed by the House.

FARM SERVICE AGENCY

SALARIES AND EXPENSES

The conference agreement provides $828,385,000 for the salaries and expenses of the Farm Service Agency (FSA), the same as proposed by the House, Senate and President's budget request. The conferees are concerned, however, that the budget request did

not include a funding request sufficient to maintain FSA county office employees at the fiscal year 2000 level. Rural communities and agricultural producers rely heavily on the programs administered by the FSA county office employees during periods of economic decline. Since the economic crisis and FSA workload are not expected to decline in the near future, the conferees expect that future funding requests will fully support the workload needs of county office employees.

STATE MEDIATION GRANTS

The conferees are aware of outstanding issues regarding confidentiality of client information and auditing requirements necessary to maintain program integrity in the State Mediation Program. The conferees strongly encourage the relevant agencies to work cooperatively to balance those program interests and propose further reauthorization requirements as appropriate.

AGRICULTURAL CREDIT INSURANCE FUND
PROGRAM ACCOUNT

The following table reflects the conference agreement:

Farm Ownership Loans:	
Guaranteed	($870,000,000)
Subsidy	4,437,000
Farm Operating Loans:	
Direct	(525,000,000)
Subsidy	47,355,000
Unsubsidized Guaranteed	(1,077,839,000)
Subsidy	14,770,000
Subsidized Guaranteed	(369,902,000)
Subsidy	30,185,000
Emergency Loans	(25,000,000)
Subsidy	6,133,000
Indian Tribe Land Acquisition Loans	(2,006,000)
Subsidy	323,000

The conferees considered the estimated large carry over balances in the Agricultural Credit Insurance Fund Program account in determining the fiscal year 2001 funding amounts. The estimated carry over balances and the conference agreement reflect at a minimum the President's budget request. In the case of emergency loans, the total amount available is $292,802,000 with a subsidy of $71,825,000, reflecting an increase of $142,738,000 and $35,014,000, respectively, over the President's request.

RISK MANAGEMENT AGENCY

The conference agreement provides $65,597,000 for the Risk Management Agency (RMA) as proposed by the Senate instead of $67,700,000 as proposed by the House.

The conferees recognize the importance of improved risk management tools for dairy farmers and expect the RMA to allow the participation of producers in the Dairy Options Pilot Program (DOPP) for more than one year. The complexities inherent in DOPP require a full understanding of all facets of the program rather than a mere introduction to any benefits or problems. Accordingly, the Administrator of RMA is directed to report to the Appropriations Committees of the House and the Senate by January 2001 on agency compliance with this directive.

CORPORATIONS

COMMODITY CREDIT CORPORATION FUND

REIMBURSEMENT FOR NET REALIZED LOSSES

The conference agreement provides such sums as may be necessary to reimburse the Commodity Credit Corporation for net realized losses as proposed by the Senate instead of a limitation of $27,771,007,000 as proposed by the House.

TITLE II—CONSERVATION PROGRAMS

OFFICE OF THE UNDER SECRETARY FOR NATURAL RESOURCES AND ENVIRONMENT

The conference agreement provides $711,000 for the Office of the Under Secretary for Natural Resources and Environment as proposed by the Senate instead of no appropriation as proposed by the House.

NATURAL RESOURCES CONSERVATION SERVICE

CONSERVATION OPERATIONS

The conference agreement provides $714,116,000 for Conservation Operations as proposed by the Senate instead of $676,812,000 as proposed by the House. Included in this amount is not less than $9,125,000 for operation and establishment of plant materials centers as proposed by the House instead of not less than $9,975,000 as proposed by the Senate.

The conference agreement provides $2,000,000 for the Urban Resources Partnership program, the same amount as the budget request, of which $1,000,000 is available only after promulgation of a final rule for the program.

The conference agreement includes language that makes $204,000 available for the American Heritage Rivers program, the same amount as the budget request.

The conferees recognize the long-term nature of the technical assistance work associated with EQIP contracts and recommend that the technical assistance component be reimbursed, from the Commodity Credit Corporation, for all costs associated with new and existing contracts.

In addition to the items in the House and Senate reports that are not changed by the conference agreement, funding is included for the following items: fiscal year 2000 funding level for the National Water Management Center in Arkansas; $290,000 to expand cooperative efforts with Delaware State University as proposed by the House instead of $500,000 as proposed by the Senate; $5,000,000 for pilot projects for technology systems resulting in nutrient reduction in Florida and North Carolina instead of $1,600,000 as proposed by the House; $525,000 for a cooperative agreement with the Georgia Soil and Water Conservation Commission; $750,000 for Hungry Canyon/Loess Hills erosion control instead of $900,000 as proposed by the Senate; $500,000 above the fiscal year 2000 funding level for Chesapeake Bay activities instead of $1,000,000 as proposed by the Senate; $250,000 for the Squirrel Branch drainage project in Mississippi instead of $500,000 as proposed by the Senate; $100,000 for a cooperative agreement for soil erosion and water quality analysis with Alcorn State University; $150,000 for Tallahagga grade stabilization; no funds to implement Phase II for watershed work in Walton, New York instead of $525,000 as proposed by the House; $300,000 for a study to characterize land use change in cooperation with Clemson University instead of $350,000 as proposed by the Senate; $300,000 for Oregon Garden in Silverton instead of $400,000 as proposed by the Senate; $225,000 to test emerging alternative technology to reduce phosphorus loading into Lake Champlain instead of $300,000 as proposed by the Senate; $18,000,000 for the Grazing Lands Conservation Initiative as proposed by the House instead of $17,000,000 as proposed by the Senate; $725,000 for the Great Lakes Basin Program instead of $700,000 as proposed by the House and $750,000 as proposed by the Senate; $1,000,000 above the fiscal year 2000 level for the Wildlife Management Institute for developing and transferring fish and wildife technology to States and field offices; and an increase of $14,060,000 above the fiscal year 2000 funding level for AFO/CAFO instead of $8,660,000 above fiscal year 2000 as proposed by the House.

WATERSHED SURVEYS AND PLANNING

The conference agreement provides $10,868,000 for Watershed Surveys and Planning as proposed by the House instead of $10,705,000 as proposed by the Senate. The conference agreement includes language providing $136,000 for American Heritage Rivers, the same amount as requested in the budget.

WATERSHED AND FLOOD PREVENTION
OPERATIONS

The conference agreement provides $99,443,000 as proposed by the Senate instead of $83,423,000 as proposed by the House. The conference agreement includes $15,000,000 for watersheds authorized under the Flood Control Act of 1936 as proposed by the Senate instead of $12,000,000 as proposed by the House.

The conference report includes a provision that earmarks $8,000,000 of the funds available for Emergency Watershed Protection activities for Mississippi, Wisconsin, New Mexico, and Ohio for financial and technical assistance for pilot rehabilitation projects.

The conference agreement includes funds for a study in cooperation with the town of Johnston, Rhode Island, on floodplain management for the Pocasset River.

In addition to the items in the House and Senate reports that are not changed by the conference agreement, the following item is included: funds for financial assistance to implement Phase II of a multi-year agreement between the NRCS and the Watershed Agricultural Council in Walton, New York including funds to monitor perpetual stewardship easements.

RESOURCE CONSERVATION AND DEVELOPMENT

The conference agreement provides $42,015,000 for Resource Conservation and Development instead of $41,708,000 as proposed by the House and $36,265,000 as proposed by the Senate.

FORESTRY INCENTIVES PROGRAM

The conference agreement provides $6,325,000 for the Forestry Incentives Program as proposed by the Senate. The House bill provided no funds for this account.

TITLE III—RURAL ECONOMIC AND COMMUNITY DEVELOPMENT PROGRAMS

OFFICE OF THE UNDER SECRETARY FOR RURAL DEVELOPMENT

The conference agreement provides $605,000 for the Office of the Under Secretary for Rural Development as proposed by the Senate instead of $588,000 as proposed by the House.

The conferees expect the Department to give consideration to the following requests for assistance from rural development programs: rural business enterprise grants to the Lower Mississippi Delta Development Center in Memphis, TN, the Central Kentucky Growers in Georgetown, KY, the Warren County Port Commission in Vicksburg, MS, and the York (PA) Farmers' Market; assistance from community facilities grant and loan programs for construction of a Filipino community center in Waipahu in Honolulu County, HI; assistance from the distance learning program to the Memphis Mid-south Telemedicine Network Initiative in Tennessee and an outreach program for e-commerce and a high school mentoring program at New Mexico State University; financial assistance to the Town of Newton, MA for upgrades to the sewer system to comply with Clean Water Act standards; funding for the Rockland County (NY) Cornell Cooperative

Extension facility; financial assistance, including use of other federal funds to offset USDA loans, for new wastewater treatment facilities in Beach City, OH, and assistance to deal with the environmental health risk due to the quality of water in Browning and East Glacier, MT located on the Blackfeet Indian Reservation and assistance for a sanitary sewers project in Jerusalem Township, Lucas County, OH.

The conferees expect the Department to apply established review procedures when considering applications.

The conferees direct the Department to fund the completion of a study by the National Ground Water Association that would identify and develop strategies to address economic, legal, technological, or public health issues that must be addressed prior to developing a publicly financed program to assist individual low and moderate income households to secure financing for the installation or refurbishing of individually owned household water well systems.

The conferees recognize the urgent need to provide adequate medical care for the members of the Mississippi Band of Choctaw Indians (the Tribe) and other eligible individuals residing in east central Mississippi including Attala, Winston, Noxubee, Leake, Neshoba, Kemper, Scott, Newton, Jasper, and Jones counties. The Tribe, under the provisions of a Self-Governance Compact with the Indian Health Service/U.S. Department of Health and Human Services is the major provider of comprehensive health care services to this large community. Given the rapid population growth in this community, especially young children, the conferees understand there is a critical need to update, expand and modernize the Tribe's existing medical facilities especially the Choctaw Health Center, the Choctaw Residential Center, and the Tribe's ambulatory medical and dental care facilities in the outlying rural clinics in Red Water, Bogue Chitto, and Conehatta.

RURAL COMMUNITY ADVANCEMENT PROGRAM

The conference agreement provides $762,542,000 for the Rural Community Advancement Program (RCAP) instead of $775,837,000 as proposed by the House and $759,284,000 as proposed by the Senate.

The conference agreement does not include Senate language that specifies program levels within the total made available under the RCAP for assistance to Native Americans. The conferees are aware of housing, utility, business opportunity, and educational infrastructure needs and direct the Department to allocate program benefits in a manner that best serves the requirements of this population, but expect that up to $4,000,000 shall be available for community facility grants for tribal college improvements.

The conference agreement adopts House language setting aside funds provided for Federally Recognized Native American Tribes for technical assistance for rural transportation.

The conference agreement does not adopt House language setting aside $2,000,000 for an agritourism program. The conferees direct the Department to consider requests for agritourism funding and use funds provided under the RCAP to assist meritorious projects.

The conference agreement adopts House language setting aside $5,000,000 for hazardous weather early warning systems.

The conference agreement adopts House language setting aside $5,000,000 for rural partnership technical assistance grants.

The conference agreement does not adopt House language setting aside $2,000,000 for loans to firms that market and process biobased products.

The conference agreement adopts Senate language providing for up to one percent of funds provided for water and waste disposal systems in Alaska for program administration and up to one percent to improve interagency coordination.

The conference agreement adopts Senate language providing $16,125,000 for technical assistance grants.

The conference agreement adopts Senate language setting aside $34,704,000 for Rural Utility Services programs under the Rural Economic Area Partnership Zones.

The conferees direct that of the funds provided for technical assistance for rural waste systems, $7,300,000 be designated for the Rural Community Assistance Program.

The conference agreement includes language provided in title VII to define the use of funds awarded under the Rural Community Development Initiative.

The conferees direct the Department to give priority consideration to applications that will assist producers' transition from tobacco to alternative crops, and to applications that will add value to alternative crops within those states most dependent on tobacco production.

The conferees direct the Department to use RBOG funds for the regional development activities of multi-jurisdictional planning and development organizations serving general purpose units of local government.

The conferees are aware of and encourage the Department to consider applications from the City of Valdez to repair avalanche damage to its water and sewer system through the Water and Waste Disposal Loan and Grants program.

The following table indicates the distribution of funding for the RCAP:

Water/Sewer	$644,360,000
Community Facilities	53,225,000
Business-Cooperative Development	64,957,000
Total	762,542,000
Earmarks:	
Tech. Assist. (water/sewer)	16,215,000
Circuit Rider	9,500,000
Native Americans	24,000,000
Rural Community Development Initiative	6,000,000

RURAL DEVELOPMENT

SALARIES AND EXPENSES

The conference agreement provides $130,371,000 for Rural Development Salaries and Expenses as proposed by the Senate instead of $120,270,000 as proposed by the House.

RURAL HOUSING SERVICE

RURAL HOUSING INSURANCE FUND PROGRAM ACCOUNT

The conference agreement provides a total subsidy of $254,640,000 for activities under the Rural Housing Insurance Fund Program Account as proposed by the House instead of $285,279,000 as proposed by the Senate. The conference agreement provides for an estimated loan program level of $5,068,649,000 instead of $5,073,497,000 as proposed by the House and $4,564,372,000 as proposed by the Senate.

The conference agreement adopts House language providing up to $5,400,000 for a demonstration program in North Carolina on the use of modular housing.

The conference agreement adopts Senate language providing $13,832,000 for empowerment zones and enterprise communities designated as Rural Economic Area Partnership Zones.

The conference agreement adopts Senate language providing for a transfer of $409,233,000 to salaries and expenses.

The following table indicates loan and subsidy levels provided in the conference agreement:

Rural Housing Insurance Fund Program Account:	
Loan authorizations:	
Single family (sec. 502)	($1,100,000,000)
Unsubsidized guaranteed	(3,700,000,000)
Housing repair (sec. 504)	(32,396,000)
Rental housing (sec. 515)	(114,321,000)
Multi-family housing guarantees (sec. 538)	(100,000,000)
Site loans (sec. 524)	(5,152,000)
Credit sales of acquired property	(11,780,000)
Self-help housing land development fund	(5,000,000)
Total, Loan authorizations	(5,068,649,000)
Loan subsidies:	
Single family (sec. 502)	176,760,000
Unsubsidized guaranteed	7,400,000
Housing repair (sec. 504)	11,481,000
Multi-family housing guarantees (sec. 538)	1,520,000
Rental housing (sec. 515)	56,326,000
Site loans (sec. 524)	—
Credit sales of acquired property	874,000
Self-help housing land development fund	279,000
Total, Loan subsidies	254,640,000
RHIF administration expenses (transfer to RHS)	409,233,000
Total, Rural Housing Insurance Fund	1,343,873,000
(Loan authorization)	(5,068,649,000)

RENTAL ASSISTANCE PROGRAM

The conference agreement provides $680,000,000 for the Rental Assistance Program as proposed by the Senate instead of $655,900,000 as proposed by the House.

MUTUAL AND SELF-HELP HOUSING GRANTS

The conference agreement provides $34,000,000 for Mutual and Self-Help Housing Grants as proposed by the Senate instead of $28,000,000 as proposed by the House.

RURAL HOUSING ASSISTANCE GRANTS

The conference agreement provides $44,000,000 for Rural Housing Assistance Grants as proposed by the Senate instead of $39,000,000 as proposed by the House.

The conference agreement adopts Senate language setting aside $5,000,000 for a housing demonstration program for workers in the agriculture, aquaculture and seafood processing industries.

FARM LABOR PROGRAM ACCOUNT

The conference agreement provides $30,000,000 for the Farm Labor Program Account as proposed by the House instead of $28,750,000 as proposed by the Senate. The conference agreement provides $15,000,000 for loan subsidies and $15,000,000 for grants.

The conference agreement does not adopt House language providing $3,000,000 for grants to migrant and seasonal farm workers.

RURAL BUSINESS-COOPERATIVE SERVICE

RURAL DEVELOPMENT LOAN FUND PROGRAM ACCOUNT

The conference agreement adopts Senate language providing for a transfer of $3,640,000 to salaries and expenses.

The conference agreement adopts Senate language setting aside $2,036,000 for Federally Recognized Native American Tribes and $4,072,000 for Mississippi Delta Region counties.

The conferees direct the Department to give priority consideration to applications that will assist producers' transition from tobacco to alternative crops and to applications that will add value to alternative crops within those states most dependent on tobacco production.

RURAL COOPERATIVE DEVELOPMENT GRANTS

The conference agreement provides $6,500,000 for Rural Cooperative Development Grants as proposed by the House instead of $6,000,000 as proposed by the Senate.

The conference agreement adopts House language providing $2,000,000 for the appropriate technology transfer for rural areas program.

The conference agreement adopts Senate language providing not to exceed $1,500,000 for cooperatives or associations of cooperatives, whose primary focus is to provide assistance to small, minority producers.

The conference agreement does not provide for the requested transfer of $2,000,000 from salaries and expenses to fund cooperative research agreements.

NATIONAL SHEEP INDUSTRY IMPROVEMENT CENTER REVOLVING FUND

The conference agreement does not provide $5,000,000 for the National Sheep Industry Improvement Center Revolving Fund as proposed by the House. The Senate bill provided no funds for this program. This matter is addressed in title VII.

RURAL UTILITIES SERVICE

RURAL ELECTRIFICATION AND TELECOMMUNICATIONS LOANS PROGRAM ACCOUNT

The conference agreement provides a total subsidy of $40,374,000 for activities under the Rural Electrification and Telecommunications Loans Program Account as proposed by the Senate instead of $33,270,000 as proposed by the House. The conference agreement provides for an estimated loan program level of $3,111,500,000 as proposed by the Senate instead of $2,040,000,000 as proposed by the House.

The conference agreement adopts Senate language providing for a transfer of $34,716,000 to salaries and expenses.

The following table indicates loan and subsidy levels provided in the conference agreement:

Rural Electrification and Telecommunications Loans Program Account:	
Loan authorizations:	
Electric:	
Direct, 5 percent	($121,500,000)
Direct, Muni	(295,000,000)
Direct, FFB	(1,700,000,000)
Direct, Treasury rate	(500,000,000)
Guaranteed	
Subtotal	(2,616,500,000)
Telecommunications:	
Direct, (5 percent)	(75,000,000)
Direct, Treasury rate	(300,000,000)
Direct, FFB	(120,000,000)
Subtotal	(495,000,000)
Total, loan authorizations	(3,111,500,000)
Loan subsidies:	
Electric:	
Direct, 5 percent	12,101,000
Direct, Muni	20,503,000
Direct, FFB	(1)
Direct, Treasury rate	(1)
Guaranteed	
Subtotal	32,604,000
Telecommunications:	
Direct, 5 percent	7,770,000
Direct, Treasury rate	(1)
Direct, FFB	(1)
Subtotal	7,770,000
Total, loan subsidies	40,374,000
RETLP administrative expenses (transfer to RUS)	34,716,000
Total, Rural Electrification and Telecommunications Loans Program Account	75,090,000
(Loan authorization)	(3,111,500,000)

[1] Negative subsidy rates for fiscal year 2001 are calculated for these programs.

RURAL TELEPHONE BANK PROGRAM ACCOUNT

The conference agreement adopts House language including audits under ''administrative expenses.''

DISTANCE LEARNING AND TELEMEDICINE PROGRAM

The conference agreement provides $27,000,000 for the Distance Learning and Telemedicine Program as proposed by the Senate instead of $19,500,000 as proposed by the House.

The conference agreement adopts Senate language setting aside $2,000,000 for a pilot program to finance broadband transmission and local dial-up service in rural areas as proposed by the Senate instead of $1,400,000 as proposed by the House.

The conferees direct the Department to maintain the current level of funding for grants to rural entities to promote employment of rural residents through teleworking.

TITLE IV—DOMESTIC FOOD PROGRAMS

OFFICE OF THE UNDER SECRETARY FOR FOOD, NUTRITION AND CONSUMER SERVICES

The conference agreement provides $570,000 for the Office of the Under Secretary for Food, Nutrition and Consumer Services as proposed by the Senate instead of $554,000 as proposed by the House.

The conferees want to ensure that farmers participating in the WIC Farmers Market Nutrition Program (FMNP) and the Food Stamp Program (FSP) are able to participate through electronic benefit transfer (EBT) systems. The conferees note that USDA has established the technical feasibility of wireless and other innovative EBT systems for farmers markets, rural route vendors, and other ''non-traditional'' vendors operating without access to standard telephone and electricity service.

The conferees urge the Department to use funds designated for the development of WIC EBT systems to support state initiatives to implement wireless and other innovative EBT solutions for farmers and farmers markets participating in the WIC FMNP and the FSP to enable them to continue participating in these programs.

Nutrition monitoring activities are vital to shaping policies for food safety, child nutrition, food assistance, and dietary guidance. Integration of these activities must ensure that: (1) the quality of the dietary data collected is not diminished; (2) survey methods capture statistically valid intakes of various population groups, especially at-risk groups, and are continually updated to account for changes in dietary patterns and new food technologies; (3) the needs of the many users of these important data are met; and (4) data are made available in a timely manner. The conferees direct the USDA, in consultation with the Department of Health and Human Services, to prepare and submit a report to the House and Senate Committees on Appropriations, by December 31, 2000, that describes the process for integrating the National Health and Nutrition Examination Survey (NHANES) and the Continuing Survey of Food Intakes by Individuals (CSFII). The report should: (1) include a timeline and steps to accomplish the goals set forth in the National Nutrition Monitoring and Related Research Act of 1990; (2) be prepared in consultation with representatives of user groups (i.e., anti-hunger groups, consumer advocates, commodity organizations, food producers, nutrition professionals, and public and voluntary health organizations); (3) address the strengths and potential weaknesses of merging the two surveys and identify how problems will be addressed and by whom; (4) identify funding needs and sources; and (5) include recommendations for inclusion in reauthorization of the National Nutrition Monitoring and Related Research Act.

FOOD AND NUTRITION SERVICE

CHILD NUTRITION PROGRAMS

The conference agreement provides a total of $9,541,539,000 for Child Nutrition Programs as proposed by the Senate instead of $9,535,039,000 as proposed by the House. Included in this amount is an appropriated amount of $4,413,960,000, a transfer from section 32 of $5,127,579,000, $6,000,000 for the school breakfast demonstration project as proposed by the Senate, and $500,000 for a school breakfast pilot project.

The conference agreement provides the following for Child Nutrition programs:

Total Obligational Authority

Child Nutrition Programs:	
School lunch program	$5,387,523,000
School breakfast program	1,495,684,000
Child and adult care food program	1,807,435,000
Summer food service program	323,499,000
Special milk program	16,843,000
State administrative expenses	127,321,000
Commodity procurement and support	360,223,000
School meals initiative/ Team nutrition	10,000,000
School breakfast demonstration project	6,000,000
Coordinated review effort	4,511,000
Food safety education	2,000,000
School breakfast pilot project	500,000
Total	9,541,539,000

The conference agreement includes $500,000 for school breakfast startup grants in Wisconsin. The conferees are aware of an effort initiated and funded by the State of Wisconsin to enhance participation in the school breakfast program and the Department is directed to make available grants to currently

non-participating schools in a manner consistent with that program.

The conferees are aware that the Department has recently issued a final rule regarding the use of alternate protein products in the Child Nutrition Programs. The conferees urge the Department to work with interested organizations to ensure that fortification, name and labeling requirements are sufficient to protect the health, growth, and nutritional well-being of America's school children. The conferees believe that any new requirements for fortification of these protein products should be based on the USDA guidelines that set levels for nutrient fortification of soy-containing foods used in the child nutrition programs. In addition, the conferees encourage that any recommended labeling requirements be consistent with similar guidelines of other Departmental agencies and the Food and Drug Administration.

The conferees recognize the longstanding, high level of expertise in the Food and Nutrition Service in the administration of school lunch programs, and encourage the Secretary to take advantage of this expertise by utilizing Food and Nutrition Service staff in any efforts to help other nations establish such programs.

SPECIAL SUPPLEMENTAL NUTRITION PROGRAM FOR WOMEN, INFANTS, AND CHILDREN (WIC)

The conference agreement provides $4,052,000,000 for the Special Supplemental Nutrition Program for Women, Infants, and Children (WIC) as proposed by the Senate, instead of $4,067,000,000 as proposed by the House. The conference agreement provides sufficient funding to support an average of at least 7.4 million monthly participants in the WIC program, an increase from the projected fiscal year 2000 average monthly participation level of 7.2 million.

The conference agreement provides that the Secretary shall obligate $10,000,000 for the farmers' market nutrition program within 45 days of enactment of this Act, and that the Secretary shall obligate an additional $10,000,000 for this program from funds not needed to meet program participation requirements.

The conference agreement does not include a provision that allows fiscal year 2000 WIC carryover funds to be transferred to other nutrition programs as proposed by the House.

The conference agreement includes a provision that WIC funds shall be made available for sites participating in the WIC program to determine whether a child eligible to participate has received an appropriate blood lead screening test upon the enrollment of the child in the WIC program as proposed by the Senate.

It is not the intent of this conference agreement to detrimentally affect religious beliefs or practices. Nothing in this agreement is intended to preclude a child's participation in the Special Supplemental Nutrition Program for Women, Infants, and Children if a parent objects to his or her child receiving a lead poisoning screening test because such a test would be inconsistent with his or her religious beliefs and practices. Accommodation of religious beliefs and practices shall have no impact whatsoever on the level of funds made available for each site participating in the WIC program.

The conference agreement directs the USDA to release a final rule on WIC delivery systems no later than 90 days after enactment of this Act.

The conferees are aware that the Department is considering changes in the food package to the WIC program. One of those proposals involves the potential exceptions to the current sugar cap for the WIC food package. The sugar cap is an issue that has been studied many times, always with the same conclusion. The consensus from the studies, nutritionists, State WIC directors, sugar commodity associations, and dentists is that no exceptions to the sugar cap should be made. Accordingly, the conferees direct that the Department make no exceptions to the sugar cap. The conferees further direct that no USDA funds be used to investigate this issue further.

FOOD STAMP PROGRAM

The conference agreement provides $20,114,293,000 for the food stamp program instead of $21,221,293,000 as proposed by the Senate and $21,231,993,000 as proposed by the House. Included in this amount is $18,613,293,000 for expenses instead of $19,720,293,000 as proposed by the Senate and $19,730,993,000 as proposed by the House. The recommendation makes a downward adjustment of $1,107,000,000, as reflected in OMB's Mid-Session Review.

The conference agreement does not include Senate language providing for an additional amount, not to exceed $7,300,000, for bison purchases for the Food Distribution Program on Indian Reservations (FDPIR). The conferees encourage the Department to continue and increase, to the extent practicable, purchases of bison for FDPIR and to use every opportunity to acquire purchases from Native American producer and cooperative organizations. The Department should also review program infrastructure needs, including refrigeration, and use program funds, as necessary, to meet existing requirements.

The conferees recognize the severe health problems facing Native Americans, including diabetes and heart disease. The conferees expect the Secretary to purchase bison meat for the FDPIR to promote health benefits in the Native American population.

COMMODITY ASSISTANCE PROGRAM

The conference agreement provides $140,300,000 for the Commodity Assistance Program as proposed by the Senate instead of $138,300,000 as proposed by the House. Included in the amount is $45,000,000 for administration of TEFAP, and $98,300,000 for the Commodity Supplemental Food Program.

The conference agreement includes language that provides $20,781,000 of this appropriation shall be available for administrative expenses of the Commodity Supplemental Food Program.

The conferees are aware of the interest in restoring the income eligibility guideline for senior citizens under the Commodity Supplemental Food Program to 185% of poverty, the same as that used for mothers, infants, and children. The Secretary is encouraged to give positive consideration to this proposal.

FOOD DONATIONS PROGRAM

The conference agreement provides $151,081,000 for the Food Donations Program instead of $161,081,000 as proposed by the House and $141,081,000 as proposed by the Senate. Included in this amount is $150,000,000 for the Elderly Feeding Program.

FOOD PROGRAM ADMINISTRATION

The conference agreement provides $116,807,000 for Food Program Administration as proposed by the Senate instead of $116,392,000 as proposed by the House. Included in this amount is not less than $4,500,000 to improve integrity in the Food Stamp Program and Child Nutrition Program as proposed by the Senate instead of not less than $3,000,000 as proposed by the House.

The conference agreement does not include funds for the Colonias program. The conferees note that over $300,000,000 is estimated to be spent on nutrition education, promotion, and information through USDA's feeding programs. The conferees urge the Department to target funding from these nutrition education, promotion and information programs to the Colonias in the southwestern United States.

TITLE V—FOREIGN ASSISTANCE AND RELATED PROGRAMS

FOREIGN AGRICULTURAL SERVICE

The conference agreement provides $115,424,000 for the Foreign Agricultural Service instead of $113,424,000 as proposed by the Senate and $109,186,000 as proposed by the House. The conference agreement includes $3,120,000 for mandatory pay cost increases and $618,000 for the Foreign Agricultural Service attaché, office in the American Institute in Taiwan.

The conference agreement provides $4,000,000 for the Cochran Fellowship Program and encourages the Secretary to continue to provide additional support for the program through the CCC Emerging Markets Program at the fiscal year 1999 level.

The conference agreement includes $2,000,000 for the Foreign Agricultural Service to administer and oversee emergency and other international food assistance. The Service is expected to undertake activities in support of monetization where there is the highest potential for promoting and enhancing economic growth and development in recipient countries. Further, the Service is directed to specifically expand its presence in Ukraine where there is a strong potential for expansion, and Bulgaria, where there is a need for more adequate administration and monitoring of USDA programs due to the sharp increase in USDA food aid programs in the Balkans. The conferees believe these funds will help build strong U.S. partnerships with emerging economies and enhance exports to develop long-term markets for U.S. agricultural inputs and products.

The conferees direct the Department to provide a quarterly report to the Subcommittees on Agriculture of the House and Senate Appropriations Committees detailing the volume of agricultural imports from and exports to China by commodity.

The conferees understand that there may be the opportunity to resume food assistance to Ukraine in the coming year. The Secretary is encouraged to pursue responsible opportunities for restoring appropriate levels of assistance for this nation, including opportunities for collaborative programs involving research, extension, micro-credit, and business development opportunities.

The Secretary is directed to require that any agreement be transparent, subject to monitoring, and to report to the Committees all steps taken to achieve these requirements before finalizing any agreement.

PUBLIC LAW 480 PROGRAM AND GRANT ACCOUNTS

PUBLIC LAW 480 TITLE I PROGRAM ACCOUNT

The conferees encourage the Department of Agriculture to provide concessional financing through the P.L. 480 title I program to private entities as authorized in P.L. 104–27, the Federal Agriculture Improvement and Reform Act of 1996.

PUBLIC LAW 480 TITLE I OCEAN FREIGHT DIFFERENTIAL GRANTS

The conference agreement adopts Senate bill language requiring prior notice to the

Committees on Appropriations for transfers of funds between title I agreements and title I ocean freight differential.

PUBLIC LAW 480—TITLE II GRANTS

The conference agreement provides $837,000,000 for Public Law 480 title II as proposed by the Senate instead of $770,000,000 as proposed by the House.

The conference agreement does not adopt House bill language providing for transfer of up to 15 percent of title II funds to title III. The conferees note that this provision exists in current law.

The conference agreement does not adopt House bill language providing $1,850,000 for use by the United States Agency for International Development for administrative expenses to carry out title II.

The conferees are aware that loss of commodities under the Public Law 480 food program often occurs as a result of package breakage. The conferees urge the Secretary to evaluate this problem, explore using alternative containers, and to meet regularly with members of private voluntary organizations, the industry, shippers, and millers, to continue to improve the quality of food aid, in terms of its packaging, nutritional content, and other quality aspects.

The following table reflects the conference agreement for Public Law 480 program accounts:

Public Law 480 Program and Grant Accounts:	
Title I—Credit Sales:	
Program level	($180,000,000)
Direct loans	159,678,000
Ocean freight differential	20,322,000
Title II—Commodities for disposition abroad:	
Program level	(837,000,000)
Appropriation	837,000,000
Loan subsidies	114,186,000
Salaries and expenses:	
General Sales Manager (transfer to FAS)	1,035,000
Farm Service Agency (transfer to FSA)	815,000
Subtotal	1,850,000
Total, Public Law 480:	
Program level	(1,017,000,000)
Appropriation	973,358,000

TITLE VI—RELATED AGENCIES AND FOOD AND DRUG ADMINISTRATION

DEPARTMENT OF HEALTH AND HUMAN SERVICES

FOOD AND DRUG ADMINISTRATION

SALARIES AND EXPENSES

The conference agreement provides total appropriations, including Prescription Drug User Fee Act collections, of $1,217,797,000 for the salaries and expenses of the Food and Drug Administration, instead of $1,240,178,000 as proposed by the House and $1,216,796,000 as proposed by the Senate, and provides specific amounts by FDA activity as proposed by the Senate.

The conference agreement does not include a rescission of $27,000,000 as proposed by the House. The conference agreement does not include the subheading ''(Including Rescission)'' as proposed by the House.

The conferees adopt the title VI subheading as proposed by the Senate. The House version differed technically.

The conference agreement does not include a proviso that $3,000,000 may be for activities carried out with regard to new animal drugs, as proposed by the House. However, the conference agreement provides an increase of $3,000,000 for work done within the Center for Veterinary Medicine on antimicrobial resistance. The Senate had no similar provision.

The conference agreement does not include a proviso that, in addition to amounts provided, $6,000,000 shall be made available for food safety activities, as proposed by the Senate. The conference agreement provides the full increase requested for the Food Safety Initiative, $30,000,000, as proposed by the House.

The conference agreement provides that fees derived from applications received during fiscal year 2001 shall be subject to the fiscal year 2001 limitation as proposed by the Senate. The House had no similar provision.

The conference agreement provides the full funding increases from the fiscal year 2000 levels requested in the President's fiscal year 2001 budget for the following activities: $30,000,000 for food safety initiatives; $22,879,000 for premarket review; and $4,783,000 for payments to the General Services Administration for rent and related activities. For other increases requested in the President's fiscal year 2001 budget, the conferees provide the following: $9,000,000 for inspections; $5,000,000 for enforcement of Internet drug sales; $5,000,000 for counter-bioterrorism activities; and $6,800,000 for improvements to FDA's current system of post-approval surveillance to identify adverse events associated with products on the market, subject to existing information confidentiality restrictions.

In addition, the conference agreement provides increases from the fiscal year 2000 levels of $1,000,000 for dietary supplements and $1,000,000 for orphan product grants, as recommended by the Senate; and $1,200,000 for the Office of Generic Drugs to reduce generic drug application review and approval times.

Fiscal year 2000 funds appropriated, but no longer required, for FDA tobacco activities have been made available to cover the $5,000,000 included in the fiscal year 2001 budget request for costs associated with the relocation of the Center for Food Safety and Applied Nutrition to College Park, MD; $21,800,000 included in the fiscal year 2001 budget request for one-time contracts and equipment purchases; and $1,500,000, as recommended by the House, for information technology upgrades for the Office of Generic Drugs. Funding for these one-time cost requirements is not included in the fiscal year 2001 level provided.

The conferees direct that FDA provide $1,500,000 from sums provided for food safety for a contract with New Mexico State University's Physical Science Laboratory to establish an agricultural products testing laboratory in Dona Ana County, New Mexico. The laboratory will conduct rapid screening analyses of fresh fruits and vegetables (imported and domestic) for microbiological contamination of products in the Texas, New Mexico, Arizona area. The laboratory will augment FDA's capabilities and facilitate rapid testing of these perishable products. The conference language replaces similar language in the House report. The Senate had no similar language.

The conferees expect FDA to make final the regulations regarding labeling of irradiated foods by March 1, 2002, and report to the House and Senate Committees on Appropriations on the status by November 15, 2000. This agreement changes the dates proposed for final regulations by the House of September 30, 2001, and by the Senate of October 30, 2001.

The conference agreement does not include House language on treatment of biologic drugs versus that of chemically-based drugs, as related to orphan drug alternatives. Recognizing that the House authorizing committee has recently resumed consideration of this issue, the conferees defer to that action in lieu of that recommended by the House. The Senate had no similar language.

It has been brought to the conferees' attention that makers of electronic facial toning appliances have been informed by the FDA that their products may be ''medical devices'' under the law. The conferees encourage the FDA to consider the companies' claims that products are purely cosmetic and not ''intended to affect the structure or any function of the body.'' Nothing in this conference report language should be taken to diminish or attempt to diminish the responsibility under law for the FDA to continue to protect American consumers. FDA will report to the Appropriations Committees of the House and Senate on their findings.

BUILDINGS AND FACILITIES

The conference agreement provides $31,350,000 for Food and Drug Administration Buildings and Facilities as proposed by the Senate instead of $11,350,000 as proposed by the House.

INDEPENDENT AGENCIES

COMMODITY FUTURES TRADING COMMISSION

The conference agreement provides $68,000,000 for the Commodity Futures Trading Commission instead of $69,000,000 as proposed by the House and $67,100,000 as proposed by the Senate.

The conference agreement adopts Senate language providing not to exceed $1,000 for official reception and representation expenses instead of not to exceed $2,000 as proposed by the House.

The conference agreement does not adopt a House provision providing authority to charge reasonable fees to cover the costs of Commission-sponsored events and activities. The conferees note that this authority exists in permanent law.

TITLE VII—GENERAL PROVISIONS

House and Senate Section 701.—The conference agreement (Section 701) makes funds available for the purchase of passenger motor vehicles in fiscal year 2001 as proposed by the Senate instead of in the ''current fiscal year'' as proposed by the House.

House and Senate Section 704.—The conference agreement includes language (Section 704) that provides that the Secretary of Agriculture may transfer unobligated balances of the USDA to the Working Capital fund for the acquisition of plant and capital equipment of primary benefit to USDA with prior approval from the agency administrator and the Committees on Appropriations.

House and Senate Section 705.—The conference agreement includes language (Section 705) allowing certain funds to remain available until expended.

House Section 709.—The conference agreement does not include a provision as proposed by the House making commodities available to individuals in cases of hardship. The Secretary of Agriculture has this authority.

House Section 713 and Senate Section 712.—The conference agreement includes language (Section 712) that makes funds available for the cost of loans for fiscal year 2001 as proposed by the Senate instead of ''in the current fiscal year'' as proposed by the House.

House Section 714.—The conference agreement does not include a provision that sums

as may be necessary for current fiscal year pay raises shall be absorbed within levels appropriated by this Act as proposed by the House.

House Section 716 and Senate Section 714.—The conference agreement includes permanent language (Section 714) allowing the use of cooperative agreements.

House Section 718 and Senate Section 716.—The conference agreement includes language (Section 716) that provides $1,800,000 for expenses for advisory committees as proposed by the Senate instead of $1,500,000 as proposed by the House.

House Section 723 and Senate Section 721.—The conference agreement includes language (Section 721) that provides for reprogramming procedures in fiscal year 2001.

House Section 724 and Senate Section 722.—The conference agreement includes language (Section 722) regarding limitations on the Fund for Rural America.

House Section 726.—The conference agreement does not contain a limitation on AMTA contract payments for wild rice as proposed by the House. Public Law 106–78 made this provision permanent.

House Section 727 and Senate Section 724.—The conference agreement includes language (Section 724) regarding limitations on the Initiative for Future Agriculture and Food Systems.

House Section 728 and Senate Section 725.—The conference agreement makes permanent a provision (Section 725) regarding participation by farmer-owned cooperatives in commodity purchase programs.

Senate Section 727.—The conference agreement includes language (Section 727) that prohibits the use of funds to close or relocate certain FDA offices in St. Louis, Missouri.

Senate Section 728.—The conference agreement includes language (Section 728) prohibiting the use of funds to reduce staff levels at certain FDA offices in Detroit, Michigan.

House Section 730 and Senate Section 729.—The conference agreement includes language (Section 729) to permanently (1) allow the Agricultural Marketing Service to utilize advertising in conducting consumer education activities, and (2) prohibit the use of funds to carry out certain activities unless the Secretary of Agriculture inspects and certifies agricultural processing equipment and imposes a fee for those activities.

House Section 731 and Senate Section 730.—The conference agreement includes language (Section 730) regarding budget submission requirements related to user fees proposals prior to the date of conference for the fiscal year 2002 appropriations Act.

House Section 732 and Senate Section 731.—The conference agreement includes language (Section 731) that none of the funds appropriated by this Act shall be used to establish an Office of Community Food Security or any similar office within the USDA without prior approval of the Committees on Appropriations of the House and the Senate.

House Section 734.—The conference agreement (Section 733) prohibits the use of funds for certain activities implementing the Kyoto Protocol.

Senate Section 733.—The conference agreement (Section 734) prohibits the use of funds to transfer or convey federal lands and facilities at Fort Reno, OK, without the specific authorization of Congress.

Senate Section 734.—The conference agreement (Section 735) prohibits the use of funds for the implementation of a Support Services Bureau or similar organization.

House Section 735.—The conference agreement does not include language regarding karnal bunt.

Senate Section 735.—The conference agreement (Section 736) contains a provision that raises income eligibility levels for rural development programs.

House Section 736.—The conference agreement (Section 737) makes Lloyd, New York, and Thompson, New York, eligible for certain loans and grants.

Senate Section 736.—The conference agreement (Section 738) contains a permanent provision that disallows the sale or disposal of housing purchased in a foreign country for the agricultural attaché, without the approval of the FAS.

House Section 737.—The conference agreement includes language (Section 739) making permanent a provision that the fee collected by the Secretary of Agriculture for a guaranteed loan may be in an amount equal to not more than 2 percent of the principal obligation of the loan.

House Section 738 and Senate Section 737.—The conference agreement includes language (Section 740) that allows the Secretary to use funds to employ individuals to perform services outside the U.S. as determined to be necessary to carry out programs and activities abroad through the use of Personal Service Agreements.

Senate Section 738.—The conference agreement includes language (Section 741) that prohibits the use of funds to close or relocate a state rural development office until/unless cost effectiveness and enhanced program delivery has been determined.

House Section 739.—The conference agreement includes language (Section 742) that extends the dairy price support program and delays the dairy recourse loan program.

Senate Section 739.—The conference agreement includes language (Section 743) that directs that not more than $25,000,000 worth of commodities made available under the section 416(b) program shall be made available to foreign countries to assist in mitigating the effects of HIV/AIDS.

House Section 740.—The conference agreement (Section 744) provides $2,000,000 for hunger fellowships.

Senate Section 740.—The conference agreement (Section 745) includes the ''Medicine Equity and Drug Safety Act of 2000'' and the ''Prescription Drug Import Fairness Act of 2000'' (Section 746).

House Section 741.—The conference agreement provides language (Section 747) regarding loans in Arkansas.

Senate Section 741.—The conference agreement includes language (Section 748) that amends the Organic Act of 1990 to allow sulfites in the production of wine.

House Section 742.—The conference agreement includes language (Section 749) regarding the Friends of the National Arboretum.

Senate Section 742.—The conference agreement includes language (Section 750) that prohibits the use of funds to discontinue use of FINPACK in the Farm Service Agency (FSA) offices for six months from the date of enactment. The conferees expect the FSA to provide for a smooth and orderly transition to a common computing environment in USDA field service centers. The transition should provide the capability of FSA computer programs to interface with any commercial off-the-shelf software, including FINPACK, that may be used by clients or lending institutions.

House Section 743.—The conference agreement does not include language regarding compensation for the value of lost production due to citrus canker.

Senate Section 743.—The conference agreement (Section 751) makes permanent a provision that any borrower whose income does not exceed 115 percent of the median family income of the U.S. shall be eligible for section 502 housing.

House Section 744.—The conference agreement does not include language regarding alternative protein products.

Senate Section 744.—The conference agreement does not include Sense of the Senate language regarding victims of domestic violence. However, the conferees do agree that to the extent practicable, USDA's Rural Housing Service should work with other public agencies and organizations to provide transitional housing for individuals and families who are homeless as a result of domestic violence.

House Section 745.—The conference agreement includes language (Section 752) that makes ratites and squab slaughtered for human consumption subject to the Poultry Products Inspection Act.

Senate Section 745.—The conference agreement does not include language that prohibits the use of funds to change natural cheese standards. The conferees are aware of technological changes relating to cheese processing and the potential economic and structural changes that might result within the dairy industry. The conferees are also aware of a request recently submitted to the General Accounting Office for a report on this subject and concur that such a request is consistent with that part of Senate Section 745 which requires a study on this subject.

House Section 746.—The conference agreement does not include language regarding previously appropriated funds to compensate nursery stock producers for losses caused by Hurricane Irene.

Senate Section 746.—The conference agreement does not include language regarding the import of Argentine citrus.

House Section 747.—The conference agreement includes language (Section 753) providing guidance for developing the prevention standards for Salmonella Enteritidis.

The conferees share the commitment to egg safety evidenced by the Action Plan to Eliminate Salmonella Enteritidis Illnesses Due to Eggs published on December 10, 1999. The conferees support FDA's current thinking paper on national standards for egg safety dated July 31, 2000. In preparing the regulations to implement the plan, the conferees expect the government agencies to: (1) coordinate federal and state programs to efficiently and effectively implement the standards; (2) consider egg labeling which is consistent with the existing safe handling instructions associated with meat and poultry; (3) consider effective administrative and management practices to ensure consistent nationwide enforcement and implementation of the standards, including (a) cleaning and disinfection, (b) rodent and pest elimination, (c) proper egg washing, (d) biosecurity, (e) refrigeration, (f) testing and verification, and (g) vaccination; (4) consider the appropriate utilization of existing federal, state, or local government agencies currently charged with poultry or egg safety responsibilities (including such aspects of grading as are related to egg safety), in implementing the regulations; (5) conduct traceback procedures in a consistent manner and make such procedures accessible to the public, and employ appropriate inspectional and testing protocols to determine the source of contamination; and (6) consider, as appropriate, the provisions of existing national and state quality assurance programs in establishing regulations that are practical, achievable and cost-effective in accordance with the risk posed to U.S. consumers.

Senate Section 747.—The conference agreement does not include language regarding the Dairy Export Incentive Program. The conferees are concerned that awards for U.S. dairy products under the Dairy Export Incentive Program have not been shipped and the Department has been reluctant to reallocate these amounts for other awards. The conferees direct the Secretary to provide information to the Committees no later than November 1, 2000, relating to a justification for this reluctance, including supporting documentation.

House Section 748.—The conference agreement does not include language regarding loans to poultry farmers.

Senate Section 748.—The conference agreement does not include language that reauthorizes State agricultural mediation programs through 2005. The conference agreement provides annual funding for the program in the appropriate section of the bill.

House Section 749.—The conference agreement includes language (Section 754) extending the time to compensate cotton producers/ginners/others in Georgia.

Senate Section 749.—The conference agreement includes language (Section 755) that adds a section to the Food Security Act of 1985 to make provisions for Good Faith Reliance when the owner/operator is attempting to comply with terms of the contract and enrollment requirements.

House Section 750.—The conference agreement does not include language providing emergency funds for market/quality loss payments for apples and potatoes.

Senate Section 750.—The conference agreement does not include language regarding data collected on imported herbs. The conferees do expect the Secretary of Agriculture to cooperate with the Secretary of the Treasury to establish a framework within which the publication of data regarding herb imports (including through electronic media) may be made available to the public on a monthly basis.

House Section 751.—The conference agreement does not include language exempting oyster fishermen from repaying emergency payments issued erroneously in the State of Connecticut.

House Section 752.—The conference agreement does not include language urging the Secretary of Agriculture to use alternative fuels in meeting the fuel needs of the USDA. This matter is addressed under the Office of the Secretary.

House Section 753.—The conference agreement does not include language regarding reimportation of prescription drugs. This matter is addressed under Sections 745 and 746.

House Section 754.—The conference agreement does not include language regarding reimportation of prescription drugs. This matter is addressed under Sections 745 and 746.

Section 756.—The conference agreement includes language that amends Section 375(e)(6)(B) of the Consolidated Farm and Rural Development Act.

Section 757.—The conference agreement includes language that allows the USDA to retain refunds and rebates from credit card services.

Section 758.—The conference agreement includes a technical correction to the Act of August 19, 1958, to permit section 416(b) food aid programs to operate more efficiently.

Section 759.—The conference agreement includes language that allows Sea Island Health Clinic on Johns Island, South Carolina, to remain eligible for Rural Development community facilities programs.

Section 760.—The conference agreement includes language making certain areas of Dade County, Florida, eligible for business and industry loans.

Section 761.—The conference agreement includes language designating the City of Kewanee and the City of Jacksonville, Illinois, as meeting the requirements of a rural area contained in section 520 of the Housing Act of 1949 permanently.

Section 762.—The conference agreement includes language directing the Chief of the Natural Resources Conservation Service to settle claims associated with the Chuquatonchee Watershed Project in Mississippi from existing funds.

Section 763.—The conference agreement includes language making the Konocti Water District, California, eligible for grants and loans administered by the Rural Utilities Service during fiscal year 2001.

Section 764.—The conference agreement includes language designating Jefferson County, Kentucky, as a rural area for purposes of the business and industry direct and guaranteed loan program during fiscal year 2001.

Section 765.—The conference agreement includes language authorizing the conveyance of a small parcel of land associated with the Beltsville Agricultural Research Center within the Sunnyside Subdivision of Prince George's County, Maryland.

Section 766.—The conference agreement designates up to $500,000 of the funds provided to carry out section 211(a) of the Agricultural Risk Protection Act of 2000 to be used solely for the State of California.

Section 767.—The conference agreement provides for a wildlife services program for injurious animal species.

Section 768.—The conference agreement amends section 412 (d) of the Agricultural Trade Development and Assistance Act of 1954 for dairy value products.

Section 769.—The conference agreement makes the City of Coachella, California, eligible for grants and loans administered by the Rural Development mission areas of USDA for fiscal year 2001.

Section 770.—The conference agreement designates the City of Vicksburg, Mississippi, as meeting the requirements of a rural area in section 520 of the Housing Act of 1949.

Section 771.—The conference agreement provides language instructing the Administrator of the Rural Utilities Service to use the authorities of the Rural Electrification Act of 1936 to finance the acquisition of electricity in predominantly rural areas.

Section 772.—The conference agreement includes language (Section 772) prohibiting the use of funds to promulgate a final rule to change the definition of ''animal'' pursuant to the Animal Welfare Act.

Section 773.—The conference agreement includes language (Section 773) adding ''Indian tribes'' to the Consolidated Farmers Home Administration Act of 1961.

Section 774.—The conference agreement includes language (Section 774) making technical corrections to P.L. 106–246.

Section 775.—The conference agreement includes language (Section 775) modifying the term ''agricultural commodity'' for the purposes of administering Title IX of this Act.

Section 776.—The conference agreement includes language (Section 776) regarding Hamilton Grange.

Section 777.—The conference agreement includes language (Section 777) regarding ''Fallen Timbers Battlefield and Fort Miamis National Historic Site.''

TITLE VIII

Natural Disaster Assistance and Other Emergency Appropriations, Department of Agriculture

The conference agreement includes a new title to provide emergency assistance for agricultural losses of crop production and quality related to natural disasters, conservation needs, market-related problems, relief to rural communities across America and certain USDA administrative requirements. Emergency agricultural assistance was previously included in H.R. 3908, as passed by the House of Representatives on March 30, 2000; H.R. 4461, as passed by the Senate on July 20, 2000; and Public Law 106–246, enacted on July 13, 2000. Items included in H.R. 3908 and H.R. 4461, not previously resolved in P.L. 106–246, were given consideration for inclusion in this conference report.

A number of accounts are included in this conference report which respond to the severe wildfires that have occurred in many states such as Montana and Idaho. The Emergency Conservation Program, Emergency Watershed Program, Livestock Assistance Program (including the American Indian Emergency Feed Assistance Program), Livestock Indemnity Program, and programs within the USDA rural development mission area receive funding in the conference report which will assist in the response and recovery of these affected lands, farming and ranching operations, and rural communities.

Office of the Secretary of Agriculture

Bovine tuberculosis—The conferees expect the Secretary to use all existing authority for the implementation of a program that will prevent and eradicate bovine tuberculosis in Texas, Michigan, and other affected States, to reduce the monetary loss associated with bovine tuberculosis affecting cattle producers. The conferees recognize the importance of this program, and of the complete eradication of bovine tuberculosis. The conferees believe the program should include payments to producers who suffer livestock losses. The conferees direct the Secretary of Agriculture, in consultation with the affected States, to ensure the program shall be administered in such a manner that will reduce the Federal financial burden resulting from the payments made to the producers.

Office of the Chief Information Officer

Common Computing Environment

The conference agreement provides $19,500,000, to remain available until expended, for information technology tools needed to develop and implement a common computing environment in USDA field office service centers.

Departmental Administration

The conference agreement provides $200,000 for activities related to rural business entities.

Animal and Plant Health Inspection Service

salaries and expenses

The conference agreement does not include $7,140,000 to contain and control Pierce's disease as proposed by the House in H.R. 3908. The conferees note that USDA has received emergency funds from the Commodity Credit Corporation for applied research, eradication, and control of Pierce's Disease.

The conference agreement addresses funding for boll weevil eradication in title I of this Act.

FARM SERVICE AGENCY

SALARIES AND EXPENSES

The conference agreement includes $50,000,000, to remain available until expended, for administrative expenses associated with administering provisions of this title.

EMERGENCY CONSERVATION PROGRAM

The conference agreement provides $80,000,000, to remain available until expended, for natural disasters. The conferees intend this funding to address damages incurred on crop lands as a result of the summer fires and drought conditions in certain regions of the country as well as other natural disasters. The conferees further intend for the funding to address the replacement of fences destroyed by the fires.

The conference agreement does not include language to allow the Secretary of Agriculture to use unobligated balances available in the ECP to repair farm buildings and equipment, as proposed by the House in H.R. 3908.

FEDERAL CROP INSURANCE CORPORATION FUND

The conference agreement provides an additional $13,000,000 to provide premium discounts to purchasers of crop insurance reinsured by the Corporation as proposed by the House in H.R. 3908 and the Senate.

NATURAL RESOURCES CONSERVATION SERVICE

WATERSHED AND FLOOD PREVENTION OPERATIONS

The conference agreement provides an additional $110,000,000, to remain available until expended, for watershed and flood prevention operations to reduce hazards to life and property in watersheds damaged by natural disasters. The Natural Resource Conservation Service will provide financial and technical assistance to help repair damage to rivers, streams, reservoirs, and other waterways including: $3,300,000 for the Kuhn Bayou Project in Arkansas; $10,000,000 for the Chino Dairy Preserve in California; $4,000,000 for the Snake River Project in Minnesota; $1,100,000 for DuPage County, Illinois; $8,000,000 for emergency dam rehabilitation projects in Mississippi, Wisconsin, Ohio, and New Mexico; $4,500,000 for Long Park Dam, Utah; $500,000 for floods in Wisconsin; $2,000,000 for the Lower James River in South Dakota; and $2,000,000 to replace, repair, and improve snow telemetry equipment impacted by fire, winds, and fire fighting efforts.

RURAL DEVELOPMENT

The conferees are aware of the efforts of the Coeur d'Alene tribe and private sector investors to operate a strawboard plant in Plummer, Idaho, that provides economic benefits to the community and achieves an environmentally safe method of disposing of blue grass straw. The conferees direct the Department to meet with the plant owners and operators to determine what assistance can be made available to keep the plant in operation.

The conferees urge the Department to consider forgiveness or restructuring for Rural Development loans issued to the Green County, Kentucky, Sanitation District No. 1.

RURAL COMMUNITY ADVANCEMENT PROGRAM

The conference agreement includes an additional $200,000,000 for the Rural Community Advancement Program, instead of $180,000,000 as proposed by the Senate, and $43,000,000 as proposed by the House in H.R. 3908.

The conference agreement includes a provision regarding the availability of grants for rural community facilities for areas with extreme unemployment and severe economic depression as proposed by the Senate.

The conference agreement includes a provision regarding the availability of funds to provide grants in rural communities with extremely high energy costs as proposed by the Senate.

The conference agreement includes a provision regarding assistance to areas in the state of North Carolina subject to a declaration of a major disaster as a result of Hurricanes Floyd, Dennis or Irene.

The conference agreement provides that of the amount appropriated for rural utilities loans and grants, $30,000,000 may be used only in counties which have received an emergency declaration by the President or Secretary of Agriculture after January 1, 2000, for applications responding to water shortages resulting from a designated emergency, including in the states of Texas, Georgia, Montana and Idaho.

The conference agreement includes an additional $50,000,000 for communities facilities loans and grants with a requirement that $25,000,000 of the total be directed to assist recovery efforts in North Carolina from natural disasters.

The conferees are aware of an ongoing wastewater treatment project in Huey, Illinois. The conferees encourage USDA Rural Development to provide adequate funding and technical assistance to complete the project.

RURAL UTILITIES SERVICE

RURAL ELECTRIFICATION AND TELECOMMUNICATIONS LOANS PROGRAM ACCOUNT

The conference agreement does not include any additional funding this account as proposed by the Senate.

GENERAL PROVISIONS—THIS TITLE

Senate Section 1101 and House Section 3101.—The conference agreement includes language (Section 801) that provides an additional $35,000,000 for conservation technical assistance, to remain available until expended.

Senate Section 1102.—The conference agreement includes language (section 802) that extends the period of eligibility for the Livestock Assistance Program.

Senate Section 1103.—The conference agreement includes language (section 803) that conforms the definition of ''livestock'' for the purposes of administering the Livestock Indemnity and Livestock Assistance Programs.

Senate Section 1104.—This matter is addressed in Section 805.

Senate Section 1105.—The conference agreement includes language (section 804) that allows the Secretary of Agriculture to utilize Commodity Credit Corporation funds to provide compensation to growers for losses due to Mexican fruit fly quarantines, plum pox virus, Pierce's disease, grasshopper/Mormon cricket infestations, and watermelon sudden wilt. The conferees note that this funding is in addition to the funding provided in section 203 of P.L. 106–224.

Senate Section 1106.—The conference agreement includes language (section 805) that provides supplemental payments to dairy producers.

Senate Section 1107.—The conference agreement includes language (section 806) that provides $490,000,000 to make and administer payments for livestock losses using criteria established to carry out the 1999 Livestock Assistance Program.

The conferees expect that up to $5,000,000 be provided under this section to the State of Alabama and that those funds shall be used in conjunction with the program administered by the Alabama Department of Agriculture and Industries.

The conferees expect the Department to provide up to $2,000,000 to individuals who raise poultry owned by other individuals for income losses sustained before April 30, 2001, to the extent that the Secretary finds that such losses are the result of Poult Enteritis Mortality Syndrome control programs.

The amount provided includes up to $300,000 for the Montana Department of Agriculture for transportation needs associated with emergency hay and feeding.

The conferees are aware of the extraordinarily bad weather during the past year. As a result of cold temperatures and record rainfall during the early growing season in New York and other parts of the Northeast, the hay crop is substandard in both quantity and quality. The conferees expect that the Secretary of Agriculture will use a portion of the funds available under this section to compensate dairy and livestock producers who suffered losses in their hay crop for purchases of supplemental feed.

Senate Section 1108.—The conference agreement includes language (section 807) that clarifies nursery crop loss eligibility.

Senate Section 1109.—The conference agreement includes language (section 808) that provides authority and technical assistance funding to enroll additional acres into the Wetlands Reserve Program.

Senate Section 1110.—The conference agreement includes language (section 809) that provides up to $2,400,000 in compensation for owners of sheep destroyed pursuant to the Secretary of Agriculture's declarations of July 14, 2000, instead of $4,000,000 as provided by the Senate.

Senate Section 1111 and House general provision 3103.—The conference agreement includes language (section 810) that directs the Secretary of Agriculture to use not more than $58,000,000 for replacement of citrus trees and for compensation for losses as a result of citrus canker, instead of $40,000,000 provided by the Senate and House in H.R. 3908.

Senate Section 1117 and House section 750.—The conference agreement includes language (section 811) regarding quality and market loss assistance for apples and potatoes.

The conference agreement includes language (section 812) that directs the Secretary of Agriculture to make non-recourse marketing assistance loans available to producers of honey.

The conference agreement includes language (section 813) that provides up to $10,000,000 from Commodity Credit Corporation funds for livestock indemnity payments to producers during calendar year 2000 due to disasters, including fires and anthrax.

The conference agreement includes language (section 814) that provides $20,000,000 from Commodity Credit Corporation funds for wool and mohair payments to producers for the 2000 marketing year.

Senate Sections 1114 and 1115.—The conference agreement includes language (section 815) which provides such sums as may be necessary to provide assistance to farmers for losses in production and quality sustained in 2000 due to natural disasters. The conferees expect the Department to administer this program within the general guidelines provided for similar programs enacted in recent years, with the exception of guidelines needed for adverse commodity quality losses.

In the case of grain and oilseed quality losses, the Department is expected to take

into consideration market value reductions experienced by farmers who may be unable to market their production for the end use intended. The conferees are aware that farmers of some commodities adversely impacted by quality factors have not received compensation commensurate with actual value of reduction in the marketplace as a result of past Departmental quality loss procedures. Guidelines are established in this section that direct the Department to calculate the production value reduction of a commodity in an area from the value assigned for such commodities as production loss under this section. The Department is further instructed by the conferees to take every precaution to avoid payment levels reached by artificial or manipulated price fluctuations and to ensure that payments to producers are not at levels in excess of reasonable expectations.

The conferees have provided a mechanism of determining payments that will reduce time of application processing from those periods experienced in recent years. Due to ongoing problems related to depressed prices and the fact that the rural economy has not kept pace with other sectors of the national economy, it is expected that payments made available under this section will be provided in the most efficient and timely manner possible. The conferees note that the separation of production loss calculations from an independent calculation for quality might result in an eligible threshold of loss not being met by separate calculations for the same crop, and that the Secretary may wish to consider an adjustment to the threshold of loss, in equity, to account for economic losses sustained by a combination of both quality and quantity.

Because cotton is stored identity-preserved and its overall quality cannot be improved through blending in warehouses, the Secretary, in carrying out the provisions of this act providing assistance to cotton producers for losses in production (or quantity), quality and other economic losses, should ensure that (1) loss thresholds for quantity losses are determined in a manner that is similar to that used by the Secretary for the 1998 and 1999 crops of cotton; (2) that quality losses are compensated in a manner that is appropriate for cotton; and (3) that market losses, increased expenses (including expenses related to fuel purchases), and other factors that detrimentally affect a cotton producer's net income are included in determining severe economic losses that are to be compensated under subsection (c)(3) of this Act. If there is a category of severe economic loss for which the Secretary did not establish a threshold for the 1998 and 1999 crops, no additional threshold should be established and any loss that qualifies as a severe economic loss under subsection (c)(3) should be compensated.

With respect to the determination of quality losses for the 2000 crop of upland cotton, the Secretary should: (1) determine the value of quality losses in a manner that is similar to that used in implementing weather related disaster losses for the 1998 and 1999 crops and reflected in 7 C.F.R. 1478.17(g); (2) consider that any bale produced in a county that is of a quality that is less than the 5-year county average historical quality premium or discount has suffered a quality loss; and (3) in determining the value of the crop affected by the quality loss that would have applied if the crop had suffered a quantity loss, as provided in subsection (c)(2) for cotton, compare the value of the cotton affected by the quality loss with the value of the cotton if it had not had a reduction in quality.

Finally, in determining whether a cotton producer is eligible to receive a payment for a quality loss under this section, the Secretary should compare the amount of a quality loss payment that the producer would qualify for under subsection (c)(2) (notwithstanding the eligibility requirement in subsection (d)(3)) to the value of those bales of cotton that are affected by quality losses.

Due to the fact that onion growers have experienced weather related disasters three out of the last four years, the Secretary of Agriculture is directed to develop a suitable onion crop loss disaster program for weather related crop and weather related market losses incurred by producers during the 2000 crop year. Further, the conferees expect the Secretary to take into consideration each qualifying producer's pre-1996 production of onions, based on the 5-year average market price for yellow onions when calculating payments under this program.

The conference agreement includes language (section 816) regarding market loss assistance for growers of cranberries. The conferees continue to be concerned about the economic losses sustained by cranberry growers around the country. Prices for fruit paid to growers have declined to historically depressed levels due to enormous surpluses caused by record harvests. Steps taken thus far by the Secretary towards stabilizing prices, including the purchase of agricultural products containing cranberry ingredients, have only marginally reduced existing surpluses and hold out little hope of stabilizing prices. The industry has sought, and the Secretary has approved, a marketing order to help reduce the surplus but the short-term impact on growers will be negative, unless and until prices for the fruit are restored.

Accordingly, the conferees have included $20,000,000 for a market loss assistance payment to cranberry growers. The payment is to be calculated on a per pound basis on each qualifying producer's 1999 production of cranberries subject to a limitation of 1.6 million pounds per separate farm unit as reported to the Cranberry Marketing Committee and would be subject to such other terms and conditions as may be established by the Secretary.

The conferees also have included language to direct the Secretary to use not less than $30,000,000 of additional funds available to the Secretary for commodity purchases, including amounts permanently appropriated under the Section 32 program and additional amounts appropriated for specialty crops pursuant to section 261(a)(2) of the Agricultural Risk Protection Act of 2000 (Pub. L. 106–224; 114 Stat. 427), for the purchase of cranberry juice concentrate and frozen cranberry fruit or their equivalent in removing fruit from current surplus.

In selecting fruit or fruit products for purchase, the Secretary shall consult with industry representatives and representatives of the recipients of Federal food purchase programs to select products which utilize the greatest quantity of fruit at the least cost while providing the maximum nutritional benefit for food purchase recipients.

The conference agreement includes language (section 817) prohibiting the Secretary of Agriculture from terminating contracts established under section 1232(a)(4) of the Food Security Act of 1985 for failure to establish vegetative or water cover under certain conditions.

The conference agreement includes language (section 818) regarding shared appreciation for loans established under section 353(e) of the Consolidated Farm and Rural Development Act.

Senate Section 1112.—The conference agreement includes language (section 819), which allows the Secretary to contribute Commodity Credit Corporation funds for the establishment of a grain dealers' indemnity fund in South Carolina, to be available only if such funding is matched by a grant from the State.

Senate Section 1113.—The conference agreement provides language (section 820) that amends section 211 of the Agricultural Risk Protection Act of 2000 to provide technical assistance to farmers and ranchers and funding for the Wildlife Habitat Incentives Program from funds provided.

The conference agreement includes language (section 821) that reauthorizes the Puerto Rico Food Stamp Block Grant through 2002.

Senate Section 1116.—The conference agreement includes language (section 822) regarding payments to the State of Hawaii from the Commodity Credit Corporation for transportation assistance.

Senate Section 2101.—The conferees have addressed the issue of business and industry loan guarantee eligibility elsewhere in the Act.

Senate Sections 2102, 2103, and 2104.—The conference agreement provides (sections 823, 824, 825, 826, 828, 831) that Emergency Watershed Program funds shall be available for conservation technical and financial assistance for the Long Park Dam, UT; Kuhn Bayou, AR; Snake River Watershed Project, MN; DuPage County, IL; Camp Lejeune project in NC; and Princeville, NC.

Senate Section 2105 and House section 751.—The conference agreement includes language (section 827) that allows oyster farmers to keep payments made to them by USDA.

Senate Section 2107.—The conferees have addressed the issue of Sea Island Health Clinic in Johns Island, South Carolina eligibility for assistance and funding from the Rural Development Community facilities elsewhere in the Act.

The conference agreement includes language (section 829) regarding technical changes to subtitle G, section 262 of P.L. 106–224, The Agricultural

Risk Protection Act of 2000. The technical changes require obligations by a date certain rather than ''expended by'' the same date.

The conference agreement includes language (section 830) regarding the use of emergency conservation funds provided previously for the Cerro Grande fires.

The conference agreement includes language (section 832) regarding funding transfers for the Agricultural Credit Insurance Fund.

Senate Section 2106 and House section 748.—The conference agreement includes language (section 833) regarding emergency loans to poultry producers to rebuild chicken houses.

The conference agreement includes language (section 834) providing $10,000,000 for value-added agricultural product development grants.

The conference agreement includes language (section 835) providing an additional $10,000,000 for the cost of business and industry guaranteed loans.

The conference agreement includes language (section 836) regarding sugar nonrecourse loans.

The conference agreement includes language (section 837) regarding Loan Deficiency Payment limitations for crop year 2000.

The conferees note the importance of the role of loan deficiency payments in helping

offset reductions in net farm income. The conferees direct the Secretary of Agriculture to take into account county production and prices of feed barley and malting barley in establishing county loan rates and loan repayment rates.

The conference agreement includes language (section 838) regarding date extention for marketing assistance loans and loan deficiency payments for rice.

The conference agreement includes a provision (section 839) that allows the Secretary to enter into agreements for the purpose of controlling the buildup of natural fuels that contribute to the threat of wildfires.

The conference agreement includes language (section 840) regarding publication of regulations for this title.

The conference agreement includes language (section 841) regarding tobacco.

The conference agreement includes language (section 842) regarding administrative offsets. The conferees note that the Secretary of Agriculture has in prior years used existing authorities to exempt farm payments from administrative offset, both within the Department of Agriculture and externally. In view of the significant economic hardships faced by farmers and ranchers this year, the third straight year of such hardships, the conferees urge the Secretary of Agriculture to exempt loan deficiency payments and marketing loan gains for year 2000 crops from internal and external administrative offset.

The conference agreement includes language (section 843) providing $20,000,000 to make payments to producers of tomatoes, pears, peaches, and apricots that were unable to market their crops because of agriculture cooperative losses in the state of California.

The conference agreement includes language (section 844) regarding burley tobacco.

The conference agreement includes language (section 845) regarding marketing assistance loans and deficiency loan payment eligibility.

The conference agreement includes language (section 846) regarding food stamp program excess shelter expenses.

The conference agreement includes language (section 847) regarding food stamp program vehicle allowances.

OFFSETS/RESCISSIONS

OFFICE OF THE CHIEF INFORMATION OFFICER

The conference agreement does not provide language that cancels funds in the Office of the Chief Information Officer account that were made available for Year 2000 conversion purposes.

TITLE IX—TRADE SANCTIONS REFORM AND EXPORT ENHANCEMENT

The conference agreement includes the ''Trade Sanctions Reform and Export Enhancement Act of 2000''.

TITLE X—CONTINUED DUMPING AND SUBSIDY OFFSET

The conference agreement includes the ''Continued Dumping and Subsidy Offset Act of 2000''.

TITLE XI—CONSERVATION OF FARMABLE WETLAND

The conference agreement includes language regarding a Conservation Reserve Program pilot in the prairie pothole region of the United States.

TITLE XII—HASS AVOCADO PROMOTION, RESEARCH, AND INFORMATION

The conference agreement includes language regarding avocado research and promotion program.

TITLE XIII—DEBT REDUCTION

The conference agreement includes language that reduces the public debt of the United States.

CONFERENCE TOTAL—WITH COMPARISONS

The total new budget (obligational) authority for the fiscal year 2001 recommended by the Committee of Conference, with comparisons to the fiscal year 2000 amount, the 2001 budget estimates, and the House and Senate bills for 2001 follow:

[In thousands of dollars]

New budget (obligational) authority, fiscal year 2000	$84,312,546
Budget estimates of new (obligational) authority, fiscal year 2001	76,785,597
House bill, fiscal year 2001	75,264,494
Senate bill, fiscal year 2001	75,356,809
Conference agreement, fiscal year 2001	78,139,809
Conference agreement compared with:	
New budget (obligational) authority, fiscal year 2000	−6,172,737
Budget estimates of new (obligational) authority, fiscal year 2001	+1,354,212
House bill, fiscal year 2001	+2,875,315
Senate bill, fiscal year 2001	+2,783,000

ADJOURNMENT TO TUESDAY, OCTOBER 10, 2000

Mr. YOUNG of Florida. Mr. Speaker, I ask unanimous consent that when the House adjourns today, it adjourn to meet at 12:30 p.m. on Tuesday, October 10, 2000.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Florida?

There was no objection.

DISPENSING WITH CALENDAR WEDNESDAY BUSINESS ON WEDNESDAY NEXT

Mr. YOUNG of Florida. Mr. Speaker, I ask unanimous consent that the business in order under the Calendar Wednesday rule be dispensed with on Wednesday next.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Florida?

There was no objection.

LEAVE OF ABSENCE

By unanimous consent, leave of absence was granted to:

Ms. WATERS (at the request of Mr. GEPHARDT) for today on account of business in the district.

Ms. CARSON (at the request of Mr. GEPHARDT) for today on account of official business.

Mr. MEEKS of New York (at the request of Mr. GEPHARDT) for today on account of personal business.

Mr. PASCRELL (at the request of Mr. GEPHARDT) for today after 1:30 p.m. on account of official business.

Mr. REYES (at the request of Mr. GEPHARDT) for today on account of official business.

Mr. STARK (at the request of Mr. GEPHARDT) for today after 12:30 p.m. on account of medical reasons.

Mr. DIAZ-BALART (at the request of Mr. ARMEY) for today on account of touring flood damage with the director of the Federal Emergency Management Agency.

Mrs. FOWLER (at the request of Mr. ARMEY) for today after 1:00 p.m. on account of official business.

Mr. HEFLEY (at the request of Mr. ARMEY) for today and October 3 on account of illness.

SPECIAL ORDERS GRANTED

By unanimous consent, permission to address the House, following the legislative program and any special orders heretofore entered, was granted to:

(The following Members (at the request of Mr. BROWN of Ohio) to revise and extend their remarks and include extraneous material:)

Mr. BROWN of Ohio, for 5 minutes, today.

Mr. PALLONE, for 5 minutes, today.

Mr. FILNER, for 5 minutes, today.

Mr. GEJDENSON, for 5 minutes, today.

(The following Members (at the request of Mr. SMITH of Michigan) to revise and extend their remarks and include extraneous material:)

Mr. PORTER, for 5 minutes, October 10.

(The following Member (at his own request) to revise and extend his remarks and include extraneous material:)

Mr. SMITH of Michigan, for 5 minutes, today.

SENATE BILLS REFERRED

Bills of the Senate of the following titles were taken from the Speaker's table and, under the rule, referred as follows:

S. 134. An act to direct the Secretary of the Interior to study whether the Apostle Islands National Lakeshore should be protected as a wilderness area; to the Committee on Resources.

S. 1367. An act to amend the Act which established the Saint-Gaudens National Historic Site, in the State of New Hampshire, by modifying the boundary and for other purposes; to the Committee on Resources.

S. 1534. An act to reauthorize the Coastal Zone Management Act, and for other purposes; to the Committee on Resources; in addition to the Committee on Transportation and Infrastructure for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

S. 1670. An act to revise the boundary of Fort Matanzas National Monument, and for other purposes; to the Committee on Resources.

S. 1972. An act to direct the Secretary of Agriculture to convey to the town of Dolores, Colorado, the current site of the Joe Rowell Park; to the Committee on Resources.

S. 2069. An act to permit the conveyance of certain land in Powell, Wyoming; to the Committee on Resources.

S. 2273. An act to establish the Black Rock Desert-High Rock Canyon Emigrant Trails National Conservation Area, and for other purposes; to the Committee on Resources.

S. 2300. An act to amend the Mineral Leasing Act to increase the maximum acreage of Federal leases for coal that may be held by an entity in any 1 State; to the Committee on Resources.

S. 2345. An act to direct the Secretary of the Interior to conduct a special resource study concerning the preservation and public use of sites associated with Harriet Tubman located in Auburn, New York, and for other purposes; to the Committee on Resources.

S. 2439. An act to authorize the appropriation of funds for the construction of the Southeastern Alaska Intertic system, and for other purposes; to the Committee on Commerce.

S. 2478. An act to require the Secretary of the Interior to conduct a theme study on the peopling of America, and for other purposes; to the Committee on Resources.

S. 2485. An act to direct the Secretary of the Interior to provide assistance in planning and constructing a regional heritage center in Calais, Maine; to the Committee on Resources.

S. 2499. An act to extend the deadline for commencement of construction of a hydroelectric project in the State of Pennsylvania; to the Committee on Commerce.

S. 2691. An act to provide further protections for the watershed of the Little Sandy River as part of the Bull Run Watershed Management Unit, Oregon, and for other purposes; to the Committee on Resources; in addition to the Committee on Agriculture for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

S. 2749. An act to establish the California Trail Interpretive Center in Elko, Nevada, to facilitate the interpretation of the history of development and use of trails in the settling of the western portion of the United States to the Committee on Resources.

S. 2865. An act to designate certain land of the National Forest System located in the State of Virginia as wilderness; to the Committee on Resources; in addition to the Committee on Agriculture for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

S. 2885. An act to establish the Jamestown 400th Commemoration Commission, and for other purposes; to the Committee on Government Reform.

S. 2942. An act to extend the deadline for commencement of construction of certain hydroelectric projects in the State of West Virginia; to the Committee on Commerce.

S. 2950. An act to authorize the Secretary of the Interior to establish the Sand Creek Massacre National Historic Site in the State of Colorado; to the Committee on Resources.

ENROLLED BILLS SIGNED

Mr. THOMAS, from the Committee on House Administration, reported that that committee had examined and found truly enrolled bills of the House of the following titles, which were thereupon signed by the Speaker:

H.R. 1143. An act to establish a program to provide assistance for programs of credit and other financial services for microenterprises in developing countries, and for other purposes.

H.R. 1162. An act to designate the bridge on United States Route 231 that crosses the Ohio river between Maceo, Kentucky, and Rockport, Indiana, as the ''William H. Natcher Bridge''.

H.R. 1605. An act to designate the Federal building and United States courthouse located at 402 North Walnut Street in Harrison, Arkansas, as the ''J. Smith Henley Federal Building and United States Courthouse''.

H.R. 4318. An act to establish the Red River National Wildlife Refuge.

H.R. 4578. An act making appropriations for the Department of the Interior and related agencies for the fiscal year ending September 30, 2001, and for other purposes.

H.R. 4642. An act to make certain personnel flexibilities available with respect to the General Accounting Office, and for other purposes.

H.R. 4806. An act to designate the Federal building located at 1710 Alabama Avenue in Jasper, Alabama, as the ''Carl Elliott Federal Building''.

H.R. 5284. An act to designate the United States customhouse located at 101 East Main Street in Norfolk, Virginia, as the ''Owen B. Pickett United States Customhouse.''.

ADJOURNMENT

Mr. YOUNG of Florida. Mr. Speaker, I move that the House do now adjourn.

The motion was agreed to; accordingly (at 10 o'clock and 01 minute p.m.), under its previous order, the House adjourned until Tuesday October 10, 2000, at 12:30 p.m., for morning hour debates.

EXECUTIVE COMMUNICATIONS, ETC.

Under clause 8 of rule XII, executive communications were taken from the Speaker's table and referred as follows:

10493. A letter from the Secretary of Defense, transmitting the approved retirement and advancement to the grade of lieutentant general on the retired list of Lieutentant General Randolph W. House, United States Army; to the Committee on Armed Services.

10494. A letter from the Secretary of Defense, transmitting the approved retirement and advancement to the grade of Admiral on the retirement list of Admiral Charles S, Abbot, United States Navy; to the Committee on Armed Services.

10495. A letter from the Secretary, Department of Health and Human Services, transmitting the biennial report on activities and progress toward the prevention and treatment of addictive and mental disorders prepared by the Substance Abuse and Mental Health Services Administration (SAMHSA), pursuant to 42 U.S.C. 290gg(f)(2); to the Committee on Commerce.

10496. A letter from the Secretary, Department of the Treasury, transmitting an annual report to the President and to the Congress on the audit of the Telecommunications Development Fund, pursuant to 47 U.S.C. 614; to the Committee on Commerce.

10497. A letter from the Director, International Cooperation, Acquisition and Technology, Department of Defense, transmitting a copy of Transmittal No. 21–00 which constitutes a Request for Final Approval for the of Agreement concerning the Unmanned Aerial Vehicle (UAV) Airborne Communications Node Demonstration Project, pursuant to 22 U.S.C. 2767(f); to the Committee on International Relations.

10498. A letter from the Chief Executive Officer, Corporation For National Service, transmitting the Corporation's strategic plan for fiscal years 2000 to 2005; to the Committee on Government Reform.

10499. A letter from the Deputy Chief Financial Officer, Environmental Protection Agency, transmitting the Strategic Plan for FY 2000–2005; to the Committee on Government Reform.

10500. A letter from the Chairman, Federal Communications Commission, transmitting the Strategic Plan, entitled, ''A New FCC for the 21st Century''; to the Committee on Government Reform.

10501. A letter from the Executive Director, Federal Reserve Employee Benefits System, transmitting transmitting the annual report disclosing the financial condition of the Retirement Plan and Annual Report as required by Public Law 95–595, pursuant to 31 U.S.C. 9503(a)(1)(B); to the Committee on Government Reform.

10502. A letter from the Director, National Gallery of Art, transmitting the Year 2000 Inventory's Annual Report On Agency Management of Commercial Activities; to the Committee on Government Reform.

10503. A letter from the Secretary of the Treasury, transmitting the strategic plan for fiscal years 2000 through 2005; to the Committee on Government Reform.

10504. A letter from the Chairman, Securities and Exchange Commission, transmitting the strategic plan for fiscal years 2000–2005; to the Committee on Government Reform.

10505. A letter from the Program Analyst, FAA, Department of Transportation, transmitting the Department's final rule—Standard Instrument Approach Procedures; Miscellaneous Amendments [Docket No. 30193;

Amdt. No. 2011] received October 6, 2000, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

10506. A letter from the Program Analyst, FAA, Department of Transportation, transmitting the Department's final rule—Standard Instrument Approach Procedures; Miscellaneous Amendments [Docket No. 30192] received October 6, 2000, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

10507. A letter from the Program Analyst, FAA, Department of Transportation, transmitting the Department's final rule—Modification of Class D Airspace; Gary, IN; and establishment of Class E Airspace; Gary, IN [Airspace Docket No. 00–AGL–16] received October 6, 2000, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

10508. A letter from the Program Analyst, FAA, Department of Transportation, transmitting the Department's final rule—Revision of Class E airspace, Duchesne, UT [Airspace Docket No. 00–ANM–08] received October 6, 2000, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

10509. A letter from the Program Analyst, FAA, Department of Transportation, transmitting the Department's final rule—Airspace Designations; Incorporation By Reference [Docket No. 29334; Amendment No. 71–32] received October 6, 2000, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

10510. A letter from the Chief, Regulations Unit, Internal Revenue Service, transmitting the Service's final rule—Section 832 Discount Factors for 2000 [Rev. Proc. 2000–45] received October 6, 2000, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Ways and Means.

10511. A letter from the Chief, Regulations Unit, Internal Revenue Service, transmitting the Service's final rule—Rabbi Trust Notice [Notice 2000–56] received October 6, 2000, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Ways and Means.

10512. A letter from the Chief, Regulations Unit, Internal Revenue Service, transmitting the Service's final rule—Section 846 Discount Factors for 2000 [Rev. Proc. 2000–44] received October 6, 2000, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Ways and Means.

10513. A letter from the Director, Office of Thrift Supervision, transmitting the Annual Consumer Report to Congress; jointly to the Committees on Banking and Financial Services and Commerce.

REPORTS OF COMMITTEES ON PUBLIC BILLS AND RESOLUTIONS

Under clause 2 of rule XIII; reports of committee were delivered to the Clerk for printing and reference to the proper calendar, as follows:

Mr. SHUSTER: Committee on Transportation and Infrastructure. H.R. 828. A bill to amend the Federal Water Pollution Control Act to require that discharges from combined storm and sanitary sewers conform to the Combined Sewer Overflow Control Policy of the Environmental Protection Agency, and for other purposes; with an amendment (Rept. 106–943). Referred to the Committee of the Whole House on the State of the Union.

Mr. YOUNG of Alaska: Committee on Resources. S. 964 An act to provide for equitable compensation for the Cheyenne River Sioux Tribe, and for other purposes (Rept. 106–944). Referred to the Committee of the Whole House on the State of the Union.

Mr. SPENCE: Committee of Conference. Conference report on H.R. 4205. A bill to authorize appropriations for fiscal year 2001 for military activities of the Department of Defense and for military construction, to prescribe military personnel strengths for fiscal year 2001, and for other purposes (Rept. 106–945). Ordered to be printed.

Mr. BLILEY: Committee on Commerce. H.R. 2592. A bill to amend the Consumer Product Safety Act to provide that low-speed electric bicycles are consumer products subject to such Act: with an amendment (Rept. 106–946). Referred to the Committee of the Whole House on the State of the Union.

Mr. YOUNG of Alaska: Committee on Resources. S. 1288. An act to provide incentives for collaborative forest restoration projects on National Forest System and other public lands in New Mexico, and for other purposes (Rept. 106–947 Pt. 1). Ordered to be printed.

Mr. SKEEN: Committee of Conference. Conference report on H.R. 4461. A bill making appropriations for Agriculture, Rural Development, Food and Drug Administration and Related Agencies programs for the fiscal year ending September 30, 2001, and for other purposes (Rept. 106–948). Ordered to be printed.

DISCHARGE OF COMMITTEE

Pursuant to clause 5 of rule X the Committee on Ways and Means discharged. H.R. 3673 referred to the Committee of the Whole House on the State of the Union and ordered to be printed.

TIME LIMITATION OF REFERRED BILL

Pursuant to clause 5 of rule X the following action was taken by the Speaker:

H.R. 1882. Referral to the Committee on Ways and Means extended for a period ending not later than October 13, 2000.

H.R. 2580. Referral to the Committee on Transportation and Infrastructure extended for a period ending not later than October 13, 2000.

H.R. 4585. Referral to the Committee on Commerce extended for a period ending not later than October 13, 2000.

PUBLIC BILLS AND RESOLUTIONS

Under clause 2 of rule XII, public bills and resolutions of the following titles were introduced and severally referred, as follows:

By Mr. SPENCE:

H.R. 5408. A bill to authorize appropriations for fiscal year 2001 for military activities of the Department of Defense, for military construction, and for defense activities of the Department of Energy, to prescribe personnel strengths for such fiscal year for the Armed Forces, and for other purposes; to the Committee on Armed Services, and in addition to the Committees on Commerce, Education and the Workforce, Government Reform, International Relations, the Judiciary, Resources, Science, Transportation and Infrastructure, Veterans' Affairs, Ways and Means, and Intelligence (Permanent Select), for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Mr. SMITH of Michigan:

H.R. 5409. A bill to extend for 9 additional months the period for which chapter 12 of title 11 of the United States Code is reenacted; to the Committee on the Judiciary.

By Mr. THOMAS (for himself, Mr. HOYER, Mr. BOEHNER, Mr. EHLERS, Mr. NEY, Mr. MICA, Mr. LINDER, and Mr. FATTAH):

H.R. 5410. A bill to establish revolving funds for the operation of certain programs and activities of the Library of Congress, and for other purposes; to the Committee on House Administration.

By Mr. COOK:

H.R. 5411. A bill to direct the Secretary of Transportation to permit the State of Utah to construct a hook ramp as part of the highway project to reconstruct the interchange at Interstate Route 15 and University Parkway in Orem, Utah; to the Committee on Transportation and Infrastructure.

By Mr. DEAL of Georgia:

H.R. 5412. A bill to amend the Social Security Act to eliminate the five-month waiting period in the disability insurance program, and for other purposes; to the Committee on Ways and Means.

By Mr. DINGELL:

H.R. 5413. A bill to require the Secretary of Transportation to issue regulations addressing safety concerns in minimizing delay for automobile traffic at railroad grade crossings; to the Committee on Transportation and Infrastructure.

By Mr. FILNER:

H.R. 5414. A bill to promote global efforts to protect biological diversity by protecting the Tongass Rain Forest, the United States' largest temperate rain forest, and for other purposes; to the Committee on Resources.

By Mr. FILNER (for himself and Mr. KUCINICH):

H.R. 5415. A bill to amend the Internal Revenue Code of 1986 to impose a windfall profit tax on wholesale electric energy sold in the Western System Coordinating Council; to the Committee on Ways and Means.

By Mr. HOUGHTON:

H.R. 5416. A bill to promote economic development and stability in Southeast Europe by providing countries in that region with additional trade benefits; to the Committee on Ways and Means.

By Mr. LAFALCE (for himself, Mr. GEPHARDT, Mr. FRANK of Massachusetts, Mr. LEACH, Mr. KANJORSKI, Ms. WATERS, Mr. SANDERS, Mrs. ROUKEMA, Mr. BAKER, Mr. LAZIO, Mrs. MALONEY of New York, Mr. GUTIERREZ, Ms. VELÁQUEZ, Mr. WATT of North Carolina, Mr. ACKERMAN, Mr. BENTSEN, Mr. MALONEY of Connecticut, Ms. HOOLEY of Oregon, Ms. CARSON, Mr. WEYGAND, Mr. SHERMAN, Mr. SANDLIN, Mr. MEEKS of New York, Ms. LEE, Mr. MASCARA, Mr. INSLEE, Ms. SCHAKOWSKY, Mr. MOORE, Mr. GONZALEZ, Mrs. JONES of Ohio, Mr. CAPUANO, Mr. FORBES, Mr. CASTLE, Mr. CAMPBELL, Mr. NEY, Mrs. KELLY, Mr. PAUL, Mr. LATOURETTE, Mrs. BIGGERT, Mr. TOOMEY, Mr. OBERSTAR, Mr. SABO, Mr. MINGE, Mr. WISE, Mr. NADLER, Mr. DAVIS of Illinois, Mr. TIERNEY, Mr. WAXMAN, Mrs. TAUSCHER, Mr. GREEN of Texas, Mr. EVANS, Mrs. MINK of Hawaii, Mr. SPRATT, Ms. BALDWIN, Mr. NEAL of Massachusetts, Mr. MEEHAN, Ms. ROYBAL-ALLARD, Ms. DANNER, Mr. DIXON, Mr. BROWN of Ohio, Mr. BOSWELL, Mr. MCGOVERN, Mrs. NAPOLITANO, Ms. MILLENDER-MCDONALD, and Mr. LUCAS of Oklahoma):

H.R. 5417. A bill to rename the Stewart B. McKinney Homeless Assistance Act as the ''McKinney-Vento Homeless Assistance Act''; to the Committee on Banking and Financial Services.

By Mr. PITTS (for himself, Mr. SHUSTER, Mr. MURTHA, Mr. GEKAS, Mr. GOODLING, Mr. PETERSON of Pennsylvania, Mr. TOOMEY, Mr. GREENWOOD, Mr. BORSKI, Mr. SHERWOOD, Mr. FATTAH, Mr. HOLDEN, Mr. ENGLISH, Mr. KANJORSKI, Mr. KLINK, Mr. BRADY of Pennsylvania, Mr. WELDON of Pennsylvania, Mr. HOEFFEL, and Mr. MASCARA):

H.R. 5418. A bill to designate the facility of the United States Postal Service located at 431 North George Street in Millersville, Pennsylvania, as the ''Robert S. Walker Post Office''; to the Committee on Government Reform.

By Ms. PRYCE of Ohio (for herself and Mrs. CAPPS):

H.R. 5419. A bill to amend the Public Health Service Act to establish a demonstration project at the National Cancer Institute to provide funding for research concerning the prevention, diagnosis, treatment, and cure for cancer; to the Committee on Commerce.

By Mr. ROYCE:

H.R. 5420. A bill to establish a National Commission to Eliminate Waste in Government; to the Committee on Government Reform.

By Mr. SHAW (for himself and Mr. STARK):

H.R. 5421. A bill to amend the Internal Revenue Code of 1986 to impose an excise tax on persons who acquire structured settlement payments in factoring transactions, and for other purposes; to the Committee on Ways and Means.

By Mr. SHAW (for himself, Mr. STUPAK, Mr. BOEHLERT, and Mr. METCALF):

H.R. 5422. A bill to require the Administrator of the Environmental Protection Agency to establish an integrated environmental reporting program; to the Committee on Commerce, and in addition to the Committee on Transportation and Infrastructure, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Mr. SIMPSON (for himself, Mr. ABERCROMBIE, Mr. BAKER, Mr. BARCIA, Mr. BARRETT of Nebraska, Mrs. CHENOWETH-HAGE, Mr. COMBEST, Mrs. CUBIN, Mr. FOLEY, Mr. HASTINGS of Florida, Mr. HASTINGS of Washington, Mr. JEFFERSON, Mr. JOHN, Ms. KAPTUR, Mr. MINGE, Mrs. MINK of Hawaii, Mr. NETHERCUTT, Mr. POMEROY, Mr. SCHAFFER, Mr. TAUZIN, and Mrs. THURMAN):

H.R. 5423. A bill to amend the Harmonized Tariff Schedule of the United States to prevent circumvention of the sugar tariff-rate quotas; to the Committee on Ways and Means.

By Mr. WELDON of Pennsylvania:

H.R. 5424. A bill to amend the Housing and Community Development Act of 1974 to authorize communities receiving community development block grants to use grant amounts to provide assistance to local firefighting, emergency medical, and rescue services; to the Committee on Banking and Financial Services.

By Mr. WELDON of Pennsylvania:

H.R. 5425. A bill to amend the National and Community Service Act of 1990 to include participation in a volunteer firefighting agency as one of the national service programs specifically authorized to receive assistance under the AmeriCorps program; to the Committee on Education and the Workforce.

By Mr. SKEEN:

H.R. 5426. A bill making appropriations for Agriculture, Rural Development, Food and Drug Administration, and Related Programs for the fiscal year ending September 30, 2001, and for other purposes; to the Committee on Appropriations.

By Mr. STUMP (for himself and Mr. HYDE):

H. Con. Res. 419. Concurrent resolution expressing the sense of Congress on the propriety and need for expeditious construction of the National World War II Memorial at the Rainbow Pool on the National Mall in the Nation's Capitol; to the Committee on Resources.

By Mr. ACKERMAN (for himself and Mr. GEJDENSON):

H. Res. 614. A resolution condemning the Government of Iran for the continued imprisonment of 10 Jews and 2 Muslims on false charges of espionage and urging the President to sustain United States sanctions against Iran, including opposition to assistance provided by international institutions, and for other purposes; to the Committee on International Relations.

ADDITIONAL SPONSORS

Under clause 7 of rule XII, sponsors were added to public bills and resolutions as follows:

H.R. 303: Mr. CUMMINGS.

H.R. 352: Mr. WALDEN of Oregon.

H.R. 453: Ms. SCHAKOWSKY and Mr. GALLEGLY.

H.R. 455: Mr. BACA.

H.R. 531: Mr. LEACH.

H.R. 762: Mr. LOBIONDO.

H.R. 1194: Mr. MINGE.

H.R. 1228: Mr. CONYERS, Mrs. CLAYTON, Mr. KUCINICH, and Mr. PRICE of North Carolina.

H.R. 1640: Mr. KENNEDY of Rhode Island.

H.R. 1870: Mr. GEJDENSON.

H.R. 2341: Ms. EDDIE BERNICE JOHNSON of Texas, Mr. HASTINGS of Washington, Mr. SMITH of Michigan, Mr. WALDEN of Oregon, and Mr. BASS.

H.R. 2457: Mr. CRAMER, Mr. WEXLER, Mr. COOK, Mr. HASTINGS of Florida, Mr. LARSON, Mr. LAMPSON, Mr. BURTON of Indiana, Mrs. JONES of Ohio, Mr. BLUMENAUER, Mr. LOBIONDO, Mr. DEFAZIO, Mr. JACKSON of Illinois, Mr. MCDERMOTT, Mrs. NAPOLITANO, Mr. SCOTT, Mr. LAZIO, Mr. KLECZKA, and Mr. TIERNEY.

H.R. 2505: Mr. KLINK.

H.R. 2738: Mr. BLAGOJEVICH.

H.R. 2774: Ms. NORTON.

H.R. 2907: Mr. CAPUANO, Mr. BONIOR, Mr. BERMAN, and Ms. CARSON.

H.R. 3004: Mr. LEWIS of Georgia and Mr. INSLEE.

H.R. 3249: Mr. UDALL of Colorado and Mr. HYDE.

H.R. 3377: Mr. GEJDENSON.

H.R. 3700: Ms. DELAURO, Mr. WU, and Mr. SNYDER.

H.R. 3905: Mr. HOBSON.

H.R. 4025: Mr. BOEHLERT.

H.R. 4178: Mr. SISISKY.

H.R. 4257: Mr. JONES of North Carolina.

H.R. 4390: Mr. WEXLER.

H.R. 4415: Mr. BONIOR.

H.R. 4434: Mr. WALSH.

H.R. 4453: Mrs. TAUSCHER.

H.R. 4467: Mr. THUNE.

H.R. 4493: Mr. HINCHEY.

H.R. 4501: Mr. LEWIS of California, Mr. COX, and Mr. CAMPBELL.

H.R. 4506: Mr. MCHUGH, Ms. DANNER, and Mr. WEYGAND.

H.R. 4570: Mr. LATHAM and Mr. ISAKSON.

H.R. 4571: Mr. WAMP, Mrs. MORELLA, Mr. BILBRAY, Mr. KILDEE, Ms. SCHAKOWSKY, Mr. BENTSEN, Mr. BOEHNER, Ms. CARSON, Mr. MCINTYRE, Mr. WELLER, and Mr. BLAGOJEVICH.

H.R. 4614: Mr. HOEFFEL.

H.R. 4707: Ms. MILLENDER-MCDONALD, Mr. PAYNE, and Mr. MCCOLLUM.

H.R. 4715: Mr. KLECZKA.

H.R. 4728: Mr. LUCAS of Kentucky, Mr. TANNER, Mr. CANNON, Mr. DAVIS of Illinois, Mr. WEINER, Mr. OWENS, Mr. DAVIS of Virginia, Mr. ISAKSON, and Mr. ALLEN.

H.R. 4740: Ms. NORTON, Mrs. CAPPS, and Mr. PRICE of North Carolina.

H.R. 4792: Mr. DEFAZIO.

H.R. 4794: Ms. DELAURO.

H.R. 4802: Mr. GREEN of Texas, Mr. BUYER, and Mr. BONILLA.

H.R. 4857: Mr. BILBRAY.

H.R. 4927: Mr. HOEFFEL.

H.R. 5027: Mr. KOLBE.

H.R. 5099: Mr. MINGE.

H.R. 5110: Mr. GARY MILLER of California.

H.R. 5121: Mr. WEXLER and Mr. BLAGOJEVICH.

H.R. 5132: Mr. PRICE of North Carolina, Mr. WELDON of Pennsylvania, and Mr. BERMAN.

H.R. 5137: Mr. BILBRAY, Mr. BACHUS, and Mr. LEVIN.

H.R. 5151: Mr. BONIOR.

H.R. 5152: Mr. DICKS.

H.R. 5163: Mr. ANDREWS, Mr. MORAN of Kansas, and Ms. WOOLSEY.

H.R. 5164: Mr. GILLMOR.

H.R. 5172: Mr. DEUTSCH, Mr. MCINTYRE, Ms. DANNER, Mr. DOOLEY of California, Mr. WELLER, Ms. STABENOW and Ms. CARSON.

H.R. 5232: Ms. SCHAKOWSKY.

H.R. 5247: Mr. DEFAZIO.

H.R. 5265: Mr. GOODE, Mr. GILLMOR, and Mr. STUMP.

H.R. 5275: Ms. RIVERS, Mr. THORNBERRY, and Mr. ISAKSON.

H.R. 5277: Mr. BALDACCI, Mr. SABO, Mr. TURNER, Mr. SISISKY, Ms. LOFGREN, Ms. RIVERS, and Mr. WEXLER.

H.R. 5314: Mr. POMBO, Mr. KOLBE, Mrs. NORTHUP, Mr. GOODE, Mr. BILBRAY, Mr. NADLER, Mr. ROYCE, Mr. SHAYS, Mr. GILCHREST, Mr. WELDON of Pennsylvania, Mr. EHRLICH, Mr. FROST, Mr. SMITH of Washington, Mr. NETHERCUTT, Mr. TAYLOR of Mississippi, Mr. BLILEY, Mr. KUCINICH, Mr. SANDERS, Mr. CONYERS, Mr. JACKSON of Illinois, Mr. ABERCROMBIE, Mr. LOBIONDO, Mr. CLEMENT, Mr. MEEHAN, Mr. STUMP, Mr. WICKER, Mr. COBURN, Mr. DOOLITTLE, Mr. REYES, Mr. GIBBONS, Mr. PITTS, Mr. KINGSTON, Mr. JONES of North Carolina, Mr. CHABOT, Mr. YOUNG of Florida, Mr. HYDE, Mr. TRAFICANT, and Mr. BACA.

H.R. 5345: Mrs. CAPPS, Mr. THOMPSON of California, Ms. PELOSI, Mrs. BONO, Mr. WYNN, and Mr. OSE.

H.R. 5356: Mr. SHERWOOD and Mr. KANJORSKI.

H.R. 5371: Mr. UDALL of Colorado.

H.R. 5375: Ms. SLAUGHTER and Mrs. KELLY.

H.R. 5392: Mr. ENGLISH.

H.R. 5397: Mr. BERMAN, Mr. HINOJOSA, Mr. PASTOR, Mr. BISHOP, Mr. BOYD, Mr. MARKEY, Mr. LANTOS, and Mr. RAMSTAD.

H. J. Res. 107: Mr. TIERNEY and Ms. CARSON.

H. Con. Res. 337: Mr. ISAKSON, Mr. HOLT, and Mr. POMBO.

H. Res. 146: Mr. INSLEE.

H. Res. 187: Ms. SLAUGHTER.
H. Res. 420: Mr. ORTIZ.
H. Res. 461: Mr. PETERSON of Pennsylvania, Mr. MEEHAN, Ms. LEE, and Mr. WEYGAND.
H. Res. 605: Mr. OSE and Mrs. FOWLER.

EXTENSIONS OF REMARKS

HONORING JUDGE ROMAN S. GRIBBS ON HIS RETIREMENT

HON. JOHN D. DINGELL

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 5, 2000

Mr. DINGELL. Mr. Speaker, today I recognize, honor and salute my dear friend Judge Roman S. Gribbs on his retirement from the Michigan Court of Appeals and for his many years of dedicated public service.

Beginnings do not come much more humble than Roman's. He attended grammar school in a one-room schoolhouse in the Thumb area of Michigan, and in 1944 graduated, as salutatorian, from Capac High School. After serving in the United States Army, Roman graduated Magna Cum Laude from the University of Detroit in 1952, with a degree in Economics and Accounting. In 1954, he earned his Juris Doctor from the same school.

Roman began his professional career as an instructor at his alma mater, the University of Detroit. He later served as Assistant Wayne County Prosecutor, Presiding Traffic Court Referee for the City of Detroit and Wayne County Sheriff. From 1970 through 1974, Judge Gribbs served as Mayor of Detroit, during which time he also was President of the National League of Cities. While working as a partner at the law firm Fenton, Nederlander, Dodge, Barris and Gribbs, P.C., Roman was also an Adjunct Professor at the University of Michigan. As though these many accomplishments were not enough, Mr. Speaker, my good friend has spent the last 23 years serving as a judge, first on the Third Judicial Circuit Court of Michigan, then on the Michigan Court of Appeals.

In addition to his vast professional accomplishments, Roman is an active member of many fine organizations including: the Detroit Institute of Arts, the Economic Club of Detroit, American Academy of Political and Social Sciences, the League of Women Voters of Michigan, National Association for the Advancement of Colored People and Michigan Youth Commission to name only a few.

Mr. Speaker, as Roman leaves the public limelight to spend time with his lovely wife, Lee, and his five children, I would ask that all of my colleagues salute Roman and his leadership, hard work and caring heart.

HONORING DR. LINDA ROSENSTOCK

HON. DAVID R. OBEY

OF WISCONSIN

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 5, 2000

Mr. OBEY. Mr. Speaker, The National Institute of Occupational Safety and Health (NIOSH) and the Centers for Disease Control and Prevention (CDC) are extremely fortunate to have recruited and retained one of the top occupational health physicians in the country to lead NIOSH over the past six years. As an internationally known authority in the field of occupational safety and health, Dr. Linda Rosenstock's steadfast devotion and visionary leadership have contributed significantly in establishing NIOSH as the model agency for occupational safety and health research. With this in mind, it comes as no surprise that she was recently selected as the new Dean of the School of Public Health at the University of California, Los Angeles, and while the CDC and NIOSH will miss her insightful leadership; young professionals and the public health environment as a whole will benefit in yet another way from her knowledge, hard work, and dedication to the field of occupational safety and health.

In her role as Director of NIOSH, Dr. Rosenstock relied greatly upon input from industry, labor unions, academia, government and other occupational health and safety professionals to help guide the Institute in a new direction that would explore the changing nature of our nation's workforce and work environment. Much of this involvement came about through the introduction of the National Occupational Research Agenda (NORA), a framework for guiding occupational safety and health research that was developed in collaboration with 500 external partners. This along with the strategic relocation of the health and safety functions of the former Bureau of Mines, and the completion of a new state-of-the-art research facility in Morgantown, West Virginia has brought an annual appropriation increase of $85 million to NIOSH since Dr. Rosenstock's arrival in 1994.

Dr. Rosenstock's hard work and dedication to occupational safety and health will long be remembered by this Congress and by the workers in this country who have benefitted from her efforts.

UP THE ANTE ON PAKISTAN

HON. EARL F. HILLIARD

OF ALABAMA

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 5, 2000

Mr. HILLIARD. Mr. Speaker, I submit the following articles for the Record.

[From the Washington Post, Sept. 11, 2000]

UP THE ANTE ON PAKISTAN

(By Arthur H. Davis)

While bitter enemies form Ireland to Israel are bowing to the dictates of peace and economic development, the threat of war in South Asia continues to loom large. The economy of Pakistan is sinking, yet the focus of the military leadership remains stronger than ever on Kashmir. Pakistan's junta continues to concentrate all of its resources on funding and fueling terrorism in Kashmir on the one hand, while on the other dashing domestic hopes for a return to a democratic and secular society.

Gen. Pervez Musharraf, the self-appointed chief executive of Pakistan, who also has the dubious distinction of being the coup leader and saboteur of the Lahore peace process, went on record saying that however the people of Kashmir decide their fate will be acceptable to Pakistan. The general also has reiterated his willingness to conduct his own talks with India at any place and any time on all issues, if Kashmir is included. Yet recent events clearly belie hopes that he intends to honor his words.

In late July the world welcomed the announcement of a three-month cease-fire and the offer of unconditional talks with the central government of India by the Hizbul Mujaheddin, the largest militant group in Indian Kashmir. Majir Dar, the Hizbul commander operating in Indian Kashmir, reportedly made this unexpected announcement after secret meetings with Hizbul followers and presumably with the group's leader, Sayed Salahuddin, who resides in Pakistan.

To this, the Indian government exhibited a new and welcome flexibility by responding positively to the offer. Lt. Gen. John Mukherjee, commander of Indian forces in Kashmir, announced the cessation of all operations against the Hizbul, while senior officials from Delhi proceeded to Kashmir to discuss the modalities of talks with the Hizbul. Unfortunately, the prospect for peace was not met with similar alacrity by Pakistan's military and fundamentalist religious leaders, who were clearly caught off guard by this show of militant independence. Pakistani security agents reportedly picked up Salahuddin shortly after the cease fire agreement, while his Hizbul Mujaheddin was ejected from the United Jehad Council, the umbrella alliance of Kashmiri militant outfits. And while official Pakistani responses initially were muted, wholesale attempts since have been underway by the junta to employ its influence over the regional militants to derail the incipient peace talks.

On the night of Aug. 1, more than a hundred Hindus, many of them pilgrims, were massacred by Pakistani-backed terrorists. The massacre has been followed by the attachment of two deal-breaking caveats to Hizbul's offer of ''unconditional'' talks. In a move the State Department has since termed ''not helpful,'' Hizbul has demanded a seat for Pakistan at any talks and also that those talks be conducted outside the scope of India's constitution, thus allowing for a deal on Kashmiri independence. Indian leaders long have resisted both conditions.

It has been widely stated in Washington and other Western capitals that India must negotiate with the Pakistani military for a definitive peace to be achieved. But the question remains whether the army really wants peace. All three wars between India and Pakistan have been fought when there were military governments in Pakistan. A fourth, under the present military leadership, remains a possibility—this time with a nuclear shadow cast upon it.

● This ''bullet'' symbol identifies statements or insertions which are not spoken by a Member of the Senate on the floor.

Matter set in this typeface indicates words inserted or appended, rather than spoken, by a Member of the House on the floor.

The Pakistani military regime is exhibiting an almost pathological determination to keep South Asia in turmoil, doing little to curb Islamic fundamentalism and terrorism breeding within its borders, while scuttling others' steps toward peace.

During his visit to the region earlier this year, President Clinton threaded a needle of admonishing Pakistan for its support of violence in Kashmir while keeping the door open for engagement if it abated such activities. Unfortunately, his stern warnings have yet to exact much change. Pakistan's intended destruction of the nascent Kashmir peace process requires a firmer response from the U.S. administration. Declaring Pakistan a terrorist state, and thus putting it on par with the terrorist group it harbors and supports, would encourage the people of Pakistan to remove the military warmongers who have deprived them of sustainable development.

It is clear who wants peace in the region and who does not. Only by challenging Pakistan's duplicatous ways will peace have a hope of winning.

[From the Los Angeles Times, Sept. 12, 2000]

ARMED INDIA CAN HELP STABILIZE ASIA

(By Selig S. Harrison)

In May, 1998, India conducted five nuclear tests. More than two years later, the United States, with a record of 949 nuclear tests during the five decades since Hiroshima, is still enforcing punitive economic sanctions against New Delhi, poisoning the entire relationship between the world's two largest democracies.

President Clinton should quietly bury this self-defeating policy when he meets with Prime Minister Atul Behari Vejpayee at the White House this week. Pressuring India to reverse its commitment to develop nuclear weapons merely strengthens Indian hawks who oppose closer relations with Washington and favor an all-out nuclear buildup that would stimulate nuclear arms races with China and Pakistan.

The United States should accept the reality of a nuclear armed India as part of a broader recognition of its emergence as a major economic and military power. Such a shift would remove the last major barrier blocking a rapid improvement in Indo-U.S. relations. President Clinton has kept up the pressure on India to forswear nuclear weapons despite the fact that all sections of Indian opinion strongly favor a nuclear deterrent.

Instead of persisting in a futile effort to roll back the Indian nuclear weapons program, the United States should seek to influence the current debate in New Delhi over the size and character of the nuclear buildup. A more relaxed relationship with New Delhi would facilitate U.S. cooperation with moderate elements in the Indian leadership who favor nuclear restraint.

A U.S. policy focused on nuclear restraint rather than nuclear rollback should not only seek to minimize the number of warheads but also to keep them under civilian control and to limit the frequency of missile tests. Other key U.S. goals should be to get India to sign the Comprehensive Nuclear Test Ban Treaty and to formalize de facto Indian restrictions on the export of nuclear technology.

Moderate elements in New Delhi are sympathetic to many of these objectives but need U.S. quid pro quos to make them politically attainable. For example, the continuation of sanctions makes it impossible for the Indian government to sign the test ban without appearing to surrender to foreign pressure. Equally important, the sanctions have blocked $3 billion in multilateral aid credits for power projects and other economic development priorities.

Together with the removal of sanctions, the U.S. should greatly reduce the blanket restrictions on the transfer of dual-use technology that were imposed after the 1998 tests. These restrictions cover many items with little relevance to nuclear weapons.

The most important U.S. quid pro quo would be the relaxation of the existing U.S. ban on the sale of civilian nuclear reactors badly needed by India to help meet its growing energy needs. Indians find it galling that China is permitted to buy U.S. reactors, while India is not.

The reason for this blatantly discriminatory policy lies in legalistic hair-splitting in the 1968 Nuclear Non-Proliferation Treaty (NPT). Since China had tested nuclear weapons in 1964, it was classified as a ''nuclear weapons state'' under the treaty. As such, Beijing was eligible to sign the NPT, along with the other powers then possessing nuclear weapons, the United States, Russia, Britain and France.

All other states were barred in perpetuity from the nuclear club and asked to forswear nuclear weapons formally by signing the treaty. India branded the NPT as discriminatory and refused to sign. Now it would like to sign as a nuclear weapon state but the U.S. will not permit it.

The NPT itself does not bar its signatories from providing nuclear technology to nonsignatories such as India. However, the U.S. Congress went beyond the NPT with a law stipulating that non-signatories cannot receive U.S. nuclear technology even if they accept International Atomic Energy Agency, or IAEA, safeguards on its use, which India is willing to do. This legislation even bars the U.S. from helping India to make its nuclear reactors safer.

Significantly, Hans Blix, the respected former IAEA director who now heads the U.N. arms inspection mission to Iraq, has urged that the ban on civilian nuclear sales to both India and Pakistan be lifted if they are willing to make two major concessions: signing the test ban and agreeing to freeze their stockpiles of weapons-grade fissile material at present levels.

''There is nothing in the NPT that would stand in the way of such an arrangement,'' Blix noted at a Stockholm seminar, and as matters stand, ''India and Pakistan are most unlikely to discard whatever nuclear weapons capacity they possess. There is even a clear risk of a race between them to increase fissile material stocks.''

The United States has been pushing India to join in a multilateral moratorium on fissile material production but without offering clear incentives. Blix has proposed a more realistic approach. U.S. policy should be based on a tactic recognition that a multipolar Asian balance of power in which India possesses a minimum nuclear deterrent will be more stable than one in which China enjoys a nuclear monopoly.

HONORING BETTE BELLE SMITH

HON. GARY A. CONDIT

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 5, 2000

Mr. CONDIT. Mr. Speaker, today I honor a very special lady. When I think of Bette Belle Smith I am truly amazed. This remarkable woman is the epitome of the word inspiration. I am proud to report to my colleagues Bette Belle has been named as California's Outstanding Older Worker for 2000 by Green Thumb, Inc.

Her story is truly one of extraordinary accomplishment. Consider that she didn't enter the workforce until she was 57 years old. Now, 22 years later she's still holding the same job as a bank vice president. As amazing as that may seem, what makes this lady so special is that she is truly the queen of volunteerism.

In fact, Bette Belle has been volunteering most of her life. She began her career as a volunteer during the Second World War with the American Red Cross. Among the organizations she is involved with since then include the Girl Scouts, Boy Scouts, California Women for Agriculture and the 4-H Sponsor Committee, the American Field Service International Scholarship Program and AFS Committee, United Way and Special Events Committee, the McHenry Museum Society and Museum Guild and the Modesto Symphony Orchestra board.

When she walks into a room, Mr. Speaker, it's nearly impossible to say no to her. Is it any wonder why The United Way of Stanislaus County named its annual volunteerism award, the ''Bette Belle Smith Community Award?'' I am proud to call this incredible woman my friend. She is tireless and a fantastic role model for us all.

I ask my colleagues in the House of Representatives to rise and join me in honoring Bette Belle Smith.

QUALITY, NOT QUANTITY; RESULTS, NOT PROCESS

SPEECH OF

HON. F. JAMES SENSENBRENNER, JR.

OF WISCONSIN

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 3, 2000

Mr. SENSENBRENNER. Mr. Speaker, I rise today to pay tribute to our distinguished colleague from Seven Valleys, Pennsylvania, the Honorable WILLIAM GOODLING. BILL GOODLING has served his constituents and the nation in this body for more than a quarter century. In that time, he has proven himself a dedicated public servant, one who recognizes the importance of, as he says, quality over quantity and results over process.

That philosophy has been most apparent during his tenure as Chairman of the Education and the Workforce Committee. Over the past six years, BILL GOODLING has worked tirelessly for fair and comprehensive education and labor policy. He has advocated returning control over our children's education to parents, teachers, principals, and local school districts because BILL knows that no one is better qualified to meet their educational needs than the people who interact with them every day.

In fact, very few among us are as well suited as BILL GOODLING to championing the improvement of this nation's educational system. Prior to coming to Washington, he served his community as a teacher, principal, and coach.

He even served as school superintendent, so he knows first-hand the educational needs of children.

From his development of the Even Start Program to aid parents in supporting this children's learning process and his support of the Ed Flex bill, to his push to increase the percentage of American children receiving quality education from the current 50 percent to 100 percent, we know that BILL GOODLING has recognized the need to work today to create a better tomorrow.

I know I speak for many of our colleagues when I say that BILL GOODLING's insight and experience will be missed. Thank you, BILL, for your many years of service, and good luck in your future endeavors.

TRIBUTE TO MILDRED MILLIE JEFFREY

HON. SANDER M. LEVIN

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 5, 2000

Mr. LEVIN. Mr. Speaker, it is with high honor and deep admiration that I share the words of President William Jefferson Clinton as he bestowed the Presidential Medal of Freedom to a national treasure from the State of Michigan, Mildred ''Millie'' Jeffrey.

As a Catholic schoolgirl, Millie Jeffrey dodged the stones of neighborhood bigots and watched Klansmen march through town with a burning cross. As a union organizer in Mississippi, she stood bravely as company men snapped bullwhips at her feet. Clearly, they didn't know whom they were up against.

She may be small in stature and humble in manner, but she is very strong. She worked for Walter Reuther and counseled the Kennedys, influencing all with her courage and unflagging commitment to social justice. To meet the need for more women in public office, she started the National Women's Political Caucus, and sparked the effort to nominate Geraldine Ferraro 16 years ago.

For countless women around the world, she remains an inspiration. Her impact will be felt for generations, and her example never forgotten.

It has been my personal privilege to work side by side with Millie Jeffrey over these years on many vital issues ranging from the world of politics including the campaign of Robert Kennedy to the world of civil rights and the rights of women. It is hard to convey through the written word Millie's enthusiasm and dogged devotion to her causes. She not only continues to ''light up'' a room, but she remains committed to action and results.

In closing, let me share a bit of Millie Jeffrey herself from an upcoming documentary film of her life, ''You never win freedom permanently. You have to win it time after time after time—whether it's union rights, civil rights, equality in education or for women in any aspect of our lives. We have to keep at it, and at it.''

TRIBUTE TO J.R. CURTIS

HON. RALPH M. HALL

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 5, 2000

Mr. HALL of Texas. Mr. Speaker, I rise today in memory of an exceptional man, an outstanding community leader and beloved citizen of Longview, Texas, the late J.R. Curtis, whose life was cut short at the age of 55 following a motorcycle accident on September 2 in Durango, Colorado. J.R. lived life with enthusiasm—and with a tremendous devotion to his family, his community, his friends and his faith. He leaves a remarkable legacy of professional and civic accomplishments—as well as a legacy of loving relationships with his family and many friends.

J.R. was born on August 18, 1945, to James R. Curtis, Sr., and Sarah DeRue Armstrong Curtis of Longview. He graduated from Longview High School in 1963 and graduated from Texas Christian University in Forth Worth in 1967. He also attended the American Institute of Foreign Trade in Glendale, Ariz., from 1967–68.

J.R. was a successful and popular radio broadcaster in Longview. He purchased KFRO AM/FM radio station from his father in 1986 and was the owner and manager until 1998. He also became owner of KLSQ–FM and operated KNYN in Santa Fe, N.M. He began his broadcasting career in high school, working for his father's station as sportscaster for KFRO's Wednesday night Teen Time Program. He learned all aspects of the radio business, from engineering to news and sales, at an early age.

J.R. was active in the Texas Association of Broadcasters, serving as a medium market director for TAB and as president of TAB. He was named Texas Broadcaster of the Year in 1990. He also was active at the national level, serving as a member of the National Association of Broadcasters Blitz Committee and as a director of NAB in Washington, DC, from 1996–99.

In addition to broadcasting, J.R. served as president of the Curtis Foundation, president of Workmans Oil Co., and a director of First Federal Savings Bank of Longview from 1982–1997. At the time of his death, he was employed as a consultant with Longview Economic Development Corp.

J.R. served nine years on the Longview City Council, from 1975–1984. In 1977 he became the youngest mayor in Texas when he was appointed by the council at age 33 to the city's top job. His recent community involvement included serving as president and vice president of Longview 20/20 Forum; finance chairman of Longview Museum Fine Arts, 1997; director of Longview Partnership, 1995–98; and a member of the administrative board of First United Methodist Church, 1996–98. He had a 19-year perfect attendance record in the Longview Rotary Club, where for many years he kept the membership informed of local and national news.

Other involvements included serving as president of Gregg County Housing Finance Corp., executive committee member for the East Texas Council of Governments, director of Little Cypress Utility District, director of the Longview Chamber of Commerce, foundation board member of Good Shepherd Medical Center, foundation board member of LeTourneau University, board member of Crisman Preparatory School and a volunteer for many other organizations. He was a member of the Collier Sunday School Class at First United Methodist Church and an usher at the church.

J.R. is survived by his loving wife of 33 years, Sue Skaggs Curtis; his son and daughter-in-law, Jason Skaggs Curtis and Janey of Forth Worth; his daughter, Elizabeth Ann Curtis of Longview; granddaughter, Margaret Lynn of Forth Worth; his aunt, Ruth Elizabeth Curtis Gray of Longview; mother-in-law, Fredna Skaggs of Longview; brother-in-law Bill Hodges of Longview and brother-in-law and sister-in-law, Dr. and Mrs. Richard Lucas of Longview; two nephews and a niece, and other relatives. He was preceded in death by his parents and one sister, Elizabeth DeRue Curtis Hodges.

J.R. had biked to Durango with five friends for an annual getaway vacation. He died as he had lived—with enthusiasm for life and for friendship. He will long be remembered for the significant contributions he made to his beloved city of Longview. As his wife and high school sweetheart, Sue Curtis, noted, ''He loved Longview. He believed in Longview. He was born here and went to school here and wanted to make it a better place.''

And he did. J.R.'s influence can be found everywhere in Longview—and will be felt for years to come. Mr. Speaker, as we adjourn today, let us do so in celebration of the life of this wonderful man and citizen of Longview, Texas—J.R. Curtis, whose memory will be cherished in the hearts and minds of those who knew him and loved him.

CONGRATULATIONS TO THE PEOPLE OF TAIWAN ON THE OCCASION OF THE REPUBLIC OF CHINA'S 89TH NATIONAL DAY

HON. EVA M. CLAYTON

OF NORTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 5, 2000

Mrs. CLAYTON. Mr. Speaker, on the eve of the Republic of China's 89th National Day, I ask my colleagues to join me in wishing our friends in Taiwan a most happy and enjoyable National Day.

Mr. Speaker, like many of my colleagues and me, there are countless people across this nation who applaud the economic and political accomplishments of our friends in Taiwan.

Mr. Speaker, I truly wish there were more nations in the world following Taiwan's example of unprecedented economic success and rapid democratization; Taiwan is indeed the shining model that all developing nations in the world should seek to emulate. I am certain, Mr. Speaker, that many of my colleagues, given the opportunity, would express the same sentiment.

I am pleased for this opportunity to extend every good wish to the people of Taiwan and its leaders.

TAIWAN CELEBRATES ITS BIRTHDAY

HON. RICK HILL

OF MONTANA

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 5, 2000

Mr. HILL of Montana. Mr. Speaker, Taiwan will celebrate its birthday on October 10, 2000. Taiwan is a modern country led by President Chen Shui-bian, who believes that Taiwan's future lies in a strong democracy and a free enterprise system. Taiwan is an excellent model of democracy, as was demonstrated in its March presidential election. Since his inauguration as president on May 20, President Chen has convincingly demonstrated his leadership. Economically, in addition to its well-known industrial prowess, in recent years Taiwan leads most Asian nations in its production of computers, chips and telecommunications equipment.

Taiwan is Montana's 5th largest trade partner, purchasing millions of dollars of Montana exports of agricultural products, chemicals and machinery. I want to thank our friends in Taiwan for their continued importation of Montana goods.

Taiwan's citizens enjoy one of the highest living standards in the world. On the occasion of Republic of China's National Day, it is important to remember that Taiwan has a strong relationship with the United States and we hope that this relationship will continue to flourish in the years to come. Happy birthday Taiwan.

IN MEMORIAL OF THOMAS J. LASSITER

HON. BOB ETHERIDGE

OF NORTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 5, 2000

Mr. ETHERIDGE. Mr. Speaker, today I celebrate the life and memory of Mr. Thomas J. Lassiter of Smithfield, NC. Mr. Lassiter was a talented and influential journalist, a respected community figure, and a dedicated family man. As a journalist and editor of the Smithfield herald, Mr. Lassiter was widely known for his bold and careful thought and for taking sometimes umpopular, yet morally correct positions on issues of the day. History has proven that Thomas Lassiter was truly a man before his time.

Thomas James Lassiter, Jr. was born on August 21, 1911, to Thomas and Rena Lassiter, and graduated from Duke University in 1932. After taking a year to play jazz trombone with the Jelly Leftwich orchestra, Mr. Lassiter returned to Smithfield to join his mother at the herald, where she was serving as editor. He remained at the paper for not quite half a century until his retirement in 1980. During the 1940's, 50's, and 60's. Lassiter gained fame for his strong editorials on racial justice and his opinions on local and international issues. He also served as president of the North Carolina Press Association in 1951–52, and in 1982 was elected to the North Carolina Journalism Hall of Fame. Mr. Lassiter also taught journalism at the University of North Carolina from 1948 to 1953.

By virtue of the words he wrote in the Smithfield herald, Mr. Lassiter was already a public figure, but he also was motivated to serve his community through action. Over the years, he served as chairman or president of the Smithfield Library Board of Trustees, the Smithfield Chamber of Commerce, the local chapter of the North Carolina Symphony Society, and the Smithfield Kiwanis Club. He was also a leader at Smithfield First Baptist Church, as superintendent of Sunday school and church history. Mr. Lassiter was also committed to his family. Together he and Elizabeth, his wife of 61 years, raised two children who gave him four grandchildren, and two great grandchildren.

Mr Speaker, before I close I want to read a quote form one of Mr. Lassiter's editorials. I believe it summarizes the greatness and vision of his work and gives us an idea of the intellect Mr. Lassiter possessed. This excerpt taken from an article titled "A Regrettable Rift" was written after some African American citizens were denied the right to register to vote in the 1945 Smithfield primary election.

All the Negroes who presented themselves for registration—more than 75 of them—were turned down, while only two whites were denied the privilege of getting their names in the book.

Racial discrimination is on the way out in America and the sooner the people generally recognizing that fact the better it will be for whites as well as Negroes. Racial discrimination is on the way out because it is fundamentally wrong. It is contrary to the very heart of the teachings of Jesus Christ. It is contrary to the highest concept of democracy. It is specially forbidden by the Constitution of the United States.

Negroes pay taxes; they are subject to the same laws that govern whites; they are drafted into the armed forces; they shed their blood on the battlefields alongside of white soldiers. If they are asked to spill their blood for democracy, can we honorably deny them the right to share in the democracy for which they fight?

How long will the Negroes refrain from militancy or belligerency in their struggle for basic rights? That depends upon how soon the majority race frees itself from deep-rooted prejudices and refrains from denying Negroes fundamental democratic privileges which are guaranteed them by the highest law in the land.

Twenty years before the Voting Rights Act, the extraordinary editorial was bold, visionary and courageous. Mr. Speaker, Thomas J. Lassiter left us a legacy of words and actions that inspire us to improve our society, serve our local community, and uphold the honor of our families. I am honored to share his story and celebrate his legacy with this House today.

IN MEMORY OF BETTY BANKS

HON. RALPH M. HALL

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 5, 2000

Mr. HALL. Mr. Speaker, I rise today in memory of a beloved citizen of the Fourth Congressional District and a dear friend, the later Betty Jean Henderson Banks of Ivanhoe, Texas, who passed away earlier this year. Betty was a wonderful woman whose kindness and dedication to her family, friends and community will be long remembered.

Born in Louisiana to the late Lafayette Victor Henderson and Ida Butler Starke Henderson, Betty married James Walter Banks in 1938 in Bonham, Texas. Throughout her years in Bonham, Betty raised a family and worked tirelessly on behalf of her community. Betty was known by many of her work at the Sam Rayburn Memorial Veterans Center in Bonham, where she worked in food service. She also was known throughout Bonham for her volunteer efforts on numerous causes, for making uniforms for the Missionettes (Girls Club) to helping find and fight for a liver transplant for a baby in need. Betty was an integral part of a women's prayer group that met monthly for a prayer breakfast at the First National Bank in Bonham, and she was a member of the First Pentecostal Church of God in Bonham.

In the local paper, this was written about Betty by Mrs. Paul Keahey: "Over the years she stood up for truth and honesty at all levels of society and government and what she believed to be right." These sentiments were echoed by her many friends and fellow citizens who knew her and loved her.

Betty is survived by her son and daughter-in-law, James V. "Butch" Banks and Carol of Baytown; two daughters and sons-in-law, Kathy and Mike Stockton of Ravenna and Becky and Victor Santiago of West Haven, Conn.; and a brother, Robert H. Henderson of Colville, Wash.. She is also survived by seven grandchildren and three great-grandchildren. She was preceded in death by her loving husband, James Walter Banks, who passed away in 1996; a granddaughter, Amanda Stockton; brother, L. Victor Henderson, and a sister, Yvonne Henderson.

Betty was an honest and loyal friend to many and a role model in her community. We will miss her—but her legacy will live on in the lives of all those whom she touched with her generosity and kindness. Mr. Speaker, as we adjourn today, may we do so in memory of this beloved citizen of Fannin County, Betty Banks.

DR. JAMES BILLINGTON, LIBRARIAN OF CONGRESS, HONORED FOR BICENTENNIAL AND LOCAL LEGACIES PROGRAM

HON. PAUL E. KANJORSKI

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 5, 2000

Mr. KANJORSKI. Mr. Speaker, today I pay tribute to Dr. James H. Billington, the Librarian of Congress, and to thank him for the fine job that he and the staff of the Library have done with the Local Legacies program, which has served as the focal point of this year's bicentennial celebration for the Library.

As the members may be aware, the Library of Congress, the nation's oldest federal cultural institution, was established by an act of

Congress in 1800, when President John Adams signed a bill transferring the seat of government from Philadelphia to the new capital city of Washington. In addition to the Local Legacies program, which is the focus of my remarks today, the bicentennial of this great institution has been observed with ceremonies, exhibitions, the issuance of a commemorative stamp and coins, as well as the launch of a new, easy-to-use and entertaining Web site, americaslibrary.gov.

In light of Dr. Billington's accomplishments and the tremendous success of the Local Legacies project, I would like to point out his ties to the Keystone State and to Northeastern Pennsylvania in particular. He is a native of Pennsylvania and holds an honorary degree from the University of Scranton. He has made great stride toward his goal of making the Library truly the ''people's library,'' and the Local Legacies project is an excellent example of this.

Last year, each Member of Congress was asked to submit audio, visual, or textual documentation for at least one significant cultural heritage that has been important to his or her district or state to serve as a record for future generations, who might otherwise have lost this important knowledge forever. This documentation is now permanently housed in the collections of the Library's American Folklife Center. In May, Members of Congress and Local Legacies project participants from across the country came together in the Great Hall of the Thomas Jefferson building to celebrate the completion of this magnificent collection of historical material.

I was pleased to register several important cornerstones of community life in my district for posterity as Local Legacies: the Hazleton Funfest, the Bloomsburg Fair, the West End Fair, the Wyoming Commemorative Association, the Anthracite Heritage Parade, the Pittston Tomato Festival and the Saint Mary's Annual Homecoming Picnic in Mocanaqua.

Led by Father Thomas Skotek, the pastor of Saint Mary's, Our Lady of Perpetual Help Church, the Mocanaqua community sent the largest delegation of anywhere in the country—more than 80 people—to Washington for the Local Legacies completion ceremony. I was pleased to introduce them to Dr. Billington at the ceremony.

Mr. Speaker, the visit of the Mocanaqua delegation for the Local Legacies celebration was a particularly special occasion for Frank Evina, a native of Mocanaqua and 30-year employee of the Library of Congress, whose accomplishments are noteworthy in their own right. Mr. Evina was co-coordinator of the Local Legacies project and has helped organize numerous exhibits at the Library, including The Thomas Jefferson Building: Book Palace of the America People,'' an exhibition marking the centennial of the opening of the Jefferson Building, and ''The Wizard of Oz: An American Fairy Tale,'' an exhibition marking this year's 100th anniversary of one of America's most beloved stories, The Wonderful Wizard of Oz.

The Library is holding a gala celebration tonight as part of the year-long observation of its bicentennial. I send my congratulations to Dr. Billington, Mr. Evina and the staff of the Library of Congress for their tremendous work on the Local Legacies project and all of the bicentennial commemorations, and I also send my best wishes to the people of Saint Mary's and Mocanaqua for the continued success of the Homecoming Picnic.

FIGURE SKATING: A GLIMPSE OF FREEDOM

HON. DONALD A. MANZULLO

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 5, 2000

Mr. MANZULLO. Mr. Speaker, Janet Lynn fascinated the nation several years ago, when, as a 14-year-old figure skater, she participated in the 1968 Olympics. Four years later, she won a Bronze Medal. Her faith and perseverance captured the Nation. She spoke during the Independence Day celebration in her home town of Rockford, IL, where the people named the ice arena after her. Her remarks on family, faith, and freedom are so compelling that I want her testimony to affect other Americans.

I would like to submit the following remarks into the CONGRESSIONAL RECORD.

FIGURE SKATING; A GLIMPSE OF FREEDOM

(By Janet Lynn)

I am honored to be asked to speak with you. What a privilege that the City of Rockford remembers me with such respect. I realized recently that the honor I feel is even stronger because I have been at home as a wife and mother longer than I was a skater. The fact that I am still remembered, yet alone having an ice rink named after me, is very humbling. I will try to reflect what is in my heart and tell you what it means to me.

Speaking is not my favorite past time and preparing to speak is more difficult for me than you can imagine. You may not know this, but my parents introduced me to skating hoping it would help cure my extreme shyness and timidity around people. But I liked to skate because I could express myself without talking to anyone! Somehow I think the joke was on me when I find myself invited to speak.

I grew up in Rockford from the age of 8. My memories of growing up here include my time at home, at the Wagon Wheel, at church and school, and my many opportunities to travel. It is here that foundations were built into my life. Skating was such an incredible vehicle to learn about many areas of life. I would like to share with you what I learned from the foundations of my skating, and relate them to the foundations of our nation; specifically, family, faith and freedom.

Since this is the eve of our country's birthday in a new millenium, I thought this would be entirely appropriate. The ability to live in a free and civilized nation has become a great passion for me. Over the years, even the many years that I have been raising my family, I have given deep thought to our freedom; where it comes from and why it is important. The skills and priorities I have developed from my job as wife, mother of 5 sons, and homemaker have strengthened my belief in the power and importance of strong foundations. The foundations historically provided by family and faith were the inspiration for our nation's beginning. I strongly believe that in order to continue to enjoy freedom in a civilized nation, we must rebuild our foundations.

God has placed in each and every human spirit the desire to be free. I think that skating is a very powerful metaphor of that hope of freedom.

It is my belief that one of the things that makes skating so very popular is that it looks so free. The people who skate well seem to fly. There is great exhileration in watching skaters fly across the ice and then into the air with such beauty and grace! It touches something deep in the soul of many who watch.

I can tell you that when I was skating well, it did indeed seem like I was soaring; and I felt very free to attempt anything I wanted to on the ice. It was so much fun to let God and beautiful music inspire my spirit on the ice, to the point that I could express what in my soul, without talking. That freedom that I had to skate was built upon foundations.

I not only learned about freedom from learning to be free on the ice, but also from my experience of visiting nations that were not free.

Perhaps my travels when I was young have given me a perspective of which many are unaware. I had the rare opportunity to visit nations that were not free at the time and to experience in a small way the oppression and fear of expression so many wonderful people had to live under. I have seen people so afraid of being caught socializing with people from other nations that they hid in a closet. I was sobered when suspicions were confirmed that some ''officials'' who closely monitored and traveled with my skating peers from unfree nations were actually secret police.

On one occasion in an unfree nation we were assigned an interpreter for our entire stay with whom I innocently spoke to about God. He must have been immediately reassigned because we never saw him again. I didn't realize how serious that kind of conversation was in unfree nations.

I have vivid memories of being a young lady who saw the Stars and Stripes with an emotional and grateful heart upon returning to the United States. I had a new awareness of what that flag meant and what it has meant to many millions who have sought the privilege to live under its freedom and protection. I remember wanting to kiss the ground of my country, the most free country on the face of the earth.

Even at a young age I knew there was an important difference between what I experienced in nations that were not free, and the freedom I knew in our great nation. I have thought long and hard to determine what the difference is between freedom and a lack of freedom and I believe the difference is found in the substance of foundations.

I learned about foundations from my skating. My brilliant coach, Miss Kohout, as I respectfully called her, constantly emphasized the foundational skills of my skating. How I executed a single jump was as important as how I executed a double or triple. I once had a three hour lesson on just one simple turn. Our challenging weekly Saturday night workout sessions mostly emphasized the foundations of skating. Plain stroking to music, as our muscles burned, was something I think we all dreaded. As Miss Kohout's students, we were especially challenged the day we had to stroke to music in rental hockey skates on very bad and chewed up ice. In the face of these challenges, our skills had to be strong and the technique proper. If the simple skills were not perfected, the advanced skills would become difficult, if not impossible and certainly much more dangerous.

As with the techniques and skills of skating, I learned that in order to have civilized

freedom, our country must remain on its solid foundations. In skating, mastering those foundations required 4–10 hours a day, six days a week, of training, teaching and practicing. The discipline of school figures was an essential part of my training. Only when the foundational skills were mastered did I have the freedom to use those skills to express myself without fear of getting hurt. The training in those foundations of my skating continued for all the years that I skated. If I started having trouble with a jump, spin, turn, or edge, it could always be traced back to the loss or incorrect execution of foundational skills.

For 17 years I did not skate at all while I have tried to build and raise my family. When I began to skate again for physical fitness purposes, it became immediately clear that I had lost most of my freedom to express myself on the ice without fear of getting hurt. The foundations of my freedom on the ice were still somewhere in my memory, but I had to start reteaching myself and fighting with my body, which did not want to do those foundational skills in a way that gave me the freedom I once had. I could no longer enjoy the fun part of flying across the ice and doing jumps, spins, and footwork. To regain that freedom, I need to pay the price of rebuilding the foundations on the ice. When those foundations become second nature and I have the self-government of each muscle, then I will have earned the freedom to express myself without fear of getting hurt.

With all my heart I believe that these thoughts about my skating are a metaphor to what is happening in our nation. Our nation's freedom cost a great price. It was built upon certain foundations including the natural family and personal faith in the God Almighty. Today we have altered, or ignored, or perhaps forgotten the foundations of our nation's freedom, and I believe we are in great danger of losing our freedom to express ourselves without fear, as I have lost my freedom to skate.

There is a price to relearn the foundations of our freedom. But we can do it—and we must! I am concerned about the direction of our country. What kind of nation will my children, and yours, inherit? A lack of self control is omnipresent. Our culture seems to exist to satisfy the senses, and we have forgotten or deadened our souls. It is true that if we are not governed from within ourselves, that we will have to be controlled with excessive regulation or restrictions and force. If we relearn our self-government, there will be no need for excessive restrictions.

Peter Marshall put it best: ''James Madison, chief architect of the Constitution of the United States, once explained the nature of the American Republic in these words: 'We have staked the whole of all our political institutions upon the capacity of mankind for self-government, upon the capacity of each and all of us to govern ourselves, to control ourselves, to sustain ourselves according to the Ten Commandments of God'.'' (This quote comes from ''The Glory of America'' by Peter Marshall and David Manuel.)

I do not want the next generation to inherit a nation where children are killing children as we have seen this past year in shock and horror, and where mothers and fathers are neglecting, abandoning or killing their own children. I want my children to inherit a nation that is relearning and applying the foundations of self-government, civility, and freedom. This work is hard, especially because parents have a hard time finding healthy opportunities for their children's growth that are not influenced by our degrading culture. That is why it is so important to make available in Rockford wholesome activities like ice skating which preserve the innocence of childhood.

I agree with William Bennett [as quoted in the Washington Times on October 12, 1999] as he spoke about ''The Leading Cultural Indicators''. He said, ''the last 3½ decades . . . have 'fractured' many of the pillars American civilization stands on, and the nation remains 'more violent and vulgar, coarse and cynical, rude and remorseless, deviant and depressed,' than the one we once inhabited''. He went on to say, ''America's 'capacity for self-renewal is rare and real. We have relied on it in the past. . . . We must call on it again.' ''

The foundations of my skating were supported by the foundations of our free nation. This profoundly impacted my ability to learn to skate and share my skill with others. In the United States of America I was free to express on the ice, without fear, what God put in my soul. The foundations of our free nation are within reach of every person in this land. They include family, faith and the great gift of living in a free country.

The important foundation of my family was essential as my skating developed and started to grow beyond anyone's expectations. I mentioned earlier that there is a price to learning and sustaining foundations. In my case my family often found themselves sacrificing for my success. They always did so with great grace, love and encouragement to me. It is hard to adequately express my thoughts and gratitude for the big and little things they did. I could not have accomplished what I did in skating without my father and mother, my brothers and sister, and my grandpa. They, all of them, gave me an honorable place to belong and a strong assurance that I was loved whether I won or lost (my worth did not come from skating). They taught me how to laugh at myself and they let me know I was a part of my natural family no matter what part of the world I was in, or how many hours I spent training. They gave me a perspective on life that went far beyond what I did on the ice. They are part of the reason that I know that what I have been doing as a homemaker is the most important job in the world.

The natural family is committed to one another and draws lessons, knowledge, love and a place of belonging from one another. It is a part of the foundation of our freedom. We need mothers who are devoted to their children and who are willing to spend quantity time loving and teaching them right and wrong. They must be willing to forgo immediate personal fulfillment for long term family rewards. We need faithful fathers who work with all their might to take moral responsibility for their families and provide for them. Fathers and mothers need to grow in the ability to give strong, loving guidance. We need parents who are willing to make their children and homes a priority each day, providing them with security and safety; protecting the innocence of childhood.

Though material wealth may have to be sacrificed, the wealth of spirit can hold the family foundation steady. Taking the time to learn, and then to teach our children the morals and virtues that sustain freedom only costs our time, effort, and a healthy balance of love and discipline. These foundations of our freedom are available to anyone.

Faith, which is available to everyone, was another deep foundation of my skating. Even now, as I look back on my skating, it is continually apparent to me—even more than when I skated—that God had a plan for me to skate. I made that statement in an interview as a shy 14 year old girl right after I made the Olympic Team in 1968. The next day the headlines in the Rockford paper read something like: ''God has plan for Janet to Skate''. I have wondered if that sincere statement would make a headline today?

I did not choose the circumstances that surrounded my ability to skate. Nor did I choose my ability, nor the love that I developed for skating. It had to be a Providential plan.

My skating gave me so many incredible, enriching opportunities and joyful experiences for which I am deeply thankful. But in life, the bitter often comes with the sweet. There were hard parts: getting up early every day, being so cold so often, having muscles aches and being away from family. It was difficult to have motion sickness since age 8 and to travel very uncomfortably. I had an obstacle to overcome when I had strep throat during the 1968 Olympics and was not able to take medicine because of the drug testing, but I was determined to be in the Olympics. I ended up very sick and delerious with fever after the Olympics. It was hard skating on intense exhibition tours with what was thought to be severe bronchitis, though I wanted so much to skate and was not about to go home. The emotional lows that corresponded to the extreme emotional highs were a part of training and competition. I didn't enjoy developing exercise-induced asthma at the height of my career after suffering from strep throat, pneumonia and pleurisy. I felt crushed when I realized that the medical treatment for my exercise-induced asthma caused more of a negative reaction from my body than the condition itself. When I had come home from Ice Follies to get my condition fixed so I could skate, I had no idea my body would not respond as I wanted. One of my favorite posters says: ''When life gives you lemons, make lemonade.''

Through the joys and difficulties, Jesus Christ has been my stability. He has a plan for my life and it certainly included skating. The faith that my family introduced me to through regular church attendance has been what ultimately enabled me to focus on the good and persevere through the unpleasant things. My faith in Christ, knowing that the loving God can take even broken dreams and make something beautiful in His time, has been the hope of my life. This faith was a foundation of my skating.

Let me tell you a story. A few weeks before I competed in the 1972 Olympics, I appeared on the cover of Newsweek Magazine as a Gold medal hopeful. My life to this point, including all the effort and sacrifice of my family and coach, as well as my personal dreams and ambitions for self, country and God, were wrapped up in this competition. I was devastated when I found myself in 4th place after the school figures with no possibility to win the gold medal. That day I argued with God as I lay weeping in my Olympic village apartment.

Somehow, through my broken dreams, a thought came into my mind, that if I couldn't win, then all I could do was to finish the competition and decide to dedicate my free-skating to show God's love to all who watched. A medal no longer mattered. Somehow, God heard my cries and answered a girl's prayers in ways I could not have imagined.

I fell on a flying sit spin, which I had never missed before, even in practice. Because of

the way I had been trained, and the purpose that was in my heart, I was still smiling when I was sitting on the ice. That performance did earn me the bronze medal, but even more, that night I began an incredible relationship with the nation of Japan that has lasted 27 years. I was able to go back to Japan to talk about my faith soon after the Olympics. ''How could I keep smiling when I fell in the Olympics?'', is a question that has always been asked of me in Japan. Fifteen years after I spoke in Japan of my faith, I went back to Japan to skate. A young woman approached me and gave me a note. In the note she told me that when I had spoken of my faith 15 years earlier, she had wanted to take her own life. After hearing about the hope in Christ that I had when I fell in the Olympics, she decided to take that hope for her own and continue her life. That reward is one that is eternal; a reward that was given by a very powerful God.

One of the foundations of our free nation is faith in this Almighty God, Who is bigger than ourselves, or any situation. He is the One Who put the yearning for freedom into the human spirit, and it is He Who directs us towards the loving path of discipline and self-control—or self-government—that allows us to live in that freedom.

I had the gift of being born a free citizen in the United States of America. My success in skating was built upon the foundational element of being born in this country. I didn't have to flee my country to gain freedom of artistic expression, as some had to do during the era in which I skated. I didn't have to fear because I spoke to God.

I had the opportunity to visit some nations which did not allow their people to believe in God or to express that publicly. As a young lady I was amazed, and even depressed, when I was taken on tours of old and beautiful churches which were empty, unused, and explained a way as only great architectural works. God had been shut out, unwelcome; even unspeakable. I was even more depressed when we were taken on an Easter Sunday tour of a place where a bloody revolution had been started. One of the results of that revolution was the expulsion of God from a people rich in heart.

Because of that perspective, it disturbs me greatly to see instances in our nation become more and more frequent where people try to exclude God or create fear of talking about God in public. He has blessed this nation so richly. Why would anyone want to shut Him out? It is upon the principles of this God that this nation's foundation rests.

One of those principles of God is charity. I believe perhaps our nation has been the most charitable nation in the history of the world, and I believe that is because of our foundation of faith and freedom. We have been able to choose how we will earn a living with honor and honesty. And we have been able to freely choose, according to our conscience, how to spend what we earn.

I was not beholden to a government or its ideals that provided my training. My family did not believe that freedom was having everything provided. We all worked very hard and my family was very frugal. But at a point in my skating when I was going to have to quit, the charity of Mr. Walter Williamson as the sponsor of my skating allowed me to continue working to become the best I could be. This kind of charity one can never repay, nor did Mr. Williamson ever expect me to repay his charity to me, though I can pass on what I learned from it. He never exploited me or my name nor did he keep me beholden to him. His charity remained a quiet, unassuming foundation of my ability to learn to be free in my skating.

In this great nation, hard work and charity have been the often unnamed foundation that has helped develop hopes and dreams.

The freedom of our nation allowed my parents to choose a coach who valued discipline and hard work. And Miss Kohout, with incredible charity, freely chose to stop sending bills for lessons as my skating started to blossom.

By God's grace I was the benefactor of the free and charitable spirit of my coach and sponsor. Besides the generosity of Mr. Williamson and Miss Kohout, there was a man and wife, who we had never met, who freely offered to pay for my skates. And some generous people in New York helped me with costumes, as well as street clothes and hair cuts, in order to present myself properly. Professional secretaries freely gave of their time and energy to help with my mail when it became too overwhelming, and my mom tells of her friends and neighbors who would each take a part of my costumes to bead. Friends, family and neighbors often traveled to my competitions for quiet moral support. My ballet teacher, Helen Olson, patiently worked with me for many years, though I had no flexibility and had no promise of dancing. There was a woman from Rockford who donated cowboy hats to go with my choreography to the music of Rodeo. An American soldier on leave in Davos, Switzerland volunteered to shovel snow from the ice a few hours a day so I could practice school figures while training for a World Championship, though the snow did not stop for three weeks. The stories of help and charity are endless—all made possible by freedom.

The freedom to give and receive and to work hard and have the choice of how to use what we earn through our hard work—this freedom, based on self-control and self-government, was a foundation of my skating. Without this freedom and charitable spirit I would not have had the opportunity to develop my skating talent for God and for all those that took part. Ultimately it was God Who gave me this freedom. It was His plan for my life.

Family, faith and freedom—The three deep foundations that supported my skating. The foundational skills of skating allowed me to gain freedom to express the joy God put in my soul. And my desire to express God's love on the ice changed the destiny of one young woman in Japan. God's power and love is all about changed lives, and nations that are renewed, free and civilized.

The foundations of these United States of America have, and can again allow the greatest nation on earth to continue to express what God has put into our national soul and spread that freedom for others to enjoy.

As I learn again the foundations of my skating. I hope you will join me in learning again the foundations of family, faith, and freedom, starting in our own minds, hearts and homes. I want all of our children to inherit a nation where God is not shut out, a strong nation that is free and civilized. I hope we can rise above the desire to just do things that appeal to our senses, and rebuild a nation that fulfills the yearning of the soul.

May God grant us the will to do so.

To end, I would like to dedicate the ice arena that will carry my name, to all those who have sacrificed so I could learn to be free on the ice; to all those who have sacrificed so our nation can be free, and to God Who has given us the foundations in the Ten commandments and teaches us how to be free without fear of getting hurt. It is these unsung heros who deserve the honor, and God Who deserves the glory.

Thank you for your kind attention as I have tried to share what the honor you have given me means to me.

IN HONOR OF MR. JOE A. GUERRA

HON. HENRY BONILLA

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 5, 2000

Mr. BONILLA. Mr. Speaker, I would like to take this opportunity to recognize Mr. Joe A. Guerra for his excellence in public service. Mr. Guerra currently serves as the dean of the Laredo City Council and is mayor pro-tempore. Mr. Guerra has been a member of the Laredo City Council for 18 years with his last, and final term ending in 2002. He has served under four distinct administrations, J. C. Martin, Aldo Tatangelo, Saul N. Ramirez, and Elizabeth G. Flores. A true representative of the people, Mr. Guerra was instrumental in the inception of Laredo's citywide paving program, and is a strong supporter for the disadvantaged and elderly.

Jose Antonio Guerra was born on July 9, 1934 in Laredo, TX, to Jose M. and Josefina Valls Guerra. His lineage traces all the way back to the first Guerra who came to the New World from Montaña de Castilla, Spain, Jose Guerra Cañamar. He is the oldest of nine children, carrying on the legacy of the Guerra family raising and educating eight children, and enjoying the blessing of six grandchildren with his wife of 39 years, Josie Guerra. Joe attended local schools and graduated from Martin High School in 1953, following high school he received his Bachelor of Science degree from Saint Mary's University in San Antonio, TX, in 1957.

Following his college experience, Mr. Guerra returned to Laredo to join his family in the automotive replacement part business. Since 1969, he has been involved in the commercial oil and gas business, and is the owner/operator of a local service station. Not only is he involved in the city council and the local business community, he is also a member of the City/County Government Consolidation Committee which was created to study and establish a metropolitan government, the City of Laredo Water Issues Committee, and the Ad Hoc Insurance Committee.

A member of the Republican Party since 1964, Mr. Guerra attributes his success to the party's ideals and values. He served as Webb County Chairman to the campaign for Governor William P. Clements. He served on the committee working to promote George Bush for President in 1988, and 1992. He also worked diligently to ensure my election as Representative of the 23rd District of Texas. Currently he is working hard for the George W. Bush for President campaign efforts.

Mr. Guerra was asked to lead the ''Pledge of Allegiance'' at the fourth session of the 2000 Republican National Convention in Philadelphia, which he proudly accepted with honor and dignity.

Mr. Guerra has made great contributions to society as a public servant. His commitment

and dedication to his community are evident in the dynamic growth and development the city of Laredo has recently experienced. I want to send sincere thanks and best wishes to him, his wife Josie and the entire family for exceptional service.

SPEECH OF DEPUTY SECRETARY OF DEFENSE, RUDY DE LEON

HON. ELLEN O. TAUSCHER

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 5, 2000

Mrs. TAUSCHER. Mr. Speaker, I wish to submit into the record a speech by Deputy Secretary of Defense Rudy de Leon. This speech takes a look at the state of America's military, its accomplishments over the last decade, its challenges in recruiting and retaining the best people, and the realities we face in building the next generation of our fighting force.

Perhaps most importantly, Secretary de Leon does a superb job of illustrating the success that can come from Congress and the Administration working together. In the areas of defense and foreign policy, we must never divert from our traditional approach: that politics must stop at the water's edge.

Mr. Speaker, I hope that we will never deviate from that wisdom. Over the last eight years, the President and the Congress have come together in the area of defense policy, and the results have been stupendous. I know from my own experiences on the Armed Services Committee how valuable a bipartisan approach is, and I thank Secretary de Leon for articulating the concepts so well.

REMARKS BY DEPUTY SECRETARY OF DEFENSE RUDY DE LEON, DEFENSE ORIENTATION CONFERENCE ASSOCIATION

OCTOBER 4, 2000

Donald Bickle [DOCA President], John Olsen [DOCA Vice President], thank you both for the opportunity to join you today, for your leadership of this outstanding organization and for your service to this nation. John was in the Air Force and Donald was in the Navy during both the Second World War and Korea. We are grateful to you both. Members of the Board, members of DOCA and spouses, ladies and gentlemen.

First, allow me to begin with two simple words to every one of you. Thank you. Most of you will recall a time not so long ago when virtually every American had a family member or a friend in uniform and when what Tom Brokaw calls the Greatest Generation shared the lessons of their lives with the generations that followed.

Today, in an era when the military is smaller and less visible in our society, you—the members of that Greatest Generation—have been a bridge like no other. As informed observers with experience and insights into the military, and as respected and powerful voices within your communities, you have been in a unique position to help the nation understand the sacrifices and needs of our sons and daughters in uniform. And that is why I wanted to speak to you today.

I thought I might begin this morning by painting two pictures, pulled directly from recent headlines and world events, that capture a fundamental truth of our time.

The first picture is of the Former Republic of Yugoslavia. It is a picture of an entire people standing up and speaking out, of workers putting down their tools and walking out of their factories, of truckers and taxi drivers blockading roads, and of tens of thousands of average citizens taking to the streets to demand that their votes be counted and that the dictator who brought such misery and death to an entire region be ousted. And as this drama unfolds, the world hopes that a long, bloody chapter in the history of Europe might perhaps be coming to an end.

The second picture is from a world away on the Korean Peninsula. It is a picture of the leaders of North and South meeting for the first time and of a historic ceremony to cut through the DMZ—the world's most fortified border—with a reopened railway and a historic highway along which trade will travel. It is a picture of families reuniting in tearful embraces after a half-century of separation and of North and South Korean athletes marching into the Olympic stadium in Sydney under a common flag for the first time. And as this drama unfolds, the world hopes that a long, sad chapter of division in Asia might perhaps be coming to an end.

As different as these two pictures are, as distinct as the histories that have propelled these two nations to this epic moment, they share a common thread. Both would have been impossible without the presence, the persistence, and the determination of the United States Armed Forces and our allies. Both remind us of the powerful forces of freedom that can be unleashed by the stabilizing presence of the American military around the world.

So there's no more fitting time than now to consider how we reached this moment and to consider the great questions that will continue to face our nation in the future. What should our role be in the 21st Century? Is America's military ready? And how can we ensure that our forces can meet the immediate crises of today while at the same time, modernizing to meet the emerging threats of tomorrow?

These are valid and profound questions for our nation. They demand thoughtful and honest answers. When it comes to America's Armed Forces, we need a candid and comprehensive portrait of the state of our military. And that is what I want to discuss with you this afternoon.

Military readiness is a function of many factors, including the overall level of defense spending; the quality and quantity of those we recruit and retain; the capabilities of their equipment; and, finally, their ability to fulfill the missions we ask of them. To understand each of these is to understand the state of America's military at the dawn of the 21st Century.

First, there is the spending this nation devotes to our men and women in uniform. I think if we look over our shoulders at the past decade, we see that there have been several great revolutions that have had a tremendous impact on our country and the world at large.

There is the revolution in global affairs, most notably the collapse of the Soviet Union. With all the benefits of the Cold War's end came the burdens of being the world's sole superpower. As General [Hugh] Shelton [Chairman, Joint Chiefs of Staff] outlined to you this morning, soon we had fewer military personnel facing more missions, combining to levy unprecedented demands on our military men and women.

Then there is the revolution in technology with its daily digital leaps that are transforming everything from how we communicate, to how we learn, to how we understand our universe. As Secretary [of Defense William] Cohen has said, information can indeed be the great equalizer, placing enormous power in the hands of the common citizen or consumer. At the same time, information can also be the great destabilizer, placing enormous and deadly power in the hands of those who wish us harm. And so we now also face the prospect of hackers launching daily assaults on our defense systems and our critical infrastructure.

At the same time, there has been a revolution in demographics. Those born between 1965 and 1979—the so-called ''Generation X''—comprise one of the smallest groups of 18–22 year olds, and, therefore, the smallest pool of potential recruits, since we started the All Volunteer Force in the 1970s. While the next wave—so-called ''Generation Y''—is considerably larger, it won't start having a major impact on recruiting until at least 2003.

And then there is the revolution in our domestic financial affairs. We have balanced the budget and have eliminated deficits as a drain on our national security. Contrary to conventional wisdom, the decline in military spending did not start with the end of the Cold War. Rather, it started several years before with efforts to reduce the deficit—specifically the Gramm-Rudman Deficit Reduction Act—in the late 1980s.

Ten years ago when I was staff director of the House Armed Service Committee, and eight years ago when I entered the Pentagon, the overwhelming reality was the enormous budget deficit that hung over our heads. Few dared even think about real growth in spending or investment.

Today, we have achieved a sea-change in our financial affairs. Because of hard economic decisions and deficit reduction, and because of the roaring economy, these decisions helped to unleash, those record deficits have now turned into record surpluses.

That surplus has now allowed us to do something many through unlikely, if not impossible, even only a few years ago. With the President and Secretary of Defense working with the Congress, we are now making new investments in our military men and women totaling some $180 billion in just the last two years—the largest sustained increase in defense spending in fifteen years.

Consider the second measure by which to measure readiness—the quality and quantity of those we recruit and retain. The dynamic economy is pulling away many potential recruits and many of our highly skilled people. So we faced the twin challenges of too many people leaving the force and too few people entering the force.

That's why a significant part of that $180 billion increase in defense spending is going toward dramatic improvements in quality of life. With respect to pay, all our men and women have now received the largest pay raise since the early 1980s. Others with special skills and many in their mid-careers have received additional raises and bonuses on top of that, some as much as 5 percent more.

With respect to benefits, we have made dramatic changes. We have fixed and improved military retirement, restoring benefits so our people can once again retire with 50 percent of their pay after 20 years of service and have a powerful incentive to stay in the force longer.

With respect to housing, we're making progress as well. I know that some of you visited Travis Air Force Base in August, where you saw substandard housing in an

area where the basic housing allowance we provide our forces sometimes isn't enough to match the high cost of living. Well, we've modified the allowance to better reflect the actual cost of off-base housing. And now we're making a truly historic change. This year, we are going to reduce from 19 percent to 15 percent what many of our people pay out of pocket for off-base housing. Within five years, we plan to eliminate those expenses entirely and we're going to devote $3 billion to do it.

With respect to health care, we have made, and will continue to make, improvements in an area that consistently ranks among the top concerns of our forces and their families. I know that in March some of you visited Fort Sam Houston in Texas, home to the U.S. Army Medical Command. Our TRICARE health system is now fully operational in the continental United States, and our service members and their families rate the quality of care they receive as very high. Our next major challenge is ensuring we provide care that is accessible and hassle-free. That's why we will soon be implementing important changes to lower the health care costs for active duty service members and their families, and to expand coverage for family members.

But just like the nation as a whole, we're grappling with sky-rocketing health care costs and a growing population of older Americans—our retired veterans. So Congress is about to pass—with the Administration's support—an expansion of a pharmacy benefit so that our military retirees can afford the cost of their prescription drugs. Health care will continue to be a hard issue, but we will continue to work hard with Congress in keep faith with our retired veterans who served their country so nobly. And Secretary Cohen and particularly General Shelton, continue to work with Congress in this area.

In many ways our force is only as strong as the families behind it. And because so many of our personnel are also parents, we've also devoted tremendous time and attention to ensuring strong military families. As a result, our schools recently led the nation in a national survey on writing, with our overseas schools coming in second to only one state, and our stateside schools coming in year. In recent years, students in our schools have scored well above the national average at all grade levels and in all subjects.

At the same time, by adding $190 million to child care programs over the past six years, we now have a child care system that has been described by many, including the New York Times, as ''a model for the nation.''

Thanks to all these efforts to improve quality life, we're now witnessing some important improvements in retention. However, it's not only the fundamental rewards that keep our people in uniform, it's the personal reward of doing the job they were trained to do. In fact, those soldiers serving in places like the Balkans have some of the highest re-enlistment rates in our armed forces. The services have already worked to relieve the stress of current operations. In the future, our challenge will be to ensure that the stress on our forces and their families doesn't turn that motivation to serve into a motivation to leave.

We want our forces to stay because they by almost every measure, the quality of our men and women is higher than it's ever been. With more of the force staying in the service for longer than 10 years, they are more experienced than ever. With more high school diplomas and more advanced degrees to their name, they are more educated than ever. So while very real challenges remain in keeping quality people, America needs to know what General Shelton told the U.S. Senate last week and perhaps again to you today. He said, ''In my 37 years in uniform, I have never been around better soldiers, sailors, airmen and marines.''

Our efforts to improve quality of life have also improved recruiting. In addition to the demographic revolution and lure of the private sector I mentioned, the causes [of our recruiting challenge] are many. They include the ever-increasing value of a college education and the ever-increasing availability of tuition assistance that has now made college available to virtually every high school graduate who wants to attend.

So what did we do when we wanted to recruit more young people? We put more recruiters on the streets. We created higher bonuses for enlistment. We increased educational incentives. And we tailored advertising and more spending to reach out to young people.

As a result, we're now seeing a real turnaround in recruitment. Just last week, the Army enlisted its 80,000th soldier for the fiscal year ending September. Shortfalls indeed remain in some areas like naval flight officers and computer specialists. But for the first time in three years, every service not only met their active duty recruiting goal, they exceeded them, and not only in terms of quantity, but in terms of quality as well. For example, over 90% of our recruits hold high school diplomas, much higher than the national average. So while challenges remain, America needs to know that we're still recruiting the best and brightest this nation has to offer.

Of course, just as important as the quality of our men and women, is the third measure of readiness—the quality of their equipment. The end of the Cold War was a time of transition for our force. But by 1997 we knew that a 13-year decline in procurement spending would have to end. So we ended it. As General Shelton noted to you this morning, this year we achieved our $60 billion in annual funding for the new weapons, tools and technologies our warriors need. Over the next five years we plan to increase that to $70 billion. And in the years beyond, building the advanced force of the future means that procurement will have to remain a national priority.

That's why we are investing in the next generation of aircraft. We're investing $38 billion for the revolutionary V–22 Osprey that takes off and lands like a helicopter but flies like an airplane, allowing our forces to be more mobile. We're investing $45 billion for the massive C–17 transport that carries more cargo to less accessible places, like those airfields in Albania during the air war over Kosovo. We're investing $62 billion for the F–22 that will ensure our supremacy of the skies for decades to come. And over the long-term, we're investing in our largest acquisition program, the Joint Strike Fighter.

America needs to know that all this investment is fueling an unprecedented Revolution in Military Affairs. Indeed, it's not enough to spend more, we also have to spend smarter. And we're doing both.

The Navy is improving the capabilities of its ships and aircraft, increasing their striking power by tying them together with the most sophisticated technologies.

The Air Force is transforming itself into an expeditionary force and—as the world saw in Kosovo—making greater use of Unmanned Aerial Vehicles that reduce the risk to pilots and increase our intelligence and reconnaissance capabilities.

The Marines are revolutionizing their capabilities by honing their skills in urban warfare.

And, of course, the Army has embarked on a historic transformation to dramatically enhance the speed, mobility, and firepower of our soldiers. That's why we worked with Congress to secure more than $7 billion for the next four years to propel that transformation, including more than $4 billion for Interim Armored Vehicles that will be more agile and lethal on the battlefield than anything our soldiers have today. We're also investing $48 billion in the lighter and more lethal Comanche helicopter.

America needs to know that we're also transforming the Defense Department to better support this new military. We created the Joint Forces command in Norfolk to improve the ability of the services to operate together and to experiment with the most advanced technologies and tactics. We created a Defense Threat Reduction Agency to pull together our counter-proliferation efforts. We created a special task force to advise and assist communities should a chemical or biological weapon ever be used on American soil. And we created another task force to defend our computer systems as part of our normal warfighting mission. As different as all these efforts may be, the result is the same—our men and women will be safer and our military will be stronger.

I've mentioned many of the investments we're making in our military. But I would suggest that just as important as what we should be spending is what we should not be spending. Consider the money lost to inefficiencies within the Defense Department itself. That's why we began a Defense Reform Initiative that is now saving us tens of billions of dollars.

Consider the money wasted on excess infrastructure. As a result of the four rounds of base realignment and closure to date, we expect to save more than $25 billion by the year 2003. Those of you who visited Kelly Air Force Base in March know how base closure, if done right, can mean the opening of new prosperity. The country and the Congress need to know that we can't build a lean, agile 21st Century military if it's dragged down by an oversized, outdated 20th Century infrastructure. The country and the Congress need to know that two more rounds of BRAC would save us $3 billion a year, billions that could be better spent on our forces and their families.

Which brings me to the fourth and final measure of readiness I want to address—and perhaps the most important of all—the ability of our men and women to complete the missions we ask of them. As you know from your visits to bases and installations around the country, and as the Joint Chiefs told Congress last week, and which I believe General Shelton reiterated to you this morning, our front-line units—the first to fight in the event of a conflict on the Korean Peninsula or in the Persian Gulf and the Balkans—are capable. Our forces can fulfill our strategy of fighting two major theater wars. And in the future, we should experience an increasing trend in readiness.

And so if the question is asked, ''Is America's military ready if we call?'' We need only look to the times when we have called them.

Those of you who went to Guatemala last year know that when Hurricane Mitch ripped across Central America, America's military was ready. As General [Charlie] Wilhelm

[then Commander-in-Chief, U.S. Southern Command] told you, the millions of tons of food and supplies that U.S. forces flew in and gave out saved countless lives and helped to literally rebuild entire regions from the ground up.

When Slobodan Milosevic unleashed a wave of terror in Kosovo last year, America's military was ready. We had soldiers in neighboring countries preventing a wider war and airlifting tons of food and supplies to save thousands of Kosovar refugees. We had sailors and marines on ships and submarines in the Adriatic, and naval aviators flying into those dangerous Balkans skies. And we had airmen engaging in the most precise campaign in the history of air power. They conducted the vast majority of those 38,000 NATO sorties. They took to the skies for 78 days with only two planes lost and not a single combat casualty. And while that record was not achieved without stress on certain assets, that is a historic achievement of which our forces and the American people should be enormously proud.

Indeed, the true measure of America's military is the job they do every day. In short, America needs to know that the U.S. Armed Forces are the best trained, best educated, best led, most respected and finest fighting force the world has ever seen.

So in closing, I want to recite a page from America's past that I believe points the way to ensuring our military strength in the future. Half a century ago, this nation stood at the hinge of history, an unprecedented time of both promise and peril. There was the promise, our victory in the Second World War. But there was also the peril, a dawning Cold War. And America's very survival demanded that we think anew and act anew. And so to navigate the shoals of the century that lay ahead, Arthur Vanderberg, a Republican Senator from Michigan, joined with Harry Truman, a Democratic President from Missouri, and the nation came together around a common foreign and defense policy to defend freedom and to create a Marshall Plan and an alliance called NATO that would eventually win the Cold War.

Today, in the long wake of our triumph in that long struggle, America again stands at the hinge of history. Again there is the promise, of the world's sole economic and military superpower. Again there is the peril, the new threats of this new century. And to chart the nation's course in our time, William Cohen, a Republican Senator from Maine, joined with Bill Clinton, a Democratic President from Arkansas, to help restore a spirit of bi-partisanship to defense policy and to ensure that when it comes to our men and women in uniform, politics does indeed stop at the water's edge.

Ladies and gentlemen, in recent years we have recognized that truth. We have worked with Congress to support and strengthen our military. We have upheld our sacred pledge to care for America's sons and daughters who wear this nation's uniform. That is the message I wanted to bring to you today. That is the message I hope you carry back to your communities and the country. Thank you very much.

HONORING THE GRAND OLE OPRY IN NASHVILLE, TENNESSEE ON THE 75TH ANNIVERSARY CELEBRATION

HON. BOB CLEMENT

OF TENNESSEE

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 5, 2000

Mr. CLEMENT. Mr. Speaker, today I honor a sacred historic institution, the Grand Ole Opry in Nashville, Tennessee, on the occasion of its 75th Anniversary as the longest continuously running live radio show in the world. The Opry and its colorful cast of characters are known and loved by individuals across the globe.

As a native Nashvillian, born and reared in Music City USA, I truly appreciate the significance of country music and its influence on so many people. Country music and its cousins, bluegrass, folk, gospel, blues and rockabilly, truly have captured the heart and soul of our great nation, offering songs that spring from the fabric of America. Country lyrics espouse our history, our faith in God, our love of family, and our appreciation for the value of freedom and hard work. With these melodies and themes, country music appeals to listeners of all ages and from all walks of life.

To honor and highlight the significance of country music, in 1990, I sponsored and passed legislation designating October as Country Music Month. Now Country Music Month and Country Music Week are nationally recognized events each year, celebrated by millions of individuals.

The Opry has inspired a country music fan fair phenomenon; been the focus of a theme park, hotel complex, television networks, magazines, and movies; infused the tourism industry in Tennessee; and given us an incredible amount of memorable music. Yet, the Opry's beginnings were humble.

In 1925, the "solemn old judge" George D. Hay moved from Chicago's WLS Barn Dance to Nashville, where he began broadcasting and hosting the show that would later become the Grand Ole Opry. Hay eventually would coin the phrase, "Grand Ole Opry" about the program, instantly giving it a name that would endure forever. With WSM's strong 100,000-watt clear channel signal, the Opry could be heard for hundreds of miles across the United States by thousands of people. As the show brought performers of traditional music to the stage, a new genre of music was officially born—country music.

Those early 1920s Opry performers included mainly instrumental talents such as banjo player Uncle Dave Macon and harmonica player Deford Bailey. In the 1930s and 40s, vocalists such as the "King of Country Music" Roy Acuff, Ernest Tubb, Hank Williams, and Bill Monroe all took the stage, as did comedienne Minnie Pearl.

As the years passed, the talent pool grew and the NBC Network picked up the show. Such big names as Patsy Cline, Flatt and Scruggs, Hank Snow, Hawkshaw Hawkins, Jim Reeves, Red Foley, Marty Robbins, Martha Carson, Kitty Wells, Johnny Wright, Bill Anderson, Connie Smith, Dolly Parton, Porter Wagoner, Garth Brooks, Pam Tillis, Trisha Yearwood, and Alison Krauss all have called the Opry stage home. These artists represent just a fraction of the bright and talented performers to grace the stage since its inception, whether at the War Memorial Auditorium, the Ryman Auditorium, or the Grand Ole Opry House of today.

My family has enjoyed an ongoing relationship with the Grand Ole Opry over the years. In fact my father, Governor Frank Clement, enjoyed strong friendships with many Opry members, often enlisting their talents for political rallies across the state. In addition, Governor Clement traveled to Washington and testified on behalf of country music when its lyrics were under fire by Congress in the 1950s.

Like any sacred institution, the Opry has endured sorrow, grief, and loss. It has faced adversity and strain. There have been joyous times and laughter. But the Opry has endured throughout each season. In the 1980s, George Jones touched our hearts as he sang, "Who's Gonna Fill Their Shoes" about the legacy of country music and its legendary artists. Jones singled out performers such as Lefty Frizzell, Merle Haggard, Elvis Presley, Carl Perkins, Willie Nelson, and Roy Acuff in the tune. He also mentioned the Opry in the song lyrics, inspiring a new generation of country artists to carry the torch. I'd particularly like to recognize the contributions of Ricky Skaggs, Marty Stuart, and WSM announcer Eddie Stubbs for promoting the cause of traditional music and educating the next generation about our rich heritage in this new millennium.

Throughout the years the Opry and its cast of performers, announcers, advertisers, and musicians have inspired and entertained us each Friday and Saturday night. For these valued contributions and cherished memories we are forever grateful to the Opry and those who have called it "home." We salute the Grand Ole Opry for 75 wonderful years and offer our sincerest wishes for continuous success in the years to come.

Thank you and God bless you.

HONORING OLYMPIC GOLD MEDAL WINNER STACY DRAGILA

HON. JOHN T. DOOLITTLE

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 5, 2000

Mr. DOOLITTLE. Mr. Speaker, today I recognize a native of my congressional district who has brought glory and honor to herself, her family, and her fellow Americans. I wish to congratulate Stacy Dragila on recently winning the gold medal in the first-ever Olympic Women's Pole Vault Competition.

Dragila grew up in Auburn, California, where she competed in goat roping as a child. As a heptathlete during her years on Placer High School's track and field team, she had little idea that she would one day stand atop the Olympic medals podium as a pole vault champion. You see, when she was in high school, the pole vault was an event in which only male competitors took part.

As the women's pole vault has finally taken root in the United States, Stacy has quickly

established herself as the premier athlete in her field. Each time she reaches a new personal best mark, she rewrites the world record. In fact, while competing on her home turf at this summer's U.S. Olympic Trials in Sacramento, she set the current world record 15′2¼″. By continually raising the bar, Stacy has forced her competitors to push their own limits as well. This resulted in an exciting duel at this month's Olympic Games in Sydney, Australia. In the end, Dragila brought home the gold with a vault of 15′1″.

At the age of 29, Stacy Dragila stands as an Olympic champion and as an American hero. Furthermore, as a pioneer in a new sport, she stands as a role model for those young women who will strive to match her achievements on the field. Perhaps most importantly, however, she is, by all accounts, a world-class person as well as a world-class athlete. Today, I proudly join with Americans everywhere in saluting gold medalist Stacy Dragila.

INDIAN GOVERNMENT SHOULD STOP ITS STATE TERRORISM

HON. EDOLPHUS TOWNS

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 5, 2000

Mr. TOWNS. Mr. Speaker, on September 27, a letter from the Council of Khalistan was published in the Washington Times. It details the propaganda spread by the Indian government to discredit its opponents.

That propaganda is necessary for the Indian government to cover up the atrocities and state terrorism against Christians, Sikhs, and other minorities. Former Indian cabinet minister R.L. Bhatia admitted in 1995 that the Indian government is spending ''large sums of money'' to spread this propaganda and influence affairs in the United States.

Earlier this month, militant Hindu fundamentalists attacked the home of a priest. They beat him and his servant. The servant was beaten so badly that he died. Unfortunately, this kind of thing is not unusual. It is just the latest in a series of atrocities carried out by organizations under the umbrella of the Rashtriya Swayamsewak Sangh (RSS), the parent organization of the ruling BJP. While Prime Minister Vajpayee was in New York during his recent visit to the U.S., he said, ''I will always be a Swayamsewak.''

Last week, former Prime Minister Chandra Shekhar said that there is no difference between the ruling BJP and the supposedly secular Congress Party. Unfortunately, from the point of view of the minorities in India, it is true. There is no difference. Whoever is in power, the repression continues. India has murdered over 250,000 Sikhs since 1984, over 200,000 Christians in Nagaland since 1947, over 70,000 Kashmiri Muslims since 1988, and tens of thousands of Dalit ''untouchables'' and other minorities. Thousands of Sikhs and other minorities are in illegal detention without charge or trial simply because they are opposed to the government, or because they are members of a minority.

Mr. Speaker, it is time for India to stop its state terrorism against the minorities within its borders. We must stop American aid to India and declare our support for self-determination for the people of Khalistan, Kashmir, Nagalim, and the other nations seeking their freedom, in the form of a free and fair democratic plebiscite. These measures are the only ones we can take that will help to bring real freedom and democracy to the people of South Asia. I submit the following article into the CONGRESSIONAL RECORD.

[From the Washington Times, Sept. 27, 2000]

NO MILITANTS IN THE COUNCIL OF KHALISTAN

Manpreet Singh Nibber's Sept. 16 letter, ''India human rights criticism from unreliable source?'' is so full of disinformation that he must be fronting for the Indian Embassy in its effort to confuse the American people.

Mr. Nibber, who is a member of the Punjab Welfare Council of the USA, does not address any of the facts we brought up in our last letter. Instead, he spreads Indian disinformation about the Council of Khalistan and its origins. He knows there are no ''militants'' involved in the council. We consistently support the liberation of Khalistan, the Sikh homeland that declared its independence from India on Oct. 7, 1987, by democratic, nonviolent means, through the Sikh tradition of ''Shantmai morcha,'' or peaceful agitation.

The Indian Embassy has interfered in American elections, calling for the re-election of former Sen. Larry Pressler and attempting to damage the re-election campaign of Sen. Robert Torricelli. A few years ago, the Indian Embassy was caught giving illegal campaign donations to members of Congress through an immigration lawyer named Lalit Gadhia, who pleaded guilty to the scheme in federal court.

There are many other Gadhias throughout this country. Former Indian cabinet minister R.L. Bhatia admitted in a 1995 news conference that the Indian government is spending ''large sums of money'' through the embassy to influence American politics. But what is that money defending?

On Sept. 8, militant Hindus attacked the home of a priest and beat the priest and his servant. The servant was so severely beaten that he died of the injuries. On Aug. 25, News stories reported that militatnt Hindu nationalists kidnapped and tortured a priest in Gujarat, then paraded him naked through town. This attack was part of a wave of terror against Christians since Christmas 1998.

Incidents have included the murder of priests, the rape of nuns and the burning to death of nuns and the burning to death of a missionary and his two sons in their van by members of the Rashtriya Swayamsevak Sang (RSS), the parent organization of the ruling Bharatiya Janata Party. Schools and prayer halls have been attacked and destroyed. The individuals who raped the nuns were described by the Vishwa Hindu Parishad, a militant organization within the RSS, as ''patriotic youth.'' The RSS was founded in support of fascism.

In March, 35 Sikhs were murdered in the village of Chithi Singh-pora in Kashmir. Two extensive independent investigations, one conducted by the Movement Against State Repression and the Punjab Human Rights Organization and another conducted by the Ludhiana-based International Human Rights Organization, proved that the Indian government was responsible for this massacre.

The Indian government has murdered more than 250,000 Sikhs since 1984, according to figures published in Inderjit Singh Jaijee's ''The Politics of Genocide.'' India also has killed more than 200,000 Christians in Nagaland since 1947, more than 70,000 Kashmiri Muslims since 1988 and tens of thousands of other minorities. Amnesty International reports that thousands of political prisoners are being held without charge or trial in ''the world's largest democracy.''

India is hostile to the United States. It votes against America at the United Nations more often than any country except Cuba.

In May 1999, the Indian Express reported that Indian Defense Minister George Fernandes led a meeting with Cuba, China, Iraq, Serbia, Russia and Libya to construct a security alliance ''to stop the U.S.''

India openly supported the Soviet Union's invasion of Afghanistan. Its nuclear weapons test started the nuclear arms race in South Asia. It refuses to allow the Sikhs, Kashmiris, Christians and other minority nations seeking their freedom to decide their political future in a free and fair vote, the democratic way.

America must not accept this kind of brutality and tyranny from a government that claims to be democratic. We must cut off aid and trade to India and support a free and fair plebiscite to ensure human rights and self-determination for Khalistan, Christian Nagalim, Kashmir and all the minority nations and peoples living under Indian rule.

PERSONAL EXPLANATION

HON. FLOYD SPENCE

OF SOUTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 5, 2000

Mr. SPENCE. Mr. Speaker, on rollcall Nos. 503, 504 and 505, I was not present as I was unavoidably detained. Had I been present, I would have voted ''yea'' on all three.

A LETTER TO MY SONS

HON. MARSHALL ''MARK'' SANFORD

OF SOUTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 5, 2000

Mr. SANFORD. Mr. Speaker, in the final days of the 106th Congress and my time here in the House, I rise today to pass these words on to my sons.

October 5, 2000.

DEAR MARSHALL, LANDON, BOLTON AND BLAKE: I wanted to write this letter so that maybe in twenty years or maybe after I have died you could look it up and think about how much your Dad loves you. I write this letter as much as anything because I feel the need to pause and praise each of you and to say how proud I am of you and how much, again, I love you.

That's needed because over the last seven years all you have known is a world tied to politics. For each of the words I spoke into the record on the House floor, or in Committee, I couldn't expand time and also fill those minutes and hours with words to each of you. Each of the days I spent in Washington were days I couldn't spend with you. Each of the evenings I spent at political events were evenings I couldn't spend with you. I apologize for our time apart. Each of you as young men will one day discover your calling—why God put you here—and in turn

have to struggle in balancing the different responsibilities each of you will embrace.

I have felt that my job over these last seven years was getting to—and being in—Congress. Since I came here I have tried as best I could do what I thought was right, but in all that doing I always thought of each one of you. Here in Washington I never went to bed once without saying prayers with each of you in them.

In the early years it was just Marshall and Landon, and you guys, as little guys, put in far more than your share of parades and political events.

As if yesterday I remember the Hell hole swamp parade and pulling the wagon with Marshall and Landon. In the Summerville parade in the first campaign, to this day I remember Marshall's wild white curls and his little light blue V-neck sweater. I am amazed to look at pictures and see how small Landon was at the start of this process.

I think the last parade with just Marshall and Landon was at the Loris Bog-off. It was cool and I remember your mom and I buying you both swords at a booth alongside the railroad track afterward. I doubt I was that big on the swords, but I am sure your mom well made the point that you earned them, and in case you don't remember the spot—there were men and women in bright blue clothes dancing to country music on a flatbed trailer just to the left.

Marshall, you have always been great help with your younger brothers, thank you. The way you have carried yourself also makes me proud. Do you remember going with then Governor Beasley and several security men in a Department of Natural Resources speedboat out to a Navy destroyer in Charleston Harbor? During the commissioning ceremony it was hot and you were not wild about being there, but you put up with it and behaved well. In the same vein do you remember sitting under my chair at the Hwy 61 connector opening. It was hardly a grand event, but you found shade and stayed still and quiet which was no small feat given your age. In these and many other events like them, you showed a maturity well beyond your years. It will carry you far in life.

In the political context of my note, Landon made me proud most recently at the St. Patricks day parade in North Myrtle Beach. I was pulling a wagon along side you while you walked straight up the yellow line in the middle of the street. In your young man's march you were waving at the several thousand people who lined both sides of the road. In most waves your arm was held at a forty-five degree angle and your palm and hand were straight up as if the tip of a small spear. The whole thing was not easy for you. In fact it was incredibly brave. Blake was in my arms and your two brothers were riding in the wagon and there you were, a reserved boy by nature walking up a street surrounded by strangers—waving to both sides. On the long drive home you started singing some silly song and next thing you know three boys are laughing hysterically in the back of the Suburban. You have the ability to defuse things with laughter.

Bolton—you are a natural born performer. Of all the family members you are the most gifted in surprising people, and not infrequently, making them laugh. You were doing just that winter before last at the Conway parade when you rode in the wagon and chose to throw bags of candy—not the candies! In the same light I remember the words Mary Crixmas, Mary Crixmas, Happy Santa Claus. Last winter I was the Grand Marshall of the Mount Pleasant Christmas parade. Marshall sat to my left, Landon on my right, you were on my lap and with outstretched arms you yelled these words with such enthusiasm that half-way through the parade you couldn't say another word. John McCain asks regularly about you and still talks about your enthusiasm for fishing. I think you are the only four year old to have given the President of the United States a froggy kiss. These days you are into catching butterflies with your hands, but thank you for wearing politics as well as you have.

Blake—you haven't said a whole lot in parades yet, but you haven't had to because with your blonde curls and cute smiles everyone adores you! You are specific in what you want thought, you like to be carried—not to ride on my shoulders like some of your brothers.

The point in these memories, and a thousand others like them, is that we have been through some interesting times together. Your peers have not had to go through what you have. At your young ages you have been exposed to a wide range of people and settings—medicade nursing home visits, trips to the White House, the House that Congress built with Habitat for Humanity, watching the sun rise from a boat moored feet from where the Hunley would rise hours later, feeding special Olympic kids at the Citadel, getting up hours earlier than you would have to go to an event in Myrtle Beach, beach sweeps, and more. In the end I think you will be better for having seen a wide swath of life, but since it involved wear and tear on your bodies this note is here simply to say thank you. Thank you for behaving well, and thank you for putting with it. I am proud of you. You are each unique young men. I love you and look forward to spending more time with each of you over the years ahead.

Love,

DAD.

P.S. After reading this, one day do an extra something special for your mom. In my absence over the last six years she has changed a lot of diapers and fixed more than her share of dinners for you.

RECOGNIZING THE ACCOMPLISHMENTS OF HERBERT S. BECKER

HON. WILLIAM M. THOMAS

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 5, 2000

Mr. THOMAS. Mr. Speaker, it is with great pride that we recognize the accomplishments of a visionary who is set to retire from service to the Congress at the end of this year. Herbert S. Becker has been the Director of the Office of Information Technology Services at the Library of Congress. During his 15 years of leadership, he helped bring about new programs in support of the Congress, the Library, and the nation.

In collaboration with the Congressional Research Service, Mr. Becker created a Capitol-Hill-wide Legislative Information System for better and faster access to legislative resources. He oversaw the successful transition to new technology that made the Library's online card catalog easier for patrons to use. He initiated the development and implementation of new technology to improve archiving at the Congressional Research Service and the U.S. Copyright Office. And he helped create a new financial management system.

But perhaps Mr. Becker's most significant accomplishment was his role in the development of the popular THOMAS website for public access to legislative information. With the advent of THOMAS, any citizen can access detailed and recently updated information about the business of Congress and gain insight into the legislative process.

His vision and the strength of his commitment have clearly facilitated the work of the people's representatives. I know I speak for the entire House when I wish him well in his future endeavors and thank him for his years of service to the American people.

MISSING JOURNALIST IN THE UKRAINE

HON. CHRISTOPHER H. SMITH

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 5, 2000

Mr. SMITH of New Jersey. Mr. Speaker, it has been almost three weeks since the highly disturbing disappearance of Heorhii Gongadze, a journalist known for his articles exposing corruption in the Ukraine and for playing a prominent role in defending media freedoms. Mr. Gongadze, whose visit to the United States last December included meetings with the Helsinki Commission staff, was publisher of a new Internet newspaper called Ukrainska Pravda (meaning Ukrainian Truth), a publication often critical of senior Ukrainian officials and their associates. In fact, shortly before he vanished, Mr. Gongadze had apparently been facing pressure and threats and had complained that police were harassing him and his colleagues at Ukrainska Pravda.

Unfortunately, Mr. Gongadze's disappearance takes place in an increasingly unhealthy media environment. According to the Committee to Protect Journalists, his disappearance follows several suspect or inconclusive investigations into the suspicious deaths of several Ukrainian journalists over the last few years and the beatings of two journalists following their articles about official corruption this year. This disappearance has occurred within an environment which has made it increasingly difficult for professional journalists to operate, including harassment by tax police, criminal libel prosecutions, the denial of access to state-controlled newsprint and printing presses, and phone calls to editors suggesting that they censure certain stories. Such an atmosphere clearly has a chilling effect on press freedom.

Mr. Speaker, I am encouraged that the Verkhovna Rada—the Ukraine's parliament—has formed a special ad hoc committee to investigate Mr. Gongadze's disappearance. I am also hopeful that the Ukraine's Ministry of Internal Affairs and other law enforcement agencies will conduct a serious, vigorous investigation to solve the case of this missing journalist.

As Chairman of the Helsinki Commission and as someone who has a longstanding interest in the Ukraine, I am deeply disappointed that the Ukraine's relatively positive human rights record has been tarnished by an environment not conducive to the development of a free media. I remain hopeful that the Ukrainian authorities will make every effort to reverse this situation.

HONORING TAIWAN'S NATIONAL DAY, OCTOBER 10, 2000

HON. JENNIFER DUNN

OF WASHINGTON

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 5, 2000

Ms. DUNN. Mr. Speaker, as President Chen Shui-bian, Vice President Annette Lu, and the people of the Republic of China prepare to celebrate their National Day on October 10, 2000, I wish to extend my sincere congratulations on their progress.

Since its founding 89 years ago, the Republic of China on Taiwan has attained many remarkable achievements. Their progress ought to be recognized by the United States and emulated by the entire world community. For instance, Taiwan's economy is robust. In June of this year, exports and imports grew nearly 25 percent from the previous year. This growth is due in large part to Taiwan's embrace of the new economy, specifically information and high technologies.

Not only has Taiwan experienced strong economic growth, but Taiwan is also a democracy in the truest sense of the word. Taiwan upholds the freedoms we, as Americans, hold dear, including free elections, free media, and free expression.

Mr. Speaker, Taiwan is truly a model of success for many countries in the world. Taiwan deserves our congratulations and our support.

GOVERNOR RIDGE HONORS CONGRESSMAN WILLIAM GOODLING

HON. BUD SHUSTER

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 5, 2000

Mr. SHUSTER. Mr. Speaker, I submit the following remarks to the CONGRESSIONAL RECORD on behalf of my good friend and former Member of this body, the current Governor of the Commonwealth of Pennsylvania, Tom Ridge, in honor of the outstanding contributions and dedicated service that Congressman BILL GOODLING has provided to the United States Congress, the Commonwealth of Pennsylvania, and the people of the 19th Congressional District.

HONORING CONGRESSMAN WILLIAM GOODLING

DEAR MR. SPEAKER: It gives me great pleasure to join the Pennsylvania delegation to honor Congressman Bill Goodling for his outstanding contributions and dedicated service to the United States Congress, the Commonwealth of Pennsylvania and the people of the 19th Congressional District.

Pennsylvania possesses a rich heritage of great civic and business leaders who have made significant contributions to their communities and the Commonwealth as a whole. Bill's attention and unwavering devotion to the needs and best interests of the constituents and our Commonwealth community aligns him with those who exemplify the founding principles of this great nation.

Adequately serving the needs of Pennsylvania citizens, families and communities relies upon the practical knowledge and personal integrity of those committed to the highest measures of citizenship. As Chairman of the Committee on Education and the Workforce Bill Goodling has consistently demonstrated outstanding leadership that directly reflects his unyielding devotion to ensuring a better quality of life for Pennsylvanians. As a devotee to both family and community, his tireless efforts have ensured south central Pennsylvania's economic stability and leadership as we enter the 21st century. It has been my honor to work with him as both a colleague and as Governor and I have personally witnessed his consistent diligence to the highest levels of personal, professional and civic distinction.

Michele and I extend our best wishes to Bill for much happiness and fulfillment in the future.

TOM RIDGE,
Governor, Commonwealth of Pennsylvania.

REMEMBERING THE LIFE OF IDALOU FIREFIGHTER DAVID BUTLER

HON. LARRY COMBEST

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 5, 2000

Mr. COMBEST. Mr. Speaker, today I remember the life of Mr. David Butler, an individual who understood the meaning of dedication and service to his neighbors and his community. On September 19, Mr. Butler was doing what he did best—helping people—when he collapsed and later passed away.

A firefighter with the Idalou, Texas, Volunteer Fire Department for 23 years and Assistant Chief for 10 of those, David gave the ultimate gift of life to save that of another. David, along with other members of the Idalou and Lorenzo Volunteer Fire Departments, arrived at the scene of a one-vehicle roll-over to find the driver trapped beneath a water truck. In an effort to free the driver, Assistant Chief Butler helped set up air bags to lift the truck off the pavement. Once the bags were inflated, he operated the controls to raise the truck, and the man was soon freed from the wreckage and transported to a local hospital. As firefighters were loading their equipment for the return home, David collapsed never to regain consciousness.

The fire department was an extension of David's family, and he acted as a father to his colleagues just as he did to his own three children. He was the epitome of a family man; an ever-dedicated servant to his family, friends and community. David is a true hero, and through his service, he has made Idalou and our society a better place to live. I would like to extend my most sincere condolences to his wife and children and to all who had the pleasure of working with and knowing him. You are all in my thoughts and prayers.

H.R. 2392

HON. JAMES M. TALENT

OF MISSOURI

HON. NYDIA M. VELÁZQUEZ

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 5, 2000

Mr. TALENT. Mr. Speaker, on behalf of myself and Ms. Velázquez, I submit the following Joint Statement of Managers relating to The Small Business Innovation Research Program Reauthorization Act of 2000 (H.R. 2392).

JOINT STATEMENT OF MANAGERS FROM THE COMMITTEE ON SMALL BUSINESS REGARDING H.R. 2392, AS CONSIDERED PURSUANT TO H. RES. 590

TITLE I

The Small Business Innovation Research Program Reauthorization Act of 2000 (H.R. 2392) was introduced on June 30, 1999, and referred to the House Committees on Small Business and Science. Both Committees held hearings and the House Committee on Small Business reported H.R. 2392 on September 23, 1999 (H. Rept. 106–329). In the interest of moving the bill to the floor of the House of Representatives promptly, the Committee on Science agreed not to exercise its right to report the legislation, provided that the House Committee on Small Business agreed to add the selected portions of the Science Committee version of the legislation, as Sections 8 through 11 of the House floor text of H.R. 2392. H.R. 2392 passed the House without further amendment on September 27. The Science Committee provisions were explained in floor statements by Congressmen Sensenbrenner, Morella, and Mark Udall.

On March 21, 2000, the Senate Committee marked-up H.R. 2392 and on May 10, 2000, reported the bill (S. Rept. 106–289). The Senate Committee struck several of the sections originating from the House Committee on Science and added sections not in the House-passed legislation, including a requirement that Federal agencies with Small Business Innovation Research (SBIR) programs report their methodology for calculating their SBIR budgets to the Small Business Administration (SBA) and a program to assist states in the development of small high-technology businesses. Negotiations then began among the leadership of the Senate and House committees on Small Business and the House Committee on Science (hereinafter referred to as the three committees). The resultant compromise text contains all major House and Senate provisions, some of which have been amended to reflect a compromise position. A section-by-section explanation of the revised text follows. For purposes of this statement, the bill passed by the House of Representatives is referred to as the ''House version'' and the bill reported by the Senate Committee on Small Business is referred to as the ''Senate version.''

Section 101. Short Title; Table of Contents. The compromise text uses the Senate short title: ''Small Business Innovation Research Program Reauthorization Act of 2000.'' The table of contents lists the sections in the compromise text.

Section 102. Findings. The House and Senate versions of the findings are very similar. The compromise text uses the House version of the findings.

Section 103. Extension of the SBIR Program. The House version extend the SBIR program for seven years through September

30, 2007. The Senate version extend the program for ten years through September 30, 2010. The compromise text extends the program for eight years through September 30, 2008.

Section 104. Annual Report. The House version provides for the annual report on the SBIR program prepared by the SBA to be sent to the Committee on Science, as well as to the House and Senate Committees on Small Business that currently receive it. The Senate version did not include this section. The compromise text adopts the House language.

Section 105. Third Phase Assistance. The compromise text of this technical amendment is identical to both the House and Senate versions.

Section 106. Report on Programs for Annual Performance Plan. This section requires each agency that participates in the SBIR program to submit to Congress a performance plan consistent with the Government Performance and Results Act. The House and Senate versions have the same intent. The compromise text uses the House version.

Section 107. Output and Outcome Data. Both the House and Senate versions contain sections enabling the collection and maintenance of information from awardees as is necessary to assess the SBIR program. Both the House and Senate versions require the SBA to maintain a public database at SBA containing information on awardees from all SBIR agencies. The Senate version adds paragraphs to the public database section dealing with database identification of businesses or subsidiaries established for the commercial application of SBIR products or services and the inclusion of information regarding mentors and mentoring networks. The House version further requires the SBA to establish and maintain a government database, which is exempt from the Freedom of Information Act and is to be used solely for program evaluation. Outside individuals must sign a non-disclosure agreement before gaining access to the database. The compromise text contains each of these provisions, with certain modifications and clarifications, which are addressed below.

With respect to the public database, the compromise text makes clear that proprietary information, so identified by a small business concern, will not be included in the public database. With respect to the government database, the compromise text clarifies that the inclusion of information in the government database is not to be considered publication for purposes of patent law. The compromise text further permits the SBA to include in the government database any information received in connection with an SBIR award the SBA Administrator, in conjunction with the SBIR agency program managers, consider to be relevant and appropriate or that the Federal agency considers to be useful to SBIR program evaluation.

With respect to small business reporting for the government database, the compromise text directs that when a small business applies for a second phase award it is required to update information in the government database. If an applicant for a second phase award receives the award, it shall update information in the database concerning the award at the termination of the award period and will be requested to voluntarily update the information annually for an additional period of five years. This reporting procedure is similar to current Department of Defense requirements for the reporting of such information. When sales or additional investment information is related to more than one second phase award is involved, the compromise text permits a small business to apportion the information among the awards in any way it chooses, provided the apportionment is noted on all awards so apportioned.

The three committees understand that receiving complete commercialization data on the SBIR program is difficult, regardless of any reasonable time frame that could be established for the reporting of such data. Commercialization may occur many years following the receipt of a research grant and research from an award, while not directly resulting in a marketable product, may set the groundwork for additional research that leads to such a product. Nevertheless, the three committees believe that the government database will provide useful information for program evaluation.

Section 108. National Research Council Reports. The House version requires the four largest SBIR program agencies to enter into an agreement with the National Research Council (NRC) to conduct a comprehensive study of how the SBIR program has stimulated technological innovation and used small businesses to meet Federal research and development needs and to make recommendations on potential improvements to the program. The Senate version contains no similar provision. The study was designed to answer questions remaining from the House Committees' reviews of these programs and to make sure that a current evaluation of the program is available when the program next comes up for reauthorization.

The compromise text makes several changes to the House text. The compromise text adds the National Science Foundation to the agencies entering the agreement with the NRC and requires the agencies to consult with the SBA in entering such agreement. It also expands on the House version, which requires a review of the quality of SBIR research, to require a comparison of the value of projects conducted under SBIR with those funded by other Federal research and development expenditures. The compromise text further broadens the House version's review of the economic rate of return of the SBIR program to require an evaluation of the economic benefits of the SBIR program, including economic rate of return, and a comparison of the economic benefits of the SBIR program with that of other Federal research and development expenditures. The compromise text allows the NRC to chose an appropriate time-frame for such analysis that results in a fair comparison.

The three committees believe that a comprehensive report on the SBIR program and its relation to other Federal research expenditures will be useful in program oversight and will provide Congress with an understanding of the effects of extramural Federal research and development funding provided to large and small businesses and universities. The three committees understand, however, that measuring the direct benefits to the nation's economy from the SBIR program and other Federal research expenditures may be difficult to calculate and may not provide a complete portrayal of the benefits achieved by the SBIR program. Accordingly, the legislation requires the NRC also to review the non-economic benefits of the SBIR program, which may include, among other matters, the increase in scientific knowledge that has resulted from the program. The paragraph in the compromise text calling for recommendations remains the same as the House version, except that the bill now asks the NRC to make recommendations, should there be any.

While the study is to be carried out within National Research Council study guidelines and procedures, the compromise text requires the NRC to take the steps necessary to ensure that individuals from the small business community with expertise in the SBIR program are well-represented in the panel established for performing the study and among the peer reviewers of the study. The NRC is to consult with and consider the views of the SBA's Office of Technology and the SBA's Office of Advocacy and to conduct the study in an open manner that makes sure that the views and experiences of small businesses involved in the program are carefully considered in the design and execution of the study. Extension of the SBIR program for eight years rather than the five being contemplated when the House study provision was initially written has necessitated some adjustments in the study. The report is now required three years rather than four years after the date of enactment of the Act and the NRC is to update the report within six years of enactment. The update is intended to bring current, any information from the study relevant to the reauthorization of the SBIR program. It is not intended to be a second full-fledged study. In addition, semiannual progress reports by NRC to the three committees are required.

Section 109. Federal Agency Expenditures for the SBIR Program. The Senate version requires each Federal agency with an SBIR program to provide the SBA with a report describing its methodology for calculating its extramural budget for purposes of SBIR program set-aside and requires the Administrator of the SBA to include an analysis of the methodology from each agency in its annual report to the Congress. The House version has no similar provision. The compromise text follows the Senate text except that it specifies that each agency, rather than the agency's comptroller, shall submit the agency's report to the Administrator. The three committees intend that each agency's methodology include an itemization of each research program that is excluded from the calculation of its extramural budget for SBIR purposes as well as a brief explanation of why the agency feels each excluded program meets a particular exemption.

Section 110. Policy Directive Modifications. The House version includes policy directive modifications in Section 9 and the requirement of a second phase commercial plan in Section 10. The Senate version includes policy directive modifications in Section 6. The Senate version and now the compromise text require the Administrator to make modifications to SBA's policy directives 120 days after the date of enactment rather than the 30 days contained in the House version. The compromise text drops the House policy directive dealing with awards exceeding statutory dollar amounts and time limits because this flexibility is already being provided administratively. Addressed below is a description of the policy directive modifications contained in the compromise text that were not included in both the Senate version and the House version.

Section 10 of the House version requires the SBA to modify its policy directives to require the small businesses provide a commercial plan with each application for a second-phase award. The Senate version does not contain a similar provision. The compromise text requires the SBA to modify its policy directives to require that a small businesses provide a ''succinct commercialization plan for each second phase award

moving towards commercialization.'' The three committees acknowledge that commercialization is a current element of the SBIR program. The statutory definition of SBIR, which is not amended by H.R. 2392, includes ''a second phase, to further develop proposals which meet particular program needs, in which awards shall be made based on the scientific and technical merit and feasibility of the proposals, as evidenced by the first phase, considering among other things the proposal's commercial potential * * *'', and lists evidence of commercial potential as the small business's commercialization record, private sector funding commitments, SBIR Phase III commitments, and the presence of other indicators of the commercial potential. The three committees do not intend that the addition of a commercialization plan either increase or decrease the emphasis an agency places on the commercialization when reviewing second-phase proposals. Rather, the commercialization plan will give SBIR agencies a means of determining the seriousness with which individual applicants approach commercialization.

The commercialization plan, while concise, should show that the business has thought through both the steps it must take to prepare for the fruits of the SBIR award to enter the commercial marketplace or government procurement and the steps to build business expertise as needed during the SBIR second phase time period. The three committees intend that agencies take into consideration the stage of development of the product or process in deciding whether an appropriate commercialization plan has been submitted. In those instances when at the time of the SBIR Phase II proposal, the grantee cannot identify either a product or process with the potential eventually to enter either the commercial or the government marketplace, no commercialization plan is required.

The compromise text also adds new provisions that were not contained in either the Senate version or the House version. Current law (Section 9(j)(3)(C) of the Small Business Act) requires that the Administrator put in place procedures to ensure, to the extent practicable, that an agency which intends to pursue research, development or production of a technology developed by a small business concern under an SBIR program enter into follow-on, non-SBIR funding agreements with the small business concern for such research, development, or production.

The three committees are concerned that agencies sometimes provide these follow-on activities to large companies who are in incumbent positions or through contract bundling without written justification or without the statutory required documentation of the impracticability of using the small business for the work. So that the SBA and the Congress can track the extent of this problem, the compromise text requires agencies to record and report each such occurrence and to describe in writing why it is impractical to provide the research project to the original SBIR company. Additionally, the compromise text directs the SBA to develop policy directives to implement the new subsection (v), Simplified Reporting Requirements. This subsection requires that the directives regarding collection of data be designated to minimize the burden on small businesses; to permit the updating the database by electronic means; and to use standardized procedures for the collection and reporting of data.

Section 103(a)(2) of P.L. 102–564, which reauthorized the SBIR program in 1992, added language to the description of a third phase award which made it clear that the third phase is intended to be a logical conclusion of research projects selected through competitive procedures in phases one and two. The Report of the House Committee on Small Business (H. Rpt. 102–554, Pt. I) provides that the purpose of that clarification was to indicate the Committee's intent that an agency which wishes to fund an SBIR project in phase three (with non-SBIR monies) or enter into a follow-on procurement contract with an SBIR company, need not conduct another competition in order to satisfy the Federal Competition in Contracting Act (CICA). Rather by phase three the project has survived two competitions and thus has already satisfied the requirements of CICA, set forth in section 2302(2)(E) of that Act, as they apply to the SBIR program. As there has been confusion among SBIR agencies regarding the intent of this change, the three committees reemphasized the intent initially set forth in H. Rpt. 102–554, Pt. 1, including the clarification that follow-on phase III procurement contracts with an SBIR company may include procurement of products, services, research, or any combination intended for use by the Federal government.

Section 111. Federal and State Technology Partnership Program. This section establishes the FAST program from the Senate version, which is a competitive matching grant program to encourage states to assist in the development of high-technology businesses. The House version does not contain a similar provision. The most significant changes from the Senate version is the compromise text that are an extension of the maximum duration of awards from three years to five years and the lowering of the matching requirement for funds assisting businesses in low income areas to 50 cents per federal dollar, as advocated by Ranking Member Velazquez of the House Small Business Committee. The compromise text combines the definitions found in the Senate version of this section and the mentoring networks section.

Section 112. Mentoring Networks. The Senate version sets forth criteria for mentoring networks that organizations are encouraged to establish with matching funds from the FAST program and creates a database of small businesses willing to act as mentors. The compromise text, except for relocating the program definitions to Section 111, is the same as the Senate text. The House version did not contain a similar provision.

Section 113. Simplified Reporting Requirements. This section is not in either the House or the Senate versions. It requires the SBA Administrator to work with SBIR program agencies on standardizing SBIR reporting requirements with the ultimate goal of making the SBA;s SBIR database more user friendly. This provision requires the SBA to consider the needs of each agency when establishing and maintaining the database. Additionally, it requires the SBA to take measures to reduce the administrative burden on SBIR program participants whenever possible including, for example, permitting updating by electronic means.

Section 114. Rural Outreach Program Extension. This provision, which was not in either House or Senate versions, extends the life and authorization for appropriations for the Rural Outreach Program of the Small Business Administration for four additional years through fiscal year 2005. It is the intent of the three committees that this program be evaluated on the same schedule and in the same manner as the FAST program. Among other things, the evaluation should examine the extent to which the programs complement or duplicate each other. The evaluation should also include recommendations for improvement to the program, if any.

TITLE II

The purpose of Title II is to amend the general business loan program at the Small Business Administration, commonly known as the 7(a) loan program. Title II of H.R. 2392 contains a variety of technical and substantive changes to improve the program and correct problems brought to the Committee's attention through the oversight process and originally passed by the House as H.R. 2616.

Title II will increase the maximum guarantee amount of a 7(a) loan to $1 million from the current limit of $750,000 in order to keep pace with inflation. The guarantee amount was last increased in 1988. It also maintains a cap prohibiting loans with a gross amount in excess of $2 million.

The bill will also remove a provision which reduced SBA's liability for accrued interest on defaulted loans since the provision's intended savings failed to materialize.

Title II also includes three changes designed to encourage the making of smaller loans. The guarantee rate will be expanded to 85 percent from loans under $100,000 to loans under $150,000. Likewise, the two percent guarantee fee will now apply to loans up to $150,000, which represent a significant savings for these small borrowers.

Finally, for small loans, Title II of H.R. 2392 includes a provision allowing lenders to retain one quarter of the guarantee fee on loans under $150,000 as an incentive to make these loans.

The last part of Title II modifies an SBA regulatory restriction which prohibit loans for passive investment. Title II will permit the financing of projects where no more than 20 percent of a business location will be rented out provided the small business borrower in question occupies at least 60 percent of the business space.

Section 201. Short Title.

Section 202. Levels of Participation. Increases the guarantee percentage on loans of $150,000 or less to 85 percent. The current guarantee level of 80 percent extends only to loans of $100,000 or less. This guarantee increase is one of the changes proposed to encourage the availability of smaller loans.

Section 203. Loan Amounts. This provision will increase the maximum guarantee amount of $1 million. The maximum gross loan amount will be capped at $2 million. The language would prohibit SBA from placing a guarantee on any loan over $2 million regardless of the guaranteed amount. Consequently, the largest loan available would be a $2 million loan with a 50 percent guarantee.

The largest loan available at the maximum guarantee rate of 75 percent would be $1,333,333. The cap on loans over $2 million will effectively remove a number of large loans that have been made with only a minimal guarantee, loans which use up loan authority at a disproportionate rate. In 1998, roughly thirty loans over $2 million were made.

Section 204. Interest on defaulteld loans. This will remove the provision that reduced SBA's liability for accrued interest on defaulted loans. This provision was added to the program in 1996 as a method of reducing the subsidy cost of the program. It has come to the Committee's attention that the expected savings have not materialized.

Section 205. Prepayment of loans. This provision will reduce the incentive for early prepayment of 7(a) loans. It will assess a fee to the borrower for early prepayment of any loan with a term in excess of 15 years. Early prepayment will be defined as any prepayment within the first three years after disbursement. The prepayment fee will be determined by the date of the prepayment—5 percent in the first year, 3 percent in the second year, 1 percent in the third year. The fee will be based on ''excess prepayment'' which is defined as prepayment of more than 25 percent of the outstanding loan amount. In the event of an excess prepayment the fee would be assessed on the entire outstanding loan amount.

Section 206. Guarantee fees. This section changes the guarantee fee for loans of $150,000 or less to 2 percent. Currently, the guarantee fee of 2 percent is only for loans under $100,000. Loans over $100,000 currently have a guarantee fee of 3 percent. The section also provides for an incentive for lenders to make smaller loans (under $150,000) by allowing them to retain ¼ of the guarantee fee.

Section 207. Lease Terms. Under existing 7(a) rules, loan proceeds may not be used for investment purposes. This includes purchase or construction of property to be leased to others. Currently, 7(a) loans may be used to construct property which will be used solely by the borrower.

In 1997, Congress modified this rule for the 504 program to allow for projects where a small portion of a property might be rented out permanently, but the borrower's main focus was the construction of a permanent location. This provision would allow the same authority for 7(a) loans. Borrowers would be allowed to lease up to 20 percent of a property in which they will occupy at least 60 percent of the business space.

TITLE III

The purpose of Title III of H.R. 2392 is to amend the Small Business Investment Act to make changes in the Certified Development Company (CDC) loan program at the Small Business Administration (SBA), commonly known as the 504 loan program. Title III is the substance of H.R. 2614 which passed the House earlier this Congress and contains a variety of technical and substantive changes to improve the program and correct problems brought to the Committee's attention through the oversight process.

Title III will increase the maximum amount of a 504 loan, and its underlying debenture, to $1 million from the current limit of $750,000 in order to keep pace with inflation. The maximum amount for loans with specific public policy purposes (low-income, rural, and minority owned businesses) is increased to $1,300,000. The loan amount was last increased in 1988. Title III will also reauthorize the fees which support the 504 program.

Title III will also add women-owned businesses as a specific public policy goal for the 504 program. Title III will make permanent two pilot programs begun by SBA in 1997 in response to a Congressional mandate. The first pilot program, the Liquidation Pilot Program, enables certain qualified Certified Development Companies to liquidate their own loans rather enduring the usual process of SBA controlled liquidation. The second, the Premier Certified Lenders Program, enables experienced CDCs to use streamlined procedures for loan making and liquidation.

Sec. 302. Women-Owned Businesses. Women-owned businesses are added to the list of concerns eligible for the higher debentures available for public policy purposes. Current policy goals include lending to low-income and rural areas, and loans to businesses owned by minorities.

Sec. 303. Maximum Debenture Size. Maximum loan/debenture size is increased from $750,000 to $1,000,000 for regular debentures. Public policy loan/debentures are increased from $1,000,000 to $1,300,000 for public policy debentures. This increase is commensurate with inflation since the current debenture levels were established.

Sec. 304. Fees. Currently, the 504 program levies fees on the borrower, CDC, and the participating bank. The bank pays a one-time fee whereas the borrower and CDC pay a percentage of the outstanding balance annually in order to provide operational funding for the 504 program. Currently these fees sunset on October 1, 2000. This legislation would continue the fees through October 1, 2003.

Sec. 305. Premier Certified Lenders Program. The Premier Certified Lenders Program (PCLP) is granted permanent status. The current demonstration program terminates at the end of FY 2000.

Sec. 306. Sale of Certain Defaulted Loans. SBA is required to give any certified lender with contingent liability 90 days notice prior to including a defaulted loan in a bulk sale of loans. No loan may be sold without permitting prospective purchasers to examine SBA records on the loan.

Sec. 307. Loan Liquidation. Section 510 is added to the Small Business Investment Act of 1958 in order to create a program permitting CDCs to handle the liquidation of defaulted loans. This program replaces the pilot program authorized by PL 105–135, the Small Business Reauthorization Act of 1997. A permanent program would permit OMB to score savings achieved by the program when computing the subsidy rate for the 504 program.

In order to participate in the liquidation program, a CDC must have made at least 10 loans per year for the past three years and have at least one employee with 2 years of liquidation experience or be a member of the Accredited Lenders Program with at least one employee with 2 years of liquidation experience. Both groups are required to receive training. PCLP participants and current participants in the pilot program automatically qualify.

CDCs have the authority to litigate as necessary to foreclose and liquidate, but SBA could assume control of the litigation if the outcome might adversely affect SBA's management of the program or if SBA has additional legal remedies not available to the CDC.

All Section 510 participants are required to submit a liquidation plan to SBA for approval, and SBA has 15 days to approve, deny, or express concern with the plan. Further SBA approval of routine liquidation activities is not required.

CDCs are able to purchase indebtedness with SBA approval, and SBA is required to respond to such a request within 15 days. Likewise, CDCs are required to seek SBA approval of any workout plan, and SBA must respond to that request within 15 days. With SBA approval, a CDC may compromise indebtedness. Such approval must be granted, denied, or explained within 15 days of receipt of SBA.

TITLE IV

The purpose of Title IV is to amend the Small Business Investment Act (the Act) to make changes in the Small Business Investment Company (SBIC) program at the SBA. Title IV contains the language from H.R. 3845 which passed the House earlier this Congress and contains four technical changes to improve the program and correct problems brought to the Committee's attention through the oversight process.

H.R. 3845 modifies the definition of control for SBIC investment in small businesses, eliminating a cumbersome five prong test and setting a clear statutory standard. H.R. 3845 will also modify the definition of long term investment under the Act, changing it from five years to one year, in order to harmonize that definition with accepted business practice and the tax and banking laws. Third, the bill allows the Administration to adjust the subsidy fee for the SBIC program to maintain the subsidy rate of the program at zero. Finally, the bill makes a change to the distribution language in the Act, allowing SBICs more flexibility in making distributions to their investors and will simplify the accounting and tax procedures at SBICs.

Sec. 401. Short Title.

Sec. 402. Definitions. (a) Small Business Concern. Inserts the following language in section 103(5)(A)(i) of the Small Business Investment Act—''regardless of the allocation of control during the investment period under any investment agreement between the business concern and the entity making the investment''. This phrase clarifies that a venture capital investment agreement from an SBIC may cause a change in control of a small business, but that such a change with not affect the eligibility of the small business concern. The Committee does not intend that SBICs become holding companies hence the language references the period of the investment agreement. Further, the Committee retains the authority for SBA examinations to inquire into ''illegal control'' by SBICs, though the committee expects such control to be that exercised outside an investment agreement.

(b) Long term. Inserts the following paragraph in section 103 of the Small Business Investment Act,

''(17) the term long term, when used in connection with equity capital or loan funds invested in any small business concern or smaller enterprise, means any period of time not less than 1 year.'' The language changes the definition of a long term investment to harmonize it with the tax and banking laws.

Sec. 403. Investment in SBICs. This provision allows federal savings associations to invest in SBICs.

Sec. 404. Subsidy Fees. This provision amends sections 303(b) and 303(g)(2) of the Small Business Investment Act to allow the Administration to adjust the fee assessed on debentures and participating securities up to a maximum of one percent. The fee will be adjusted to keep the subsidy cost of the programs at zero or as close as possible to zero.

Sec. 405. Distributions. This section amends section 303(g)(8) of the Small Business Investment Act in order to allow SBICs to make distributions at any time during a calendar quarter based on the maximum estimated tax liability.

Sec. 406. Conforming Amendment.

TITLE V

The purpose of Title V is to reauthorize the programs and operations of the SBA. Title V contains the language from H.R. 3843 which contained the authorization levels for SBA for fiscal years 2001, 2002, and 2003. It contains no technical or substantive changes to any of the programs. The SBA provides a variety of services for small businesses—financial assistance, technical assistance, and disaster assistance.

Financial Assistance. The SBA provides approximately $11 billion in financing to small businesses annually. This financing is made available through a variety of programs.

SBA's largest financial program is the Section 7(a) general business loan program. The 7(a) program offers loans to small businesses through local lending institutions. These loans are provided with an SBA guarantee of up to 80 percent and are limited to a maximum of $750,000. The 7(a) program has a subsidy rate of 1.16 percent for fiscal year 2000 and an appropriation of $107 million, permitting $9.8 billion in lending.

The Section 504 loan program provides construction, renovation and capital investment financing to small businesses through CDCs. These CDCs are SBA licensed, local business development organizations which provide loans of up to $750,000 for small businesses, in cooperation with local banks. CDCs provide 40 percent of the financing package, while the bank provides 50 percent, and the small business provides a 10 percent down payment. CDC funding is obtained through issuance of an SBA guaranteed debenture. The 504 program currently operates at no cost to the taxpayer but does require authorization.

The microloan program provides small loans of up to $25,000 to borrowers in low-income areas. In fiscal year 1999 the program provided $29 million in loans. In addition, the program has a technical assistance aspect that provides managerial and business expertise to microloan borrowers. Microloans are made by intermediary organizations that specialize in local business development. The program has a subsidy rate of 8.54 percent.

The Small Business Investment Company (SBIC) program provides over $1.5 billion in long term and venture capital financing for small businesses annually. SBICs are venture capital firms that leverage private investment dollars with SBA guaranteed debentures or participating securities. The SBIC debenture program currently operates at a zero subsidy rate and requires no taxpayer subsidy. The participating securities program has a 1.8 percent subsidy rate.

Technical Assistance. The SBA provides technical and managerial assistance to small businesses through four primary programs—Small Business Development Centers (SBDCs), the Service Corps of Retired Executives (SCORE), the 7(j) technical assistance program, and the Women's Business Center program.

SBDCs are located primarily at colleges and universities and provide assistance through 51 center sites and approximately 970 satellite offices. Through a formula of matching grants and donations SBDCs offer small businesses guidance on marketing, financing, start-up, and other areas. The program currently receives $84 million in appropriations.

SCORE provides small business assistance on-site through the volunteer efforts of its members. SCORE volunteers are retired business men and women who offer their expertise to small businesses. SCORE volunteers are reimbursed for their travel expenses and SCORE receives funding as well for a website and offices in Washington, DC.

The 7(j) program provides financing for technical assistance to the minority contracting community primarily through courses and direct assistance from management consultants. In addition, the program provides assistance participants to attend business administration classes offered through several colleges and universities.

The Women's Business Center program provides five year grants matched by non-federal funds to private sector organizations to establish business training centers for women. Depending on the needs of the community, centers teach women the principles of finance, management and marketing as well as specialized topics such as government contracting or starting home-based businesses. There are currently 81 centers in 47 states in rural, urban and suburban locations.

Disaster Assistance. The Small Business Administration also provides disaster loan assistance to homeowners and small businesses nationwide. This program is a key component of the overall Federal recovery effort for communities struck by natural disasters. This assistance is authorized by section 7(b) of the Small Business Act which provides authority for reduced interest rate loans. Currently the interest rates fluctuate according to the statutory formula—a lower rate, not to exceed four percent is offered to applicants with no credit available elsewhere, while a rate of a maximum of eight percent is available for other borrowers.

SECTION-BY-SECTION ANALYSIS

Section 501. Short Title.

Section 502. Reauthorization of Small Business Programs. This section provides the authorized appropriation levels for the following programs: Section 7(a) general business loans, Section 504 Certified Development Company loans, direct microloans, guaranteed microloans, microloan technical assistance, Defense Transition (DELTA) loans, Small Business Investment Company debentures, Small Business Investment Company participating securities, Surety Bonds guarantees, SCORE, disaster loans, and salaries and expenses.

The following are the authorizations levels for the financial programs:

(in millions)	2001	2002	2003
7(a)	$14,500	$15,000	$16,000
504	4,000	4,500	5,000
Microloan	60	80	100
Microloan TA	45	60	70
Microloan gty	50	50	50
SBIC debentures	1,500	2,500	3,000
SBIC part. Securities	2,500	3,500	4,000
Surety bonds	4,000	5,000	6,000

This Title also authorizes the Service Corps of Retired Executives (SCORE). SCORE will be authorized at 5, 6, and 7 million dollars for fiscal years 2001, 2002, and 2003, respectively.

Title V also contains provisions authorizing funding for salaries and expenses at the Small Business Administration. These authorizations are established as ''such sums as may be necessary''.

Section 503. Additional Reauthorizations. This section reauthorizes five programs:

(a) SBDC funding—Increases the authorization from $95,000,000 to $125,000,000.

(b) Drug Free Workplace—Extends authorization through fiscal year 2003 at $5,000,000 per year.

(c) HUBZones—Authorizes appropriations of $10,000,000 per year through fiscal year 2003.

(d) National Women's Business Council—Increases authorization to $1,000,000 per year and extends authorization through fiscal year 2003.

(e) Very Small Business Concerns—Extends authorization through September 30, 2003.

(f) SDB Certification—Extends authorization through September 30, 2003.

TITLE VI

Title VI contains several miscellaneous authorizations and programs.

Section 601. Loan Application Processing. This section requires a study of the time required for SBA to process loan applications.

Section 602. Application of eligibility requirements. This section clarifies that women-owned business, socially and economically disadvantaged business, and veteran owned business status is to be determined without regard for the possible application of state community property laws. Certain SBA offices have been denying loan applications based upon the possibility that qualified individuals may divorce resulting in joint ownership of the small business.

Section 603. HUBZone Eligibility. This section includes a provision extending eligibility for HUBZone Small Business Concerns for an additional year if they are located in areas that recently were removed from HUBZone status.

Section 604. Subcontracting Preference for Veterans. This clarifies that the language included in subcontracting plans for small business concerns owned and controlled by veterans and used for the purpose of data collection also includes small business concerns owned and controlled by service disabled veterans. Apparently, there is confusion over the fact that the group of veteran owned businesses also includes service disabled veteran owned businesses.

Section 605. Small Business Development Center funding. This section reforms the formula for funding Small Business Development Centers.

Section 606. Surety Bond program. Reauthorizes the Surety Bond financing program.

SALT RIVER PIMA-MARICOPA INDIAN COMMUNITY IRRIGATION WORKS OWNERSHIP

SPEECH OF

HON. J.D. HAYWORTH

OF ARIZONA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 3, 2000

Mr. HAYWORTH. Mr. Speaker, during House floor consideration and passage of H.R. 2820, a draft resolution was inserted into the RECORD that was to have been a signed version of the resolution from the Salt River Pima-Maricopa Indian Community approving certain amendments to the Community's water code, as contemplated, and, indeed, as required by the bill. To correct this admission, I ask unanimous consent that the attached signed copy of the Community's resolution approving the requisite amendments to its water code be inserted into the RECORD and be included in the RECORD of the proceedings of the House with regard to H.R. 2820.

SALT RIVER PIMA-
MARICOPA INDIAN COMMUNITY,
Scottsdale, AZ.

RESOLUTION NO. SR–2031–2000

Whereas, the Salt River Pima-Maricopa Indian Community (''SRP–MIC'') Council has the authority pursuant to Article VII, Section 1(d)(5) of the Constitution of the SRP–MIC to provide for the proper use and development and prevent the misuse of the lands, natural resources and other public property of the SRP–MIC; and

Whereas, the Congress of the United States has under consideration the passage of H.R. 2820 to convey to the SRP–MIC the irrigation works formerly owned and operated by the

Bureau of Indian Affairs and located on SRP–MIC tribal and allottee land; and

Whereas, as a result of negotiations that led to the development of H.R. 2820, and amendments thereto, the legislation's language contemplates that the Community will adopt certain amendments to its Surface Water Management Code prior to enactment of the legislation: Now, therefore, be it

Resolved, That the SRP–MIC hereby adopts the attached amendments to its Surface Water Management Code, attached hereto as Exhibits ''A'' and ''B'' respectively; and be it further

Resolved, That, if substitute legislation for H.R. 2820 (1) is not passed by the Congress prior to the adjournment sine die of the 106th Congress, or (2) if so passed by Congress, but it is not signed into law during the 106th Congress, the approval by the Community of these amendments shall become null and void.

CERTIFICATION

Pursuant to the authority contained in Article VII, Section 1(d)(5) of the Constitution of the Salt River Pima-Maricopa Indian Community, ratified by the Tribe, February 28, 1990, and approved by the Secretary of the Interior, March 19, 1990, the foregoing resolution was adopted this 19th day of September 2000, at a duly called meeting held by the Community Council in Salt River, Arizona at which a quorum of 5 members were present by a vote of 5 for, 0 against, and 4 excused.

Salt River Pima-Maricopa Indian Community Council.

MERMA LEWIS,
Vice President.

MEDICARE COMPREHENSIVE QUALITY OF CARE AND SAFETY ACT OF 2000

HON. FORTNEY PETE STARK

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 5, 2000

Mr. STARK. Mr. Speaker, in March of 1998, the President's Advisory Commission on Consumer Protection and Quality in the Health Care Industry (Quality Commission) issued its final report, raising concerns about medical errors and recommending steps to reduce the incidence of medical errors. The Quality Commission urged that measuring and improving quality of care be made a national priority.

In June of 1998, the Congressional Medicare Payment Advisory Commission (MedPAC) reported on quality of care in Medicare, and in June of 1999, MedPAC made specific recommendations for improving quality of care in Medicare. MedPAC recommended:

That quality of care goals for Medicare, including minimizing preventable errors and increasing participation by patients in their care should be established, reviewed and revised through a public process; that systems be established in Medicare for monitoring, improving and safeguarding quality of care; that the Secretary work with the private sector to develop and use common, core sets of quality measures for monitoring quality; and that to the extent possible, quality of care systems in the traditional Medicare fee-for-service program and Medicare+Choice be comparable.

In July of last year, the Inspector General issued four reports citing major deficiencies in the accreditation of hospitals to ensure that quality of care provided in hospitals for Medicare by the Joint Commission on the Accreditation of Health Care Organizations (JCAHO). The Inspector General made a series of recommendations for improving the accreditation of hospitals to ensure that quality of care provided in hospitals met Medicare standards. Also last year, the General Accounting Office issued reports citing major deficiencies in the accreditation of nursing facilities.

Then, in November of last year, the Institute of Medicine issued a report, ''To Err is Human'', which reported that almost 100,000 people may be killed each year by medical errors. The IOM recommended that improving health care safety be made a national priority and that a nationwide mandatory reporting system of medical errors by providers should be established. The IOM also called for a ''culture of safety'' in health care organizations. On February 10, 2000, the Ways and Means Health Subcommittee held hearings on the IOM report.

And yesterday, October 4, 2000, the Journal of the American Medical Association (JAMA) published an article reporting on the findings of a study on quality of care furnished to Medicare fee-for-service (FFS) beneficiaries. The study examined Medicare hospital claims by State for 24 quality of care performance indicators. The study found wide variation in quality of care both among States and among performance indicators.

The authors state: ''Available data suggest that providing the services measured here could each save hundreds to thousands of lives a year.'' The authors report that ''there has been no systematic program for monitoring the quality of medical care provided to FFS Medicare beneficiaries.'' The authors suggest that the results of the study ''urgently invite a partnership among practitioners, hospitals, health plans, and purchasers to achieve improvement.''

Today, I along with Mr. NEAL and Mr. JEFFERSON, am introducing legislation that would address the recommendations made by these distinguished organizations. For the first time since the Medicare program was enacted, my bill would establish quality of care as a major emphasis in Medicare.

The ''Medicare Comprehensive Quality of Care and Safety Act of 2000'' would for the first time in the history of Medicare establish a comprehensive quality of care and safety system in Medicare for setting quality of care goals and priorities, conducting research and setting standards for quality of care, monitoring quality, safeguarding quality, and establishing systems to improve information and education of patients and providers concerning quality of care issues.

Perhaps most important of all, my legislation will create a ''culture of safety and quality'' in health care by requiring every provider to establish a ''Medicare Quality of Care and Safety Program'' (MQCSP). Based on model fraud and abuse compliance plans developed and implemented by the HHS Inspector General, every Medicare provider would be required to implement a quality monitoring and error reduction program—''Medicare Quality of Care and Safety Program''—and to report serious failures to meet quality standards and medical errors. The Secretary would be required to establish a national database of medical errors, as called for by the Institute of Medicine.

This legislation would establish a Medicare Quality and Safety Advisory Committee, which would be charged with recommending annual goals and priorities on quality of care. In the Medicare comprehensive quality of care system, the Secretary would be required to establish quality standards, including performance measures. The Secretary would be required to coordinate Medicare quality of care activities with those in other Agencies of the Department. As an example, the Centers for Disease Control and Prevention have for many years established and implemented performance standards for certain aspects of care; the CDC Medical Infection Disease System (MIDS) provides performance standards for limiting the spread of infectious diseases in hospitals. My legislation would require Medicare to make use of these standards and others already developed either in government or in the private sector. The Secretary would be required to establish systems to adopt these standards in Medicare and educate providers on their use.

Providers would be required to report quality of care and medical error data in a completely confidential system, and the Secretary would be required to establish data systems to monitor the performance of providers regarding quality of care and medical errors. The Secretary would be required to use standard data so that comparisons could be made across providers.

My legislation does not evision a punitive system, but rather a system of working together to achieve improvements in quality and error reduction. I believe that most medical errors are the result of systems failures, and my legislation would focus on correcting these systems errors. I also believe that improvement must come from within health care organizations, rather than being imposed from outside. That is why my legislation would focus on identifying and correcting systems failures from within. However, I also believe that information on best practices and standards must be collected at the national level and shared with health care providers.

This legislation would build on the organizations that are already charged with sharing information and helping to improve quality of care are the Peer Review Organizations (PROs). The Secretary would be required to develop standards and train the PROs regarding those standards. PROs, in turn, would train health care providers in implementing those standards. PROs would also be required to investigate serious failures by providers to meet quality standards, including serious medical errors, and work with providers to implement corrective action plans to modify systems or take other actions to improve quality and minimize errors.

As a way of increasing the confidence of providers in the PROs, fraud and abuse activities of the PROs would be phased out, and their work would be limited to quality related activities. The legislation would change the name of the PROs to ''Quality Improvement Organizations'' in keeping with their new emphasis in Medicare.

The Secretary would be required to monitor quality and safety though a national data system, as recommended by virtually all of the organizations reporting on quality of care. To help providers feel more comfortable in reporting problems with quality or medical errors, the Secretary would be required to establish a confidential reporting system so that physicians, employees of providers, and others would be able to report errors or other failures on a confidential basis. Employees would be provided whistle blower protection for reporting quality failures and errors. Providers who achieve outstanding results in meeting quality standards and minimizing errors would be rewarded with the designation of ''Medicare Provider of Excellence.''

ON THE INTRODUCTION OF THE VETERANS COMMEMORATION ACT OF 2000

HON. JAY INSLEE

OF WASHINGTON

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 5, 2000

Mr. INSLEE. Mr. Speaker, today I introduce the Veterans Commemoration Act of 2000. This piece of legislation will help to alleviate a serious impediment to adequate health care for our veterans.

Many veterans have trouble getting to and from VA hospitals. The legislation that I am introducing today would create a coin commemorating Executive Order 5398, signed by President Herbert Hoover on July 21, 1930, which established the Veterans Administration. The proceeds from the sale of this coin would fund a transportation program for veterans, provided by the Disabled American Veterans.

This program provides a much-needed service to our nation's veterans. The DAV provides transportation services to veterans to and from VA hospitals. Considering the fact that many veterans live far away from VA hospitals and are disabled, the lack of transportation can be a very serious impediment to adequate health care.

In my home state of Washington, the Veterans Administration hospital in Seattle serves the entire Pacific Northwest. Many of the patients who rely upon the care provided by the VA have severe disabilities that prevent them from easily accessing the clinic. Public transportation serves those veterans that live in the Metropolitan area, but for the thousands of veterans without access to public transportation, the DAV steps in to provide door to door services. This essential program is truly the missing link for veterans' health care.

The DAV has recognized this need by creating the transportation program. This program has been very successful so far. But it only operates in a few select areas and serves only a handful of veterans. This program should be available to all veterans, but the DAV simply cannot afford to fund a project of that magnitude. This bill would create the funds necessary to expand this program.

With no cost to the taxpayer, we can help our nation's veterans and show them that their needs are important. We must show our support to the brave men and women who have risked their lives to serve this country. This unique program, provided by the DAV, deserves our support.

Today I stand with over 150 of my colleagues to introduce this legislation. This bipartisan bill has diverse and broad support. We have the time and the support to pass this bill now. We should not wait for the next Congress to take action when we have the ability and the will to do so now. I urge my colleagues to stand with me and with the Disabled American Veterans to pass this bill and support our veterans.

THE CHILDREN OF SIERRA LEONE

HON. JOHN F. TIERNEY

OF MASSACHUSETTS

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 5, 2000

Mr. TIERNEY. Mr. Speaker, if you are paying attention to the House floor at this moment, please listen very closely to what some of my colleagues and I are discussing. Because we are talking about saving children who are being savaged and we desperately need your help.

If you can, please stop what you are doing for a second—I know we're all very busy right now, but again this is important. So, please, stop what you are doing and remember for a moment what you felt like when you were a child, especially if you had moments in which you felt very vulnerable in any way.

Now, take that feeling, and try to imagine living in a community ripped by the throes of war—your parents are missing, friends, sisters and brothers beaten, broken and battered, if even still alive.

And as you imagine this life, now look down at your arms and legs. Imagine an arm or a leg or more mutilated and even severed from your body. Think about that. Can you even bear to imagine it?

As hard as it is to believe, there are children today who don't have to imagine this horror because they live it. They see where their arms and legs once were. They know that their family has been destroyed.

They are the children of Sierra Leone.

And no matter what your politics are, humanity calls us to act. Support funding for peacekeeping now. Support Tony Hall's bill to halt the illegal diamond trade that funds this butchering now. Don't wait. Support ending the horrific suffering of these children now.

CELEBRATION IN PITTSBURGH

HON. WILLIAM J. COYNE

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 5, 2000

Mr. COYNE. Mr. Speaker, I rise today to call my colleagues' attention to an upcoming ceremony that will be held in Pittsburgh on October 13, 2000, to commemorate the 100th anniversary of the founding of the Homestead Grays and the 40th anniversary of Bill Mazeroski's World Series-winning home run. The joint ceremony serves to highlight Pittsburgh's long history of outstanding professional baseball.

The Homestead Grays was a Negro League baseball team that was originally formed by local African American steelworkers. The Homestead Grays played baseball from 1900 until Major League baseball teams were integrated 50 years ago, and the club won a number of pennants. The Grays, incidentally, played the first night game in Pittsburgh baseball history—against the Kansas City Monarchs at Forbes Field on July 25, 1930.

The Homestead Grays were known for several outstanding players who could compete with the best baseball players of the time, white or black. A number of these players were eventually inducted into the Baseball Hall of Fame. Oscar Charleston, first baseman and manager for the Grays—with a lifetime batting average of .357, the ranking of fourth on the all-time home run list for the Negro Leagues, and fielding that was deemed superior to that of his white contemporary Ty Cobb—was inducted into the Baseball Hall of Fame in 1976. Smoky Joe Williams, who pitched for the Grays, was voted the greatest pitcher in Negro League history in 1952, beating out Leroy ''Satchel'' Paige. The Grays claim Buck Leonard, another first baseman and home run hitter, as well as Ray Brown, who in 1940 had the greatest season of any Negro league pitcher ever with 24 wins and only 4 losses. Catcher and power-hitter Josh Gibson was another of the stars of the Homestead Grays. Gibson has the distinction of having hit a 505-foot home run in Yankee Stadium—a feat matched or exceeded by no one, not even Babe Ruth (and in fact, only Dave Winfield and Doug DeCinces have even come close). I am pleased to note that Josh Gibson, Jr., who also played professional baseball, will receive a plaque at this ceremony in honor of his father.

I'd like to note in passing that the Pennsylvania Historical and Museum Commission put up a State historic marker to honor the Homestead Grays on the 100th anniversary of their founding. That marker, which was dedicated last week, can be found at the intersection of Amity Street and Fifth Avenue in Homestead, PA.

The October 13th ceremony will also honor Bill Mazeroski, long-time second baseman for the Pittsburgh Pirates. Mazeroski, who played for the Pirates from 1956 until 1972, was a great infielder and defensive player. Maz won eight Gold Gloves and was picked as an All-Star seven times. He holds the record as the second-baseman with the most double plays in Major League history—1,706—and the most double plays in one season—161 in 1966. He holds the Major League record for the most seasons leading the league in assists, and in five of those nine seasons, he was credited with 500 or more assists. For these accomplishments, if for nothing else, he deserves admission to the National Baseball Hall of Fame, an honor which to this date he has been unfairly denied.

Despite a long career of excellence in fielding, however, Maz is probably best remembered for his winning home run in the 1960 World Series against one of the greatest Yankees teams ever—a team that included baseball greats Mickey Mantle, Whitey Ford,

and Yogi Berra. In the seventh game of the 1960 World Series, the Yankees and the Pirates were tied at three games apiece. In the bottom of the ninth inning, with the score tied at nine runs for each team, Bill Mazeroski knocked a home run over the left center field wall of Forbes Field, and the Pirates won the World Series four games to three with a score of 10 to 9. That one magnificent achievement has tended to obscure the remainder of William Stanley Mazeroski's outstanding career in Major League baseball. Mr. Mazeroski will also receive a plaque at the October 13th ceremony in acknowledgment of his many accomplishments on the 40th anniversary of his famous home run.

The ceremony will also highlight plans for the painting of two new wall murals on the wall that runs along the Boulevard of the Allies in Pittsburgh. One of these murals will commemorate the 100th anniversary of the founding of the Homestead Grays. The other will honor Mr. Mazeroski. The brass plaques that Mr. Mazeroski and Mr. Gibson will receive during the ceremony will be mounted alongside these murals. I believe that this is a fitting tribute to two of Pittsburgh's outstanding sports teams and two of Pittsburgh's greatest sports heroes.

TRIBUTE TO BROTHER MARTIN McMURTREY

HON. CHARLES A. GONZALEZ

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 5, 2000

Mr. GONZALEZ. Mr. Speaker, I rise today to thank and pay tribute to a true San Antonio legend, Brother Martin McMurtrey. After 56 years of service as an educator in the Society of Mary Catholic schools, 49 of those years being spent at Central Catholic High School in San Antonio, TX, Brother McMurtrey has announced his retirement.

Having received a bachelor of arts degree in English from the University of Dayton in 1942, and a master of education degree from St. Louis University in 1949, Brother McMurtrey first entered a classroom as a teacher in 1944. Shortly after, in 1951, Brother McMurtrey moved to San Antonio and began teaching at Central Catholic.

During his years at Central Catholic, Brother McMurtrey taught courses in English and drafting, coached football, authored two books, and dedicated countless hours to working with the disadvantaged in San Antonio parishes. I know that even though he is retiring, Brother McMurtrey will continue teaching all of us. As a matter of fact, I am sure that he will check the spelling and grammar of this entry in the CONGRESSIONAL RECORD of the U.S. House of Representatives.

In addition, Brother McMurtrey established a scholarship fund to assist students who could otherwise not afford to attend Catholic schools. He also spent 22 years volunteering after school as a Confraternity of Christian Doctrine teacher and as a worker with the Presentation Nuns. He also organized the Guardian Angels at Central Catholic, an organization that guided student collections of food, toys, and clothing during holiday seasons.

It is estimated that during his half-century of service, Brother McMurtrey touched the lives of some 6,000 students. Those students have gone on to careers in education, medicine, law, public service, and countless other fields. Indeed the impact that Brother McMurtrey has had on the lives of his students and on the San Antonio community is immeasurable.

Upon hearing Brother McMurtrey's announcement, several former Central Catholic students joined together to plan a retirement celebration aptly titled "The Last English Class." Mr. Speaker, today I join those students in thanking Brother McMurtrey for enriching the lives of all who had the privilege of his mentorship.

TRIBUTE TO SGT. MAJOR BILLY RAY LANEY OF CHEROKEE COUNTY, ALABAMA

HON. ROBERT E. (BUD) CRAMER, JR.

OF ALABAMA

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 5, 2000

Mr. CRAMER. Mr. Speaker, today I recognize a fallen soldier from my home state of Alabama. It is a most unusual day for my district, today they are welcoming home Sgt. Maj. Laney 33 years after they sent him off to serve his country in the Vietnam War. Laney's widow, Charline and his three grown children, Wanda, Billy Ray Jr. and Vicky deserve our recognition for the sacrifices they have endured these many years. As their husband and father is laid to rest in the soil he fought and died to protect, I would like to offer my condolences to the family and express my utmost gratitude for Sgt. Maj. Laney's brave actions.

Sgt. Maj. Laney was only in Vietnam for one month. He was a member of the 5th Special Forces Group of the 1st Airborne Division and was listed as missing in action June 3, 1967 in Laos. Although the Department of Defense declared him deceased eleven years ago, his family has had no physical evidence of his death until two months ago.

I would like to take this opportunity to thank the Veterans Groups of my district: Vietnam Veterans of America, American Legion, Veterans of Foreign Wars, Military Order of the Purple Heart and Disabled American Veterans for going to extraordinary efforts to ensure that Sgt. Maj. Laney's life and death and his families' sacrifices will not be forgotten. Today as Sgt. Maj. Laney's remains are returned home, though tardy, he will be honored properly. Governor Don Siegelman, the Honor Guard and the Alabama State Patrol are traveling to join the procession and to pay their respects to this brave soldier and his family.

Sgt. Maj. Billy Ray Laney's retrieval sheds light on the POW/MIAs still unaccounted for across the country. There are two soldiers from Alabama listed as missing, Prentice Wayne Hicks and Edward Upner. I would like to take this opportunity to say that my thoughts are with their families and let them know that there is still hope that we will uncover their fate.

On behalf of the Congress of the United States, I would like to pay tribute to Sgt. Maj. Billy Ray Laney and his loving family. We can never afford to forget the victories and sacrifices of our veterans like Sgt. Maj. Laney lest we take for granted the precious freedoms we enjoy every minute of every day. My thoughts and prayers are with them today as they welcome their husband and father home to rest.

ATAXIA AWARENESS DAY

HON. JOHN J. DUNCAN, JR.

OF TENNESSEE

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 5, 2000

Mr. DUNCAN. Mr. Speaker, September 25, 2000, marked International Ataxia Awareness Day. Ataxia disorders comprise a family of progressive, degenerative, neurological illnesses which affect more than 100,000 American families, including many in my District. Ataxia usually initially affects coordination, speech, and balance, but various forms often progress to impact the heart, sight, and hearing.

Unfortunately, there are no effective treatments for this often fatal disease. Worse, our very limited understanding of most forms of the disorder has not even produced any effective treatments. Hopefully we can increase awareness of this serious public health threat and spur the type of progress which will bring hope to the thousands of American families dealing with Ataxia.

The biomedical revolution which has taken root over the last couple of decades offers great promise. That is why I have been a proud supporter of the research efforts at the National Institutes of Health (NIH) and the National Institute on Neurological Disorders and Stroke (NINDS), the component of NIH charged with the study of Ataxia.

For example, NINDS-supported research has recently generated considerable new insights into more than 100 related gene defects which cause nervous system disorders. This work is particularly important to those suffering from the many forms of Ataxia which still cannot be specifically diagnosed. As we identify the genes responsible we can more quickly identify specific forms, and perhaps more importantly, begin developing treatment models.

Additionally, we need to continue to create incentives for additional private research aimed at the so-called orphan diseases. These relatively rare conditions do not receive the resources and attention that are often associated with more common public health problems like cancer and heart disease. I believe these special incentives for those developing orphan drugs have proven to be an unqualified success resulting in more new research on Ataxia, multiple sclerosis, ALS and other neurological disorders.

Even with all these efforts under way, it will still take time to even fully understand the questions we need to be asking about Ataxia. That is why it is so important to inform the public about this work and encourage the medical and emotional support those affected need. International Ataxia Awareness Day should be a substantial step in this direction,

and I anticipate it will be an annual event. At the same time, we can hope that current research foreshadows a day when it will no longer be necessary to raise awareness of Ataxia.

SCIENCE SPENDING

HON. SHERWOOD L. BOEHLERT

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 5, 2000

Mr. BOEHLERT. Mr. Speaker, I insert in the record an op-ed piece that appeared in yesterday's Washington Post—an op-ed that I am also distributing as a Dear Colleague letter.

The column is by Dr. Harold Varmus, a distinguished Nobel Laureate and former director of the National Institutes of Health (NIH) who is now president of the Memorial Sloan-Kettering Cancer Center in New York City.

Dr. Varmus' point is that Congress needs to be investing adequately in science spending across the board, not just at NIH. Improvements in medicine rest on advancements in a wide variety of fields; we can't improve health in this country by focusing exclusively on NIH.

This is advice we would be wise to heed. The federal research portfolio has become too skewed toward medical research. We need to address that imbalance not by reducing funding for NIH but by increasing funding for the other federal research agencies. That would be a wise investment in this time of surplus.

I'm pleased to say that Congress is beginning to take steps in that direction. I know, for example, that the appropriations bill my good friend and neighbor Congressman JIM WALSH has put together includes a substantial increase for the National Science Foundation (NSF).

But we need to make a comprehensive, consistent commitment to funding the entire federal science portfolio more generously. I look forward to working with my colleagues to accomplish just that.

[From the Washington Post, Oct. 4, 2000]

SQUEEZE ON SCIENCE

(By Harold Varmus)

In recent weeks both presidential campaigns have voiced their support of efforts to double the budget of the National Institutes of Health. This is an encouraging sign that the current bipartisan enthusiasm for medical research will continue in the next administration. But it also offers an opportunity to make an important point about the kinds of science required to achieve breakthroughs against disease.

The NIH does a magnificent job, but it does not hold all the keys to success. The work of several science agencies is required for advances in medical sciences, and the health of some of those agencies is suffering.

For the coming fiscal year, Congress has again—magnanimously and appropriately—slated the NIH for a major increase, its third consecutive 15 percent increase. By these actions, Congress has shown that it is determined to combat the scourges of our time, including heart disease, cancer, diabetes, AIDS and Alzheimer's disease.

But Congress is not addressing with sufficient vigor the compelling needs of the other science agencies, especially the National Science Foundation and the Office of Science at the Department of Energy. This disparity in treatment undermines the balance of the sciences that is essential to progress in all spheres, including medicine.

I first observed the interdependence of the sciences as a boy when my father—a general practitioner with an office connected to our house—showed me an X-ray. I marveled at a technology that could reveal the bones of his patients or the guts of our pets. And I learned that it was something that doctors, no matter how expert with a stethoscope or suture, wouldn't have been likely to develop on their own.

Of course, the X-ray is routine now. Medical science can visualize the inner workings of the body at far higher resolution with techniques that sound dazzlingly sophisticated: ultrasound, positron-emission tomography and computer-assisted tomography. These techniques are the workhorses of medical diagnostics. And not a single one of them could have been developed without the contributions of scientists, such as mathematicians, physicists and chemists supported by the agencies currently at risk.

Effective medicines are among the most prominent products of medical research, and drug development also relies heavily on contributions from a variety of sciences. The traditional method of random prospecting for a few promising chemicals has been supplemented and even superseded by more rational methods based on molecular structures, computer-based images and chemical theory. Synthesis of promising compounds is guided by new chemical methods that can generate either pure preparations of a single molecule or collections of literally millions of subtle variants. To exploit these new possibilities fully, we need strength in many disciplines, not just pharmacology.

Medical advances may seem like wizardry. But pull back the curtain, and sitting at the lever is a high-energy physicist, a combinational chemist or an engineer. Magnetic resonance imaging is an excellent example. Perhaps the last century's greatest advance in diagnosis. MRI is the product of atomic, nuclear and high-energy physics, quantum chemistry, computer science, cryogenics, solid state physics and applied medicine.

In other words, the various sciences together constitute the vanguard of medical research. And it's time for Congress to treat them that way. Sens. Christopher Bond (R–Mo.) and Barbara Mikulski (D–Md.) have just proposed to double the budget of the National Science Foundation over five years. This admirable effort should be vigorously supported and extended to include the Department of Energy's Office of Science, which fund half of all research in the physical sciences and maintains the national laboratories that are central to biomedicine.

Scientists can wage an effective war on disease only if we—as a nation and as a scientific community—harness the energies of many disciplines, not just biology and medicine. The allies must include mathematicians, physicists, engineers and computer and behavioral scientists. I made this case repeatedly during my tenure as director of NIH, and the NIH has made significant efforts to boost its support of these areas. But in the long run, it is essential to provide adequate budgets for the agencies that traditionally fund such work and train its practitioners. Moreover, this will encourage the interagency collaboration that fuels interdisciplinary science. Only in this way will medical research be optimally poised to continue its dazzling progress.

H.R. 4292: THE BORN-ALIVE INFANTS PROTECTION ACT OF 2000

HON. JACK QUINN

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 5, 2000

Mr. QUINN. Mr. Speaker, I would like to commend my colleagues in the House of Representatives for demonstrating their overwhelming support for H.R. 4292 last week. The Born-Alive Infants Protection Act of 2000, which is designed to ensure that all infants who are born alive are treated as persons for purposes of federal law, passed the House with 385 votes.

It has long been accepted legal principle that infants who are born alive are persons and are entitled to the full protection of the law. In fact, many states have statutes that, with some variations, explicitly enshrine this principle as a matter of state law, and some federal courts have recognized the principle in interpreting federal laws. But recent changes in the legal and cultural landscape appear to have brought this well-settled principle into question.

Babies whose lungs are insufficiently developed to permit sustained survival are often spontaneously delivered alive, and they may live for hours or days. Others are born alive following deliveries induced for medical reasons, or following attempted abortions. Enactment of H.R. 4292 is necessary to ensure that all infants who are born alive are treated as legal persons for purposes of federal law.

H.R. 4292 is proposed to codify (for federal law purposes only) the traditional definition of "born alive" that is already found in the laws of most states: complete expulsion from the mother, accompanied by heartbeat, respiratory, and/or voluntary movements.

Although I was unable to vote on this legislation, I wholeheartedly support it and urge its enactment into law.

H.R. 4365: CHILDREN'S HEALTH ACT OF 2000

HON. SUE WILKINS MYRICK

OF NORTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 5, 2000

Mrs. MYRICK. Mr. Speaker, a woman who becomes pregnant in less than ideal circumstances has a difficult road ahead no matter what action she takes. She faces serious questions about what will happen to her future: Will the father help? How will I afford the costs? What will my family think and will they support my decision? How am I going to get through this? It is an incredibly scary time and the ultimate question is whether her life will ever be the same.

My biggest concern for a woman in this situation is that she may see abortion as the easiest solution—when there is no easy choice. Too often, I hear stories about women who are frantic for a solution and rush to an abortion clinic without learning about the long-term emotional and physical consequences. As a mother and a grandmother, I can tell you that

pregnancy changes a woman's life forever—even if the pregnancy is not carried to term.

The law states that women have the right to choose between carrying the baby and aborting it. Before she makes the decision, I pray that she is given the information and the support to truly be able to choose what is best for her and the tiny baby.

This bill strengthens a woman's choices in two ways. First, it increases access to information about adoption in the health clinics where it is needed most. Women facing unplanned pregnancies deserve to hear about their options from a well-trained counselor who can provide accurate, up-to-date information and refer them to a reputable placement agency.

This bill also authorizes a new grant program for research and additional services (such as mobile health clinics to provide comprehensive health services, including ultrasound screenings), to enhance access to health care for pregnant women and infants, including grants to increase access to prenatal care, ultrasound services, and prenatal surgery.

Prenatal surgery is now a very realistic option. Look at this picture that was taken by Max Aguilera-Hellwag—this baby underwent prenatal surgery to correct spina bifida. Sarah Marie Switzer was born on August 22, 1999.

Mr. Speaker, there are many exciting programs contained in this bill, and I urge my colleagues to vote in favor of H.R. 4365.

IN RECOGNITION OF BENNIE L. THAYER

HON. NYDIA M. VELÁZQUEZ

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 5, 2000

Ms. VALÁZQUEZ. Mr. Speaker, I rise today to pay a sad farewell to Bennie Thayer, the long-time President and Chief Executive of the National Association for the Self-Employed, who died October 2.

As a retailer and manufacturer himself, Mr. Thayer knew small business issues from the inside out. On the first day that I became the Democratic leader of the House Small Business Committee, he came to my office to advocate the need to accelerate the 100 percent deduction of health insurance for the self-employed.

He was a regular fixture in the Halls of Congress, where he frequently testified about the importance of simplifying government regulations for small businesses, clarifying the home-office deduction and promoting tax fairness.

When Mr. Thayer talked, I listened, because I knew he spoke straight from the heart of the small business community.

He has such an impressive history of accomplishments on behalf of small businesses that it is impossible to list them all adequately. He chaired and served on the boards of numerous local and national business associations concerned with economic development, credit development, small business enhancement and general business growth. In this capacity, he advised three Presidents on small business issues.

He authored a book that examined health care issues from the standpoint of small business owners. It was called, ''We, the People: An American Solution to Health Care Reform.''

But his accomplishments don't stop there. He served as the State Chair of the Maryland delegation to the 1995 White House Conference on Small Business and as the Regional Implementation Chairman. He was also on the Microsoft Small Business Technology Board to promote computer and information technology to small businesses nationwide. And he served as the Co-Chairman of the Maryland Delegation to the 1986 White House Conference on Small Business.

He was a renowned public speaker, appearing on various radio and television shows to increase awareness of the opportunities and challenges of the self-employed.

I will remember Bennie Thayer as a passionate champion of small businesses, a man of principle and someone who cared deeply about his community.

While the nation's small businesses have lost a great advocate, Mr. Thayer's legacy will live on in Congress and in the hearts of the self-employed.

I salute Bennie Thayer and extend my sympathies to his family.

A LETTER FROM THE HUNGARIAN AMBASSADOR

HON. ERNEST J. ISTOOK, JR.

OF OKLAHOMA

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 5, 2000

Mr. ISTOOK. Mr. Speaker, I submit the following letter from the Hungarian Ambassador into the CONGRESSIONAL RECORD.

THE AMBASSADOR OF HUNGARY,
October 4, 2000.

Hon. ERNEST J. ISTOOK, Jr.,
U.S. House of Representatives, Washington, DC.

DEAR CONGRESSMAN ISTOOK: I am deeply moved when I express my heartfelt gratitude to you and your distinguished Colleagues in the House of Representatives on the adoption of H. Con. Res. 400 congratulating my country, Hungary, on the 1000th anniversary of its statehood. I am particularly indebted to Congressman Frank Pallone, who initiated the resolution, and your 29 Colleagues, who joined you as co-sponsors.

The eloquence and historical depth of the resolution will surely impress all my compatriots, as well as hundreds of thousands of Americans of Hungarian descent. Being a historian myself and as someone who lived through a greater part of the 20th century, which brought so much misfortune to my people, I also very much appreciate the words used by you and your colleagues in approving the resolution. On this occasion let me share a few ideas with you on the links that bind your great nation of America with Hungary.

The people of Hungary have been admirers of the United States for well over two centuries. We, too, have fought for our freedom and independence several times during these centuries. We felt your nation's sympathy in many difficult periods, particularly in 1848/49 and 1956. In 1978 the United States returned the Holy Crown of St. Stephen, kept in safety at Fort Knox since 1945, to the Hungarian people, boosting our morale and pride in our history, thus contributing to the process which led to the peaceful transformation of the political system of Hungary in 1989/90.

I am pleased to say that we, Hungarians, are not alone in celebrating the establishment of the State. Like the United States, Hungary is also a nation of immigrants. When our ancestors moved into the Carpathian Basin they soon absorbed its sparse Slavic and Turkic population. Later on we welcomed many individuals and whole national groups in search of a better life and more freedom. Thus credit for the achievements of our thousand year old history goes not only to our Founding Fathers, but to all those who joined our nation through the centuries, embraced our culture and language and enriched us immensely with their industry, knowledge, culture and traditions. Among our neighbors, the Slovaks shared a common state with the Hungarians for over 1000 years, and the Croats a union for 800 years. But all the peoples of Central and Eastern Europe joined the Hungarians at one time or other struggling against common enemies, sometimes even under common Sovereigns. Hungary was also open for refugees escaping war and oppression and it became a truly multinational country, showing both good and bad examples how to get on with many languages and cultures. The resolution appropriately points out the outstanding contributions in science, arts, culture and economy that Jewish Hungarians provided to our nation. Later on many of our citizens left the homeland, in order to seek knowledge, freedom or opportunity. That is how we established so many links to Western Europe and the Americans. Thus, the Hungarian Millennium is a common Central European celebration, and also a Trans-Atlantic one.

The bust of Louis Kossuth, Governor of revolutionary Hungary in 1849, and later a refugee most warmly received in the United States in 1851/52, stands in one of the hallways of the Capitol. The dream of Kossuth and so many other Hungarians has come true: our two nations have become allies. We are working together to turn South-Eastern Europe, a region of conflicts, into a stable and prosperous one. We are fighting jointly against international crime and terrorism, and the rights of people oppressed. We count on your support in our efforts to seek the safeguarding of the rights of close to three million Hungarians residing in the states bordering on Hungary.

A historian of ancient Rome, Sallustius, stated: ''Truly not armies nor treasurers are the safeguards of a kingdom, but friends.'' We, Hungarians, have a modest army and small wealth, but a great friend in the United States. We are grateful for your friendship and for the resolution which is such a beautiful testimony of that.

Sincerely yours,

GEZA JESENSZKY.

REPUBLIC OF CHINA NATIONAL DAY

HON. COLLIN C. PETERSON

OF MINNESOTA

IN THE HOUSE OF REPRESENTATIVES

Friday, October 6, 2000

Mr. PETERSON of Minnesota. Mr. Speaker, our long time ally and close friend, the Republic of China on Taiwan, will be celebrating its 89th anniversary on October 10th.

Just like our 4th of July, their National Day marks the beginning of a fantastic story of struggles and triumphs—a story of economic miracles, social and political progress, and cultural leadership unlike any other. The National Day celebrates the past successes and ongoing efforts of a group of people committed to the idea that all citizens should be able to participate in the politics of the country they live in.

This October 10th is especially poignant because it marks the first time that newly elected President Chen Shui Bien will lead the celebration. Both President Chen and his Vice President Annette Lu have been working hard to continue to strengthen the bonds between the United States and Taiwan.

In my state of Minnesota we know that those bonds go beyond issues of national security and foreign policy minutiae. In my district we see how those ties connect with our agricultural economy. Last year the Republic of China on Taiwan pledged to purchase over $1 Billion dollars worth of grain, much of it out of the Red River Valley of the North in northwestern Minnesota. The previous year they pledged to buy $1.1 Billion over 12 months, and that goal was actually reached in less than 9 months. They have been good customers for the farmers in my district and I look forward to seeing that continue in future years.

Taiwan has built its relationship with the government and people of the United States by being a good international citizen. I congratulate the Republic of China on Taiwan and its people on their 89th National Day, and look forward to many years of close ties between our two nations.

GENERAL PULASKI MEMORIAL DAY PROCLAMATION

HON. RICHARD E. NEAL

OF MASSACHUSETTS

IN THE HOUSE OF REPRESENTATIVES

Friday, October 6, 2000

Mr. NEAL of Massachusetts. Mr. Speaker, I would like to recognize that October 11th marks the 221st anniversary of the death of a Polish military hero who sacrificed his life in the fight for American liberty, General Casimir Pulaski. Every year, Poles and Americans alike honor this great man, known as the ''Father of American Cavalry,'' for his dedication to the cause of freedom, and his brave contributions to both the American Revolution and the fight for Poland's independence.

General Pulaski was a romantic figure and brilliant military strategist, known throughout Europe for his valiant defense of Poland's freedom from the imperialism of Russia and Prussia. Eventually outnumbered in the fight for Poland, Pulaski was exiled to Paris, where Benjamin Franklin recruited him to join the American Revolution.

Pulaski quickly established himself as a talented and effective military leader at the battle of Brandywine under George Washington. Recognizing his potential, Congress granted Pulaski an independent cavalry, which became an entity feared and respected by British foes.

On October 11, 1779, Pulaski crusaded for freedom one last time during the siege of Savannah. Galloping to the rescue of a fellow commander, Pulaski was mortally wounded by British cannon fire. He died the way he lived—freely, valiantly, and purposefully.

Mr. Speaker, on behalf of all Americans, allow me to pay tribute to this great Polish man to whom, in part we owe our freedom.

INTRODUCTION OF A REVISION TO THE STRUCTURED SETTLEMENT PROTECTION ACT

HON. E. CLAY SHAW, JR.

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Friday, October 6, 2000

Mr. SHAW. Mr. Speaker, today I introduce a revised version of the Structured Settlement Protection Act, which I had introduced earlier in this Congress along with my colleague Mr. STARK and a broad bipartisan group of cosponsors constituting a majority of the Ways and Means Committee. The revised legislation I am introducing today, again joined by Mr. STARK, will bring a final resolution to the issue known as ''factoring'' of structured settlement payments.

I am a long-time supporter of the use of structured settlements to compensate victims of physical injuries. Structured settlements constitute a private sector funding alternative to taxpayer-financed programs to meet the ongoing, long-term medical and living needs of seriously-injured victims and their families. Structured settlements enable these injured people to live with dignity, free of reliance on government. For these reasons, Congress adopted special tax rules to encourage the use of structured settlements to provide long-term financial security to injured victims and their families.

The legislation I am introducing today addresses concerns that have been raised over the ''factoring'' of structured settlement payments, in which the structured settlement recipient sells future payments for cash. The legislation protects the Congressional policy underlying structured settlements by providing that a stiff excise tax would be imposed on a factoring transaction unless a State court approves the transaction in advance upon a finding that the factoring transaction is in the best interests of the victim, taking into account the welfare and support of the victim's dependents, and a further finding that the transaction does not contravene applicable statutes and court orders.

This legislation has been agreed to by the National Structured Settlements Trade Association (NSSTA) on behalf of the structured settlement industry and the National Association of Settlement Purchasers (NASP) on behalf of the factoring industry. I submit for the record a joint letter of support for this legislation from NSSTA and NASP.

An identical structured settlement protection provision has been included in S. 3152, the ''Community Renewal and New Markets Act of 2000'', introduced on October 3 by Senate Finance Committee Chairman ROTH and cosponsored by a bipartisan group of 15 Members of the Senate Finance Committee. The structured settlement protection provision in Chairman ROTH's package has been scored as essentially revenue neutral.

Enactment of this legislation—which is part of an overall package of Federal and State legislation which has been agreed to by the two sides in the debate—will bring a final resolution to all of the issues surrounding structured settlement factoring. I strongly urge the enactment of this important legislation as soon as possible.

Re Agreement between the National Structured Settlements Trade Association and the National Association of Settlement Purchasers on Proposed Legislation Covering Transfers of Structured Settlement Payments.

SEPTEMBER 13, 2000.

Hon. BILL ARCHER,
Chairman, Committee on Ways and Means, House of Representatives, Washington, DC.
Hon. WILLIAM V. ROTH, Jr.,
Chairman, Committee on Finance, U.S. Senate, Washington, DC.

DEAR MESSRS. CHAIRMEN: The National Structured Settlements Trade Association (NSSTA) and the National Association of Settlement Purchasers (NASP) have agreed on the concepts and language of the attached package of Federal and State legislation that would protect the Congressional policy underlying structured settlements and would regulate transfers of structured settlement payments to companies in the business of acquiring future structured settlement payments from recipients in exchange for a lump sum. These transfers are sometimes referred to as structured settlement ''factoring'' transactions.

The Federal and State measures are each necessary components of a single legislative package. (Legislative language for the Federal and State measures is attached.) Under the agreed approach, the States are given the consumer protection role. The proposed State legislation provides for court review of all proposed factoring transactions to ensure that a proposed transaction is appropriate under the circumstances. Specifically, in order for the transaction to proceed, the reviewing court must find that the transaction is in the best interest of the payee, taking into account the welfare and support of the payee's dependents, and that the transaction does not contravene other applicable statutes and court orders.

The Federal measure protects the Congressional policy underlying structured settlements by providing that a stiff excise tax would be imposed unless the requisite State court approval is obtained under a State structured settlement protection statute requiring findings that a transfer is in the best interest of the payee, taking into account the welfare and support of the payee's dependents, and that the transfer does not contravene applicable statutes and court orders. The Federal measure would also assure that the parties to a structured settlement are not subject to adverse tax treatment in the event of a later transfer of payments under that settlement.

The Federal measure is similar to H.R. 263, sponsored by Reps. Clay Shaw (R–FL) and Pete Stark (D–CA) and co-sponsored by a broad bipartisan majority of the House Ways and Means Committee, and S. 1045, sponsored by Sens. Max Baucus (D–MT) and the late Sen. John Chafee (R–RI) and co-sponsored by a total of 6 Members of the Senate Finance Committee.

The State measure is complementary to the Federal measure. The State measure lays

out the process for court approval of proposed transfers of structured settlement payments, including required disclosures to the payee and protections for the other parties to the structured settlement. Legislation similar to the State measure has been enacted in 16 States, and the National Conference of Insurance Legislators (NCOIL) has recently adopted a Model Structured Settlement Transfers Protection Act that closely resembles the State measure. The prospect of the Federal excise tax—which (following a transition period) would be payable by the company acquiring the payments from the structured settlement recipient in any transfer that has not received State court approval—will provide important impetus for enactment of the necessary State legislation in the remaining States (and enactment of conforming changes in States that have already enacted legislation) and for compliance with the State regulatory regime in light of the multi-state nature of structured settlement payment transfers.

Federal tax legislation that addresses only the issue of tax certainty for the parties to the structured settlement would be detrimental to our common objective of reaching a final legislative resolution of all of the issues surrounding transfers of structured settlement payments. Accordingly NSSTA and NASP would oppose the enactment of Federal tax legislation in this Congress which addresses only the tax certainty issue.

NSSTA and NASP respectfully request that you work with Reps. Shaw and Stark, Sens. Baucus and Grassley, and other members of the Ways and Means and Finance Committees to enact the attached Federal measure this year in order to achieve a final resolution of the issues surrounding transfers of structured settlement payments.

Sincerely,

National Association of Settlement Purchasers on behalf of its members, Singer Asset Finance Company L.L.C., Settlement Capital Corporation, J.G. Wentworth S.S.C., L.P., Settlement Funding LLC, d/b/a Peachtree Settlement Funding, Stone Street Capital, Inc., and other NASP members.

National Structured Settlements Trade Association, on behalf of its members.

The undersigned settlement purchasers, although not members of NASP, hereby confirm that they concur in and agree to comply with and support the undertakings made by NASP in the foregoing letter:

Metropolitan Mortgage and Securities Co. Inc.

JOHN E. CHAPOTON,
Vinson & Elkins L.L.P., representing NASP.
JOHN S. STANTON,
NANCY GRANESE,
Hogan & Hartson L.L.P., representing NSSTA.

HONORING ISABELLA ''BELLE'' CUMMINS

HON. GEORGE W. GEKAS

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Friday, October 6, 2000

Mr. GEKAS. Mr. Speaker, I rise today at the close of the 106th Congress to remember an outstanding individual who was a native of my own state of Pennsylvania and a friend to me and many of my colleagues, Isabella ''Belle'' Cummins. Belle tragically passed away in May of this year.

Belle was a familiar sight around the halls of the Capitol, where she served as staff counsel to the House Judiciary Committee from 1987 to 1991. During this time she was instrumental in gaining the passage of a national apology to Japanese-Americans for their internment during World War II. In 1991, Belle joined with former Representative Peter Kyros to establish the firm of Kyros and Cummins, where she promoted biomedical research causes until her untimely passing. She was an expert on administrative law, social security, and tort reform as well.

A decade ago, Belle played an instrumental part in developing the Congressional Biomedical Research Caucus, of which I am a Co-Chairman. This year the Caucus celebrates its tenth anniversary. Without the extraordinary efforts of Belle Cummins ten years ago and throughout the past decade, the Caucus would not have achieved the tremendous level of success that it garners today. With Belle's great assistance the bipartisan Caucus has grown to almost one hundred Members. The goals of the Caucus coincide with those Belle championed herself increasing funding for the National Institutes of Health and developing new and improved methods in biomedical research. Tragically, before science could repay with a cure its debt to her for her fantastic efforts in the field of biomedical research, Belle succumbed to cancer only one month after her diagnosis.

Belle had an upbeat attitude and positive outlook that could not be diminished. Belle was well-loved and well-respected by Members and staff alike on both sides of the aisle. Belle's reputation preceeded her, as she was often able to gain meetings with Members of the House or Senate when others could not. Perhaps no greater testimony to the impact Belle Cummins had on all of those who were privileged to know her could be found at a memorial held in her honor by family and friends in the Rayburn building last June. Countless friends and family attended to remember Belle, and many Members of Congress, staff, friends, and relatives shared their memories of her as a driven and determined, yet kind, generous, and positive individual.

Words cannot adequately express my extreme gratitude to Belle not only for her enormous efforts on legislative interests we shared, but for her friendship that spanned more than a decade. With Belle's passing, all of Congress suffers a great loss. My dear friend Belle Cummins is, and will be, greatly missed.

SUPPORTING SERBIAN PEOPLE

HON. DONALD M. PAYNE

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Friday, October 6, 2000

Mr. PAYNE. Mr. Speaker, I rise in support of the Serbian people. The Serbian people won a great victory yesterday in the streets of Belgrade. They vindicated their choice for democracy and freedom that they exercised in the presidential elections of September 24. I congratulate the democratically elected President Vojislav Kustinca and the brave people of Yugoslavia who refused to allow their victory to be stolen from them.

It is now time for the West to welcome Yugoslavia into the family of free nations and to assist its new President to rebuild the country from the ravages of war.

TAIWAN'S NATIONAL DAY

HON. DANA ROHRABACHER

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Friday, October 6, 2000

Mr. ROHRABACHER. Mr. Speaker, I extend congratulations to the 23 million people of Taiwan and their democratically elected government, led by President Chen Shui-bian and Vice-President Annette Lu, on the occasion of Taiwan's forthcoming National Day.

Taiwan has become a beacon of democracy in the Asia-Pacific region, despite the threat of military force by Communist China. I have seen tremendous positive changes in Taiwan, from my first visit in 1967, when the island republic was under virtual martial law. Within the past three decades, as basic freedoms and civil liberties have become ingrained, Taiwan has evolved into a powerful economic engine for the entire region. Today the people of Taiwan are enjoying unprecedented prosperity and deserve international respect and admiration.

I have strongly supported Congressional resolutions advocating that Taiwan be permitted as an independent entity into international organizations, such as the World Health Organization and the World Trade Organization even before Communist China is admitted.

The government of communist China should never forget the importance of the freedom of Taiwan to the people of the United States. I wish even greater social and economic success for Taiwan in the coming years.

THE SOUTHEAST EUROPE TRADE PREFERENCE ACT

HON. AMO HOUGHTON

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Friday, October 6, 2000

Mr. HOUGHTON. Mr. Speaker, today I've introduced the Southeast Europe Trade Preference Act (SETPA), a modest yet important bill that was originally introduced in the Senate by the Senior Senator from New York. This bill is designed to promote meaningful economic development and stability in Southeast Europe through additional trade benefits targeted to certain countries in Southeast Europe.

The bill, modeled on the recently passed Caribbean Basin Initiative, with some key changes. The bill authorizes the President to proclaim duty-free treatment for all eligible articles from the following countries, subject to specified conditions: Albania, Bosnia and Herzegovina, Bulgaria, Croatia, the Former

Yugoslav Republic of Macedonia, Romania, Slovenia, Kosovo, and Montenegro.

Mr. Speaker, this is a timely piece of legislation, especially when considering the changes occurring right now in the Federal Republic of Yugoslavia (FRY). As you know, following the recent elections and yesterday's uprising in Belgrade, Vojislav Kostunica is the president-elect of Yugoslavia and international war criminal Slobodan Milosevic has apparently been ousted. This is terrific news for the region, and the world.

The SETPA would extend duty-free treatment to products that are currently not eligible under the GSP program, including certain iron and steel products, certain agricultural products, footwear, glassware, ceramics, automobiles, bicycles, clocks and watches. The only product that would not receive additional coverage is textiles, in order to protect that fragile industry here in the United States.

It is important to note that the bill contains common sense protections for U.S. industries such as a provision that prohibits the President from designating any country a beneficiary country of the bill if that country has seized ownership of any property owned by a U.S. citizen or corporation, or has taken steps to do so.

That important provision can be waived if the President reports to Congress that compensation has been or is being made to the owner, or good-faith negotiations to provide such compensation are in progress. If the country is otherwise taking steps to discharge its obligations under international law; or a dispute over compensation for such a seizure has been submitted to arbitration under the Convention for the Settlement of Investment Disputes, the provision may also be waived.

Other grounds which could disqualify a country for designation as a beneficiary include a failure to recognize or enforce arbitral awards in favor of U.S. owners, the preferential treatment to the products of a developed country other than the United States, with significant adverse effect on U.S. commerce, the broadcast of copyrighted material belonging to U.S. copyright owners by a government-owned entity without the owners' express consent, or the absence of a treaty or other agreement regarding the extradition of U.S. citizens. Failure to take steps to afford workers in the country certain internationally recognized worker rights will also disqualify a country, as does membership in the European Union.

The President is, of course, able to waive these prohibitions should he report reasons for doing so to Congress, except in the case of membership in the European Union.

Importantly, the bill sets specific conditions for the beneficiary designation of the Federal Republic of Yugoslavia (FRY). With the sweeping changes now occurring in that nation, we want to be certain that the Administration is free to act accordingly should the FRY take the steps necessary for beneficiary designation.

A number of reports are necessary, and thus would be required after passage of the SETPA, to be sure that the bill does no harm to the United States. Section 8 of the bill requires the U.S. International Trade Commission to report to Congress and the President on the economic impact of this Act on U.S. industries and consumers, and Section 9 directs the Secretary of Labor to review, analyze, and report to Congress on this Act's impact on U.S. labor, as well as developments in labor conditions in the beneficiary countries.

Finally, Mr. Speaker, I would just like to say that this bill is good for the people of Southeast Europe, and good for the people of the United States. It will promote economic and political security in this important area of the world following the recent devastating conflicts of the area, and will enhance the economic and national security interests of the United States in Europe. I know that it's late in the session—really too late to consider the bill this year—but I would hope that we can take this bill up at the earliest possible opportunity in the 107th Congress.

INTRODUCTION OF LEGISLATION TO RENAME THE McKINNEY ACT, THE McKINNEY-VENTO HOMELESS ASSISTANCE ACT

HON. JOHN J. LaFALCE

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Friday, October 6, 2000

Mr. LAFALCE. Mr. Speaker, today I have the honor to introduce legislation that would rename the Stewart B. McKinney Homeless Assistance Act the McKinney-Vento Homeless Assistance Act, in tribute to Congressman BRUCE VENTO's tireless commitment to the homeless. I hope we can speed the enactment of this bill into law prior to the adjournment of the 106th Congress.

BRUCE F. VENTO has been a passionate champion and effective advocate on behalf of homeless people throughout his career. Traces of his tireless commitment can be found on any forgotten street in urban America: in a shelter where families can go for a hot meal, or a vacant building that has been converted into a place where the homeless can find a bed, and a roof over their heads. BRUCE wrote many of the laws that bring compassion and comfort to our poor and destitute every single day. It is most appropriate that we honor what he has done on behalf of some of our most vulnerable citizens.

In 1982, BRUCE VENTO introduced legislation to create the Emergency Shelter Grant Program. He was the first Member to bring the plight of our nation's homeless people to the attention of the Banking Committee in Congress. An amendment he attached to a housing bill, to provide matching grants to repair vacant buildings to be used as temporary shelters, became the first national legislation to provide federal assistance for emergency homeless shelters.

Throughout the 80's, BRUCE worked time and time again with other Banking Committee Members to build the coalitions and the interest necessary to enact comprehensive legislation to help the nation's homeless. In early 1987, he worked to pass an aid package that included $100 million for a program of emergency shelter grants to help charitable organizations and state and local governments renovate buildings for the homeless, and succeeded in enacting the legislation into law.

In that same year, BRUCE VENTO was an original author of a larger, more comprehensive measure that became known as the Stewart B. McKinney Homeless Assistance Act. This legislation was the first and only coordinated federal initiative directed toward the problem of homelessness, and the only social program that was passed during the Reagan era. The McKinney Act seeks to meet some of the most immediate needs of the homeless: shelter, food, health care, education, job training services, and transitional housing through programs at HUD, FEMA, HHS, the Education and Labor Departments.

It is particularly fitting to honor BRUCE VENTO by joining his name with that of his friend and colleague, Stewart B. McKinney, on legislation they worked together on for so many years. In 1987, after Representative McKinney's passing, BRUCE took a leading role in seeking to name the program that would serve homeless persons the McKinney Act because of Stewart McKinney's ''close association and concern and compassion that he espoused and reflected throughout his service'' in Congress. These words which BRUCE used to describe Stewart McKinney are equally applicable to him. In fact, our former Banking Committee chairman, Henry B. Gonzalez, used to call BRUCE the ''Father of the Homeless.''

BRUCE VENTO didn't stop with the enactment of the landmark homeless assistance act. Throughout the remainder of the 1980's and 1990's, he introduced the McKinney reauthorization acts of 1988, 1990, 1992, and 1994, pushing the provisions through our Banking Committee and the other Committees with jurisdiction, while continually seeking additional appropriations and fighting attempts to lessen resources for homeless persons.

BRUCE was also the chief sponsor of the House version of the Rural Homelessness Assistance Act. In 1992 he was the first Member of Congress to join with over 50 organizations across the country to sign onto the report, ''Beyond McKinney; Policies to End Homelessness.'' In February of 1993, the Speaker of the House announced the formation of the Speaker's Task Force on Homelessness organized at the request of President Bill Clinton. BRUCE VENTO was appointed as Chairman of the Task Force, which issued a comprehensive, nationally recognized report to the Speaker one year later.

During the past few years, BRUCE has continued to work hard on the McKinney Act, even as the majority party on the Banking Committee has taken the lead in introducing reauthorizing legislation. BRUCE has worked to strengthen, maintain and renew the funding and the requirement for permanent housing funds in McKinney Act programs. He also authorized language that improved prevention planning and activities so that people do not become homeless due to lack of foresight or planning. The Vento prevention language added discharge planning requirements for persons who are discharged from publicly funded institutions—that is, mental health facilities, youth facilities and correctional facilities—so that people are not merely discharged to the streets.

BRUCE also introduced the Stand Down Authorization Act. Created by several Vietnam

veterans, Stand Downs are designed to give homeless veterans a brief respite from life on the streets. The Stand Down bill would, in conjunction with the grassroots community, expand the VA's role in providing outreach assistance to homeless veterans. In this Congress, H.R. 566 gained the strong support of over 100 bi-partisan cosponsors, the VA, the American Legion, the Veterans of Foreign Wars (VFW) and the Disabled American Vets (DAV).

As he worked with all of us in this Congress, BRUCE consistently strove to improve, and even save, the lives of homeless men, women and children around this nation. In the tradition of Minnesota's great leader, Hubert H. Humphrey, BRUCE has always believed that we are elected to formulate and enact policies which improve the quality of life of our citizens. I have had the pleasure of working with him for almost a quarter of a century, and have been continually inspired by the strength of this commitment and the energy with which he has pursued it.

I urge you to join me in cosponsoring, and advocating for speedy passage of, the McKinney-Vento Act bill so that we can duly honor a colleague who has worked long and hard for the most vulnerable Americans, people who are without a home to call their own.

TAIWAN NATIONAL DAY

HON. GEORGE W. GEKAS

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Friday, October 6, 2000

Mr. GEKAS. Mr. Speaker, on the occasion Republic of China's forthcoming National Day, I wish to offer President Chen Shui-bian and his people my best wishes.

Taiwan is a proud nation that has made extraordinary progress in many areas, economic and political. Economically, the people in Taiwan enjoy one of the highest standards in the world; politically, it has a vibrant democracy with free elections, respect for human rights and a free press. Best wishes to President Chen Shui-bian and his people. May they continue to enjoy economic and political successes.

CHELTENHAM TOWNSHIP

HON. JOSEPH M. HOEFFEL

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Friday, October 6, 2000

Mr. HOEFFEL. Mr. Speaker, I rise today to recognize Cheltenham Township in Montgomery County, Pennsylvania in welcoming dignitaries from their sister city of Cheltenham, England. The dignitaries have come to Cheltenham to celebrate 100 years as an Official First Class Township.

The visit is another exchange in the longstanding relationship between the two communities, which actually began with the founding of Cheltenham, Pennsylvania. Two of our founding fathers brought the name with them from their former home near Cheltenham, England, when they settled in America in the 1600s. The visiting dignitaries include Mayor Daphne Pennell and her daughter, Lorraine, Councillors Brian and Alexis Cassin, Councillor William Todman, and Twinning Officer Annette Wight.

For many years, representatives from both communities have visited their counterparts on official or pleasure trips, forging a bond of friendship and exchanging insights on municipal operations. This year's visit coincides with Cheltenham Township's Community Harvest Festival which attracts families from around the region with activities like haunted hayrides, a craft sale, live music, kids' games and a grand fireworks finale. The dignitaries will also have the opportunity to meet with township and school board officials, tour historic Philadelphia and be honored at a dinner with Centennial Celebration Committee members and other local, county and state officials.

I am pleased to recognize our visitors from Cheltenham, England to Montgomery County and it is my hope that their visit is an educational and rewarding experience in the United States.

A TRIBUTE TO DR. JAMES LEWIS CRAIG III

HON. ROBERT A. UNDERWOOD

OF GUAM

IN THE HOUSE OF REPRESENTATIVES

Friday, October 6, 2000

Mr. UNDERWOOD. Mr. Speaker, I would like to take this occasion to commend and congratulate a fellow educator and former colleague at the University of Guam on the occasion of his retirement. Dr. James Lewis Craig III has had a distinguished career which has taken him to many different parts of this country and the world in a span of almost five decades.

A seasoned veteran in the field of education, Jim Craig worked on a wide range of areas. Having great interest in the field of education early in life, he took undergraduate courses at Oregon State College from 1954 until 1956. He later joined the military and served until 1960. True to his calling, he spent two and a half years of his enlistment working as a military instructor. Upon his discharge from the military, he opted to spend part of 1960 and 1961 in Europe. While in Munich, Germany, he took courses with the University of Maryland extension program. He later resumed his undergraduate work at Oklahoma State University where he was awarded a bachelor's degree in Elementary Education in 1963.

Upon graduation, Jim worked as an elementary school teacher for the Albuquerque Public School System in Albuquerque, New Mexico and he taught grade school children from 1963 until 1971. During this period, he was also working towards a master's degree. In 1967, the University of New Mexico awarded him an M.A. in Educational Administration.

Between 1971 and 1974, Jim worked as a graduate teaching assistant at the University of New Mexico. He additionally did consulting work for several state agencies and was awarded grants to develop and implement Early Childhood Education programs. Around the same time, he earned a Ph.D. in Educational Foundations (Educational Sociology) from the University of New Mexico. Jim later served as an Assistant Professor of Education at the Southwest Missouri State University. Between 1974 and 1975, he taught graduate and undergraduate courses in Education and directed institutional research towards accreditation from the National Council for Accreditation of Teacher Education (NCATE). In 1975, Jim moved to Australia where he worked for the Churchlands College of Advanced Education in Perth Australia. He served as vice-chair of faculty at the Australian College of Education and later was elected divisional Councillor of the Western Australia Teacher Education Staff Association. He was also a member of the adjunct faculty of Murdoch University in Perth, where he taught a graduate course in Educational Research.

Jim's ties with the island of Guam go back to 1977 when he started work with the University of Guam. He initially served as an associate professor and Chair of the University's Department of Early Childhood Education. In 1983, Jim was awarded tenure and promoted to Professor of Education. After serving as Vice President for Administrative Affairs, Jim returned to the College of Education faculty in 1989. Upon his return, he authored and received funding for a number of grants and was elected various posts such as Vice-Chair of the University Faculty Council, Chair of the College of Education Academic Affairs Committee, Chair of the College of Education Graduate Program, and served as a member of the University Program Review, Promotion, and Tenure Committees.

In 1992, Jim was appointed Dean of the College of Education, the position that he held until his retirement. As the dean, he chaired several departments within the university namely, the Guam Teacher Corps Council, the University Administrative Council, the University Administrative Salary Task Force, the University Employee Development Council, the Institutional Audit Committee, and the University General Education Task Force. Jim is also credited for the concept of establishing University of Guam Branch Campuses in the Federated States of Micronesia, the Republic of Palau and the Republic of the Marshall Islands.

Jim has made great contributions to the field of Education especially through his work on early childhood education. Most noteworthy is his great contributions in the development and expansion of the College of Education and the University of Guam. He is a role model, he is a leader, and a distinguished colleague. He has been a great personal friend who rendered great assistance to me in my own professional development. On behalf of the people of Guam, I congratulate Jim Craig. I hope that he enjoys his well-earned retirement and wish him the best in his future endeavors. Si Yu'os Ma'ase' Jim.

COMMEMORATE THE REDEDICATION OF THE ELMER JACKSON BRIDGE IN TOPEKA, KANSAS

HON. JIM RYUN

OF KANSAS

IN THE HOUSE OF REPRESENTATIVES

Friday, October 6, 2000

Mr. RYUN of Kansas. Mr. Speaker, I rise today to commemorate the rededication of the Elmer Jackson Bridge in Topeka, Kansas, to take place on October 21, 2000.

On June 15, 1920, in Duluth, Minnesota, three young black men were lynched by a mob numbering in the thousands. One of those men was Elmer Jackson, from Topeka, Kansas.

Leading newspapers throughout the North vilified the Duluthians for having stained their city's good name and castigated them for being evil, murderous racists. The governor of Minnesota, J.A.A. Burnquist commissioned his adjutant general to launch a formal investigation. Three dozen men were indicted for taking part in the mob action. And one year later, in reaction to the event, the state legislature enacted an anti-lynching law.

Michael Fedo, a former journalist, has written an account of the incident entitled the Lynchings in Duluth, based on newspaper accounts, court records and state files. The account of the lynchings shows that the mentality necessary for such events was not particular to any region.

Mr. Speaker, I rise today to commend Mr. Fedo and the various individuals and organizations involved in this effort for raising our consciousness by recognizing a painful time in our nation's history.

INTRODUCTORY STATEMENT FOR THE MILLENNIUM CANCER RESEARCH ACT

HON. DEBORAH PRYCE

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Friday, October 6, 2000

Ms. PRYCE of Ohio. Mr. Speaker, I rise today, along with my colleague Congresswoman LOIS CAPPS, to introduce the Millennium Cancer Research Act. This important legislation authorizes a five-year demonstration project designed to increase the flexibility, effectiveness and creativity of our nation's cancer research program. It has been developed in collaboration with the National Cancer Institute (NCI) and my colleagues in the Senate, in an effort to encourage high impact, cutting-edge research that will lead to future progress in the fight against cancer.

Mr. Speaker, each year millions of Americans are touched by cancer, as they or someone they know is struck by this terrible disease. We have made enormous strides in the war against this most formidable of opponents, but we must do more to accelerate success. As scientific breakthroughs occur and innovations happen, our nation's cancer laboratories must be able to build upon them and should not be hindered by red tape.

This legislation will allow for a restructuring of the National Cancer Institute that will help to rid its scientific laboratories of redundancy and inefficiencies that slow progress in our ongoing battle against cancer. It will command accountability both to peers through mandatory reviews and to Congress through annual reporting requirements. This bill will provide the necessary flexibility to respond quickly to emerging research opportunities and to engage the brightest minds available while maintaining strict congressional oversight. It will allow NCI to streamline existing systems, maximize cost-effectiveness and more easily enter into strategic partnerships and collaborations in pursuit of a cure. In short, it puts in place an administrative structure that reflects the complex way in which research is conducted today.

Specifically, this legislation:

Directs the NCI Director to establish a program to encourage high-impact, high-risk rapid response research;

Provides NCI with authority similar to that given to the Defense Advanced Research Projects Agency (DARPA) to enter into multiparty agreements that recognize intellectual property rights as well as financial and in-kind contributions;

Allows NCI to create one simple and cost-effective personnel system to better recruit and manage priority research programs and initiatives;

Updates the dollar level for grants that must be reviewed by the National Cancer Advisory Board to $300,000, in order to reflect inflation and the pace of science over the last 15 years; and

Requires the NCI Director to report annually to Congress on research initiatives advanced under this legislation and to the NIH Director on the potential benefits of expanding these activities to other Institutes.

Mr. Speaker, we are at a critical juncture in the war on cancer. By the year 2010, we face losing one-fourth of our citizens to this disease every year. At a time of such rapid growth and discovery in the world of medicine, we need to be as thoughtful in forming the institute that leads our nation into the battle against cancer as we are in choosing the science that will help us to win. This legislation will propel our nation toward that goal and I encourage support for this bill.

RYAN WHITE CARE ACT AMENDMENTS OF 2000

SPEECH OF

HON. JUANITA MILLENDER-McDONALD

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 5, 2000

Ms. MILLENDER-McDONALD. Mr. Speaker, I rise in strong support of the Ryan White CARE Act. AIDS is one of the cruelest diseases to strike this nation in recent history. Between 800,000 and 1 million Americans are currently infected with HIV and each day, an average of 100 people are diagnosed with AIDS.

The rate of HIV infection is growing at an even higher rate for minorities. Thirty to forty percent of all Americans with HIV are minorities. But when we break down these numbers, we find that the rate of HIV transmission is spreading most rapidly to women and children. Of all women with AIDS, 76 percent are women of color and of all the children with AIDS, 82 percent are minorities.

Every year I lead a minority women and children AIDS Walk in California—the first of its kind in the country. I do so because in order for the Ryan White CARE Act to truly be effective, community leaders must play an integral role in bringing people together to raise awareness, educate individuals on HIV and AIDS, and build a network of support for families struggling with this disease. The Ryan White funding is crucial, but so is our activism. As leaders in each of our communities we have a duty to help raise awareness of critical issues such as AIDS, and to help our constituents obtain the education, counseling and treatment services they need.

The Ryan White CARE Act implements some valuable and necessary changes that will help more minorities in my district. Specifically it changes the formulas for distributing Title I grants to cities and Title II grants to states to consider the number of cases of HIV infection as well as the number of AIDS cases. Under current law, funds are distributed to cities and states on the basis of the number of AIDS cases alone when we all know that those with HIV are in dire need of these programs. The bill also modifies the current ''hold-harmless'' provision for cities receiving Title I grants. Under current law, if a city experiences a decline in its Title I formula allocation, its allocation is partially protected by a hold-harmless provision. Also under current law, no city could receive less than 95% of the amount it received in FY 1995; however, this bill changes the hold-harmless provisions so that cities will be protected from losing no more than 2% of their base-year allocation in the first year. The Ryan White CARE Act also establishes a Title II formula grant program for states with ''emerging communities'' in need of additional resources to combat HIV/AIDS. This supplemental program, which will help the emerging communities in my district, will be triggered when Title II appropriations exceed FY 2000 levels by $20 million.

Finally, the Ryan White CARE Act increases the authorization for the grant program dealing with perinatal transmission of the HIV virus from its current level of $10 million to $30 million. It adds treatment services for pregnant women infected with HIV to the current list of activities, such as counseling, voluntary testing and outreach, that may be funded by these grants. This portion of the bill is particularly important to me as I have been extremely active in trying to secure funding for pilot programs here and abroad to prevent mother-to-child transmission.

I am proud of the bipartisan efforts devoted to this important legislation and know that the Ryan White CARE Act programs will continue to benefit thousands upon thousands of my constituents in need of assistance in my district. I urge my colleagues to join me in voting for this vital, and in many cases, life-saving legislation.

TAIWAN OBSERVES ITS NATIONAL HOLIDAY

HON. PHILIP M. CRANE

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Friday, October 6, 2000

Mr. CRANE. Mr. Speaker, on Tuesday, October 10th, the Republic of China on Taiwan will celebrate its national holiday that commemorates the founding of the Republic of China by Dr. Sun Yat-sen in 1911.

Throughout my 31 years in Congress I have continually drawn attention to what has been achieved in Taiwan. It is one of the most dramatic examples in modern history of the power of freedom—that a small island, only slightly larger than the state of Maryland and with relatively few resources of its own, could rise to such a position of prominence in the global marketplace.

But a free market economy—the free exchange of goods and services—is not the only key to Taiwan's great success. The free exchange of ideas has also had a profound impact. And I know I speak for the entire House of Representatives when I say that the evolution of Taiwan's political system into a full-fledged democracy has been a source of great satisfaction to the American people and their representatives in Congress.

On the occasion of this year's R.O.C. National Day we are also pleased to welcome back to Washington a man many of us have known and admired through the years. Chien-jen-Chen—known to his many friends simply as ''C.J.''—is back in town as Taiwan's official representative and director of the Taipei Economic and Cultural Representative Office.

C.J. Chen served in Washington from 1971 to 1980 as a political secretary in what for most of those years was the R.O.C. Embassy. He was back between 1982 and 1989 as Taiwan's deputy representative in the United States. For us old hands here in Congress, C.J. Chen is a well-known figure and a great friend. It's good to have him back.

And I might add that during his years back in Taipei in the 1990s, C.J. Chen served in several high-level posts, including that of Minister of Foreign Affairs over the past year.

Mr. Speaker, it is a pleasure to welcome C.J. Chen back to Washington. And may I also extend the congratulations of Congress and the American people to the Republic of China on Taiwan on the occasion of this year's National Day celebration. May the close ties of friendship and solidarity between our two peoples continue to flourish in the years ahead.

ANNIVERSARY OF THE REPUBLIC OF TAIWAN

HON. JOSEPH CROWLEY

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Friday, October 6, 2000

Mr. CROWLEY. Mr. Speaker, The Republic of China on Taiwan will celebrate its birthday on October 10, 2000. Taiwan has much to celebrate, it is a country lead by a freely elected President, with a open and vibrant press, an astonishingly successful entrepreneurial free market economy and a supportive and caring program of government assistance to counties in need all over the world, from war torn eastern Europe to Africa. In March of this year, Taiwan citizens freely chose Mr. Chen Shui-bian, the candidate representing the Democratic Progressive Party, as their president. Since his inauguration on May 20th, President Chen has shown strong leadership on behalf of the 22 million citizens on Taiwan.

Mr. Speaker, on the eighty ninth occasion of the Republic of China's National Day, it is important to remember that Taiwan has a strong relationship with the United States, and we hope this relationship will continue to flourish on the years to come.

IN RECOGNITION OF THE CONTRIBUTIONS OF THE B.F. HOXIE ENGINE CO. NO. 1

HON. SAM GEJDENSON

OF CONNECTICUT

IN THE HOUSE OF REPRESENTATIVES

Friday, October 6, 2000

Mr. GEJDENSON. Mr. Speaker, today I congratulate the B.F. Hoxie Engine Co. No. 1 of Mystic as it celebrates 125 years of service of its community. The B.F. Hoxie Engine Co. No. 1 has been, and continues to be, a tremendous asset to residents throughout Mystic.

Since its inception in 1875, the B.F. Hoxie Engine Co. No. 1 has played an important and crucial role in protecting the community from fire damage. The company has been responsible for responding to and extinguishing several major fires during its operation, including the Noank Shipyard fires of 1890 and 1898.

Today, the B.F. Hoxie Engine Co. No. 1 stands as a pure example of the evolution of firefighting. Jumping directly into the new technologies of firefighting, the B.F. Hoxie Engine Co. was one of the first fire departments to introduce the use of the compressed air breathing apparatus for firefighters. The company utilizes the latest and most advance equipment available, including a thermal imaging camera to quickly locate the heart of a fire, a laser to measure surface temperature and a Biosystems PhD meter to detect gases in the air.

Powered only by volunteers, the B.F. Hoxie Engine Co. No. 1 is responsible for founding Mystic's first ambulance service, providing EMT service and responding to highway accidents and other emergencies, as well as hosting a weekly fish frying fund-raiser during a portion of the year to benefit the activities of the department.

Volunteer firefighters are true American heroes. They give their time and their energy to protect our families, our homes and our treasures. Some brave volunteers make the supreme sacrifice every year to save their neighbors and to make our communities safer.

Mr. Speaker, the members of the B.F. Hoxie Engine Co. No. 1, past and present, exemplify these qualities every day. I join with residents throughout Mystic and southeastern Connecticut in congratulating the B.F. Hoxie Engine Co. No. 1 on the occasion of its 125th anniversary.

REGARDING THE NATIONAL DAY OF TAIWAN

HON. ALCEE L. HASTINGS

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Friday, October 6, 2000

Mr. HASTINGS of Florida. Mr. Speaker, today I take a moment to congratulate our friends and allies in the Republic of China on Taiwan as they prepare to celebrate their National Day on October 10. As a Member of the House International Relations Subcommittee on Asia and the Pacific, it gives me special pleasure to mark this occasion.

As my colleagues know, the Taiwanese people recently made history as they successfully and peacefully held their second democratic presidential election and chose Mr. Chen Shui-bian, the candidate from the opposition party, as their head of state. President Chen and the people of Taiwan are to be commended for that landmark achievement.

Like his predecessors, President Chen continues to seek a proper role for Taiwan in the international community. President Chen also has sent goodwill messages many times to resume a dialogue with the People's Republic of China. In the meantime, he exhorts his countrymen to make Taiwan a strong, peaceful, and worthy ally of ours in a region that is so important to our national interest.

I join with my colleagues in the Congress and many Taiwanese-American friends in the United States in congratulating the people of the Republic of China on Taiwan on this 89th anniversary of their National Day.

A POINT OF LIGHT FOR ALL AMERICANS: REV. DR. JAMES S. BULLOCK, PASTOR, HOLY SACRED BAPTIST CHURCH

HON. MAJOR R. OWENS

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Friday, October 6, 2000

Mr. OWENS. Mr. Speaker, I rise to pay tribute to Rev. Dr. James S. Bullock, the distinguished Pastor and Spiritual leader of Holy Sacred Baptist Church in Brooklyn, New York.

Dr. Bullock, the former Pastor of Mars Hill Baptist Church of Coney Island, New York, was called to Holy Sacred Baptist Church in August of 1999 and was installed on December 19, 1999 by The Metropolitan Interdenominational Ministers Conference, The Eastern Baptist Association, The Pastors and Churches Union and the Holy Sacred Baptist Church family. Presiding over the installation ceremonies was the Rev. Dr. B.T. McCollum, Vice-Moderator of the Eastern Baptist Association, the Moderator D.H. Dovore Chapman, Co-President.

The installation service was heralded by countless community leaders, including officials of the African American Clergy and Elected Officials of Brooklyn, the Rev. Joe L. Parker, President and many other clergymen and women along with school officials, teachers, and officers of the various PTA groups.

Rev. Dr. James S. Bullock is a community minded clergyman. He participates in many

community-based organizations. He is involved with the following organizations: Secretary of the Association of Brooklyn Clergy for Community Development, Secretary of the African American Clergy and Elected Officials of Brooklyn, Vice President of The Metropolitan Interdenominational Ministers Conference, Parent Body Member Eastern Baptist Association, President of the North Bay Tenant Association of Coney Island, and President of The Men and Women's Interdenominational Ministers Conference of Brooklyn, New York.

Rev. Dr. Bullock is a man of vision. He is a multi-talented person who is considered an excellent Preacher and Teacher, a builder of ideas and developer of community motivation, and a master decision maker. He is steadfast in his beliefs and a loyal supporter of the missions of the organizations to which he belongs. He consistently endorses the politics of community empowerment and the practical projects which bring the benefits of empowerment to the poor.

Mr. Speaker, I am proud to salute Rev. Dr. James S. Bullock as a distinguished ''Point of Light'' for all Americans.

HONORING A HOOSIER HERO: KATHY ALFKE

HON. DAVID M. McINTOSH

OF INDIANA

IN THE HOUSE OF REPRESENTATIVES

Friday, October 6, 2000

Mr. MCINTOSH. Mr. Speaker, I rise today to congratulate a very special Hoosier who has been chosen to receive the Patrick Groff Teacher of the Year Award. This national award will be presented by the National Right to Read Foundation, an organization devoted to increasing literacy in America through scientifically-based reading research. Only one award is given each year, and this year the award will go to Indiana's own Kathy Alfke.

In addition to teaching reading skills to fourth and sixth graders at Riverside school in Indianapolis, Kathy teaches other teachers, parents, aides, tutors, and principals the Direct Approach Method, a reading instruction technique which brings amazing results. Since last February, she has taught teachers at 12 Indianapolis Public Schools and is currently instructing educators in at least 15 other schools. In her home town of New Palestine, she provided training for the reading tutors and the Director for Instruction at the town's newest school. In all, Kathy trained over 60 teachers this summer and has taken on more students this fall.

Her efforts are making a difference. Having taught the Direct Approach to Reading and Spelling teachers at Switzerland County schools, they scored sixth in the state on the Indiana Statewide Testing for Educational Progress (ISTEP). Kathy has contributed to her own school's dramatic progress leading to its removal from double probation status. Kathy received a National Literacy Award from the James Flannigan Foundation and UPS last year.

Kathy's success as a teacher was built on the determination to go beyond the status quo for the sake of children. Kathy graduated from Indiana State University with a B.A. in Education and a reading endorsement in 1983. She completed her Masters Degree at Indiana University-Purdue University Indianapolis (IUPUI) three years later. For many years, Kathy taught at Indianapolis Public Schools. After transferring to a school near her home, Kathy faced a situation which tested her resolve as a teacher. The teaching philosophy embraced by the administration rejected formal learning. Teachers were forbidden to have text books or skills charts in the classroom.

Of this experience, Kathy says, ''The principal made sure you did what she said or you stood the chance of being on the 'hit list.' I withstood this environment for three years until I started feeling oppressed. I was losing my creativity and did not want to come to school. I felt like I was dying inside. I knew I was a good teacher and that God put me on earth to fulfill that position, but was I to continue to be in a building where things were so stressful and were not allowed to teach isolated skills? I was supposed to be a reading specialist, but I didn't know how to teach phonics.''

Deeply discouraged with a system which was leaving kids without the most basic skills, Kathy took one year off on to home school her own son. During this time, she met a woman named Mercedes Russow, a 79-year-old lady who introduced her to a direct, systematic phonics approach to teaching reading called the ''Direct Approach Method''. This program was developed in the late 1950's by Mercedes' mother, the late Pauline Banks, a former Indianapolis Public School Teacher.

Mrs. Russow gave Kathy the skills and the hope she needed to return to the classroom. Since then, her success as a reading teacher has drawn the attention of teachers and principals alike. She divides her time between teaching children and other teachers.

Her workshops are full. Speaking of last year's fall seminar, Kathy states, ''The meeting room was packed with teachers from all over Indianapolis who attended the training sessions in May and June to brush up on their phonics and word attack skills. Private school teachers, recently graduated ''prospective'' teachers, tutors, parents, principals, and Indianapolis Public school teachers and assistants from schools 14, 21, 37, 42, 48, 68, 81, 93, and 103 learned how to supplement their existing curriculum with the simple yet effective techniques of Direct Approach Phonics.''

Kathy's success is an inspiration. Rather than accept a system that left some children behind, she sought the skills that were needed for a successful reading program, and now she is passing these skills on to others. Sound reading instruction is needed in Indiana. Kathy herself points out, ''As far as education in general, in the schools where I go, I see wonderful, dedicated teachers who a lot of times are spinning their wheels trying to think, 'What is it that I need to do to improve what we're already doing?' Probably the most consistent thing I hear from teachers is the lack of training. From their university training they don't feel adequately prepared to teach reading, I see good things, but a lot of frustration.''

Sadly, many of our students across the country do not have mastery of this basic skill of reading. The 1998 National Assessment for Educational Progress (NAEP) has found that 69% of 4th grade students are reading below the proficient level and that 85% of minority 4th grade students, most of whom are in Title I programs, are reading below the proficient level. Many of these students will end up in special education.

Studies indicate that at least half of the students being placed in Special Education programs have not been taught to read. The cost of Special Education—federal, state and local—is exceeding $60 billion each year. The cost to those who never learn to read adequately is much higher. The job prospects for functionally illiterate adults are slim. Opportunities for those who cannot read are few.

Reading is fundamental. To ensure mastery of these skills, correct teaching methodology is essential. According to the National Institute of Child Health and Human Development the ability to read depends on one's understanding of the relationship between letters and the speech sounds they represent. Intensive instruction in phonics teaches this skill—the 26 letters used to symbolize about 44 speech sounds and the most common ways they may be spelled.

The National Reading Panel's report on successful reading strategies which was released on April 13, 2000 echoes this point. After reviewing 30 years of reading research, the reading panel found that the most effective reading programs include instruction in phonemic awareness, phonics, fluency, comprehension, and vocabulary.

The research in support of intensive, systematic phonics is widely available yet teaching colleges often neglect to provide their students with the skills to teach this body of knowledge. Too often, teachers like Kathy graduate without the tools to successfully teach reading. These teachers are deeply devoted to children and want to teach the best they can, yet they lack essential teaching skills. Until teaching schools adopt successful reading instruction methods, the only place teachers can learn these is in workshops like the ones Kathy provides.

This is but one of the reasons Kathy is an education hero. In addition to helping children learn to read, she is providing other teachers the means to become excellent teachers. She is fighting the fight against illiteracy and arming others to do the same. Because of teachers like Kathy, I am hopeful that the literacy deficit in our country will become a thing of the past. It is for this reason that I will be presenting Kathy with a Certificate of Special Congressional Recognition for her service to Indiana next week. Her commitment to children and literacy is outstanding.

I would like to thank the National Right to Read Foundation for selecting this wonderful Hoosier to receive the Patrick Groff Teacher of the Year Award.

Mr. Speaker, I appreciate the opportunity to speak about this very special woman. I am reminded of the words of Historian Henry Brooks Adams who once said, ''A teacher affects eternity; he can never tell where his influence stops.''

THE VIOLENCE AGAINST WOMEN ACT

HON. STEPHANIE TUBBS JONES

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Friday, October 6, 2000

Mrs. JONES of Ohio. Mr. Speaker, today I support the Violence Against Women Act (''VAWA''). On September 26, 2000, this Body voted to reauthorize VAWA in a vote of 415 to 3. Our colleagues in the other Body are now considering the reauthorization of this important legislation.

In my career as a judge and prosecutor, I witnessed many instances in which violence tore at the fabric of family life, causing harm to women and children.

The Violence Against Women Act would ensure a comprehensive approach to combating violence through the tools of family services, community initiatives, training for law enforcement, and educational programs. The Act would also protect women with disabilities, many of whom are unable to advocate on their own behalf.

This Body's support of VAWA indicates widespread recognition of the problem of violence against women, and that it must stop. I urge that our colleagues in the other Body reauthorize this legislation.

TRIBUTE TO CONGRESSMAN SIDNEY YATES

HON. JESSE L. JACKSON, JR.

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Friday, October 6, 2000

Mr. JACKSON of Illinois. Thank you, Mr. Speaker. Mr. Speaker, I rise today to pay tribute to a distinguished legislator, a paragon of virtue and a national treasure—Congressman Sidney Yates from my home state of Illinois. I am deeply saddened by the news that Sid Yates died last night. I join my colleagues in taking the time to honor this truly remarkable man for his invaluable contribution to this nation. During this time of sorrow for his family, I want them to know that I hold them in my heart and in my prayers.

Mr. Yates was first elected in 1948, and for four decades served as a member of the Appropriations Committee. I am honored to now fill his seat. As the member who coined the appropriations moniker ''College of Cardinals,'' he spent 20 years as Chairman of the Interior Appropriations Subcommittee. Sidney Yates was a staunch advocate for the arts, and a defender of the environment. He embodied all that is just and virtuous about public service. Through his exemplary tenure, Sidney Yates typified what it truly means to be called, ''the honorable.''

Mr. Yates was considerate to me, generous with his time and extremely helpful to me as a new legislator. On December 14, 1995, Mr. Yates introduced me after I took the oath of office, and continued to serve as a guide and teacher. As the Dean of the Illinois delegation, his courageous and principled stands on issues and legislation were inspirational—this despite great pressure to do otherwise.

I believe I speak for every member of this body when I say we will continue to be guided by the light of Sid Yates' leadership, public service, experience and wisdom. I will miss my good friend and trusted mentor.

ANTI–GAY VIOLENCE IN VIRGINIA HIGHLIGHTS THE NEED FOR EXPANDED HATE CRIMES LEGISLATION

HON. TOM LANTOS

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Friday, October 6, 2000

Mr. LANTOS. Mr. Speaker, I was extremely disappointed that the conference committee on the defense authorization legislation voted to drop the hate crimes provision from the bill. As president Clinton said, yesterday, dropping this provision is a serious error. The hate crimes provision had strong bipartisan support in both the House and Senate. This legislation simply provided that all persons should be treated the same under our nation's laws, and it is a principle that all of us here in the Congress should support.

Mr. Speaker, a tragic incident just a few days ago in Roanoke, Virginia, has only served to highlight the need for this legislation. Ronald Edward Gay shot and killed Daniel Lee Overstreet simply because he was gay. Mr. Overstreet worked for Verizon network and was well liked by all who knew him. But he happened to be in a gay bar, when Ronald Edward Gay entered the bar and shot and killed him because, in Gay's words, he wanted to waste some ''faggots''. Like Matthew Shephard before him, Daniel Lee Overstreet was a victim of blind, impersonal hatred and bigotry.

The brutal attack in Virginia and the rise in hate crimes based on sexual orientation shows the need for Congress to adopt comprehensive hate crimes legislation. If we fail to enact this legislation, more and more people will continue to suffer from hate crimes in our country. According to the FBI, hate crimes based on anti-gay violence increased 14.3 percent from 1997 to 1998—even as the overall crime rate decreased. Hate crimes based on sexual orientation have nearly tripled since the FBI began collecting statistics in 1991, and in 1998 such crimes comprised 16 percent of all hate crimes—some 1,260 crimes nationally.

Mr. Speaker, the majority of Americans believe that now is the time to pass the expanded hate crimes legislation. According to recent polls, 63 percent of independent voters say they are ''less likely'' to vote for a candidate opposed to hate crimes legislation. These voters believe as I do, that hate crimes legislation does not make murdering someone who happens to be homosexual a greater crime than murdering someone who happens to be heterosexual as its opponents charge. Rather, it sends a message throughout our nation that hate crimes will not go unnoticed and they will not go unpunished.

Mr. Speaker, with the recent anti-gay violence in Virginia and the increasing number of hate crimes across the nation, it is now time to pass the Hate Crimes Prevention Act. We have the support of the American people. We need to take action to prevent tragedies like those of Matthew Shephard and Daniel Overstreet in the future. I urge my colleagues to support H.R. 1082 so that we can curb this rise in anti-gay violence and send a clear message that hate is wrong and the perpetrators of hate crimes will be punished.

CONGRATULATING ROBERT A. SCOTT ON RECEIVING THE 2000 RAOUL WALLENBERG HUMANITARIAN LEADERSHIP AWARD

HON. MARGE ROUKEMA

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Friday, October 6, 2000

Mrs. ROUKEMA. Mr. Speaker, I rise to congratulate Robert A. Scott, Ph.D., president of Adelphi University and former president of Ramapo College, on being chosen to receive the 2000 Raoul Wallenberg Humanitarian Leadership Award. Dr. Scott, in addition to being a proven educational leader of high standards and strong management expertise, has been uniquely active and outspoken on issues surrounding the Holocaust, genocide, racism and anti-Semitism. He clearly deserves and has earned this high honor. I have worked closely with Dr. Scott for many years and can attest to his integrity and dedication.

The Raoul Wallenberg Humanitarian Leadership Award is presented annually by the Center for Holocaust and Genocide Studies at Ramapo College. While the Center was established before Dr. Scott became president of Ramapo in 1985, he was one of its strongest supporters throughout his tenure and contributed significantly to its growth and prominence in the world of Holocaust studies. Today, the Center is an independent, non-profit organization that encourages and assists persons of all ages in learning the history and lessons of the Holocaust and other genocides in the hope that through education such tragedies can be prevented from ever occurring again. The Center sponsors a variety of activities, including workshops for educators, recording of local Holocaust survivors' testimonies, art exhibits, film series, lectures and panel discussions.

The Raoul Wallenberg Humanitarian Leadership Award is given to individuals who display ''outstanding leadership in advancing Holocaust studies and interfaith understanding.'' Dr. Scott clearly meets that test, and strives to follow the examples of courage and leadership set by Raoul Wallenberg, the Swedish diplomat who saved the lives of thousands of Jews in Budapest during World War II.

Prior to becoming president of Adelphi University on July 15 of this year, Dr. Scott spent 15 years as president of Ramapo College. His tenure at Ramapo was marked by rising enrollments, increasingly rigorous admissions standards, a construction boom, fiscal stability, the addition of three graduate degree programs and numerous other accomplishments. He has been a member of the New Jersey Commission on Higher Education since 1994 and chaired the Commission's Higher Education Restructuring Team. As a senior advisor to the U.S. State Department, he represented the United States at the 1998 United

National Education, Scientific and Cultural Organization conference in Paris that negotiated an international treaty on the transferability of academic credits and credentials. He has received numerous awards from education and community groups.

Before coming to Ramapo, Dr. Scott was assistant commissioner for the Indiana Commission for Higher Education and an associate dean and senior administrator at Cornell University. He holds a bachelor's degree in English from Bucknell University and his doctorate in sociology and organizational ethnography from Cornell.

Mr. Speaker, I ask my colleagues in the House of Representatives to join me in congratulating Dr. Scott and wishing him many years of continued success in his new role at Adelphi University.

COMMEMORATING THE REPUBLIC OF CHINA ON IT'S NATIONAL DAY, OCTOBER 10, 2000

HON. MAURICE D. HINCHEY

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Friday, October 6, 2000

Mr. HINCHEY. Mr. Speaker, in recent years, the Republic of China on Taiwan has emerged as a major economic power throughout the world. Much of this economic success is attributable to the efforts of Taiwan's leaders who understand that a strong economy is necessary for true political progress and reform. The Republic of China has now become a true democracy with several strong political parties. Earlier this year, the people of Taiwan elected as President Mr. Chen Shui-bian of the Democratic Progressive Party. His election underscored the vitality and diversity of Taiwan's democratic form of government.

Like his predecessor, former President Lee Teng-hui, President Chen continues to seek a proper role for the Republic of China in the international community. At the same time, President Chen also seeks a dialogue with the People's Republic of China. While the pace of this dialogue may evolve slowly, President Chen will continue to work with his countrymen to transform Taiwan into a high tech island that will be seen worldwide as a successful model for emerging democracies.

Mr. Speaker, I would urge my colleagues to show our admiration to our friends in the Republic of China by congratulating them on their forthcoming National Day.

IN HONOR OF HOLY FAMILY HIGH SCHOOL REUNION 2000

HON. ROBERT MENENDEZ

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Friday, October 6, 2000

Mr. MENENDEZ. Mr. Speaker, I rise today to honor Holy Family High School, as it celebrates Reunion 2000. On October 7, 2000, many of Holy Family's alumni will attend a reunion to celebrate the school that guided them through their formative years and prepared them for future success.

Holy Family High School was founded in the late 1800s, and was known as Columbia Business School. In the early 1920s, Franciscan nuns and priests took stewardship of the school, changing its name to Holy Family. They dedicated their lives to providing support and guidance, creating an environment that facilitated learning. Because of the exceptional education Holy Family provided, many of its students had the opportunity to go to college.

The closing of Holy Family High School in 1972 was a sad moment for everyone who had been a part of its history, and sad moment for the community. However, with this reunion, Holy Family's alumni share their memories and experiences, their triumphs and difficulties. In so doing, they breathe life back into their school and their childhood.

Today, I honor Holy Family High School and the students who passed through its halls on the way to realizing their dreams. And I ask my colleagues to honor them, as well.

PERSONAL EXPLANATION

HON. NYDIA M. VELÁZQUEZ

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Friday, October 6, 2000

Ms. VELÁZQUEZ. Mr. Speaker, due to an error, I was incorrectly shown as voting "yes" on rollcall No. 473. I was present during this roll call vote and intended to vote "no."

This was a vote on the Souder amendment to H.R. 4942, the DC Appropriations Bill for FY 2001. This amendment would prohibit the District of Columbia from using any funds, Federal or local, for a needle exchange program. I am strongly opposed to such a prohibition.

Needle exchange programs, which are used in over 30 states, have been proven to drastically reduce the transmission of HIV among intravenous drug users. Such programs have the support of the American Medical Association, the American Public Health Association, the United States Conference of Mayors and the Surgeon General of the United States. In fact, the Surgeon General has said, "There is conclusive scientific evidence that syringe exchange programs as part of a comprehensive HIV prevention strategy are, in effect, public health intervention that reduces the transmission of HIV and does not encourage the use of illegal drugs."

The District has budgeted it's own funds for the implementation of this program. However, the Souder amendment denies the District the right to local control over local policy, implemented by local dollars. It is not the responsibility of this Congress to impose the personal moral beliefs of certain of its Members on the public health policy of any local jurisdiction. Yet that is exactly what the Souder amendment does. I oppose this amendment and ask that this statement be entered into the record to clarify my position on this important issue.

WRONG ON KAZAKHSTAN

HON. DAN BURTON

OF INDIANA

IN THE HOUSE OF REPRESENTATIVES

Friday, October 6, 2000

Mr. BURTON of Indiana. Mr. Speaker, I would like to draw the attention of my colleagues to a very disturbing Op Ed article by Professor Amos Perlmutter ("More words than deeds on Kazakhstan?" in the Washington Times of October 4, 2000), detailing how the Clinton-Gore Administration has dropped the ball in promoting democracy and respect for human rights in Kazakhstan.

Time after time, Kazakhstan's ruthless and corrupt President, Nursultan Nazarbayev, has made promises to Vice President GORE and others in the Administration and has then failed to deliver on those promises. And so, as Professor Perlmutter puts it, the Nazarbayev regime continues its campaign of "relentlessly destroying the opposition, closing the free press and involving itself in corrupt schemes."

It should have been possible for the United States, which has had the support of the Organization for Security and Cooperation in Europe as well as numerous non-governmental human rights organizations, to insist that Nazarbayev fulfill the promises he made on human rights and free elections as a price for legitimacy in American eyes. Sadly, however, it seems clear that the Clinton-Gore Administration has pulled its punches, because it wants oil rich Kazakhstan's support for an oil pipeline that does not go through Russia. What is particularly troublesome in this regard is that the United States should not be turning a blind eye to repression and corruption in order to persuade Kazakhstan to do something that is in its interest in any event.

Mr. Speaker, I submit Professor Perlmutter's article for the RECORD.

[From the Washington Times, Oct. 4, 2000]

MORE WORDS THAN DEEDS ON KAZAKHSTAN?

(By Amos Perlmutter)

The Clinton-Gore administration relationship with Nursultan Nazarbayev's corrupt dictatorship in Kazakhstan is, once again, making news. Not without reason.

The case is that the administration failed to defend political freedom and free enterprise in Kazakhstan. They talked the talk without walking the walk when it came to challenging the Nazarbayev dictatorship.

Promises from Mr. Nazarbayev went unfulfilled. The administration failed to support the claims of human rights organizations, non-government organizations (NGOs), and the OSCE that the Nazarbayev government is not only failing to undergo democratic changes as a price for support from the United States, but also is relentlessly destroying the opposition, closing the free press and involving itself in corrupt schemes.

The effort to support this regime was conceived in conformity with the American national interest. After all, there are three reasons for U.S. strategic interest in Kazakhstan: oil, nukes and independence. Kazakhstan has been one of the Soviet Union's major oil reserves, and continues to be a most significant oil reserve and also a Caspian littoral state. Josef Stalin made Kazakhstan a Soviet nuclear arsenal.

Independence was the goal of both the Bush and Clinton administrations, to

strengthen Central Asia non-Russian Muslim states, and to move them in the direction of democracy and free enterprise. There was a tacit strategic purpose in separating Kazakhstan from Russia's historical imperial linkages (an exercise in futility). Kazakhstan is the most Russified Central Asian state, with close to 30 percent of its population Russians who serve as the main scientific, industrial and business elite.

However, the Clinton administration sank into the pool of oil that inadvertently led to the most serious corruption of the Nazarbayev dictatorship by failing to resist the dictatorship. One of the administration's major foreign policy goals was humanitarian intervention to help bring an end to former communist dictatorships in the former Soviet Union and the Balkans.

In fact, the administration conducted a ''humanitarian war'' in Kosovo. The idea of a humanitarian and exemplary intervention, i.e. support of opposition groups in Kazakhstan, free press, and democracy was sacrificed, unfortunately, to the pool of oil.

The administration was not directly involved in support of the dictatorship. But it failed to vigorously resist the Nazarbayev violation of human rights, dissolution of the Kazakh parliament on two occasions and above all closing the only two opposition papers and the rigging of the 1999 elections.

In defense of the administration you could say diplomatic gobbleygook and securing unfulfilled promises from Mr. Nazarbayev was unfortunately subordinated to oil and nuclear strategic policies. The embassy in Kazakhstan continuously reported to the U.S. State Department on Mr. Nazarbayev's violations of human rights.

In fact, the OSCE, human rights groups, non-government organizations (NGOs), and other groups have warned the administration and continuously protested Mr. Nazarbayev's dictatorship and suppression of freedom in Kazakhstan. Leon Fuerth, Vice President Al Gore's national security adviser, and his assistant, Richard Brody, met on Sept. 15, 1999, at the Old Executive Office Building to discuss the upcoming visit of President Nazarbayev to the United States. Attending were several people from the State Department, regional and human rights bureaus, as well as the Human Rights Foundation, and the Kazakhstan 21st Century Foundation.

Mr. Fuerth was on the defensive throughout the meeting, as the various representatives pressed hard the argument that the meeting was a mistake at that time, since Mr. Nazarbayev would interpret it as an endorsement of his behavior. According to one of the participants, Mr. Fuerth was unpersuasive and ineffective in defending the purpose for the visit of Mr. Nazarbayev to the United States.

The issue at stake was Kazakhstan's MiG sales to North Korea and the failure of democracy. When Mr. Nazarbayev promised Mr. Gore the next election ''would be better,'' the OSCE report on the 1999 elections in Kazakhstan were still pending. Mr. Fuerth said at the meeting, ''We will adopt its [OSCE's] findings as leverage on Nazarbayev.'' Mr. Fuerth continued, ''Our government has been saying repeatedly, and the vice president personally, pay attention to what the monitors are saying about your, i.e. Nazarbayev's, elections.'' Mr. Fuerth said Mr. Nazarbayev is ''not your poster boy'' for democracy and freedom. Mr. Fuerth said, ''Gore sees his personal relationship as essential to prodding Nazarbayev toward democracy.''

America's goals include, says Mr. Fuerth, ''carrying Kazakhstan to a modern self-sustaining state at every level of societal concern. . . . We are into their affairs at a fantastic level of detail, and that is only possible with the political support of Nazarbayev and this [Gore-Nazarbayev] commission and the commitment of the United States to a face-to-face meeting with the vice president.

Mr. Fuerth continued to say the United States must persuade them to ''more and more perfect democracy,'' and he is ''perfectly aware of the imperfections.'' According to Mr. Feurth, Mr. Gore's message is ''Democracy is on the agenda. Democracy is not our idiosyncrasy.'' He describes Mr. Gore's agenda as follows: ''Democracy and elections are essential parts of the relationship Nazarbayev wants with the U.S. Gore will explain why a valid election is indispensable if he [Mr. Nazarbayev] wants the relationship he seeks.''

After meeting with the president, Mr. Nazarbayev went back home and continued in his oil-mired practices, human-rights violations and the creation of his position as president for life.

Since Mr. Gore was given the portfolio on Russia and the independent states of the former Soviet Union, the essential difference between what the Cox Report finds in the case of Russia and the administration policy toward Kazakhstan is that in the case of Russia it was mired with good intentions for reform that turned sour because of support for Boris Yeltsin's corrupt, undemocratic government. You cannot tell Russia, a major power, what to do, while the situation in Kazakhstan was totally different.

Not only was the United States in the position to help implement the recommendations for democracy and freedom in Kazakhstan, it coddled the dictator and made no impact whatsoever or follow up on the promises made by Mr. Nazarbayev to Mr. Gore to advance the democracy in Kazakhstan.

In the case of Kazakhstan, the United States was in a stronger position than in Russia, with the support of OSCE, multiple human rights organizations and NGOs, to impose upon the dictatorship to implement their promises made on human rights and free elections as a price for legitimacy in American eyes.

They did not do it. The administration tacitly accepted Mr. Nazarbayev's defense that there is an emergent democracy in Kazakhstan and it is a question of ''time.''

It seems the Clinton-Gore administration did not try very hard to institutionalize and implement their commitments to democracy, free elections, and an open press in the case of Kazakhstan.

MOTOR VEHICLE FRANCHISE CONTRACT ARBITRATION FAIRNESS ACT OF 2000

SPEECH OF

HON. KEN BENTSEN

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 3, 2000

Mr. BENTSEN. Mr. Speaker, I rise in strong support of legislation I cosponsored, H.R. 534, the Fairness and Voluntary Arbitration Act. This important legislation addresses an imbalance in the relationship between automobile manufacturers and automobile dealers.

Today, motor vehicle manufacturers regularly force small business auto and truck dealers into mandatory binding arbitration clauses by including the clauses in non-negotiated dealer agreements. Under the current system, automobile and truck dealers have no choice but to accept mandatory binding arbitration provisions in franchise agreements provided by motor vehicle manufacturers. These ''take it or leave it'' contracts undermine the ''freedom to contract,'' a tenet of modern commercial law, and run counter to basic principles of fairness.

H.R. 534 would make arbitration of dealer-manufacturer disputes totally voluntary. H.R. 534 does not prohibit arbitration but rather seeks to make arbitration one of several avenues to dispute resolution. H.R. 534 makes arbitration one of several fair choices that both parties may willingly and knowingly select. I believe that we should reject the one-size-fits-all approach of arbitration and recognize that there are less expensive, more efficient, non-judicial modes of dispute resolution like mediation and other types of informal negotiation.

Under the current system, legitimate state protections are unavailable for dealers because of overly broad federal policy favoring arbitration. The landmark Supreme Court case, *Southland Corporation v. Keating,* 107 S. Ct. 852 (1984), established that federal law preempts state laws that prohibit mandatory binding arbitration in adhesion contracts or prohibit waivers of judicial or administrative remedies of a contract. Preemption prevents states from enforcing protective laws that limit or regulate unfair arbitration practices in contracts, despite the fact that enforceability of private contracts is ordinarily a question of state law. These arbitration clauses substantially deteriorate dealers' rights and remedies as provided under protective state franchise laws.

Mr. Speaker, the federal government has no business dictating the terms of contracts between small business auto and truck dealers and automotive manufacturers. Accordingly, I urge my colleagues to join me in support of H.R. 534, legislation to untie the hands of small business auto and truck dealers in their negotiations with automotive manufacturers.

TRIBUTE TO THE REVEREND JOHN ALPHONSO FERGUSON FOR A CAREER OF SERVICE

HON. CARRIE P. MEEK

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Friday, October 6, 2000

Mrs. MEEK of Florida. Mr. Speaker, the Reverend John Alphonso Ferguson is the founding pastor of the Second Baptist Church of Richmond Heights, in my Congressional District. On Saturday, October 28, 2000, our entire community and Rev. Ferguson's friends, admirers and members of his congregation will gather at the Dadeland Marriott Hotel to wish him Godspeed upon his retirement after 36 years of service.

Ordained a minister at the First Baptist Church of Logan Park in Norfolk, Virginia on November 17, 1959, he moved in 1961 to Florida to establish the Second Baptist Church in South Dade's Richmond Heights community. Amidst the countless sermons he

preached, the baptismals and christenings he presided over, and the weddings and funerals he performed, Reverend Ferguson was likewise indefatigable in reaching out to the schools and homes, hospitals and community organizations that sought and obtained his sage advice and wisdom.

The longevity of his pastorate in the vineyard of the Lord truly represents a stewardship that is inspiring. He remarkably transformed the Second Baptist Church into one of the most active congregations in Miami-Dade County. His role as spiritual leader and consummate activist has immensely enlightened and guided church members as they tackle the agenda of participatory government based on their God-given conscience and responsibility.

It is fitting for us to pause and reflect on the role that Reverend Ferguson played in the day-to-day affairs of our community during the last 36 years. He has truly personified the example of Christ as the Good Shepherd, leading his flock to become ''. . . the light of the world and salt of the earth'' through his preaching of God's word and spreading the good news of the gospels.

I am privileged to enjoy his friendship and confidence, and I will always be grateful for his example of leading us to live by his noble ethnic of always loving God through the service of our fellow human beings, especially those who could least fend for themselves.

The testament of his faithful consecration to our community's well-being buttresses the noble legacy he now leaves with us. I extend to him the thanks of our community for a job well done and our best wishes for a well-deserved retirement.

A TRIBUTE TO ST. KATHERINE DREXEL

HON. MICHAEL P. FORBES

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Friday, October 6, 2000

Mr. FORBES. Mr. Speaker, seventy years ago, Katherine Drexel visited the pristine coastline of Wading River, Long Island at the request of the Reverend Bernard Quinn, who wanted to help her in creating an orphanage for homeless African American children from New York City. So moved by the beauty of the vista and the dire need for the orphanage, Mother Katherine Drexel sent four nuns from the order she created, the Sisters of the Blessed Sacrament for Indians and Colored People, to teach at the Little Flower Institute.

Little Flower was established in 1930 after much opposition from the local residents. It was burnt down twice under mysterious circumstances. Despite the obstacles, Little Flower has grown to one of the largest foster care agencies in New York, providing services to approximately 2,500 children. Death, illness, poverty and substance abuse have claimed the innocence of so many of Little Flower's children. However, all of the people that have been involved in the institute, have given children a ray of hope and a new beginning for over 70 years.

Little Flower is just one of nearly 300 missions and schools, Katherine Drexel built. Rejecting the life of a socialite and donating her riches to ''the cause of uplifting Indians and Colored People,'' she dedicated herself to a life of poverty and helping those who needed her the most. She was a woman who was ahead of her time. She afforded people of downtrodden races the respect and love that most others could not. Mother Drexel looks past the color of a person's skin and looks to the inside and the true humanity of each and every person she met.

This week, after the Catholic Church ascribed two miraculous cures of deafness, Mother Katherine Drexel became St. Katherine. She was cannonized by Pope John Paul II and joins only three other American saints.

St. Katherine has touched the lives of so many. So many children at Little Flower and other schools throughout the country. So many who had been abandoned by society and left to fend for themselves. So many who needed a person to see the goodness in all. So many who needed and were helped by St. Katherine Drexel.

REPUBLIC OF CHINA'S NATIONAL DAY

HON. SOLOMON P. ORTIZ

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Friday, October 6, 2000

Mr. ORTIZ. Mr. Speaker, on behalf of my constituents I wish to extend my best wishes and congratulations to the people of the Republic of China on the occasion of their forthcoming national day.

The Republic of China on Taiwan is a genuine democracy and its people enjoy one of the highest standards of living in the world. It is my belief that the story of Taiwan needs to be told again and again.

Meanwhile, best of luck to president Chen Shui-Bian of the Republic of China.

CONGRATULATING THE MIDWAY, TEXAS, ALL-STARS LITTLE LEAGUE SOFTBALL TEAM FOR WINNING THEIR FOURTH CONSECUTIVE WORLD SERIES

HON. CHET EDWARDS

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Friday, October 6, 2000

Mr. EDWARDS. Mr. Speaker, today I wish to congratulate the Midway All-Stars little league softball team for taking home the trophy for the Girls' Little League Softball World Series.

On August 19th, these young women, ages 11 and 12, ended another outstanding season. The Midway girls are eight-time world champions, having also won the world title in 1997, 1998 and 1999. They also were world champions from 1992–1995.

I think it is safe to say that the team dominated in the 1990s and has already captured the first championship in the new millennium. The latest Midway girls' triumph was international in scope as teams from the Philippines, Germany, Canada and the United States competed for the title of world champion.

Before heading to the championships, this year's squad had to get through teams at the district, sectional, state, and southern region levels. The team consists of girls from the small community of Hewitt/Woodway right outside of Waco in the heart of Texas' 11th Congressional District.

Members of this world championship team include Ashley Davilla, Rachel Fahlenkamp, Courtney Heard, Kacy Horn, Emily Lindsey, Hannah McGrew, Destinee Mordecai, Bethany Northern, Amanda Pack, Natalie Pendley, Rebecca Pryor, Brandi Rawls, Kelsey Sage, Elissa Stiba.

These young ladies have shown what it takes to win: teamwork, hard work, self-discipline and commitment. These same qualities will continue to serve them throughout their lives.

The team was very capably led by a coaching staff that includes Randy Sage, Kyle Heard and Andy Horn. They devoted many hours to the girls and their sacrifice was key to this victory.

I ask members to join me in congratulating this year's world series team and their coaches for this outstanding athletic accomplishment.

HONORING JOHN F. GARDE OF ILLINOIS

HON. HENRY J. HYDE

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Friday, October 6, 2000

Mr. HYDE. Mr. Speaker, today I pay tribute to an outstanding constituent from Illinois, John F. Garde. Mr. Garde will soon be retiring as the Executive Director of the American Association of Nurse Anesthetists (AANA) after 17 years of service. I am very pleased to honor the distinguished career of John F. Garde for his contributions to the practice of anesthesia from my state of Illinois.

The AANA is the professional association that represents over 27,000 practicing Certified Registered Nurse Anesthetists (CRNAs). Founded in 1931, the American Association of Nurse Anesthetists is the professional association representing CRNAs nationwide. As you may know, CRNAs administer more than 65 percent of the anesthetics given to patients each year in the United States. CRNAs provide anesthesia for all types of surgical cases and are the sole anesthesia provider in two-thirds of all rural hospitals, affording these medical facilities obstetrical, surgical and trauma stabilization capabilities. They work in every setting in which anesthesia is delivered including hospital surgical suites and obstetrical delivery rooms, ambulatory surgical centers, and the offices of dentists, podiatrists, and plastic surgeons.

John received his anesthesia training in 1957 from St. Francis Hospital School of Anesthesia in LaCrosse, WI and began practicing at the U.S. Public Health Hospital in Detroit, Michigan the following year. Having been a

provider of anesthesia for numerous years he became an Associate Professor and Chairman of the Department of Anesthesia at Wayne State University, College of Pharmacy and Allied Health in 1975. Using this experience, he then became the Education Director of the AANA in Park Ridge, IL in 1980 before taking his current role as Executive Director in 1983. His accolades range from propelling nurse anesthesia programs into a graduate framework resulting in 50 percent of them moving into the College of Nursing, as well as establishing the International Federation of Nurse Anesthetists during his tenure with the AANA. John has served the AANA as a member, board member, past president, and now will be retiring as a very celebrated executive director among his peers.

Mr. Garde has many honors to follow his list of career accomplishments. John was inducted as a fellow of the American Academy of Nursing in 1994. In 1999 the Association of Chicagoland recognized him for his outstanding contributions to the Association community, presenting him with the John C. Thiel Distinguished Service Award.

I ask my colleagues to join me today in recognizing Mr. John F. Garde, CRNA, MS, FAAN, for his notable career and outstanding achievements.

TAIWAN NATIONAL DAY

HON. BENJAMIN A. GILMAN

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Friday, October 6, 2000

Mr. GILMAN. Mr. Speaker, as President Chen Shui-bian, who was elected in the first peaceful transfer of power in Chinese history, Vice President Annette Lu, and the people of the Republic of China on Taiwan prepare to celebrate their National Day on October 10, 2000, I wish to extend them my sincere congratulations. The ''Double Ten'' holiday also commemorates China's evolution toward democracy which was first sparked by Dr. Sun Yat-sen, the father of modern China, and his nationalist revolution against the foreign Manchu dynasty.

The Republic of China on Taiwan has a lot in which to be proud. Taiwan's economy is a powerhouse. For instance, export orders reached U.S. $74 billion from January to June, up 21 percent from the same period last year. In June of this year, exports and imports enjoyed almost 25 percent growth from the year-earlier period. Due to the soundness of its economic foundation, Taiwan was unique in being largely immune to the economic crisis which engulfed East Asia a few short years ago. It is the government of Tawian's policy to continue to develop a new economy based on information and high technologies.

Furthermore, Taiwan's citizens enjoy one of the highest living standards in the world and live in a society where, unlike some of their near neighbors, basic human rights are respected and no one has to fear the peril of a sudden knock on the door in the middle of the night. Politically, Taiwan is a true democracy with free island-wide elections, press independence and political pluralism.

Mr. Speaker, Taiwan is a model of success for many countries in the world, and we need to give Taiwan our approbation and support. Let us salute this beacon of democracy in the East China Sea on its National Day!

RECOGNIZING AVIS KELLY BAYSMORE

HON. EDOLPHUS TOWNS

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Friday, October 6, 2000

Mr. TOWNS. Mr. Speaker, I rise today to honor Avis Kelly Baysmore for over thirty years of dedicated and loyal service to Brevoort Children's Center in Brooklyn, New York.

Avis Kelly Baysmore is a wife, a mother, a grandmother, and a great-grandmother. Mrs. Baysmore and her family have been blessed with excellence, greatness, the favor of God, love and honor, the law of kindness in tongue, morality and character. All of these amazing attributes are the result of a God-centered life.

A child of God, Mrs. Baysmore came to Brevoort Children's Center in 1970 as a Substitute Teacher. For the next year she taught as a substitute teacher in other centers, including Tompkins and Sumner Children's Center. On July 5, 1971, she was hired as a Teacher's Aide at Brevoort Children's Center, working in Group 2 with four-year old children. After one year, Mrs. Baysmore was transferred to Group 2.6–3, where she worked until her retirement.

Mrs. Baysmore was enrolled by BKS in an Early Childhood Education Program at New York University, where she obtained credit in Early Childhood Education. She continued on to Pace College and attended many workshops in Early Childhood Education. Later, Mrs. Baysmore would become an Associate Teacher, filling in for the Group Teacher on many occasions. Finally, she also served as a Shop Steward for 19 years.

In her own words, Mrs. Baysmore says ''It has not been easy, but I trusted God for everything and all Honor. Glory and praise goes to my Lord and Savior Jesus Christ. It was He that brought me through thirty years of service.''

Mr. Speaker, Avis Kelly Baysmore is more than worthy of receiving this honor, and I hope that all of my colleagues will join me today in recognizing this truly remarkable woman.

LIFE IN THE AFTERMATH OF SIERRA LEONE'S DIAMOND WAR

HON. TONY P. HALL

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Friday, October 6, 2000

Mr. HALL of Ohio. Mr. Speaker, I rise today to draw our colleagues' attention to the moving statement of someone who testified to Chairman ED ROYCE's Africa Subcommittee. The event was an extraordinary one, an opportunity to see some of the real people who are affected by our government's policies and our consumers' purchases. It is one of many organized by Chairman ROYCE, who has been tireless in his efforts on behalf of Sierra Leone's people, and I commend him and his staff for the critical work they do.

Muctar Jalloh, who is 27, was caught by the rebels in the diamond-mining region in April 1998. He was targeted because he was a student and seen as an enemy of rebel forces trying to gain control of Sierra Leone's mineral resources. Using a machete, AFRC/RUF rebels cut off his right arm above the wrist and his right ear. Mr. Jalloh currently lives at the Murry Town amputee camp in Freetown, and is a leader of the amputees group. His statement needs no embellishment. I hope my colleagues will give it the consideration it deserves.

STATEMENT OF MUCTAR JALLOH—AMPUTEE VICTIM FROM SIERRA LEONE

AFRICA SUBCOMMITTEE OF THE INTERNATIONAL RELATIONS COMMITTEE, U.S. HOUSE OF REPRESENTATIVES, WASHINGTON, DC—SEPTEMBER 26, 2000.

Thank you for inviting my friends and me to speak to you this morning. We have traveled a long way from Sierra Leone thanks to the generosity of Americans from all over the U.S., and especially from Baltimore, Maryland and Staten Island and Brooklyn, New York. This afternoon we leave for New York to begin several months of medical treatment, fittings and training with artificial limbs.

Today, I ask you not to dwell on the horrible injuries that I have suffered personally. I will be glad, if you wish, to describe the terrible ordeal and torture that I went through. I lost my right hand and my right ear when a rebel chopped them off with a machete.

No, I want instead to direct your attention to my young colleagues who traveled with me from the Murry Town Amputee Camp in our capital city of Freetown. Unlike me, they have suffered much even before they could begin really formalizing their dreams for a bright future. The two youngest with us are only four years old. And these three girls here are only eight, nine and ten years old.

Since I read and write in English I sometimes see articles in foreign newspapers or magazines stating that the war in Sierra Leone must be a tribal war, or maybe a religious war. Religion and tribal affiliation have nothing to do with why we are now without our limbs.

If it were a tribal war, you would not see in front of you representatives of our country's major ethnic groups, including Temne and Mende. Those amputated by the rebels include every ethnic group in Sierra Leone. If it were a religious war, you would not have both Christians and Muslims sitting here in front of you. Christians and Muslims have suffered equally at the hands of rebel forces.

The war is not tribal, and it is not religious. It is simply largely a war over control of diamonds. Little pieces of rock that people around the world like to wear on their fingers and hang from their ears. As you can see, because of these rocks I no longer have an ear or five of my fingers. And the victims you see in front of you are examples of what has happened when the people and the democratically elected government of Sierra Leone did not allow the rebels to keep control of the entire country.

Twenty thousand men, women and children have suffered the same excruciating

pain and suffering as the eight of us sitting before you. Imagine the kind of people who would do this to Memunatu or Mohammed. What in the world did they do to anyone? Or Bintu, Damba or Fatu here? Or any of the rest of us? How can human beings do this to other human beings? And how can humanity allow this to continue to go on?

At home in Freetown, our hopes rise and fall with news of announcements from the United States, Europe or the UN. However, while Congressional committees and the parliaments of the world discuss and debate the issue of Sierra Leone, the suffering continues to spread. Children like those before you—Memunatu and Mohammed and Bintu and Damba—these are the victims of inaction and delay.

I am here to ask you for help in bringing the killing and maiming to an end. I am here to ask you to do everything in your power to protect the youngest and most innocent of God's creation from this terrible manifestation of man's worst greed. For if you allow this new form of systematic and widespread terrorism to be tolerated in Sierra Leone, it can happen again in some other country in the future.

Since I am not a politician, my goal is not to engage in politics. My interest is in helping the children of my country have a chance to live normal, healthy lives. This is a right that has been brutally taken away from those you see in front of you today. We will need help in rebuilding these as well since all of our schools and hospitals have been damaged or destroyed. But the rebuilding process cannot begin in earnest until we can begin living without fear.

Again, I thank you for the chance to come to Congress to plead the case of Sierra Leone's amputees. May God bless you and show you the way to help us.

REMEMBERING CONGRESSMAN SIDNEY R. YATES

HON. JOHN EDWARD PORTER

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Friday, October 6, 2000

Mr. PORTER. Mr. Speaker, I rise today to remember and celebrate the wonderful life of our colleague, Sid Yates. He served here for almost fifty years and left an indelible mark on this institution.

I was privileged to serve with Sid as a part of the Illinois delegation for nineteen of my twenty-one years in Congress and on the House Appropriations Committee for eighteen. I will never know another public official more dedicated, astute, well-prepared and forceful in his work. I may often not have agreed with him, but I always respected him. He stood up and fought for the things he believed in. There can be no higher compliment paid to a member of this institution.

As Sid got into his eighties, many Republicans from his district would come to me and say, ''Well, Sid Yates must be less vigorous, more forgetful, and less attentive to his legislative duties now.'' I would have to tell them that was not at all the case. Right into the final days of his time in Congress, Sid was still in the forefront of debates and issues before the Appropriations Committee. If I can be half as sharp as Sid Yates was on reaching the same age, I will be thankful indeed.

DAVE OBEY has said repeatedly that in his thirty-six years in Congress nothing can compare to the debate between Sid Yates and Eddie Boland during a mark-up in the full appropriations committee regarding federal support for the construction of an American Super Sonic Transport (SST). Sid opposed this construction while Eddie was determined to facilitate it. They debated each other for over an hour and held the attention of every member of the committee. Both men were articulate and earnest in their positions. It was incredible to watch. At the end, together they received a standing ovation from the entire committee. This is an event that has gone down in the lore of the House, and it is ironic that in the year of Sid's death, the European version of the SST is grounded and unlikely to return to service.

We send to Sid's wife and family our sorrow in his loss, but celebrate the life of an extraordinary man dedicated to his country, to his principles, to public service as the highest of callings and to this institution.

STATEMENT ON H.R. 2559, THE FY 2001 TRANSPORTATION APPROPRIATIONS ACT (CONFERENCE REPORT), H.R. 3244, THE TRAFFICKING VICTIMS PROTECTION ACT CONFERENCE REPORT, AND THE VIOLENCE AGAINST WOMEN ACT

HON. JAMES M. TALENT

OF MISSOURI

IN THE HOUSE OF REPRESENTATIVES

Friday, October 6, 2000

Mr. TALENT. Mr. Speaker, I rise today to express my support for the Transportation Appropriations conference report, the Trafficking Victims Protection Act conference report, and the Violence Against Women Act, which was included in that bill.

As many people in my home state of Missouri know all too well, our infrastructure is crumbling. In fact, Mr. Speaker, we have the 6th worst roads and bridges in the country. That is why I am so pleased that this conference report passed the House today, and even more pleased that it contained more than $70 million in discretionary funds to directly address the tremendous needs in our state. I want to thank Subcommittee Chairman WOLF and Ranking Member SABO for taking such great steps to address our infrastructure needs. And I also want to give special thanks to Congresswoman JOANN EMERSON for working so tirelessly to bring to the attention of the Members of the Committee Missouri's dire road situation. She has been a wonderful advocate on the Committee and I greatly appreciate her efforts.

Mr. Speaker, I would also like to express my support for the Trafficking Victims Protection Act conference report and the Violence Against Women Act, which was included in that bill. More than a million women and children are trafficked around the world for sex and other exploitative purposes every year—50,000 of which end up right here in the United States. This bill includes several measures which will strengthen current law to cut down on the unlawful buying and selling of human beings for profit. I'm very pleased that the house was able to come together to address this fundamental issue of human rights.

Finally, I want to give my warmest thanks to all of those who have so strongly supported re-authorization of the Violence Against Women Act, which I cosponsor. In my home state of Missouri, one out of every two women who seek a domestic violence shelter are turned away at the door because there simply is not enough room. These women are turned away from shelter with no option but to go back to their abuser. Mr. Speaker, this is a tragedy. In terms of legislation that affects real people's lives, I can think of none which is more important. Passage of this bill ensures that women will continue to have access to the important basic services, which have helped so many escape their situations. Continued authorization of this program says to women in America that there is a better tomorrow and that we are dedicated to helping you find it.

I am pleased, Mr. Speaker, that these two important pieces of legislation passed overwhelmingly here today.

RECOGNIZING REVEREND CRAIG B. GADDY, SR.

HON. EDOLPHUS TOWNS

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Friday, October 6, 2000

Mr. TOWNS. Mr. Speaker, I rise today to honor Reverend Craig B. Gaddy, Sr., of the Friendship Baptist Church in Brooklyn, New York.

I honor Reverend Gaddy today in celebration of his first anniversary as Pastor of the Friendship Baptist Church. Mr. Speaker, Reverend Gaddy is deserving of our praise because he has served as a pillar of our community, having devoted his life to serving the needs of others.

He is the son of Sister Lucille A. Gaddy, who he describes as ''my rock, my sword and shield.'' Reverend Gaddy is also the proud father of Nyesha J. Gaddy, and Craig Jr. He is the brother of Eric, James, Michael, Debra, David Jr., Tracey, Tyrone, Michelle, Tonya, Pamela and Theresa. Mr. Speaker, the entire Gaddy family has been blessed with excellence, greatness, the favor of God, love and honor, the law of kindness in tongue, morality and character. All of these amazing attributes are the result of a God-centered life.

Under the watchful eye of the late Reverend Dr. D. W. Batts, Reverend Gaddy received his license to preach the gospel in 1982 at the Greater Free Gift Baptist Church. In 1986 he received his ordination proper by Dr. Batts and the Eastern Baptist Association. In 1989 he was assigned to the Southern Baptist Church in New York City under the pastorate of the Reverend Eugene King, where he served as youth minister. In 1997, he was elected Assistant Pastor at the Southern Baptist Church where he served faithfully until 1999.

On June 26, 1999, Reverend Gaddy was called to pastor the Friendship Baptist Church. There, he continued in the footsteps of a truly

great pastor, the late Reverend Dr. U.B. Whitfield. Reverend Gaddy serves with the National Baptist Association, the Empire State Association, the Eastern Baptist Association, and the NAACP.

Mr. Speaker, Reverend Craig Gaddy, Sr. is more than worthy of receiving this honor, and I hope that all of my colleagues will join me today in recognizing this truly remarkable man.

GILMAN ENDORSES LAZIO RESOLUTION DEMANDING THAT PALESTINIAN VIOLENCE END, H. CON. RES. 418

HON. BENJAMIN A. GILMAN

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Friday, October 6, 2000

Mr. GILMAN. Mr. Speaker, I wish to take this opportunity to urge my colleagues to join me in cosponsoring a timely resolution sponsored by our colleague from New York, Mr. LAZIO. H. Con. Res. 418 expresses the sense of the Congress regarding the current level of violence between the Israelis and the Palestinians. The bill responds to this most serious of Palestinian violations of the Oslo process by condemning the violence, and demands that Palestinian Authority Chairman Yasser Arafat make a public appeal on Palestinian television for an end to these destructive acts. However, the fact that he has not yet done so speaks volumes about Chairman Arafat's true intentions.

The United States has consistently supported a peaceful resolution of the Arab-Israeli conflict, but this latest outburst is the worst we have seen in years. There is clear evidence that the violence was pre-meditated and coordinated by Yasser Arafat's Palestinian Authority. It seems to me that there can be no more flagrant disavowal of the Oslo process than this instigation of violence, because the very foundation of the Accords that were signed by the Israelis and Palestinians since 1993 underscores that the only avenue for the resolution of differences is negotiation, not confrontation.

H. Con. Res. 418 urges the President to use all of the diplomatic means available to our government to seek and end to the violence and return the Palestinians to the negotiating table. It expresses congressional support for the Israeli government's efforts to bring this current round of violence to a peaceful conclusion, since the current Israeli government has made it patently clear that it is prepared to make historic compromises for the sake of peace. We need now to determine whether Yasser Arafat, representing the Palestinian people, feels the same way.

H. Con. Res. 418 also urges this Administration to oppose any anti-Israel efforts at the United Nations, including the establishment of an international commission of inquiry; and puts Yasser Arafat and the Palestinians on notice that their response to this escalation of violence affects their future relations with the United States.

Accordingly, I ask that a copy of the measure be printed at this point in the CONGRESSIONAL RECORD for our colleagues' review, and urge them to contact Rep. LAZIO's office at their earliest opportunity to cosponsor this important resolution.

H. CON. RES. 418

IN THE HOUSE OF REPRESENTATIVES

Mr. LAZIO (for himself, Mr. GILMAN, and Mr. REYNOLDS) submitted the following concurrent resolution; which was referred to the Committee on International Relations.

CONCURRENT RESOLUTION

Expressing the sense of the Congress regarding the current level of violence between the Israelis and the Palestinians.

Whereas the United States has consistently supported the peaceful resolution of the Arab-Israeli conflict;

Whereas the current level of violence between the Israelis and the Palestinians is the worst in years;

Whereas the current round of violence comes at a time when the Israeli Government is prepared to make historic compromises towards peace;

Whereas there is clear evidence that this violence was a pre-meditated and coordinated action by the Palestinian Authority;

Whereas the active participation of armed uniformed Palestinian police in attacks against Israelis is an indication of the unwillingness of the Palestinian Authority to work towards a halt to this violence;

Whereas the Palestinian Authority's encouragement of violence is a violation of the underlying basis on which the entire Oslo peace process has been built, particularly the incitement by Palestinian television;

Whereas the Palestinians are mounting a concerted international campaign to justify the violence by blaming Israel; and

Whereas the Palestinian renunciation of violence in the Oslo peace process does not provide any basis for the justification of the resumption of violence: Now, therefore, be it

Resolved by the House of Representatives (the Senate concurring), That the Congress—

(1) condemns, in the strongest possible terms, statements and actions by Palestinians designed to inflame and encourage violence;

(2) demands that Palestinian Authority Chairman Yasser Arafat make a public appeal on Palestinian television for the public to cease further acts of violence;

(3) urges the President to use all of the diplomatic means available to the United States Government to seek an end to the violence and return the Palestinians to the negotiating table;

(4) strongly supports actions by the Israeli Government designed to bring this current round of violence to a peaceful conclusion;

(5) urges the Administration to oppose—

(A) any United Nations effort to put forward one-sided anti-Israel resolutions or statements; and

(B) the establishment of any international commission of inquiry; and

(6) will consider the response of Palestinians to the escalation of violence in their future relations with the United States.

THE BROWARD COUNTY SCHOOLS PROFESSIONAL DEVELOPMENT AWARD

HON. PETER DEUTSCH

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Friday, October 6, 2000

Mr. DEUTSCH. Mr. Speaker, I rise today to recognize the commendable achievement of the Broward County Public School District of Fort Lauderdale, Florida. The Broward County Schools, which I am proud to represent, is one of only seven school districts in the country to be recognized by the United States Department of Education National Awards Program for Model Professional Development. Indeed, the remarkable efforts of the teachers, professional staff, and administrators of this, the nation's largest fully accredited public school district are fully deserving of this recognition.

Professional development for teachers—learning experiences which increase teachers' knowledge base and classroom skills—is a crucial ingredient to improving public education in America. The National Awards Program for Model Professional Development rewards and honors outstanding professional development programs and showcases effective professional development practices to help schools to learn from each other.

In establishing its professional development program called ''Professional Pathways,'' the Broward County School District sought to meet the unique needs of its diverse multi-cultural population. Because of the complex demographic characteristics of the district's student population which represent 159 countries and speak 53 languages, the program had to achieve ambitious goals. High standards were set and professional accountability was demanded. Accordingly, Professional Pathways requires all professionals to write annual professional development goals that are aligned with the school's improvement plan and to provide the district with annual program reviews. Professional development opportunities for staff members include individual training school-based activities, and certain district mandated training. Moreover, Professional Pathways ensures that staff development is long-term, based on research, relates to school improvement, and addresses both student and teacher needs.

As a result of this ongoing initiative, since 1996, state writing assessment scores have increased in elementary grades and state mathematics assessment scores have increased in all levels, K-12. In addition, the district's average Scholastic Achievement Test scores and average American College Test scores have increased since 1997. Advanced Placement Test results indicate that the average score of district students increased 4.6 points over the previous year, compared to the statewide increase of 1.7 points.

Mr. Speaker, let me again congratulate and commend the instructional and professional staff of the Broward County Public School District for their exemplary achievement in enhancing the effectiveness and success of public education in the state of Florida. The vision and innovation illustrated in developing the Professional Pathways program by the Broward County School District serves as a wonderful example of quality teaching and learning in public education in Florida and the United States as a whole.

CONGRATULATING THE VILLAGE OF BELLWOOD, ILLINOIS 100TH ANNIVERSARY

HON. DANNY K. DAVIS

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Friday, October 6, 2000

Mr. DAVIS of Illinois. Mr. Speaker, I take this opportunity to congratulate the village of Bellwood, Illinois as it winds down the celebration of its centennial existence, from a dream to more than 100 years of community life.

Bellwood was incorporated as a village more than 100 years ago and came up with a unique way of paying special tribute to its people. In addition to fun events, ceremonies and activities, the village decided to bestow medals upon 100 individuals who were nominated for acts of kindness.

I, Mr. Speaker, was nominated and presented with one of these and must confess that I have never felt more honored. But even more than that, it is indeed an honor to represent a community which pays close attention to its schools, parks, playgrounds and other recreational and developmental opportunities for its children.

It is indeed an honor to represent a community which values its senior population, is noted for its city services, has fire and police departments who serve and protect, who prevent fires and keep down crime, and it is an honor to represent a community which is proud of diversity and respects all of its people. It is an honor to represent a community where corporate/business citizenship is encouraged and where people seem to feel good about each other.

Therefore, Mr. Speaker, I take my hat off to the people of Bellwood and commend: President Donald Lemm, Clerk Booker T. Brown, Trustee Jann Beauchamp, Trustee Woodrow Broaders, Trustee Michael Rogers, Trustee Joyce Ann Porter, Trustee Art Grapenthien, Trustee Frank E. Hasman, and Trustee Frank A. Pasquale.

Library Trustee Gail Archibald, Library Trustee Arnie F. Bryant, Library Trustee Alice English, Library Trustee Carolyn Griffin, Library Trustee Mary Ann Grunder, Library Trustee Anthony Howard, and Library Trustee John Johnson, Jr.

Memorial Park District: Commissioner Patrick Hurley, Commissioner John Johnson, Commissioner Victor Lezza, Jr., Commissioner Frank A. Pasquale, and Commissioner Ralph Sartore.

School District 88: Ms. Marilyn Thurman, President; Ms. Linda Morgan-Jones, Vice-President; Ms. Roxanne A. Brown, Secretary; Ms. Gloria M. Blackwell, Mr. Willis J. Booker, Jr., Mrs. Barbara J. Griffin, and Mrs. Sandra M. Hixson.

School District 209: Ms. Imoni Baxter, Mrs. Sandra Collins, Secretary, Mr. Patrick ''Chico'' Hernandez, Mrs. Theresa L. Kelly, Mr. Richard G. Klaczynski, Mr. Michael A. Manzo, President, Mr. Robert J. Smith, and Mr. Gregory T. Jackson, Superintendent.

I also pay tribute to police chief Greg Moore, fire chief Andre Harvey, and all of those who work to make Bellwood the delightful city that it is.

Congratulations on 100 years of tremendous existence and I trust that Bellwood will be standing for at least 100 more.

ACCOMPLISHMENTS OF THE SUBCOMMITTEE ON BASIC RESEARCH

HON. NICK SMITH

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Friday, October 6, 2000

Mr. SMITH of Michigan. Mr. Speaker, I would like to take this opportunity to talk a little bit about our work in the Subcommittee on Basic Research, a subcommittee I am honored to Chair. This Subcommittee has had a busy and productive two years. In the 106th Congress, we have held a total of 25 oversight hearings, field briefings, and mark-ups on a range of important and timely issues. In addition, we have passed through the House two bills authorizing fire and earthquake programs under this Subcommittee's jurisdiction, and these may yet be passed into law in the final days of the session.

I believe the work we do in this Subcommittee truly is unique. In our hearings on information technology, nanotechnology, education research, plant genomics, and biotechnology, for example, we have been able to glimpse the future. And through our oversight and our authorization bills, I hope that we are able to help shape that future, as well. I am proud of our record of collegiality and bipartisanship on the Subcommittee, and I look forward to continuing that tradition in the next Congress.

I would also like to this opportunity to thank the staff of the Subcommittee, who work behind the scenes to get things done. Stephen Eule, Peter Harsha, Mark Harrington, Sharon Hayes, and Steve Howell have made my job easier, and I thank them for all their good ideas and hard work. I congratulate all the members of the Subcommittee especially Ranking Member EDDIE BERNICE JOHNSON and her chief of staff Jim Wilsort.

COMMEMORATING THE 89TH ANNIVERSARY CELEBRATION OF THE NATIONAL DAY OF THE REPUBLIC OF CHINA

HON. NANCY PELOSI

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Friday, October 6, 2000

Ms. PELOSI. Mr. Speaker, I rise to honor the National Day of the Republic of China, known as the ''Double Tenth'' celebration of freedom. This day is being commemorated in San Francisco with a grand celebration befitting the importance of this National Day.

The people of the United States have a strong bond with and commitment to the people of the Republic of China. With the historic election they held this year, the people of Taiwan have demonstrated to the world their dedication to democracy. The Republic of China continues to be a prosperous nation characterized by strong economic growth and respect for basic human rights and democratic freedoms. The Republic of China is an important economic, cultural and strategic partner of the United States, and their celebration is our celebration.

I am blessed in my district with so many Asian-Americans, including many from Taiwan, who make wonderful contributions to our City and its civic life. It is my privilege to congratulate the people of Taiwan as they commemorate the ''Double Tenth'' festival of freedom. I am proud to voice the support and best wishes of the Republic of China's many friends in Congress.

RECOGNIZING EAGLE SCOUT EDGAR JAMES III

HON. EDOLPHUS TOWNS

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Friday, October 6, 2000

Mr. TOWNS. Mr. Speaker, I rise today to honor Eagle Scout Edgar James III.

Edgar James, III began scouting at the age of seven in 1992 as a Cub Scout with Pack 263, Stuyford District, Brooklyn, New York. As a Cub Scout, he learned the basics of Scouting, and as a Webelos, he prepared himself to become a Boy Scout. In May 1995, Edgar earned Cub Scout's highest award, the Arrow of Light.

Edgar was selected by his peers as a candidate for the Order of the Arrow, Honor Campers. He successfully completed the Ordeal and was inducted into the Order of the Arrow, Shu-Shu-Gah Lodge #24, in 1997.

Through tenacity, determination and hard work, Edgar progressed consistently through the ranks from tenderfoot in 1995 to his Eagle Award on July 27, 1999. Along the trail to Eagle, Edgar has served in several leadership positions including Assistant Patrol Leader, Patrol Leader and, currently, Assistant Senior Patrol Leader.

Edgar completed his Eagle service project with Outstanding Renewal Enterprises, Inc., in Manhattan. His goal was to encourage others while learning about environmentally sound management of New York City's Solid waste. Recycling and composting methods were used to inspire New York City residents to take responsibility for their environment in order to make the city a cleaner and greener place in which to live.

Edgar is a junior attending Midwood High School at Brooklyn College where he is in the Medical Science program and played the trumpet in the Marching Band. He was selected to participate in the Intel Corporation Social Science Research Program, representing Midwood High School. Edgar is a member of St. Paul Community Baptist Church in Brooklyn, New York. His future plans include a career in either medicine or law or, hopefully, to combine both and become a sports agent.

Mr. Speaker, Edgar is one of tomorrow's leaders, and I encourage my colleague to join me in honoring him today.

RECOGNIZING DOCTORS FRANK AND ANITA RICHELIEU UPON THEIR RETIREMENT

HON. STEVEN T. KUYKENDALL

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Friday, October 6, 2000

Mr. KUYKENDALL. Mr. Speaker, I rise today to recognize two remarkable individuals from my district. For nearly 40 years, Dr. Frank Richelieu and is wife Dr. Anita Richelieu have served the people of Redondo Beach.

In 1962, the Richelieus moved to Redondo Beach to work at the Church of Religious Science. It was under their leadership and guidance that the parish grew from just over 150 members to a congregation of well over a thousand worshipers.

Under the Richelieus' leadership, the Church of Religious Science has been actively involved in many charitable organizations and outreach programs. The Richelieus also sit on numerous community boards. Their commitment to improving our community is unparalleled.

Dr. Frank Richelieu and his wife Dr. Anita Richelieu are beloved members of the community and will be dearly missed. They have touched the lives of many during their years at the Church of Religious Science. I congratulate them on their retirement. Thank you for your valuable contributions to the South Bay.

HONORING THE LATE LENA HOFFMAN OF COLLINSVILLE, ILLINOIS

HON. JOHN SHIMKUS

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Friday, October 6, 2000

Mr. SHIMKUS. Mr. Speaker, today I honor Ms. Lena Hoffman of my hometown of Collinsville, Illinois. Ms. Hoffman passed away on October 1, 2000, three days before her 104th birthday.

Several weeks before her passing, her family asked me to share my thoughts and congratulations with Lena for her birthday milestone. I was excited to be a part of the celebration of one of the town's oldest citizens. Everyone was looking forward to the big day. As her family was coming together to celebrate her birthday, they found out that they would be gathering to mourn her death and celebrate her rich life.

Lena was not rich in material wealth, but rather, rich in spirit. That rich spirit lived in the beautiful garden she cultivated, in the quilting society she belonged to, and in the molasses cookies and breads she bake. Her rich spirit lives in her four daughters, her 31 grandchildren, in 50 great-grandchildren, in 38 great-great grandchildren and 10 great-great-great grandchildren.

Many people in Washington speak of legacies, I am not sure of too many people who can hold a candle to Lena Hoffman's legacy—a close, loving family—five generations strong. We should all be so lucky to have such a rich and full life.

Hermann Broch once wrote that, ''No one's death comes to pass without making some impression, and those close to the deceased inherit part of the liberated soul and become richer in their humanness.'' In her 103 years, Lena touched many lives. She will be truly missed, but her legacy will live on.

TRIBUTE TO THE LATE DuSABLE MUSEUM CURATOR RAMON PRICE

HON. DANNY K. DAVIS

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Friday, October 6, 2000

Mr. DAVIS of Illinois. Mr. Speaker, Ramon Price spent his entire life pursuing goodness, helping others and being involved with art and artistic endeavors.

Mr. Price was the half brother of Chicago's first African American mayor, the Honorable Harold Washington and while Ramon was not overly drawn to electoral politics, he did organize artists for Washington and kept the artistic community actively engaged in fundraising and other support activity for the Washington political apparatus. Mr. Price was inspired by his high school art teacher, Dr. Margaret Burroughs who founded the DuSable Museum and the two of them became friends and worked together in developing the museum until his death.

In addition to his work with the DuSable Museum, Mr. Price who earned both bachelor and masters degrees taught at DuSable High School, was department chair and taught at Indiana University. He was also a painter and sculptor whose work is on display at DuSable, other museums and galleries.

A gentle soul who loved his community and his people. May his soul rest in peace.

IN SPECIAL RECOGNITION OF TIFFANY DRAIN ON WINNING THE PLEDGE OF ALLEGIANCE NATIONAL ESSAY CONTEST

HON. PAUL E. GILLMOR

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Friday, October 6, 2000

Mr. GILLMOR. Mr. Speaker, today I pay special tribute to an outstanding young lady from Ohio's Fifth Congressional District. I am happy to announce that Tiffany Drain, a seventh grader at Liberty Center High School in Liberty Center, Ohio, is the winner of the ''What the Pledge of Allegiance Means to Me,'' national essay contest.

Tiffany first submitted her essay at the district level to Local Elks Lodge #929 in Napoleon, Ohio, The lodge was the primary local sponsor of the essay contest open to all sixth graders across America. She would later go on to win at the state and national levels. Since then Tiffany has presented her essay at a number of local events, including the McClure Radish Festival in McClure, Ohio, and the Annual Tomato Parade at the Huron County Fair in Napoleon, Ohio. Tiffany most recently recited her national winning essay before the Ohio General Assembly, receiving a standing ovation from Ohio State Representatives and Senators alike.

The following are Tiffany's few but powerful words: ''From Alabama to Michigan, California to Maine we are all taught the same thirty two words of the Pledge of Allegiance. As I hold my hand over my heart to recite these words as done so many times before, I think of peace and freedom. In these fifteen seconds we, as a nation, can stand next to each other without regard to the color of each others skin, without hatred towards each other, and become joined as one in unison. For fifteen seconds we are free from hatred, free from racism, and free from violence. From a Harvard College Professor to a St. Augustine first grader we can stand next to each other and know the same thirty-two words. As we face our flag with our hands over our hearts a hush overcomes all the noise and for fifteen seconds we have absolute peace in our nation.''

As we turn the nation over to our youth, my confidence and optimism has been reinforced for the preservation and future of our great nation through the accomplishments of students like Tiffany. She serves as an example to us all.

Mr. Speaker, I would ask my colleagues to join me in paying special tribute to Tiffany Drain. We should all be grateful to her. Tiffany has reminded us that when we stand and pledge allegiance to the United States of America, that we not only stand for our flag, our freedom, and our allegiance to our great country, but that we stand as a nation, together.

RECOGNIZING THE REPUBLIC OF CHINA'S NATIONAL DAY

HON. JOE SCARBOROUGH

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Friday, October 6, 2000

Mr. SCARBOROUGH. Mr. Speaker, in honor of the Republic of China's 89th National Day next Tuesday, October 10, 2000, I wish to salute Taiwan President Chen Shui-bian and the Taiwanese people for their many economic and political accomplishments.

Even though Taiwan is a small island nation with few natural resources, it has prospered. With one of the world's largest foreign exchange reserves, its 23 million people enjoy one of the highest standards of living in the world. Politically, Taiwan is a full democracy, with a multi-party system, free elections, and a free press. Taiwan fully embraces the values of economic liberalization, democracy, rule of law, and respect for human rights.

For these reasons, I commend Taiwan, our friend and partner in Asia. Congratulations and best wishes as you celebrate your National Day.

SENATE—*Tuesday, October 10, 2000*

(Legislative day of Friday, September 22, 2000)

The Senate met at 2:02 p.m., on the expiration of the recess, and was called to order by the President pro tempore [Mr. THURMOND].

PRAYER

The Chaplain, Dr. Lloyd John Ogilvie, offered the following prayer:

Gracious God, these days in the Senate are filled with crucial issues, differences on solutions, and vital votes on legislation. We begin this day with a question that You asked King Solomon, ''Ask. What shall I give you?'' We empathize with Solomon's answer. He asked for an ''understanding heart.'' We are moved with the more precise Hebrew translation of an ''understanding heart,'' meaning a ''hearing heart.''

Solomon wanted to hear a word from You for the perplexities that he faced. He longed for the gift of wisdom so that he could have answers and directions for his people. We are inspired by Your response: ''See, I have given you a wise and listening heart.''

I pray for nothing less as You answer this urgent prayer for the women and men of this Senate. Help them to listen to Your guidance and grant them wisdom for their debates and decisions. All through our history as a nation You have made good men and women great when they humbled themselves, confessed their need for Your wisdom, and listened intently to You. Speak Lord; we need to hear Your voice in the cacophony of other voices. We are listening. You are our Lord and Saviour. Amen.

PLEDGE OF ALLEGIANCE

The Honorable GEORGE VOINOVICH, a Senator from the State of Ohio, led the Pledge of Allegiance, as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

RECOGNITION OF THE ACTING MAJORITY LEADER

The PRESIDENT pro tempore. The acting majority leader is recognized.

SCHEDULE

Mr. VOINOVICH. Mr. President, today the Senate will be in a period of morning business until 4 p.m. with Senators DURBIN and THOMAS in control of the time. Following morning business, the Senate is expected to consider the VA–HUD appropriations bill. It is hoped that legislation can be completed in short order and without a rollcall vote. However, if a rollcall vote is requested, the vote will occur tomorrow at a time to be determined.

On Wednesday, there will be up to 7 hours of debate on the conference report to accompany the sex trafficking victims bill. Senator THOMPSON will make a point of order against the report, and a vote is expected relative to appealing the ruling of the Chair. Senators can also expect a vote on the adoption of the sex trafficking conference report. The Senate may also begin consideration of the Agriculture appropriations conference report during tomorrow's session.

I thank my colleagues for their attention.

RESERVATION OF LEADER TIME

The PRESIDING OFFICER (Mr. VOINOVICH). Under the previous order, the time of the leaders is reserved.

MORNING BUSINESS

The PRESIDING OFFICER. Under the previous order, the Senate will now be in a period of morning business for 2 hours.

CONGRESSMAN BRUCE VENTO

Mr. REID. Mr. President, I was just informed by the Sergeant at Arms that BRUCE VENTO, a Member of the House of Representatives, died today, just a short time ago.

I served in the House with BRUCE. After I left the House, I saw him virtually every day; he and I worked out in the House gym every morning. He was very faithful. We had a very warm relationship.

When I served in the House, I can remember one of the first conversations we had was about a national park in Nevada. I had never contemplated a national park in Nevada. We did not have one. I, frankly, did not know the history of Nevada as it related to the area around Mt. Wheeler. I did not realize that Key Pittman, a longtime Senator from Nevada, had sent President Reagan's Director of the Park Service, William Penn Mott, there when he was a park ranger in the 1930s to find a site in Nevada for a national park, and this is the spot that he found and gave this information to President Roosevelt.

Over the years, many political battles ensued and the park never came into being. I did some wilderness legislation for Nevada. It was extremely controversial. But based on my conversations with BRUCE VENTO, I decided to peel off some of what we were doing in wilderness and go for a national park. It was one of the best things I ever did; we now have a national park in Nevada, Great Basin National Park, which is really a world wonder. It has a mountain peak over 13,000 feet high; it has Nevada's only glacier; it has the oldest living thing in the world, the bristlecone pine—over 5,000 years old. They were there before Christ came to Earth; they were there during the time the pyramids were built. In addition, Lehman Caves is located inside the park boundary.

Without talking more about the park itself, just the inception of that idea came to me as a result of a conversation I had with BRUCE VENTO as a new Member of the House of Representatives. He was very interested in things related to the environment.

BRUCE VENTO being dead now is hard to contemplate because he worked so hard on his physical body. A few years ago, while here at his home in Washington, he fell off the roof while doing some work and was broken up very badly. But it only kept him from his gym work for a short period of time, even though he had broken bones.

BRUCE VENTO died as a result of asbestosis which he contracted as a young man while working with asbestos. Out of nowhere he developed a lung problem. Last year he had a lung removed. They were hoping that they got it. They didn't. And a few weeks ago it was announced they did not. I am sure his family and those close to him knew that his life was not going to be long, but I didn't know.

I am really saddened at the death of BRUCE VENTO. He is somebody who I will always remember. I will always remember him for his smile and his love for the environment and, on a personal basis, for what he did to quicken my mind about the possibility of having a national park in Nevada.

Our country is less today than it was yesterday as a result of the passing of BRUCE VENTO. I expressed to his family the great affection that I and many Members, those who work with me in the Congress, have for BRUCE. I wish them, no I don't wish them—I give them the knowledge that the passage of time will lessen the anguish they now feel. Hopefully, as the months pass by, only memories of their love and loss will be in their minds, and not the

fact of their loss; the fact of the many things he contributed to this country will be paramount in their minds.

The PRESIDING OFFICER. The Senator from Florida.

Mr. GRAHAM. Mr. President, I heard the remarks of our colleague from Nevada about our good friend, BRUCE VENTO. I also express my deepest sympathies to his family at their loss. It is a loss to them and it is a loss to America. BRUCE VENTO was a man who educated many of us, including myself, as to the great value of our national parks; that in many ways they are the repositories of America's dream, of what kind of a country we were and what kind of an America we wish to leave for future generations.

I had the opportunity to talk to Congressman VENTO just a few weeks ago on behalf of a national park that I feel very deeply about, Everglades National Park. As always, he was extremely solicitous of information and forthcoming in his willingness to be of assistance.

I am saddened today at the news of BRUCE VENTO's passing. America, and particularly our great natural treasures, have lost a tremendous friend and articulate advocate on their behalf.

THE BUDGETING PROCESS

Mr. GRAHAM. Mr. President, I come this afternoon to the floor for two reasons. The first is to express my general dismay at the status of the budgeting process for this year. Second is to give a specific example of how this process has resulted in a program—which was clearly outlined and approved by Congress and signed into law by the President as the Equity Transportation Act for the 21st Century, generally referred to as TEA–21—has been convoluted.

Let me first talk about the general budgeting process for this year. We are now 10 days into the new fiscal year, and substantial parts of our budget have yet to be enacted and sent to the President for his consideration. Even more dismaying than that is what is in the budgets that we have passed and sent to the President. I use, as example, No. 1, the most recent budget this Senate has acted upon when, last Friday, we passed the Transportation appropriations conference committee report.

First, the process. I was very interested in this bill, as will become apparent as I move to point No. 2 of my remarks. Yet it was not available until Friday morning, the same morning that we were called to vote upon this very complex bill which will allocate some $58 billion of our National Treasury. Even today, specific details are yet to be discerned. So we are operating as alleged pilots of the national fiscal trust through dark clouds and fog and driving rain, unaware of where we are or where we have gone.

I am also very concerned about the specific numbers in this legislation. I know this has been an issue of great concern to our Presiding Officer, who has, in his period in the Senate, distinguished himself as one who is very concerned about our fiscal discipline.

For the fiscal year 2000, which ended September 30, we had a Transportation appropriations amount of $50.7 billion. That is what we spent over the preceding 12 months. We have been operating under a budget resolution which, because of its own complexities, is difficult to align precisely with one of the specific appropriations bills, but we have had a general philosophy that the appropriations for fiscal year 2001 should not grow at a rate greater than the rate of inflation. According to the Consumer Price Index for the period July 1999 to July 2000, the rate of inflation for the United States was 3.5 percent.

If you add 3.5 percent to last year's Transportation appropriations, you would add, in rounded numbers, $1.775 billion for a total of $52.475 billion. That would have been the goal, the destination, the ceiling for spending under this Transportation account using the principle that the budget should be restrained to the rate of inflation.

The administration submitted a budget for this account that was $54.6 billion. The Senate passed a Transportation bill which was $54.8 billion.

But when the bill came back from the conference committee with the House, the total amount of the bill that we voted on favorably last Friday was $58 billion, a 14-percent growth over the expenditure on the same account for the previous fiscal year. That is a staggering increase, and it is an increase which puts at risk many of the things upon which the political campaigns of the fall of 2000 have focused their attention: How are we going to spend the non-Social Security surplus? How will we utilize the $2.2 trillion that is projected to come into the National Treasury over the next 10 years? I underscore that the $2.2 trillion is on the assumption that we will hold spending for this 10-year period to the rate of inflation. That rate was 3½ percent. Yet in this one budget we have spent 14 percent.

If this budget were to be the standard by which we operated—this budget represents about 8 percent of the total discretionary spending of the United States. If we exceed every budget by the same amount that we have done with this one budget of Transportation, we will diminish that non-Social Security surplus in the range of 35 to 40 percent. This is serious business because we are making representations to the American people that we are going to protect that surplus; that we are going to use it either for targeted tax cuts, to use it to build up our Social Security and Medicare program, and finance a prescription drug benefit or for large-scale tax cuts.

We are about to make all of those options unattainable if we do not exercise a greater degree of discipline over our spending this year and set the standard for what the spending will be over the next 9 years of this decade.

I first raise the alarm as to the process and the consequences of the budgets with which we are dealing as we conclude this session of Congress and lay out the fiscal plan for the Federal Government for the year 2001.

The second reason for my being here this afternoon is to bring to the attention of the Senate and the American people what we have done to one of the most innovative aspects of the Transportation Equity Act for the 21st Century, TEA–21.

In March of 1998, Congress overwhelmingly approved this groundbreaking transportation legislation to revamp the distribution of Federal highway funds. That legislation established, among other things, the intelligent transportation system, or ITS program, which sets aside money for research, development, and deployment of the components of an intelligent transportation system. The goal: to establish a sound policy for dealing with traffic congestion in the new millennium. The ITS program will work to solve congestion and safety, improve operating efficiencies in transit and commercial vehicles, and reduce the environmental impact of the growing travel demand.

The intelligent transportation systems use things such as modern computers, management techniques, and information technologies to improve the flow of traffic. ITS applications range from electronic highway signs that direct drivers away from accidents or other sources of congestion on the highways, to advanced radio advisories, to more efficient public transit.

Congress has sought to reward States that develop an intelligent transportation system. Demand for roads is increasing, particularly in the most populous and fastest growing areas of our country. Business commutes are getting longer, leisure travel options are becoming wider. States were encouraged to make use of advanced communications technology to ease gridlock.

This plan, developed by the Environment and Public Works Committee, where our Presiding Officer serves as chair of the subcommittee that has responsibility for this very legislation, was thoughtful and the plan had a specific purpose in mind: to foster the growth of intelligent transportation systems and, in a scientific manner, to gather results from the new ITS programs so that we could make wise decisions about the future direction of ITS when the next transportation bill is authorized in approximately 2003.

I am sad to report that this plan has come undone through the appropriations process. Allow me to explain how this has happened.

The Texas Transportation Institute at Texas A&M University, in conjunction with many State departments of transportation, conducts a periodic study of the traffic conditions in our Nation. The latest annual mobility report produced in 1999 ranked the 70 most congested urban areas, cities, and small towns in America. It would seem reasonable, it would make common sense that those cities with the worst traffic congestion would receive Federal funds to implement, improve, or expand their intelligent transportation system. Indeed, the creators of the intelligent transportation system program in TEA–21 meant it to work that way. The law says that ITS projects must be selected through competitive solicitation and meet certain detailed criteria for program funding dollars.

I will read a few excerpts from that law. The authors set out the gathering of effective data as a goal in TEA–21:

To assure that Federal, State, and local transportation officials have adequate knowledge of intelligent transportation systems for full consideration in the transportation planning process.

To me, that means we need to be able to offer to Federal, State, and local transportation officials accurate and scientific data on ITS. The authors of the Transportation Equity Act for the 21st Century spelled it out more precisely when they said:

The Secretary shall select for funding through competitive solicitations projects that will serve as models to improve transportation efficiency, promote safety. . . .

And for other reasons listed in the statute.

Unfortunately, the intent of the legislation has not followed. It was not followed first in the fiscal year 2000. Of the total $221 million made available in the fiscal year 2000, the year that ended September 30 of this year, all but about 10 percent of that $211 million was earmarked. For those who are not familiar with the jargon of the Congress, ''earmarked'' means there was a total amount of money available for a particular objective, in this case to fund the intelligent transportation systems, which, according to statute, was to be allocated based on competition. Of that $211 million, 90 percent of it had a specific designation to a particular State or community within the United States.

According to the Texas report, the 15 most congested cities in the United States as of 1999 were: Los Angeles, Seattle, San Francisco, Washington, DC, Chicago, Miami, Atlanta, Boston, Detroit, San Diego, Houston, New York City, Portland, and San Jose.

Mr. President, would you be surprised, would you be stunned and appalled, if I were to tell you that in the fiscal year 2000, none of those 15 cities received any of the intelligent transportation system money? The 15 most congested cities in America, according to the national survey upon which we rely, were allocated a penny for ITS money.

Of the other most congested cities highlighted in the Texas transportation study, only five received funds, while a sixth city probably will receive funds from an overall earmark to the State in which it was located. Those funds, for the five cities and the one State, totaled only $7 million or 3 percent of the total ITS appropriation of $211 million.

We have 75 of the most congested cities in America, cities in urban areas and smaller communities getting 3 percent of the money to assist them, through intelligent transportation systems technologies, in improving their traffic congestion. I was so offended by that that I, on September 15 of this year, wrote a letter to the Transportation appropriations conferees urging them, for the year 2001, which began October 1 of this year, not to repeat the mistake made in the previous year.

Mr. President, I ask unanimous consent that this letter be printed in the RECORD immediately after my remarks.

The PRESIDING OFFICER. Without objection, it is so ordered.

(See exhibit 1.)

Mr. GRAHAM. Mr. President, I quote the concluding paragraph of the letter, which states:

I encourage you to adhere to the design created by TEA–21. The Congress has the opportunity, through ITS and other programs, to strengthen our national transportation infrastructure in a cost-effective, efficient manner. We undermine those efforts if we don't follow the criteria established and passed by Congress in TEA–21.

So in that context, it was with dismay that last Friday morning, when I finally had an opportunity to look at the Transportation conference report, I realized that again we were committing the same mistake. For the second year in a row, none of the top 15 traffic-choked cities got funding for intelligent transportation system technology to assist them in alleviating their gridlock.

Taking the list even further, none of the top 20 most congested cities received intelligent transportation system funding. Those additional five cities included Denver, Phoenix, San Bernardino, Minneapolis-St. Paul, and Tacoma, WA. Those five cities are added to the 15 that I have previously read in the category of cities that are the most 20 congested cities in America, none of whom received any of the intelligent transportation system money. This suggests to me a total disconnect between the problem that led to the creation of ITS in the first place and the allocation of dollars by the appropriators.

In addition to that fundamental disconnect, I am also concerned that the amounts of money that have been earmarked appear to be nonscientific. If you look at the conference report, you will see round figures, such as $200,000, $500,000, $1 million, $2 million, and so forth. Such figures are unlikely to be to the real dollar amount needed to fund well-designed, specific projects.

Investment in intelligent transportation technology pays huge dividends, but it is expensive. As an example, on February 17 of this year, I did one of my monthly workdays with the evolving ITS technology in and around Orlando, FL. Orlando has the most advanced intelligent transportation system program in my State. The first phase of the Orlando system cost nearly $8 million. When complete, the Orlando ITS system will cost about $14 million. In these earmarks, I wonder whether such small sums, such round numbers, are actually calculated to reach the critical mass needed to get a project underway and completed. Small sums, distributed widely across the Nation, are not the most effective, efficient way to use these precious dollars to alleviate priority congestion concerns.

Lastly and possibly most crucially, we are missing a critical opportunity: the opportunity to gather data in a scientific, meaningful way about an evolving technology, a technology which has the potential to mitigate traffic congestion and make our highways safer.

Gathering this information is important because TEA–21 was the first surface transportation bill to focus to such an extent on intelligent transportation systems. The authors of TEA–21 wanted to push the envelope and emphasize the use of technology as a strategy to ease traffic gridlock.

In 2 or 3 years from now, when we are reauthorizing the next surface transportation bill, we will need to ask: Did these ITS programs work? If so, what are the key elements in their successes? Should we expand ITS as a strategy to reduce traffic congestion? If we do not use the resources that we have devoted to ITS in a prudent, rational, scientific way, will we have the experience and information necessary to answer those questions in an informed way?

The short answer to that is, no.

The 2-year history of ITS causes concern for other Senate action. We have just finished debate on the Interior appropriations bill, a thoughtful piece of legislation. The Conservation and Reinvestment Act, CARA, was sidetracked by that Interior appropriations bill and replaced with language which assures that the appropriators will control specific allocations. The CARA bill had a vision, a vision to provide the American people with a permanent, dedicated source of funding to invest in

our children's futures by preserving and protecting our natural resources—the very cause for which our departed friend, Congressman BRUCE VENTO, spent so much of his life and his congressional career.

This bill would have bolstered the Federal Government's relationship with our State governments by maintaining the Federal side of a respectful partnership, with the States to develop and support natural treasures, from urban parks and historic sites to the preservation of our coastal resources.

But instead of this carefully constructed program, which enjoyed widespread support, we were left with the following by the appropriations conference report. Quoting from that conference report for the Department of the Interior:

This program is not mandatory and does not guarantee annual appropriations.

Continuing to quote:

The House and Senate Committees on Appropriations have discretion in the amounts to be appropriated each year, subject to certain maximum amounts as described herein.

With that language, we have declared failure. We have failed to take advantage of our opportunity to enact landmark conservation legislation. We would be wildly optimistic to expect that the goals of the CARA legislation will be met.

With what we now see has happened to ITS, to intelligent transportation systems, what confidence can Americans have that the goal of protecting our natural resources will be met? What reason do we have to expect a different outcome, with the dream of sustained investment in protecting our natural resources, than the shredded results of reduced traffic congestion through intelligent transportation systems? The short answer is, none.

Returning to the Transportation appropriations bill, earmarks, in my view, are more acceptable in mature transportation programs than where we are attempting to learn about new technologies and policy approaches. We can and should address the needs of specific communities. ITS, however, is an evolving resource in transportation, and we should adhere to the intent of the law in seeking a competitive, scientific process to distribute these ITS funds.

This appropriations process, with respect to ITS, has foreclosed the valuable information which a rational distribution of funds would have given us.

In conclusion, I am concerned about the broad path upon which we are traveling as we conclude the consideration of the appropriations bill for fiscal year 2001. We are dramatically overspending the standard we set for ourselves just a few months ago. By that overspending, we are putting at risk the opportunity to use a significant Federal surplus for a variety of very beneficial purposes which will aid our people not only this year but for decades to come. And, within our appropriations, we are losing the opportunity to intelligently allocate funds against the targeted goals, such as the reduction of traffic congestion or the protection of our natural resources. Rather, we are succumbing to the temptation to earmark, to specify, based on considerations other than what is in a rational, long-term plan of prioritization of our Nation's needs.

We have but a few days left in this session, I hope. It would be my fondest expectation—or at least my optimistic dream—that we would use these few remaining days in a more constructive manner than has been demonstrated in the past few days, that we would use these to exercise principles of fiscal discipline and vision and the willingness to put aside our personal and parochial interests for what is in the broader national interest.

That is our challenge. That is what the American people expect of their elected representatives. It is a goal on which we have faltered in recent days. Let us use the remaining days to regain our solid fiscal footing.

EXHIBIT 1

UNITED STATES SENATE,
Washington, DC, September 15, 2000.

DEAR CONFEREE: I have been concerned about the distribution of Intelligent Transportation Systems (ITS) money in the Transportation Appropriation process.

The Environment and Public Works Committee designed TEA–21 so that ITS projects would be selected through competitive solicitation and meet certain detailed criteria. There was an overall plan: a portion of the money would specifically go to rural areas, and no state could receive more than $35 million per fiscal year. Other than that, the competitive process would be used to ensure the most efficient, effective use of the dollars. Essentially, the ITS theory is to make our highways, especially in high congestion areas, as efficient as possible, recognizing the tremendous costs of building additional lanes or other high capacity improvements. The intent is to make our existing highways serve to maximum capacity.

There are two major concerns about the current manner of distribution of ITS funds. First, the current earmarks appear to be allocated on a non-scientific, non-competitive basis. The Texas Transportation Institute in the Texas A&M University System is the organization that the U.S. Department of Transportation and the Congress look to for a professional assessment of highway congestion in our nation. Comparing recent appropriations bills with the institute's annual traffic congestion study show how far apart reality is from what is needed. For example, the ten most congested cities in the United States are: Los Angeles, Washington, DC, Miami, Chicago, San Francisco, Seattle, Detroit, Atlanta, San Diego and San Bernardino. Looking at the ITS FY01 earmarks, none of these most congested cities got funding for ITS technology to alleviate gridlock. Of the other 60 most-congested-cities featured in the study, only 5 receive funds, while a sixth city probably receives funds from an overall state earmark. These six funds total only $7,000,000 or 3% out of a total ITS appropriation of $211,200,000.

Second, the amount of money that has been earmarked appears to be non-scientific. They are round figures of $200,000, $500,000, $1,000,000, $2,000,000 and the like. Investment in intelligent transportation technology pays huge dividends, but it is expensive. We wonder whether such small sums, while helpful, actually reach the critical mass needed to get a project underway. Small sums, distributed widely across the nation, are not the most effective, efficient way to use these funds in alleviating priority congestion concerns.

This is important because TEA–21 was the first surface transportation bill to focus to such an extent on ITS. We wanted to push the envelope and emphasize the use of technology to ease traffic gridlock. In two to three years from now when we reauthorize the next surface transportation bill, we will need to ask: did these programs work? If we do not use the resources that we have devoted to ITS in a prudent, rational, scientific way, we will not have the experience and information necessary to answer that question in an informed way. Earmarks, in my view, are more acceptable in mature transportation programs. We can and should address the needs of specific communities. ITS, however, is an evolving resource in transportation, and we should adhere to the intent of the law in seeking a competitive, more scientific process to distribute ITS funds.

I encourage you to adhere to the design created by TEA–21. The Congress has the opportunity, through ITS and other programs, to strengthen our national transportation infrastructure in a cost-effective, efficient manner. We undermine those efforts if we don't follow the criteria established and passed by the Congress in TEA–21.

With kind regards,

Sincerely,

BOB GRAHAM,
U.S. Senator.

Mr. GRAHAM. I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. DORGAN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

UNFINISHED BUSINESS IN HEALTH CARE

Mr. DORGAN. Mr. President, we are nearing the end of the 106th Congress. No one is quite sure where the finish line is. My expectation is that within a week or two this Congress will be history.

Many will ask what this Congress did and what it did not do. There will be some people who will be joyous about its accomplishments and some who will be sorely disappointed over its failures. I think its accomplishments, however, will be a rather short list, and the areas where we could have and should have done better will represent a very long list. I rise to briefly discuss two of those areas before we near the end of the session.

I have spoken many times in the Senate about health care, and especially

the two issues this Congress has a responsibility to address. One issue is providing a prescription drug benefit to the Medicare program. We have talked about providing a prescription drug benefit to the Medicare program for some long while. We are near the end of this session, and it looks as though it will not get done. Why? Because some people don't want to do it well. Everybody here talks about wanting to do this, but somehow they are not willing to support a plan that really accomplishes it.

On the second issue, we are nearing the end of the legislative session and we are apparently not going to pass a Patients' Bill of Rights. The Patients' Bill of Rights has been an issue over which we have battled for 2 to 3 years, and it has been a tough battle. I don't think there ought to be room left for those who believe there is not a need for a Patients' Bill of Rights. All we have to do is look at the evidence. The evidence is overwhelming that we need to pass a real Patients' Bill of Rights. The House did it; we have not. This Senate has dug in its heels and has not moved on either of these issues.

I will talk first about the issue of a prescription drug benefit in the Medicare program. When the Medicare program was developed, many of the miracle drugs that now exist weren't available. People got old. They did what they were expected to when they got old. They retired and led a more sedentary life. Then something might happen to them. They would be hospitalized. They would stay for long periods in acute care beds in the hospital. It was very expensive. The kinds of prescription drugs that are available now were not available then.

So when Medicare was created, a prescription drug benefit was not made a part of the Medicare program. When Medicare was developed, that too was fairly controversial. In the early 1960s, a fair number of Members of this Senate said: No, we can't do that. We can't provide health insurance for older Americans. We oppose that. That is some sort of encroachment of government into our lives.

I wasn't here at the time of that debate. But when they had that debate, fully one-half of all senior citizens in this country had no health insurance coverage at all. Why? Because it was too expensive.

Insurance companies aren't running around this country trying to find old people to sell health insurance to. That is just a fact of life. They want to find somebody who is 22 years old and healthy as a horse and isn't going to need any health care treatment for a long while. There are not people running around trying to figure out how they can attract a 70-year-old or a 75-year-old to buy their health insurance policy. They are not doing that because it is much more expensive to insure people who are 70 and 80 years of age. The result was, nearly 40 years ago half of the senior citizens in this country had no health insurance coverage at all.

So this Congress had a big debate. As is typical, those progressive voices who said this is something we should do were met by those voices of negativity who oppose everything for the first time. There are always people who just dig in their heels at any suggestion and say, no, this can't be done; no, it won't work.

Well, enough votes prevailed in the Congress over time that it passed a Medicare proposal. Now 99 percent of America's senior citizens are covered with health insurance under the Medicare program. What a remarkable success. People are living longer, better, healthier lives.

Now we know, however, that there is a deficiency in the Medicare program. The deficiency is that it does not cover prescription drugs. Let us me read some letters from North Dakotans. We could name a different State, and we would get exactly the same letters. My colleague from Florida just spoke. His constituents, I am sure, are writing exactly the same letters.

This is from a woman who lives in Bismarck, ND. She writes:

Dear Senator Dorgan: I am writing in regard to the medication I take. I think something has to be done about the prices they charge. I get $303 each month in Social Security. I pay $400 a month for my medication. I have had heart surgery and I have osteoporosis and this medicine is very high-priced. We are using our savings now and I am 86 years old so I can't work. Can you help?

This is a letter from a fellow in Rolla, ND. He writes:

Between me and my wife, we pay $350 to $400 a month on prescription drugs. We receive less than $900 a month in combined Social Security benefits. We have trouble paying for our prescription drugs.

A person from Rocklake, ND, writes:

One-fourth of my Social Security check goes for my prescription drugs, so that doesn't leave a lot for household and personal expenses. It would sure help if Medicare covered these.

A man from Cavalier, ND, writes:

Our drugs for the two of us—he is referring to his wife and himself—just about tripled last year from the year before. The total for last year was near $2300, and it only gets worse. We need a little help.

A woman from Williston, ND, who titled her letter ''Message In A Bottle,'' writes:

I have asthma and my medications and inhalers cost me over $100 each month, and my health insurance does not cover prescriptions. I am 84 years old, and it would be a great help to me to get Medicare coverage on my medications.

A woman from Bismarck, ND, writes:

Dear Senator Dorgan: Enclosed please find my prescription bottles. I just had these medicines filled today. I am having a hard time financially with a Social Security check of $400 a month. My medicines cost $175 per month. That doesn't leave much to pay for food, rent, utilities and gas. Something has to be done with the high cost of prescription medicines. I am thinking of stopping some of my medicines. Please help!!!

These letters could have come from any State, from senior citizens everywhere struggling mightily to pay for their prescription drugs. Senior citizens make up 12 percent of America's population, but they consume one-third of all the prescription drugs in our country because they have reached that age where they have various ailments and problems and they need prescription drugs.

We need to add a prescription drug benefit to the Medicare Program. We have been trying very hard to do that. Some have said, well, let's not put it in the Medicare program, let's pay the insurance industry so they will sell an insurance policy providing for prescription drug benefits. The problem with that is, the Health Insurance Association of America says insurance companies will not be able to put together a policy like that which is affordable. In fact, I had CEOs from two insurance companies come to my office, and one said: In order to provide $1,000 worth of benefits to a senior citizen for prescription drugs, I would have to charge $1,100 for the premium. Do you know anybody that will pay $1,100 for an insurance policy that provides $1,000 worth of benefits? Not where I live.

I say to those who say we can have the private insurance industry deal with this: it won't work. Even if they could offer the policy, it would not be affordable. We must, it seems to me, put a prescription drug benefit in the Medicare program, and we ought to do it now.

We are nearing the end of this session and this ought to have been one of the top priorities for the Congress. It just should have been one of our top priorities. We live in good economic times, we have unprecedented economic growth, and we are going to have some surpluses this year and, we hope, in the years ahead. But do you know what the priority was for the surpluses? The priority was to run out here on a big trolley a huge batch of tax proposals that would give big tax cuts really fast. Let's provide very large tax cuts, most of which will go to the upper-income folks in this country, and let's do it even before we experience these surpluses.

My feeling is that we ought to have a more balanced approach. First, if we have surpluses, let's use some of those funds to pay down the Federal debt. Yes, we can use some, perhaps, for middle-income tax cuts, and we could use some of it to make the other investments we need to make. We should put a prescription drug benefit in the Medicare Program that is optional, has a

copayment, and provides Medicare recipients protection against these high drug prices.

The proposal I support also has the ability, through purchasing power, to drive down prescription drug prices. So I say to those who schedule the Senate: Time is wasting here. Let's see if between now and the end of this week or next week we can perhaps get a prescription drug benefit bill to the floor of the Senate and get it passed. Those who want to give tax cuts to the top 1 percent of the income earners were certainly quick to get that to the floor of the Senate. Let's see if we can't do something similar in terms of legislative speed to try to add a prescription drug benefit to the Medicare program. We have time to do that. The question is, Do we have the will to do it?

Just one other point. I want to talk for a moment about the issue of a Patients' Bill of Rights. A Patients' Bill of Rights is not some theory that represents our interests or a wish. It is an absolute necessity to provide protection for patients in this country. Some managed care plans—although not all of them—have decided that health care is a function of their profit and loss. They administer their health care plans that way. The result has been devastating to some patients in our health care system. In fact, in some cases an HMO will not tell you all of your options for medical treatment, only the cheapest options. That is not fair.

Every patient in this country ought to have a right to understand all of his or her options for medical treatment, not just the cheapest one. There are some HMOs that don't give you the opportunity to have emergency room treatment when you have an emergency. That ought to be a patient's right. There have been instances of people hauled into an emergency room unconscious who are denied coverage because the HMO said they didn't get prior approval for the emergency room. It ought to be a patient's right, if you have insurance through an HMO, to have emergency room treatment when you have an emergency.

How about oncology care? In the case of a woman who has breast cancer and whose spouse's employer switches to a different health care plan, should that woman not be able to continue with her same oncologist and with the same cancer treatment under the new plan? Of course she ought to be able to. That ought to be a right.

I had a hearing recently with some of my colleagues on this subject, and a woman named Mary Lewandowski came. It was the third time Mary has come to Washington, DC, at her own expense. I want, for Mary's benefit, to put in the RECORD her complete testimony from this hearing. I ask unanimous consent that her entire testimony be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

TESTIMONY OF MARY MUNNINGS LEWANDOWSKI BEFORE THE DEMOCRATIC POLICY COMMITTEE, SEPTEMBER 21, 2000

My name is Mary Munnings Lewandowski. I reside in Scottsville, NY. The picture that I have brought with me, is my youngest daughter Donna Marie at age 18.

This is my third trip to Washington to plead for passage of a bill that will protect patients rights. I've pounded on doors, handed out pictures of Donna and a picture of her headstone. I've done most anything I can to make people here aware that the Patients Bill of Rights is a Life and Death issue.

The week of February 3rd, 1997 Donna went to our PCP 4 times in 5 days. With each visit her symptoms were worsening. She was told that she had an upper respiratory infection and panic attacks. On Saturday Feb 8th, she could barely get off the couch. I assisted her up the stairs to get cleaned up at 8 PM. At 8:30 she started crying that she was very ill. I tried repeatedly to reach our PCP but only reached the answering service, as this was a Saturday evening.

I called the hospital at 9 and was told I couldn't bring her in unless her doctor authorized it or if I thought it was a life and death situation.

I am a school bus driver and a mom not a doctor or a nurse. At 9:10 I called 911, at 9:12 she screamed that her back hurt and that she thought she was going to die. She lapsed into a coma. My husband tried in vain to do CPR on her. She was pronounced dead at 10:45 PM at the young age of 22.

I went to our PCP on Monday and the very first thing that was told to me, was ''they couldn't justify to her HMO to send her for the diagnostic tests that would have shown what was wrong with her''.

22 year old kids, don't die. There were no tests done, none. In my subsequent research I found that HMO's can and do penalize and sanction doctors for ordering tests which HMO's feel are unnecessary.

I found out on Tuesday, February 11th, that she died from a bloodclot on her lung, literally the size of a football. A $750 lung scan would have shown this. But all for the sake of money, we lost a vital beautiful young lady that had only begun her life.

We were at the cemetery in August and my 6 year old granddaughter was with me. She went to Donna's grave and started crying. ''Grandma, I shouldn't have to come here to see my Aunt Donna'' Why did God take her.

Please, it is up to you, the Senators, our elected officials to change things. Health insurers should not be able to put profits before a person's life.

There is evidence that lives have been lost because of HMO decisions. Isn't that enough reason to pass legislation that would provide direct protection to patients?

Please, pass legislation that ensures that patients like my daughter get the test they need and access to emergency care before it is too late.

It could be your loved one.

Thank you for your time.

Mr. DORGAN. Mary lost her youngest daughter, Donna, at age 22.

She said:

The week of February 3, 1997, Donna went to our PCP—that is her primary care provider—4 times in 5 days.

With each visit her symptoms were worsening. She was told she had an upper respiratory infection and panic attacks. On Saturday, February 8th, she could barely get off the couch. I assisted her up the stairs to get cleaned up at 8 p.m. At 8:30 she started crying that she was very ill. I tried repeatedly to reach our PCP, but only reached the answering service, as this was a Saturday evening.

I called the hospital at 9 and was told I couldn't bring her in unless her doctor authorized it or if I thought it was a life and death situation.

Mary continued:

I am a school bus driver and a mom, not a doctor or a nurse. At 9:10 I called 911, at 9:12 she screamed that her back hurt and that she thought she was going to die. She lapsed into a coma. She was pronounced dead at 10:45 p.m. at the young age of 22.

I went to our PCP on Monday and the very first thing that was told to me was they couldn't justify to her HMO to send her for the diagnostic tests that would have shown what was wrong with her. Twenty-two-year-old kids don't die, so there were no tests done. None. In my subsequent research, I found that HMOs can and do penalize and sanction doctors for ordering tests which HMOs feel are unnecessary. I found out on Tuesday, February 11, she died from a blood clot on her lung literally the size of a football. A $750 lung scan would have shown this. But all for the sake of money, we lost a vital beautiful young lady that had only begun her life.

I have about 50 stories just like this which have been compiled from all around the country—people dealing with HMOs and discovering they have to fight their cancer and their health plans at the same time. That is not a fair fight.

We should pass a Patients' Bill of Rights. Now, the House of Representatives passed a bipartisan Patients' Bill of Rights and this Senate passed what I call a ''patients' bill of goods.'' It is a hollow vessel, one of those charade-like things that doesn't do anything. In fact, the Republican Congressmen from the House have said the Senate passed proposal is a step backward, even worse than nothing. It is a charade. We still have an opportunity to enact a real Patients' Bill of Rights. This legislation is still in conference. This Congress can, in its final days, pass the Patients' Bill of Rights. When Mary Lewandowski comes to Washington, DC, three times because her daughter died—and this young woman should not have died—and says, ''Do something, please,'' we have a responsibility to respond. We ought to do it now.

If the past is prologue, of course, we will end this session and we will not do the kinds of things we should—putting a prescription drug benefit in the Medicare program or enacting a real Patients' Bill of Rights. The American people will have lost. We will be back in January organizing as a new Congress and many of us will reintroduce exactly the same legislation. We will, once again, engage in this battle. The battle will not be over until we get done what needs to be done. Go back 40 years and the same people who stood on the floor of the Senate and opposed

Medicare, oppose doing these important tasks. They do not think the Federal Government should do it. This same mentality is what is now providing the roadblock for doing what we should and adding a prescription drug benefit to Medicare and passing a real Patients' Bill of Rights.

We can alter that result. We can do it this week, if there is the will. There is a way. The question for the Members of this body is, Does the will exist in the Senate to do the right thing in these final days? I hope so.

I yield the floor.

The PRESIDING OFFICER. The Senator from Arizona.

Mr. KYL. Mr. President, I say to my colleague from North Dakota that I very much agree with him that we should be taking up the Patients' Bill of Rights legislation. I hope he will join those of us on this side of the aisle when we bring a conference report to this body which will report a very important Patients' Bill of Rights piece of legislation. We would then hope to pass it in the Senate, send it over to the House of Representatives, and have the President sign it.

I am very much hopeful that we can get such a conference report to the Senate and that my colleagues on the other side of the aisle will help us to pass it.

CHINA'S THREAT TO U.S. NATIONAL SECURITY

Mr. KYL. Mr. President, I would like to talk about something this afternoon that I think is of great importance to this country and one of the biggest challenges we are going to face in the coming years; that is, the challenge of how the United States manages our relationships with countries that potentially present threats to our national security.

While few would like to admit it, I think China cannot be omitted from this scrutiny, and I, therefore, would like to discuss that question with respect to China today.

As my colleagues know, it was not long ago that the bill to grant permanent normal trade status to China passed through the Senate without amendment. I voted for this bill because I recognize the economic benefits it will have for many American workers, businesses, and consumers. That said, it is of utmost importance that we not lose sight of the fact that trade alone does not define our relationship with China. The actions and the heated rhetoric of China's communist leaders should be of great concern. So now, in the aftermath of our recent decision to grant PNTR to China, we are obligated to face the other challenges presented by the communist Chinese government.

Time and time again, Chinese officials and state-sponsored media have made bellicose and threatening statements aimed at the United States and our long-standing, democratic ally, Taiwan. They have even gone so far as to issue implied threats to use nuclear weapons against the United States. The question is, will we take them at their word on these defense matters as we did when they made trade commitments.

For example, in 1995, General Xiong Guangkai warned a visiting U.S. official that China could use military force to prevent Taiwan's gaining independence without fear of U.S. intervention because American leaders ''care more about Los Angeles than they do about Taiwan.'' An editorial in a military-owned newspaper this March was more blunt, warning that, ''The United States will not sacrifice 200 million Americans for 20 million Taiwanese.''

In February of this year, a state-owned paper again warned the United States against becoming involved in a conflict with China over Taiwan. The People's Liberation Army Daily carried an article which stated, ''On the Taiwan issue, it is very likely that the United States will walk to the point where it injures others while ruining itself.'' The article went on to issue a veiled threat to attack the U.S. with long-range missiles, stating, ''China is neither Iraq or Yugoslavia * * * it is a country that has certain abilities of launching a strategic counterattack and the capacity of launching a long-distance strike. Probably it is not a wise move to be at war with a country such as China, a point which U.S. policymakers know fairly well also.''

Not only has China warned against U.S. military intervention in the event that Taiwan declares its independence, Chinese officials have also issued threats against U.S. sale of theater missile defenses (TMD) to Taiwan. In February 1999, China's top arms control official, Sha Zukang, was interviewed by a reporter for the publication Defense News. When asked if U.S. assistance on theater missile defense for Japan, South Korea and possibly Taiwan could cause damage to U.S.-China relations, he replied, ''If the U.S. is bent on its own way on this issue, it will not, to put it lightly, be conducive to the development of legitimate self-defense needs of relevant countries.'' When further questioned about theater missile defense for Taiwan, he stated, ''In the case of Taiwan, my God, that's really the limit. It constitutes a serious infringement of China's sovereignty and territorial integrity. It also represents a deliberate move on the part of the United States to provoke the entire Chinese people. Such a move will bring severe consequences.'' (Emphasis added) According to the Washington Post in July, that same Chinese official warned that the sale of U.S. technology to Taiwan for a smaller scope theater missile defense system would ''lead to serious confrontation'' because it would be tantamount to restoring a military alliance between Taipei and Washington. He stated, ''This is of supreme national interest. It will be defended at any cost.'' (Emphasis added)

These are not examples of isolated threats. They are a small sample of the bellicose statements that China's government has made recently. I have compiled dozens of such statements and am disappointed at the sparse attention they have received. Mr. President, I have compiled a document containing 14 pages of threats issued by communist Chinese officials. It is by no means a comprehensive compendium of such statements, and is merely a sample. I ask unanimous consent that it be printed in the RECORD at the conclusion of my statement.

The PRESIDENT OFFICER. Without objection, it is so ordered.

(See Exhibit 1.)

Mr. KYL. Mr. President, the rhetoric from Beijing has also been accompanied by troubling actions. China has long-range nuclear-tipped missiles targeted at American cities, and is already increasing its arsenal of such weapons. It is greatly increasing the number of short-range missiles aimed at Taiwan, and has taken steps to improve its ability to invade or blockade the island.

China has also been the world's worst proliferator of missiles and weapons of mass destruction. It has sold ballistic missile technology to Iran, North Korea, Syria, Libya, and Pakistan, despite promising to adhere to the Missile Technology Control Regime. It has sold nuclear technology to Iran and Pakistan. It has aided Iran's chemical weapons program and sold that nation advanced cruise missiles. Because of China's assistance to rogue nations and its military advances, the American people, and our forces and friends abroad, face a much greater threat.

Mr. President, as we craft effective national security policies for the United States, it's important that we look for warning signs of problems. As Winston Churchill said, in his ''Iron Curtain'' speech in 1946, less than one year after the end of World War II, ''Last time, I saw it all coming and I cried aloud to my own fellow-countrymen and to the world, but no one paid any attention. Up till the year 1933 or even 1935, Germany might have been saved from the awful fate which has overtaken her * * * There never was a war in all history easier to prevent by timely action than the one which has just desolated such great areas of the globe * * * but no one would listen * * * We surely must not let that happen again.''

Now, more than 50 years later, we live in a very different world. The collapse of the Soviet empire, the spread of democracy and civil society in Eastern Europe and the Baltics, and the

emergence of the United States as the sole-surviving superpower could lead some to mistakenly assume that the world is no longer a dangerous place.

To the contrary, the threats we face today are even more complex and harder to predict than those we faced during and before the Cold War. We must now be more clear than ever in our own minds about our strategic intentions, and just as clear in signaling these to our potential aggressors.

Obviously, China is not Nazi Germany, and it presents different challenges, yet the message delivered by Churchill about the need to heed warning signs is timeless. Many are quick to dismiss the rhetoric from Beijing as empty threats. This could be true, but I believe we must be prepared for another possibility—what if China's leaders mean what they say?

China's proliferation of the technology for ballistic missiles and weapons of mass destruction has increased the threat faced by the United States and our allies. China is increasing the size and capabilities of its strategic nuclear force targeted on the United States. And furthermore, China has tried to use the threat of missile attack to coerce the United States into staying out of any future conflict in the Taiwan Strait.

These are but three of the many compelling reasons why we need a national missile defense system to protect the United States and to guarantee our freedom of action. I disagree with those who claim China's objection to our proposed national missile defense, NMD, system will lead to an arms race with that country. As Secretary of Defense William Cohen testified to the Senate in July of this year, ''I think it's fair to say that China, irrespective of what we do on NMD, will in fact, modernize and increase its ICBM capability.'' Of course, that is precisely what China has done. Left with this reality, we have no option but to deploy a national missile defense system that will protect the United States.

Frankly, I am disappointed that for the last eight years, the Clinton-Gore Administration has failed to pursue the most promising forms of missile defense and has underfunded the limited programs it has authorized due to loyalty to the ABM Treaty. For example, one of the Administration's first decisions in early 1993 was to return unopened proposals the Defense Department had requested from three teams of companies that had bid to develop a ground-based national missile defense interceptor. In 1993, the Clinton Administration also cut the budget for missile defense for fiscal year 1994 by $2.5 billion over the amount requested in President Bush's final budget, and has continued to underfund missile defense programs every year.

I believe that the ABM Treaty is obsolete. It was made with an entity that no longer exists. In the words of former Secretary of State Henry Kissinger, this treaty ''constrains the nation's missile defense programs to an intolerable degree in the day and age when ballistic missiles are so attractive to so many countries.'' Dr. Kissinger has also stated that, ''Deliberate vulnerability when the technologies are available to avoid it cannot be a strategic objective, cannot be a political objective, and cannot be a moral objective of any American President.'' We must not allow loyalty to an outdated piece of paper called the ABM Treaty to stand in the way of a sound defense given the threats we face.

In addition to the deployment of a national missile defense system, it is important for the United States to use the full range of economic and diplomatic tools to halt China's proliferation of the technology for missiles and weapons of mass destruction. I believe the Senate missed an opportunity when we failed to pass an amendment offered by Senator THOMPSON to combat this problem. I hope this legislation will be considered and passed next year. In addition, we need to ensure that strong export controls on U.S.-made products are in place so we don't inadvertently help China modernize its military.

It remains to be seen whether the rhetoric from Beijing will become reality, but in light of China's troubling actions, prudence demands that we take steps to address China's behavior. We ignored warnings in the past and paid a high price. We surely must not let it happen again.

THREATENING OR BELLICOSE STATEMENTS BY CHINESE OFFICIALS OR DRAWN FROM OFFICIAL STATE-RUN MEDIA

MISSILE THREAT TO THE UNITED STATES

The PLA could use military force to prevent Taiwan's gaining independence without fear of U.S. intervention, because American leaders, ''care more about Los Angeles than they do about Taiwan.''—Remark by an officer in the People's Liberation Army (PLA) to former Assistant Secretary of Defense, Chas Freeman, Jr., ''As China Threatens Taiwan, It Makes Sure U.S. Listens,'' New York Times, January 24, 1996.

''On the Taiwan issue, it is very likely that the United States will walk to the point where it injures others while ruining itself. As is known to all, if the 'Taiwan independence' elements openly and brazenly advocate separatism, the PRC government will be forced to resort to the use of force ultimately to resolve the Taiwan issue. Once the cross-strait war breaks out, the U.S. government will face a dilemma: If it chooses not to intervene, the United States has to consider the 'Taiwan Relations Act;' besides, U.S. allies will doubt whether the promises made by the United States will hold. If the United States chooses to engage in substantial interventions, U.S. policymakers will be left with no choice but to consider the possible enormous pressure to endure and the possible exorbitant price to pay. *China is neither Iraq or Yugoslavia, but a very special country: on one hand, China is a permanent member of the U.N. Security Council; on the other hand, it is a country that has certain abilities of launching a strategic counterattack and the capacity of launching a long-distance strike. Probably it is not a wise move to be at war with a country such as China, a point which U.S. policymakers know fairly well also*.—''Safeguarding the One-China Policy is the Cornerstone of Peace in the Taiwan Strait—Splitting the Motherland by 'Taiwan Independence' Elements is Bound to provoke a War,'' People's Liberation Army Daily, February 28, 2000. (Emphasis added.)

''The United States will not sacrifice 200 million Americans for 20 million Taiwanese.''—Excerpt from article in Chinese state-owned Haowangjiao Weekly, ''Chinese Military Paper Warns Taiwan and U.S.,'' as reported by Philadelphia Inquirer, March 21, 2000.

''China is a country that has certain abilities of launching a strategic counterattack and the capacity of launching a long-distance strike. [If the United States intervenes in Taiwan it would lose the conflict and] even be forced to have a complete withdrawal from the East Asian region as they were forced to withdrawal from southern Vietnam.''—Commentary in the People's Liberation Army Daily, ''Threat By China Downplayed,'' Philadelphia Inquirer, March 1, 2000.

''Entitled, 'The United States Will Suffer Disastrous Blows,' the signed article [in a Chinese military journal] quotes an expert as saying that if the United States dares to obstruct China's reunification, China is bound to employ its nuclear weapons, and that for the sake of its national interests, China has made full preparations to fight a nuclear war with the United States.''—''Beijing Military Journal: Nuclear War Will Certainly Break Out If United States Gets Involved,'' Hong Kong Sing Tao Jih Pao, April 11, 2000.

MISSILE DEFENSE

In reference to provisions in the Fiscal Year (FY) 1999 Defense Authorization Act regarding theater missile defense cooperation with allies in East Asia: ''The US Congress has gravely violated the fundamental norms of international relations, interfered in China's internal affairs and seriously hurt the feelings of the Chinese people.''—Chinese Foreign Ministry Spokesman Tang Guiqiang, ''Beijing Rains fury on Defense Umbrella,'' South China Morning Post, October 30, 1998

When asked if U.S. insistence on theater missile defense for Japan, South Korea and possibly Taiwan could cause irreparable damage to US-Sino ties, he replied, ''If the U.S. is bent on its own way on this issue, it will not, to put it lightly, be conducive to the development of legitimate self-defense needs of relevant countries.'' When further questioned about the TMD for Taiwan, he stated, ''In the case of Taiwan, my God, that's really the limit. It constitutes a serious infringement of China's sovereignty and territorial integrity. It also represents a deliberate move on the part of the United States to provoke the entire Chinese people. Such a move will bring severe consequences.''—Ambassador Sha Zukang, Director-General of the Chinese Foreign Ministry's Department of Arms Control and Disarmament, Interview with Defense News staff writer Barbara Opall-Rome, February 1, 1999.

''The US global strategy in Europe is to contain Russia's revival and in Asia to contain China's growth, and is to preserve US hegemony in the world . . . [NMD is a] hangover from the Cold War . . . [the political cost of its deployment will be] tremendous for the United States.''

''The rest of the world is wondering if the United States could break the treaty it

signed, shouldn't other countries do the same? In other words, the United States will set an example for others to dump other arms-reduction agreements if it presses forward with NMD.''—Remarks by Luo Yuan, Director of the Second Office of Strategy Studies, Chinese Academy of Military Science, ''Experts: US plan could start new arms race,'' China Daily, August 16, 2000.

In reference to a national missile defense system: ''We believe this idea of the United States will inevitably support a new round of arms race and will compromise international peace and stability. This issue is by no means a dispute between China and the United States, but between the United States and the international community.''—Remark from Chinese Foreign Minister Tang Jiaxuan, ''Asian Forum Ends in Chorus of Criticism of U.S. Missile Defense Plan,'' Washington Post, July 30, 2000.

''China's government is standing up to U.S. attempts to set up both a national anti-ballistic missile system and a theater of war anti-ballistic missile system. Attempts [by the U.S.] to make Taiwan join the creation and unveiling of a theater of war anti-ballistic missile system are a serious interference into China's internal affairs and will necessarily be seriously repulsed by the Chinese people.''—Remark by Chinese Defense Minister Chi Haotian, press conference, January 17, 2000.

''For its own defense needs, if the United States wants to develop a [theater missile defense] system, that's its own business. What we don't want to see is TMD covering Taiwan. That would . . . damage U.S.-China . . . relations.''—Remarks by an unidentified senior Chinese official quoted in the Washington Post, January 27, 2000.

Placing TMD in Taiwan ''seriously infringes on China's sovereignty and territorial integrity and will certainly meet with strong opposition from the Chinese people.''—Remark from Chinese Embassy spokesman Cui Jianjun, ''Chinese Warn U.S. on Defense; Missile Umbrella Would Aid Taiwan,'' The Washington Times, March 6, 1999.

''The inclusion of Taiwan into the theater-missile defense system will severely harm the stability of the region, and finally threaten bilateral relations.''—''Chinese Warn U.S. on Defense; Missile Umbrella Would Aid Taiwan,'' Washington Times, March 6, 1999.

ARMS CONTROL

''Any amendment, or abolishing of the [ABM] treaty, will lead to disastrous consequences. This will bring a halt to nuclear disarmament now between the Russians and Americans, and in the future will halt multilateral disarmament as well.''

''We are not rejecting the concept of missile defense completely, such as air defense to protect troops. But it is the advanced systems, in space and elsewhere, that are the problem. These are a violation of the ABM Treaty. These may disturb or destroy the strategic balance.''

''[The] United States . . . has been teaching the international community that the ABM Treaty, though bilateral, is a cornerstone for strategic stability, that it's a precondition for further nuclear disarmament. Now suddenly they are attempting to amend it and threaten to abolish it. We have no words for this. Should we assume that the United States monopolizes all the truth in the world? This cannot be the case, I believe. So this will erode U.S. authority and credibility.''—Excerpts of Remarks by Sha Zukang, Chinese Director-General of the Arms Control and Disarmament of the Ministry of Foreign Affairs, press interview, November 10, 1999.

''This decision by the United States [deployment of an NMD system] goes against the trend of the times and is detrimental to international arms control and disarmament efforts. It will have an extensive and profound negative impact on the global and regional strategic balance and stability in the 21st Century. The Chinese side expresses serious concern.''

''The Chinese side expresses serious concern over this [U.S. deployment of NMD]. China believes that the development, deployment, and transfer of anti-missile systems with strategic defense potential will not enhance security or curb missile technology proliferation. On the contrary, it will only undermine security, and spur missile technology proliferation. Moreover, it violates the Anti-Ballistic Missile Treaty. The ABM Treaty is of great significance for safeguarding the global strategic balance and stability and for maintaining the momentum in the nuclear disarmament process. It should be observed strictly.''

''This [the UN General Assembly resolution on the ABM Treaty] demonstrates the international community's near-unanimous opposition to or disapproval of the attempts by relevant countries to revise the ABM Treaty or to develop anti-missile systems. China urges relevant countries to take a serious approach toward the strong appeal from the international community, think carefully before making any move, and abandon the aforementioned programs for developing anti-missile systems.''—Excerpts of Remarks by Chinese Foreign Ministry Spokesman Zhu Bangzao, press conference, January 13, 2000.

''The creation of such a system is strictly prohibited by the ABM. Russia and China have suggested that the United States is motivated by the ambition to gain unilateral superiority in the military sphere and in security issues. The realization of such a plan would undermine the security of not only Russia, China and other countries, but also the security of the US itself and global strategic stability in the world. That is why China and Russia resolutely oppose the plan.''

''The collapse of the ABM would lead to a resumption of the arms race. Such a situation is not in the interests of any country. Those countries, which support the US' proposal to modify the Anti-Ballistic Missile Treaty, would be held responsible for undermining international stability and security and for all the consequences of that decision.''—Excerpts from the joint statement of Russian President, Vladimir Putin, and Chinese President, Jiang Zemin, July 21, 2000.

When asked if China is setting the stage to recant on commitments to the Chemical Weapons Convention, he replied, ''What we object to is the existence of the Australia Group, a smaller, more stricter group of nations with its own legal provisions that have created a de facto split among to the Convention. This has caused confusion, has undermined the Convention, and has affected the normal international trade of chemicals. This problem is compounded by the seemingly irresistible inclination of certain countries to impose their own standards or even their own domestic legislation onto other countries, thus giving rise to unnecessary international disputes.''

''There are only two ways I see to rectify this situation: One is to do away with the Australia Group and the other is to do away with the Chemical Weapons Convention.''—Ambassador Sha Zukang, Director-General of the Chinese Foreign Ministry's Department of Arms Control and Disarmament, Interview with Defense News staff writer Barbara Opall-Rome, February 1, 1999.

''China will never be involved in any arms race at any level. However, it has to consider necessary means to defend its national security.''—Remark by Sha Zukang, Chinese Director-General of the Arms Control and Disarmament Department of the Ministry of Foreign Affairs, reported by Beijing China Daily, January 14, 2000.

''In pursuit of its own strategic interests and military superiority and in disregard of the authority of the already concluded international arms control legal instruments, a certain country attempted to rectify the Anti-Ballistic Missile Treaty. In light of this dangerous tendency, China, Russia and Belarus co-sponsored the draft resolution of Preserving and Observing the ABM Treaty which was adopted by an overwhelming majority in the Committee of Disarmament and International Security and the UN General Assembly respectively. China's efforts to safeguard world peace and security garnered the extensive support of the international community.''—Excerpt of article by Chinese Foreign Minister Tang Jiaxuan, posted on the official home page of the Chinese Ministry of Foreign Affairs, January 14, 2000.

''We have always maintained that, as a country with powerful military strength, the United States' development of missile defense systems in violation of the Anti-Ballistic Missile Treaty does not benefit global and regional strategic balance and stability. I would like to point out once again that the 54th UN General Assembly has passed, by an overwhelming majority, a resolution on preserving and abiding by the ABM Treaty, which shows that the international community almost unanimously opposes or does not approve of attempts by relevant countries to amend the ABM Treaty and develop anti-ballistic missiles. We urge relevant countries to take seriously the strong call of the international community, to think carefully before acting, and to abandon the aforementioned anti-ballistic missile plan.''—Remark by Chinese Foreign Ministry Spokesman Zhu Bangzao, press conference, January 20, 2000.

''A certain country . . . practices expediency and double standards toward arms control and disarmament agreements, even trying to weaken or abolish relevant treaties.''

''The CTBT has been trampled on and faces an uncertain future.''

''People cannot but ask: Do we prefer the common security for all or the absolute security enjoyed by a single state at the expense of all others?''—Excerpts of Remarks by Chinese Ambassador Hu Xiaodi, speech to the 66-nation Conference on Disarmament, January 27, 2000.

''In an attempt to seek absolute security for itself, a certain country is stepping up its research, development and deployment of sophisticated anti-missile systems, even at the expense of violating the international legal obligations to which it has committed itself.''

''This move [U.S. violation of the ABM Treaty] will undoubtedly inflict severe damages on global strategic balance and stability, undermine the international security environment, make it difficult to carry on the international non-proliferation regime and may even trigger a new . . . arms race.''

''For this, the international community cannot but express deep apprehension.''

''China will never be a superpower or seek hegemony.''

''I hope that others will not overestimate Chinese influence on North Korea.''—Remarks by Chinese Deputy Foreign Minister Wang Guangya, Speech to the 36th Munich Conference on Security Policy, February 6, 2000

''All these facts have demonstrated that China adopts a clear-cut policy against the proliferation of WMD. This policy will remain unchanged in the future.''

''[The U.S.] takes advantage of its economic and scientific strength to develop a national missile defense system, in an attempt to disrupt the global strategic balance, and to seek absolute security and hegemony for itself.''

''It is a widely known fact that during the Cold War years, the Anti-Ballistic Missile Treaty constituted a cornerstone of global strategic stability, paving the way for the limitation and reduction of offensive strategic weapons between the United States and the former Soviet Union. Despite the drastic changes in the international situation following the end of the Cold War, the crucial role of the ABM Treaty to international security remains unchanged. Pending the elimination of nuclear weapons, any substantive amendment to this treaty will undermine global strategic stability.''

''It is true that what the ABM Treaty maintains is 'the balance of terror' and can only offer relative security—not an ideal situation.'' ''[A]ny violation of this treaty is bound to give rise to strong opposition from other countries, and will inevitably have severe negative impacts on international cooperation in arms control and non-proliferation.''

''Everyone is equal before the law. And treaty obligations should be honored.''

''Yet one country takes a cynical view on arms control and nonproliferation treaties and their legal obligations undertaken therein.''

''The fundamental way to prevent the WMD proliferation lies in the complete prohibition and thorough destruction of such weapons.''—Excerpts of Remarks by Chinese Director General of the Department of Arms Control and Disarmament of the Ministry of Foreign Affairs Sha Zukang, interview with Beijing Review, February 21, 2000

TAIWAN

''Our policy on Taiwan is a consistent one. That is, one, peaceful unification, one country-two systems. However, if there were to be any foreign intervention, or if there were to be Taiwan independence, then we would not undertake to renounce the use of force.''—Remark by Chinese President Jiang Zemin, exchange with reporters prior to discussions with President Clinton, September 11, 1999

This threat, reportedly on the front page of almost every newspaper in Asia, was aimed at turning Taiwanese voters away from opposition candidate Chen Shui-bian: ''Do not just act on impulse. Otherwise you will regret it very much and it will be too late to repent.''—Chinese Prime Minister Zhu Rongji, ''Bully in a China Shop,'' The Wall Street Journal, March 17, 2000

. . . the sale of U.S. technology to Taiwan for a smaller-scope theater missile defense system would ''lead to serious confrontation'' because it would be tantamount to restoring a military alliance between Taipei and Washington. ''This is of supreme national interest. It will be defended at any cost.''

''Instead of enhancing your security, your security policy will be further compromised. The United States will play the role of a fire brigade. Rushing from one place to another to extinguish fires.''

Asked if China would reconsider its commitment to nuclear disarmament and a halt in sensitive weapons sales, Sha responded, ''To say the least, our enthusiasm and our participation in all of those regimes, particularly in cooperating with the United States, our mood, let me say, would be severely dampened.''

When asked if a decision to deploy missile defenses would also affect China's existing arms control treaties, Sha responded, ''To say the least, it would seriously dampen our interest . . . We have not yet reached a stage to say we will forget our commitments . . . yet.''—Remarks by Chinese Director General of the Foreign Ministry's Department of Arms Control and Disarmament Sha Zukang, ''China: Missile Shield Threatens Arms Control,'' Washington Post, July 13, 2000

A U.S. shield against ballistic missiles would ''aim to absorb Taiwan into the American sphere of protection, which we consider a gross interference into China's domestic affairs.''—Remark by Chinese Premier Zhu Rongji in Rome, ''US Ready to Discuss Objections to its Missile Defense Shield,'' Agence France Presse, July 6, 2000

In reference to TMD: ''The system would aim to put Taiwan in a sphere of protection. This would be blatant interference in Chinese affairs.''—Remark by Chinese Prime Minister Zhu Rongji, ''Taiwan May Get Antimissile Technology,'' Washington Post, July 9, 2000

''If a grave turn of events occurs leading to the separation of Taiwan from China in any name, or if there is foreign invasion and occupation of Taiwan, or if Taiwan authorities indefinitely refuse to peacefully resolve the cross-strait unification problem through negotiations, then the PRC government will only be forced to adopt all possible drastic measures, including the use of force, to safeguard China's sovereignty and territorial integrity, and fulfill the great cause of China's unification.''—''The One China Principle and the Taiwan Issue,'' English version published by Xinhua, February 21, 2000

Washington ''bears unshakeable responsibility for the tension in the Taiwan Straits'' and it was vital the US stopped arms sales to Taiwan.—Chinese Foreign Minister Tang Jiaxuan, Agence France Presse, March 16, 2000

The Chinese military made the statement that it would ''spare no effort in a bloodsoaked battle'' to protect China's territorial integrity and that China would not be tricked into negotiations with Taiwan leaders who secretly apposed rejoining the motherland.

Prime Minister Zhu Rongji stated that China ''will not sit idly by and watch and serious separatist activity.''

General Zhang Wannian, a top military leader, echoed this thought stating, ''The two sides of the strait cannot remain perpetually divided,'' and ''Taiwanese independence means war.''—''China Army Renews Threat Against Taiwan,'' New York Times, March 7, 2000.

''Taiwan Independence means war and splitting (with the mainland) means no peace.''

''Anyone who pays no heed to this important information from us and insists on Taiwan independence will push Taiwan into the abyss of war and bring disaster to the Taiwan people.''

It warned those who ''underestimate the strong determination of China's government and the People's Liberation Army to safeguard national territorial integrity and put at stake the happiness of 23 million Taiwanese people that the great strength of the PLA will solve the Taiwan problem.''

''The consequence will be worse than anything imaginable. We are not willing to see that.''—Editorial in People's Liberation Army Daily, Agence France Presse, ''China keeps up war-rhetoric as Taiwan prepares changing of guard,'' April 15, 2000.

''If the Taiwan authorities indefinitely refuse to peacefully settle the reunification issue through dialogue, the Chinese government will be forced to adopt all possible drastic measures, including military force.''

Proposals to extend a theater missile defense system to Taiwan are ''a gross interference in China's internal affairs and a grave threat to China's security . . . no country maintaining diplomatic relations with China should provide arms to Taiwan or enter into military alliance of any form with Taiwan.''—''White Paper issued by China's State Council, as reported in Chicago Tribune, February 22, 2000.

''Beat them till they hurt, beat them till they obey, beat them until they're scared! Beat them until the Taiwan separatists admit total defeat''—An article carried on the state-run Yangcheng Evening News' web site said this to describe China's option of striking Taiwan with missiles and warplanes, ''China Goes to War with Words Against Taiwan,'' AP, July 26, 1999.

''We must make it crystal clear. No matter who comes to power in Taiwan, Taiwan will never be allowed to be independent. This is our bottom line. This is also the will of the 1.25 billion Chinese people.''

Dismissing widely held views by foreign military analysts that China lacks enough aircraft, missiles and ships to attack Taiwan, Zhu said, ''By such calculations, Hitler would long ago have conquered the whole world. The Chinese people will use all their blood and even sacrifice their lives to defend the unity of our motherland and the dignity of the Chinese nation.'' Zhu accused U.S. political leadership of delaying China's unification with Taiwan, declaring, ''They always have taken China as their imaginary or potential enemy and have always wanted to use Taiwan, which in their view is an unsinkable aircraft carrier, to oppose China.''—Remarks from Chinese Premier Zhu Rongji, ''Chinese Premier Warns U.S. Over Taiwan, PNTR Vote,'' National Journal's Congress Daily, March 15, 2000.

''A handful of American politicians, who are holding a Cold War mentality, have pushed the House to pass the act in an attempt to provide a legal basis for the buildup and expansion of military contacts and exchanges between the United States and Taiwan.''

The Taiwan Security Enhancement Act is ''a complete violation of the three Sino-U.S. joint communiques, a serious encroachment on China's sovereignty, a gross interference in China's internal affairs, and an attempt to make 'two Chinas'.''—Remarks by Chinese Ambassador to the United States Li Zhaoxing, ChinaOnline, February 3, 2000.

''Although a handful of U.S. legislators claim that the Taiwan Security Enhancement Act was aimed at 'protecting' Taiwan's 'security,' their real motive is to split China, and prevent China from becoming stronger . . . some U.S. lawmakers have ignored International Law and tried to make legislation on the 'security' of another country's territory, and this has fully exposed the arrogance of the U.S. hegemonists.''—Editorial in the People's Daily, as reported by ChinaOnline, February 3, 2000.

''The move [Taiwan's effort to join the United Nations] constitutes a flagrant violation of the purposes and principles of the U.N. Charter, a distortion of the nature of the U.N. and a gross interference in China's internal affairs.''—Remark by Zhu Bangzao, Spokesman for the Chinese Foreign Ministry, ''China Objects to Taiwan Leader's U.S. Visa,'' New York Times, August 5, 2000.

''If we were to take military action, it should be sooner rather than later.''—Jiang Zemin, ''Act soon if force is needed, says Jiang,'' South China Morning Post, March 28, 2000.

''At the special Politburo meeting called on the evening of the election, what the senior cadres were debating was not whether some degree of force would be used against Taiwan, but when.''—''Military pressure builds over Taiwan,'' South China Morning Post, March 29, 2000.

''The [recently-acquired] Sovremenny destroyer is equipped with eight SS–N–22 missiles, which can carry *nuclear* missiles.''—Beijing Jiefangjun Bao, March 22, 2000 (Emphasis added).

''The new Chinese-made super Kilo-class diesel attack submarine was quietly put into service recently with the South China Sea Fleet for the mission of combat readiness against Taiwan.''—''Chinese-made Kilo-class attack submarine goes into service, starts undertaking combat readiness task,'' Hong Kong Sing Tao Jih Pao, April 4, 2000.

''A-Category Group Armies in Nanjing and Guangzhou War Theaters Have Been Equipped With Naval Vessels To Enhance Sea-Crossing and Landing Operations Capability''—Hong Kong Ming Pao, April 10, 2000.

''In order to deal with the military crisis that might occur in the Taiwan Strait, the Central Military Commission has decided to set up a Fujian Joint Operational Headquarters. On 11 February the headquarters for the first time directed the ''routine military exercise'' of using submarines to block the Taiwan Strait.''—Hong Kong Sing Tao Jih Pao, February 17, 2000.

''The Taiwan authorities actually have only two roads to take: The first is to identify with the one China principle, peaceful reunification, and one country, two systems; the second is to force Beijing to resolve the Taiwan issue by military means. There is no third road, nor is it possible for the confrontation to go on for a long time.''—Zhang Wannian, Vice Chairman of the Central Military Commission, July 6, 2000.

''In the process of settling the Taiwan issue, we will do whatever we can to bring about peaceful reunification. But, in the event that any serious incidents to split Taiwan from China under any pretext occur, that a foreign country invades Taiwan, or that the Taiwan authorities refuse for an indefinite time to settle the issue of cross-strait peaceful reunification through talks, then we will be forced to take all possible drastic measures to accomplish the great cause of the motherland's reunification.''—General Zhang Wannian, the PLA's highest-ranking officer, a vice chairman of the Central Military Commission, and a Politburo member, ''The One China Principle and the Taiwan Issue,'' February 21, 2000 (English version published by Xinhua).

''A possible interference by the United States has already been taken into account in our military preparations; in fact, we have taken into account all possibilities in our preparations. If the United States really interferes in the matter, the question is how far the United States can go in its interference. The Taiwan side should also get a clear idea of this issue. Making a big country like China as its opponent, the United States will surely lose more than it gains. The United States suffered losses in every war it fought in Asia in the past, and I believe it will surely learn from all its bitter lessons. Even if the Untied States or U.S.-led U.N. troops are involved in the matter, in no way will the United States afford a loss in the war; putting all other things aside, a slight increase in its casualties will lead to domestic pressure that will prove too much for it to bear. What is more, we also have other strategies to use in such a war, for example, a China-Russia alliance is also a move that can touch the United States on its sore spot. Therefore, we are not afraid of the involvement of the United States or any other foreign forces, for we are assured that we can win the war in the end.''—Unnamed PLA general, ''Discussing Taiwan Strait Crisis with a General,'' Ta Kung Pao, May 15, 2000.

ANTI-U.S. STATEMENTS

In reference to the relationship between Russia and China: ''The partnership is an effort to oppose hegemony and supremacy, and one single country dominating the world.''—Remark by Zhao Huasheng, Director of the Russian Studies Department at the Shanghai Institute for International Studies, ''Putin Visits China in Hope of Strengthening a Strategic Axis,'' New York Times, July 17, 2000.

''U.S. a Threat to World Peace.''—''China Demonizes,'' title of editorial from PRC state-owned China Daily, as reported by Washington Post, July 17, 2000.

''On June 22, 1999, the People's Daily fed a general anti-American campaign related to the accidental bombing of the Chinese Embassy in Belgrade with a long, hysterical piece accusing the United States of 'acting like Nazi Germany' by leading the NATO campaign to stop the ethnic cleansing of Kosovo.''—''China Demonizes,'' Washington Post, July 17, 2000 (article excerpt).

In reference to the relationship between Russia and China: ''The partnership is an effort to oppose hegemony and supremacy, and one single country dominating the world.''—Remark by Zhao Huasheng, Director of the Russian Studies Department at the Shanghai Institute for International Studies, ''Putin Visits China in Hope of Strengthening a Strategic Axis,'' New York Times, July 17, 2000.

The PRESIDING OFFICER (Mr. ENZI). The Chair recognizes the Senator from Wyoming.

Mr. THOMAS. I yield 5 minutes to the Senator from Minnesota.

The PRESIDING OFFICER. The Senator from Minnesota.

Mr. WELLSTONE. Mr. President, I thank my colleague from Wyoming.

TRIBUTE TO CONGRESSMAN BRUCE VENTO

Mr. WELLSTONE. Mr. President, I come to the floor of the Senate to speak about Congressman BRUCE VENTO from Minnesota, the Fourth Congressional District, who passed away today.

BRUCE VENTO was a fierce advocate for justice and a true representative, in the best sense of that word, of the people of the 4th District. He was generous and good-humored, with a seriousness of purpose that energized his work and inspired others. A gentle teacher and great friend, we were all ennobled, challenged and made greater by his presence among us, and will be less for his absence. The model he offered, of a life of public service for the common good, beckons us forward, toward the light, and for that we are grateful.

From working to protect our nation's vulnerable homeless, to fighting to protect and preserve earth's natural treasures from the Boundary Waters Canoe Area Wilderness to South American Rain Forests, BRUCE's legacy will last many generations. His leadership resulted in enactment of hundreds of conservation-related measures through the years, and protected millions of acres of our nation's parks, forests and wilderness areas. Close to home, when we look at a map of Minnesota we literally are looking at an image created in part by BRUCE VENTO. Our state's parks and green spaces are as healthy as they are in large part because of BRUCE's work over these many years.

Sheila and I will miss him terribly, and our thoughts and prayers are with his family.

I ask unanimous consent to have printed in the RECORD an AP story by Frederic Frommer from today, a piece in the Minnesota Star Tribune by Greg Gordon, and a piece from Tom Webb from the Pioneer Press.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

[From the Associated Press]

MINNESOTA REP. BRUCE VENTO DEAD AT 60

(By Frederic J. Frommer)

WASHINGTON (AP).—Minnesota Rep. Bruce Vento, a 12-term liberal Democrat who championed environmental and homeless causes, died Tuesday after a bout with lung cancer.

Vento, who was diagnosed in February, died at 12:20 p.m. at his home in St. Paul, Minn., surrounded by his family, spokesman Rick Jauert said. He had malignant mesothelioma, a rare type of cancer caused by inhaling asbestos fibers.

Vento, who was 60, announced in February that he had cancer and would not seek reelection. His treatment included the removal of one lung, chemotherapy and radiation, but doctors discovered more cancer last month.

As a young man, Vento worked as a state-paid laborer in several St. Paul-area facilities that he claimed exposed him to asbestos fibers. Two weeks ago he filed a lawsuit against 11 companies that allegedly supplied or installed asbestos products at those job sites.

Vento made his most significant legislative contributions on environmental issues, which he called his ''true passion.''

''I have been a member of Congress for the past 24 years, dedicated to making the federal government work for the people, to do for our community and state—and, yes, even internationally—that which we cannot do for ourselves,'' Vento said in February. ''The federal government can and should make a difference.''

When Democrats controlled the House, Vento was chairman of the Natural Resources subcommittee on national parks, forests and lands for 10 years, pushing for more

money for national parks and other environmental priorities.

''I think Bruce Vento has been one of the most impressive and effective congressmen in modern Minnesota history,'' said former Vice President Walter Mondale. ''It's hard to think of an environmental issue where his leadership has not been found.''

Vento worked on efforts to ban oil drilling on the coastal plain of the Arctic National Wildlife Refuge and on preserving tropical rain forests. The Wilderness Society recognized Vento's work in 1994 with the Ansel Adams Conservation Award.

''He's been a hero,'' said Debbie Sease, legislative director for the Sierra Club. ''He's done more for parks than anyone I know.''

Vento also helped establish the emergency shelter grants program and preserve the Federal Housing Authority.

President Clinton paid tribute to Vento at a dinner in June for his environmental record and work on behalf of the homeless.

''He has steered into law more than 300 bills to protect our natural resources,'' Clinton said. ''The thing I like even more about Bruce Vento is he cares about people, especially people without a voice—the homeless.''

Vento was born Oct. 7, 1940, in St. Paul and attended the University of Minnesota and Wisconsin State University. He worked as a science and social studies teacher before winning a seat to the state House in 1970. He was first elected to Congress in 1976.

For the last decade, Vento pushed a bill to make it easier for the Hmong—an ethnic group in Laos—who fought with U.S. forces during the Vietnam War to become U.S. citizens by waiving the English-language requirement for them.

After he was diagnosed with cancer, Vento made passage of the bill a top priority. His effort ended successfully when Congress approved the measure in May.

''This bill would have never been conceived or passed if it had not been for Bruce Vento,'' said Philip Smith, Washington director of Lao Veterans of America, which lobbied on behalf of the legislation.

''He reached across the aisle and worked and persevered to make this happen. He is our hero. He is a champion of the Hmong people.''

Vento is survived by his wife, Susan Lynch Vento, whom he married in August, and three sons.

[From the Minneapolis Star Tribune, Oct. 10, 2000]

REP. VENTO DIES IN ST. PAUL

(By Greg Gordon)

WASHINGTON, D.C.—Rep. Bruce Vento, D–Minn., died at his St. Paul home this morning after an eight-month battle with mesothelioma, a rare form of lung cancer usually associated with asbestos exposure.

Vento, a longtime environmental champion who planned to retire when his 12th term in office ends in January, celebrated his 60th birthday on Saturday.

Rick Jauert, Vento's press secretary, said the congressman died at 11:20 a.m. Twin Cities time at his home in St. Paul with his family by his side. He said he had no further details, and that Vento's chief of staff, Larry Romans, was flying to Minnesota, apparently to be with Vento's family and help with funeral arrangements.

Vento underwent surgery at Rochester's Mayo Clinic last February for removal of his left lung and diaphragm shortly after the fast-moving disease was discovered. But despite months of chemotherapy and radiation treatments, a person familiar with Vento's condition said in late September that the cancer had spread to his remaining lung. Doctors had drained fluid from Vento's remaining lung on at least two occasions.

''It's too bad he died so fast,'' former U.S. Sen. Eugene McCarthy, who held the same Fourth District congressional seat as Vento from 1948–58, said this afternoon. ''It's too bad to lose him. He was such an established person in the Congress, but cancer is pretty impartial.''

The former school teacher and state legislator leaves behind one of the most tangible legacies of any Congress member: He shepherded more than 300 laws that preserved natural lands from the Florida Everglades to the Alaska wilderness.

Since February 2000, Vento had been treated for malignant mesothelioma, a virulent form of cancer usually caused by asbestos exposure. Yet his final year in office included some of his most important legislative accomplishments, including easing citizenship requirements for Hmong veterans living in the United States.

Vento approached his ailment and last months in office with a graceful determination that won him the admiration of political friends and foes in Washington.

President Clinton hailed his fellow Democrat at a testimonial in June as a man who ''never stops being a teacher. As he fights a disease that has not yet yielded all it secrets to science, he's our teacher again. He's shown us all a lot about courage.''

Clinton made the comments at a bipartisan tribute dinner that Vento helped turn into a fund-raiser for scholarships to train future high school science teachers.

Vento was like that. As a legislator he was known for using every opportunity to pursue causes he held dear: Directing more resources to poor city neighborhoods, helping Hmong veterans, promoting public schools, raising the minimum wage and, always, protecting the environment.

Throughout the Reagan, Bush and Clinton years in Washington, he never gave up his belief in activist government.

SAVING WILDERNESS

In his first year in Congress he worked with others for the establishment of the Boundary Waters Canoe Area Wilderness. In every one of his 23 years in Congress, his name was associated with wilderness preservation legislation. He was best known in Minnesota as a defender of the ban on the use of motorized vehicles in the BWCA. At the beginning of his last term in Congress he ended up having to embrace a painful compromise that allowed two motorized portages there.

Vento was at the center of similar fights in dozens of other states because, before the Republican takeover of Congress in 1994, he was chairman of the House Subcommittee on National Parks, Forests and Public Lands.

In relentlessly pushing that legislation, Vento became better known in some parts of the West than he was in Minnesota.

''He spends all of his waking hours working against our interests,'' complained Charles Cushman, president of an organization of private property owners in Washington state in 1993. ''The name Bruce Vento is without a doubt a very dirty word in many communities in the West,'' Cushman said in an interview. ''Any place there's a national park, they fear Mr. Vento with a passion.''

Indeed, the Sierra Club credits him in part for preserving and protecting 5 million acres of wild lands during the decade he was chairman of the subcommittee. In addition, he tended the designation of 76 ''wild and scenic'' rivers. His passion for parks came to him through personal experience. His father, a Machinists union officer, was not wealthy and couldn't afford fancy holidays or a lake cabin.

''We depended on the parks along the St. Croix River,'' Vento recalled in an interview a few years ago. ''That was our Sunday picnic, our vacation.''

HIGH RANKINGS

If Vento received poor marks from conservative property rights groups, he was generally adored by environmentalists, though his occasional willingness to compromise—as on the motorized portages in the BWCA—cost him support from a few die-hards.

At the June testimonial dinner, Interior Secretary Bruce Babbitt called him ''a hero of the nation's parks'' and said Vento coached him on how to handle the Republican takeover of Congress, which threatened continued investment in some national parks.

''Bruce said to me, 'Don't panic. Don't make a deal with these guys,'' Babbitt recalled. The interior secretary said the GOP threat to cut parks funding evaporated after Vento advised him to draw a chart of national parks units in the districts of congressional opponents, including House Speaker Newt Gingrich.

It wasn't just the environmentalists who considered Vento a hero. He also received 100 percent rankings most years from labor and liberal interest groups, while getting extremely low ratings from conservative and Christian fundamentalist organizations.

In 1992, Vento, a Catholic, shifted his position on abortion legislation, saying his views had ''evolved'' to the point that he would support abortion rights while remaining personally opposed to abortion.

That shift brought him fully in line with the dominant views of the DFL in Minnesota and the liberal wing of the Democratic party nationally.

From his seat on the House Banking and Urban Affairs Committee, Vento in 1982 became one of the first members of Congress to urge action to deal with homelessness. His proposal that year to provide $50 million to repair derelict buildings for temporary shelter was never brought to a vote by the full House.

Vento persevered, however, and eight years later he was the prime sponsor of the $1.3 billion McKinney homeless aid bill, which won approval and was signed into law.

Vento's work on low-income housing was enhanced when he became chairman and later ranking member of the Housing and Community Opportunity Subcommittee.

On the Banking Committee he was an advocate for smaller banks and credit unions and for community reinvestment requirements for major financial institutions.

Before coming to Washington, Vento served several terms in the Minnesota House, where he was assistant majority leader under Speaker Martin Sabo, who would later be Vento's close colleague in Congress.

The two Twin Cities congressmen were twins only in voting record. In demeanor they couldn't have been more different. While the Scandinavian Sabo was reticent and disinclined to give speeches, Vento was known as a ceaseless orator who didn't seem to know how to end a sentence.

When St. Paul's nine-term congressman Joseph Karth decided to retire in 1976, he endorsed the voluble Vento for his seat. That and strong labor support got Vento the party endorsement despite opposition in the primary from St. Paul attorney John Connolly

and State Auditor Robert Mattson. Vento won that year with 52 percent of the vote, and would win reelection 11 more times.

FIGHTING FOR HMONG

After St. Paul became one of the major centers of Hmong immigration in the 1980s, Vento embraced the needs of the former Laotian hill tribespeople who had fought for the CIA's Secret Army during the Vietnam War. He pushed for federal housing and educational assistance and to waive the English-language requirement for citizenship for those who had fought with the United States in Laos.

In the 1990s, Vento's office became an informal Washington headquarters for this new group of Americans. His office wall was decorated with an enormous Hmong tapestry given in appreciation. And, on occasion, his inner and outer offices were lined with former Hmong soldiers in fatigues using his phones and desks to plan their lobbying assault on Washington.

After years of persistent advocacy by Vento and others, the bill easing citizenship requirements of Hmong veterans was passed by both Houses and signed into law in 2000 by President Clinton.

Lee Pao Xiong, a Hmong member of the Metropolitan Council, called Vento's decision to leave Congress at the end of his 12th term ''a great loss to our community. Bruce Vento was a strong advocate for the Hmong community, always willing to bear our concerns.''

The advocacy of the latest immigrant group by a man who was himself the descendent of immigrants was in the tradition of St. Paul, said Garrison Keillor, Minnesota's homegrown humorist. He said at the testimonial dinner that Vento never seemed like a slick Washington pol. ''Bruce is like St. Paul,'' he said, later describing Vento as a man of ''modesty and courage and passion.''

PERSONAL LIFE

Vento's final year in Washington was not filled with funereal sentiment. In August he married a fellow educator, Susan Lynch of Chatfield, Minn.

It was the first wedding for Lynch but not for Vento, who has three adult sons from his first marriage, Michael, Peter and John.

A week before the nuptials, Vento, smiling but wan, attended the Democratic National Convention in Los Angeles, appearing with former Vice President Mondale and Minneapolis Mayor Sharon Sayles Belton as the Minnesota delegation cast its ballots for Vento's friend from their first days together in the House, Vice President Al Gore.

Vento's energy astonished his colleagues. After his cancer was diagnosed in February, he underwent surgery at the Mayo Clinic for removal of his left lung and diaphragm. He lost 25 pounds and some of his hair as he completed a draining regimen of chemotherapy and radiation treatment.

''I'm looking forward to fishing,'' Vento told reporters and supporters who asked what he planned to do next. ''That's the ulterior motive in all the environmental protections I've fought for.''

His longtime colleague and partner in liberal Democratic legislative ventures, Sabo, seemed stunned by Vento's news, saying over and again, ''I can't imagine this place without Bruce around.''

In the weeks after Vento announced his illness and his plans to retire, Republicans—from former Rep. Vin Weber to Sen. Rod Grams—acknowledged his 24 years of service.

''Put the partisan differences aside,'' said St. Paul Mayor Norm Coleman. ''He delivered a lot for this community, and his passion will be missed.''

[From the St. Paul Pioneer Press, Oct. 10, 2000]

U.S. REP. VENTO DIES

(By Tom Webb)

U.S. Rep. Bruce Vento, St. Paul's unwavering voice in Congress for 24 years, died Tuesday morning at his home in St. Paul after a long bout with cancer. He was 60.

A native of St. Paul's East Side, Vento was famed as a champion for wilderness, consumers, working people and the homeless, who never forgot the everyday struggles of average folks fighting to build a better life.

Vento died at 11:20 a.m., with his family at his bedside, his staff announced.

Vento was elected to Congress in 1976 from the Fourth Congressional District, covering Ramsey County and a sliver of Dakota County. He was the longest serving of a trio of notable DFLers who for a half-century have served the Fourth District in Congress, a group including Eugene McCarthy and Joseph Karth.

He was suffering from mesothelioma, a form of cancer usually linked with exposure to asbestos.

He is survived by his wife, Susan Lynch; his three sons, John, Peter and Michael; their spouses, four grandchildren; his parents, Frank and Anne Vento; and seven brothers and sisters and their families.

Funeral arrangements are pending.

Mr. WELLSTONE. Mr. President, BRUCE was elected to the State legislature in 1970 and to the House of Representatives in 1977. Before that, he had been a science teacher on the lower east side of St. Paul. He is a true product of the lower east side.

His family is wonderful. Sheila and I have had the chance to spend a lot of time with his family. It is a wonderful, caring, Italian Catholic family. I believe Frank and Annie had eight children; BRUCE was the second oldest.

I want to say two or three things if I may. One, I want to say to BRUCE's family and to his wife Sue: Sue, you have been a gift from Heaven for BRUCE and his family.

I talked to BRUCE Saturday. He turned 60. Today he passed away. When he passed away, all of his family were with him. All of them said: You can let go.

What a beautiful, caring, loving, wonderful family. And what a beautiful, loving, caring man. BRUCE has done so much for so many people. He was so committed to public service. But most important of all, to me, he was a friend whom I will miss.

I remember once he was going to come over to our home in St. Paul to talk about a big dispute over the Boundary Water Wilderness Area. We were supposed to meet early in the morning, but there was a huge snowstorm and all the weather reports were that all the schools were closed. People weren't going to be able to go to work. Everything was shut down. It was impossible to get around. We were supposed to meet at 8 o'clock in the morning. At 5 minutes to 8 o'clock, there was a knock on the door. There was BRUCE. He was in seventh heaven. This was like the outdoors, this was snow, this was Minnesota, and he was there. He loved the environment and did so much for our State and our country.

I say to BRUCE's family, what a great Congressman. It is easy to say that when someone has passed away, but he truly was. People in Minnesota loved this man. They always will. They will never forget him, will never forget all he has done for our Fourth Congressional District and for our State. Sheila and I will never forget BRUCE.

BRUCE is like my friend, Mike Epstein, about whom I spoke. Mike was here for all these years, so committed to public service. Two men, they died too young, from the horrible disease of cancer, two men who were so committed to public service, so committed to people.

From this day on, my belief is I have two friends who are looking down from heaven. I will be talking to them every day. I know BRUCE's children and grandchildren will be talking to him every day.

I yield the floor.

Mr. THOMAS. Mr. President, I certainly commend the Senator on his moving tribute to BRUCE VENTO. Certainly we can tell how emotionally attached the Senator was to that gentleman.

I knew him also. I served with him on the Resource Committee in the House. Certainly he was a fine gentleman. The Senator has described him well. We are all very sad at this loss.

The PRESIDING OFFICER. The Senator from Wyoming

THE ROLE OF THE FEDERAL GOVERNMENT

Mr. THOMAS. Mr. President, I wanted to go back to the remarks of the Senator from North Dakota as he talked about some of the issues that all of us are concerned about, issues such as pharmaceuticals—how we make that work; issues such as Medicare—which needs, after these years, some real, examination, some changes so over time we can ensure provision of health services to all who are beneficiaries. No one argues with that.

He also mentioned the Patients' Bill of Rights, which is interesting. I do not know of anyone in the Senate or the other body who is not for some form of the bill of rights. The unfortunate part is that there are some defining issues within that subject, defining issues that mean a lot in terms of where it goes in the future. The Senator failed to mention that. This is sort of the technique of those who favor more government. That is to simply talk about the title without talking about what is involved.

We have had in the Senate for a good long time—the Presiding Officer has

participated—in a conference report, language designed to bring out a Patients' Bill of Rights that we could pass. Frankly, the Senator from North Dakota and others have opposed that.

One of the questions that is very important is whether or not it is going to be a bill of rights for patients or whether it is going to be a bill of rights for tort lawyers. If you have to go to court whenever there is a controversy, that is, of course, not what we seek to do.

So I want to make the point that you can talk in general terms about many issues. Everyone embraces those issues. But when you talk about the kinds of things that are important, within those issues, to implement them in a manner in keeping with the philosophy that you have over time, then that becomes quite a different matter. Of course, that is why we find ourselves at some loggerheads from time to time.

I have spoken before, and will again, about the amount of effort we have seen from the other side of the aisle to put obstacles in front of these issues and to, really, be more interested in making an issue rather than a solution. I am sorry for that. We are, of course, down now to the end, and we need to do something.

Let me talk for a moment or two about some of the things I think we face, not only in this body right now but that we will face in the future, we will face in this election. We need to make decisions as to where we are going. The key to those decisions in my view, regardless almost of what the decisions are—whether they are business decisions, whether they are personal decisions, whether they are political decisions—is to get some idea of what we want the result to be and where we are going to go over a period of time, and then measure whether or not what we are doing in the interim leads us to the accomplishment of those goals. It seems to me that is one of the most important things we can do.

So we are going to find ourselves, I think—I half hope, maybe—with some different philosophies from this past year, and we are going to have to choose.

I just returned from my State. I am going to get back, I hope, pretty soon and spend some time in schools with a voting program to get kids involved in politics, involved in elections; to talk about the issues and begin to get some feel about what it means to have a government of the people and by the people and for the people. I am excited about that because there are differences in philosophy.

Sometimes we find it difficult to define them, as we have these debates, as we will have tomorrow night. It is true; politicians have a little affinity for making things a little bit blurred. But it is up to us, then, as voters, to really separate those things and decide where we want to go; do we want more Federal Government in our lives or do we want less? It is up to us to define what we think the role of the Federal Government is and how it impacts us as citizens. What is the role of local and State governments? What is the role, then, really of individuals? That is what it is all about: individual freedom—opportunities for success.

We talk about taxes. Do we want more taxes and more Government? Do we want less Government so people can keep more of the money they earn? The real issue, of course, is Federal control down into communities, down into counties, down into schools. Or, indeed, do we want county commissioners and school boards and State legislators to make decisions that fit the decisions made by the people who have to live with them. There is a great deal of difference between the needs we have for the delivery of services in Philadelphia and in Greybull, WY. So those are the kinds of things that are taken into account.

We have talked about a surplus. There are reports of a surplus, certainly. I might say, it is more difficult to control the size of Government when you have a surplus than it is when you do not because, regardless of what the issues are, why, where we have a surplus we ought to spend the money. The other side of that, of course, is if we have a surplus there are certain priority things we ought to do but maybe we ought to put some of those surpluses back with the people who own them. They will be very important there.

We have different plans to deal with them. One of the plans that is out there takes about half of those surpluses and puts them into Social Security. One of the real issues before us is young people who are in their first jobs and pay 12.5 percent of their income, along with their employer, into the Social Security fund. In 40 years, are they going to have any benefits accruing to them? Not unless we make some changes.

The options are just to continue what we are doing and take more tax money to put into it, or to make some changes—for instance, to give some opportunities, based on the choice of the recipient, to put some of that money into the private sector, to get the return on that investment up from 2.5 to 3 percent, up to 4 percent or 5 percent or 6 percent, which certainly would make it more likely that those benefits are going to be there when their benefits are earned and ready to serve them.

When the Senator from North Dakota talked about tax cuts for the top 1 percent, that is not what is being proposed. Indeed, regarding the proposal that is out there that has caused all the 1 percent talk, the people who make the 1 percent, who make the most money in this country, will have a higher proportion of taxes on them than they have had before. Those taxes are for everyone who pays taxes. I think that is an excellent way to do that, to have marginal cuts and double the tax credits. Let's get rid of the estate tax. That doesn't do away with tax on the value, by the way, because that will be taxed when that asset is sold with the capital gains tax. But why should death cause you to have to sell the farm to pay the taxes? It should not.

These are some of the decisions that are out there to be made. Certainly they are important ones. I will not argue about what is right. We hear a lot of this: Let's do the right thing.

That depends on about whom you are speaking, what the right thing is, of course. So there are choices we have to make, legitimate choices. I hope all of us have a chance in this election to sort those out for ourselves and be able to do something with them.

Medicare is another one. I mentioned that before. You know, what we have is a Medicare program that, unless it is changed, cannot continue either.

There is something on which all of us can agree: We want to continue. If that is the goal, what do we have to do in the interim to ensure that happens?

One of the things we have to do is give people some choices. The way it is now, when you are 62, 63, 65, you have to take what is there, and that is the only choice.

There are people who have supplementary policies. My mother has a supplementary policy that provides pharmaceuticals. She is perfectly happy with that and wants to continue with that. There are people who do not have supplementary policies. They cannot afford them. They ought to have pharmaceutical coverage, and there ought to be choices in the way that is done. That is very possible. People ought to be able to choose. The alternative to what we suggested has no choice.

Education: It has been a very long time since we have been able to do something quite different on elementary and secondary education. We talked about it. We have had 5 weeks of discussion in this Congress on education. Again, everyone is for education. I do not know anyone who does not want to make education more effective, who does not want to make it better for everyone. What holds it up is who makes the decisions.

This administration has insisted on those dollars that go from the Federal Government to the States, regardless of what the needs are in a particular school district, that they either be for 100,000 more teachers or they be for buildings. Both of those are legitimate needs, but there are school districts that do not need more teachers and the school buildings are in pretty good

shape. What they need is high-tech equipment, for example, and they should have an opportunity to spend that money as their needs dictate. That is the debate.

Sometimes it is a little hard to cut through: ''Those guys are against education.'' That is not so. These are the choices and these are the choices of how we get around to resolving the problems. I hope we will soon.

There are always going to be differences of view. That is why we vote. The problem is we have not been able to bring those things to the floor, and every time we bring up education, someone brings up one of the issues on which we have already voted three or four times—gun control, minimum wage, whatever—to make sure that what we are focusing on does not happen.

Here we are now 1 week past our dedicated time to adjourn. Frankly, I am one who thinks that if we have business to do here, we ought to be here until we get it done. That is our job. We ought to get the bills out here, vote on them, move them on up. If the President wants to veto them, if he wants to try to use leverage to threaten and shut down the Government, let him do that, but he is the one who is going to shut down the Government. That is where we are.

It is an interesting time, an important time. I am confident we will move more quickly to resolve these items this week than perhaps we have over the last couple of weeks.

ACCESS TO NATIONAL PARKS

Mr. THOMAS. Mr. President, I want to express my views on a more parochial issue—not entirely parochial, as a matter of fact; it has to do with access to national parks. I have served over the last 6 years as chairman of the National Parks Subcommittee. We have been very involved with where we are going and have hopefully some idea where we want to be with parks.

Everybody recognizes the value of the national assets. It is one of the neat things. In the United States, we have 379 national parks that work in conjunction, of course, with State parks and local parks. The reasons for having a park, it seems to me, are, No. 1, to preserve the resource, of course, and, No. 2, to allow that resource to be enjoyed by the people who own it —the taxpayers.

We have a little difficulty from time to time with both of those things. We passed a bill, Parks 2020, last year which puts more emphasis on inventory, taking care of the resources. We need to put more effort into that, and we are working on that.

We have had a lot of talk about infrastructure in some of the larger parks and the things that need to be done, the money that needs to be spent for preserving the resource, such as on sewers. In the last budget that came from this administration, there was more money for acquisition of new parks than there was for maintenance of the parks we have. To me that is a problem.

If you want to enjoy it, you have to have access. One of the things that is controversial in our part of the world—in Yellowstone, Teton Park—which is equally true in New England and other places, is access for snow machines. For 3 years we have had an ongoing study in Yellowstone Park prompted by a lawsuit. Today they are coming out with their report on the environmental study and their recommendations as to what we should do. It is out for public comment for 30 days. I am going to ask that the 30 days be extended to 60 so people have an opportunity to review it.

There are difficulties with snow machines. There is difficulty with the noise. There is some difficulty with the pollution. The problem is the Park Service for 20 years has not sought to manage that growing industry and has simply avoided doing anything with it. Then suddenly there is a lawsuit filed against them, and there are some things that need to be changed. Instead of seeking to manage it, instead of seeking to find some remedies, instead of seeking to make some changes, they simply want to eliminate it. That is a mistake. There are ways the Park Service can manage those things. They can separate cross-country skiers from snowmobilers. They can limit the number if there are too many. But the EPA and the Park Service have never looked toward establishing standards for these machines.

I have visited a number of times with the manufacturers, and they are willing to change those machines. They did some experimental work in Jackson Hole, WY, last year and had machines that are only as loud as normal voices. Of course, no one is going to invest in those unless they have some idea that there are standards, and if they comply with them, they will be useful.

I hope we can change the idea of either nothing or no management and give some time to move toward the adjustments that can be made, toward some management in the parks so people can continue to enjoy them.

I see my friend from Kansas. I yield to the Senator from Kansas.

The PRESIDING OFFICER. The Chair recognizes the Senator from Kansas.

Mr. BROWNBACK. Mr. President, I ask unanimous consent to speak for up to 20 minutes as in morning business.

The PRESIDING OFFICER. Without objection, it is so ordered.

VICTIMS OF TRAFFICKING AND VIOLENCE PROTECTION ACT OF 2000

Mr. BROWNBACK. Mr. President, I appreciate my colleague from Wyoming allowing me to speak on a topic that we will be taking up fully tomorrow. Tomorrow this body will take up the Victims of Trafficking and Violence Protection Act of 2000. That will be the business of the day. Tomorrow we will vote on two bills associated therewith. The development of this legislation has been in progress for most of this year, and there are several pieces in this bill.

What I will do today is discuss with my colleagues what is in this bill, why it is important, why it passed the House of Representatives 371–1, and why it is important that we address this important issue at this particular time.

Senator WELLSTONE and I have been working on this legislation for this past year. It is the companion piece to a bill that passed in the House, sponsored by CHRIS SMITH and SAM GEJDENSON. The House bill is known as the Trafficking Victims Protection Act of 2000.

Our antitrafficking bill is the first complete legislation to address the growing practice of international trafficking worldwide. This is one of the largest manifestations of modern-day slavery internationally. Notably, this legislation is the most significant human rights bill of the 106th Congress if it is passed tomorrow as is expected. This is also the largest anti-slavery bill the United States has adopted, arguably, since 1865 and the demise of slavery at the end of the Civil War. Therefore, I greatly anticipate this vote tomorrow in the Senate on this very important legislation.

Senator WELLSTONE's and my trafficking bill, which passed in the Senate on July 27 of this year, was conferenced to reconcile the differences with the House bill. The conference report was filed on October 5, Thursday of last week. The final conference package contains four additional pieces of legislation which are substantially appropriate to our bill.

Most significant among those bill amendments is the Violence Against Women Act, which is part of this overall conference report—it is known as VAWA—which provides relief and assistance to those who suffer domestic violence in America. It is an important part of the package. It is a key piece of legislation that this body has previously passed. I am glad that it is part of this package. And it will pass as well with this overall package so we can help people caught in domestic violence.

Thus, the overall four bills included in this conference report are: The sex trafficking bill that I mentioned at the outset; VAWA, the Violence Against

Women Act; Aimee's law, which provides for interstate compensation for the costs of the incarceration of early-released sex offenders who commit another sex crime in a second State. The 21st Amendment Enforcement Act is also in this overall conference report. It allows for State attorneys general to enforce their State alcohol control laws in Federal court, including laws prohibiting sales to minors, which strengthens the grant of authority to States under the 21st amendment to the Constitution. The final piece of legislation in this conference report is the Justice for Victims of Terrorism Act, which authorizes the payment of foreign seized assets to victims of international terrorism.

The last step to adopting this legislative package rests with the Senate tomorrow. As I stated previously, it cleared the House on Friday by a vote of 371–1.

This legislation is our best opportunity to challenge the largest manifestation of current slavery worldwide, known as trafficking. I want to describe that term and what this bill does to get at what is taking place in the form of trafficking.

This practice of trafficking involves the coercive transportation of persons into slavery-like conditions, primarily involving forced prostitution, among other forms of slavery-like conditions.

Trafficking is the new slavery of the world. These victims are routinely forced against their will into the sex trade, transported across international borders, and left defenseless in a foreign country.

This bill also addresses the insidious practice known as ''debt bondage,'' wherein a person can be enslaved to the money lender for an entire lifetime because of a $50 debt taken by the family for an emergency. This is a common practice in countries such as India and Nepal, among other places throughout the South Asian region.

People of conscience have fought against the different manifestations of slavery for centuries.

I might note that my State came into the Union under the fight of whether or not it would be a free or slave State in the 1860s. That was the big fight. In my State, we had bleeding Kansans, where they were referred to as those who were pro-slavery and those who were abolitionists.

The freedom forces fought guerrilla warfare to determine whether the State would be slave or free. The first election was actually stolen by the slave-State proponents, and there was a constitution they put forward that would allow slavery in Kansas. The free-State forces overtook them. They had a free election. The free-State ballot was elected and won. Kansas came in as a free State—probably one of the decisive events in setting off the Civil War—because then the balance of power in Washington shifted.

Under the Kansas-Nebraska Act, Nebraska was thought to come in as a free State, Kansas as a slave State, and Washington's balance of power would be maintained. When the abolitionists moved out of the Northeast to Kansas to settle, and to make sure it would be a free State, that tipped the balance of power and clearly led, according to historians, to the start of the Civil War. That is the history of my State. It is a noble one of fighting for freedom.

This anti-slavery legislation is in the tradition of William Wilberforce and Amy Carmichael of England, who were ardent abolitionists against slavery in the 19th and 20th centuries. Amy Carmichael was a British missionary to India at the turn of the last century and in the early 1900s. Upon arriving in that country, she was mortified to discover the routine practice of forced temple prostitution taking place. This was and continues to be a practice where young girls, from age 6 onward, are dedicated to the local temple, and are then forced into prostitution against their will to generate income.

Upon this morbid discovery, Amy Carmichael began to physically steal the young girls away from this incredibly degrading form of slavery. She would then hide the girls so they would escape the inevitable backlash of violence against these little girls. Eventually, the government outlawed this practice of forced temple prostitution as a result of Amy Carmichael's efforts. However, it bears noting that this terrible practice continues today in some rural villages throughout South Asia.

This bill challenges the myriad forms of slavery, including sex trafficking, temple prostitution, and debt bondage, among other forms.

This new phenomenon of sex trafficking, unfortunately, is growing exponentially. Some report that it is, at least, a $7 billion-per-year illicit trade, exceeded only by the international drug and arms trade in the illegal category.

Its victims are enslaved into a devastating brutality against their will, with no hope for relief or justice, while its perpetrators build criminal empires on this suffering with impunity. Our legislation will begin to challenge these injustices.

This is the new slavery of the world. As hard as it is to believe, women and children are routinely forced against their will into the sex trade internationally. They are usually transported across international borders so as to ''shake'' local authorities, leaving the victims defenseless in a foreign country, virtually held hostage in a strange land. The favored girls are in the age range of 10 to 13 years old.

I hope some people here can look at their own children or grandchildren and ask how this could possibly happen to somebody so young.

This bill is the first complete legislation to address this practice known as sex slavery, which has risen dramatically in the past two decades. It has risen dramatically with the increase of child pornography, sex tours in Eastern Asia, and the general popularizing of the sex industry worldwide. This mass trafficking of women and children, which includes both girls and boys, has been compared to some of the slave trade practices in the 18th and 19th centuries.

Professor Laura Lederer of Johns Hopkins University has identified the trafficking routes internationally. I want to put some of these routes up on a chart so my colleagues will be able to see where she has tracked these routes to take place.

You can see on the chart the trafficking routes from Russia and the Newly Independent States to other places around the world. We actually had a lady in the Foreign Relations Committee who testified she had been trafficked out of the Ukraine into Israel.

You can see all these routes being described going into Canada, into the United States, into Mexico, into Europe, and into other places in South Asia, into Australia and into South Africa.

These are the trafficking routes on which Professor Lederer has worked. She has studied this for nearly 10 years, describing and trying to put a finger on where these routes go.

This chart shows trafficking routes going into the United States. By our own Government estimates, about 50,000 girls are trafficked into the United States annually by this sex trafficking, this sex prostitution business. These are the routes shown here on this chart, with 50,000 girls per year trafficked into the United States. According to the State Department estimates, these are the routes coming in from Asia, the ports of entry they come in to the United States. Here on this chart is shown the routes coming from Central America and South America.

Shown here on this chart are the routes coming in from Europe and Africa and the ports of entry where they have been trafficked. Again, Dr. Lederer's Protection Project work showcases the same. Here is where they are coming from.

It is of note to say, as well, that by our Government estimates this is a growing practice. It is growing more because organized crime is getting more and more into it. We heard testimony in committee that organized crime is actually favoring going into this over drugs because they can sell their product more than one time. And in some places where they traffic in prostitution it is not illegal. So they are going into it in a nonillegal category, where it is a legal business. The

category of sex trafficking is growing rapidly.

Other routes that have been discussed with us in committee include girls sold or abducted from Nepal into India. Nepalese girls are prized because of their beauty and their inability to defend themselves given the situations out of which they are coming.

In Eastern Asia, most abductees are innocent tribal girls from isolated mountain regions; they are forced into sexual service, primarily into Thailand and Malaysia.

I met with some of these Nepalese girls as they had returned, being taken back from the brothels of India. I met with them in January of this year in Katmandu. It was despicable to see these girls, many of them taken at 11, 12 years of age, coming back 16, 17 years old, two-thirds of them having AIDS and/or tuberculosis. It is a deplorable situation.

This is how the traffickers obtain their unsuspecting victims. Fraud is commonly used by traffickers against villagers in underdeveloped areas. Typically the buyer promises the parents that he or she is taking their young daughters to the city to become a nanny or domestic servant, giving the parents a few hundred dollars as a down payment for the future money she will earn for the family. Then the girl is transported across international borders, deposited in a brothel and forced into the trade, until she is no longer useful, having contracted some disease. She is held against her will on the false premise that she must work off her debt which was paid for the cost of her transportation, which typically takes several years. In fact, in India it is common for indentured laborers generally, not even sex workers, simply manual labor, to work 10 years or more to pay off a $50 debt.

The use of force to obtain the victim is common in the cities, where a girl is physically abducted, beaten, and held against her will, sometimes in chains. I have talked with these girls myself, as they appeared in two hearings that Senator WELLSTONE and I held before the Foreign Relations Committee. Some of them came in disguise because they feared the retribution their families might suffer back home, for reason of their testimony in exposing the slave trade mafia. That is how insidious and widespread this practice is.

Existing laws internationally fail to make clear distinctions between victims of sexual trafficking and the perpetrators. Also, the victims frequently do not have legal immigrations status in the countries into which they are trafficked, and the victims are punished even more harshly than the traffickers.

Our legislation establishes an entirely different approach of punishing the perpetrators but not the victims. Our legislation also facilitates important and baldly needed advocacy to raise awareness regarding sexual trafficking throughout the world.

Additional legislative measures include:

Providing new criminal punishment with enhanced sentences for persons convicted of operating such slavery enterprises in the U.S., as present criminal statutes are inadequate to obtain sentences commensurate with this new form of sex trafficking and slavery;

Establing a reporting and advocacy mechanism at the State Department which would monitor efforts taken by foreign countries to criminalize, punish and combat international sex trafficking within their borders; and

Assistance for victims in the U.S., including authorization of grants to shelters and rehabitation programs.

The legislation further includes the creation of a new form of visa for trafficking victims. This will substantially allow for more aggressive prosecution, as well as the protection of these witness victims.

It enhances cooperation and assistance with law enforcement agencies in foreign countries for the investigation and prosecution of international sexual trafficking, as well as promoting assistance in drafting and implementation of legislation.

And it promotes the creation of worldwide awareness programs to alert unsuspecting, potential victims of this practice.

Senator WELLSTONE and I believe this is the first sex trafficking legislation to pass around the world. We are hopeful it will become a model for other countries to deal with this pernicious, insidious practice that is part of the dark side of the new globalization of the economy.

I support the expansion of the economy. The globalization taking place can be a very positive thing, such as what is taking place today with the signing of permanent normal trade relations with China by the President that this body passed. But we also have to recognize that there are dark aspects of globalization; this being one of them. We need to deal with that as well.

Trafficking victims are the new enslaved of the world. Until recently, they had virtually no advocates, no defenders, no avenues for escape, except death, to release them from their obscene circumstances. This is changing rapidly, and a new human rights movement is forming on behalf of these victims and against the trafficking networks.

This growing movement runs from right to left, from William Bennett and Chuck Colson to Gloria Steinem; all are involved in supporting this legislation. Our legislation is part of that movement, providing numerous protections and tools to empower these brutalized people towards re-capturing their dignity and obtaining justice.

Trafficking has risen dramatically in the last 10 to 15 years with experts speculating that it could exceed the drug trade in revenues in the next few decades. It is sadly observed that drugs are sold once, while a woman or child can be sold 20 and even 30 times a day. This dramatic increase is attributed also to the popularizing of the sex industry worldwide, including the increase of child pornography and sex tours in Eastern Asia that I previously mentioned.

A Washington Post article entitled, ''Sex Trade Enslaves East Europeans,'' dated July 25th, vividly captures the suffering of one Eastern Europe woman who was trafficked through Albania to Italy:

> As Irina recounts the next part of her story, she picks and scratches at the skin on her face, arms and legs, as if looking for an escape—she says the women were raped by a succession of Albanian men who stopped by at all hours, in what seemed part of a carefully organized campaign of psychological conditioning for a life of prostitution.

This awful practice must be challenged, and our legislation would do exactly that.

In closing, there is a unique generosity in the American people, who are respected internationally for their love of justice. As we challenge this dehumanizing trade, an inspired movement is growing in America and worldwide, a modern-day abolitionist movement. Please make this legislation a reality for the countless people who are presently lost to this modern day slave trade. Please vote for passage of this historic anti-slavery legislation and move forward this modern abolitionist movement.

Mr. President, I yield the floor and suggest the absence of a quorum.

The PRESIDING OFFICER (Mr. ROBERTS). The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. BROWNBACK. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

EXTENSION OF MORNING BUSINESS

Mr. BROWNBACK. Mr. President, I ask unanimous consent that the period for morning business be extended until 4:30 under the same terms as previously ordered.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. BROWNBACK. I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. BYRD. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. BYRD. Mr. President, what is the order of business?

The PRESIDING OFFICER. The order of business is that the Senate is in morning business until 4:30.

A TRIBUTE TO SENATOR RICHARD BRYAN

Mr. BYRD. Mr. President, we have all heard the phrase that in this world—especially in this body—there are workhorses and there are show horses. That is very true. I would like to reflect on one of the workhorses of the Senate who will be retiring at the end of this Congress, someone who has served his State, served his country, and served in this body with distinction.

Theodore Roosevelt once said, ''Far and away the best prize that life offers is the chance to work hard at work worth doing.'' Senator BRYAN, one of the workhorses of the Senate, has made the most of his chance to work hard at work worth doing.

In addition to serving his constituents well, Senator BRYAN also has served the Senate well. He was asked to serve on the ad hoc committee that took testimony in the impeachment trial of U.S. District Judge ALCEE L. HASTINGS in 1989. In 1991, in the aftermath of the Keating Five scandal, Senate leaders named Senator BRYAN to a new task force to decide where to draw the line of propriety in such situations. His steady service helped to restore public confidence in the Senate, shaken by that troubling incident.

During the 103rd Congress, he was chairman of the Ethics Committee when the committee began an investigation into charges of sexual harassment leveled against former Senator Bob Packwood. Serving on the Ethics Committee is a thankless task. No Senator ever asks to serve on that committee. It does not generate the appreciation of constituents, nor does it particularly endear a Senator to his colleagues. This is important work, however—work that protects the integrity of this body. And as one who has great respect for this institution, I appreciate the exemplary job that Senator BRYAN did in steering the Senate through some tumultuous times.

Senator BRYAN has used his position in the U.S. Senate not only to advocate for his constituents in the great State of Nevada but also to protect consumers across the Nation. Ten years ago, as the chairman of the Commerce Committee's Consumer Subcommittee, Senator BRYAN oversaw the first standalone reauthorization of the Consumer Product Safety Commission since 1981. This was a hard-earned victory for consumers nationwide. Senator BRYAN was also successful in securing passage of legislation that he authored requiring the installation of passenger-side airbags in all automobiles sold in this country, a safety feature responsible for saving hundreds of lives.

Senator RICHARD BRYAN's career has been one of true and diligent public service. I am told that his experience in elected office began when he was chosen to be president of his eighth grade class at John S. Park Elementary School. He served in the U.S. Army, completing his military service in the Army Reserves as a captain. Upon completion of law school, RICHARD BRYAN returned to Nevada and began a career in public service that has spanned more than three decades. In 1964, Mr. BRYAN became a deputy district attorney in the Clark County District Attorney's Office. Two years later, he was appointed Clark County's first public defender. His legislative service to Nevada began in 1968 when he was elected to the Nevada State Assembly. Following a second term in the State Assembly, he was elected to the Nevada State Senate in 1972 and was reelected in 1976.

Senator BRYAN won his first statewide election to become Nevada's attorney general in 1978. He served as the State's chief law enforcement officer until 1982, when he was elected to the first of two terms as Nevada's 26th Governor. In 1988, Senator BRYAN ran for the U.S. Senate, defeating the incumbent Senator, and went on to be reelected to the Senate in 1994. That is a very respected and impressive record, Mr. President—a life devoted to public service at virtually every level of our government.

Senator BRYAN leaves the Senate as a young man—youth being relative. As I look back on his many years of public service, I am confident that in whatever endeavor he chooses next, we can expect more fine work—work worth doing—from Senator BRYAN. He is a man who can always be proud to look at himself in the mirror each morning. He will see a reflection of fine work in the past, as well as the great opportunity to do well each day.

Mr. President, I wish RICHARD BRYAN and his lovely wife every good thing in the years ahead. I hope he will come back to see us often.

Mr. President, before I was recognized, I saw another Senator on the floor and I think he was about to seek recognition. I suggested that he go ahead and get recognition. But he suggested that I get recognition. So I did. If my friend, the Senator from Wyoming, wishes to be recognized, I will be very glad to yield the floor. I have a couple of other speeches, but I will be happy to listen to him before I continue.

Mr. ENZI. Mr. President, I thank the Senator from West Virginia. I have a few articles on U.S. policy that I would like to have printed in the RECORD and make a couple of comments on them.

Mr. BYRD. Mr. President, I will be glad to yield the floor with the understanding that I retain the floor when the distinguished Senator has completed his remarks.

The PRESIDING OFFICER. Without objection, it is so ordered. The distinguished Senator from Wyoming is recognized.

Mr. ENZI. Thank you, Mr. President.

NATIONAL POLICY ISSUES

Mr. ENZI. Mr. President, over the last couple of weeks we have had several debates on this floor that dealt with national policy, and, of course, with the debates on television, there are many issues related to national policy. I take this opportunity to relate how those policy issues are being viewed in Wyoming. I know that is kind of the melting pot and the test center for the United States. I say that in all sincerity because I talk to these people every weekend when I go home, and I know it is a real center of common sense with a real concern about a lack of national policy on some very important issues.

They talk about foreign policy and how we don't appear to know how to go into a war. They talk about energy policy, the price of gasoline, and how long we have been addressing that. They talk about Social Security policy.

They hear about the lockbox, and they have watched six or seven filibusters against the lockbox to protect Social Security. They hear about needing to save Social Security first and then not seeing any action on that.

I want to suggest, too, that our country needs policy. We are not talking about hindsight; we are talking about foresight. We are not talking about polls; we are talking about leadership.

There were a couple of editorials in Wyoming that dealt with the recent tapping of the Strategic Petroleum Reserve. One of them was in the Wyoming Tribune-Eagle, which is the main paper in Cheyenne, WY, the State capital of Wyoming. It starts off by saying:

> President Bill Clinton's decision to direct the Department of Energy to release 30 million barrels of oil from the Strategic Petroleum Reserve is viewed by the White House as a way to lower fuel prices and reduce our country's dependence on foreign oil.
>
> Nice try, Mr. Clinton.
>
> Each day, the world oil market produces 77.1 million barrels of oil and consumes 75.6 million barrels. The United States consumes 20 million barrels per day. The additional 30 million barrels is equal to about a 36-hour supply.
>
> * * * * *
>
> Higher energy prices fall squarely on the shoulder of the American people, the government's strangle-hold on refineries and the White House.
>
> * * * * *
>
> Let's not forget our country's thirst for oil. Since 1991, the amount of oil imported by the United States has increased an average of 5.3 percent per year.

Mr. President, I ask unanimous consent that the entire editorial be printed in the RECORD. I hope everybody will

read it. It gets into more detail about policy and suggests some things that need to be done.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

OUR VIEW

OIL RESERVES—TAPPING THIS SUPPLY WON'T SOLVE ENERGY DEPENDENCY

President Bill Clinton's decision to direct the Department of Energy to release 30 million barrels of oil from the Strategic petroleum Reserve is viewed by the White House as a way to lower fuel prices and reduce our country's dependence on foreign oil.

Nice try, Mr. Clinton

Each day, the world oil market produces 77.1 million barrels of oil and consumes 75.6 million barrels. The United States consumes 20 million barrels per day. The additional 30 million barrels is equal to about a 36-hour supply.

What Mr. Clinton did was wrong. Releasing the oil from the reserve to influence market prices sets a dangerous precedent. The oil reserve was created in 1975 to protect Americans from countries that decide to cut off oil exports to the United States, not to manipulate prices. Any unexpected cold snap, natural disaster, cutback in OPEC production or political unrest that leads to a disruption in world supply could quickly overwhelm any short-term benefit from tapping into our oil reserves.

Granted, releasing the oil may have a short-term effect on prices, but markets eventually will refocus on the long-term conditions—influenced primarily by world supply and demand for oil—that have driven up prices during the past years.

Higher energy prices fall squarely on the shoulder of the American people, the government's strangle-hold on refineries and the White House.

Since 1983, access to federal land in the West—where 67 percent of America's onshore oil reserves are located—has declined by 60 percent. Mr. Clinton has used his executive powers to severely limit oil and gas activity on government land, and the search for new domestic offshore oil has been limited to parts of the Gulf of Mexico and Alaskan waters.

Let's not forget our country's thirst for oil. Since 1991, the amount of oil imported by the United States has increased an average of 5.3 percent per years.

While American refineries are operating at a 95.4 percent utilization rate, up from 94.1 percent a years ago, there is little margin for error. It's uncertain if American refineries will be able to process the oil released from the reserves fast enough to make a difference in gasoline prices or home heating oil inventories. The newest oil refinery was built nearly 25 years ago. That's because the Clean Air Act and other environmental requirements tied to upgrading or building new refineries restrict private business from building additional refining capacity.

The administration's failure to establish a long term domestic energy policy that guarantees America's energy independence is largely to blame for high gas prices at the pump.

The next president will need to address this nation's dependence on foreign oil that leaves both the economy and national security at risk. Unless the White House is ready to encourage the development of domestic energy resources, America will remain overly depend on foreign production.

That's the real tragedy.

Mr. ENZI. Mr. President, I also cite an editorial that appeared in the Riverton Ranger, Riverton, WY, with some of the same sentiments:

The Clinton-Gore administration has announced its intention to sell 30 million barrels of oil from the nation's strategic reserve.

This amounts to less than a two-day supply of oil for a country that uses 19 million barrels of oil a day.

The rationale for the release of oil from the salt mines is that the administration wants to make sure that no Americans are cold this winter, due to a shortage or too high prices for home heating oil.

The image of householders backing up to their burned-down home comes to mind. The optimist in the family warmed by the glowing embers as the fire dies down after consuming the house, remarks that ''at least we'll be warm tonight.''

That is about what the energy policy amounts to—burning down our strategic house to take care of a little blip that doesn't solve the problem at all—again, lack of an energy policy.

I ask unanimous consent that the complete editorial from the Riverton Ranger be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

The Clinton-Gore administration has announced its intention to sell 30 million barrels of oil from the nation's strategic reserve.

This amounts to less than a two-day supply of oil for a country that uses 19 million barrels of oil a day.

The rationale for the release of oil from the salt mines is that the administration wants to make sure that no Americans are cold this winter, due to a shortage or too high prices for home heating oil.

The image of households backing up to their burned-down home comes to mind. The optimist in the family, warmed by the glowing embers as the fire dies down after consuming the house, remarks that ''at least we'll be warm tonight.''

How ironic that the same administration that continues to lock up more of the public land from whence comes much of the nation's oil, designates more acreage as national monuments, classifies more of the public lands as defacto wilderness through roadless designation, would then provide temporary relief from an oil shortage by selling a few barrels of reserves, on the condition the oil companies replace the borrowed oil within a short period of time.

President Carter made quite a fuss when the domestic supply of oil dropped perilously close to 50 percent. Now we think nothing of having foreign sources 75 percent of our U.S. oil supply.

The same situation applies to uranium, or even worse. We have a law on the books of Washington that requires the maintenance of a viable domestic uranium industry, for strategic defense purposes, and for our nuclear utility industry.

With uranium mines closing and throttling back in Wyoming, the last of the 50 states still mining uranium, our domestic companies can supply less than 15 percent of the uranium needed by our nuclear utilities which supply now 23 percent of the nation's electricity. The rise from the traditional 20 percent share comes from the greater availability of the remaining almost 100 nuclear power stations for generation of electricity.

If our national leadership wanted to help our people stay warm, other than by backing up to our burning houses, a national policy ought to be developed that encourages domestic exploration and production, rather than impeding it at every turn.

The promised release of oil from our reserves appears to be politically timed and motivated.

Any hope for a sound national energy policy that will keep more companies finding oil on our own continent seems faint, indeed.

Mr. ENZI. Mr. President, finally, in the area of forest fires and forest fire policy, Mr. H.B. Davis writes the letter to the editor where he explains in some detail how we are failing on our forests.

Well, the West is again being managed by nature because a few people block the true management of our replenishable environment. Ignorance has again led us to ashes. Some of the very forests that have been ''protected'' against harvesting for years, have this summer burned. To those who wanted their homes surrounded by the pristine (I'm sorry), do they look better in ashes? The pristine that we admire will never remain, for it changes by growing old, weak, and ravaged, by nature, not just man. We can help it by maintenance, with harvest, common sense use, and stewardship. Nature does it by random (and sometimes violent) ways but we (some) have the intelligence to do it selectively and sensibly unless our hands are tied.

He goes on to explain how a sensible forest policy will allow us to enjoy the beauty of the forests rather than the devastation of forest fires, and even though forest fires help to rejuvenate forests, they do it in a very poor stewardship way.

As one lady at a hearing recently said: The difference between the clearcutting that my little family business does and what Mother Nature does, we respect 200 feet from a stream. We protect against erosion. We don't kill the fish. Mother Nature often does.

I ask unanimous consent that his entire letter be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

IGNORANCE TO ASHES

EDITOR: Well, the West is again being managed by nature because a few people block the true management of our replenishable environment. Ignorance has again led us to ashes. Some of the very forests that have been ''protected'' against harvesting for years, have this summer burned. To those who wanted their homes surrounded by the pristine (I'm sorry), do they look better in ashes? The pristine that we admire will never remain, for it changes by growing old, weak, and ravaged, by nature, not just man. We can help it by maintenance, with harvest, common sense use, and stewardship. Nature does it by random (and sometimes violent) ways but we (some) have the intelligence to do it selectively and sensibly unless our hands are tied.

I fought timbering many years ago, thank God I failed, for the timbered areas are now beautiful and what I wanted to keep now has or needs to burn, for it is of no value except for wildfire fuel. We want clean air and to stop the greenhouse effect so we promote wildfire. Does it do the job?

Some people have the idea you can keep a living organism from growing old. Maybe some people, through money and surgery appear not to age, but they do age. That ''stop-aging'' or use attitude leads to fuel for wildfires, disease and starvation in animals, and imbalance in nature. To the people who take on a specific issue, you appear to forget an issue is not the book of life but a single page and until you can see all of life don't kill it with an issue, as is now happening. Closure does not guarantee protection, only lack of observation, thus allowing good conditions to go bad until it is all destroyed. On the other hand, careful harvesting, replanting, and maintenance does protect. It keeps it renewing and healthy. The cartoon, in Wed, Aug. 23, by Deering would have had a better caption of ''what is this stuff?'' ''It is what's left when the environmentalists'' protect the environment.'' I'll bet the burned bear cub (Signey) would prefer his mother protecting him and not some short sighted environmentalists.

We can't use and abuse, but we can harvest, replant, and maintain so Mother Nature doesn't have to do on a big scale what we should have done a little at a time.

Personally, I'd rather see the timber used to build (at a reasonable price, with jobs) than as smoke, ashes and charred pieces in mud to smother our wildlife and fish come the next rain. If our ''do-gooders'' would quit looking at a single page of aging life and work with the folks who would, with responsibility, harvest, replant, and maintain, we'd not need the tears of regret when Mother Nature has to manage.

H.R. DAVIS,
Riverton.

Mr. ENZI. Mr. President, I will take an opportunity at a later time to talk about lack of policy on Social Security. I would like to address the type of accounting we have where we are kind of fudging some things that will cost future generations their Social Security unless we take some action now.

We also need to take some action in the area of paying down the debt, tax policy, and education policy. If we don't address these policies using foresight instead of hindsight, if we don't do policy instead of polls, we are going to run into a situation similar to what we had when we hired 100,000 new teachers and then discovered we didn't have buildings to put them in. That was easy to solve; we just threw in a little more money. We put more buildings in there, except we are putting buildings in places where the voters themselves chose not to put buildings.

I hope we will look at policy.

I thank the Senator from West Virginia for his courtesy in letting me put those letters in the RECORD.

I yield the floor.

The PRESIDING OFFICER. The distinguished Senator from West Virginia is recognized.

RETIREMENT OF ARTHUR MALAN ''TINKER'' ST. CLAIR

Mr. BYRD. Mr. President, my State of West Virginia has provided to our Nation numerous individuals who have dedicated their lives to public service. Some have appeared, for a time, in the national spotlight. Others have labored quietly behind the scenes. One such individual, who has for more than 50 years contributed to the betterment of his community, his State, and his country, sits among us today in this Senate Chamber. Arthur Malan St. Clair, the senior Doorkeeper of the Senate, caught me by surprise recently when he handed me a letter informing me of his decision to retire from his post after serving this body since 1979. Arthur St. Clair, better known to us Senators as ''Tinker,'' has served the Senate with distinction for 21 years.

But that is just a small part of his remarkable story. Now, speculation as to the age of another person is always something to be approached with some temerity, and not often approached, as a matter of fact. But there has been speculation as to Tinker's age. It has been a hot topic of debate among some Senators and Senator's staffs for a number of years. I understand, however, that Tinker is finally willing to let that particular cat out of the bag.

So, for the benefit of the curious, I shall start at the beginning: Tinker St. Clair was born in Pageton, McDowell County, West Virginia, in 1916. As his colleagues on the doors may be quickly calculating, that will make Tinker 85 years come next January.

Tinker was the son of a coal miner, small businessman, and local school board member. He was reared in what he is often heard to call the ''free State of McDowell.''

It is a county located in southern West Virginia right on the borderline there. It used to have a population of about right at 100,000 people. Today it has probably 30,000. It was a great coal mining county. When the mines took on mechanization and huge mining machines took the place of men, the population dropped. Many of the mines are worked out and are no longer mining coal. So it has become a county that, unfortunately, has many unemployed people who still live there.

That county is represented by NICK JOE RAHALL, who claims to be my Congressman because my voting residence is still at Sophia, WV, which is located in the congressional district represented by NICK RAHALL. NICK RAHALL has a lot of friends in those counties, and they are very proud of him as their representative. NICK and I often talk about Tinker St. Clair.

Tinker is from that great free state of McDowell. Back in those days, when McDowell County had almost 100,000 people, West Virginia had 97,600 farms and had 90,000 horses. The State of West Virginia had 90,000 horses and 6,000 mules. That was back in the days when Tinker was younger, I was younger, and McDowell County was more highly populated. Many of those 6,000 mules were used in the mines to pull the cars of coal.

I was trying to remember how much money was required to build that first capitol in West Virginia—not the first capitol; the first capitol burned down, but the capitol that replaced the capitol that burned down had gold leaf put upon it. That capitol was completed in February 1932. I will tell you what that capitol cost in 1932. Pay close attention: $9,491,180.03. That was the total cost of that capitol. Any person traveling in West Virginia must stop and see that beautiful capitol. It would cost many times that much to build it today. It was completed in the heart of the Great Depression: $9,491,180.03. That was a real bargain.

Well, McDowell County is in the heart of a region that is rich in coal and, more importantly, rich in the old values. It was in that environment that Tinker grew up. That was the environment in which he was raised. That was the environment in which he was instilled with patriotism and loyalty, honesty and determination and drive, and a strong sense of community.

Tinker graduated in 1937. That was the year in which I married. That was the year in which Erma and I married. I paid a hard-shell preacher $10 to marry her and me. We have been married ever since, 63 years ago. Nineteen hundred and thirty-seven was the year Tinker graduated from Gary High School where he played football and baseball.

Upon graduation, Tinker worked as a schoolbus driver and later worked as a driver for the Consolidated Bus Lines. He came to own a taxi business that operated in the towns of Welch, Oceana, and Pineville. For anyone unfamiliar with those communities, I should note that driving a bus or a taxi along those particular local roads, around the winding hills and in the gulches and the valleys and the hollows, requires a real talent, courage, and certainly a strong stomach.

It was at about that time in his life—in fact, on May 25, 1940—that Tinker married Elnora J. Hall and they later became the proud parents of two daughters, Patty and Linda.

As we have all observed in the Senate, and as I have known for many years, Tinker is always cheerful—always cheerful. He always has a nice smile on his face. He is always a very personable individual. He is just down to Earth, a plain, honest, hard-working, fine Christian gentleman.

He is a ''people person.'' We hear a lot of talk these days about ''people persons.'' Well, he is a ''people person.'' His entrance into the realm of politics and public service, therefore, was just plain natural. Beginning in 1948, Tinker's career included service as a deputy sheriff. When Tinker came to get you, you better go—you better go. He had that big .45 slung on his hip and he was an excellent marksman. You just

better go; better get ready. That fellow, the smiles, was the real Matt Dillon of McDowell County—Matt Dillon. And he was a court bailiff, criminal investigator for the prosecuting attorney, and justice of the peace.

In 1968, Tinker was elected county clerk, and he has held all the offices at the county level. That is where government starts, you know, at the county level. And he was overwhelmingly reelected in 1974, with 89 percent of the vote; 89 percent of the votes in a county that never, ever heard of a political machine.

Well, I better take that back, the part about a political machine; If there ever was a political machine, that was it, in McDowell County.

Well, anyhow, Tinker didn't need any machine. He had the votes—89 percent of the vote while running on the slogan, ''The man to give the office back to the people.'' How about that for a slogan? If I had my political career to start over again, that is the slogan I would use, ''The man to give the office back to the people.''

It was in 1979, after serving 4 years of a 6-year term as county clerk, I received a telephone call. I will never forget that call. It came from Tinker. Over the phone, Tinker related to me a conversation that he had just had with Elnora. Elnora, as I recall it, had told Tinker that she was coming to Washington to visit their daughters and their grandchildren.

''Fine,'' said Tinker. ''When will you be coming back?''

''I'm not,'' was the answer. ''I'm not.'' She went on to say, ''I miss the girls and the grandchildren and I'm going to Washington to stay.''

Well, Tinker and I both knew that she meant business. And so I said to Tinker, ''Well, you just come on up to Washington with Elnora, and we'll find work in my office somewhere for you.''

That conversation took place during the first week of July, 1979. And on July 9, 1979, the Senate employed Tinker St. Clair as the newest member of our Senate family, and he has been a member of the Senate family ever since.

During his career, Tinker has played an important role in escorting leaders of this Nation throughout southern West Virginia. Nobody can escort one through southern West Virginia quite like Tinker. He walked with President Truman through the coal fields. He stood with candidate John F. Kennedy and campaigned with him in the hills and the hollows of West Virginia. And one time back home, he greeted a helicopter that was landing and he welcomed its passenger, Lyndon Baines Johnson. He was with another Kennedy—Bobby Kennedy—in 1968.

He traveled with another West Virginian, many times, day and night: ROBERT C. BYRD. He traveled with JAY ROCKEFELLER. And JAY can tell of trips to Welch where he was greeted by the dapper and dedicated Tinker. And the late Senator Jennings Randolph often found at Elnora's supper table some fine pastries and goodies. And so was NICK RAHALL there, from time to time, in Tinker's house.

Many a campaign strategy was cooked up at Elnora's supper table. Tinker and Elnora, in fact, serve as proof that anyone with the determination and the desire to make a difference in this Nation can play a valuable role in the political arena.

It was on April 24, 1996, that Tinker lost his beloved Elnora. I was concerned for my friend. The sudden loss of his dear wife had to have been quite a blow. Yet Tinker handled that difficult personal tragedy with tremendous inner strength that is so indicative of people who have come up the hard way in West Virginia's coal mining communities.

So now it has come to pass, Mr. President, that Tinker St. Clair will be retiring, and I am glad for him that he will be able to spend more time with his daughters, Patty and Linda; and with his grandchildren, Kimberly and Eddie and Mack; and with his two great-grandsons, Nicholas and Jack.

But I must admit, it does sadden me to think of our daily labors in this Chamber without Tinker; He has given so much. We will all miss Tinker's ready smile, his warm handshake, his full head of white hair, and his warm and reassuring presence in the Senate Chamber.

He won't be leaving for a while yet, but the day will come when Tinker will walk out of the door for his last time. So I say goodbye to my fellow West Virginian, and my dear friend, with these words of verse:

WORD TO THE LIVING

It isn't enough that we say in our hearts
That we like a man for his ways;
And it isn't enough that we fill our minds
With psalms of silent praise;
Nor is it enough that we honor a man
As our confidence upward mounts;
It's going right up to the man himself
And telling him so that counts.
Then when a man does a deed that you really admire,
Don't leave a kind word unsaid,
For fear to do so might make him vain
Or cause him to lose his head;
But reach out your hand and tell him, ''Well done'',
And see how his gratitude swells;
It isn't the flowers we strew on the grave,
It's the word to the living that tells.

I will say this to Tinker. I hope to serve 6 years more after this year in this Senate, but the sight of him back there on that bench will never fade from my view. I will always see him there. I will always see him returning my gaze and always with a smile. We will never, never forget him because he is the true symbol of service. And as the old saying goes: Service with a smile. Thank you.

The PRESIDING OFFICER. The distinguished Senator from Minnesota is recognized.

Mr. WELLSTONE. Mr. President, I consider myself very lucky to be on the floor right now. I thank Senator BYRD for his words. I cannot even come close to matching what my colleague from West Virginia said. I have not known Tinker a whole lifetime, but I will say this: What I know about Tinker today and every day, I say to Senator BYRD, is that he is the kind of person who, when we debate, when we come out on the floor to speak, and sometimes we do not necessarily get the votes we want—that happens sometimes; with me, more than sometimes—Tinker is the person who is always there to give encouragement, always there to say: You keep speaking out for what you believe; you keep at it; everything will be all right.

I appreciate Tinker's wisdom. I appreciate his help. I appreciate his commitment to service. I appreciate his commitment to West Virginia. Most important of all, I appreciate his patriotism, because to me he is a true patriot. A patriot is someone who takes a part of their life and gives it to their country, and he has done that. So I am honored to be on the floor at this time.

RELATIVE TO THE DEATH OF REPRESENTATIVE BRUCE F. VENTO OF MINNESOTA

Mr. WELLSTONE. Mr. President, before I leave today, I will finish with some words about another man, a former colleague of the Presiding Officer, Congressman VENTO.

I ask unanimous consent that the Senate proceed to the immediate consideration of Senate Resolution 369 relating to the death of Congressman BRUCE VENTO.

The PRESIDING OFFICER. The clerk will report the resolution by title.

The assistant legislative clerk read as follows:

A resolution (S. Res. 369) relative to the death of Representative BRUCE F. VENTO, of Minnesota.

There being no objection, the Senate proceeded to consider the resolution.

Mr. WELLSTONE. Mr. President, the resolution goes on to read:

Resolved, That the Senate has heard with profound sorrow and deep regret the announcement of the death of the Honorable Bruce F. Vento, late a Representative from the State of Minnesota.

Resolved, That the Secretary communicate these resolutions to the House of Representatives and transmit an enrolled copy thereof to the family of the deceased.

Resolved, That when the Senate adjourns or recesses today, it stand adjourned or recessed as a further mark of respect to the memory of the deceased Representative.

This is in behalf of the majority leader, Senator LOTT, Senator DASCHLE, myself, and Senator GRAMS. I also add Senators DURBIN and FEINGOLD.

Mr. President, I ask unanimous consent that the resolution be agreed to and the motion to reconsider be laid upon the table.

The PRESIDING OFFICER. Without objection, it is so ordered.

The resolution (S. Res. 369) was agreed to.

Mr. WELLSTONE. I thank the Chair, and I thank my colleague, Senator BYRD.

Mr. BYRD. Mr. President, I thank the distinguished Senator from Minnesota.

EULOGY FOR MURRAY ZWEBEN

Mr. BYRD. Mr. President, the Senate has lost an honored and esteemed friend. I rise to pay tribute to Murray Zweben, former Senate Parliamentarian, Senate Parliamentarian Emeritus, who passed away on a Sunday recently.

A few years before his own death, Thomas Jefferson wrote in a letter to John Adams:

> It is of some comfort to us both that the term is not very distant at which we are to deposit in the same cerement our sorrows and suffering bodies, and to ascend in essence to an ecstatic meeting with the friends we have loved and lost, and whom we shall still love and never lose again.

As we reflect upon and mourn the passing of Murray Zweben, these words remind us that death is but a temporary separation between this life and the next life. While we regret the loss of dear friends, and especially one who so ably served this body for many years, we can contemplate with assurance that there is the promise that we can be reunited.

A Parliamentarian emeritus of the Senate, Murray Zweben served this body as Assistant Senate Parliamentarian from 1963 to 1975. He served as the Senate Parliamentarian from 1975 until 1981, a position he held when I became majority leader. Murray Zweben first came to the Parliamentarian's office as Secretary to Parliamentarian Charles L. Watkins. He served 3 years as communications officer in the Communications Office of the Chief of Naval Operations following his graduation from naval officer candidate school in September 1953.

While serving as Secretary to the Parliamentarian, Murray Zweben attended the George Washington University Law School and achieved the honor of being on the Law Review there.

After clerking for Judge Laramore of the U.S. Court of Claims, and practicing law, he was called again to the Senate to fill the newly created position of Second Assistant Parliamentarian in January 1963. He was promoted to Assistant Parliamentarian in December 1964 where he served for 10 years under the tutelage of Dr. Floyd Riddick.

In 1974, Mr. Zweben was appointed Parliamentarian of the Senate, and he served in that post with distinction. He served as Parliamentarian during some turbulent years in the Senate. In his first year, Nelson Rockefeller, then Vice President of the United States and President of the Senate, relied heavily upon the advice of the Parliamentarian as he presided over the fight to amend the rules of the Senate.

Also during Mr. Zweben's first year as Parliamentarian, the Senate was faced with the unprecedented debate over the rightful claim to a Senate seat from New Hampshire, which required great skill to resolve.

The Senate saw other battles during Murray Zweben's tenure as Parliamentarian. Through all of those encounters, Mr. Zweben was fair, impartial, and judicious in the conduct of his duties. His unfailing good humor, even under stressful circumstances, will be remembered by all who knew him. Murray was unflappable in a post where a cool head is essential.

He was a shining example of public service. Although public service in general and public service careers in Washington have in some quarters fallen out of favor, I believe Murray Zweben's work represents a compelling case against the cynicism about the many fine people who serve in the Senate in various capacities. Their names are never in the papers, they experience few public kudos, and yet they work as many long hours—probably more so—than we Members do. They are dedicated, capable, patriotic individuals who represent the best that America produces from all over this Nation. Murray Zweben served this institution and his country well. His love of the institution, and his zest for politics, and for life made him a pleasure to know.

My thoughts and prayers are with Murray's family. When we lose friends and loved ones, we may lose the mortal companion, but this is but a temporary—but a temporary—one.

> For as the rolling seasons bring
> The hour of fate to those we love,
> Each pearl that leaves the broken string
> Is set in Friendship's crown above.
> As narrower grows the earthly chain,
> The circle widens in the sky;
> These are our treasures that remain,
> But those are stars that beam on high.

Those words were penned by Oliver Wendell Holmes, Sr.

TRIBUTE TO FRANK R. LAUTENBERG

Mr. BYRD. Mr. President, as the 106th Congress winds to a close, I want to take just a moment, as it were, to say farewell and to pay tribute to my friend and colleague, Senator FRANK LAUTENBERG, who, after serving three terms, will be retiring from the United States Senate. He has dutifully served the people of New Jersey, and served them well, for 18 years, and he has often been outspoken about the value of government and its ability to improve people's lives.

This belief stems from personal experience. As the son of immigrants who fled poverty and religious persecution, he raised himself from poverty to become a world leader in computer services. FRANK did well. He well understood the words of Thomas H. Huxley, who said, ''The rung of a ladder was never meant to rest upon, but only to hold a man's foot long enough to enable him to put the other somewhat higher.'' Senator FRANK LAUTENBERG has never rested, and I am sure that, for him, retirement from the Senate simply means that he is moving on to the next rung on his life's ladder.

FRANK LAUTENBERG was born in Paterson, NJ, on January 23, 1924, and during his childhood moved about a dozen times with his parents in their pursuit of work in New Jersey. After graduating high school, FRANK enlisted and served in the Army Signal Corps in Europe during World War II. Benefitting from the GI bill following the war, he attended the Columbia University School of Business, where he earned an economics degree in 1949. In 1952 he cofounded a company called Automatic Data Processing and, by 1982, when he was elected to the U.S. Senate, his company employed 16,000 people. Think of that. His company employed more people than today work in the coal mines of West Virginia. And it was a company that processed the payroll for one of every 14 non-Government workers in the entire country. It had become one of the largest computing services companies in the world.

Because of his working-class roots and the values instilled in him by his parents, Senator LAUTENBERG came to realize that America really was the land of opportunity. America had provided him with many opportunities, and Senator LAUTENBERG decided that it was time to give something back to this wonderful country. He therefore launched his career in public service, and during his tenure of three terms, FRANK LAUTENBERG has fought hard to protect the health, safety, and security of American families.

Senator LAUTENBERG has an appreciation of the Senate and its special place in our Nation. He has fought to preserve the prerogatives of the Senate and of the Congress as a whole. As the senior member of the Budget Committee, he actively resisted the so-called balanced budget amendment to the Constitution. Senator LAUTENBERG was also one of a minority of Senators to oppose the Line Item Veto Act.

As ranking member of the Senate Budget Committee, Senator LAUTENBERG helped to craft the 1997 balanced budget agreement that helped to put our national finances in order. His work helped to demonstrate that the

Constitution did not have to be amended to balance the budget and that hard work and hard choices are what is needed in budgets, as in life.

Senator LAUTENBERG and I share a commitment to our transportation infrastructure and we have made it one of our top priorities. He is the ranking member of the Transportation Appropriations subcommittee. I have worked very closely with my friend from New Jersey, who serves with me on that subcommittee. We have toiled together on a wide variety of projects important to West Virginia and the Nation. And we have been doing this for a long time. When we were in the majority, when I was chairman of the Senate Appropriations Committee, FRANK LAUTENBERG was the chairman of the Transportation Subcommittee. For too long, the Federal Government has underinvested in our Nation's highways. As a key member of the Senate Environment and Public Works Committee, FRANK LAUTENBERG played an active role in crafting TEA–21, the historic transportation bill that was enacted last Congress which is an important step toward fixing past mistakes and assuring Americans of safer, more modern highways and improved public transit. We share the belief that a strong infrastructure is vital and makes a profound and positive difference for hundreds of millions of Americans by saving lives, reducing injuries, increasing business investment, expanding employment opportunities, and producing savings to the public and to the private sectors.

Senator LAUTENBERG has also worked to make transportation safer. He championed laws to make 21 the national drinking age, which has saved an estimated 12,000 lives since 1984. And he has sponsored legislation—and I have been proud to cosponsor it with him—to make .08 blood alcohol content the national standard for the illegal operation of a vehicle. In addition, Senator LAUTENBERG and I have worked together on efforts to combat underage drinking.

Senator LAUTENBERG is a strong environmental leader who helped to write the Superfund, Clean Air, and Safe Drinking Water Acts. Most Americans take safe drinking water for granted; however, the sad fact is that, in this, the most prosperous Nation in the world, millions of people rely on possibly contaminated water supplies. FRANK LAUTENBERG understands that. He understands that like improved highways and bridges, effective and efficient and clean water systems are vital to the continued economic expansion of our Nation and the health and safety of our people.

In his statement on February 17, 1999, announcing his plans for retirement, FRANK LAUTENBERG cited as one of the main factors of his decision his frustration with the overwhelming amount of financial resources needed for his upcoming reelection campaign. That is a shame; that is a shame. He believes—and has so stated—that without meaningful campaign finance reform, special interest funding will grow substantially, and even larger amounts of money will be necessary. That is a shame and a disgrace. I regret that we have not been able to address campaign financing in a meaningful way. I regret that the deplorable influence of money—filthy lucre—in politics has had such a detrimental impact on the Senate.

Senator LAUTENBERG knows what it is like to start from nothing and less than nothing and make the most of every opportunity. He has worked to make the lives of his constituents, and all Americans, better. From building up our country's infrastructure, to battling those who would attack our constitutional liberties, to protecting our environment, Senator LAUTENBERG has worked to provide a brighter future for our Nation. He has worked to improve our public schools. I have no doubt that my good friend and colleague will not rest on his laurels after he leaves the halls of Congress. FRANK LAUTENBERG will continue to serve so that others will have the opportunities that have lifted him to a place where he could serve the greatest Nation on Earth.

I thank Senator LAUTENBERG for his service to the Senate and to the Nation. I tried to talk him out of retirement. I urged him to think again, change his mind, change his decision for the good of the Senate and for the good of the country and, I am sure, for the good of New Jersey, but I know that it would be for the good of the Senate. I wish he could still change his mind. I am sorry he made that decision, but he had his reasons. He did what he thought was best, I am sure.

I thank him for his service to the Senate. He won't be leaving this afternoon or tomorrow or the day after tomorrow, but the time for him with us is all too short. The Senate will have lost a good man and a fine, fine Member. America will have lost a good servant. But, as I said, it may be that he will serve elsewhere. In any event, I wish him good health and happiness in his retirement.

As I say farewell to him, I recall these words from the great American author of the 19th century, Ralph Waldo Emerson. It is entitled ''A Nation's Strength.''

What makes a nation's pillars high
And its foundations strong?
What makes it mighty to defy
The foes that round it throng?
It is not gold. Its kingdoms grand
Go down in battle shock;
Its shafts are laid on sinking sand,
Not on abiding rock.
It is the sword? Ask the red dust
Of empires passed away;
The blood has turned their stones to rust,
Their glory to decay.
And is it pride? Ah, that bright crown
Has seemed to nations sweet;
But God has struck its luster down
In ashes at His feet.
Not gold but only men can make
A people great and strong;
Men who for truth and honor's sake
Stand fast and suffer long.
Brave men who work while others sleep,
Who dare while others fly—
They build a nation's pillars deep
And lift them to the sky.

I yield the floor.

The PRESIDING OFFICER (Mr. HAGEL). The Senator from New Jersey.

SERVING IN THE SENATE

Mr. LAUTENBERG. Mr. President, what a wonderful coincidence it is that I came to the floor to hear my good friend, Senator BYRD, make such exaggerated remarks about my accomplishments but never about our friendship.

Around here, our seats are based on seniority. You kind of move to the middle or to the front as your seniority improves. But it is not where you sit that counts; it is where you stand.

Senator BYRD has stood for the right things for this country for more years than any of the people in this room will remember because it has been such a long history. It is not newly emplaced.

There is a commercial around that is often seen on television and radio that says—I think it is for PaineWebber—when PaineWebber speaks, everybody listens. That is an adaptation because when Senator BYRD speaks, everybody listens. And everybody can read Senator BYRD's books on the history of the Senate to learn what it really takes to be a Senator.

It takes more than just getting a slice of the largess that we call funds; it takes more than the incredible loyalty, as profound as it is, such as Senator BYRD has to this State—it transcends those things—that, frankly, has made a difference in the world in which we live. Whenever there is a question, whenever Senator BYRD speaks—and my experience is principally on our side of the aisle because we have our weekly meetings and occasional get-togethers—people listen because he is the historian of the Senate. He is, in many ways, the conscience of the Senate. He is a spokesman for the Senate, not just because he is an eloquent speaker but because of his knowledge and character.

I thank the distinguished senior Senator from West Virginia, my friend, ROBERT C. BYRD, for his comments. There is always a degree of eloquence and recall when he speaks. And if you have some spare time, if you ever want to hear about the history of battles that took place in Roman times or the list of Kings and Queens of the UK from a time earlier than William the Conqueror to the present date, how

they died and what they stood for or what counts in terms of the Constitution of this country, Senator BYRD has that knowledge. Senator BYRD walks around with the Constitution in his pocket just as people walk around with phone numbers, and it is used and remembered.

It was a happy day for me when I was able to get on the Appropriations Committee and join Senator BYRD on so many issues for which we have fought. He reminds us that there is kind of a cultural aspect in the United States that so many of us want to give something back. I learned to give back by watching my parents as they struggled to raise a family in very tough times, with very modest wages and opportunities. I understood it in the Army when my father was on his deathbed, my mother was 36 years old, and my sister was 12. That was our family. My father was 42. I did it because it was my duty. At that time, I saw what happened to a family that was without health insurance, without any Social Security, without any kind of a benefit that would really help a widow with a small family.

Not only did my father die and leave the grief that followed, but his sickness, which lingered for a year, took any and all resources the family had. As a matter of fact, debts piled up as my father disintegrated. So I saw what happens to people who don't have a way of taking care of these needs. I saw what happens when a family is bereft of the opportunity to recover from that kind of a challenge.

I was lucky in some ways because as we lost a great man in our household, I was the beneficiary of an opportunity to help my family later on. The GI bill allowed me to go to a university that otherwise would have been out of my reach, no matter how far we stretched. We didn't have student loans and the kind of scholarships that exist now. I was a soldier and I had the GI bill. It armed me with an avenue to the future not simply because, as I have said here before, of the subjects I studied but because of the horizons that were opened to me about what could be, not that to which I was accustomed.

My experiences taught me about giving back. It is an honor and a privilege to be able to give back, whether it is to help create an industry—Senator BYRD referred to our business success. Two colleagues and I started a business, as they say, without a dime. Today, that company employs not 16,000, as it did when I came to the Senate in 1983, but 33,000 people. It is a business that was begun by three kids, literally, who came from the wrong side of town—the right side of the street but the wrong side of town. On our side of the street there were hard-working people. Most of them were immigrants, I would say. They knew they had to work with their hands to make a living. They weren't the scientists, the doctors, and the professionals we see today coming out of colleges. They didn't even have a chance, for the most part, to get to high school. So we created an industry, not just a company. What good fortune there was in our lives. The fact is that we are all healthy and we have terrific grandchildren. I have eight of them and the oldest is only 6, and they are more satisfied to see and talk to Senator BYRD than anything else in life.

The next great honor to me, after fatherhood, was to come to the Senate and to be able to be in this body—even with all of its defects—which reflects the structure of man and the structure of community. But if you look beyond the defects, you can see how many great people have come through this place and how many great people have yet to be recognized who are now Members of this great institution.

Mr. President, I leave with considerable misgivings. I am not happy about the decision I have made to leave. I do know this: Just as we came at different times in our lives, others will follow us who will also make contributions, who also will do the right thing for the people of our country. This country is in good hands. Every moment may not be a great moment, but this country's fundamentals are in place to make sure society will continue to grow and progress and harmonize in the years ahead. When we look at the defects, we see problems here and there and everywhere. But look beyond that. Look at the number of great people we have in our country who are fair-minded people. Look at what is happening now in the Presidential race, where one fellow is an Orthodox Jew who has been accepted and embraced across the country because the country is so fair. They are looking at this person as an individual and judging him on his ability to serve. That is what tells us about the character of our people. When you look at places in Government, you see people who, though listed as minorities, are great achievers, whether in administrative posts or law or science. That is what we are looking at as we look ahead into this 21st century.

I thank all of my colleagues—Republicans and Democrats. I believe that I am considered at times an argumentative fellow by some of my colleagues on the other side. That doesn't mean there is no affection.

One of the things that Senator BYRD portrays is character—a very special kind of character.

It is amazing to me how much respect and admiration one can have for people with whom one can have enormous differences and yet have incredible affection for them because they are respected for their beliefs, even though those beliefs may differ at times with the ones you hold. Whether it is the most ardent progressive or liberal or the most ardent conservative, they are done honestly. They are expressed honestly with respect for people.

That should be our mission—not to try to overturn or lecture people at various stages, but when someone comes here, having been selected by his or her State to serve, that is their entrance to the debate; their entrance to legislate; their entrance to decisionmaking and how this country is going to function.

I don't want to leave here with a tear in my eye. I may feel that way, perhaps, but I am so proud that I was able to serve my country and to be a part of the Senate.

Senator BYRD could give you the statistics immediately. I round it off. I think it is about 1,820 people—1,853. I knew Senator BYRD would be precise—1,853 have had the privilege of serving here since the founding of this country.

Think about it. Millions of people have lived and passed through society, and, in all those 200 years, 1,853 have been granted the honor and the privilege of serving here.

When it comes time to pack up the bags and leave, I will not do it necessarily willingly, but I will do it gratefully, knowing that I have had a chance to be here to witness history in the making, which occurs almost daily, and to know that someday one of my grandchildren—the oldest is six; he has some way to go before he goes to college—will be able to look in the database from his home, from his school, and say: There was my grandfather. He was the one who stopped smoking on airplanes. He was the one who raised the drinking age to 21—saving thousands of families from having to mourn the loss of a child. But he was the one who did other things to help this country that will last way beyond his service in the Senate.

I say to Senator BYRD that when he gives testimonial, it has meaning and credibility. It is special, and I truly appreciate it.

Mr. President, I ask whether the Senate is going to remain open for a while or do we have an order that would have us be closing down soon?

The PRESIDING OFFICER. There is no such order.

THE CRISIS IN THE MIDDLE EAST

Mr. LAUTENBERG. Mr. President, I am thoroughly upset about what is happening in the Middle East—watching people cower in fear, and some dying moments later as violence escalates. It is a terrible sight to see on television. It is a terrible sight to see in pictures and in the newspapers. It is terrible news to hear reports that after so much effort and so much concern for peace there is this carnage.

I think everyone probably knows that I have had a longtime interest in Israel. I have been there many times.

But I also have an active interest in a peace resolution. I got to know some of our friends in the Palestinian community. I got to know Mr. Arafat and the people who assisted him—and the Palestinian Authority.

Whether a child is Jewish or Moslem or whether he or she is an Israeli citizen or whether he or she is someone out of the refugee camps in Palestine and the surrounding areas, or from the nation of Lebanon, I don't like to see any child taken from a family.

I want to make a point. I visited Gaza. I was at the airport just weeks before it opened—maybe days. It was very close in time. I was very enthusiastic about giving help to the Palestinians to get their economy going and providing some hope and vision for them so their lives could be improved and their freedoms expanded.

I think it is fair to say that Israel is taking enormous risks in that promotion, particularly the Prime Minister of Israel, Mr. Barak, who went further, I believe, than anybody else in Israel. We all know that Prime Minister Rabin was assassinated because of his beliefs by someone in the Israeli community of the same faith—Jewish. He died for his interest in peace.

But I don't understand how there can be joy expressed in the destruction of Joseph's tomb or to see books and artifacts destroyed and burned, and people taking joy and gloating over the killing of an Israeli. They are people who are beyond control. We condemn their acts of violence against the Arabs in the area and within the state of Israel. I condemn that violence. It is not acceptable wherever it occurs.

However, I say to the Palestinian Authority, they have no right to use weapons that were given to provide police and law enforcement against the country that gave it to them in the first place. They have no right to promote violence, no right to have television programs coming over Palestinian television that talk about it being necessary to kill people in Israel, to destroy the country.

That kind of action, that kind of encouragement, is antithetical to the possibilities of peace or the possibilities of life. Anti-Semitic articles, cartoons, and newspapers, whether it be in Syria or even with our friends in Egypt or Lebanon, are unacceptable. Those are the kinds of things that ultimately promote violent action from one people to another.

I want our friends—Mr. Arafat, the people in the Palestinian Authority—to understand they will get nowhere by promoting assaults on Israel, whether they be on person or territory. It is not going to do them any good in the final analysis. A state of conflict, of war, is going to be painful to people on both sides. There will be no victors.

Help came from the United States to try to elevate the standard of living in the Palestinian community because people such as I promoted it. I was active on the issue. I wanted to show good faith and provide funds for the Palestinians to get their airport open. I visited the economic settlements they were erecting, development settlements to give jobs to people, to give hope to people. I supported it enthusiastically.

I think what is going on is unacceptable by any standard. The United Nations resolution issued last week was so lopsided that it looked as if they were trying to eliminate Israel from the family of nations. I don't understand it—encouraging the criticism of Israel and denigrating Israeli efforts to make peace, at some considerable risk again, as we have seen. Those young men captured and taken someplace in Lebanon or wherever, captured by a group that considers violence the way to resolve things—Hezbollah is proud of the fact they kidnap people. That is not the way peace is going to evolve or relationships develop.

I hope sense will come to the area very soon because what we see there is not, in my view, a limited conflict but, rather, a possibility that we will be seeing a conflict that will be very hard to put out. I hope we will soon hear better news from that area. I urge Mr. Arafat to curb violence where he sees it among his people. It cannot be fostered. It cannot be encouraged and at the same time gain the advantages that I am sure he would like to see for his people; that is, a peaceful existence and an improved quality of life.

I yield the floor and I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. BROWNBACK. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. DOMENICI. Mr. President, I hereby submit to the Senate the budget scorekeeping report prepared by the Congressional Budget Office under section 308(b) and in aid of section 311 of the Congressional Budget Act of 1974, as amended. This report meets the requirements for Senate scorekeeping of section 5 of S. Con. Res. 32, the first concurrent resolution on the budget for 1986.

This report shows the effects of congressional action on the 2000 budget through September 30, 2000. The estimates of budget authority, outlays, and revenues are consistent with the technical and economic assumptions of the 2001 concurrent resolution on the budget (H. Con. Res. 290), which replaced the 2000 concurrent resolution on the budget (H. Con. Res. 68).

The estimates show that current level spending is above the budget resolution by $19.3 billion in budget authority and by $20.6 billion in outlays. Current level is $28 million below the revenue floor in 2000.

Since my last report, dated September 5, 2000, the Congress has cleared, and the President has signed, the Department of Defense Appropriations Act, 2001 (Public Law 106–259). This action changed the 2000 current level of budget authority and outlays.

This is my last report for fiscal year 2000.

I ask unanimous consent to have printed in the RECORD the following material.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

U.S. CONGRESS,
CONGRESSIONAL BUDGET OFFICE,
Washington, DC, October 5, 2000.

Hon. PETE V. DOMENICI,
Chairman, Committee on the Budget, U.S. Senate, Washington, DC.

DEAR MR. CHAIRMAN: The enclosed tables show the effects of Congressional action on the 2000 budget and are current through September 30, 2000. This report is submitted under section 308(b) and in aid of section 311 of the Congressional Budget Act, as amended.

The estimates of budget authority, outlays, and revenues are consistent with the technical and economic assumptions of H. Con. Res. 290, the Concurrent Resolution on the Budget for Fiscal Year 2001, which replaced H. Con. Res. 68, the Concurrent Resolution on the Budget for Fiscal Year 2000.

Since my last report, dated July 26, 2000, the Congress has cleared, and the President has signed, the Department of Defense Appropriations Act, 2001 (Public Law 106–259). This action changed budget authority and outlays.

Sincerely,

BARRY B. ANDERSON
(For Dan L. Crippen, Director).

Enclosures.

TABLE 1.—FISCAL YEAR 2000 SENATE CURRENT LEVEL REPORT, AS OF SEPTEMBER 30, 2000

[In billions of dollars]

	Budget resolution	Current level [1]	Current level over/ under resolution
On-budget:			
Budget Authority	1,467.3	1,486.6	19.3
Outlays	1,441.1	1,461.7	20.6
Revenues	1,465.5	1,465.5	(2)
Debt Subject to Limit	5,628.3	5,579.2	−49.1
Off-budget:			
Social Security Outlays	326.5	326.5	0.0
Social Security Revenues	479.6	479.6	0.0

[1] Current level is the estimated revenue and direct spending effects of all legislation that the Congress has enacted or sent to the President for his approval. In addition, full-year funding estimates under current law are included for entitlement and mandatory programs requiring annual appropriations even if the appropriations have not been made. The current level of debt subject to limit reflects the latest information from the U.S. Treasury.

[2] Less than $50 million.

SANCTIONS AGAINST CUBA

Mr. LEAHY. Mr. President, the House of Representatives has, again, thwarted the will of a bipartisan majority of the Congress.

After strong votes in both the House and Senate to lift sanctions on the sale of food and medicine to Cuba, the Republican conferees on the Agriculture appropriations bill have added a provision to prohibit public financing which makes it virtually certain that few, if any, sales will actually occur.

It is bad for America's farmers, bad for the people of Cuba, and bad foreign policy.

Even worse, the conferees would codify the restrictions on travel to Cuba, a position which is at odds with the fundamental right of every American to travel freely.

Senator DODD and I introduced legislation earlier this year that would lift the ban on travel to Cuba. It is ironic—or I should say it is outrageous—that Americans can travel to North Korea, or Syria, or Vietnam, but not Cuba. What a hypocritical, self-defeating, anachronistic policy.

Senator DODD spoke eloquently last Friday about this misguided provision and I want to associate myself with his remarks. I will not take more time today.

But I want to say that this is a terrible decision, a partisan decision, a decision driven by politics, and one of the many, many reasons why the election on November 7 is so important. It is far past time that we inject some intelligence and bipartisanship into our foreign policy.

This Congress has had its chance. It has fallen short in too many ways to count. This decision on Cuba is just another example of the 106th Congress' failures to do what is right for America, and right for the American people.

BREAST CANCER AWARENESS MONTH

Mrs. HUTCHISON. Mr. President, I rise today to acknowledge that October is Breast Cancer Awareness Month.

During this month, a number of public and private agencies, organizations, and foundations will increase their efforts to make Americans more aware of the impact of this disease, as well as the need for early detection and increased resources to search for better treatments and ultimately for a cure.

Breast cancer is the second leading cause of cancer death among all women, and the leading cause of cancer death among women aged 40 to 55. By age 80, women have a 1-in-12 chance of developing the disease. This year alone, an estimated 175,000 women and 1,300 men will be diagnosed with breast cancer. Of those diagnosed, more than 41,000 women and 400 men can be expected to die from the disease. 41,000 women, that is about 117 per day—117 mothers, daughters, wives, and sisters whose lives will be cut short and whose families will be devastated by their loss. And, as I noted, the disease can also affect men with no less impact on them and their families.

But many of these deaths can be prevented, through regular screening and early detection and treatment. In fact, if detected early through self-exams and mammograms, the survival rate for most types of breast cancer exceeds 90 percent. And, while the number of breast cancer diagnoses continues at an unacceptably high level, the overall survival rate is increasing. We are beginning to turn the tide against breast cancer.

Though the phenomenal activities of private groups like the Susan G. Komen Foundation, of which I am proud to have been a founding supporter, more and more women are getting the message: get smart and get screened. Through events like the wildly popular ''Race for the Cure,'' the Komen foundation has also raised over $215 million to help fund breast cancer research. My friend Nancy Brinker, sister of the late Susan G. Komen, has led the group from an idea to a leading force in health care that has, without doubt, helped to save and improve thousands of women's lives.

Many other groups and individuals are also helping to further the cause. The National Alliance of Breast Cancer Organizations has worked to expand research and public education in this area. The Y–ME National Breast Cancer Organization is another group that has been very active in supporting those directly and indirectly affected by breast cancer.

With regard to research, I have worked with my colleagues in the Senate, leaders like Senator MACK of Florida and Senator SPECTER of Pennsylvania, to ensure that our Federal commitment to disease research, and particularly that for breast cancer, continues to grow.

We have made remarkable progress. While federally-supported breast cancer research was not a large part of our overall federal disease research budget even a few years ago, that has changed dramatically in recent years. NIH funding alone on breast cancer totaled almost $500 million last year, and is expected to top $525 million this year. In fact, over the last decade, NIH breast cancer research funding has increased by 600 percent.

In addition, I have worked hard as a member of the Defense Appropriations Subcommittee to ensure that our breast cancer research that is conducted under the auspices of the DOD health research infrastructure continues. This contributes an additional $175-plus million per year to this cause.

Most recently, I was proud to have joined forces with my colleague, Senator DIANNE FEINSTEIN, to extend the issuance of the Postal Service's new Breast Cancer Awareness Stamp. To date, over 214 million of these stamps have been sold, generating $15.1 million

for research. The first round of grant announcement using these funds was actually just made. These funds will support innovative and promising new research opportunities in understanding and treating breast cancer.

These efforts have begun to pay off. Through the development of ever-more effective diagnostic tools, like digital mammography, and through the development of innovative new treatment and preventative drugs, like Tamoxifin, we are slowly but surely beginning to get the upper hand on this disease.

But early detection remains the key. That is why the American Cancer Society recommendations on screening are so important: women aged 40 and above should have annual mammograms and clinical breast examinations; women aged 20 to 39 should have clinical examinations every three years; and all women 20 and over should conduct a breast self-examination every month.

Finally, I would note that the Senate just this week passed the Breast and Cervical Cancer Treatment Act, a bill that ensures that women who do not have health insurance and who are found to have either breast or cervical cancer through the Federal Breast and Cervical Cancer Early Detection Program, will get the follow-up care they need.

We have come a long way from the days when former First Lady Betty Ford brought breast cancer out into the national discourse, beginning the long overdue dialogue and public awareness campaign to save women's lives. But we still have much to do to match her courage and to live-up to her vision of the day when all women are appropriately screened and when we defeat breast cancer once and for all.

During this month, I urge my colleagues in Congress and all Americans to reflect upon this issue, to support research and efforts, and to arm themselves with the knowledge they need to respond should the unthinkable occur in their lives or in the lives of a loved one. Working together, we can and will beat breast cancer.

CHINA's CONVENTIONAL FORCE MILITARY MODERNIZATION

Mr. AKAKA. Mr. President, I call attention to a report prepared at my request by the Library of Congress' Congressional Research Service entitled ''China's Foreign Conventional Arms Acquisitions: Background and Analysis.'' As ranking member of the Subcommittee on International Security, Proliferation, and Federal Services of the Governmental Affairs Committee, I have been keenly interested in the implications of Chinese conventional force modernization on Asian stability.

I am providing copies of this excellent analysis, which was authorized by Shirley Kan, Christopher Bolkcom, and Ronald O'Rourke, to all Senators. I believe my colleagues will find the report useful and insightful as we assess American policy towards China.

The report examines the major foreign conventional weapon systems that China has acquired or has committed to acquire since 1990, with particular attention to implications for U.S. security concerns. It pays special attention to Chinese air and naval acquisitions and describes how Chinese leaders began to pay greater attention to modernizing the People's Liberation Army, PLA, in the early 1990s, transforming it from a force mainly oriented towards domestic security to one focused on modern warfare. Since then, China has ranked among the top 10 leading arms buyers among developing nations.

According to the analysis, the catalyst for PLA modernization, including the procurement of advanced foreign military equipment, was China's view that its top security problem was preventing Taiwan's permanent separation and securing unification as ''one China.'' However, additional security goals may be precluding Japan's rise as the strongest Asian power, ensuring Chinese influence over the Korean Peninsula, supporting Chinese claims to territory in the East and South China Seas, subduing India's quest for power, and countering American power in the region.

As China modernizes its forces, it is clear that arms sales from Russia are essential, providing advance aircraft, including Su–27 fighters, missile systems, submarines, and surface ships. The report is unclear as to the strategic advantage derived by Russia in selling such advanced systems to a country with which it historically has had difficulty along a shared border.

The report concludes that the operational significance of these major qualitative upgrades through foreign arms acquisitions remains to be seen and will depend in large measure on the PLA's ability to demonstrate an ability to conduct effective joint military operations.

The report also does an excellent job of comparing Chinese new conventional weapons to American capabilities, suggesting that in most cases—with some critical exceptions—American forces still retain a tactical and strategic edge. For example, the report mentions the potential threat from a nuclear armed SS–N–22, an anti-ship cruise missile, and the superior capabilities of the Su–27 fighter aircraft. Obviously, the United States should not be complacent. The Chinese are, for the first time in modern history, developing a capability to project air and naval forces beyond their coastal areas. The Untied States needs to seek ways to address any threat to American interests as a result of that capability not only through pursuing our own military modernization program but also through a strategic dialogue with China which reassures China that we have a shared desire in regional stability. Indeed, in many ways, initiating a productive diplomatic dialogue with China on Asian security may be more difficult than maintaining our qualitative edge on power projection.

Again, I commend this excellent report by the Congressional Research Service which was coordinated by Shirley Kan, a specialist in National Security Policy. It is one of the most comprehensive, unclassified assessments currently available on Chinese conventional arms acquisitions.

VICTIMS OF GUN VIOLENCE

Mr. DORGAN. Mr. President, it has been more than a year since the Columbine tragedy, but still this Republican Congress refuses to act on sensible gun legislation.

Since Columbine, thousands of Americans have been killed by gunfire. Until we act, Democrats in the Senate will read the names of some of those who have lost their lives to gun violence in the past year, and we will continue to do so every day that the Senate is in session.

In the name of those who died, we will continue this fight. Following are the names of some of the people who were killed by gunfire one year ago today.

October 10, 1999:

Delbert Deaton, Dallas, TX; Sedric Gillespie, 24, Denver, CO; Julian Lanier, 31, Denver, CO; Maria-Teresa Marquicias, San Francisco, CA; Dexter Lamont McKee, 19, Washington, DC; Cherry L. Minor, 22, New Orleans, LA; Donald Nelms, 56, Hollywood, FL; Jack Nowlin, 63, Miami-Dade County, FL; Joseph Ridual, San Francisco, CA; Noel Ridual, San Francisco, CA; Cliff Roberts, 22, Bloomington, IN; Baltazar Torres, 18, Wilmington, DE; Craig Watkins, 23, Baltimore, MD; Derrick White, 30, Oakland, CA; Anthony M. Witt, 27, Chicago, IL; Unidentified Male, 26, Norfolk, VA; and Unidentified Male, San Francisco, CA.

One victim of gun violence I mentioned, 22-year-old Cherry Minor of New Orleans, was pregnant when she was shot and killed one year ago today. Cherry was at home with her two small children and a friend when her husband forced his way into her house and shot her in the head. Cherry was separated from her husband, who police say had a history of domestic violence.

We cannot sit back and allow such senseless gun violence to continue. The deaths of these people are a reminder to all of us that we need to enact sensible gun legislation now.

CUBA POLICY AND SENATE PROCESSES

Mr. BAUCUS. Mr. President, I wish we were here on the Senate floor discussing and debating the important issues that are in the Commerce-Justice-State Appropriations bill. I strenuously object to the fact that we are not doing just that. This bill will not be debated on the floor today, or probably any day this session. In fact, we will likely have no opportunity to debate this bill, to offer amendments, or to vote on it. The plan is to wrap it up in an omnibus bill of some sort as the session ends.

This is no way to legislate. This is no way to lead. This goes against the very basis of what our country is about. Our Government is based on principles of transparency and openness. Our processes are supposed to be open to public scrutiny and comment.

Robert Hutchins, former President of the University of Chicago and one of the most esteemed American intellectuals of the 20th century, wrote:

> The death of democracy is not likely to be an assassination from ambush. It will be a slow extinction from apathy, indifference, and undernourishment.

Senators have been disenfranchised because of a distorted legislative process. And that means the American citizens who sent us to represent them have also been disenfranchised. I object to how this Congress is being run.

There are many important issues that should be of concern to Senators in the Commerce-Justice-State Appropriations bill. I will take a few moments today to address one of those issues. It needs public vetting, even if we are being deprived of our rights to debate it and vote on it.

The issue is TV Marti. This is a television station owned and operated by the U.S. Government. It broadcasts daily to Cuba. For more than a decade we beamed TV signals to Havana. The problem is that no one watches TV Marti. No one. And under this appropriations bill, we will spend another $9.5 million next year on a television station that no one watches. Let me explain.

The creation of TV Marti and Radio Marti was a good idea conceptually. With no freedom in Cuba, the United States Government would beam into Cuba uncensored news about the world and about what was really going on inside Cuba. The Cuban people, deprived of their freedoms, would have a source of news.

What has TV Marti accomplished since its creation in 1989? Has it penetrated the Cuban television market and provided the Cuban people with information that Castro wants to hide from them? The answer is a resounding no. Virtually nobody in Cuba has even heard of TV Marti. According to research commissioned by the Broadcasting Board of Governors, the agency that runs TV Marti, 9 out of 10 Cubans don't even know it exists.

The same research by the Broadcasting Board of Governors asked over 1,000 adults whether they had watched TV Marti in the past week. The answer was no one had watched. Not a single person. How many had watched TV Marti in the past year? One. One person out of a thousand.

Most Cubans watch television. None watches TV Marti. There are two major reasons.

First, TV Marti is on the air when Cubans are asleep. It broadcasts only from 3:30 in the morning until 8:00 A.M. TV Marti has to respect international broadcast rules which require that it not interfere with Cuban TV transmissions. So TV Marti can broadcast only when no Cuban station wants to use the same frequency. That is, it broadcasts when nobody watches television.

Second, there is nothing to see. It is just snow on the screen. The Cuban government has effectively jammed the video portion of TV Marti since its inception.

So, for $9.5 million in the coming fiscal year, $139 million over the last decade, another $100 million over the next decade, we ask Cubans to get up in the middle of the night to watch snow on a blank screen. This makes no sense at all.

Last year, some changes were made in TV Marti, although they are not likely to result in Cuban citizens watching.

Defenders of TV Marti contend that it is a long-term investment. They say that someday Fidel Castro will be gone. When that happens, we will want to get accurate information to the Cuban people. Defenders of TV Marti claim that we will save money by having TV Marti up and running at that point.

I don't buy this argument. So far we have spent $139 million to have TV Marti in place in case Castro suddenly leaves the scene. At the rate of spending in this appropriations bill, we will spend more than $100 million over the coming decade. That is, total spending of a quarter of a billion dollars for a contingency when Radio Marti is already operating and can get information to Cuban citizens. Is this cost effective? Hardly.

TV Marti is a dinosaur, a relic of the Cold War. We should not spend another $10 million to preserve a worthless skeleton. We should bury it once and for all this year.

I am compelled by the events of last week in the Agricultural Appropriations conference to raise another aspect of our Cuba policy. Earlier this year, both the Senate and the House agreed, by overwhelmingly majorities, to end the ban on food and medicine sales to Cuba. The votes clearly reflected the will of the American people. Yet the Republican majority on this conference rejected the House and Senate votes and thwarted the will of the people. They agreed to maintain restrictions on the sale of food and medicine that make any significant progress virtually impossible.

Then, to make matters worse, the Republican conferees converted current administrative restrictions on travel to Cuba into legal restrictions. The result is that the right of Americans to travel freely, and the right of Cuban Americans to visit family members in Cuba, are going to be abridged more than ever.

This is a travesty of our democracy. How can we allow a small group in the Republican leadership to flaunt the overwhelming will of the Congress, to maintain an anachronistic, Cold War policy toward Cuba that harms the average Cuban and risks great danger once the transition from the Castro regime begins, and to abridge the rights and freedom of Americans? I am profoundly unhappy with this result, and I protest the way this legislative process is being conducted.

ADDITIONAL STATEMENTS

ANNIVERSARY OF THE LITHONIA FIRST UNITED METHODIST CHURCH

• Mr. CLELAND. Mr. President, in my lifetime, I have witnessed many changes, experienced fantastic joys, and seen countless faces. It is easy in today's fast-moving society to find yourself caught in a perpetual whirlwind. With days full of appointments and meetings, life sometimes seems to lose all semblance of stability. Luckily, I have always had a source of peace and inspiration in my life, Lithonia First United Methodist Church.

With great personal pride and happiness, I come before you today to commemorate an anniversary that is of particular importance to my family and me. One hundred-forty years ago, on Sunday, October 14, 1860, a small group of Lithonians convened for the first time to worship under the leadership of the Reverend Newdaygate B. Ousley. From its humble beginnings in a one room meeting house, Lithonia Methodist Episcopal Church, the forerunner to Lithonia First United Methodist Church began its ministry and a tradition of service that continues even today.

It is ironic that a church that grew during the tumult of the Civil War has lasted as long as Lithonia First has. In fact, it is perhaps even more astounding that over the years since its first meeting, during a time that has seen two world wars and countless technological innovations, the church has pulled even closer together and taken on a significant leadership role in its Georgia community.

For 140 years, Lithonia First United Methodist Church has provided services and leadership for the surrounding region. Through personal outreach, family ministry, and organizing events like flea markets and barbeques to raise money for the needy, Lithonia First has solidified its place of leadership in its community.

Since its simple beginnings, Lithonia First United Methodist Church has grown and become a source of stability and inspiration for its congregants. Under the ministry of its Pastor, Dr. Lawrence E. Wilson, the church has proven how important faith is to our prosperity, and illustrated the power of a community united. It is my pleasure to honor Lithonia First United Methodist Church for its historic anniversary. I am forever grateful for the church's acceptance, dedication, and commitment, I am truly blessed to be a part of such a wonderful community.●

TRIBUTE TO COLONEL TERRY WILCUTT

● Mr. MCCONNELL. Mr. President, I rise today to pay tribute to Kentuckian Terry Wilcutt on the occasion of his recent journey to the International Space Station as commander of the space shuttle Atlantis.

Congratulations to Colonel Wilcutt, on achieving the kind of academic and professional success it takes to receive the honor of commanding a flight into space. Colonel Wilcutt has flown to space not once, but four times, and on two such flights he has held the title of mission commander. I, along with my fellow Kentuckians, am certainly proud to call him one of Kentucky's own. His accomplishments speak well for his home state as well as his alma mater, Western Kentucky University.

Colonel Wilcutt is a Kentuckian, born and bred. He was born in Russellville, KY, graduated from Louisville's Southern High School in 1967, and is a 1974 graduate of Western Kentucky University with a bachelor of arts degree in math. Colonel Wilcutt taught high school math for 2 years and then entered the Marine Corps. While in the Marine Corps, he attended the notorious ''Topgun'' Naval Fighter Weapons School, achieved honors at every level of pilot training and has logged over 4,400 flight hours in more than 30 different aircraft.

Colonel Wilcutt's career in aeronautics began in 1990 when he was selected by the National Aeronautics and Space Administration, NASA, to become an astronaut. Prior to his September 2000 trip to space, Colonel Wilcutt flew on three missions to space and logged more than 724 hours in space.

On behalf of myself and my colleagues in the Senate, I congratulate you on your accomplishments. Only a handful of Americans reach the level of excellence required and receive the honor of being selected to lead missions into space. Colonel Wilcutt, I am proud of you, your fellow Kentuckians are proud of you, and your alma mater of Western Kentucky University is proud of you. Thank you for your brave service to our country, and best wishes for further success in the future.●

PRAISING THE PRESIDENT FOR HIS EXECUTIVE ORDER PROMOTING FEDERAL CONTRACT OPPORTUNITIES FOR DISADVANTAGED BUSINESSES

● Mr. KERRY. Mr. President, I speak today to commend the President for issuing Executive Order 11625, designed to help strengthen the Federal Government's commitment to providing contracting opportunities to disadvantaged businesses.

In 1998, I took to the floor to successfully defend the Transportation Department's Disadvantaged Business Enterprise (DBE) program from those who sought to weaken it. Today, I am pleased to speak out in favor of the President's efforts to strengthen programs like the DBE, along with all minority-owned business government contracting programs.

It should come as no surprise to anyone in this Chamber familiar with small businesses, especially minority owned firms, that government contracting can help provide a strong foundation to build a prosperous small business. As any successful graduate of the Small Business Administration's 8(a) program will tell you, it provides the opportunities, but you have to supply the entrepreneurial spirit and hard work.

And this hand-up approach is what I mean by assisting minority-owned firms. These programs are not a handout. Rather, they exist to help level the playing field and to combat the inequities in our society that may prevent these firms from receiving the same opportunities available to other businesses.

These contracts are beneficial not just because they provide initial contracts to small disadvantaged firms, they also help minority firms establish a record of providing goods and services to the Federal Government. This is of critical importance because it assists these businesses in obtaining future contracts. In turn, these firms help provide jobs and competition to larger businesses, saving the taxpayers money through reduced costs and time saving innovations. Thus, these programs have direct and indirect benefits to our economy at all levels.

The Executive Order signed by President Clinton on Friday will help strengthen minority business ownership by directing Federal agencies to take affirmative steps to increase contracting between the Federal government and Small Disadvantaged Businesses, 8(a) Businesses, and Minority Business Enterprises. The Executive Order also holds Federal agencies accountable for carrying out the terms of the Order by requiring them to develop a long-term strategic plan and to submit annual reports to the Office of Management and Budget (OMB) of their efforts to increase contracting with disadvantaged businesses; requires Federal agencies to ensure the participation of small and disadvantaged businesses when procuring information technology and telecommunications services; and directs Federal departments and agencies to ensure that all creation, placement, and transmission of federal advertising are fully reflective of the nation's diversity.

I applaud President Clinton's action to help ensure the vitality of minority-owned small businesses. As the Senior Democrat on the Senate Committee on Small Business and a long time supporter of these programs, I urge OMB to forward the agencies' plans and their implementation reports to the House and Senate Committees on Small Business for further review.●

HEALTHIER BABIES MONTH

● Mr. GRAMS. Mr. President, today I rise to applaud the support the March of Dimes provides for the Campaign for Healthier Babies Month. This month focuses attention on the March of Dimes Birth Defects Foundation and its many efforts to reduce the more than 150,000 birth defects which occur every year.

Debilitating birth defects leave our kids unable to walk, hear, think, or fight off disease. However, with the support of organizations like March of Dimes, community health programs, and especially local advocacy groups, the number of children affected by some 5,000 different types of birth defects continues to steadily decline. Since 1960, infant deaths related to birth defects have been cut in half due to increased awareness and medical advances in both surgery and specialized care in neonatal intensive care units.

The March of Dimes Foundation has played a major role in increasing the likelihood that children with birth defects will live to see their first birthday. Over the last decade, scientists have discovered that women who take a daily supplement of B vitamin folic acid in combination with a healthy diet—especially before pregnancy—greatly reduce the chances of their child being affected by birth defects.

Another vital step in reducing the chances of birth defects is the accessibility of prenatal care. My own state of Minnesota has one of America's finest health care systems and, as a result, ranks in the top ten states with regard to low birth-weight and infant mortality. But there are many states that

are not as fortunate, and I firmly believe recognition of this campaign will help drive change which can have a profound impact on prenatal and perinatal care.

In the 105th Congress, the March of Dimes was instrumental in the passage of the Birth Defects Prevention Act, which established the first nationwide network of birth defects monitoring programs. I am confident the law complements March of Dime's efforts in the areas of both alcohol avoidance in preventing Fetal Alcohol Syndrome and the folic acid vitamin supplement program in preventing neural tube defects, NTDs. NTDs are among the most serious and common birth defects in the United States affecting some 2,500 babies each year, and are a result of an underdeveloped brain and spinal cord. The most common NTD is spina bifida, a leading cause of childhood paralysis.

Birth defects like these can affect any family. As we head into the new millennium, filled with endless possibilities, I am proud and honored to be able to pay tribute to those whose tireless efforts result in dramatic reductions in the number of birth defects in the United States every year.●

TRIBUTE TO FORMER GOVERNOR LEROY COLLINS

● Mr. CLELAND. Mr. President, amid the violence and uncertainty of the Civil Rights movement, many people distinguished themselves while fighting for fairness and justice. Men and women risked great personal harm and displayed unparalleled courage in a struggle none of us must ever forget. Although many of the names of those who fought for fairness have been lost to history, it is important to honor these selfless warriors of equality.

Although his name is not as familiar as those of Dr. Martin Luther King, Jr. and James Farmer, Mr. LeRoy Collins, former Governor of Florida, played an instrumental role in preventing violence and ensuring the success of demonstrations one fateful Spring day in Selma, AL, 35 years ago. As marchers arrived at the Edmund Pettus Bridge in Selma, they hoped against hope that a repeat of ''Bloody Sunday'' was not waiting for them.

President Lyndon Johnson, having witnessed the unconscionable violence initiated by Alabama State troopers on March 7, 1965, sought to stave off another potentially bloody day, and entrusted LeRoy Collins with the delicate task of easing the extremely tense situation.

Over the course of the day, Mr. Collins crisscrossed the Pettus Bridge, negotiating at either end with Dr. King and representatives of the Alabama police. After a tireless effort, Mr. Collins eventually secured an agreement that not only allowed the marchers to cross the bridge, but also prevented the violent clash so many people had feared. Later that day, with Alabama State troopers and the entire Nation looking on, 2,000 people led by Dr. King peacefully marched across the Edmund Pettus Bridge.

In an era known for its heated violence, peaceful encounters were a welcome surprise. The nonviolent nature of the second march across the Pettus Bridge was in no small measure a result of LeRoy Collins diligence and courage. One can imagine that had a deal not been brokered, an encounter, possibly more violent than the one on ''Bloody Sunday,'' could very easily have taken place.

LeRoy Collins' work illustrates why it is important to go beyond the stories printed in the history books. His hard work and selfless effort saved lives and empowered the movement led by Dr. Martin Luther King, Jr. In a world seemingly devoid of real heroes, it is important to honor those who have made truly significant contributions to our Nation. It took a great man to accomplish what Mr. Collins did. As Dr. King once wrote, ''Human progress never rolls on wheels of inevitability; it comes through the tireless efforts of men willing to be co-workers with God.''●

TAIWAN'S NATIONAL HOLIDAY

● Mr. BUNNING. Mr. President, today, October 10th, is the 89th observance of National Day in the Republic of China on Taiwan. From its early days of struggle on the Chinese mainland to the establishment of the vigorous democracy and free market economy that we know today on Taiwan, the Republic of China has made great strides since its founding on October 10, 1911.

The vision of Dr. Sun Yat-sen, the founding father of the Republic of China, was expressed in what he called the ''Three Principles of the People''—nationalism, democracy, and the people's well being. We all hope that Dr. Sun's vision, which has been realized so impressively on Taiwan, will some day be equally as true on the Chinese mainland.

Taiwan held its most recent parliamentary election in December 1998 and, of course, conducted its most recent presidential election just this past March. The election of Chen Shui-bian as president marked Taiwan's first transition of power from one party to another at the national level. Even more important, it marked the first time in the 5,000-year-long history of Chinese society that one democratically-elected head of state was succeeded by another.

In the economic and social fields, Taiwan's success is well known. The 22 million people of Taiwan are responsible for the 19th largest gross national product in the world. Japan is the only country with a larger population in all of Asia that has a higher standard of living than Taiwan's. Taiwan has an extraordinarily diversified economy: all the way from being virtually a ''silicon island'' and the world's third largest supplier of computer chips to being a major manufacturing power in such heavy industries as steel and shipbuilding.

All of this has not come about by accident. Wise leadership, dating back to the 1950's, laid the groundwork for the dynamic nation we see today. With strong and continued American support—and this is ever more crucial to the security and stability of the entire East Asia region—Taiwan will thrive and prosper far into the future. Believe me, the world is watching to see how the United States treats democratic Taiwan, because the future of every other democracy in East Asia is ultimately contingent on the stand we take.

The success of Taiwan must also continue to serve as an example—as well as a challenge—to the people and government on the Chinese mainland. The free, prosperous, democratic society that Taiwan has become is a glimpse of what can come to be on the mainland if the dictatorship in Beijing would get out of the way.

And so I salute the Republic of China on Taiwan on the occasion of National Day. And I look forward to many more celebrations to come.●

THE 130TH ANNIVERSARY OF THE MICHIGAN STATE UNIVERSITY SPARTAN MARCHING BAND

● Mr. ABRAHAM. Mr. President, I rise today to give recognition to one of Michigan State University's oldest institutions, the Spartan Marching Band. The Spartan Marching Band was formed in 1870 at the then Michigan Agricultural College, by Civil War Veteran and student Ransom Mc Donough. The band consisted of ten members and was all brass. The small group participated in drills and parades.

Throughout its 130 years, the band has evolved tremendously with the times as any successful organization must. And throughout its long history, the band has exemplified excellence and has represented the university with great pride and honor. The Michigan State University Marching Band welcomed the football team and fans for over 100 years and has accompanied the team to numerous bowl games, including four Rose Bowl appearances. The band has played for four presidents and appeared at the New York World's Fair.

The person who had perhaps the most significant impact on the Spartan Marching Band was Leonard Falcone. Mr. Falcone was appointed band director in 1927 and served Michigan State university and the Music program for 40 years. Mr. Falcone was affectionately known as ''The Dean of Big Ten

Bands.'' Aside from his unprecedented tenure, Mr. Falcone is credited with arranging the music to the MSU Alma Mater, ''MSU Shadows'' and composing the music to the greatest college fight song in the world, the ''MSU Fight Song.'' So revered was Mr. Falcone that on the eve of his death in 1985, former and present members of the Spartan Marching Band visited him and serenaded him with the ''MSU Fight Son'' and ''MSU Shadows.''

The Spartan Marching Band has continuously set the standard for the Nation's marching bands. It is well known throughout our State and Nation for its innovative and intricate marching style and excellent musical arrangements. Through its long legacy, which continues today under the fine leadership of band director John T. Madden, the Spartan Marching Band continues to set the standard for Michigan State pride.

Through its achievements the Spartan Marching Band has represented the face of Michigan State University for the past 130 years. From its street beat cadence called ''The Series,'' to the traditional ''Kick-Step'' entrance into the stadium for pregame, to the singing of ''MSU Shadows,'' to Military regimental traditions adhered to by all members, the Spartan Marching Band is a true ambassador of Michigan State University. As a Michigan State University Alumnus, I would like to thank the Spartan Marching Band for its contributions to MSU pride and congratulate all members of the 300 plus-member band of today and all past members of the Spartan Marching Band on 130 years of tradition, excellence, innovation, and pride. Go Green!●

TRIBUTE TO ELLEN WILLIAMS

● Mr. MCCONNELL. Mr. President, I rise today to recognize my good friend Ellen Williams for her tremendous work as chairwoman of the Kentucky Republican Party.

To say that Ellen Williams is a busy woman is quite the understatement. Besides being a wife, Mom, soccer coach, and part-time career woman, Ellen is chairwoman of the Republican Party of Kentucky. She has a history of service spanning more than 15 years, which includes work in President Reagan's 1984 reelection campaign, Larry Forgy's 1995 gubernatorial campaign, and as state executive director of the Kentucky Republican Party in 1992–93. Ellen has shared her time, knowledge, and spirit with Kentucky Republicans over the last several years, and she continues to share her able leadership skills with us now as chairwoman of our party.

Ellen is a confident, capable leader. In her position as chairwoman, one of her many responsibilities is to be the voice of the Kentucky Republican Party. Ellen makes it her business to have her finger on the pulse of the State's Republicans. Considering the liberal leaning nature of the Kentucky press, I am fully aware of the challenge that being a spokesperson presents. Ellen is a true professional when it comes to dealing with the media, and handles each statement she gives and each press conference she holds with style and grace.

Another part of Ellen's job is to rally Kentucky Republicans for local, State and national races. This responsibility requires her to do a great deal of traveling—a recent Anderson News article says that Ellen has driven nearly 30,000 miles in the last year going to meetings and party events across the State. The fresh enthusiasm Ellen has brought to her post as chairwoman is invaluable, and I thank you, Ellen, for all that you do.

I also thank your husband, Greg, whom you have referred to as your ''co-chairman,'' and to your two young sons, Sam and Joey. I thank them for sharing you with Kentucky's Republicans, and for the love and support they provide which makes it possible for you to do the excellent job you do.

Ellen leads the party during an exciting time in Kentucky politics and in national politics. Our great state boasts two Republican U.S. Senators, five Republican Members of the U.S. Congress, a Republican majority in the State senate, and a promising November election for our Presidential nominee, Gov. George W. Bush. As chairman of Bush/Cheney 2000 in Kentucky, I want to say a special thank you, Ellen, for all of your hard work thus far. Thank you in advance for all of the hours of work yet to come before November 7.●

WEB PORTAL ALLIANCE—ZURICH MEDNET

● Mr. GRAMS. Mr. President, I rise today to speak about a recent alliance which has been made between two internationally recognized biomedical web-portals or web-based information exchanges. This alliance, I believe will have a dramatic impact on the way biomedical information is exchanged and used in developing new medical devices, pharmaceutical products, and life-saving medical techniques.

Mr. President, several weeks ago, I, along with my staff, had the pleasure of participating in an event hosted by the Swiss ambassador to the United States, Alfred DeFago, introducing the newly created alliance between MBBNet and Zurich MedNet.

MBBNet, a web portal, administered by the University of Minnesota, together with over 900 medical biotech companies and programs, have been the driving forces behind the accumulation and distribution of medical research and open source information for academicians, medical professionals, and corporate researchers in Minnesota and the United States. Zurich MedNet shares the same history, being the largest medical and biotech cluster in Europe. Together these two exchanges, Zurich MedNet and MBBNet by electronically combining resources, are setting international boundaries aside and taking meaningful strides toward the development and improvement of medical education and innovative medical technologies both here in the United States and abroad. I am convinced that alliances like this will help shape the research and development strategies across all industries in the future and I am pleased that Minnesota has again stepped to the fore and provided that kind of leadership. We all stand to benefit.

I look forward to other industries following the lead that Zurich MedNet and MBBNet have established, and I believe it is a positive step toward international cooperation others should seek to emulate. Mr. President, I would again like to thank Ambassador DeFago, and my colleagues that have helped and supported this endeavor, and I look forward to doing all I can to ensure the future success of this important alliance.●

MESSAGES FROM THE HOUSE

ENROLLED BILL SIGNED

Under authority of the order of the Senate of January 6, 1999, the Secretary of the Senate, during the recess of the Senate, received a message from the House of Representatives announcing that the Speaker has signed the following enrolled bill:

H.R. 4444. An act to authorize extension of nondiscriminatory treatment (normal trade relations treatment) to the People's Republic of China, and to establish a framework for relations between the United States and the People's Republic of China.

The enrolled bill was signed subsequently by the President pro tempore (Mr. THURMOND).

At 2:13 p.m., a message from the House of Representatives, delivered by Ms. Niland, one of its reading clerks, announced that the House has passed the following bill, in which it requests the concurrence of the Senate:

H.R. 5362. An act to increase the amount of fees charged to employers who are petitioners for the employment of H–1B non-immigrant workers, and for other purposes.

REPORTS OF COMMITTEES

The following reports of committees were submitted:

By Mr. JEFFORDS, from the Committee on Health, Education, Labor, and Pensions, with an amendment in the nature of a substitute:

S. 2725: A bill to provide for a system of sanctuaries for chimpanzees that have been designated as being no longer needed in research conducted or supported by the Public

Health Service, and for other purposes (Rept. No. 106–494).

By Mr. SMITH, of New Hampshire, from the Committee on Environment and Public Works, with an amendment in the nature of a substitute:

H.R. 3671: A bill to amend the Acts popularly known as the Pittman-Robertson Wildlife Restoration Act and the Dingell-Johnson Sport Fish Restoration Act to enhance the funds available for grants to States for fish and wildlife conservation projects and increase opportunities for recreational hunting, bow hunting, trapping, archery, and fishing, by eliminating opportunities for waste, fraud, abuse, maladministration, and unauthorized expenditures for administration and execution of those Acts, and for other purposes (Rept. No. 106–495).

INTRODUCTION OF BILLS AND JOINT RESOLUTIONS

The following bills and joint resolutions were introduced, read the first and second times by unanimous consent, and referred as indicated:

By Mr. HAGEL:

S. 3181. A bill to establish the White House Commission on the National Moment of Remembrance, and for other purposes; to the Committee on the Judiciary.

By Mr. INHOFE:

S. 3182. A bill to amend laws relating to the lands of the citizens of the Muscogee (Creek), Seminole, Cherokee, Chickasaw and Choctaw Nations, historically referred to as the Five Civilized Tribes, and for other purposes; to the Committee on Indian Affairs.

SUBMISSION OF CONCURRENT AND SENATE RESOLUTIONS

The following concurrent resolutions and Senate resolutions were read, and referred (or acted upon), as indicated:

By Mr. LOTT (for himself, Mr. DASCHLE, Mr. WELLSTONE, Mr. GRAMS, Mr. DURBIN, and Mr. FEINGOLD):

S. Res. 369. A resolution relative to the death of Representative Bruce F. Vento, of Minnesota; considered and agreed to.

By Mr. HELMS:

S. Res. 370. A resolution to increase the authorization for expenditures relating to Senate activities in connection with participation in interparliamentary institutions and the facilitation of foreign interchanges in the United States, and for other purposes; considered and agreed to.

STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. INHOFE:

S. 3182. A bill to amend laws relating to the lands of the citizens of the Muscogee (Creek), Seminole, Cherokee, Chickasaw and Choctaw Nations, historically referred to as the Five Civilized Tribes, and for other purposes; to the Committee on Indian Affairs.

FIVE NATIONS CITIZENS LAND REFORM ACT OF 2000

Mr. INHOFE. Mr. President, today I introduce a bill by request of the members of the Cherokee, Choctaw, Chickasaw, Creek, and Seminole Nations, historically referred to as the ''Five Civilized Tribes,'' who still own individual Indian restricted land or ''restricted property.''

The proposed bill would repeal aspects of the Stigler Act of 1947—the 1947 Act—and the Act of June 14, 1918—the 1918 Act—which subject the transactions of restricted property to the jurisdiction of Oklahoma's district courts and leave such lands open to adverse possession.

By way of background, the issue of individual restricted Indian lands has had a long legislative history. Between 1906 and 1970, Congress enacted numerous laws dealing specifically with the individually allotted lands of the ''Five Civilized Tribes.'' Collectively, these laws have created a complex system of Indian land tenure in eastern Oklahoma. These laws are unique to eastern Oklahoma and are not applicable either in western Oklahoma or elsewhere in the United States.

Due to these laws, thousands of acres of Indian lands in eastern Oklahoma have gone unprobated for years, causing ownership of these lands to be increasingly fractionated and more difficult to manage for the benefit of the devisees or undetermined heirs. Indian allotments elsewhere in the United States, on the other hand, are generally held in trust under the jurisdiction of the Secretary of Interior. The goal of this legislation is to provide the remaining restricted Indian allotments in eastern Oklahoma, to the greatest extent feasible, with the same kind of protections as are afforded trust allotments in western Oklahoma and all other reservations in the United States. The bill would also include these lands in the national efforts to alleviate the growing problem of fractionated ownership.

Notwithstanding these goals, great lengths have been taken to draft the bill so that it would be ''tax neutral'' as to the county tax rolls. The bill is written to help preserve what is left of the individual Indian restricted land base, reducing the rate at which the current inventory of restricted property in eastern Oklahoma passes out of restricted status. The bill would not allow Indian members of the Five Civilized Tribes to simply acquire fee land and have it placed in restricted status.

With time very limited in the remaining days of the 106th Congress, I do not intend to rush this bill through Congress, denying adequate hearings and oversight, but simply to demonstrate to all interested parties that this legislation is a serious effort to reform the 1947 act. This bill has been through many drafts in recent months and much progress has been made to achieve a workable bill. I am hopeful that Congress can enact this reform next year.

ADDITIONAL COSPONSORS

S. 1020

At the request of Mr. GRASSLEY, the name of the Senator from Georgia (Mr. CLELAND) was added as a cosponsor of S. 1020, a bill to amend chapter 1 of title 9, United States Code, to provide for greater fairness in the arbitration process relating to motor vehicle franchise contracts.

S. 1322

At the request of Mr. DASCHLE, the name of the Senator from Maryland (Ms. MIKULSKI) was added as a cosponsor of S. 1322, a bill to prohibit health insurance and employment discrimination against individuals and their family members on the basis of predictive genetic information or genetic services.

S. 1536

At the request of Mr. DEWINE, the names of the Senator from New Jersey (Mr. TORRICELLI) and the Senator from North Dakota (Mr. CONRAD) were added as cosponsors of S. 1536, a bill to amend the Older Americans Act of 1965 to extend authorizations of appropriations for programs under the Act, to modernize programs and services for older individuals, and for other purposes.

S. 2608

At the request of Mr. GRASSLEY, the name of the Senator from Florida (Mr. GRAHAM) was added as a cosponsor of S. 2608, a bill to amend the Internal Revenue Code of 1986 to provide for the treatment of certain expenses of rural letter carriers.

S. 2725

At the request of Mr. SMITH of New Hampshire, the name of the Senator from Vermont (Mr. LEAHY) was added as a cosponsor of S. 2725, a bill to provide for a system of sanctuaries for chimpanzees that have been designated as being no longer needed in research conducted or supported by the Public Health Service, and for other purposes.

S. 2841

At the request of Mr. ROBB, the name of the Senator from Nebraska (Mr. KERREY) was added as a cosponsor of S. 2841, a bill to ensure that the business of the Federal Government is conducted in the public interest and in a manner that provides for public accountability, efficient delivery of services, reasonable cost savings, and prevention of unwarranted Government expenses, and for other purposes.

S. 3040

At the request of Mr. THOMPSON, the name of the Senator from Pennsylvania (Mr. SPECTER) was added as a cosponsor of S. 3040, a bill to establish the Commission for the Comprehensive Study of Privacy Protection, and for other purposes.

S. 3071

At the request of Mr. LEAHY, the name of the Senator from New York (Mr. MOYNIHAN) was added as a cosponsor of S. 3071, a bill to provide for the

appointment of additional Federal circuit and district judges, and for other purposes.

S. 3089

At the request of Mr. HAGEL, the names of the Senator from Indiana (Mr. LUGAR) and the Senator from North Dakota (Mr. CONRAD) were added as cosponsors of S. 3089, a bill to authorize the design and construction of a temporary education center at the Vietnam Veterans Memorial

S. 3091

At the request of Mr. GRASSLEY, the name of the Senator from Nebraska (Mr. HAGEL) was added as a cosponsor of S. 3091, a bill to implement the recommendations of the General Accounting Office on improving the administration of the Packers and Stockyards Act, 1921 by the Department of Agriculture.

S. 3101

At the request of Mr. ASHCROFT, the name of the Senator from Kentucky (Mr. BUNNING) was added as a cosponsor of S. 3101, a bill to amend the Internal Revenue Code of 1986 to allow as a deduction in determining adjusted gross income the deduction for expenses in connection with services as a member of a reserve component of the Armed Forces of the United States.

S. 3145

At the request of Mr. BREAUX, the name of the Senator from Georgia (Mr. MILLER) was added as a cosponsor of S. 3145, a bill to amend the Internal Revenue Code of 1986 to clarify the treatment under the tax-exempt bond rules of prepayments for certain commodities.

S. 3147

At the request of Mr. ROBB, the name of the Senator from Louisiana (Ms. LANDRIEU) was added as a cosponsor of S. 3147, a bill to authorize the establishment, on land of the Department of the Interior in the District of Columbia or its environs, of a memorial and gardens in honor and commemoration of Frederick Douglass.

S. 3152

At the request of Mr. ROTH, the names of the Senator from Tennessee (Mr. FRIST), the Senator from Vermont (Mr. LEAHY), and the Senator from Massachusetts (Mr. KERRY) were added as cosponsors of S. 3152, a bill to amend the Internal Revenue Code of 1986 to provide tax incentives for distressed areas, and for other purposes.

S. 3155

At the request of Mr. LAUTENBERG, the name of the Senator from California (Mrs. FEINSTEIN) was added as a cosponsor of S. 3155, a bill to authorize the President to award a gold medal on behalf of the Congress to Oskar Schindler and Varian Fry in recognition of their contributions to the Nation and humanity.

S. 3178

At the request of Mrs. FEINSTEIN, the name of the Senator from Virginia (Mr. WARNER) was added as a cosponsor of S. 3178, a bill to amend title 5, United States Code, to provide that the mandatory separation age for Federal firefighters be made the same age that applies with respect to Federal law enforcement officers.

S. RES. 292

At the request of Mr. CLELAND, the name of the Senator from Massachusetts (Mr. KENNEDY) was added as a cosponsor of S. Res. 292, a resolution recognizing the 20th century as the ''Century of Women in the United States.''

S. RES. 365

At the request of Mr. VOINOVICH, the names of the Senator from Ohio (Mr. DEWINE) and the Senator from North Carolina (Mr. EDWARDS) were added as cosponsors of S. Res. 365, a resolution expressing the sense of the Senate regarding recent elections in the Federal Republic of Yugoslavia, and for other purposes.

SENATE RESOLUTION 369—RESOLUTION RELATIVE TO THE DEATH OF REPRESENTATIVE BRUCE F. VENTO, OF MINNESOTA

Mr. LOTT (for himself, Mr. DASCHLE, Mr. WELLSTONE, Mr. GRAMS, Mr. DURBIN, and Mr. FEINGOLD) submitted the following resolution; which was considered and agreed to:

S. RES. 369

Resolved, That the Senate has heard with profound sorrow and deep regret the announcement of the death of the Honorable Bruce F. Vento, late a Representative from the State of Minnesota.

Resolved, That the Secretary communicate these resolutions to the House of Representatives and transmit an enrolled copy thereof to the family of the deceased.

Resolved, That when the Senate adjourns or recesses today, it stand adjourned or recessed as a further mark of respect to the memory of the deceased Representative.

SENATE RESOLUTION 370—TO INCREASE THE AUTHORIZATION FOR EXPENDITURES RELATING TO SENATE ACTIVITIES IN CONNECTION WITH PARTICIPATION IN INTERPARLIAMENTARY INSTITUTIONS AND THE FACILITATION OF FOREIGN INTERCHANGES IN THE UNITED STATES, AND FOR OTHER PURPOSES

Mr. HELMS submitted the following resolution; which was considered and agreed to:

S. RES. 370

SECTION 1. INCREASE IN AUTHORIZATION FOR EXPENDITURES RELATING TO FOREIGN INTERCHANGES.

(a) IN GENERAL.—The first section of Senate Resolution 247, Eighty-seventh Congress, agreed to February 7, 1962 (as amended by section 3(c) of Senate Resolution 281, Ninety-sixth Congress, agreed to March 11, 1980) is amended by striking ''$25,000'' and inserting ''$30,000''.

(b) EFFECTIVE DATE.—The amendment made by subsection (a) shall take effect on the date on which this resolution is agreed to and shall apply to fiscal year 2000 and each fiscal year thereafter.

AMENDMENTS SUBMITTED

BULLETPROOF VEST PARTNERSHIP GRANT ACT OF 2000

LEAHY (AND CAMPBELL) AMENDMENT NO. 4304

Mr. BROWNBACK (for Mr. LEAHY (for himself and Mr. CAMPBELL)) proposed an amendment to the bill (S. 2413) to amend the Omnibus Crime Control and Safe Streets Act of 1968 to clarify the procedures and conditions for the award of matching grants for the purchase of armor vests; as follows:

On page 5, redesignate subsection (e) on line 18 as subsection (f) and insert after line 17 the following:

(e) INTERIM DEFINITION OF ARMOR VEST.—For purposes of part Y of title I of the Omnibus Crime Control and Safe Streets Act of 1968, as amended by this Act, the meaning of the term ''armor vest'' (as defined in section 2503 of such Act (42 U.S.C. 3796ll-2)) shall, until the date on which a final NIJ Standard 0115.00 is first fully approved and implemented, also include body armor which has been found to meet or exceed the requirements for protection against stabbing established by the State in which the grantee is located.

PRIVILEGE OF THE FLOOR

Mr. BROWNBACK. Mr. President, I ask unanimous consent that an associate in my office, Chad Luck, be granted the privilege of the floor during my discussion of the Victims of Trafficking and Violence Protection Act of 2000.

The PRESIDING OFFICER. Without objection, it is so ordered.

INCREASE IN AUTHORIZATION FOR EXPENDITURES RELATING TO SENATE ACTIVITIES IN CONNECTION WITH PARTICIPATION IN INTERPARLIAMENTARY INSTITUTIONS

Mr. BROWNBACK. Mr. President, I ask unanimous consent that the Senate proceed to the immediate consideration of S. Res. 370, submitted earlier by Senator HELMS.

The PRESIDING OFFICER. The clerk will report the resolution by title.

The legislative clerk read as follows:

A resolution (S. Res. 370) to increase the authorization for expenditures relating to Senate activities in connection with participation in interparliamentary institutions and the facilitation of foreign interchanges in the United States, and for other purposes.

There being no objection, the Senate proceeded to consider the resolution.

Mr. BROWNBACK. Mr. President, I ask unanimous consent that the resolution be agreed to and the motion to reconsider be laid upon the table.

The PRESIDING OFFICER. Without objection, it is so ordered.

The resolution (S. Res. 370) was agreed to, as follows:

S. RES. 370

SECTION 1. INCREASE IN AUTHORIZATION FOR EXPENDITURES RELATING TO FOREIGN INTERCHANGES.

(a) IN GENERAL.—The first section of Senate Resolution 247, Eighty-seventh Congress, agreed to February 7, 1962 (as amended by section 3(c) of Senate Resolution 281, Ninety-sixth Congress, agreed to March 11, 1980) is amended by striking ''$25,000'' and inserting ''$30,000''.

(b) EFFECTIVE DATE.—The amendment made by subsection (a) shall take effect on the date on which this resolution is agreed to and shall apply to fiscal year 2000 and each fiscal year thereafter.

MODIFICATION TO AMENDMENT NO. 4302 TO H.R. 2389

Mr. BROWNBACK. Mr. President, I ask unanimous consent that previously agreed to amendment No. 4302 to H.R. 2389 be modified with the change that is at the desk.

The PRESIDING OFFICER. Without objection, it is so ordered.

The modification is as follows:

Add the following subsection at the end of Section 102:

''SEC. 102(e). TIME FOR PAYMENT.—The payment to an eligible State under this section for a fiscal year shall be made as soon as practicable after the end of that fiscal year.''

Add the following subsection at the end of Section 103:

''SEC. 103(d). TIME FOR PAYMENT.—The payment to an eligible county under this section for a fiscal year shall be made as soon as practicable after the end of that fiscal year.''

INCREASE OF FEES CHARGED TO EMPLOYERS RELATIVE TO H–1B NONIMMIGRANT WORKERS

Mr. BROWNBACK. Mr. President, I ask unanimous consent that the Senate proceed to the immediate consideration of H.R. 5362 which is at the desk.

The PRESIDING OFFICER. The clerk will report the bill by title.

The legislative clerk read as follows:

A bill (H.R. 5362) to increase the amount of fees charged to employers who are petitioners for the employment of H–1B non-immigrant workers, and for other purposes.

There being no objection, the Senate proceeded to consider the bill.

Mr. BROWNBACK. Mr. President, I ask unanimous consent that the bill be considered read the third time and passed, the motion to reconsider be laid upon the table, and any statements relating to the bill be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The bill (H.R. 5362) was read the third time and passed.

BULLETPROOF VEST PARTNERSHIP GRANT ACT OF 2000

Mr. BROWNBACK. Mr. President, I ask unanimous consent that the Senate proceed to the consideration of Calendar No. 652, S. 2413.

The PRESIDING OFFICER. The clerk will report the bill by title.

The legislative clerk read as follows:

A bill (S. 2413) to amend the Omnibus Crime Control and Safe Streets Act of 1968 to clarify the procedures and conditions for the award of matching grants for the purchase of armor vests.

There being no objection, the Senate proceeded to consider the bill.

AMENDMENT NO. 4304

Mr. BROWNBACK. Mr. President, Senators CAMPBELL and LEAHY have an amendment at the desk, and I ask for its consideration.

The PRESIDING OFFICER. The clerk will report.

The legislative clerk read as follows:

The Senator from Kansas [Mr. BROWNBACK], for Mr. LEAHY, for himself and Mr. CAMPBELL, proposes an amendment numbered 4304.

The amendment is as follows:

AMENDMENT NO. 4304

(Purpose: To provide an interim definition for armor vests)

On page 5, redesignate subsection (e) on line 18 as subsection (f) and insert after line 17 the following:

(e) INTERIM DEFINITION OF ARMOR VEST.—For purposes of part Y of title I of the Omnibus Crime Control and Safe Streets Act of 1968, as amended by this Act, the meaning of the term ''armor vest'' (as defined in section 2503 of such Act (42 U.S.C. 3796ll-2)) shall, until the date on which a final NIJ Standard 0115.00 is first fully approved and implemented, also include body armor which has been found to meet or exceed the requirements for protection against stabbing established by the State in which the grantee is located.

Mr. BROWNBACK. Mr. President, I ask unanimous consent that the amendment be agreed to, the bill be read the third time and passed, the motion to reconsider be laid upon the table, and any statements relating to the bill be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment (No. 4304) was agreed to.

The bill (S. 2413), as amended, was read the third time and passed, as follows:

S. 2413

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the ''Bulletproof Vest Partnership Grant Act of 2000''.

SEC. 2. FINDINGS.

Congress finds that—

(1) the number of law enforcement officers who are killed in the line of duty would significantly decrease if every law enforcement officer in the United States had the protection of an armor vest;

(2) according to studies, between 1985 and 1994, 709 law enforcement officers in the United States were killed in the line of duty;

(3) the Federal Bureau of Investigation estimates that the risk of fatality to law enforcement officers while not wearing an armor vest is 14 times higher than for officers wearing an armor vest;

(4) according to studies, between 1985 and 1994, bullet-resistant materials helped save the lives of more than 2,000 law enforcement officers in the United States; and

(5) the Executive Committee for Indian Country Law Enforcement Improvements reports that violent crime in Indian country has risen sharply, despite a decrease in the national crime rate, and has concluded that there is a ''public safety crisis in Indian country''.

SEC. 3. MATCHING GRANT PROGRAM FOR LAW ENFORCEMENT ARMOR VESTS.

(a) MATCHING FUNDS.—Section 2501(f) of part Y of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3796ll(f)) is amended—

(1) by striking ''The portion'' and inserting the following:

''(1) IN GENERAL.—The portion'';

(2) by striking ''subsection (a)'' and all that follows through the period at the end of the first sentence and inserting ''subsection (a)—

''(A) may not exceed 50 percent; and

''(B) shall equal 50 percent, if—

''(i) such grant is to a unit of local government with fewer than 100,000 residents;

''(ii) the Director of the Bureau of Justice Assistance determines that the quantity of vests to be purchased with such grant is reasonable; and

''(iii) such portion does not cause such grant to violate the requirements of subsection (e).''; and

(3) by striking ''Any funds'' and inserting the following:

''(2) INDIAN ASSISTANCE.—Any funds''.

(b) ALLOCATION OF FUNDS.—Section 2501(g) of part Y of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3796ll(g)) is amended to read as follows:

''(g) ALLOCATION OF FUNDS.—Funds available under this part shall be awarded, without regard to subsection (c), to each qualifying unit of local government with fewer than 100,000 residents. Any remaining funds available under this part shall be awarded to other qualifying applicants.''.

(c) APPLICATIONS.—Section 2502 of part Y of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3796ll–1) is amended by adding at the end the following:

''(d) APPLICATIONS IN CONJUNCTION WITH PURCHASES.—If an application under this section is submitted in conjunction with a transaction for the purchase of armor vests, grant amounts under this section may not be used to fund any portion of that purchase unless, before the application is submitted, the applicant—

''(1) receives clear and conspicuous notice that receipt of the grant amounts requested in the application is uncertain; and

''(2) expressly assumes the obligation to carry out the transaction, regardless of whether such amounts are received.''.

(d) DEFINITION OF ARMOR VEST.—Section 2503(1) of part Y of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3796ll–2(1)) is amended—

(1) by striking ''means body armor'' and inserting the following: ''means—

''(A) body armor'';

(2) by adding ''or'' at the end; and

(3) by adding at the end the following:

''(B) body armor that has been tested through the voluntary compliance testing

program, and found to meet or exceed the requirements of NIJ Standard 0115.00, or any revision of such standard;''.

(e) INTERIM DEFINITION OF ARMOR VEST.—For purposes of part Y of title I of the Omnibus Crime Control and Safe Streets Act of 1968, as amended by this Act, the meaning of the term ''armor vest'' (as defined in section 2503 of such Act (42 U.S.C. 3796611–2)) shall, until the date on which a final NIJ Standard 0115.00 is first fully approved and implemented, also include body armor which has been found to meet or exceed the requirements for protection agaisnt stabbing established by the State in which the grantee is located.

(f) AUTHORIZATION OF APPROPRIATIONS.—Section 1001(a)(23) of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3793(a)(23)) is amended by inserting before the period at the end the following: '', and $50,000,000 for each of fiscal years 2002 through 2004''.

WATER POLLUTION PROGRAM ENHANCEMENTS ACT OF 2000

Mr. BROWNBACK. Mr. President, I ask unanimous consent that the Senate proceed to the consideration of Calendar No. 934, S. 2417.

The PRESIDING OFFICER. The clerk will report the bill by title.

The legislative clerk read as follows:

A bill (S. 2417) to amend the Federal Water Pollution Control Act to increase funding for State nonpoint source pollution control programs, and for other purposes.

There being no objection, the Senate proceeded to consider the bill which had been reported from the Committee on the Environment and Public Works with an amendment, as follows:

[Strike out all after the enacting clause and insert the part printed in italic.]

SECTION 1. SHORT TITLE.

This Act may be cited as the ''Water Pollution Program Enhancements Act of 2000''.

SEC. 2. DEFINITIONS.

In this Act:

(1) ADMINISTRATOR.—The term ''Administrator'' means the Administrator of the Environmental Protection Agency.

(2) NAPA STUDY—The term ''NAPA Study'' means the study required to be carried out under section 4(b).

(3) NAS STUDY.—The term ''NAS Study'' means the study required to be carried out under section 4(a).

SEC. 3. FUNDING FOR WATER POLLUTION CONTROL MEASURES.

(a) STATE GRANTS.—Section 106 of the Federal Water Pollution Control Act (33 U.S.C. 1256) is amending by striking subsection (a) and inserting the following:

''(a) FUNDING.—

''(1) IN GENERAL.—There are authorized to be appropriated $250,000,000 for each of fiscal years 2001 through 2007, to remain available until expended, for grants to States and interstate agencies to be used in carrying out this section, including—

''(A) the administration of programs for the prevention, reduction, and elimination of pollutants; and

''(B) enforcement carried out directly or through appropriate State law enforcement officers and agencies.

''(2) STATE ACTIVITIES.—Of the amount authorized under paragraph (1) for any fiscal year, $50,000,000 shall be made available to States for—

''(A) the collection of reliable monitoring data;

''(B) the improvement of lists prepared under section 303(d)(1);

''(C) the preparation of total maximum daily load allocations under section 303(d); and

''(D) the development of watershed management strategies.

(b) NONPOINT SOURCE MANAGEMENT PROGRAMS.—Section 319 of the Federal Water Pollution Control Act (33 U.S.C. 1329) is amended by striking subsection (j) and inserting the following:

''(j) AUTHORIZATION OF APPROPRIATIONS.—

''(1) IN GENERAL.—Subject to paragraphs (2) and (3), there is authorized to be appropriated to carry out subsections (h) and (i) $500,000,000 for each of fiscal years 2001 through 2007, to remain available until expended.

''(2) GROUNDWATER QUALITY.—Of the amount authorized under paragraph (1) for any fiscal year, not more than $7,500,000 may be made available to carry out subsection (i).

''(3) PROJECT GRANTS.—

''(A) IN GENERAL.—Of the amount authorized under paragraph (1) for any fiscal year, $200,000,000 shall be made available to States to provide grants to landowners to develop and implement nonpoint source pollution control projects or activities to restore or improve the water quality of impaired water that has been identified by a State as a priority for restoration.

''(B) COST SHARING.—

''(i) FEDERAL SHARE.—The Federal share of the costs of any project or activity funded under this paragraph shall not exceed 90 percent.

''(ii) NON-FEDERAL SHARE.—The recipient of a grant under this paragraph may use funds from other Federal programs and eligible in-kind contributions to satisfy the non-Federal share.

''(C) LIMITATION.—Grants under this paragraph shall not be made available for projects or activities that are required to be carried out under Federal or State law.''.

SEC. 4. REPORTS TO CONGRESS.

(a) NATIONAL ACADEMY OF SCIENCES STUDY.—

(1) IN GENERAL.—The Administrator shall contract with the National Academy of Sciences to conduct a study of—

(A) the scientific basis underlying the development and implementation of total maximum daily loads under the Federal Water Pollution Control Act (33 U.S.C. 1251 et seq.); and

(B) the availability and effectiveness of alternative programs or mechanisms in producing quantifiable reductions of pollution from point sources and nonpoint sources to achieve water quality standards.

(2) SUBMISSION OF NAS STUDY TO CONGRESS.—Not later than 18 months after the date of enactment of this Act, the Administrator shall submit to the Committee on Transportation and Infrastructure Committee of the House of Representatives and the Committee on Environment and Public Works of the Senate a copy of the NAS Study.

(3) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to carry out the NAS Study $2,000,000, to remain available until expended.

(b) NATIONAL ACADEMY OF PUBLIC ADMINISTRATORS STUDY.—

(1) IN GENERAL.—The Administrator shall contract with the National Academy of Public Administrators to conduct a study of—

(A) the effectiveness of existing voluntary and other programs, activities, and practices being implemented as of the date of enactment of this Act in producing quantifiable reductions in pollution from point sources and nonpoint sources and attaining water quality standards; and

(B) the costs and benefits associated with the programs, activities, and practices described in subparagraph (A) that are incurred by State and local governments and the private sector.

(2) SUBMISSION OF NAPA STUDY TO CONGRESS.—Not later than 18 months after the date of enactment of this Act, the Administrator shall submit to the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Environment and Public Works of the Senate a copy of the NAPA Study.

(3) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to carry out the NAPA Study $3,000,000, to remain available until expended.

Mr. BROWNBACK. Mr. President, I ask unanimous consent that the committee substitute be agreed to, the bill be read the third time and passed, the motion to reconsider be laid upon the table, and any statements relating to the bill be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The committee amendment in the nature of a substitute was agreed to.

The bill (S. 2417), as amended, was read the third time and passed.

NATIVE AMERICAN LANGUAGES ACT AMENDMENTS ACT OF 2000

Mr. BROWNBACK. Mr. President, I ask unanimous consent that the Senate proceed to the consideration of Calendar No. 915, S. 2688.

The PRESIDING OFFICER. The clerk will report the bill by title.

The legislative clerk read as follows:

A bill (S. 2688) to amend the Native American Languages Act to provide for the support of Native American Language Survival Schools, and for other purposes.

There being no objection, the Senate proceeded to consider the bill which had been reported from the Committee on Indian Affairs with an amendment, as follows:

[Strike out all after the enacting clause and insert the part printed in italic.]

SECTION 1. SHORT TITLE.

This Act may be cited as the ''Native American Languages Act Amendments Act of 2000''.

SEC. 2. PURPOSE.

The purposes of this Act are to—

(1) encourage and support the development of Native American Language Survival Schools as innovative means of addressing the effects of past discrimination against Native American language speakers and to support the revitalization of such languages through education in Native American languages and through instruction in other academic subjects using Native American languages as an instructional medium, consistent with United States policy as expressed in the Native American Languages Act (25 U.S.C. 2901 et seq.);

(2) demonstrate the positive effects of Native American Language Survival Schools on the academic success of Native American students and their mastery of standard English;

(3) encourage and support the involvement of families in the educational and cultural survival efforts of Native American Language Survival Schools;

(4) encourage communication, cooperation, and educational exchange among Native American Language Survival Schools and their administrators;

(5) provide support for Native American Language Survival School facilities and endowments;

(6) provide support for Native American Language Nests either as part of Native American Language Survival Schools or as separate programs that will be developed into more comprehensive Native American Language Survival Schools;

(7) support the development of local and national models that can be disseminated to the public and made available to other schools as exemplary methods of teaching Native American students; and

(8) develop a support center system for Native American Survival Schools at the university level.

SEC. 3. DEFINITIONS.

Section 103 of Public Law 101–477 (25 U.S.C. 2902) is amended to read as follows:

''DEFINITIONS

''SEC. 103. In this Act:

''(1) INDIAN.—The term 'Indian' has the meaning given that term in section 9161 of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 7881).

''(2) INDIAN TRIBAL GOVERNMENT.—The term 'Indian tribal government' has the meaning given that term in section 502 of Public Law 95–134 (42 U.S.C. 4368b).

''(3) INDIAN TRIBE.—The term 'Indian tribe' has the meaning given that term in section 4 of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450b).

''(4) INDIAN RESERVATION.—The term 'Indian reservation' has the meaning given the term 'reservation' in section 3 of the Indian Financing Act of 1974 (25 U.S.C. 1452).

''(5) NATIVE AMERICAN.—The term 'Native American' means an Indian, Native Hawaiian, or Native American Pacific Islander.

''(6) NATIVE AMERICAN LANGUAGE.—The term 'Native American language' means the historical, traditional languages spoken by Native Americans.

''(7) NATIVE AMERICAN LANGUAGE COLLEGE.—The term 'Native American Language College' means—

''(A) a tribally-controlled community college or university (as defined in section 2 of the Tribally-Controlled Community College or University Assistance Act of 1978 (25 U.S.C. 1801)) or a college applying for a Native American Language Survival School in a Native American language which that college regularly offers as part of its curriculum and which has the support of an Indian tribal government traditionally affiliated with that Native American language; or

''(B) Ka Haka 'Ula O Ke'elikolani College.

''(8) NATIVE AMERICAN LANGUAGE EDUCATIONAL ORGANIZATION.—The term 'Native American Language Educational Organization' means an organization that—

''(A) is governed by a board consisting primarily of Native Americans and as many speakers of 1 or more Native American languages as possible;

''(B) is currently providing instruction through the use of a Native American language to at least 10 preschool, elementary, or high school students for at least 700 hours of instruction per year per student;

''(C) has provided such instruction for at least 10 preschool, elementary, or high school students through a Native American language for at least 700 hours per year per student for not less than 3 years prior to applying for a grant under this Act; and

''(D) may be a public school that meets the requirements of subparagraphs (A), (B), and (C).

''(9) NATIVE AMERICAN LANGUAGE NEST.—The term 'Native American Language Nest' means a site-based educational program enrolling families with children below the age of 7 which is conducted through a Native American language for at least 700 hours per year per student with the specific goal of strengthening, revitalizing, or reestablishing a Native American language and culture as a living language and culture of daily life.

''(10) NATIVE AMERICAN LANGUAGE SURVIVAL SCHOOL.—The term 'Native American Language Survival School' means a Native American language dominant site-based educational program which expands from a Native American Language Nest, either as a separate entity or inclusive of a Native American Language Nest, to enroll families with children eligible for elementary or secondary education and which provides a complete education through a Native American language with the specific goal of strengthening, revitalizing, or reestablishing a Native American language and culture as a living language and culture of daily life.

''(11) NATIVE AMERICAN PACIFIC ISLANDER.—The term 'Native American Pacific Islander' means any descendant of the aboriginal people of any island in the Pacific Ocean that is a territory or possession of the United States.

''(12) NATIVE HAWAIIAN.—The term 'Native Hawaiian' has the meaning given that term in section 9212 of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 7912).

''(13) SECRETARY.—The term 'Secretary' means the Secretary of Education.

''(14) TRADITIONAL LEADERS.—The term 'traditional leaders' includes Native Americans who have special expertise in Native American culture and Native American languages.

''(15) TRIBAL ORGANIZATION.—The term 'tribal organization' has the meaning given that term in section 4 of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450b).''.

SEC. 4. NATIVE AMERICAN LANGUAGE NESTS AND SURVIVAL SCHOOLS.

Title I of Public Law 101–477 (25 U.S.C. 2901 et seq.) is amended by adding at the end the following new sections:

''GENERAL AUTHORITY

''NATIVE AMERICAN LANGUAGE NESTS

''SEC. 108. (a) IN GENERAL.—The Secretary is authorized to provide funds, through grant or contract, to Native American Language Educational Organizations, Native American Language Colleges, Indian tribal governments, organizations that demonstrate the potential to become Native American Language Educational Organizations, or a consortia of such organizations, colleges, or tribal governments for the purpose of establishing Native American Language Nest programs for students below the age of 7 and their families.

''(b) REQUIREMENTS.—A Native American Language Nest program receiving funds under this section shall—

''(1) provide instruction and child care through the use of a Native American language for at least 10 children below the age of 7 for at least 700 hours per year per student;

''(2) provide compulsory classes for parents of students enrolled in a Native American Language Nest in a Native American language, including Native American language-speaking parents;

''(3) provide compulsory monthly meetings for parents and other family members of students enrolled in a Native American Language Nest;

''(4) provide a preference in enrollment for students and families who are fluent in a Native American language;

''(5) receive at least 5 percent of its funding from another source, which may include federally funded programs, such as a Head Start program funded under the Head Start Act (42 U.S.C. 9801 et seq.); and

''(6) ensure that a Native American language becomes the dominant medium of instruction in the Native American Language Nest within a period of 6 years of receiving funding under this Act.

''NATIVE AMERICAN LANGUAGE SURVIVAL SCHOOLS

''SEC. 109. (a) IN GENERAL.—The Secretary is authorized to provide funds, through grant or contract, to Native American Language Educational Organizations, Native American Language Colleges, Indian tribal governments, or a consortia of such organizations, colleges, or tribal governments to operate, expand, and increase Native American Language Survival Schools throughout the United States and its territories for Native American children and Native American language-speaking children, including through the provision of direct educational services and school support services.

''(b) ELIGIBILITY.—As a condition of receiving funds under subsection (a), a Native American Language Educational Organization, a Native American Language College, an Indian tribal government, or a consortia of such organizations, colleges, or tribal governments—

''(1) shall—

''(A) have at least 3 years experience in operating and administering a Native American Language Survival School, a Native American Language Nest, or other educational programs in which instruction is conducted in a Native American language; and

''(B) include students who are subject to State compulsory education laws; and

''(2) may include students from infancy through grade 12, as well as their families.

''(c) PRIORITY.—In making grants or entering into contracts, the Secretary shall give priority to—

''(1) the provision of direct educational services;

''(2) applicants with the support of the appropriate tribal government or governments; and

''(3) applicants that have researched language revitalization and the unique characteristics and circumstances of the languages of their schools.

''(d) USE OF FUNDS.—

''(1) REQUIRED USES.—A Native American Language Survival School receiving funds under this section shall—

''(A) consist of not less than 700 hours of instruction per student conducted annually through a Native American language or languages for at least 15 students for whom a Native American Language Survival School is their principal place of instruction;

''(B) provide direct educational services and school support services to students that may also include—

''(i) support services for children with special needs;

''(ii) transportation;

''(iii) boarding;

''(iv) food service;

''(v) teacher and staff housing;

''(vi) purchase of basic materials;

''(vii) adaptation of teaching materials;

''(viii) translation and development; or

''(ix) other appropriate services;

''(C) provide direct or indirect educational and support services for the families of enrolled students on site, through colleges, or through other means to increase their knowledge and use of the Native American language and culture, and may impose a requirement of family participation as a condition of student enrollment; and

''(D) ensure that within 3 years of enrollment, all students achieve functional fluency appropriate to the unique circumstances and endangerment status of that Native American language with the ultimate goal of academic or cognitive fluency.

''(2) PERMISSIBLE USES.—A Native American Language Survival School receiving funds under this section may—

''(A) include Native American Language Nests and other educational programs for students who are not Native American language speakers

but who seek to establish fluency through instruction in a Native American language or to reestablish fluency as descendants of Native American language speakers;

''(B) provide instruction through more than 1 language;

''(C) provide instruction through a regional program (as opposed to 1 site) to better serve geographically dispersed students;

''(D) include a program of concurrent and summer college or university education course enrollment for secondary school students enrolled in Native American Language Survival Schools, as appropriate;

''(E) provide special support for Native American languages for which there are very few or no remaining Native American language speakers;

''(F) develop comprehensive curricula in Native American language instruction and instruction through Native American languages including—

''(i) curricula that can be used by public schools for instruction through a Native American language or teaching Native American languages as subjects;

''(ii) community Native American language use in communities served by Native American Language Survival Schools; and

''(iii) knowledge of a specific Native American language gained through research for the purpose of directly aiding the development of curriculum materials;

''(G) provide programs in pre-service and in-service teacher training, staff training, personnel development programs, programs to upgrade teacher and staff skills, and community resource development training, that shall include a program component which has as its objective increased Native American language speaking proficiency for teachers and staff employed in Native American Language Survival Schools and Native American Language Nests, which may include—

''(i) visits or exchanges among Native American Language Survival Schools and Native American Language Nests of school or nest teachers, staff, students, or families of students;

''(ii) participation in conference or special nondegree programs focusing on the use of a Native American language or languages for the education of students, teachers, staff, students, or families of students;

''(iii) full or partial scholarships and fellowships to colleges or universities for the professional development of faculty and staff, and to meet requirements for the involvement of the family or the community of Native American Language Survival School students in Native American Language Survival Schools, and to develop resource persons for Native American language programs in public schools, provided that a recipient of a fellowship or scholarship awarded under the authority of this clause who is enrolled in a program leading to a degree or certificate shall—

''(I) be trained in the Native American language of the Native American Language Survival School, if such program is available through that Native American language;

''(II) complete a minimum annual number of hours in Native American language study or training during the period of the fellowship or scholarship; and

''(III) enter into a contract which obligates the recipient to provide his or her professional services, either during the fellowship or scholarship period or upon completion of a degree or certificate, in Native American language instruction in the Native American language associated with the Native American Language Survival School in which the service obligation is to be fulfilled;

''(iv) training in the language and culture associated with a Native American Language Survival School either under community or academic experts in programs which may include credit courses;

''(v) structuring of personnel operations to support Native American language and cultural fluency and program effectiveness;

''(vi) Native American language planning, documentation, reference material and archives development; or

''(vii) recruitment for participation in teacher, staff, student, and community development; or

''(H) rent, lease, purchase, construct, maintain or repair educational facilities to ensure the academic achievement of Native American Language Survival School students.

''DEMONSTRATION PROGRAMS REGARDING LINGUISTICS ASSISTANCE

''SEC. 110. (a) DEMONSTRATION PROGRAMS.—The Secretary shall provide funds, through grant or contract, for the establishment of 3 demonstration programs that will provide assistance to Native American Language Survival Schools and Native American Language Nests. Such demonstration programs shall be established at—

''(1) Ka Haka 'Ula O Ke'elikolani College of the University of Hawaii at Hilo, in consortium with the 'Aha Punana Leo, Inc., and with other entities if deemed appropriate by such College, to—

''(A) conduct a demonstration program in the development and operation of the various components of a regional Native American Language Survival School program and college level Native American language teaching and use that is supportive of Native American Language Survival Schools; and

''(B) provide assistance in the establishment, operation, and administration of Native American Language Nests and Native American Language Survival Schools by such means as training, hosting informational visits to demonstration sites, and providing a national clearinghouse for data and information relevant to teaching Native American languages, outreach, courses, conferences, and other means;

''(2) Piegan Institute of Browning, Montana to demonstrate the operation of a Native American Language Nest and Survival School; and

''(3) the Alaska Native Language Center of the University of Alaska at Fairbanks, in consortium with other entities as deemed appropriate by such Center, to conduct a demonstration program, training, outreach, conferences, visitation programs, and other assistance in developing orthographies, resource materials, language documentation, language preservation, material archiving, and community support development.

''(b) USE OF TECHNOLOGY.—The demonstration programs authorized to be established under this section may employ synchronic and asynchronic telecommunications and other appropriate means to maintain coordination and cooperation with one another and with participating Native American Language Survival Schools and Native American Language Nests.

''(c) DIRECTIONS TO THE SECRETARY.—The demonstration programs authorized to be established under this section shall provide direction to the Secretary in developing a site visit evaluation of Native American Language Survival Schools and Native American Language Nests.

''(d) FOLLOWUP AND DATA COLLECTION.—The demonstration programs authorized to be established under this section may conduct followup data collection and analysis on students while they are in school to assess how Survival School students are performing in comparison to other students, as well as identify instructional methods that are working and those methods which may not be working.

''(e) ENDOWMENTS AND FACILITIES.—The demonstration programs authorized to be established under this section may establish endowments for the purpose of furthering their activities relative to the study and preservation of Native American languages, and may use funds to provide for the rental, lease, purchase, construction, maintenance, and repair of facilities.

''AUTHORIZATION OF APPROPRIATIONS

''SEC. 111. There are authorized to be appropriated such sums as may be necessary to carry out the activities authorized by this Act for each of fiscal years 2001 through 2006.''.

Mr. BROWNBACK. Mr. President, I ask unanimous consent that the committee substitute be agreed to, the bill be read the third time and passed, the motion to reconsider be laid upon the table, and any statements relating to the bill be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The committee amendment in the nature of a substitute was agreed to.

The bill (S. 2688), as amended, was read the third time and passed.

EXPRESSING SENSE OF THE SENATE REGARDING RECENT ELECTIONS IN THE FEDERAL REPUBLIC OF YUGOSLAVIA

Mr. BROWNBACK. Mr. President, I ask unanimous consent that the Foreign Relations Committee be discharged from further consideration of S. Res. 365 and the Senate then proceed to its immediate consideration.

The PRESIDING OFFICER. Without objection, it is so ordered. The clerk will report the resolution by title.

The legislative clerk read as follows:

A resolution (S. Res. 365) expressing the sense of the Senate regarding recent elections in the Federal Republic of Yugoslavia, and for other purposes.

There being no objection, the Senate proceeded to consider the resolution.

Mr. BROWNBACK. Mr. President, I ask unanimous consent that the resolution be agreed to, the preamble be agreed to, the motion to reconsider be laid upon the table, and any statement relating to the resolution be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The resolution (S. Res. 365) was agreed to.

The preamble was agreed to.

The resolution, with its preamble, reads as follows:

S. RES. 365

Whereas the Federal Republic of Yugoslavia held municipal, parliamentary, and presidential elections on September 24, 2000;

Whereas Slobodan Milosevic, President of the Federal Republic of Yugoslavia, is an indicted war criminal;

Whereas Slobodan Milosevic is largely responsible for immeasurable bloodshed, human rights abuses, ethnic cleansing, refugees, property destruction, and environmental destruction that has devastated southeast Europe in recent years;

Whereas Slobodan Milosevic has arrested, intimidated, and harassed opposition figures;

Whereas Slobodan Milosevic has prevented the freedom of assembly;

Whereas Slobodan Milosevic has prevented the freedom and independence of the press through intimidation, arrests, fines, the destruction of property, and jamming;

Whereas Slobodan Milosevic and his supporters refused to allow independent international election monitors into the Federal Republic of Yugoslavia before the September 24, 2000 elections;

Whereas reliable reports indicate that Slobodan Milosevic and his supporters intentionally ignored internationally accepted standards for free and fair elections in order to control voting results and violated the Federal Republic of Yugoslavia's new election law in the tabulation of the vote;

Whereas reliable documented reports indicate that 74 percent of the eligible voters of the Federal Republic of Yugoslavia participated in the September 24, 2000 elections;

Whereas reliable documented reports based on official voting records indicate that Vojislav Kostunica, President, Democratic Party of Serbia, defeated Slobodan Milosevic with more than 50 percent of the vote; and

Whereas the people of Serbia, Kosovo, Bosnia, and Croatia have been the victims of wars initiated by the Milosevic regime: Now, therefore, be it

Resolved, That the Senate hereby—

(1) congratulates the people of the Federal Republic of Yugoslavia for the courage in participating in the September 24, 2000 elections;

(2) applauds the clear decision of the people of the Federal Republic of Yugoslavia to embrace democracy, the rule of law, and integration into the international community by rejecting dictatorship and isolationism;

(3) reasserts its strong desire to reestablish the historic friendship between the American and Serbian people;

(4) expresses its intention to support a comprehensive assistance program for the Federal Republic of Yugoslavia to speed its economic recovery and European integration once a democratic government that respects the rule of law, human rights, and a market economy is established; and

(5) expresses its support for full economic integration for the Federal Republic of Yugoslavia, including access to international financial institutions, once a democratic government that respects the rule of law, human rights, and a market economy is established.

FEDERAL TRADE COMMISSION REAUTHORIZATION ACT OF 2000

Mr. BROWNBACK. Mr. President, I ask unanimous consent that the Senate proceed to the consideration of Calendar No. 761, S. 1687.

The PRESIDING OFFICER. The clerk will report the bill by title.

The legislative clerk read as follows:

A bill (S. 1687) to amend the Federal Trade Commission Act to authorize appropriations for the Federal Trade Commission.

There being no objection, the Senate proceeded to consider the bill which had been reported from the Committee on Commerce, Science, and Transportation, with an amendment, as follows:

(Omit the part in boldface brackets and insert the part printed in italic.)

S. 1687

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the ''Federal Trade Commission Reauthorization Act of **[**1999**]** *2000*''.

SEC. 2. REAUTHORIZATION.

Section 25 of the Federal Trade Commission Act (15 U.S.C. 57c) is amended—

(1) by striking ''and not to exceed'' and inserting ''not to exceed''; and

(2) by striking ''1998.'' and inserting the following: ''*1998;* not to exceed **[**$149,000,000**]** *$164,600,000* for fiscal year 2001; and not to exceed **[**$156,000,000**]** *$177,460,000* for fiscal year 2002.''.

SEC. 3. INFORMATION AND DOCUMENTARY REQUESTS.

(a) IN GENERAL.—The Attorney General and the Federal Trade Commission shall each designate a senior official not directly having supervisory responsibility for the review of any enforcement recommendation under section 7A(e)(1) of the Clayton Act (15 U.S.C. 18a(e)) concerning the transaction at issue to hear any petition filed by the acquiring person or the person whose voting securities or assets are to be acquired, to determine—

(1) whether the request for additional information or documentary material is unreasonably cumulative, unduly burdensome or duplicative; or

(2) whether the request for additional information or documentary material has been substantially complied with by the petitioning person.

(b) EXPEDITED REVIEW.—Internal review procedures for petitions filed pursuant to subsection (a) shall include reasonable deadlines for expedited review of any such petitions filed, after reasonable negotiations with investigative staff, in order to avoid undue delay of the merger review process.

(c) INTERNAL REVIEW.—The Attorney General and the Federal Trade Commission shall conduct an internal review and implement reforms of the merger review process in order to eliminate unnecessary burden, remove costly duplication, and eliminate undue delay, in order to achieve a more effective and more efficient merger review process.

(d) Not later than 120 days after the date of enactment of this Act, the Attorney General and the Federal Trade Commission shall issue or amend their respective industry guidance, regulations, operating manuals and relevant policy documents, where appropriate, to implement each reform in this subparagraph.

(e) REPORT.—Not later than 180 days after the date of enactment of this Act, the Attorney General and the Federal Trade Commission shall each report to Congress—

(1) what reforms each agency has adopted under this subparagraph;

(2) what steps each has taken to implement such internal reforms; and

(3) the effects of those reforms.

SEC. 4. ANNUAL REPORTS.

The Attorney General and the Federal Trade Commission shall include in the report to Congress required by section 7A(j) of the Clayton Act (15 U.S.C. 18a(j))—

(1) the number of notifications filed under this section 7A of the Clayton Act (15 U.S.C. 18a);

(2) the number of notifications filed in which the Assistant Attorney General or Federal Trade Commission requested the submission of additional information or documentary material relevant to the proposed acquisition;

(3) data relating to the length of time for parties to comply with requests for the submission of additional information or documentary material relevant to the proposed acquisition;

(4) the number of petitions filed pursuant to section 3(a) of this Act regarding a request for the submission of additional information or documentary material relevant to the proposed acquisition and the manner in which such petitions were resolved;

(5) data relating to the volume (in number of boxes or pages) of materials submitted pursuant to requests for additional information or documentary material; and

(6) the number of notifications filed in which a request for additional information or documentary materials was made but never complied with prior to resolution of the case.

Mr. BROWNBACK. Mr. President, I ask unanimous consent that the committee amendments be agreed to, the bill be read the third time and passed, the motion to reconsider be laid upon the table, and any statements relating to the bill be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The committee amendments were agreed to.

The bill (S. 1687), as amended, was read the third time and passed, as follows:

S. 1687

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the ''Federal Trade Commission Reauthorization Act of 2000''.

SEC. 2. REAUTHORIZATION.

Section 25 of the Federal Trade Commission Act (15 U.S.C. 57c) is amended—

(1) by striking ''and not to exceed'' and inserting ''not to exceed''; and

(2) by striking ''1998.'' and inserting the following: ''1998; not to exceed $164,600,000 for fiscal year 2001; and not to exceed $177,460,000 for fiscal year 2002.''.

SEC. 3. INFORMATION AND DOCUMENTARY REQUESTS.

(a) IN GENERAL.—The Attorney General and the Federal Trade Commission shall each designate a senior official not directly having supervisory responsibility for the review of any enforcement recommendation under section 7A(e)(1) of the Clayton Act (15 U.S.C. 18a(e)) concerning the transaction at issue to hear any petition filed by the acquiring person or the person whose voting securities or assets are to be acquired, to determine—

(1) whether the request for additional information or documentary material is unreasonably cumulative, unduly burdensome or duplicative; or

(2) whether the request for additional information or documentary material has been substantially complied with by the petitioning person.

(b) EXPEDITED REVIEW.—Internal review procedures for petitions filed pursuant to subsection (a) shall include reasonable deadlines for expedited review of any such petitions filed, after reasonable negotiations with investigative staff, in order to avoid undue delay of the merger review process.

(c) INTERNAL REVIEW.—The Attorney General and the Federal Trade Commission shall conduct an internal review and implement reforms of the merger review process in order to eliminate unnecessary burden, remove costly duplication, and eliminate undue delay, in order to achieve a more effective and more efficient merger review process.

(d) Not later than 120 days after the date of enactment of this Act, the Attorney General

and the Federal Trade Commission shall issue or amend their respective industry guidance, regulations, operating manuals and relevant policy documents, where appropriate, to implement each reform in this subparagraph.

(e) REPORT.—Not later than 180 days after the date of enactment of this Act, the Attorney General and the Federal Trade Commission shall each report to Congress—

(1) what reforms each agency has adopted under this subparagraph;

(2) what steps each has taken to implement such internal reforms; and

(3) the effects of those reforms.

SEC. 4. ANNUAL REPORTS.

The Attorney General and the Federal Trade Commission shall include in the report to Congress required by section 7A(j) of the Clayton Act (15 U.S.C. 18a(j))—

(1) the number of notifications filed under this section 7A of the Clayton Act (15 U.S.C. 18a);

(2) the number of notifications filed in which the Assistant Attorney General or Federal Trade Commission requested the submission of additional information or documentary material relevant to the proposed acquisition;

(3) data relating to the length of time for parties to comply with requests for the submission of additional information or documentary material relevant to the proposed acquisition;

(4) the number of petitions filed pursuant to section 3(a) of this Act regarding a request for the submission of additional information or documentary material relevant to the proposed acquisition and the manner in which such petitions were resolved;

(5) data relating to the volume (in number of boxes or pages) of materials submitted pursuant to requests for additional information or documentary material; and

(6) the number of notifications filed in which a request for additional information or documentary materials was made but never complied with prior to resolution of the case.

RURAL ACCESS TO EMERGENCY DEVICES ACT

Mr. BROWNBACK. Mr. President, I ask unanimous consent that the HELP Committee be discharged from further consideration of S. 2528, and the Senate then proceed to its immediate consideration.

The PRESIDING OFFICER. Without objection, it is so ordered. The clerk will report the bill by title.

The legislative clerk read as follows:

A bill (S. 2528) to provide funds for the purchase of automatic external defibrillators and the training of individuals in advanced cardiac life support.

There being no objection, the Senate proceeded to consider the bill.

Ms. COLLINS. Mr. President, I am pleased that the Senate is considering S. 2528, the Rural Access to Emergency Devices Act of 2000, which I introduced with my friend from Wisconsin, Senator Russ FEINGOLD. Our bill is intended to improve access to automated external defibrillators in small communities and rural areas to boost the survival rates of individuals in those communities who suffer cardiac arrest. Joining us as cosponsors of the bill are Senators JEFFORDS, MURRAY, ABRAHAM, WELLSTONE, HUTCHINSON, DORGAN, GRAMS, BINGAMAN, CHAFEE, ENZI, SNOWE, GRASSLEY, BIDEN, LEAHY, ROBB, KERRY,and DURBIN. I particularly want to thank the distinguished Chairman of the Senate Health, Education, Labor and Pensions Committee, Senator JEFFORDS, for all of his assistance in helping us to expedite action on this important measure.

Heart disease is the leading cause of death both in the state of Maine and in the United States. According to the American Heart Association, an estimated 250,000 Americans die each year from cardiac arrest. Many of these deaths could be prevented if automated external defibrillators—or AEDs—were more accessible. AEDs are computerized devices that can shock a heart back into normal rhythm and restore life to a cardiac arrest victim. They must, however, be used promptly. For every minute that passes before a victim's normal heart rhythm is restored, his or her chance of survival falls by as much as 10 percent.

We have a number of new and improved technologies in our arsenal of weapons to fight heart disease, including a new generation of small, easy-to-use AEDs that can strengthen the chain of survival for cardiac arrest victims. These new devices make it possible for not only emergency medical personnel, but also trained lay rescuers, to deliver defibrillation safely and effectively. The new AEDs are safe, effective, lightweight, low maintenance, and relatively inexpensive. Moreover, they are specifically designed so that they can be used by non-medical personnel such as police, fire fighters, security guards and other lay rescuers, providing they have been properly trained. According to the American Heart Association, making AEDs standard equipment in police cars, fire trucks, ambulances and other emergency vehicles and getting these devices into more public places could save more than 50,000 lives a year.

Last December, the Bangor Mall installed an AED that is one of the first of these devices in Maine to be placed in a public setting outside the direct control of emergency medical personnel and hospital staff. Both the AED and an oxygen tank are kept inside a customer service booth, which is in an area of the mall where there is a high concentration of traffic and where heart emergencies might occur. Mall personnel have also received special training and, during mall hours, there is always at least one person who has been certified in both CPR and defibrillator use.

For at least one Bangor woman, this has been a lifesaver. On January 12th, just weeks after the AED was installed, two shoppers at the Mall collapsed in a single day. One was given oxygen and quickly revived. But the other shopper was unconscious and had stopped breathing. The trained mall staff—Maintenance Supervisor Larry Lee, Security Chief Dusty Rhodes, and General Manager Roy Daigle— were only able to detect a faint pulse. They quickly commenced CPR and attached the AED.

It is important to note that defibrillation is intended to supplement, not replace standard CPR. These devices, which are almost completely automated, run frequent self-diagnostics and will not allow the administration of shock unless the victim's recorded heart pattern requires it. When the AED is attached, it automatically analyzes the victim's vital signs. One of two commands will then be voiced and displayed by the unit: ''Shock advised—charging''; or ''Shock not advised—continue CPR.''

In the Bangor Mall case, the shock was not advised, so CPR was continued until the emergency medical personnel arrived. The EMT's told Mr. Daigle, the General Manager of the mall, that the woman—who had had a heart attack and subsequently required triple bypass surgery—simply would not have survived if they had not been so prepared. As Mr. Daigle observed, ''Twelve to fifteen minutes is just too long to wait for the emergency services to arrive.''

Cities across America have begun to recognize the value of fast access to AEDs and are making them available to emergency responders. In many small and rural communities, however, limited budgets and the fact that so many rely on volunteer organizations for emergency services can make acquisition and appropriate training in the use of these life-saving devices problematic.

The legislation we are considering today is intended to increase access to AEDs and trained local responders for smaller towns and rural areas in Maine and elsewhere where those first on the scene may not be paramedics or others who would normally have AEDs. Our bill provides $25 million over three years to be given as grants to community partnerships consisting of local emergency responders, police and fire departments, hospitals, and other community organizations. This money could then be used to help purchase AEDs and train potential responders in their use, as well as in basic CPR and first aid.

The Rural Access to Emergency Devices Act has been endorsed by both the American Heart Association and the American Red Cross as a means of expanding access to these lifesaving devices across rural America, and I urge all of our colleagues to join us in supporting this important measure.

Mr. BROWNBACK. Mr. President, I ask unanimous consent that the bill be read a third time and passed, the motion to reconsider be laid upon the

table, and that any statements relating to the bill be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The bill (S. 2528) was read the third time and passed, as follows:

S. 2528

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the ''Rural Access to Emergency Devices Act'' or the ''Rural AED Act''.

SEC. 2. FINDINGS.

Congress makes the following findings:

(1) Heart disease is the leading cause of death in the United States.

(2) The American Heart Association estimates that 250,000 Americans die from sudden cardiac arrest each year.

(3) A cardiac arrest victim's chance of survival drops 10 percent for every minute that passes before his or her heart is returned to normal rhythm.

(4) Because most cardiac arrest victims are initially in ventricular fibrillation, and the only treatment for ventricular fibrillation is defibrillation, prompt access to defibrillation to return the heart to normal rhythm is essential.

(5) Lifesaving technology, the automated external defibrillator, has been developed to allow trained lay rescuers to respond to cardiac arrest by using this simple device to shock the heart into normal rhythm.

(6) Those people who are likely to be first on the scene of a cardiac arrest situation in many communities, particularly smaller and rural communities, lack sufficient numbers of automated external defibrillators to respond to cardiac arrest in a timely manner.

(7) The American Heart Association estimates that more than 50,000 deaths could be prevented each year if defibrillators were more widely available to designated responders.

(8) Legislation should be enacted to encourage greater public access to automated external defibrillators in communities across the United States.

SEC. 3. GRANTS.

(a) IN GENERAL.—The Secretary of Health and Human Services, acting through the Rural Health Outreach Office of the Health Resources and Services Administration, shall award grants to community partnerships that meet the requirements of subsection (b) to enable such partnerships to purchase equipment and provide training as provided for in subsection (c).

(b) COMMUNITY PARTNERSHIPS.—A community partnership meets the requirements of this subsection if such partnership—

(1) is composed of local emergency response entities such as community training facilities, local emergency responders, fire and rescue departments, police, community hospitals, and local non-profit entities and for-profit entities concerned about cardiac arrest survival rates;

(2) evaluates the local community emergency response times to assess whether they meet the standards established by national public health organizations such as the American Heart Association and the American Red Cross; and

(3) submits to the Secretary of Health and Human Services an application at such time, in such manner, and containing such information as the Secretary may require.

(c) USE OF FUNDS.—Amounts provided under a grant under this section shall be used—

(1) to purchase automatic external defibrillators that have been approved, or cleared for marketing, by the Food and Drug Administration; and

(2) to provide defibrillator and basic life support training in automated external defibrillator usage through the American Heart Association, the American Red Cross, or other nationally recognized training courses.

(d) REPORT.—Not later than 4 years after the date of enactment of this Act, the Secretary of Health and Human Services shall prepare and submit to the appropriate committees of Congress a report containing data relating to whether the increased availability of defibrillators has affected survival rates in the communities in which grantees under this section operated. The procedures under which the Secretary obtains data and prepares the report under this subsection shall not impose an undue burden on program participants under this section.

(e) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated $25,000,000 for fiscal years 2001 through 2003 to carry out this section.

ORDERS FOR WEDNESDAY, OCTOBER 11, 2000

Mr. BROWNBACK. Mr. President, I ask unanimous consent that when the Senate completes its business today, it stand in recess until 9:30 a.m. on Wednesday, October 11. I further ask consent that on Wednesday, immediately following the prayer, the Journal of proceedings be approved to date, the time for the two leaders be reserved for their use later in the day, and the Senate then begin consideration of the conference report to accompany H.R. 3244, the Sexual Trafficking Victims Protection Act, as under the order.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. BROWNBACK. Mr. President, I note for Senators, this bill, the Sexual Trafficking Victims Protection Act, is an amalgam of several pieces of legislation. It is the sex trafficking bill that we have held several hearings on that passed this body previously, and that passed through the House. I believe in the House the vote was 371–1. It also has in it the Violence Against Women Act, VAWA, and several other pieces of important legislation. We will be on this most of the day tomorrow.

Mr. President, I further ask unanimous consent that at the hour of 12:30 p.m. the Senate stand in recess until the hour of 2:15 p.m. in order for the weekly party caucuses to meet.

The PRESIDING OFFICER. Without objection, it is so ordered.

PROGRAM

Mr. BROWNBACK. For the information of all Senators, the Senate will begin consideration of the sex trafficking conference report tomorrow morning. Under the order, there will be up to 7 hours of debate, with Senator THOMPSON raising a point of order against the report in regard to Aimee's law. A vote in relation to the point of order is expected during tomorrow's session, as well as a vote on adoption of the conference report itself.

Senators should also be prepared to vote on the VA–HUD appropriations bill and the conference report to accompany the Agriculture appropriations bill. Senators will be notified as votes are scheduled.

RECESS UNTIL 9:30 A.M. TOMORROW

Mr. BROWNBACK. If there is no further business to come before the Senate, I now ask unanimous consent that the Senate stand in recess under the provisions of S. Res. 369.

There being no objection, the Senate, at 5:58 p.m., recessed until Wednesday, October 11, 2000, at 9:30 a.m.

HOUSE OF REPRESENTATIVES—*Tuesday, October 10, 2000*

The House met at 12:30 p.m. and was called to order by the Speaker pro tempore (Mrs. BIGGERT).

DESIGNATION OF SPEAKER PRO TEMPORE

The SPEAKER pro tempore laid before the House the following communication from the Speaker:

WASHINGTON, DC,
October 10, 2000.

I hereby appoint the Honorable JUDY BIGGERT to act as Speaker pro tempore on this day.

J. DENNIS HASTERT,
Speaker of the House of Representatives.

MESSAGE FROM THE SENATE

A message from the Senate by Mr. Cheek, one of its clerks, announced that the Senate has passed without amendment bills of the House of the following titles:

H.R. 2302. An act to designate the building of the United States Postal Service located at 307 Main Street in Johnson City, New York, as the ''James W. McCabe, Sr. Post Office Building''.

H.R. 2938. An act to designate the facility of the United States Postal Service located at 424 South Michigan Street in South Bend, Indiana, as the ''John Brademas Post Office''.

H.R. 3030. An act to designate the facility of the United States Postal Service located at 757 Warren Road in Ithaca, New York, as the ''Matthew F. McHugh Post Office''.

H.R. 3454. An act to designate the United States post office located at 451 College Street in Macon, Georgia, as the ''Henry McNeal Turner Post Office''.

H.R. 3909. An act to designate the facility of the United States Postal Service located at 4601 South Cottage Grove Avenue in Chicago, Illinois, as the ''Henry W. McGee Post Office Building''.

H.R. 3985. An act to redesignate the facility of the United States Postal Service located at 14900 Southwest 30th Street in Miramar, Florida, as the ''Vicki Coceano Post Office Building''.

H.R. 4157. An act to designate the facility of the United States Postal Service located at 600 Lincoln Avenue in Pasadena, California, as the ''Matthew 'Mack' Robinson Post Office Building''.

H.R. 4169. An act to designate the facility of the United States Postal Service located at 2000 Vassar Street in Reno, Nevada, as the ''Barbara F. Vucanovich Post Office Building''.

H.R. 4447. An act to designate the facility of the United States Postal Service located at 919 West 34th Street in Baltimore, Maryland, as the ''Samuel H. Lacy, Sr. Post Office Building''.

H.R. 4448. An act to designate the facility of the United States Postal Service located at 3500 Dolefield Avenue in Baltimore, Maryland, as the ''Judge Robert Bernard Watts, Sr. Post Office Building''.

H.R. 4449. An act to designate the facility of the United States Postal Service located at 1908 North Ellamont Street in Baltimore, Maryland, as the ''Dr. Flossie McClain Dedmond Post Office Building''.

H.R. 4484. An act to designate the facility of the United States Postal Service located at 500 North Washington Street in Rockville, Maryland, as the ''Everett Alvarez, Jr. Post Office Building.''

H.R. 4517. An act to designate the facility of the United States Postal Service located at 24 Tsienneto Road in Derry, New Hampshire, as the ''Alan B. Shepard, Jr. Post Office Building''.

H.R. 4534. An act to designate the facility of the United States Postal Service located at 114 Ridge Street, N.W. in Lenoir, North Carolina, as the ''James T. Broyhill Post Office Building''.

H.R. 4554. An act to designate the facility of the United Sates Postal Service located at 1602 Frankford Avenue in Philadelphia, Pennsylvania, as the ''Joseph F. Smith Post Office Building''.

H.R. 4615. An act to redesignate the facility of the United States Postal Service located at 3030 Meredith Avenue in Omaha, Nebraska, as the ''Reverend J.C. Wade Post Office''.

H.R. 4658. An act to designate the facility of the United States Postal Service located at 301 Green Street in Fayetteville, North Carolina, as the ''J.L. Dawkins Post Office Building''.

H.R. 4884. An act to redesignate the facility of the United States Postal Service located at 200 West 2nd Street in Royal Oak, Michigan, as the ''William S. Broomfield Post Office Building''.

H.R. 4975. An act to designate the post office and courthouse located at 2 Federal Square, Newark, New Jersey, as the ''Frank R. Lautenberg Post Office and Courthouse''.

The message also announced that the Senate has passed bills and a concurrent resolution of the following titles in which the concurrence of the House is respected:

S. 1756. An act to enhance the ability of the National Laboratories to meet Department of Energy missions, and for other purposes.

S. 2686. An act to amend chapter 36 of title 39, United States Code, to modify rates relating to reduced rate mail matter, and for other purposes.

S. 2804. An act to designate the facility of the United States Postal Service located at 424 South Michigan Street in South Bend, Indiana, as the ''John Brademas Post Office''.

S. 3062. An act to modify the date on which the Mayor of the District of Columbia submits a performance accountability plan to Congress, and for other purposes.

S. Con. Res. 145. Concurrent resolution expressing the sense of Congress on the propriety and need for expeditious construction of the National World War II Memorial at the Rainbow Pool on the National Mall in the Nation's Capitol.

MORNING HOUR DEBATES

The SPEAKER pro tempore. Pursuant to the order of the House of January 19, 1999, the Chair will now recognize Members from lists submitted by the majority and minority leaders for morning hour debates. The Chair will alternate recognition between the parties, with each party limited to not to exceed 30 minutes, and each Member, except the majority leader, the minority leader, or the minority whip, limited to not to exceed 5 minutes.

The Chair recognizes the gentleman from Massachusetts (Mr. FRANK) for 5 minutes.

U.S. SHOULD BE RESPONSIVE TO ISRAELI POSITION IN MIDDLE EAST CONFLICT

Mr. FRANK of Massachusetts. Madam Speaker, I am here to express my disagreement with the decision of the President of the United States to have the United States abstain on a resolution that was unfairly critical of the State of Israel in the U.N. Security Council. I recognize that the administration worked hard using the threat of a veto to make that resolution less obnoxious, but it was still mistaken, and I want to express why I think so.

It was mistaken on two levels. First of all, on its own terms it was unfair. Yes, Israeli forces and Jewish residents of Israel have in this terrible turmoil, some of them, done things they should not have done. Violence is not easily controllable. But there have also been terrible acts of violence, unjustified and provoked, on the part of the Palestinians, and, in Lebanon, on the part of Hezbollah, and a resolution which puts all the blame on one side when there are mistakes made on both sides is wrong.

But it is even more inaccurate and inadequate because it focuses too much on the tactical and not on the central point. The central point is that the government of Israel has been for the past year engaged in the most forthcoming peace offers in the history of the Middle East, and the tragedy is that this outreach on the part of the Israeli government to make peace on several fronts has been so overwhelmingly rejected.

We had the spectacle of an Israeli withdrawal in Lebanon which the Arab states had long called for being treated almost as if it were a further error by Israel. The effort by Israel to be conciliatory there brought the worst kind of brutal reaction.

With regard to the Palestinians, let us be clear what the situation is. Fifty-two years ago, when the U.N. declared that there should be two states in the area, a Jewish state and a Palestinian state, the overwhelming reaction of the Arabs was to reject that and to seek to destroy the Jewish state. Over the ensuing years, Israel was forced time and again to defend itself. In the course of that effort, it grew. It grew to try to get more defensible borders; but in every case, it was acting in self-defense.

What then happened was the government of Prime Minister Barak decided to build on previous peacemaking efforts of the government of Begin and of others and tried to make an ultimate agreement with the Palestinians, and the Barak government went further in its offer than anyone thought it was possible for the Israeli society to support. Israel is a democracy, and you need public support. But they obviously felt, those in power in Israel, and I commend them for it, that it was worth some extra push to try to get peace.

Unfortunately, the result apparently was not simply a rejection of the specific offer with the wholly unrealistic demand that a democratically elected government of Israel give up physical and legal sovereignty over parts of Jerusalem, an impossibility, but also now with an assault on the government of Israel by the Palestinians, which we are told is motivated by a distrust of the peace process, by a denial of Israel's legitimacy.

We are not here talking about tactical issues. We are not talking about a reaction by the decision of Ariel Sharon to be provocative, and I wish he had not decided to be provocative, but he had a legal right to do that, and certainly the reaction to it is not now a reaction to Ariel Sharon's visit; it is a manifestation of great hostility on the part of much of the Arab world to the very existence of Israel, and that is the ultimate tragedy.

Some in Israel and elsewhere thought the Barak government went too far in its efforts. I think the current situation vindicates them in this sense: it may well be that what we are seeing is an outburst of hostility towards the very existence of Israel as a Jewish state that was there and was going to come in any case. Had it come a couple of years ago, there would have been people saying, well, the Israelis should have been willing to try to make peace.

When it comes now, with the Barak government having been so forthcoming, so conciliatory, and, remember, we are talking here about a state which was forced to defend itself in a war, which gained some territory in those self-defense wars, and is now voluntarily giving up much of that territory, I do not think there is an example in history of a nation forced to defend itself and picking up adjacent territory being as conciliatory as the Israelis have been. And if in fact this approach, such a willingness to make peace, is so bitterly rejected, if in fact what we are seeing, and we are told this is not just anger over Sharon, anger over a particular this or that or the settlement, but a frustration and a rejection of the whole notion of peace, then that is a sad lesson we have to draw.

I think the policy of the United States government ought to be very clear: Israel has a right to exist. It has a right to make policies in the peacemaking process that leave it defensible and that protect its right to maintain control and sovereignty in Jerusalem; and, if in fact, as good a settlement as Barak offered is met with this sort of rejection, our response should be to be totally supportive of the government of Israel's position.

GENERAL LEAVE

Mr. SMITH of Michigan. Madam Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks and include extraneous material on the subject matter of the remarks to be presented by the gentleman from Virginia (Mr. WOLF).

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Michigan?

There was no objection.

IN TRIBUTE TO RETIRING AND DECEASED VIRGINIA MEMBERS

The SPEAKER pro tempore. Under the Speaker's announced policy of January 19, 1999, the gentleman from Virginia (Mr. WOLF) is recognized during morning hour debates for 5 minutes.

Mr. WOLF. Madam Speaker, it is my distinct privilege to rise today and to join fellow members of the Virginia delegation in paying tribute to two retiring colleagues and to honor the memory of our late colleague, Congressman Herb Bateman.

TOM BLILEY came to Congress with me in 1981. It has been an honor to serve side by side with him for the last 20 years. TOM has been a fitting match for Virginia's seventh district, which includes the city of Richmond, as it is a district replete with a tradition of true statesmen.

TOM will leave the Congress having served as chairman of the Committee on Commerce, a responsibility he has taken very seriously and has performed with incredible legislative skills and expertise. He has shown an amazing ability to deal with such complex issues as the electric utility grid, Medicare formulas to home medical services, and discounts for veterans, as well as telecommunication legislation.

TOM's has been a diverse political experience before even making his way to Capitol Hill. He was first elected to the Richmond council as a conservative Democrat in 1968, then as Mayor of Richmond from 1970 to 1972, and eventually to the House of Representatives, this time as a Republican. His unique background has enabled him to work to achieve bipartisan results, while never losing sight of the issues which are important to his districts.

OWEN PICKETT has been a Member of this body for 14 years, having been first elected to Congress in 1986. OWEN has deep ties to the Commonwealth. He is a graduate of Virginia Tech and the University of Richmond Law School. He was elected to the Virginia House of Delegates in 1971, where he earned a reputation as a fiscal conservative and he served as State Democratic Chairman in 1981.

Congressman PICKETT, the ranking Democrat on the Subcommittee on Military Research and Development, has consistently placed the best interests of his constituency and of the country ahead of partisan differences. He has been a faithful watchdog on behalf our Nation's military, and a consistent advocate of fiscal responsibility and a balanced budget, even when such notions were less than fashionable.

Finally, our dear friend, Herb Bateman, faithfully served the people of Virginia's First Congressional District, and beamed with pride in calling his District ''America's first district.''

Herb worked tirelessly for the first district for 18 years. He had deep ties to his district, having practiced law in Newport News and attended the College of William and Mary. As chairman of the Subcommittee on Military Readiness of the Committee on Armed Services, he was a steady champion for our men and women in uniform, not only in the Tidewater region, but throughout the Nation and around the world. He recognized that peace was best maintained through strength. As a loyal defender of those who defend us, he worked for the best interests of those currently in uniform, as well as for those who have retired from the service of their country.

It is with mixed emotion that I offer tribute to these three true Virginia gentlemen. I am thankful to have had the honor to serve with them in this distinguished body, but am saddened at the prospect of their departure. We shall all truly miss their wise counsel and unwavering commitment to high ideals. Each of these gentlemen epitomize the highest ideals of public service.

I wish TOM and OWEN godspeed in their retirement and thank them for their years of service to the Commonwealth of Virginia and to the Nation.

Mr. SCOTT. Madam Speaker, I rise to join my colleagues in honoring three members of the Virginia Delegation, TOM BLILEY, OWEN PICKETT, and the late Herb Bateman for their many years of public service to Virginia and to this nation.

Madam Speaker, for over 20 years now, the 7th congressional district has been ably represented by Congressman TOM BLILEY. As the three term chairman of the powerful Commerce Committee, he has been dedicated to the task of ensuring that our system of free enterprise in the United States continues to lead the rest of the world in this ever changing global economy.

In addition to championing such legislative initiatives as the Food and Drug Administration Act and the Food Safety and Safe Drinking Water while chairman, TOM BLILEY was at the helm when the engine of economic growth switched from capital intensive brick and mortar facilities to electronic commerce. The result of his leadership was the landmark 1996 Telecommunications Act which removed regulatory barriers to competition in the telecommunications marketplace.

Madam Speaker, I have had the good fortune to work side by side with TOM BLILEY for the past 8 years. Because we represent neighboring districts and share the city of Richmond and parts of Henrico County, I have been privileged to work with him on several initiatives that have been instrumental in opening up new avenues for Virginia commerce.

TOM and I worked together to see that the James River and the Kanawha Canal river front project became a reality. This project restored a portion of the historic canal through the city of Richmond which is the main hub for the revitalization of the Historic Riverfront. And I am particularly grateful for his work on our bill which authorizes the Richmond National Battlefield Park. It includes the recognition of and support for a monument to commemorate the Battle of New Market Heights which was a landmark in black military history. We are both hoping that Congress will act on this important legislation before the end of the session.

Madam Speaker, we also rise today to say goodbye to another good friend and colleague, OWEN PICKETT who represents the 2d Congressional District of Virginia. For nearly 29 years, OWEN PICKETT has worked tirelessly and selflessly for the residents of this community and this nation. Fifteen of those years he spent in the General Assembly and for 14 years now, he has represented the 2d Congressional District of Virginia in the House of Representatives.

As a member of the Armed Services Committee, where he is the ranking Democrat on the Subcommittee on Military Research and Development and where he also serves on the Readiness Subcommittee, he has been a staunch advocate of military supremacy ensuring that our military has the equipment and programs necessary to carry forth its mission. And just as important, OWEN has been a champion of the quality of life issues affecting military families—recognizing that servicemembers cannot effectively do their job unless they know their families are well taken care of. The military community in Hampton Roads will miss OWEN and his steadfast advocacy on their behalf.

As a member of the Committee on Resources which has jurisdiction for environmental issues, OWEN has fought hard to remind his colleagues in Congress the protection of natural resources and the environment must be a national priority. Virginia Beach and the Chesapeake Bay are considered some of the finest natural resources on the East Coast because of his commitment to the environment. As we head into the final weeks of this legislative session, Mr. Speaker, OWEN will no doubt continue to demonstrate his leadership in the House of all the issues important to us in the Tidewater and across Virginia.

Madam Speaker, I would also like to take a moment to say a few words about our late colleague and dear friend Herb Bateman. If not for his untimely death late last month, we would be standing here today to also wish him well in his retirement with his departing colleagues—TOM and OWEN.

Herb was a conscientious and effective legislator during his service as a member of the Virginia General Assembly and for the past 18 years as the Representative of the 1st Congressional District of Virginia. Herb's leadership on the Armed Services Committee and in the area of aeronautics research funding will be sorely missed. His hard work over the years will have a lasting impact on the military readiness of our Nation's armed services and space and aeronautics program.

Madam Speaker, while we may disagree on certain national issues, the members of the Virginia Delegation has always been proud of our ability to reach across the aisle and work together in a bipartisan manner on issues affecting the Commonwealth. During the 8 years I have served in the House, we have met once a month for lunch to discuss those pressing issues such as Base Realignment and Closing, the ports, and funding for NASA. There is no doubt in my mind that Virginia has benefited from having us working together on these issues.

The loss of Representatives BLILEY, PICKETT and Bateman will be sorely felt. However, they have left the remaining members of the Delegation a legacy of bipartisanship and civility that will be long remembered.

Mr. MORAN of Virginia. Madam Speaker, I rise today to recognize two of my esteemed colleagues from the Commonwealth of Virginia who are retiring from the House this year, and to honor Congressman Herb Bateman, who we were not able to recognize before his passing last month.

Virginia has benefited enormously by their lifetime of public service. As a delegation, we are losing some of the finest Members of this Congress. I know I am accompanied by many other friends and colleagues who share a deep respect and gratitude for their years of friendship and service.

TOM BLILEY was first elected to this body in 1980, after a successful career as a businessman and serving on the city council and later as mayor of Richmond. Throughout his service in Congress, TOM BLILEY has been a strong advocate of fiscal responsibility, the free market and consumer choice. As chairman of the House Commerce Committee for the past three terms, he has steered some of the most significant legislation through Congress in recent years.

Chairman BLILEY has also served as the dean of the Virginia delegation and, true to this role, he has been a leader to all of our Members. We have all enjoyed his friendship and great sense of humor. I would like to share one small example of his leadership. Just the other day, I went to Chairman BLILEY to seek his committee's support for a bill (H. Con. Res. 133) that I sponsored to promote colorectal cancer screening and prevention. The Chairman quickly offered his assistance and steered the bill to the House floor for consideration. It is this kind of initiative and leadership that has earned him great respect among his colleagues on both sides of the aisle.

It has also been an honor for me to serve with OWEN PICKETT during the past 10 years. Mr. PICKETT is a true gentleman. Throughout his service, OWEN has worked tirelessly and effectively not only for people in southern Virginia, but for our entire nation. He has championed the interests of our nation's military, and the men and women who wear the uniform of the United States. He has been a particularly strong advocate for the Navy and for our commercial maritime interests.

OWEN has also been uncompromising in his insistence that government be fiscally disciplined, a trait which he probably acquired during his long service in the Virginia House of Delegates. The fact that he is retiring at a time of record surpluses is something fitting. It certainly wasn't that way when he came to the House in 1987.

Madam Speaker, this special order would not be complete without also recognizing the lifetime of service by our colleague, Herb Bateman. He was the quintessential Virginia gentleman. He was unfailingly polite and gracious to the people around him. He always had a kind word for members and staff, and he was easy to approach on any issue. Herb embodied the spirit of civility and bipartisanship that we strive for, but achieve too infrequently here in the House.

These personal qualities help to explain why Herb Bateman was so well liked on both sides of the aisle. Beyond his simple decency, Herb Bateman was a very effective member of Congress.

He was a champion for the Navy, for its shipbuilding program, and for the men and women who serve in our Armed Forces. As a ranking member of the former House Merchant Marine and Fisheries Committee, Herb was a forceful advocate for a strong U.S. merchant fleet and its role in our national security and economic livelihood. Generations of Virginians will long appreciate his work to promote economic development in our State, both as a member of Congress and the Senate of Virginia.

Madam Speaker, all of us in the House will certainly miss the service and dedication of these three great Virginia legislators. We wish TOM and OWEN a bright and rewarding future and all the best to Herb's family.

Mr. DAVIS of Virginia. Madam Speaker, it is my privilege to rise today to honor our colleague, OWEN PICKETT of Virginia's 2d Congressional District. After 29 years of serving the citizens of Virginia Beach and Norfolk, as well as the entire Commonwealth of Virginia, Mr. PICKETT has decided to retire from the United States House of Representatives.

My colleague, Mr. PICKETT, is a member of the Armed Services Committee and is the ranking member of the Subcommittee on Military Research and Development and serves

on the Readiness Subcommittee and the MWR Panel. The 2d congressional district is heavily dependent on the massive concentration of naval installations, shipbuilders and shipping firms in the Hampton Roads harbor area, which ranks first in export tonnage among the nation's Atlantic ports.

The U.S. Navy Atlantic Fleet berthed in its home port of Norfolk is one of the greatest awe-inspiring sights in America, or anywhere. The aggregation of destructive power in the line of towering gray ships is probably greater than that of any single port in history. Over 100 ships are based here, with some 100,000 sailors and Marines, some $2 billion in annual spending. For these reasons, Congressman PICKETT has been an outspoken advocate for a strong, technologically superior military and has been tenacious in supporting military bases in his district. Mr. Pickett, together with Senator JOHN WARNER and the late Congressman Herbert H. Bateman, have provided tremendous leadership on behalf of Virginia. Other issues on which he has taken a strong position are the U.S.-flag merchant fleet, private property rights, public education, veterans programs and a balanced Federal budget.

Mr. PICKETT was born in Hanover County, VA, outside Richmond on August 31, 1930 and was the youngest of three children. He attended the public school system and is a graduate of Virginia Tech and the University of Richmond School of Law. He was first elected to the U.S. Congress in 1986. With old Virginia roots, he was elected to the Virginia House of Delegates in 1971, at the age of 41, where he was known as a fiscal conservative and for his hard work restructuring the State retirement system.

By the time Mr. PICKETT won the congressional seat vacated by retiring Republican G. William Whitehurst in 1986, Mr. Pickett had already served as chairman of the state Democratic Party, headed a Democratic presidential campaign in Virginia and served long enough in the state House of Delegates to be a senior member of the Appropriations Committee.

In the House, Mr. PICKETT showed his political acumen by getting a new seat created for him on the National Security Committee and getting a seat on the old Merchant Marine Committee as well—two crucial spots for any Norfolk Congressman. Much of Mr. PICKETT's work has been in supporting Hampton Roads military bases and defense contractors, and revitalizing the shipbuilding industry and merchant marine. That work has been successful. Newport News Shipbuilding and Drydock has been building three Nimitz-class aircraft carriers in the 1990s, and has effectively ensured that there is no industry monopoly on building nuclear submarines. The Norfolk Navy Shipyard under Mr. PICKETT's guidance has survived four rounds of base-closings and calls for privatization.

Madam Speaker, I join with my fellow Virginian colleagues in thanking Congressman OWEN PICKETT for his service to the Commonwealth and to our Nation.

Madam Speaker, it is also my privilege to rise today to honor our colleague, TOM BLILEY, of Virginia's 7th Congressional District. After 32 years of serving the citizens of Richmond, as well as the entire Commonwealth of Virginia, Chairman BLILEY has decided to retire from the U.S. House of Representatives.

Mr. BLILEY has been chairman of the House Committee on Commerce for his last three terms. He was handpicked by Speaker Newt Gingrich over more senior members. He has declared himself a friend of big business and his agenda for the past 6 years has been, quit simply to promote commerce. As chairman, Mr. BLILEY has been a pragmatist, willing to broker deals behind closed doors with ideologic foes and friends alike. The result of the Chairman's reign the committee has become one of the most constructive in Congress: Promoting free and fair markets, standing for consumer choice and common sense safeguards for our health and the environment, and keeping a watchful eye on the Federal bureaucracy. As chairman, Mr. BLILEY is an ex officio member of the five Commerce Committee subcommittees: Telecommunications, Trade, and Consumer Protection; Finance and Hazardous Materials; Health and Environment; Energy and Power; and Oversight and Investigation.

A pleasant, soft spoken mortician, the chairman started his political career in 1968 when civil leaders sought him out to run for the Richmond City Council. He served the city for almost a decade, not only on the city council, but also as vice mayor and then becoming mayor until 1977, when he retired to devote more time to his funeral home. However, the Chairman was not out of politics for long. He enthusiastically re-entered when Democrat David Satterfield announced his retirement from Congress in 1980.

Since his first election to Congress, the Chairman has been recognized by many organizations for his work. He has served in various roles with the NATO Parliamentary Assembly. From November 1994 to October 1998, he was chairman of the Economic Committee. In November 1998, he became one of the four Vice-Presidents; and, with the resignation of its President in May 2000, the Chairman became Acting President. His commitment to balancing the Federal budget has earned him the National Watchdog of the Treasury's ''Golden bulldog Award'' every year since 1981. He has been named a ''Guardian of Small Business'' by the National Federation of Independent Business. He has been called the ''Most powerful Virginian since Harry Byrd'' and the National Journal called him ''Mr. Smooth.''

Born in Chesterfield County, VA, the Chairman is a lifelong resident of the Richmond area. He earned his B.A. in history from Georgetown University and immediately following served three years in the U.S. Navy, rising to the rank of lieutenant.

Madam Speaker, I join with my fellow Virginian colleagues in thanking Chairman TOM BLILEY for his service to the Commonwealth and to our Nation. He has been a friend and a mentor to me, and he most certainly will be missed.

Mr. GOODLATE. Madam Speaker, I rise today to pay tribute to three fine Virginia gentlemen—TOM BLILEY, Herb Bateman, and OWEN PICKETT. The United States House of Representatives is a better place because of their selfless dedication and service to their country, and it has been my high honor and great privilege to serve with them.

I would first like to mention my good friend, colleague, tennis partner, and mentor TOM BLILEY. I have been friends with TOM for more than 20 years. When I was first elected to Congress in 1992, TOM was instrumental in helping me obtain a seat on the Judiciary Committee, and has been a mentor to me ever since. For the past 6 years, he has served as chairman of the House Commerce Committee, presiding over such landmark legislation as Securities Litigation Reform, modernization of the Food and Drug Administration, and the Telecommunications Act.

It would not be possible for me to list here all of the ways in which TOM has improved this House and the lives of every one of its Members. Suffice it to say that I owe a debt of gratitude to TOM BLILEY that I shall never be able to repay. I wish TOM, his lovely wife Mary Virginia, and their family all the best in the coming days.

The House of Representatives and our Nation as a whole suffered a great loss recently with the passing of my dear friend and colleague Herb Bateman. Herb represented what he referred to as America's first congressional district, and did so with great conviction and dedication. My thoughts and prayers remain with Herb's wife Laura and their children and grandchildren. He is sorely missed.

Herb was one of the most thoughtful Members of Congress with whom I worked. I thoroughly enjoyed discussing issues with him, as he always had well-founded reasons for the votes he cast. As a senior member of the Armed Services Committee and a former member of the U.S. Air Force, Herb was completely committed to strengthening America's national security. Our men and women in uniform around the world owe a great debt of gratitude to Herb Bateman.

And lastly, but certainly not least, OWEN PICKETT has been a very valued Member of the House of Representatives whose service will be missed. OWEN was first elected to the House in 1986, and has been a dedicated member of the Armed Services and Resources Committees. He has been a strong advocate for America's Armed Forces and has also served as a member of the Congressional Study Groups on Germany and Japan, as well as the Duma-Congress Study Group. I wish OWEN, his wife Sybil, and their family all the best in the days ahead.

The Commonwealth of Virginia has been very fortunate to have such valued Members of the House as TOM BLILEY, Herb Bateman, and OWEN PICKETT. They have set a standard of dedication and service that we should all strive to emulate. I will certainly miss their presence in the House of Representatives.

Mr. BLILEY. Madam Speaker, on September 11, 2000, our colleague, Representative Herb Bateman passed away before he could enjoy the fruits of retirement. Dan Scandling, Herb's chief of staff, delivered the following eulogy to his boss and friend of so many years. Dan's eulogy is a fitting tribute to our fallen colleague and I want to share it with you today.

EULOGY OF REPRESENTATIVE HERB BATEMAN

(By Dan Scandling, Chief of Staff)

So many things come to mind when you think of Herb Bateman. Congressman. State Senator. Colleague. Statesman. Virginia Gentleman. Devoted Public Servant. Boss. Golfing Partner. Friend. And lest no one forget: ''America's First District.'' There also is

the much more private side of Herb Bateman. Husband. Father. Grandfather.

One of the first things that struck me about Mr. Bateman when I came to work for him 10 years ago was his unwavering devotion to Laura. I can still vividly remember one of the first times she came into the office. We were just wrapping up one of those marathon meetings that all you Members so deeply cherish when Laura walked in. Herb got up from behind his desk, walked over to her, reached for her hand, gave her a kiss on her cheek and then asked how her day was. I quickly learned this wasn't just a one-time thing. Nothing was as important as making sure Laura had had a good day. I only wish I was half as attentive to the needs of my wife.

Laura was the most important thing in Herb's life. The two were inseparable. Wherever Herb went, Laura went. Whether it was travel overseas, a trip to the Eastern Shore or back and forth to Washington, the two of them were always together. Laura was very important to Herb's political career—particularly when it came to keeping names and faces straight. Herb was terrible with names. He always insisted on name tags at every event he hosted. Laura, on the other hand, is the master of remembering names and faces. No matter where they were, or who they ran into, it is like instant recall. She can always place a name with a face. You politicians in the audience today should be jealous. I know one certain Chief of Staff who owes his congressional career to Laura because she remembered his name and face.

Bert and Laura, you have no idea how proud your father was of you. Not a day went by that he wasn't telling me about how one of you gotten a better job, or a promotion, or had landed a big, new account. Bert, he was particularly proud of your desire—and commitment—to make Newport News a better place to live and work. He was proud that you were willing to give so much of yourself to your community. And he also was proud of how good a husband—and father—you are. Laura, nothing brought a bigger smile to your father's face than for him to run into one of his former colleagues from the Virginia Senate and have them tell him how great a job you do in Richmond and beyond. He was so proud of how successful you have become.

Then there is ''Poppy.'' Herb loved his grandchildren. Emmy, Hank and Sam—you were the apples of his eye. Just last week he was boasting how Emmy had won a tennis tournament at the club and was so pleased that Hank had taken up running cross county. Every summer I would get the updates on all the ribbons the two of you would win at swim meets. Hank, I think your grandfather has high expectations from you on the athletic field. I know you won't let him down. Emmy, I know your ''Poppy'' wishes for you the same success that his daughter has had. Sam, your ''Poppy'' was so excited about your first day at school. He was looking forward to getting home last weekend to hear all about it first-hand.

I know this week has not been easy. It wasn't supposed to happen this way. I know you feel somewhat cheated because ''Poppy'' was finally going to be able to spend more than just the weekends in Newport News. There would be no more of this nomadic life of leaving for Washington every Monday morning only to return home sometime Friday—then do it all over again two days later. But look around this church. Look how many people are here. Everyone here loved your ''Poppy.'' It's like one huge ''Thank you'' for sharing him with us. Thank you for all those times he left you—his family—to go work an 80-hour week in Washington; To go to a parade somewhere at the other end of the District on a Saturday morning; To go to some god-awful chicken dinner fund raiser; To go shake hands at the shipyard gates at 6 a.m. on some rain-soaked morning in the dead of winter. Thank you for sharing him with us. Thank you for the sacrifices you made.

I worked for Herb Bateman for 10 years. Over that time we grew to be pretty close. I think it would probably be fair to say he considered me part of the family. There aren't too many places in America's First District that he and I haven't been to together, and there aren't too many things we haven't discussed. Of all the things that have been ingrained in my head over the last 10 years, it's that credibility is everything. Once you lose your credibility, you lose everything. If people cannot take you at your word, then your world is nothing. Perhaps that explains why he was such an effective legislator, and why when he announced his retirement last January, letters, faxes and e-mails poured into his office thanking him for his dedicated service. He got letters from Admirals, Generals, captains of industry and politicians on both sides of the aisle. He got letters from long-time friends and associates. And most significantly, he got letters from hundreds of his constituents. All them were effusive in their praise.

Credibility meant everything to Herb Bateman. I know that first hand. I know it guided each of his decisions, whether it was on a controversial issue before Congress or a contentious political issue. He would have been pleased to hear how his colleagues described him during Tuesday evening's tribute on the floor of the House. I couldn't help but smile as I saw Member after Member get up and talk about his integrity. Perhaps Congressman Burton said it best:

''Herb was a man, who if he gave his word on anything, you could take it to the bank. Herb was not one of those guys that played both sides of the fence. He was a man of integrity—impeccable integrity—and one that all of us respected.''

More than anything else—any aircraft carrier, any submarine, any bridge, any Corps of Engineers' project—Herb would want to be known for his integrity. Obviously, he has. Herb had two vices in life. A good steak, and golf. Man, did he love a good steak. New York Strip. Medium rare. He always ordered french fries with his steak—extra crispy, please, or potato sticks if you have them. If I was invited over to Shoe Lane for dinner it usually meant a good steak on the grill—and potato sticks! If I was invited out for a steak in Washington, it usually meant someone in the office was in trouble. I used to cringe when he would come up behind me, put his hand on my shoulder and say, ''Dan, let's go have a steak.'' He always enjoyed his meal. I can't say the same.

Then there was golf. Next to Laura, golf was his passion. Like most us, he wasn't very good, but that didn't matter. He just loved to play. He loved being outdoors. He loved meeting new playing partners. And he loved mulligans! Herb played golf to relax. He didn't talk about work on the golf course. He didn't take a cell phone. He never carried a pager. Golf was for fun. If you were on the golf course, you were there to enjoy yourself. If Herb were ever elected President, I bet one of the first things he would do would be to issue an Executive Order prohibiting cell phones on the golf course. For all those golfers here today, I have one special request. The next time you play golf, as tribute to Herb, leave your cell phones and pagers in the car. Take the time to relax and enjoy the people you are playing with. I have made a promise to myself never to take a cell phone with me on the golf course again. I hope I can live up to it.

Oh, and take a couple of mulligans too.

I want to close by touching on some of the things that Herb did that no one knew about, that never made any headlines, that never got him a vote. Herb liked helping people. He always stressed to his staff that constituent service was the most important part of his job—and their job. He always reminded us that he worked for the people of America's First District and it was his job to help them when they had a problem. I could recount hundreds—if not thousands—of cases where Herb got personally involved. One that always comes to mind involved a woman from Williamsburg whose husband had died and was buried in Arlington Cemetery. The woman's husband had been an Air Force pilot and she asked that he be buried in the section in Arlington where you could have different types of tombstones. Soon after his funeral she went about designing a tombstone that she thought would be a fitting tribute. The cemetery approved the design and she had the stone carved. When the stone arrived at the cemetery several weeks later, cemetery officials did a complete 180 and told her she couldn't use the stone. Somehow, a columnist at the Washington Post caught wind of the situation and a story appeared in the paper. Herb saw it and asked me what I knew about it. After a few quick calls, it was evident the woman hadn't contacted us. But to Herb, that didn't matter. Within a matter of minutes, Herb, me and another staffer were in a car headed over to Arlington. We drove through the cemetery to where the woman's husband was buried, got out, looked at some of the other tombstones then headed back across the river. Upon returning to the office, Herb immediately called the Superintendent at Arlington and presto, the issue was resolved. When I called the woman to tell her the cemetery officials had relented, I asked why she didn't call us. She said she didn't want to burden the Congressman with her problem.

To Herb, it wasn't a bother; it was a pleasure. It was all about helping the people he represented. The Congress has lost more than an outstanding Member, it has lost a warm, caring individual who served his nation with great honor and distinction. God bless Herb, his family, and America's First District.

Mr. GOODE. Madam Speaker, I want to express my appreciation to TOM BLILEY, OWEN PICKETT and the late Herb Bateman for their service to the Commonwealth of Virginia and the entire nation. It has been a great pleasure to know and serve with these gentlemen in the House of Representatives. These men have served not only the people of their districts and the Commonwealth of Virginia, but the entire nation as well. Each has provided invaluable leadership, experience, and statesmanship to the people of their districts, state, and nation. I will miss their friendship and guidance and their districts, the Commonwealth of Virginia and the nation will miss their service, wisdom and experience.

TOM BLILEY's 20 years of service and his tenure as Chairman of the House Commerce Committee has benefitted his district, state, and country. TOM has led a life of public service and prior to his election and 20 years in

the House of Representatives he was an outstanding mayor and leader for the City of Richmond.

OWEN PICKETT has always put the people, especially our military personnel, above partisanship. His many years of work and experience on the House Armed Services Committee and as Ranking Member of the Military Research and Development Subcommittee will be sorely missed by the 2nd District, the Commonwealth of Virignia and the nation.

The late Herb Bateman was a fine representative and a fine man. I appreciate his friendship as well as his service. We will miss his 18 years of service in the House and his experience on the Armed Services Committee and Chairmanship of the Military Readiness Subcommittee, but more than that we will miss Herb.

PNTR AGREEMENT WITH CHINA NOT GOOD FOR AMERICA

The SPEAKER pro tempore. Under the Speaker's announced policy of January 19, 1999, the gentleman from Oregon (Mr. DEFAZIO) is recognized during morning hour debates for 5 minutes.

Mr. DEFAZIO. Madam Speaker, today they are going to have a ceremony to celebrate the signing of the PNTR agreement with China downtown at the White House. It would be better if they held a wake to mourn the loss of U.S. jobs and complete capitulation of U.S. interests to the dictators in Beijing.

The 1999 trade deficit with China was $68.7 billion. It is headed toward $80 billion this year. The trade deficit with China currently reflects a 6 to 1 ratio of imports to exports, but they only talk about the few goods we export, not about the flood of imports and the value of those imports and the lost jobs from China.

The United States International Trade Commission acknowledges that with the adoption of PNTR, and if China joins the WTO, which is becoming very unlikely, they still estimate an increase in the trade deficit with China. Using their model, the Economic Policy Institute estimates the deficits will continue to grow for the next 50 years, reaching a peak of $649 billion in 2048. Our trade deficit with China would not fall below the current level until 2060, 60 years from now, when every currently employed American worker is retired or dead.

Even if the trends predicted by EPI only persisted for a decade, our deficit with China would reach $131 billion in 2010. The growth in exports would generate 325,000 jobs, but, unfortunately, the growth in imports would lose 1.14 million jobs. That is a net loss of 817,000 jobs, and those job losses would be reflected across the United States.

Let us not kid ourselves: PNTR with China was never about expanding U.S. exports to the Chinese, which would improve our global trade balance; it was about access by large multinational corporations to a low wage, brutalized labor force of 1.3 billion people, in a country with lax environmental standards.

The day after the vote, the day after the vote in the House of Representatives, the Wall Street Journal admitted this in a headline: ''This deal is about investment, not exports. U.S. foreign investment is about to overtake U.S. exports as the primary means by which U.S. companies deliver goods to China.''

They went on in the article to quote the chief representative of Rockwell International. ''In China, that is the direction we are going. We are looking for predictability, reliability. With that, Rockwell expects to set up more factories in China.''

The list goes on. GM expects to go from 40 percent Chinese parts to 80 percent Chinese parts. Procter & Gamble, Motorola, Eastman Kodak, Compaq, Coca Cola, a who's who of American businesses are saying this was about them building plants in China with U.S. capital, not about exporting U.S. manufactured goods to China.

They talk about all the concessions China made to join the WTO. But China has, as we pointed out during the debate, violated every major trade agreement for the last two decades on trade; all the nonproliferation agreements that they have had; the memorandum of understanding in 1992 on prison labor; in 1996, the bilateral agreement on intellectual property; the bilateral agreement on textiles; and the 1992 memorandum of understanding on market access. Why do we believe them this time?

In fact, they are already backtracking. Just after the negotiations, their chief negotiator said that these were only theoretical opportunities for U.S. exports, explaining the incongruity by saying, ''During diplomatic negotiations, it is imperative to use beautiful words.''

China says they still intend to protect machine, electronic, chemical, medical, military, telecommunications, energy, transportation, automobile and agriculture industries, even if they get in the WTO, and now they are saying they will not join the WTO because we are actually asking them to make some changes in their exclusionary practices, to actually begin to allow foreign goods into their country.

No, this is a sad day, and not a day to celebrate. A few large multinational corporations based in the U.S. have tilted U.S. policy in a way that is to the detriment of our workers, our national security, the global environment and the people of China and their workers and their rights and any improvement in human rights and labor rights in China. This should not be celebrated; it should be mourned.

KEEPING SOCIAL SECURITY SOLVENT

The SPEAKER pro tempore. Under the Speaker's announced policy of January 19, 1999, the gentleman from Michigan (Mr. SMITH) is recognized during morning hour debates for 5 minutes.

Mr. SMITH of Michigan. Madam Speaker, a lot of problems face this country and certainly face our administration. One of those problems is keeping Social Security solvent. This affects everybody, not only existing retirees, but the young, middle age and future generations. What is going to be their future in terms of working and paying taxes and, maybe or maybe not, getting Social Security benefits when they retire?

Social Security probably is one of this country's most successful programs in terms of helping people retire with some security. When we started Social Security in 1935, when Franklin Roosevelt decided we should have a program to force savings and pay for some disability insurance while you are working, rather than risk the poor house.

At that time, there were something like 52 workers for each Social Security retiree. Remember, it is a pay-as-you-go program; existing current workers, pay in their Social Security tax and that tax immediately goes out to pay benefits for existing retirees. By the time we got to 1940, there were 38 people working paying in their taxes for every one retiree. This year we have three people working, three people working, paying in their taxes to cover each retiree's benefits.

A couple of things have happened. Politicians in this chamber, the Senate and the presidents decided to increase benefits over the years because it was popular. When there was not enough money, they increased taxes and borrowing. By 2025, over on the far right-hand side of this chart, you see there are only going to be two workers paying in their taxes for each retiree.

We started out back in 1940 having a 3 percent tax on the first $1,500 of wages. Today we have increased that to 12.4 percent on the first almost $76,000 of wages.

So I hope we all agree one of our challenges is not to increase taxes yet again. Demographics of longer life span and lower birth rates have also greatly affected solvency.

The diminishing return on our Social Security investment should concern us all. The real return of Social Security is less than 2 percent for the average worker in the United States.

Again, not counting the amount of the Social Security tax that pays for the disability insurance portion workers get a real return of less than 2 percent on the taxes paid in.

For some, there is zero return on their Social Security. They are never going to live long enough to get back what they and their employer put into it. But, still, 1.9 percent is the average.

Minorities do not get back what they pay in. A young black male, for example, is going live on the average 62 years. That means they pay in all of their life, but do not get benefits. But the average real return for the market, is over 7 percent. Part of the solution for Social Security has got to be a better return on the investment.

This chart shows the number of years you are going to have to live after retirement to get back the money that you and your employer paid in, just to break even. If you were lucky enough to retire in 1940, it took 2 months. If you retired 5 years ago, in 1995, you are going to have to live 16 years after retirement to break even. On average if you retire in 2005, 2015 or 2025, it is unlikely you are going to ever get back what you put into this system.

Even a "C.D." or extra safe investments in the marketplace would give more to retirees. Governor Bush is suggesting limitations on any such investments; it can only be used for retirement purposes, it has to be limited to safe investments. We have companies now that will guarantee a return greater than Social Security without taking any risks. So, our challenge is we have to get people, this Congress, the President, to develop legislation to save Social Security.

It is easy to put off the fixing to the next generation or future congresses. Vice President Gore has suggested adding giant IOUs that demand increasing taxes later. The last president should have dealt with the problem. The next president should not put off solutions that will keep Social Security solvent for the next 75 years.

Right now there is enough money coming in to pay benefits, up until an estimated 2015. We need to take action. We cannot keep putting it off.

EPA HINDERING SMALL COMPANIES

The SPEAKER pro tempore. Under the Speaker's announced policy of January 19, 1999, the gentleman from North Carolina (Mr. BALLENGER) is recognized during morning hour debates for 5 minutes.

Mr. BALLENGER. Madam Speaker, first let me give you a quick history of my company. I founded a company in Hickory North Carolina, in 1957 with a loan on my house. This company prints and converts polyethylene, polypropylene and cellophane for packaging for companies like Procter & Gamble and Johnson and Johnson for overwrap for cookies, baby diapers, the packages themselves. That is what the company does. It started off in 1957. At the present time we have 250 employees.

What I want to do is gripe. I would like to gripe about our government.

Several years ago, air pollution regulations went into effect. There was a whole list of various and sundry things that were polluting the air and doing horrible things to everybody's breathing and so forth. But at that time, my company, you have to print something on polyethylene that will evaporate and leave the ink there, so we were printing with methyl alcohol as a solvent and nylon as the coloring. You print the film, blow hot air at it, and evaporate the solvent. Well, what happened is the methyl alcohol at that time was going out the roof.

Along comes an outfit called EPA, and EPA, with this long list of pollutants, decided that methyl alcohol, this is 5 or 6 years after the whole thing started, 5 or 6 years later they decided that methyl alcohol was a positive solvent.

Well, I had seven printing presses in this plant of mine, and at that time we asked EPA, since they said we were polluting, what should we do? And they said, well, you have got to collect the solvent, the evaporating solvent, and destroy it. So we asked, could you give us some advice as to what to do? They said, well, we do not give advice, that is against the rules of the Federal government, but you have to do it.

Well, this thing right here that you see on my left is what is called a catalytic converter. What it does is it collects the printing inks above all the printing presses, all seven of them, and vents it through this unit right here. In the bottom here we have an oven that is heated by natural gas, and it costs, by the way, $50,000 a year in natural gas to run this. At the top comes out what is left over.

Well, $50,000 a year to operate and $600,000 a year to build it, and we were all set to go. We thought we were operating according to what the government wanted, and everything was fine, until a couple of years later they come back and they say, well, we have got a slight problem with your operation. There is pollution leaking out of your presses all through the building and so forth, so you have got to do something to stop that.

Well, again, they did not give us any information as to what we were going to do, so what we did is we built a wall all the way around this building and made it a separate room, and in this separate room we put forced air. The way we used the forced air was air conditioning. This is $500,000 worth of air conditioning that we installed, and that costs $50,000 a year to operate. What it did is it forced all the air to go through the system and go to the catalytic converter.

Well, this is great and wonderful. We have got the catalytic converter going, and the good old government comes up to us and says, I hate to say this to you, but you know those seven printing presses you have? Your catalytic converter is not big enough, it will only handle six printing presses. So they said, you have to shut down one of these printing presses. One of these printing presses costs about $800,000. So we had to shut down a $800,000 printing press at the request of our Federal Government to be able to handle this situation.

This all sounds like we were doing what I would consider the right thing as far as the ecology of the country is concerned, as far as what is expected of business people in this country, although in certain areas of the world I am quite sure this does not happen.

But what really bothered me was eventually I found out that a competitor of mine who had, roughly speaking, the same size plant that I had, went to EPA and discussed it with them, and they came up with a new conclusion. Their conclusion was to allow him to spend $50,000 a year penalty for the right to pollute.

Now, here is a man that I am competing with. I have spent over $1 million, that costs $60,000 a year, that costs $50,000 a year, I am spending $110,000 a year to take care of pollution, and he is paying $50,000 to do it on his own. This is what I consider the great and wonderful way that our Federal Government operates.

So with that kind of information I called up EPA and I said, what is going on here? This does not make a whole bunch of sense to me. And they said, well you have to realize we have inspectors all over the country, and everything is left up to the individual decision by each inspector. So the inspector came up with this brilliant idea that I had to spend $1 million plus $100,000 a year in expenses, and my competitor only had to spend $50,000 a year.

I heard talk earlier about the difficulty of competing with China and imports. Well, I compete with on a regular basis with Taiwan, Korea and Mexico, and I would be willing to bet that none of these countries have even the slightest idea about trying to stop pollution. Yet in our country we have forced people to spend that kind of money.

I do wish the government would stop and think of what they are doing. They do not know what they are doing, and they ought to forget it.

RIGHT TO GO HOME ACT

The SPEAKER pro tempore. Under the Speaker's announced policy of January 19, 1999, the gentleman from Ohio (Mr. BROWN) is recognized during morning hour debates for 5 minutes.

Mr. BROWN of Ohio. Madam Speaker, last year I introduced modest legislation that would allow seniors in managed care plans to return after a hospitalization to the retirement community they know, instead of a network HMO nursing home somewhere else. I offered the Right to Go Home Act on behalf of seniors who had been needlessly separated because of HMO rules from their loved ones and from their usual source of care.

It is difficult to believe a health plan would treat a hospitalized senior this

way, until you speak to Medicare+Choice enrollees, privatized Medicare, if you will, who experienced it firsthand.

Take, for example, a couple in New Hampshire, separated after the husband's hospitalization because the HMO required him to be discharged to a nursing home in Maine, a 40 minute drive from the community where he and his wife had lived. Or a couple in Florida separated when their HMO required the wife to recuperate from a hospital stay in a nursing home 20 miles away from the retirement community. The husband had difficulty visiting her, and she died later at the HMO member facility.

A retirement community, a nursing facility, is more than just a health care provider; it is a home. Forced relocation means moving vulnerable patients, taking them away from providers experienced in these individual's chronic care needs. It places them in new, strange surroundings during that fragile period of recovery. It separates them from emotionally supportive family and friends.

Under our legislation, HMOs would not be required to pay a dime more for care provided at the beneficiary's retirement facility than in a network facility. What my bill would do is what HMOs should not need our prompting to do; that is, it allows hospitalized nursing home patients to recuperate near their loved ones.

Yet the HMO industry opposes this legislation. They lobbied for changes in the bill that effectively would exclude all but a small subset of seniors. Fortunately, the Committee on Ways and Means did not buckle under the pressure of the HMO industry. They included their legislation in their Balanced Budget Act Restoration proposal.

If the HMO lobby does not kill it, this legislation may make it into law. But the fact that Congress has to take action to ensure the well-being of hospitalized seniors in Plus Choice plans and the fact that the HMO industry would lobby against this bill should tell us something.

Those are facts Congress and the public should keep in mind as George W. Bush promotes commercial health insurance, as he promotes commercial health maintenance organizations, as a replacement, as a replacement, for Medicare.

George W. Bush believes Medicare should be turned over to private insurers. That is not conjecture, that is fact. Visit his web site. His plan is to establish a 4 year commission to restructure Medicare so that it is no longer a ''one-size-fits-all big government plan.''

Translate that into English. It means simply turning Medicare over to the private insurance industry. HMO's do some things well, but putting Medicare beneficiaries first is not one of them. How many times do we have to intervene with a managed care plan or other insurer on behalf of our constituents before the industry's loyalties become clear to us? Their loyalty is to their stockholders. No surprise there. It is verified every time managed care plans make decisions that fly in the face of good medicine.

Unshakeable loyalty to the bottom line results in decisions often not in the best interests of Medicare enrollees. Unconditional loyalty to the bottom line is what creates the need for a Patients' Bill of Rights. Unwavering loyalty to the bottom line explains why health insurers market to the healthiest individuals, the most profitable, and do everything in their power to avoid the rest; let government do that.

It explains how private managed care plans contracting with Medicare can enroll seniors one year, make money from them, and then cavalierly drop them the next when they are not quite as profitable. They promise supplemental benefits they cannot deliver; they blame the government then for problems that they, the insurance company-HMOs, create.

It explains how the managed care industry has the nerve, the outright arrogance, to lobby against legislation that costs them nothing and means the world to seniors in nursing homes. It is a disgrace.

The traditional Medicare program is different. It is universal, it is reliable, it is accountable to the public. Medicare's loyalty is to beneficiaries and to taxpayers. It is an undiluted commitment. Medicare offers choices in ways that actually make a difference in terms of health care quality in patient satisfaction.

Medicare does not tell beneficiaries which providers they can see; HMOs do. Medicare does not dictate which hospitals and nursing homes are permissible; HMOs do. Medicare does not discriminate between beneficiaries based on their health status; HMOs do. Medicare offers reliable coverage that does not come and go with the stock market.

So before voting for George W. Bush, I urge every American to think carefully about the wholesale changes he has in mind for Medicare.

RECESS

The SPEAKER pro tempore. Pursuant to clause 12 of rule I, the Chair declares the House in recess until 2 p.m. today.

Accordingly (at 1 o'clock and 4 minutes p.m.), the House stood in recess until 2 p.m. today.

□ 1400

AFTER RECESS

The recess having expired, the House was called to order by the Speaker pro tempore (Mrs. BIGGERT) at 2 p.m.

PRAYER

The Chaplain, the Reverend Daniel P. Coughlin, offered the following prayer:

Lord God,

The seasons change. Across this Nation the days grow shorter. Time passes quickly, and when death strikes any house, all human flesh seems vulnerable. Grant eternal peace to the Honorable BRUCE VENTO. Be now strength for his family, his staff and all who suffer at this moment.

Help all Your people to use the gift of time prudently, for You alone are the judge of the living and the dead.

During the time given to us on this Earth, may we choose to live as You would have us live, so that in the end we may have accomplished Your holy will and come to live in Your presence now and forever. Amen.

THE JOURNAL

The SPEAKER pro tempore. The Chair has examined the Journal of the last day's proceedings and announces to the House her approval thereof.

Pursuant to clause 1, rule I, the Journal stands approved.

PLEDGE OF ALLEGIANCE

The SPEAKER pro tempore. Will the gentlewoman from Florida (Mrs. MEEK) come forward and lead the House in the Pledge of Allegiance.

Mrs. MEEK of Florida led the Pledge of Allegiance as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

ANNOUNCING THE PASSING OF THE HONORABLE BRUCE VENTO

(Mr. OBERSTAR asked and was given permission to address the House for 1 minute.)

Mr. OBERSTAR. Madam Speaker, with great sadness, a sense of personal loss and loss to this House, I take the well to announce that at 11:20 this morning, our colleague, Congressman BRUCE VENTO, succumbed to mesothelioma, asbestos-induced cancer of the lung and peritoneal cavity.

BRUCE, in his 12th term, served the people of his district nobly, with dignity, with passion, with purpose. He championed environmental causes. He championed the needs of the homeless, the voiceless, the voteless, those who could not do for themselves. He was an advocate for working people. He voted consistently and worked vigorously

and strenuously, to champion the cause of organized labor in this body. He brought a balance to all that he undertook, and with a science teacher-like care for fact and detail, he pursued his causes with only the greatest of dignity and of skill.

My prayers go out to his wife Sue, to his children, to his constituents. I thank the Reverend Chaplain for the prayer for BRUCE and for his family. I ask all of our colleagues to join their prayers with those of the Vento family.

SECURITY FOR OUR SENIORS

(Mr. GIBBONS asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. GIBBONS. Madam Speaker, we all have responsibilities in life. Unfortunately, the Clinton-Gore administration is once again irresponsibly blocking the road to prosperity for American people.

Our seniors should not be forced to choose between food and medicine, and under our debt relief plan they will not have to make this tough choice. This Republican-led Congress wants to put 100 percent of Social Security and Medicare surpluses in a lockbox, and create another lockbox strictly for debt reduction to protect all our senior citizens. We want to guarantee that the surplus created by the tax dollars of the hardworking people of America be used for debt reduction and not big government spending.

Our fiscal discipline will ensure that as we continue to pay off the debt, we will have more money to save for Social Security and Medicare. And this means more security and a better quality of life for our seniors.

Let us keep the Washington bureaucrats out of our surpluses, out of our pockets, and out of our medicine cabinets. Let us build true prosperity and security for every American, young and old alike.

THE CHINA THREAT

(Mr. TRAFICANT asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. TRAFICANT. Madam Speaker, China will get $100 billion from Uncle Sam this year in trade surplus. With our cash, China is buying missiles like they are going out of style. Now, if that is not enough to arm yourself, after being told by the CIA that in fact China has those missiles aimed at America, Janet Reno appointed independent counsels for two love triangles.

Beam me up. Monica may be a threat to fidelity but China happens to be a threat perhaps to our national security. It is time to wise up, Congress, and wake up and smell the treason, and it is time to have a full and thorough investigation into this China mess and Janet Reno.

I yield back the fact that China has more soldiers than America has citizens, men, women and children combined.

TAIWAN

(Mr. BARTLETT of Maryland asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. BARTLETT of Maryland. Madam Speaker, I rise today to congratulate the people of Taiwan as they celebrate their 89th National Day, which anniversary is today. There is a great deal to celebrate for the people of Taiwan. Taiwan has an even distribution of wealth and its citizens enjoy a high standard of living. Taiwan has been able to prosper in recent times despite its limited resources and relatively large population.

President Chen Shui-bian and the political leaders of Taiwan have done an excellent job of leading their country into the 21st century. Their effort to rejoin the United Nations and to maintain a dialogue with the Chinese mainland are admirable. Taiwan deserves a voice in these and other international organizations. There is no question that President Chen wants a serious dialogue with the mainland. He seeks stability in the Taiwan Strait and wants peace to prevail in the Asia Pacific region.

May God continue to bless our friends in the Republic of China on Taiwan. May Taiwan continue to shine as a beacon of prosperity and freedom in the Far East. And may Taiwan play an active role in international affairs and coexist with the Chinese mainland.

A PRESIDENT SHOULD TELL THE TRUTH

(Mr. SMITH of Texas asked and was given permission to address the House for 1 minute.)

Mr. SMITH of Texas. Madam Speaker, should someone who does not believe in facts be our President?

Fiction: AL GORE recently claimed that his mother-in-law pays more than $100 for arthritis medicine. Fact: The figure came from a Democratic Party study. Newspapers reported AL GORE was not even sure his mother-in-law was taking any medication or had arthritis.

Fiction: AL GORE'S sister tragically died of lung cancer and he vowed never to accept tobacco money as campaign contributions. Fact: Just 4 years later he spoke to the tobacco industry, said he was one of them, and raised $100,000.

Fiction: AL GORE'S campaign literature once claimed he was a ''brilliant student.'' Fact: He received C's and D's in college and dropped out of law school and divinity school.

Fiction: AL GORE claimed credit for inventing the Internet in the 1990s. Fact: The Internet has been used by government and educational institutions since the 1970s.

Fiction: AL GORE recently said that if elected President he would penalize producers of Hollywood's graphic sex and violence. Fact: Just 6 days later he attended a fund-raiser by Hollywood producers and raised $4 million.

Madam Speaker, we need a President who tells the truth.

TRIBUTE TO K. GUNN McKAY

(Mr. HANSEN asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. HANSEN. Madam Speaker, on October 6 last week our former colleague K. Gunn McKay passed away due to complications of cancer.

Gunn served in this House from 1971 to 1981 and was chairman of the Subcommittee on Military Construction of the Committee on Appropriations.

Gunn's family comes from Huntsville, Utah, and as a relatively young man his father passed away. Gunn worked diligently to help his brothers and sisters to gain an education and took over many of the responsibilities of the family.

As a public servant, Gunn admirably served the people of the First Congressional District of Utah, he served in the Utah legislature, and as chief of staff to former Governor Cal Rampton. He also was a very devout member of the Church of Jesus Christ of Latter-Day Saints and served in many positions of leadership.

Gunn and his wife Donna are the parents of 10 children, and he has a remarkably fine family composed of both his brothers and sisters as well as his own children. I am sure that many of my former colleagues and his former colleagues join with me in expressing condolences to the McKay family at the time of Gunn's passing.

ON SCORE

(Mr. TANCREDO asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. TANCREDO. Madam Speaker, since coming to the U.S. House of Representatives, I have had the opportunity to become familiar with a volunteer organization in Colorado known as SCORE, or Service Corps of Retired Executives, a great resource partner to the Small Business Administration that specializes in counseling, mentoring and educating America's small business owners.

In Colorado, there are 154 men and women volunteering their time, business acumen and counsel to the small business community to provide a top

quality resource at no cost to their clients. Nationally there are more than 12,000 volunteer members representing 389 SCORE chapters providing individual counseling and business workshops for aspiring entrepreneurs and small business owners.

With over 50 percent of all new businesses failing within the first 6 years, counseling early on can be the difference between success and failure.

Small businesses account for 99.7 percent of all employers and 54 percent of employment representing a major contribution to our economic growth. It is time we recognized that this organization is the best kept secret in the country, that we appreciate their hard work and dedication, and that we vote to support its modest budget for this year.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. Pursuant to clause 4 of rule I, the Speaker signed the following enrolled bill earlier today:

H.R. 4444, an act to authorize extension of nondiscriminatory treatment (normal trade relations treatment) to the People's Republic of China, and to establish a framework for relations between the United States and the People's Republic of China.

COMMUNICATION FROM CHAIRMAN OF COMMITTEE ON TRANSPORTATION AND INFRASTRUCTURE

The SPEAKER pro tempore laid before the House the following communication from the chairman of the Committee on Transportation and Infrastructure, which was read and, without objection, referred to the Committee on Appropriations:

CONGRESS OF THE UNITED STATES,
COMMITTEE ON TRANSPORTATION AND INFRASTRUCTURE, WASHINGTON, DC, OCTOBER 2, 2000.

Hon. J. DENNIS HASTERT,
Speaker, House of Representatives, Washington, DC.

DEAR MR. SPEAKER: I am transmitting herewith copies of the resolutions approved on September 27, 2000 by the Committee on Transportation and Infrastructure, as follows:

• Committee survey resolutions authorizing the U.S. Army Corps of Engineers to study the following potential water resources projects: Donaldsonville, Louisiana; Atchafalaya River Channels, Louisiana; and, Tennessee River Watershed, Virginia.

• Committee resolution authorizing the Natural Resources Conservation Service to undertake a small watershed project for the Snake River, Minnesota.

With kind personal regards, I am

Sincerely,

BUD SHUSTER,
Chairman.

Enclosures.

DOCKET 2657: ATCHAFALAYA RIVER CHANNELS, LA

Resolved by the Committee on Transportation and Infrastructure of the United States House of Representatives, That, the Secretary of the Army, is requested to view the report, Atchafalaya River and Bayous Chene, Boeuf, and Black, Louisiana, published as House Document 155, 90th Congress, 1st Session, and other pertinent reports, with a view to determine whether modifications of the recommendations contained therein are advisable at the present time, with particular reference to the provision of a 35-foot channel in the Lower Atchafalaya River between Morgan City, Louisiana, and the Gulf of Mexico and to the enlargement of the remaining project channels to the project depth of 35 feet.

Adopted: September 27, 2000.

DOCKET 2656: DONALDSONVILLE, ASCENSION PARISH, LOUISIANA

Resolved by the Committee on Transportation and Infrastructure of the United States House of Representatives, That, the Secretary of the Army, is requested to review the report on the Mississippi River and Tributaries Project, published as House Document 308, 88th Congress, 2nd Session, and other pertinent reports, with a view to determine if improvements along the Mississippi River in the area of Ascension Parish, Louisiana inclusive of the City of Donaldson, Louisiana, in the interest of navigation, environmental restoration and protection, and related purposes are advisable at the present time.

Adopted: September 27, 2000.

DOCKET 2658: TENNESSEE RIVER WATERSHED, VIRGINIA

Resolved by the Committee on Transportation and Infrastructure of the United States House of Representatives, That, the Secretary of the Army, is requested to review the report of the Chief of Engineers, Cumberland River, Kentucky and Tennessee, published as House Document 761, 79th Congress, 2nd Session, and Senate Document 81, 83rd Congress, 2nd Session, and the Tennessee River and Tributaries, North Carolina, Tennessee, Alabama and Kentucky, published as House Document 328, 71st Congress, 2nd Session, and other pertinent reports to determine whether modifications of the recommendations contained therein are advisable at the present time, with a view to determine whether improvements to the Tennessee River Watershed, including all tributaries, located in Lee, Wise, Scott, Russell, Tazewell, Smyth, and Washington Counties, Virginia are advisable for environmental restoration and protection, flood control, regional water systems, and watershed management.

Adopted: September 27, 2000.

RESOLUTION

Resolved by the Committee on Transportation and Infrastructure of the United States House of Representatives, That pursuant to the provisions of Section 2 of Public Law 566, Eighty-third Congress, as amended, the following project for flood protection, water quality, soil conservation, and other purposes at Snake River Watershed, Minnesota, is hereby approved in accordance with the report on such project dated June 1999, and transmitted to Congress by the Deputy Chief of Programs, Natural Resources Conservation Service, by letter dated June 2, 2000, and said report is made a part of this approval.

Name of Project: Snake River Watershed, Minnesota

Adopted: September 27, 2000.

There was no objection.

COMMUNICATION FROM THE HONORABLE SAM FARR, MEMBER OF CONGRESS

The SPEAKER pro tempore laid before the House the following communication from the Honorable SAM FARR, Member of Congress:

CONGRESS OF THE UNITED STATES,
HOUSE OF REPRESENTATIVES,
Washington, DC, October 10, 2000.

Hon. DENNIS J. HASTERT,
Speaker, House of Representatives, Washington, DC.

DEAR MR. SPEAKER: This is to formally notify you, pursuant to Rule VIII of the Rules of the House of Representatives, that I have been served with a civil subpoena for documents issued by the Superior Court for San Diego County, California.

After consultation with the Office of General Counsel, I have determined that it is consistent with the precedents and privileges of the House to notify the party that issued the subpoenas that I do not have any responsive documents.

Sincerely,

SAM FARR,
Member of Congress.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, the Chair announces that she will postpone further proceedings today on each motion to suspend the rules on which a recorded vote or the yeas and nays are ordered, or on which the vote is objected to under clause 6 of rule XX.

Any record votes on postponed questions will be taken after debate has concluded on all motions to suspend the rules but not before 6 p.m. today.

SENSE OF CONGRESS IN SUPPORT OF A LIBERTY DAY

Mrs. MORELLA. Madam Speaker, I move to suspend the rules and agree to the concurrent resolution (H. Con. Res. 376) expressing the sense of the Congress regarding support for the recognition of a Liberty Day.

The Clerk read as follows:

H. CON. RES. 376

Whereas our rights and liberties are rooted in the cherished documents that gave birth to our nation, those being the Declaration of Independence and the United States Constitution with its Bill of Rights;

Whereas the patriot James Madison, fourth President of the United States, was the major author of the Virginia Plan, the model and the basis for that United States Constitution that emerged from the Constitutional Convention in 1787;

Whereas James Madison kept detailed written records of the debates and compromises that were in integral part of that Convention of 1787, which records were published only after the death of all delegates to the Convention;

Whereas James Madison wrote many of the newspaper articles now known as the Federalist Papers, outlining why States should endorse the new Constitution and enduring as some of the best arguments for our form of government;

Whereas James Madison introduced the Bill of Rights into the 1st Congress of the United States, whereupon the first ten amendments to the Constitution were adopted; and

Whereas it is altogether fitting that the 16th day of March, the birthday of the distinguished founding father, James Madison, would serve as a fitting reminder of Liberty Day, a celebration of the Declaration of Independence and the United States Constitution, where our unalienable rights and liberties are enumerated: Now, therefore, be it

Resolved by the House of Representatives (the Senate concurring), That it is the sense of the Congress that—

(1) a Liberty Day should be celebrated each year in the United States as a remembrance of both the freedom that Americans were given in the Declaration of Independence and the extraordinary rights and liberties that Americans were given in their Constitution; and

(2) all elected and previously-elected representatives of the people who voluntarily give of their time to speak to Americans about those founding documents, in furtherance of that remembrance of our freedom, our rights and our liberties, deserve our thanks.

The SPEAKER pro tempore. Pursuant to the rule, the gentlewoman from Maryland (Mrs. MORELLA) and the gentleman from Maryland (Mr. CUMMINGS) each will control 20 minutes.

The Chair recognizes the gentlewoman from Maryland (Mrs. MORELLA).

□ 1415

GENERAL LEAVE

Mrs. MORELLA. Madam Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks on H. Con. Res. 376.

The SPEAKER pro tempore (Mrs. BIGGERT). Is there objection to the request of the gentlewoman from Maryland?

There was no objection.

Mrs. MORELLA. Madam Speaker, I yield myself such time as I may consume.

Madam Speaker, I rise today in support of House Concurrent Resolution 376, which calls for the people of the United States to celebrate a Liberty Day each year. In the words of the resolution, Liberty Day would serve, quote, ''as a remembrance of both the freedom that Americans were given in the Declaration of Independence and the extraordinary rights and liberties that Americans were given in their Constitution,'' unquote.

The resolution also holds that all elected and previously elected representatives of the people who voluntarily give of their time to speak to the American people about these founding documents to further our remembrance of our freedom, our rights and our liberties, will deserve our thanks. The preamble to the resolution also finds that March 16, James Madison's birthday, would be a fitting reminder of Liberty Day and an appropriate occasion to celebrate the inalienable rights and liberties proclaimed by the Declaration of Independence and secured by the Constitution.

Madam Speaker, this is the second time in as many weeks that this House has had occasion to reflect on the life and achievements of James Madison. Last week, we passed House Concurrent Resolution 396 to celebrate Madison's birth and his many contributions to our Nation.

The resolution before the House today also recognizes the immense contributions of this remarkable patriot to securing the freedom we enjoy today.

Madam Speaker, Madison himself said that, quote, ''my life has been so much of a public one that any review of it must mainly consistent of the agency which was my lot in public transactions,'' unquote.

Although he was the fourth President of the United States, the greatest of Madison's public transactions was surely his crucial role in the framing and adoption of the Constitution of the United States. As the resolution notes, Madison was the major author of the Virginia Plan, which served as the basis and model for the Constitution of the United States, that was proposed by the Constitutional Convention in 1787.

Along with John Jay and Alexander Hamilton, Madison also contributed to securing ratification of the Constitution by writing parts of the Federalist Papers.

The Federalist Papers endure to this day, as the resolution observes, as some of the best arguments for our form of government.

Madison also kept detailed records of the debates and compromises in the Constitutional Convention which were published only after all delegates to the convention were dead. The Federalist Papers and Madison's notes on the Constitutional Convention remain primary sources for all who seek an understanding of the Framers' intent.

As a Member of the first Congress, Madison was also instrumental in framing the Bill of Rights. Madam Speaker, as the 106th Congress concludes, it is certainly proper that we pass this resolution to remember the founding documents, the Declaration of Independence and the Constitution, and James Madison's contributions to the formation of our system of government. I urge all Members to support this resolution.

Madam Speaker, I reserve the balance of my time.

Mr. CUMMINGS. Madam Speaker, I yield myself such time as I may consume.

Madam Speaker, last Monday I stood at this podium to manage House Concurrent Resolution 396, celebrating the birth of James Madison and his contributions to the Nation. Today I am here to manage a resolution that would express Congress' support for the recognition of March 16, James Madison's birthday, as Liberty Day. This resolution bestows this honor on James Madison because he was the primary author and steadfast supporter of three great works of American democracy: the Constitution, the Federalist Papers, and the Bill of Rights.

If this resolution is passed, Madison's birthday would serve to remind us of our rights and liberties as enumerated in the Declaration of Independence and the Constitution of the United States.

Liberty is defined in Webster's Collegiate Dictionary as, and I quote, ''the quality or state of being free, and the power of choice,'' two premises on which this Nation was founded.

The promise of freedom and choice is what thousands of immigrants saw in a copper statue in the New York Bay. The statue was of a woman holding a torch in her right hand and a tablet bearing the adoption date of the Declaration of Independence in her left.

Her pedestal reads, and I quote, ''Give me your tired, your poor, your huddled masses yearning to breathe free.'' The Statue of Liberty was and still is a symbol of hope and freedom in America.

Another traditional symbol of United States freedom can be found in Philadelphia in the form of a cracked bell. The bell was first rung on July 8, 1776, 4 days after the adoption of the Declaration of Independence. It tolled to celebrate the first public reading of the document. The bell bears the motto, and I quote, ''Proclaim liberty throughout all the land unto all the inhabitants thereof.''

The Liberty Bell, first named in an 1839 Abolitionist pamphlet, remains a symbol of freedom and a reminder that all Americans are created equal.

When H. Con. Res. 376 is passed, Americans will have another opportunity to reflect on this Nation's tradition of freedom and equality. Liberty Day will further enhance the importance and symbolic meaning of two existing icons of American freedom: the Statue of Liberty and the Liberty Bell.

On March 16, Americans will celebrate a promise originated by James Madison and others and documented in the Declaration of Independence and the United States Constitution. That promise is one of freedom and choice. And in the words of James Madison, he said simply these: ''The prescriptions in favor of liberty ought to be leveled against that quarter where the greatest danger lies, namely, that which possesses the highest prerogative of power; but this is not found in either the executive or legislative departments of government, but in the body of the people, operating by the majority against the minority.''

Madam Speaker, I urge all of my colleagues to support this resolution. I congratulate its sponsor.

Madam Speaker, I reserve the balance of my time.

Mrs. MORELLA. Madam Speaker, I yield such time as he may consume to the gentleman from Colorado (Mr. TANCREDO), the sponsor of this resolution.

Mr. TANCREDO. Madam Speaker, I thank the gentlewoman from Maryland (Mrs. MORELLA) for yielding me this time.

Madam Speaker, I could not do better in terms of describing the importance of this resolution and its historical implications than my two colleagues from the State of Maryland have done here. Both of them, I think, have been incredibly articulate in expressing those sentiments.

I will only add that it is important also to remember that James Madison, as the fourth President of the United States, was also the major author of the Virginia Plan, which is a model and the basis for the United States Constitution that emerged from the Constitutional Convention in 1787.

I want to also say that this whole issue comes to us today on the floor as a result of the really tireless efforts of one individual in my district, a gentleman by the name of Andy McKean, who with other members of the Lion's Club took this on as a project some time ago and decided something had to be done in order to increase the level of knowledge that students, especially students and youngsters, have about the Constitution, about the Bill of Rights and about really what liberty means in the United States of America.

As part of that task, they have been instrumental in delivering and distributing literally hundreds of thousands of copies of the Constitution. Liberty Day Colorado is the way it is identified here, but these little pocket Constitutions have gone out to schools all over Colorado. There are over 1 million active members of the Lion's Club nationwide, and it is my understanding that this is a project they are anticipating to take on as an organization.

It is supported right now in State legislatures throughout the country: Colorado, California, Maine, Pennsylvania, Ohio, North Carolina, Virginia, New Hampshire, Montana, Mississippi, Indiana, Idaho, Wyoming. And other States are on the way.

It is nonpartisan, as evidenced by the discussion here today. It is funded entirely through businesses and individual contributions. The national recognition will provide a rallying point for this grass-roots movement; and it is also, I think, a tribute to individuals like Mr. McKean.

A textbook could not be written about the way in which he has devoted a good portion of his life to this event and how it has worked its way through the process and it now appears before us on the floor of the House and hopefully will eventually become part of our national recognition of Liberty Day.

So, again, I want to thank the committee; and I want to thank the Members here who have spoken so eloquently in its support.

Mr. CUMMINGS. Madam Speaker, I yield myself such time as I may consume.

Madam Speaker, I want to thank the gentleman from Colorado (Mr. TANCREDO) for his words. It is very heartening to know that the Lion's Club took this on as a project.

I think it is very, very important in our society that we do everything in our power, Madam Speaker, to lift up our children. I have often said that they are the living messages we send to a future we may never see. I want to congratulate him for that.

Madam Speaker, I just want to end with one of my favorite quotes from Madison, which was stated on June 8, 1789, when he said that all power is originally vested in and consequently derived from the people; that government is instituted and ought to be exercised for the benefit of the people, which consists in the enjoyment of life and liberty, with the right of acquiring and using property and generally of pursuing and obtaining happiness and safety; that the people have an indubitable, unalienable and indefeasible right to reform or change their government whenever it be found adverse and inadequate to the purposes of the institution.

Madam Speaker, I would urge all of our colleagues to vote in favor of this very important resolution.

Madam Speaker, I yield back the balance of my time.

Mrs. MORELLA. Madam Speaker, I very much appreciate the quotation and the discussion with my colleague from Maryland (Mr. CUMMINGS).

Madam Speaker, I yield such time as he may consume to another colleague, the gentleman from Maryland (Mr. BARTLETT).

Mr. BARTLETT of Maryland. Madam Speaker, I want to thank my friend, the gentlewoman from Maryland (Mrs. MORELLA), for yielding me this time and I want to thank my other friend, the gentleman from Maryland (Mr. CUMMINGS), for his quote.

Madam Speaker, it is hard for us to realize what a radical document the Declaration of Independence was. If we think back, our forefathers now, they come from all parts of the world; but our forefathers when this country was founded came from principally the British Isles and the European continent. If we remember our history, almost every one of them came from a country where the king or the emperor claimed and, incredibly from our position, was granted what was known as divine rights. In other words, what the king or the emperor claimed was that the rights came from God to him; that he would then give what rights he wished to his people. Sometimes many; sometimes very few.

Our forefathers made a radical departure from this, because in the Declaration of Independence they said we hold these truths to be self-evident that all men are created equal; that they are endowed by their Creator with certain unalienable rights. That the rights did not come from God to the king, that the rights came from God to the people, and it was the wish of our forefathers that they would found a government which had very limited rights.

□ 1430

Most of the rights should still reside in the people. So they wrote the Constitution 11 years later, ratified in 1787. The ink was hardly dry before they recognized that it might not be clear to everyone how committed they were to the proposition that the rights fundamentally belonged to the people, and they would give just what few rights were necessary to the government.

Four years later, in 1791, the first 10 amendments which we know as the Bill of Rights were finally ratified by three-fourths of the States. If we look through those Bill of rights and reflect on what they said, most of them address the rights of the people.

Then to make sure that no one could misunderstand that they meant most of these rights to reside with the people, in the Ninth Amendment they said that, just because we did not mention in the Constitution that the right belonged to the people, do not disparage the fact that it does belong to the people.

Then in the Tenth Amendment they came back, and I think this is the most violated amendment in the Constitution, the most violated part of the Constitution, they come back and say, in today's English, if you kind of put this in today's English, our Constitution is old English and it is legalese so sometimes we have to paraphrase it to understand clearly what they meant, what they are saying in the Tenth Amendment is that if we cannot find it in article 1, Section 8, of the Constitution, the Federal government cannot do it; that they can only do those things which are found there, and all the things which are not found there, all the rights not specifically given to the government, belong to the people or to the States.

So I think it is very appropriate that we designate a Liberty Day. That is what our forefathers wished so much for us to have. That is what we are at risk of losing as government becomes ever bigger and bigger and more and more intrusive.

I wholeheartedly support the resolution.

Mrs. MORELLA. Madam Speaker, I yield myself the balance of my time.

I commend the gentleman from Colorado (Mr. TANCREDO) for introducing

this resolution and working very hard to bring it to the floor today. I also want to thank the Lions Club for taking on this Liberty Day project. The Lions Club has been noted for its eye banks. They care about vision, and frankly, Liberty Day has to do with the vision to look ahead in terms of recognizing the values of the past and the principles upon which we are guided into the future.

I also want to thank the gentleman from Florida (Mr. SCARBOROUGH), the chairman of the Subcommittee on Civil Service, the gentleman from Maryland (Mr. CUMMINGS), a ranking member of the Subcommittee on Civil Service, the gentleman from Indiana (Mr. BURTON) of the Committee on Government Reform, as well as the ranking member, the gentleman from California (Mr. WAXMAN), because they have helped the consideration of this resolution.

It is also a pleasure to be able to floor manage this resolution that we believe in with my colleague, the gentleman from Maryland (Mr. CUMMINGS). I thank my other colleague from Maryland (Mr. BARTLETT) also for his understanding of the Constitution and his statement.

Madam Speaker, I ask Members' support of this resolution, and I yield back the balance of my time.

The SPEAKER pro tempore (Mrs. BIGGERT). The question is on the motion offered by the gentlewoman from Maryland (Mrs. MORELLA) that the House suspend the rules and agree to the concurrent resolution, H. Con. Res. 376.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the concurrent resolution was agreed to.

A motion to reconsider was laid on the table.

FEDERAL THRIFT SAVINGS PLAN PARTICIPATION ACT

Mrs. MORELLA. Mr. Speaker, I move to suspend the rules and concur in the Senate amendments to the bill (H.R. 208) to amend title 5, United States Code, to allow for the contribution of certain rollover distributions to accounts in the Thrift Savings Plan, to eliminate certain waiting-period requirements for participating in the Thrift Savings Plan, and for other purposes.

The Clerk read as follows:

Senate amendments:

Page 2, line 15, strike out all after ''distribution'' down to and including ''trust.'' in line 16 and insert: *that a qualified trust could accept under the Internal Revenue Code of 1986.*

Page 3, strike out lines 1 through 5 and insert:

(b) EFFECTIVE DATE.—The amendment made by this section shall take effect at the earliest practicable date after September 30, 2000, as determined by the Executive Director in regulations.

Page 6, strike out lines 5 through 10 and insert:

(1) IN GENERAL.—The amendments made by this section shall take effect at the earliest practicable date after September 30, 2000, as determined by the Executive Director in regulations.

Page 6, strike out all after line 15, over to and including line 2 on page 8, and insert:

SEC. 3. COURT ORDERS AFFECTING REFUNDS.

(a) CIVIL SERVICE RETIREMENT SYSTEM.—Section 8342(j)(1) of title 5, United States Code, is amended to read as follows:

''(j)(1)(A) Payment of the lump-sum credit under subsection (a) may be made only if the spouse, if any, and any former spouse of the employee or Member are notified of the employee or Member's application.

''(B) The Office shall prescribe regulations under which the lump-sum credit shall not be paid without the consent of a spouse or former spouse of the employee or Member where the Office has received such additional information and documentation as the Office may require that—

''(i) a court order bars payment of the lump-sum credit in order to preserve the court's ability to award an annuity under section 8341(h) or section 8345(j); or

''(ii) payment of the lump-sum credit would extinguish the entitlement of the spouse or former spouse, under a court order on file with the Office, to a survivor annuity under section 8341(h) or to any portion of an annuity under section 8345(j).''.

(b) FEDERAL EMPLOYEES RETIREMENT SYSTEM.—Section 8424(b)(1) of title 5, United States Code, is amended to read as follows:

''(b)(1)(A) Payment of the lump-sum credit under subsection (a) may be made only if the spouse, if any, and any former spouse of the employee or Member are notified of the employee or Member's application.

''(B) The Office shall prescribe regulations under which the lump-sum credit shall not be paid without the consent of a spouse or former spouse of the employee or Member where the Office has received such additional information or documentation as the Office may require that—

''(i) a court order bars payment of the lump-sum credit in order to preserve the court's ability to award an annuity under section 8445 or 8467; or

''(ii) payment of the lump-sum credit would extinguish the entitlement of the spouse or former spouse, under a court order on file with the Office, to a survivor annuity under section 8445 or to any portion of an annuity under section 8467.''.

The SPEAKER pro tempore. Pursuant to the rule, the gentlewoman from Maryland (Mrs. MORELLA) and the gentleman from Maryland (Mr. CUMMINGS) each will control 20 minutes.

The Chair recognizes the gentlewoman from Maryland (Mrs. MORELLA).

GENERAL LEAVE

Mrs. MORELLA. Madam Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks on the bill, H.R. 208.

The SPEAKER pro tempore. Is there objection to the request of the gentlewoman from Maryland?

There was no objection.

Mrs. MORELLA. Madam Speaker, I yield myself such time as I may consume.

Madam Speaker, I want to thank all of the people who are involved in our consideration of H.R. 208, the Federal Thrift Savings Plan Participation Act. When I thank the Speaker, I know that I speak for the thousands of Federal employees with whom I have met and who have written and called my office in support of this legislation, including the gentleman from Maryland (Mr. CUMMINGS), who is going to be handling it on the other side of the aisle.

My legislation would bolster two critical components of Federal employees' retirement benefits, the Thrift Savings Plan. As we know, the TSP is a retirement savings and investment plan for Federal and postal employees.

The TSP is critical for all Federal employees, but it is particularly important for those employees hired in the last decade who, under the Federal Employees' Retirement System, receive smaller civil service benefits and need to invest more to enhance their retirement income.

Currently, employees can elect to begin contributing to the TSP only during two semi-annual election periods established by law. Newly-hired employees are first eligible to participate during the second election period after being hired. As a result, these employees must wait from 6 to 12 months, depending upon their dates of hire, before they may contribute their own funds.

Allowing employees to begin contributing to the TSP immediately makes it more likely that employees will get into and continue the habit of saving for retirement through payroll deduction.

Early saving is especially important in order to maximize the effect of compound earnings, and to take full advantage of the benefit of pre-tax savings accorded to tax-deferred retirement plans.

This bill would eliminate all waiting periods for employee contributions to the TSP for new hires and rehires. Employees who are hired or rehired would be eligible to contribute their own funds immediately.

Further, ensuring the portability of retirement savings is important because portable retirement savings can follow employees as they change jobs, while preserving the special tax status accorded to these funds.

While the Internal Revenue Code currently allows transfers of retirement savings between 401(k) plans, such transfers are not authorized for the TSP. There is no justification for this limitation. This bill, H.R. 208, would authorize employees to transfer funds from certain tax-deferred savings plans from previous jobs to their TSP accounts. As amended by the Senate, the TSP will be able to accept any transfer that a private sector 401(k) can accept under the Internal Revenue Code.

In addition, the Senate has also included an amendment by Senator AKAKA which would allow the Office of Personnel Management to recognize court orders prohibiting a Federal employee who is going through a divorce

proceeding from withdrawing his or her retirement contributions to the Civil Service Retirement and Disability Trust Fund.

This is a terrific bill. It will help in recruiting and retaining our wonderful Federal work force.

Madam Speaker, I reserve the balance of my time.

Mr. CUMMINGS. Madam Speaker, I yield myself such time as I may consume.

Madam Speaker, I commend my colleague, the gentlewoman from Maryland (Mrs. MORELLA), for sponsoring H.R. 208. I am very pleased to say that I am a very proud cosponsor.

Madam Speaker, this bill makes significant reforms in the Thrift Savings Plan. It contains proposals that were included in President Clinton's last two budget proposals.

It would permit new Federal employees to begin contributing to their TSP immediately rather than waiting a year, as required under current law. It would also let Federal employees transfer balances from other tax-deferred savings plans, including private sector 401(k) accounts, to their TSP accounts.

Early participation in the Federal Employees' Retirement System, especially in the TSP, is critical if an employee is going to maximize the amount of earnings saved for retirement.

The Subcommittee on Civil Service has addressed the issue of protecting employees' retirement savings by moving legislation through Congress that would provide long-term care insurance as a benefit option for Federal employees and postal employees, as well as military personnel and retirees. The legislation, the Long Term Security Act, was signed into law by President Clinton last month.

Baby-boomers are concerned about their retirement security, but are not saving adequately for their long-term care needs. H.R. 208 is one initiative that will help the Federal work force save money for their retirement.

Senator AKAKA's amendment to the House bill further strengthens the legislation by allowing the TSP to accept all of the types of rollover contributions that private sector 401(k) plans may now accept.

In addition, the Senator's amendment would provide an offset for the legislation that will not divert money from the agency's hard-pressed salaries and expenses accounts.

I am pleased again to be a cosponsor. I want to thank the gentlewoman from Maryland (Mrs. MORELLA) for her sponsorship.

Madam Speaker, I yield 7 minutes to the gentlewoman from the District of Columbia (Ms. NORTON), a member of the subcommittee.

The Subcommittee on Civil Service is one that works very closely, and we have done some great work this year. The gentlewoman is one of the leaders on our subcommittee, and one who constantly reminds us of how important our civil servants are.

Ms. NORTON. Madam Speaker, I thank the gentleman from Maryland for yielding time to me, and for his very kind and gracious words. May I thank him and our other regional colleague, the gentlewoman from Maryland (Mrs. MORELLA), for their leadership on this bill. They have been steadfast until in fact we have come to this moment, when it has gone to the Senate and come back to us with a few changes.

I want particularly to thank President Clinton, whose leadership has been at the forefront of this concept.

Madam Speaker, I would like to say that this concept represents precisely what we ought to be doing with retirement. We are not taking any money from the social security trust fund to get this done. What we are doing is encouraging people, through incentives we are providing, to save their own money. That is the only way to make sure we secure the social service trust fund at the same time we do what we have not done nearly enough of, and that is to encourage the American people to stop spending so much of their money and save it. They are not doing that. We are at the lowest savings rate virtually in history.

This bill encourages savings in two ways. First, it brings Federal employees into equality in rolling over their contributions into 401(k)s now, like their private sector counterparts. There is no reason for there to have been any distinction in that regard.

Secondly, it allows newly-hired employees to get into the savings habit from the moment they get their first paycheck by allowing TSP to apply to them immediately, instead of waiting for the next period, which could be as much as a year.

Thus, essentially what this very good bill does is to put the government in the ballgame of employee savings plans. It brings us to where many private sector plans have long been.

The House, of course, offset this bill through contributions from the Civil Service Retirement and Disability Fund. The administration opposed that, and I think correctly. After all, the Civil Service Retirement and Disability Fund is very controversial over here, at least with respect to funding it, and these contributions would not be related to benefits or to retirement. I believe the administration was probably correct in saying that it set a poor precedent for the future to use the trust fund for unrelated purposes.

So I appreciate the suggestion of the other body, which is why this bill is back here, that we should offset, as is required, in a way that I must say gives us a double bang.

First of all, it gives us the money. We recognize now court orders during a divorce proceedings that otherwise might result in what amounts to fraud. If one is going through a divorce and they say, oh, my God, I might have to give some of this to my wife or husband, and they pull their money out so they cannot be part of the proceeding, that is nothing the Federal government wants to encourage.

□ 1445

This body has been trying to go in the other way and secure spouses in what would otherwise be available to them, so I regard it as an antifraud measure. But then I am also pleased to see, when we consider what this means for women in particular, that it would safeguard women for what would otherwise be a fleet of what should be available to them.

Madam Speaker, we get the savings, we prevent fraud, and we allow either spouse, in this case, I think it probably benefits women more than men, to perhaps get what would otherwise be available to them but has not been in the past, because the Federal Government did not recognize court orders until the divorce was all done and through, in which case the spouse could have withdrawn the retirement funds that were in the account.

May I say, Madam Speaker, that there is another benefit to this bill, and that really has to do with the retention and recruitment of employees. The Federal Government has become almost noncompetitive with the private sector in pay and benefits.

With the scarcity of workers, and I am amazed to hear myself say that, we have the kind of full employment that we never had in my lifetime, the private sector is trying everywhere it can to make sure that it recruits and retains employees. Moreover, the sizzle is all there. Youngsters getting out of school think of the Federal Government and State governments as kind of ho hum places. They want to go where the action is, to technology, to the private sector by having benefits that do not equal what the private sector has long done.

We certainly do not help ourselves to retain and recruit the employees we need to keep this government running.

Benefits used to be the way the government offset lower pay; now benefits have lost ground as well. We are not going to be able to maintain the extraordinary civil service we have had throughout my lifetime in this city as a native Washingtonian, unless we wake up and smell the coffee when it comes to pay and benefits.

Obviously, this bill helps employees by equalizing their savings and benefit plan, but it helps the Government to make up for lost ground in recruiting and maintaining what has been historically the best and brightest labor force in the country.

Mrs. MORELLA. Madam Speaker, I reserve the balance of my time.

Mr. CUMMINGS. Madam Speaker, I yield myself 9 minutes.

Madam Speaker, I want to, first of all, thank the gentlewoman from the District of Columbia (Ms. NORTON) for what she just said. It reminds me that our subcommittee has worked very hard to stand up for our Federal employees, and we have had a tremendous sensitivity to their needs and their concerns.

So often Federal employees are not given the credit for all the wonderful things that they do, and I have often said that they are the folks who keep government together. They are the oil that keeps the engine running. Without them, we would not be able to accomplish very much of anything in this country.

With that, I want to thank the gentlewoman from Maryland (Ms. MORELLA) again for her sensitivity, but we have been very fortunate to work in a bipartisan way. As the gentlewoman from the District of Columbia (Ms. NORTON) said, this is the way things should be done; just a common sense approach and encouraging people to save on their own.

As we reach the waning days of this session, I want to take a moment, Madam Speaker, to thank the members of our committee, certainly the gentlewoman from the District of Columbia (Ms. NORTON), the gentleman from Maine (Mr. ALLEN), the gentleman from Florida (Mr. MICA), the gentleman from Florida (Mr. MILLER), the gentlewoman from Maryland (Mrs. MORELLA), the gentleman from Arkansas (Mr. HUTCHINSON), and certainly the gentleman from Florida (Mr. SCARBOROUGH), our chairman, for all of the efforts that we have been able to pull together to create some very, very meaningful legislation.

I think that it is safe to say, Madam Speaker, that we set some goals at the beginning of this term, and I think we fulfilled just about all of them; and this is a crowning piece of legislation, because, again, it is recognition for our Federal employees for what they do every day, every day to lift our Nation up, to make it the strongest Nation in the world and the greatest Nation in the world. With that, I urge all of my colleagues to support this legislation.

Madam Speaker, I yield back the balance of my time.

Mrs. MORELLA. Madam Speaker, I yield myself such time as I may consume.

Madam Speaker, I thank the gentleman from Maryland (Mr. CUMMINGS) for his very appropriate and very kind words, but certainly the work that he has commented on dealing with this subcommittee working together for Federal employees, because they are so important to our Nation.

America, Madam Speaker, has one of the lowest national savings rates among industrialized countries. It has fallen steadily over the last 20 years, seriously jeopardizing America's security during what is supposed to be our golden years. Even though Americans recognize that they should be saving more, half of all family heads in their late 50s possess less than $10,000 in net financial assets.

With the retirement of America's baby boomers approaching, Congress is beginning to consider how we can encourage Americans to save more. Federal employees, like all Americans, are increasingly concerned with planning for their retirement.

This bill, H.R. 208, is a sensible way to encourage Federal employees to take personal responsibility and increase their savings for retirement without adding impediments before them. I think also as a Nation it helps us recruit and retain Federal employees. It says that we care about our civil servants. I am delighted that this important legislation has come to the floor for a vote. I want to thank the gentleman from Florida (Mr. Scarborough), chairman of the Subcommittee on Civil Service, the gentleman from Indiana (Mr. BURTON), chairman of the Committee on Government Reform for their support in expediting consideration of the resolution.

Madam Speaker, I want to thank the gentleman from Maryland (Mr. CUMMINGS), who is the ranking member of the Subcommittee on Civil Service, and the gentleman from California (Mr. WAXMAN), who is the ranking member of the Committee on Government Reform, for their support.

I would also like to thank Tom Trabucco, he is from the Thrift Savings Retirement Board, for all of his help in crafting this legislation. I also want to thank our staffs on both sides of the aisle and certainly on this side such as Garry Ewing, and especially my staff person Jordie Hannum. Madam Speaker, I ask my colleagues to vote for this bill.

Mr. MORAN of Virginia. Madam Speaker, I rise today to join my colleague from Maryland in support of H.R. 208, the modernization of the Federal Employee Thrift Savings Plan (TSP).

I share Mrs. MORELLA's view that federal employees should be allowed to participate in the TSP immediately upon being hired.

As Members of Congress, it is the least we can do to reward the hard work of our federal employees who, in recent years, have assumed increasing responsibilities, sacrificed higher private sector wages, and generally tried to make the federal government operate more efficiently with, in many cases, tighter budgets.

This bill will help to ensure that the Federal government is able to keep pace with the private sector in attracting the best and brightest personnel.

I have seen this trend first-hand in my district, where many talented individuals leave federal service because their government compensation and benefits just don't compete with offers in the private sector. I firmly believe that this bill seeks to level the playing field by enabling the federal government to hire and retain a highly skilled workforce that will secure the American public's confidence in our government and the services our federal workforce provides.

By lifting the waiting period restrictions on TSP participation, this is just one more step to make federal employment more attractive to individuals, and more competitive with the private sector.

Mrs. MORELLA. Madam Speaker, I yield back the balance of my time.

The SPEAKER pro tempore (Mrs. BIGGERT). The question is on the motion offered by the gentlewoman from Maryland (Mrs. MORELLA) that the House suspend the rules and concur in the Senate amendments to the bill, H.R. 208.

The question was taken.

Mrs. MORELLA. Madam Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX and the Chair's prior announcement, further proceedings on this motion will be postponed.

RUTH HARRIS COLEMAN POST OFFICE

Mrs. MORELLA. Madam Speaker, I move to suspend the rules and pass the bill (H.R. 5229) to designate the facility of the United States Postal Service located at 219 South Church Street in Odum, Georgia, as the ''Ruth Harris Coleman Post Office.''

The Clerk read as follows:

H.R. 5229

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. RUTH HARRIS COLEMAN POST OFFICE BUILDING.

(a) DESIGNATION.—The facility of the United States Postal Service located at 219 South Church Street in Odum, Georgia, shall be known and designated as the ''Ruth Harris Coleman Post Office Building''.

(b) REFERENCES.—Any reference in a law, map, regulation, document, paper, or other record of the United States to the facility referred to in subsection (a) shall be deemed to be a reference to the Ruth Harris Coleman Post Office Building.

The SPEAKER pro tempore. Pursuant to the rule, the gentlewoman from Maryland (Mrs. MORELLA) and the gentleman from Maryland (Mr. CUMMINGS) each will control 20 minutes.

The Chair recognizes the gentlewoman from Maryland (Mrs. MORELLA).

GENERAL LEAVE

Mrs. MORELLA. Madam Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks on H.R. 5229.

The SPEAKER pro tempore. Is there objection to the request of the gentlewoman from Maryland?

There was no objection.

Mrs. MORELLA. Madam Speaker, I yield myself such time as I may consume.

Madam Speaker, the bill before us, H.R. 5229, was introduced by the gentleman from Georgia (Mr. KINGSTON) and supported by the entire House delegation from the State of Georgia, pursuant to the practice of the Committee on Government Reform.

The legislation designates the facility of the United States Postal Service located at 219 South Church Street in Odum, Georgia as the ''Ruth Harris Coleman Post Office.''

Ruth Coleman was a schoolteacher and played a dynamic role in the activities of Odum as the originator and director of Odum Day for 17 of the past 24 years. She was named Odum's Citizen of the Year in 1998 and was a former chairman of the Wayne County Chapter of the AARP. She was a Member of the Wayne Memorial Hospital Auxiliary, and she chaired the American Red Cross Blood Drive in Wayne County for many years.

She also served as chairman of the Harris Family Reunion and the organizer of the Odum Sunlighters. Ruth Coleman passed away in 1998 when she was 70 years of age.

Madam Speaker, I urge our colleagues to support H.R. 5229, recognizing the contributions of Ruth Harris Coleman to Wayne County by naming a post office in Odum, Georgia in her honor.

Madam Speaker, I reserve the balance of my time.

Mr. CUMMINGS. Madam Speaker, I yield myself such time as I may consume.

Madam Speaker, H.R. 5229 was introduced by the gentleman from Georgia (Mr. KINGSTON) on September 20, 2000. Mrs. Ruth Harris Coleman was a schoolteacher and one of the originators of Odum Day, which celebrated its 25th year on October 7 of this year.

Mrs. Coleman was Odum Day director for 17 years. In 1983, she was the grand marshal of Odum's homecoming parade and in 1998 was named Odum's Citizen of the Year.

She chaired the American Red Cross Drive in the Wayne County Chapter of AARP and was a member of the Wayne Memorial Hospital Auxiliary. Ms. Coleman died in 1998.

I have often said that when we take a moment, Madam Speaker, to name a post office after someone, it is not the deed that counts; but it is the memory of the fact that we are taking a moment to salute this schoolteacher and give her the recognition that she richly deserves says a lot. With that, Madam Speaker, I would urge the swift passage of this bill and ask all of our colleagues to vote in favor of it.

Madam Speaker, I yield back the balance of my time.

Mrs. MORELLA. Madam Speaker, I ask that the House approve this resolution, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentlewoman from Maryland (Mrs. MORELLA) that the House suspend the rules and pass the bill, H.R. 5229.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the bill was passed.

A motion to reconsider was laid on the table.

ROBERTO CLEMENTE POST OFFICE

Mrs. MORELLA. Madam Speaker, I move to suspend the rules and pass the bill (H.R. 4831) to redesignate the facility of the United States Postal Service located at 2339 North California Street in Chicago, Illinois, as the ''Roberto Clemente Post Office,'' as amended.

The Clerk read as follows:

H.R. 4831

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. ROBERTO CLEMENTE POST OFFICE.

(a) REDESIGNATION.—The facility of the United States Postal Service located at 2339 North California Avenue in Chicago, Illinois, and known as the Logan Square Post Office, shall be known and designated as the ''Roberto Clemente Post Office''.

(b) REFERENCES.—Any reference in a law, map, regulation, document, paper, or other record of the United States to the facility referred to in subsection (a) shall be deemed to be a reference to the Roberto Clemente Post Office.

The SPEAKER pro tempore. Pursuant to the rule, the gentlewoman from Maryland (Mrs. MORELLA) and the gentleman from Maryland (Mr. CUMMINGS) each will control 20 minutes.

The Chair recognizes the gentlewoman from Maryland (Mrs. MORELLA).

GENERAL LEAVE

Mrs. MORELLA. Madam Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks on H.R. 4831, as amended.

The SPEAKER pro tempore. Is there objection to the request of the gentlewoman from Maryland?

There was no objection.

Mrs. MORELLA. Madam Speaker, I yield myself such time as I may consume.

Madam Speaker, the bill before us, H.R. 4831, was introduced by the gentleman from Illinois (Mr. GUTIERREZ) on July 12 and amended by the Committee on Government Reform on October 5. The amendment simply changes the word ''Street'' to ''Avenue'' as determined after review by the United States Postal Service.

H.R. 4831, as amended, designates the post office located at 2339 North California Avenue in Chicago, Illinois, presently known as the Logan Square Post Office as the Roberto Clemente Post Office. Each member of the House delegation from the State of Illinois has cosponsored this legislation pursuant to the policy of the Committee on Government Reform.

□ 1500

Roberto Clemente was born in 1934 in Carolina, Puerto Rico, the son of a foreman of a sugar cane plantation and grocery store operator. He played softball as a youngster, and then he played with the professional major league caliber team until 1953 when his .356 batting average came to the attention of the Brooklyn Dodgers.

The Dodgers gave Roberto a bonus and sent him to the Montreal Royals, ordering that he should not be played lest another team draft him. He was, however, drafted by the Pittsburgh Pirates after an observant Pirate scout spotted him.

Roberto Clemente played for several years as their star outfielder until 1972 when he met his untimely and tragic death when he was only 38 years old. He was thought by many as the greatest and most complete player, but he was also the victim of dual discrimination for being black and Hispanic.

Now, 28 years after the fatal plane crash while on a mission of mercy taking humanitarian supplies to the victims of an earthquake in Nicaragua, he is no longer the invisible player.

Roberto Clemente led the Pirates to World Series victories in 1960 and 1971. He was the National League batting champion in 1961, 1964, 1965, and 1967. He was ordered 12 gold gloves. He established a major league record by leading the National League in assists five times. He was inducted into the Baseball Hall of Fame at Cooperstown, the first Latin player to be so honored.

Roberto Clemente may not have been a resident of Chicago, but this citizen of the world is recognized by the Nation, and he is recognized by all lovers of the sport of baseball as a great athlete, humanitarian, and a role model.

I urge all of our colleagues to support H.R. 4831, naming a Post Office in Chicago after this hero.

Mr. Speaker, I reserve the balance of my time.

Mr. CUMMINGS. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, H.R. 4831, to redesignate the facility of the United States Postal Service located at 2339 North California Street in Chicago, Illinois, as the ''Roberto Clemente Post Office'' was introduced by the gentleman from Illinois (Mr. GUTIERREZ), my distinguished colleague and good friend, on July 12, 2000.

The bill was amended on October 5, 2000 in the Committee on Government Reform to change the address designation from California Street to California Avenue.

Mr. Roberto Walker Clemente was born in 1934 in Carolina, Puerto Rico and rose from an impoverished background in his hometown to become the

star outfielder for the Pittsburgh Pirates from 1955 to 1972. He helped the Pirates win two World Series in 1960 and 1971.

Mr. Clemente was a four-time National League batting champion, was awarded 12 gold gloves, and was one of only 16 players to have 3,000 or more hits during their career.

Mr. Roberto Clemente, a victim of dual discrimination for being black and Hispanic, died in 1972 in a plane crash delivering relief supplies to victims of an earthquake in Nicaragua. This proud son of Puerto Rico was posthumously inducted into the Baseball Hall of Fame in Cooperstown.

I urge my colleagues to vote for this measure, and I ask, Mr. Speaker, that we recognize the fact that Roberto Clemente was, not only a great baseball player, but he was a great role model and a great humanitarian.

Mr. Speaker, I reserve the balance of my time.

Mrs. MORELLA. Mr. Speaker, I have no other requests to participate, and I reserve the balance of my time.

Mr. CUMMINGS. Mr. Speaker, it is my pleasure to yield 10 minutes to the distinguished gentleman from Illinois (Mr. GUTIERREZ) who is the sponsor of this bill.

Mr. GUTIERREZ. Mr. Speaker, I rise to do my share of duty to history. Today I rise to celebrate the life of Roberto Clemente and to recognize his enormous contributions to humankind. I am very honored to do so. In this particular case, I respectfully think that I contribute, however humbly, to add to the prestige of this House. This is the people's House. Today I rise to pay very deserving tribute to a hero of the people.

As a son of Puerto Rican parents, I pay homage to who was, perhaps, the favorite son of Puerto Rico. In doing so, I feel doubly proud. Today I feel prouder than ever of being a Member of this august body, a body that in recognizing the greatness of this champion elevates its own.

As a Puerto Rican myself, my heart fills with joy knowing of the effect this humble action of ours here today will have in the minds and the souls of hundreds of thousands of Puerto Rico and Hispanic youth in my district in Chicago, throughout the country, and in Puerto Rico.

Much is made from rags to riches stories. In this case, it is different. Because, in achieving what the former Commissioner of Baseball, Mr. Bowie Kuhn, called ''the touch of royalty,'' Roberto Clemente enriched us all.

Roberto was the son of a cane sugar worker, Melchor Clemente, and his mother, Luisa Walker. He was the youngest of seven children. He was born in the municipality of Carolina, Puerto Rico, in Barrio San Anton. As my friend, the Honorable Jose Aponte, Mayor of Carolina, is fond of saying, Carolina greets most visitors to Puerto Rico, because that is where the international airport lies. Carolina has beautiful rolling hills that lead to El Yunque, the mountain where our Taino Indians believed to be home to the Supreme Creator, Yukiyu.

Roberto Clemente was born in the midst of the depression of the 1930s, but was raised by a family full of love and with the best of the Puerto Rican traditions of respect and civility.

Cane sugar workers in Puerto Rico lived a very humble life and a life of poverty. Roberto began playing baseball like many of his contemporaries did, doing batting practice with a broken broomstick hitting bottle caps. He said that, after swinging hundreds of times at bottle caps, a baseball looked as big as a coconut.

Roberto made by hand the first baseball he ever owned, using a discarded golf ball as its core and many layers of string from burlap dried beans and rice bags, finally covered with tape.

From a skinny, smallish boy, Roberto grew to become a superb athlete, demonstrating with hard work and dedication what one can achieve.

Unlike Jackie Robinson, Roberto Clemente was not the first one of his race to break into the majors. Unlike Jackie Robinson, Roberto Clemente faced a double kind of discrimination, as he was both black and Puerto Rican. Unlike Jackie Robinson, Roberto Clemente faced also a language and cultural barrier.

But Mr. Speaker, Roberto Clemente was like his people. Puerto Ricans, like their Latino brothers and sisters, are hard working, proud, and dignified. Despite centuries of colonialism, Puerto Ricans continue to search for a solution to their colonial situation. As they struggle with the scourge, they have continued to create and develop, working hard to improve both their island and communities where they migrated to and reside in the United States, communities like mine in Chicago, where we will now have the honor of naming a Post Office after Roberto Clemente.

After a short stint in Montreal, Clemente was traded in 1955 to the Pittsburgh Pirates where he would end his glorious career. The team rebuilt around him, and he led it to contend for the pennant in 1958 and to the world championship in 1960.

Unfortunately, after a season in which he hit .314 and drove in a club leading 94 runs, he finished behind three white teammates and others in the vote for most valuable player.

Undeterred, Roberto Clemente went on to compile one of the brightest lifetime records in Major League Baseball: four batting titles, Most Valuable Player in 1966, 12 Golden Gloves, 14 appearances in the All Star Games, a National League record of five consecutive seasons leading in outfield assists, and a lifetime batting average of .317.

In the 1971 World Series, when he again led his team to the World Championship, Roberto Clemente hit .414 and two home runs, including the winning blow in game seven and made two extraordinary catches. For his performance, he was awarded the World Series Most Valuable Player award.

Next year in 1972, as if to say goodbye to all the children and admirers the world over, Roberto Clemente became the 11th player in the history of organized baseball to reach the 3,000 hit mark.

Benjamin Franklin said, ''There was never yet a truly great man that was not at the same time truly virtuous.'' Those wise words from one of the wisest of our Founding Fathers never rang so true as when spoken about Roberto Clemente. For today, and forever, we will remember Roberto Clemente as much for what he accomplished in the playing field as for what he accomplished outside of it.

Roberto Clemente became a symbol to Puerto Rican, Hispanic and minority youth, actually to all youth. He was the essence of a success story, yet he was always a true gentleman, a caring father, a devoted husband, and someone dedicated to uplifting all around him. He never forgot whence he came from. He devoted countless hours to youth, especially poor youth.

We can have a real measure of a man, not only by the way he lives, but also by the way he dies.

The end came to Roberto Clemente in such a way that he is now enshrined forever in the hearts of all Hispanics along with Simon Bolivar, Jose Marti, and Cesar Chavez.

After a devastating earthquake virtually destroyed Managua, Nicaragua, Roberto Clemente became the leader of the aid efforts to Managua. After reports reached him that the first supplies that landed in Nicaragua had been grafted by the members of a corrupt military, Roberto Clemente decided, against all advice, to fly with the next airplane load of supplies to ensure that they would reach the poor and needy of Nicaragua.

He could have sent a check. He could have sent the supplies, but he wanted to make sure. This baseball player got on the plane. I wonder how many of us would get on a similar airplane.

As people were partying the arrival of the new year, Roberto Clemente died when his plane went down in 120 feet of water just north of the same international airport of his hometown of Carolina.

Mr. Speaker, there has been countless acts that seek to justly recognize the great man that was Roberto Clemente. Among them, let me cite a few. In 1973, Major League Baseball made an exception to the 5-year rule and accepted Roberto Clemente into the Hall of Fame, roughly a year after he played his last year in the majors. It

was, I believe, most fitting for the greatest of Latino players to become the first Hispanic player ever to be inducted into the Hall of Fame.

In 1973, Major League Baseball renamed its award that recognizes the player who best exemplifies the game of baseball, sportsmanship, community involvement and the individual's contributions to his team, formerly the ''Commissioner's Award'' to the Roberto Clemente Award.

But Roberto Clemente is honored every day, in song, in poetry and in actions that emulate his own by young and old alike in Puerto Rico, in Chicago, in Pittsburgh, and everywhere. Everywhere there are Hispanic or lovers of baseball or good people who admire a deed of sacrifice and love, there is a school or a baseball park or a road bearing the name of this true hero of the people.

The U.S. Postal Service issued the first Roberto Clemente stamp in 1984 and recently featured Roberto Clemente as part of its Legends of Baseball Series issued in Atlanta on July 6, 2000.

Mr. Speaker, in voting for H.R. 4831, this House is joining with millions of Latinos and sports fans everywhere to pay dual tribute to Roberto Clemente.

Mrs. MORELLA. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I want to thank the gentleman from Illinois (Mr. GUTIERREZ) for introducing this bill to name the post office and also for his very eloquent statement about Roberto Clemente.

In my jurisdiction, also, there is a school named for Roberto Clemente. He is a great role model for the youngsters of that school to learn something about his sacrifice.

Character does count, respect for the truth, respect for hard work, respect for each other. He demonstrated that as a role model. So I thank him. I thank the members of the Committee on Government Reform and the Subcommittee on Postal Service for bringing this bill out on the floor of the House. So I ask people to vote for it.

Mr. Speaker, I yield back the balance of my time.

Mr. CUMMINGS. Mr. Speaker, may I inquire as to how much time we have remaining?

The SPEAKER pro tempore (Mr. GIBBONS). The gentleman Maryland (Mr. CUMMINGS) has 8 minutes remaining.

Mr. CUMMINGS. Mr. Speaker, I yield myself the balance of my time.

Mr. Speaker, as I listened to the distinguished gentleman from Illinois (Mr. GUTIERREZ), I could not help, Mr. Speaker, but think about my own life in South Baltimore and watching Roberto Clemente on television.

I just want the gentleman from Illinois to know, Mr. Speaker, that he is absolutely right. Roberto Clemente was more than a hero to just the Puerto Rican community or Hispanic community, but he was a hero to all of us. When we look at what he accomplished in his life, he not only touched the Hispanic and Puerto Rican community, but he touched the world. He touched the world in a way that we could probably never do right by in these proceedings.

□ 1515

Last but not least, I was also very moved, Mr. Speaker, by the comments of the gentleman from Illinois (Mr. GUTIERREZ), when he talked about the naming of a post office so that the children could have an opportunity to see that name on that post office. Many, many years from now, when that post office stands and that name is up there, it may be so long from now that somebody may say, well, who was that. The fact is that somebody will know who he was and will know that he came upon this Earth, he saw it, he looked and said, I can make a difference by simply being the best that I can be, working hard, and giving to mankind.

Mr. Speaker, I applaud the gentleman for this bill. I want to thank the gentlewoman from Maryland (Mrs. MORELLA) and the entire committee for making sure this bill got to the floor, and I urge all my colleagues to vote in favor of it.

Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore (Mr. GIBBONS). The question is on the motion offered by the gentlewoman from Maryland (Mrs. MORELLA) that the House suspend the rules and pass the bill, H.R. 4831, as amended.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the bill, as amended, was passed.

The title of the bill was amended so as to read: ''A bill to redesignate the facility of the United States Postal Service located at 2339 North California Avenue in Chicago, Illinois, as the 'Roberto Clemente Post Office'.''.

A motion to reconsider was laid on the table.

MESSAGE FROM THE PRESIDENT

A message in writing from the President of the United States was communicated to the House by Mr. Sherman Williams, one of his secretaries.

SENSE OF CONGRESS WITH RESPECT TO POSTPARTUM DEPRESSION

Mr. BILIRAKIS. Mr. Speaker, I move to suspend the rules and agree to the resolution (H. Res. 163) expressing the sense of the House of Representatives with respect to postpartum depression.

The Clerk read as follows:

H. RES. 163

Whereas postpartum depression is the name given to a wide range of emotional, psychological, and physiological reactions to childbirth including loneliness, sadness, fatigue, low self-esteem, loss of identity, increased vulnerability, irritability, confusion, disorientation, memory impairment, agitation, and anxiety, which challenge the stamina of the new mother suffering from postpartum depression and can intensify and impair her ability to function and nurture her newborn(s);

Whereas as many as 400,000 American women will suffer from postpartum depression this year and will require treatment. This constitutes up to 20 percent of women who give birth. Incidence of mild, ''transitory blues'' ranges from 500 to 800 cases per 1,000 births (50 to 80 percent);

Whereas postpartum depression is the result of a chemical imbalance triggered by a sudden dramatic drop in hormonal production after the birth of a baby, especially in women who have an increased risk. Those women at highest risk are those with a previous psychiatric difficulty, such as depression, anxiety, or panic disorder. Levels of risk are greater for those with a family member suffering from the same, including alcoholism;

Whereas women are more likely to suffer from mood and anxiety disorders during pregnancy and following childbirth than at any other time in their lives. 70 to 80 percent of all new mothers suffer some degree of postpartum mood disorder lasting anywhere from a week to as much as a year or more. Approximately 10 to 20 percent of new mothers experience a paralyzing, diagnosable clinical depression;

Whereas many new mothers suffering from postpartum depression require counseling and treatment, yet many do not realize that they require help. It is imperative that the health care provider who treats her has a thorough understanding of this disorder. Those whose illness is severe may require medication to correct the underlying brain chemistry that is disturbed. This often debilitating condition has typically been a silent condition suffered privately by women because of the feelings of shame or guilt;

Whereas postpartum depression frequently strikes without warning in women without any past emotional problems, without any history of depression and without any complications in pregnancy. Postpartum depression strikes mothers who are in very satisfying marriages as well as those who are single. It strikes women who had easy pregnancies and deliveries, as well as women who suffered prolonged, complicated labors and caesarean section deliveries. Symptoms may appear at any time after delivery, often after the woman has returned home from the hospital. It may strike after the first, third, or even fourth birth;

Whereas postpartum depression is not a new phenomenon. Hippocrates observed the connection between childbirth and mental illness over 2,000 years ago. Louis V. Marce, a French physician, detailed the identifiable signs and symptoms of postpartum depression in 1858;

Whereas the most extreme and rare form of this condition, called postpartum psychosis, hosts a quick and severe onset, usually within 3 months. 80 percent of all cases of this more extreme form present within 3 to 14 days after delivery with intensifying symptoms; once suffered recurrence rate with subsequent pregnancies is high;

Whereas postpartum mood disorders occur after the mother has had frequent contact prenatally with health care professionals who might identify symptoms and those at

risk. In the United States, where medical surveillance of new mothers often lapses between discharge from the hospital and the physical checkup 6 weeks later, the recognition of postpartum illness is left mainly to chance. The focus of the 6-week checkup is on the medical aspects of her reproductive system and not her mental health;

Whereas having a baby often marks one of the happiest times in a woman's life. For 9 months, she awaits her child's birth with a whole range of emotions ranging from nervous anticipation to complete joy. Society is quite clear about what her emotions are expected to be once the baby is born. Joy and other positive feelings are emphasized, while sadness and other negative emotions are minimized. It is culturally acceptable to be depressed after a death or divorce but not by the arrival of an infant. Because of the social stigma surrounding depression after delivery, women are afraid to say that something is wrong if they are experiencing something different than what they are expected to feel. Mothers are ashamed, fearful, and embarrassed to share their negative feelings and can also be fearful of losing their babies;

Whereas treatment can significantly reduce the duration and severity of postpartum psychiatric illness;

Whereas postpartum depression dramatically distorts the image of perfect new motherhood and is often dismissed by those suffering and those around her. It is thought to be a weakness on the part of the sufferer—self-induced an self-controllable;

Whereas education can help take away the ''stigma'' of postpartum depression and can make it easier to detect and diagnose this disorder in its earliest stages, preventing the most severe cases;

Whereas at present, the United States lacks any organized treatment protocol for postpartum depression. Sufferers have few treatment resources. The United States lags behind most other developed countries in providing such information, support, and treatment;

Whereas the United States Government and its agencies collect very little data on postpartum illness;

Whereas if early recognition and treatment are to occur, postpartum depression must be discussed in childbirth classes and obstetrical office visits, as are conditions, such as hemorrhage and sepsis;

Whereas early detection, diagnosis, and treatment of postpartum illness will become easier if public education is enhanced to lift the social stigma, thereby increasing the chance that women will inform others of her symptoms as she would for physical complications;

Whereas research shows that in the first few weeks after delivery, a woman's chance of requiring a psychiatric admission is 7 times higher than at any other time in her life. It is estimated that as many as 90 percent realize something is wrong, but less than 2 percent report symptoms to their health care provider. The remaining individuals are either undiagnosed, misdiagnosed, or seek no medical assistance;

Whereas it is estimated that as many as 90 percent of women realize something is wrong; however less than 2 percent report symptoms to their health care provider. Only about 20 percent of women with the disorder receive treatment. The remaining individuals are either undiagnosed, misdiagnosed, or seek no medical assistance;

Whereas in addition to the mother, the effects of postpartum depression can also impact the child and the father significantly. Infants of mothers with postpartum depression are at risk for socioemotional difficulties in life. Maternal depression can affect the mother's ability to respond sensitively to her infant's needs. A depressed mother is less likely to provide her children with appropriate levels of stimulation and to express positive affect. Research generally shows that children who receive warm and responsive caregiving from the moment of birth and are securely attached to their caregivers cope with difficult times more easily when they are older. They are more curious, get along better with other children, and perform better in school than those who are less securely attached;

Whereas a mother's marriage can also become severely strained when dealing with a postpartum illness. Husbands/fathers feel anxious and helpless, not understanding what is going wrong or what is the source of the depression. They can express exasperation and even resentment as a result of the problems created by the illness. They are also more likely to become depressed themselves, further compromising the functioning of the family. Lack of support from the partner can contribute to the development or continuation of postpartum depression. Husbands, partners, family members, and friends need access to information on these issues in order to support their wives, relatives, or friends;

Whereas severe postpartum illness can obstruct the important pattern of friendship and support that most couples with newborns tend to form. Family units as a whole can experience isolation;

Whereas education is helpful to new parents coping with these emotional and hormonal changes and also helps them to decide if and when they need to seek outside help; and

Whereas postpartum depression is one of the most treatable and curable of all forms of mental illness. Learning about postpartum depression helps prevent it and relieve it: Now, therefore, be it

Resolved, That the House of Representatives—

(1) recommends that all hospitals and clinics which deliver babies provide departing new mothers and fathers or family members with complete information about postpartum depression, its symptoms, methods of coping with it, and treatment resources;

(2) encourages all obstetricians to inquire prenatally about any psychiatric problems the mother may have experienced, including substance abuse, existence of the above in any family members, and, ideally screen for ongoing depression;

(3) encourages all obstetricians to screen new mothers for postpartum depression symptoms prior to discharge from the hospital and again when they bring in their babies for early checkups;

(4) recommends that appropriate health care professionals be trained specifically in screening women for signs of postpartum depression in order to improve chances of early detection;

(5) recognizes that a coordinated system of registry should be developed to collect data on mental disorders in the new mother and that the National Institutes of Health should undertake additional research on postpartum psychiatric illnesses;

(6) recognizes the impact of a mother's postpartum depression on fathers and other family members as well and strongly encourages that they be included in both the education and treatment processes to help them better understand the nature and causes of postpartum depression so they too can overcome the spillover effects of the condition and improve their ability to be supportive; and

(7) calls on the citizens of the United States, particularly the medical community, to learn more about postpartum depression, how to educate women and families about it, and thus ultimately lower the likelihood that women around the country will continue to suffer in silence.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Florida (Mr. BILIRAKIS) and the gentleman from Ohio (Mr. BROWN) each will control 20 minutes.

The Chair recognizes the gentleman from Florida (Mr. BILIRAKIS).

GENERAL LEAVE

Mr. BILIRAKIS. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks and include extraneous material on H. Res. 163, the legislation now under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Florida?

There was no objection.

Mr. BILIRAKIS. Mr. Speaker, I yield myself such time as I may consume, and I rise today in support of H. Res. 163, a resolution expressing the sense of the House of Representatives regarding postpartum depression, legislation introduced by our colleague, the gentleman from Georgia (Mr. KINGSTON).

This year, as many as 20 percent of American mothers will suffer from postpartum depression. The resolution before us recognizes that this condition is the result of a chemical imbalance triggered by a sudden dramatic drop in hormonal production after the birth of a baby. H. Res. 163 is designed to increase public awareness and understanding so that thousands of women will no longer be forced to suffer in silence.

Among its provisions, the resolution encourages all obstetricians to screen new mothers for postpartum depression symptoms prior to discharge from the hospital and again when they bring in their babies for early checkups. It also recommends that appropriate health care professionals be trained specifically in screening women for signs of postpartum depression in order to improve chances of early detection.

Mr. Speaker, H. Res. 163 emphasizes our commitment to increased access to information about postpartum depression, its symptoms and treatment resources. I ask every Member to join me in supporting passage of this important resolution by the House today.

Mr. Speaker, I reserve the balance of my time.

Mr. BROWN of Ohio. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise today in strong support of H. Res. 163, which focuses on

a condition that has not received the attention that it deserves. I want to commend my colleagues, the gentleman from Georgia (Mr. KINGSTON) and especially the gentlewoman from California (Mrs. CAPPS), for introducing this resolution.

The gentlewoman from California (Mrs. CAPPS), a nurse, is one of the most knowledgeable and active members of the Subcommittee on Health and Environment of the Committee on Commerce. I feel privileged to work with her in the subcommittee, and I am proud to join her as a cosponsor of this resolution.

The gentlewoman from California's district is home to Postpartum Support International, an advocacy and support group founded by Jane Honikman. Jane is a pioneer in this field, and I know the gentlewoman from California would want to acknowledge her important contribution, as we do here today.

Each year, 400,000 American women, 20 percent of those who give birth, experience some postpartum depression caused by chemical imbalance. Hundreds of thousands more experience some of the symptoms, which can include such impairments as disorientation, memory impairment, profound anxiety, and heightened fatigue. This is not an exhaustive list.

It is tragic that so many new mothers are robbed of the joy at such a miraculous time in their lives, and it is tragic that postpartum depression is so often ignored or stigmatized when it should be aggressively treated.

The first months of life are critical for a newborn and profoundly challenging for new mothers. This resolution recommends several important steps the Nation can take to help new mothers and to help their families cope with postpartum depression.

It recommends providing women with information on postpartum depression before they take their babies home from the hospital so that women affected by this condition recognize the symptoms and seek help as soon as possible.

It recommends providing training so health professionals know what signs to look for in new mothers. Doctors should be encouraged to screen new mothers for symptoms prior to discharging them from the hospital and when they bring their babies for early checkups.

And it also recommends we begin to collect data on postpartum depression in the United States.

To effectively target public awareness and treatment, it is important to track the incidence and the prevalence of this condition in different subpopulations. Again, I applaud the gentleman from Georgia (Mr. KINGSTON) and the gentlewoman from California (Mrs. CAPPS) for offering this resolution, and I urge its passage.

Mr. DINGELL. Mr. Speaker, I support H. Res. 163, which recognizes the debilitating effects of post-partum depression on new mothers, their babies and their families. I want to pay particular tribute to my friend and colleague, Representative CAPPS, as well as Representative KINGSTON, for their work on this matter.

H. Res. 163 encourages health care providers to become more attuned to the signs of this common, treatable aftermath of pregnancy in order to detect the problem in its earliest days and offer appropriate interventions.

This weeks' announcement that the Nobel prize in medicine is being awarded to three scientists whose discoveries have unlocked keys to the central nervous system, including the understanding the biochemical underpinnings of depression, underscores the importance of the mind-body connection. Depression is indeed a physiologic response, and there is no time in a woman's life when her physiology changes as markedly and as abruptly as it does with the delivery of a baby. Set against the excitement of a new birth, the emergence of an unexpected mood disorder, such as post-partum depression, can be frightening and confusing. Ironically, detecting this problem takes us back to the heart of the patient-provider relationship by employing our lowest-tech, most-highly valued tools, talking and listening to the patient.

The American College of Obstetricians and Gynecologists suggests that thorough medical history-taking as early as the first prenatal visit can assist providers in identifying those women at highest risk for post-partum depression. Post-partum depression can be diagnoses by simply asking a new mother about a number of aspects of here new life. Her answers and mood are keys to an early and correct diagnosis. This approach also provides an opening for a woman to discuss feelings she may finding shameful and frightening. With an accurate diagnosis, treatment can begin, benefitting mother, baby and family.

As Congress today recognizes the research and treatment needs of women experiencing post-partum depression, we must also recognize that many of the women at highest risk for this condition live outside of the health care safety net, and therefore will not benefit from early detection and intervention. The Congress must work to solve these inequities. We must also work to assure that whatever reforms occur in the healthcare delivery system, providers must never stop talking with their patients. As the lines between medical and mental health problems blur, all health care providers need access to the most up-to-date information, so that opportunities to diagnose and treat problems such as post-partum depression are not missed. This resolution is one step in that direction.

Mrs. CAPPS. Mr. Speaker, I rise today in strong support of H. Res. 163, which calls attention to a condition that affects thousands of women across this country, post partum depression.

This resolution was introduced in May of 1999 by my colleague JACK KINGSTON and I. I want to thank him for his hard work and leadership in this area.

Approximately 400,000 women will experience post partum depression this year, and many do not even know that they need help. This condition can put a strain on family relationships, at a time when most families are often experiencing the joy of the birth of a child.

As a nurse for many years, I have seen firsthand how much women, their families and partners struggle with this difficult condition.

There is great stigma associated with post partum depression, as many women feel ashamed of the feelings that they are experiencing.

There are some steps that can be taken to alleviate this suffering. Our resolution makes some important recommendations.

This legislation recommends that women be provided with information on post partum depression before they leave the hospitals with their babies. This way they can know what signs to look for in those early post-natal days.

It also calls for more training of medical providers, so that they know what signs to look for in new mothers. Doctors should be encouraged to screen new mothers for symptoms prior to discharge from the hospital and when they bring their babies for early check-ups. The earlier we identify the symptoms, the better.

Finally it recommends that we begin to collect data on post partum depression in the U.S., so that we can measure its extent. The National Institute of Mental Health is currently researching the topic, but more must be done. Federal funding is sorely needed in this area.

My district is home to Post Partum Support International, an advocacy and support group founded by my constituent Jane Honikman. Jane is a pioneer in this field, and I applaud the work that she continues to do on this topic every day.

Mr. Speaker, here in Congress we must work to raise awareness of post-partum depression, in order to ultimately lower the likelihood that women around the country will continue to experience it. Women and families around this country have suffered for too long in silence.

Mr. BLILEY. Mr. Speaker, I rise in support of H. Res. 163, which expresses the sense of the House of Representatives with respect to postpartum depression.

The birth of a child is a most joyous occasion for a family. Unfortunately, postpartum depression after childbirth is a common condition for some new moms. In fact, up to 80 percent of new moms experience ''baby blues,'' a mild depression that begins in the first days after childbirth and lasts 2 weeks or less. Postpartum depression lasts longer than the ''baby blues'' however and its symptoms are far more intense and constant.

This condition also affects women who for whatever reason do not carry their pregnancy to term. The sudden and dramatic drop in hormonal production after the termination of pregnancy often results in feelings of guilt, insomnia, and postpartum depression. The same sudden drop in hormonal production found in women with postpartum depression also contributes to the feelings of guilt, insomnia, and depression immediately following an abortion. In fact, a national poll found that at least 56 percent of women experience a sense of guilt over their decision to have an abortion, and a 5-year study shows that 25 percent of women

who have had abortions sought out psychiatric care, versus just 3 percent of women who have not had abortions. Further, numerous studies reveal that women who have had an abortion experience a high incidence of depression, stress, low self-esteem, suicidal feelings, and substance abuse. Some abortion reactions may even fit into the model of complicated bereavement or pathological grief.

I ask unanimous consent to enter into the RECORD two studies on the link between clinical depression and abortion (Angelo, E.J., ''Psychiatric Sequelae of Abortion: The Many Faces of Post-Abortion Grief,'' Linacre Quarterly, 59(2): 69–80, 1992; Brown, D., Elkins, T.E., Lardson, D.B., ''Prolonged Grieving After Abortion,'' J Clinical Ethics, 4(2): 118–123 (1993)).

In light of these widespread and related afflictions, Congress should be more attentive to post-abortion depression as a related condition that calls out for more research from the National Institutes of Health. I urge Members to join me in supporting passage of H. Res. 163.

PSYCHIATRIC SEQUELAE OF ABORTION: THE MANY FACES OF POST-ABORTION GRIEF

(By E. Joanne Angelo, M.D.)

This paper was presented at the N.F.C.P.G. annual meeting in October of 1991.

Induced abortion is the surgical or medical intervention in a pregnancy for the purpose of causing the death of the embryo or fetus. (If the procedure results in a live birth, the outcome is a preterm delivery, not an abortion.) Every abortion, then, is an iatrogenic death. Every post-abortion woman has undergone a real death experience—the death of her child.

Grief is a natural consequence of death. Current obstetrical and psychiatric literature abounds with articles about grief following perinatal death—death due to spontaneous abortion, premature birth, stillbirth, and Sudden Infant Death Syndrome. However, it is only in recent years that the medical profession has begun to understand that perinatal losses can be followed by a grief reaction similar to the loss of an older child or an adult as illustrated by the following statement in Clinics of OB/GYN in 1986. ''I can state most assuredly that couples with recurrent, unexplained or explained early pregnancy losses grieve as intensely as those with later losses or losses of live-born children. Their grief is not visible, however, since society, family, friends, press, or clergy do not support or are not trained to support them. The grief is very real and if unattended can eventually be felt by them to be aberrant, unnatural, or even unhealthy.''

Hospital obstetrical units have developed teams of physicians, nurses, and social workers to help parents deal with perinatal death and the issues of grief, anger, and guilt which it raises. The September 1990 issue of the British Journal of Obstetrics and Gynecology states: ''Ways of helping parents cope with their losses have been recommended and have reduced the frequency of prolonged emotional disturbance and of abnormal grief reactions. . . . Ways of facilitating the grieving process have been identified. These include seeing and holding the dead baby, giving it a name and taking photographs; all help make the situation a reality and to create memories. It is difficult to grieve when no memory of the individual exists.''

In addition to the 20 to 30 percent of pregnancies thought to end in spontaneous abortion in this country, there is now one elective abortion for every three live births. Evidence is mounting that the reaction to the loss of a child from induced abortion is part of the same continuum of grief. In an editorial in the Lancet (March 2, 1991) entitled, ''When is a fetus a dead baby?,'' the author acknowledges that grief follows early pregnancy loss regardless of its cause, ''There is no doubt that the profession, led by society, more readily accepts that miscarriage, termination, stillbirth, and neonatal death lie in a spectrum of the same grief. . . . Why should the death of a baby be a unique zone of grief? Perhaps it is because to the parents, and to the mother in particular, an unknown potential has been lost.'' With half of all pregnancies resulting in fetal death, our society is facing a potential epidemic of invisible mourning and pathological grief.

Grief after induced abortion is often more profound and delayed than grief after other perinatal losses. Grief after elective abortion is uniquely poignant because it is largely hidden. The post-abortion woman's grief is not acknowledged by society because the reality of her child's death is not acknowledged. In order to gain her consent for the abortion she has been told that the procedure will remove a ''blob of tissue'' a ''product of conception'', or a ''pre-embryo.'' She has been assured that her ''problem will be solved'' and that she will be able to ''get on with her life'' as though nothing significant had happened.

Yet the pregnant woman knows by the changes in her body that something very significant is happening to her: her menses have stopped, her breasts are enlarging, she is sick in the morning (or all day long), and she knows that the process which has begun in her will most likely result in the birth of a baby in nine months time if allowed to run its course. She is aware of the expected date of delivery and she has often thought of a name for her baby as she has begun to picture the child as he or she would be at birth (Bonding begins very early in pregnancy.). All of these feelings and fantasies about her pregnancy must be denied in order to undergo an elective abortion. The pregnant woman is asked to deny the fact that she is carrying a child at all!

Society offers her no support in grieving. Her decision to undergo an abortion is made very quickly without time for calm reflection or seeking advice. The whole process is usually kept secret from her family and friends and professional colleagues, and often even from the father of her child. Abortion clinics offer no ''Perinatal Loss Team'' to help her deal with her confusing and perhaps overwhelming feelings. She is typically alone, without her partner during the procedure. There is no dead child to hold, no photographs, no funeral, burial, or grave to visit, no consolation from friends, relatives or clergy. Her only memories are of a rushed, painful procedure and of her own efforts to convince herself that what her ''abortion counselor'' had told her was true. The psychological defense mechanisms of denial and repression are massively in effect by the time she leaves the clinic. It is not surprising then, that ''exit poll'' research and studies of the immediate post-abortion days, weeks and months find that women feel relieved and claim to have no adverse psychological aftereffects of elective abortion. When pain and bleeding remind her of the physical assault on her body and when the sudden and unnatural endocrine changes cause her to become emotionally labile, society continues to expect her to act as if nothing had happened. Her attempts to comply with those expectations are at great personal expense. She may begin to dose herself with alcohol or sleeping pills to deal with the nightmares and her feelings of grief and guilt; she may throw herself into intense activity—work or study or attempts to repair her intimate relationships or to develop new ones. When waves of sadness, anger, emptiness, and loneliness overwhelm her she berates herself for not ''feeling fine'' as is expected of her.

Women who have chosen abortion are often haunted by the obsessive thought, ''I killed my baby!'' They find themselves alone to cope not only with the loss of the child they will never know, but also with their personal responsibility in the child's death. Their guilt is not merely subjective or neurotic; it is objective and real. Reminders are all around them—the expected date of delivery, children the same age that their children would have been, a visit to the gynecologist, the sound of the suction machine in the dentist's office, a baby in a television ad, a new birth, another death experience. Each of these may trigger a breakthrough of guilt, grief, anger, and even despair. This cycle typically continues for many months or years before appropriate help is found because until recently mental health professionals have failed to recognize the many faces of post-abortion grief.

UNCOMPLICATED BEREAVEMENT (NORMAL GRIEF)

Grief is the subjective experience which follows the death of a loved one. Psychiatrists agree that the period of mourning after a significant loss normally continues for at least a year after the death, and that if ''grief work'' is not accomplished appropriately, unresolved grief can produce a variety of psychological and psychosomatic symptoms over time.

Horowitz divides normal grief into four stages:

1. OUTCRY which occurs immediately after the death when there may be an intense expression of emotion and an immediate turning to others for help and consolation.

2. DENIAL PHASE during which the bereaved person may avoid reminders of the deceased and focus attention on other things and during which an emotional numbness of blunting may occur.

3. INTRUSION PHASE during which negative recollections of the deceased become frequent, including bad dreams and daytime preoccupations which may interfere with concentration on other tasks.

4. WORKING THROUGH during which the bereaved person begins to experience both positive and negative memories of the deceased, but without the intrusive, disturbing quality which they had had previously and when emotional numbness lessens. The process of working through has reached completion when the bereaved person once again has the emotional energy to invest in new relationships, to work, to create, and to experience positive states of mind.

PATHOLOGICAL GRIEF

Pathological grief occurs when the normal stages of grief are intensified, prolonged or delayed and when the bereaved person is not able to resume normal functioning due to the development of other psychiatric of psychophysiologic symptoms. Horowitz gives the following examples of pathological grief.

Immediately following the death the OUTCRY may be intensified into a panic state where behavior is erratic, and self-coherence is lost in a flood of uncontrolled fear and grief. Alternatively, the bereaved person's

withdrawal may be exaggerated into a dissociative state or a reactive psychotic state.

When the DENIAL PHASE is pathological the following may occur; ''overuse of alcohol or drugs to anesthetize the person to pain. Some persons may seek to jam all channels of consciousness with stimuli, avoiding thinking and feeling about the death. To escape feeling dead and unreal, one may engage in frenzied sexual, athletic, work, thrill-seeking, or risktaking activities.''

Risk factors for the development of pathological grief are listed in Michels' 1990 textbook Psychiatry:

''Some circumstances are likely to increase the severity or duration of grief reactions. These include pre-existing high dependency on the deceased, pre-existing frustration or anxiety in relating to the deceased, unexpected or tortuous deaths, a sense of alienation from or antagonism to others, a history of multiple, unintegrated earlier losses or simultaneous losses, and real or fantasied responsibility for the suffering or death itself. When several of these factors are present, a complicated bereavement reaction may result that warrants diagnosis as one of the anxiety or depressive disorders (including Post-traumatic Stress Disorder), an adjustment disorder, reactive psychosis, or a flare up of a pre-existing personality disorder.''

DEPRESSION

Pathological or unresolved grief has long been recognized as a precursor to serious depressive illness. Shakespeare's Macbeth says, ''Give sorrow words; the grief that does not speak knits up the o'erwrought heart and bids it break . . .'' The current Diagnostic and Statistical Manual of Mental Disorders states, ''morbid preoccupation with worthlessness, suicidal ideation, marked functional impairment, or psychomotor retardation, or prolonged duration suggests that bereavement is complicated by a Major Depressive Episode.''

In a review article, ''Mental Health and Abortion'' in the Psychiatric Journal of the University of Ottowa (1989), Phillip Nay concludes that although depression was once a frequent indicator for induced abortion, ''depression is likely to be worsened by abortion because if increases guilt and causes another loss.''

Depressive disorders are the most common reason for psychiatric referral of post-abortion women in my experience. Suicidal ideation, impairment of the ability to carry out daily functions at work, school, or home, somatic symptoms such as weight loss and insomnia make psychiatric care imperative. Psychiatric intervention often includes antidepressant medication and/or hospitalization, as well as intensive psychotherapy. Although the diagnosis of Major Depressive Episode is made and appropriate initial treatment instituted, the significance of the early pregnancy loss through abortion as a causative factor is often overlooked. This may occur for a number of reasons.

1. The patient may not volunteer her abortion history, and may be reluctant to answer routine questions about her reproductive history because of intense shame and guilt and because of a lack of a trusting relationship with her therapist, which takes time to develop.

2. A long time may have passed since her abortion, and the psychiatrist may not be aware of the very common delay of eight to ten years from the induced abortion until the woman seeks help for her depression, which has become so severe that she can no longer function and her life is in danger. An eight to ten year delay in seeking help has been a common finding in outreach programs to post-abortion women across the United States.

3. So many other negative factors in the history could account for the woman's depression: alcohol and drug abuse, failed marriages, job stress, intrusive obsessive thoughts which may appear to be psychotic in nature. An example of the latter is the case of a 75 year old woman in a nursing home who was heard muttering over and over again ''I killed my baby!'', and who, in fact, had an abortion sixty years before.

4. Society's ''blind spot'' regarding the significance of perinatal loss and the grief following induced abortion is shared by many psychiatrists and other mental health professionals. If her tentative attempts to share her profound grief and guilt with her therapist are not heard or are belittled, the post-abortion women's sense of worthlessness and despair may increase and she may be confirmed in her conviction that no one will ever understand or be able to help. She may discontinue her medication, cancel appointments, and sink even more deeply into depression.

Peterson, who is studying post-abortion women in Germany, believes that when deep feelings of guilt which have been suppressed for a long time are followed by ''a breakthrough of destructive deep awareness, with chaos and panic, revulsion and hate'' these feelings must be acknowledged and the woman helped to come to ''acceptance of existing reality, responsibility and feeling of guilt toward the dead child.'' It is my experience that only when the therapist can endure the flood of primitive emotions which the patient needs to pour out over a number of sessions without rejecting her or asking her to diminish their intensity, can he or she begin to help the post-abortion woman in her work of mourning.

Although there are no visual memories of her child, no pictures, no shared experiences to help her work through the grief process, she has frequently formed a mental image of her child. It is in fact that mental image which has been haunting her, intruding itself into her thoughts day and night. Often the image is of an infant being torn to pieces sucked down into a tube, crying out in pain, or reaching out to her for help. She has often named her child and may have regularly occurring conversations with him or her in her mind. The work of therapy involves allowing her to share these images and to accept her guilt while at the same time the therapist is kind and supportive to her. Gradually she will learn to accept the reality of what has happened and her own responsibility in the death of her child. In time she can begin to develop a mental image of her child no longer suffering and crying out to her but at peace and at rest.

The treatment of depression in a post-abortion woman involves more than providing for her safety and physical well-being (emergency psychiatric care) or offering her appropriate anti-depressant medication if indicated. One must also allow her to share the overwhelming guilt, sorrow, anger and self-hate which she has harbored perhaps for years and which she has attempted to deal with by dosing herself with alcohol, drugs, and frenzied activity. Her fantasies about her dead child must also be acknowledged for these are her only memories of her baby. Gradually these fantasies can be shaped in a more positive and consoling manner so that she can finally put them to rest. Clergy can be helpful in this process both in helping the woman seek forgiveness and in offering prayers and/or a memorial service for her baby.

SUICIDE

''Women in the first year after childbirth and during pregnancy have a low risk of suicide'' is the conclusion reached by Appleby after studying all women aged 15 to 44 who committed suicide in England and Wales from 1973 to 1984.'' The actual number of suicides in this group was only one-sixth of that expected relative to other women of the same age leading him to conclude, ''Motherhood seems to protect against suicide. Concern for dependents may be an important focus for suicide prevention in clinical practice.''

The same study found, however, that the suicide rate after stillbirth was six times that for all mothers after childbirth. While the birth of a living child seems to ''protect against suicide'', it would appear that the birth of a dead child greatly increases the risk of suicide. What then of the risk of suicide after elective abortion when the mother is not only dealing with the death of her child but with her responsibility in causing that death? In my search of the literature I have not found any such demographic studies.

It is well known that youthful suicides are increasing at an alarming rate, and that the majority of these occur between the ages of 15 and 24 years which is the same age group where most induced abortions occur. Most adolescent suicides occur in the middle and upper socioeconomic class as do most abortions. ''Suicidal behavior in 'normal' adolescents'' is the topic of a 1989 study published in the American Journal of Orthopsychiatry, Sexuality and loss were two of four risk factors which causes a nearly five fold increase in the risk of suicidality in a sample of 300 public high school students in grade 9–12 in a small Northeastern community. Although the report of the study does not include data about abortions, the correlation between teen sexual activity, pregnancy and loss through abortion is apparent in this population.

The newsletter of the American Suicide Foundation observes that, ''Specific crises and environmental stressors may precipitate suicidal behavior, although it can be hard to appreciate the stressfulness of a seemingly minor event that falls on the shoulders of an adolescent who is already burdened with depression.''

Some case vignettes from my own practice may illustrate why elective abortion is anything but a minor event in the lives of young women and their partners.

''Lorna'', a 22 year-old woman in the military was referred to me because of an eating disorder. In our first visit she told me that for the past year since her elective abortion she had wanted to die. In fact she had made a suicide attempt two days before he scheduled abortion when she felt that she could neither go through with it nor face the rest of her tour of duty in the military as a single parent. When she was unsuccessful in causing a fatal automobile accident after she had overdosed on drugs and alcohol, she had been admitted to a psychiatric inpatient unit.

Her psychiatrist advised her to go through with the abortion which has been scheduled for her the next day. Since that time her cocaine and alcohol use had escalated and her weight had continually dropped. She was haunted by a strong desire to be united with her baby, and by the urge to kill herself. In the year in which I worked intensely with her she made several suicide attempts and was re-hospitalized once. Before she moved

out of the area she thanked me for having helped her, saying: ''I'm not going to kill myself now, but when I die I know that's how it will happen.'' A year later it did happen.

A 23 year old single woman whom I have called ''Joyce'' was referred to me after a suicide attempt which also involved a planned drunk driving accident. Her obsessive through was, ''I want my babies!'' She had had two abortions, one at the age of 17, and once at the age of 18 while in high school. She was the youngest in a large family and still living at home. Her fear was that if she told her parents (who were older and in precarious health) that she has become pregnant and had the abortions they would ''drop deaf of heart attacks.'' She suffered alone for six years with her guilt and her longing for her lost children. When an uncle who was a priest returned from overseas she planned to tell him her tragic story. Before she could talk with him he suddenly died of a heart attack. Mourning his death and now convinced that she would never be able to share her guilt and grief without risking further losses, she planned her own death both to end her pain and to achieve a reunion with her children and her uncle.

An 18 year old gas station attendant, ''Peter'', shot himself and died three months after his father's unexpected death. Only his closest friend knew that at the time of his suicide he was despondent over his girlfriend's abortion. Their child had been conceived on the day of his father's death. In Peter's mind a mental image of the child had formed: he had told his friend that he would have a son and that he planned to name the boy after his father. The loss of that child and all that he represented to Peter was more than he could bear.

POST-TRAUMATIC STRESS DISORDER

Post-traumatic Stress Disorder is one of the Anxiety Disorders listed in the Diagnostic and Statistical Manual of Mental Disorders. ''The characteristic symptoms involve re-experiencing the traumatic event, avoidance of stimuli associated with the event or numbing of general responsiveness, and increased arousal . . . The most common traumata involve either a serious threat to one's life or to physical integrity; a serious threat or harm to one's children, spouse, or other close relatives and friends. . . . The disorder is apparently more severe and longer lasting when the stressor is of human design.'' A list of life events which may cause sufficient stress to produce Post-Traumatic Stress Disorder includes abortion. The most familiar type of Post Traumatic stress disorder or P.T.S.D., is ''Post Vietnam Syndrome.'' Following induced abortion, many women experience similar symptoms. In fact the similarities are so striking that some clinicians have coined the term ''Post Abortion Syndrome.''

Characteristic symptoms of Post Traumatic Stress Disorder include: recurrent and intrusive distressing recollections and/or dreams of the event, sudden acting or feeling as if the traumatic event were recurring (flashbacks), and intense psychological distress at exposure to events that symbolize or resemble an aspect of the traumatic event, including anniversaries of the trauma; persistent avoidance of stimuli associated with the trauma, emotional numbness and an inability to feel emotions of any type, especially those associated with intimacy, tenderness and sexuality; and increased symptoms of arousal i.e. startle responses; recurrent nightmares and sleep disturbances. A case vignette follows:

''Alice'', an attractive professional woman in her early thirties, was referred because of marital problems, sleeplessness, anxiety and a sense of being hyperalert and over-reactive to loud noises. These latter symptoms interfered with her work which placed her constantly in the public eye. She had had a traumatic abortion a year before arranged for her by her husband in a clandestine manner. She had been experiencing frightening dreams, daytime flashbacks, intense anger and loathing for her husband and suicidal preoccupations for the past year. ''I killed my baby! I don't deserve to live!'' were the intrusive thoughts which haunted her waking hours. She had been seriously contemplating suicide.

ANNIVERSARY REACTIONS

Suicide attempts on the expected date of delivery of the aborted child or subsequent anniversaries of that date or the date of the abortion are common. Tishler describes two adolescent girls who attempted suicide on the approximate date the fetus would have been born had it come to term although one of them was not consciously aware of the significance of the date prior to her medication overdose.

Thirty out of 83 women surveyed regarding post-abortion coping reported anniversary reactions associated with the abortion or the due date in a 1989 study from the Department of Psychiatry of the Medical College of Ohio. In addition to intense and persistent emotional pain after abortion, these anniversary reactions were characterized by physical symptoms most commonly involving the reproductive system—abdominal pain and dyspareunia, also headaches, chest pain, eating irregularities and increased drug and alcohol abuse. The authors state, ''The time-specific relationship of the symptoms to the original experience is often not recognized by the subject and appears to be an attempt to master through reliving rather than remembering. Unresolved grief and pre-existing dysphoria have been suggested as increasing the likelihood of anniversary reactions.''

If the conflicted issues could be sequestered on a subconscious level throughout most of the year and arise only under camouflage to some extent, then a protective role is certainly possible. The woman might be able to receive concern and attention from others without necessarily having the conflict identified. The authors advise physicians and therapists to ask about particular events which may have occurred around the time of year when the patient presents poorly explained physical or psychiatric symptoms. It is easy to see how excessive medical work-ups could lead to unnecessary tests and procedures and even unnecessary surgery.

The authors also report that women in the non-anniversary group in their study mentioned self-punishment as their reason for having a hysterectomy or tubal ligation or for suicidal behavior.

The following case illustrates an unusual anniversary reaction:

''Akiko'', a Japanese college student, was referred for presumed Premenstrual Syndrome (PMS) which was in fact an acute anniversary reaction to her abortion which recurred monthly. One or two days each month her dormitory staff reported that she would not come out of her room for meals or for classes and spent the time crying inconsolably—a most unusual occurrence among Asian students in their experience.

Akiko had had an abortion the day before she left Japan to come to the U.S. to study early childhood education. Her first college classes focused on pre-natal development. During a film showing intra-uterine life she suddenly became aware of the actual developmental stage of the fetus she had aborted a few weeks before. From then on, each month on the anniversary of her abortion she had become overwhelmed and inconsolable by sadness and guilt which she could not share with anyone.

In the context of helping her to work through her grief, I asked Akiko about how women in Japan deal with post-abortion grief. I learned that it is common for mothers in Japan to request memorial services for their children whom they believe they have ''sent from dark to dark.'' At Buddhist temples parents rent stone statues of children for a year during which time prayers are offered for the babies to the god Jizu. More recently, the goddess Mizuko Kanon is believed to be better able to care for these water babies who arrive with smashed heads and shredded bodies because she has large hands with webbed fingers. Parents regularly visit these statues and leave toys, flowers and written messages for their babies.

PSYCHOSOMATIC SYMPTOMS

In addition to the psychophysiological anniversary reactions described above, the chronic stress of unresolved post-abortion grief can also provide classical psychophysiologic reactions as the following case illustrates.

''Jerry'' was doubled over in pain before a scheduled media presentation. He had not had time for breakfast and forgotten the antacid medication he regularly took to control the peptic ulcer which he had recently developed. Jerry's wife had aborted their first child without his knowledge, and had aborted their second child without his consent. After the birth of their third child, Jerry had become over-protective of the boy, spending every waking moment with him, even changing his work schedule so as to be alone with him while his wife worked. A divorce ensued and sole custody of the child was awarded to his ex-wife. Jerry's grief became profound and his psychosomatic symptoms increased.

FAMILY ISSUES

As has been described above, post-abortion grief may be responsible for marital conflicts, problems with sexual intimacy, and parent-child relationship difficulties. Two additional case vignettes will further illustrate these issues.

''John'' was a 28 year old office worker who entered psychotherapy because of a depressed mood, difficulty sleeping, lack of concentration at work, and conflicts with his wife and children. After several apparently unproductive sessions with his therapist, he reported a dream during which a former girlfriend brought him into a room and introduced him to a ten year old boy, stating, ''This is your son!'' Only then did he recall her pregnancy with their child and his active participation in her abortion. Subsequent work with him revealed that it was his unresolved grief and guilt over that child's loss which was responsible for his current symptoms.

''Jeannie'' was a six year old girl who was referred for evaluation of school phobic symptoms. Her separation anxiety began at kindergarten and had not abated in first grade. She often stayed home complaining of stomach aches and headaches. She would only go to school accompanied by her mother, and terrible scenes occurred each time her mother was encouraged to leave with crying, screaming and kicking. Jeannie's mother was afraid to leave her at school in that state even though the teachers assured her that within a few minutes after her

mother's departure Jeannie was able to enter the classroom and participate with the other children.

Jeannie's mother had aborted her previous pregnancy—a decision which she deeply regretted. This next child was burdened with her mother's pathologically intense attachment to her which did not allow for age-appropriate separation and growth for her child.

CONCLUSION

In 1973, an article in the Journal of the National Medical Association stated, ''Early information would tend to alert the physician to the need for systematic follow-up of all abortion patients . . . The epidemologic consequences of abortion may (therefore) become statistically relevant in the not-too-distant future with far-reaching public health significance.''

With 26 million abortions in this country in the 18 years since Roe v. Wade, and the continuing rate of 1.6 million abortions per year, we can no longer deny the public health significance of their psychological and psychophysiological sequelae. Epidemological studies are urgently needed which are statistically sound and which follow women and men for at least ten years post-abortion.

In the meantime, case reports remain valid psychiatric documentation of the many faces of post-abortion grief. The traditional teaching of our profession has not been by means of controlled studies with a sample of several hundred and statistically significant standard deviations. Sigmund Freud, Eric Erikson, Viktor Frankl, Jean Piaget, and Robert Coles have told us about individuals who they have studied in depth. Their detailed case studies have led to lasting insights into human development and the origins and treatment of psychopathology.

The best treatment for any illness, of course, is primary prevention. Primary prevention of the negative psychiatric sequellae of abortion involves the prevention of abortion itself by means of offering compassionate alternatives such as support in child bearing, child rearing and adoption, but more importantly the prevention of untimely pregnancy by teaching the true meaning of an reverence for human sexuality.

PROLONGED GRIEVING AFTER ABORTION: A DESCRIPTIVE STUDY

(By Douglas Brown, Thomas E. Elkins, and David B. Larson)

INTRODUCTION

''Legal abortion of an unwanted pregnancy in the first trimester does not post a psychological hazard for women.'' As exceptions to this widely held generalization, most gynecologists have an anecdotal story or two about a patient's prolonged grieving after undergoing an abortion.

Clinicians searching for perspective on a patient's prolonged grieving may be surprised by the number of publications about potentially negative psychological sequel following induced abortion. Reviews of this vast literature have located at least 30 attempts to design either randomized longitudinal studies or retrospective studies of prolonged grieving after abortion. Based on questionnaires, psychological tests, and interviews, these studies have reported prevalences of negative psychological sequel ranging from 2 percent to 41 percent. Most of the studies did not follow participants past one year after their abortions. The six studies that attempted to identify and interpret prolonged negative experiences after induced abortion all reported the phenomenon, but they questioned whether the abortion itself or circumstances precipitating the choice of abortion brought on the symptoms.

Together, these studies have tended to encourage the generalization that abortion, when a conflict-free decision, brings relief to the patient. A corollary to this generalization is that abortion can have a disturbing or stabilizing impact, depending upon the past mental health history, emotional dynamics, and life circumstances peculiar to each woman who aborts. Most of the researchers who conducted these studies have been careful to admit that their conclusions are somewhat tenuous, given the possibly inherent incompatibility between the objectivity sought in a randomized study and the deeply personal subject matter. Recent literature reviews have drawn specific attention to such methodological limitations.

A clinician's search for perspective may be further complicated when the literature-review articles are themselves compared. For instance, American Family Physician and Psychiatric Journal of the University of Ottawa published review articles that had less than one-third of their research citations in common. Of those few citations in common, one-third were presented with nearly opposite interpretations by the two reviews.

Both the research and the reviews of research that favor the generalization that in most instances abortion does not precipitate debilitating psychological sequelae appear to be significantly limited. Nonetheless, we do not in this article take issue with this generalization about abortion. We do contend that attention to each patient's well-being and to the containment of healthcare costs keeps the issue of potentially negative and prolonged psychological sequelae clinically relevant. For instance, given the annual average of 1.5 million abortions in this country alone, a 1 percent prevalence of a single psychiatric disorder—major depression—tranlates into 15,000 patients.

In response to a presidential assignment, Surgeon General Koop reported in 1989 that the research to date was so ambiguous or flawed that no conclusion about psychological consequences from abortion could be drawn. He believed the subject was important enough to recommend a definitive, multimillion dollar, randomized, longitudial study. However, when the initiation of such a study remains doubtful and when retrospective studies have proven inconclusive, some perspective on this concern can still be sought through a presentation of cases.

Accordingly, this article examines the experience of negative emotional sequelae after abortion expressed by one previously undescribed group of patients, with particular focus on the prolonged nature of their experience. What is lacking in objectivity from these unstructured responses is partially offset by the open-ended admission of feeling and still-active painful memories. Current attention in medical ethics literature to patients' life stories, which a case-series design complements, provides a conceptual framework within which to hear these women share a portion of their stories.

METHODOLOGY

This study documents the selfreported suffering experienced by 45 women after undergoing induced abortions. In 1987, the surgeon general invited several religious leaders from across the United States to Washington, D.C., to relate and comment upon the possible adverse consequences of abortion in the experience of women in their congregations. Among the invitees was the pastor of a large Protestant congregation in Florida. The congregation was predominantly of white, urban, and middle-to-upper-class.

After informing a Sunday morning gathering—which included from 1,600 to 2,000 women on any given Sunday—of the upcoming meeting, this pastor asked for descriptive letters from women who had negative experiences that they perceived to be linked with a past abortion. One week later, 61 replies, most anonymously forwarded through the mail, had arrived. No follow-up requests were made. Of the original 61 replies, five came from significant others (two husbands, two sisters, and one parent) who recounted the negative impact of an abortion on a family member. Another 11 letters were too brief to be useful. This report is an attempt to describe and analyze the remaining 45 letters.

We categorized the content of the letters for descriptive and comparative purposes. The categories we used were those found in the literature on negative psychological responses and on the comparison between the expressions of grief following abortion to expressions of grief associated with perinatal death, spontaneous abortion, and birth of a severely handicapped newborn. The symptomatic categories we included were masking, anger, loss, depression, regret, shame, fantasizing, suicidal ideation, and guilt. One of these classifications needs clarification. We used ''masking'' to categorize the disclosure that a patient hid inner feelings beneath an apparently stable and peaceful outward manner.

RESULTS

The letters revealed what these 45 women perceived to be the most acute consequences from their abortions. Since the women were not asked to provide specific clinical information or to comment on their perceived rationale for specific symptoms, we have avoided speculation about what the women did not mention. Categorization of reported experiences was based on explicit comments in the letters.

The ages of these women ranged from 25 to over 60 years; 87 percent of those who mentioned their age were less than 40 years old. Their ages at the time of abortion (a few had experienced multiple abortions) ranged from 16 to early 40s; 80 percent of those who mentioned age were under 30 years old. Of these women, 81 percent indicated they had undergone first-trimester abortions. Of those who indicated the reasons they sought abortions, 19 percent attributed their having abortions to overt family pressure; a few spoke of medical (4 percent) or financial (9 percent) reasons. Of the respondents, 64 percent spoke of more than incidental and transient grief immediately after the procedure. Half of the respondents mentioned having children subsequent to their abortions. Of the women who mentioned marital status, 75 percent were single at the time of the procedure, and 71 percent placed the time of their abortions after Roe v. Wade.

Table 1 gives a summary of the negative sequelae experienced by these women following their abortions. Analysis of the letters is reported both for the total group and for various subgroups.

TABLE 1.—NEGATIVE FEELINGS FOLLOWING ABORTION

	Feelings (percentage of respondents)								
	Masking	Anger	Loss	Depression	Regret	Shame	Fantasizing	Suicidal	Guilt
All respondents (*N*=45)	35.5	20.0	31.1	44.4	44.4	26.7	57.8	15.5	73.3
Age at time of abortion:									
Pre-21 (*N*=19)	47.4	21.0	36.8	47.4	42.1	31.6	52.6	10.5	73.7
21–30 (*N*=17)	17.6	29.4	17.6	47.0	47.0	35.3	58.8	17.6	82.3
Age at time of contact (1987):									
21–30 (*N*=18)	16.7	27.8	27.8	50.0	50.0	22.2	44.4	11.1	72.2
31–40 (*N*=14)	42.8	28.6	35.7	35.7	42.8	42.8	71.4	7.1	78.6
Reason for abortion:									
Elective (*N*=33)	32.2	17.6	29.4	44.1	47.0	26.5	52.9	17.6	73.5
Pressured (*N*=12)	41.7	33.3	50.0	66.7	41.7	33.3	75.0	16.7	100.0
Subsequent children (*N*=26)	38.5	11.5	46.1	50.0	50.0	19.2	73.1	19.2	73.1
Marital status at time of abortion:									
Single (*N*=30)	36.7	26.7	23.3	53.3	36.7	30.0	56.7	16.7	76.7
Married (*N*=10)	30.0	10.0	40.0	40.0	70.0	30.0	70.0	10.0	90.0
Practicing Christian at time of abortion:									
No (*N*=19)	42.1	15.8	10.5	47.4	42.1	31.6	52.6	15.8	73.7
Yes (*N*=11)	18.1	27.2	18.1	54.5	36.4	36.4	54.5	27.2	72.7
Time of abortion:									
Before Roe (*N*=10)	60.0	10.0	10.0	50.0	20.0	30.0	50.0	30.0	60.0
After Roe (*N*=32)	31.3	25.0	34.4	40.6	46.9	31.3	56.3	12.5	84.1

The responses of the women who described their abortions as uncoerced were not noticeably different from the total responses. However, the presence of coercion in the decision-making process did distinguish these womens' responses from the total responses more than any other variable. The mention of negative sequelae was consistently more frequent for women who felt coerced. The responses of women who had borne children subsequent to an abortion varied little from the total responses, except in the mention of loss and of fantasizing about the infant they might have had.

The most frequently mentioned long-term experience was the continued feeling of guilt. Every woman who recalled being coerced to have an abortion spoke of guilt. Those who had terminated pregnancies after *Roe* v. *Wade* spoke more frequently of guilt than those who had aborted before *Roe* v. *Wade*. Fantasizing about the aborted fetus was the second most frequently mentioned experience, with more attention given to this experience by the older respondents and by those who felt coerced to have an abortion.

Many of the respondents noted, with varying wording, that they were writing ''the most difficult letter'' they had ever written. Half of the participants referred to their abortions as murder. Others used such phrases as ''a horrid mistake,'' my worst experience,'' ''a living hell.'' Several mentioned that hearing the word ''abortion'' would awake painful emotions. A number of the women spoke of suicidal ideation (15.5 percent), recurrent nightmares (13.3 percent), marital discord (15.5 percent), phobic responses to infants (13.3 percent), fear of men (8.9 percent), and disinterest in sex (6.7 percent).

Half of the women who admitted fantasizing about the infant they might have had referred to that aborted fetus as ''my baby.'' One woman, subsequent to the abortion, had named ''her baby'' Jeremy. Several commemorated the anniversaries of the abortion and of the aborted child's projected birthday. These women described drifting into thoughts about the aborted child's sex, talents, appearance, and interests. Some found relief in vividly anticipating a reunion with their aborted infants in an afterlife. Unavoidable reminders—such as celebrating Mother's Day, receiving the news of a friend's pregnancy, being invited to a baby shower, seeing children on a playground, and even planning a birthday party for their own children—kept many of these women moving from one painful emotional fantasy to the next. One woman explained:

''One cannot escape children—their birth, the joy of a baby whether it be next door or around every corner you turn. After all, who would want to? Unless the reminder is unbearable. It takes years and you always remember. Your own children remind you. As I face the rest of my life I will be reminded daily, sometimes hourly. One day I will be a grandmother—I hope—and then the pain will once again become unbearable. I will always be there. An abortion is forever.''

Another woman commented: ''It (an abortion) may seem the fastest way and easiest way to put a bad experience behind them, but it does not stay there. It will surface when they fall in love, when they consider marriage, at the birth of their child(ren), each time they have a physical, each time the word ''abortion'' is mentioned, when your child shows an interest in the opposite sex, when you look into the face of a baby, etc., etc. You see, it never goes away. Never.''

Of these women, 20 percent related negative responses to the abortion procedure itself. Some recalled crying continuously, while others remembered trying to stop the procedure once it had started. Every woman who mentioned the procedure expressed dissatisfaction with the lack of or superficial counseling they received and with the physicians involved in the procedure.

In some cases, the onset of negative sequelae was immediate; Table 2 illustrates the length of time these symptoms had been experienced. Of the respondents, 64 percent described their suffering as beginning immediately after (or during) the procedure, and 42 percent reported negative emotional sequelae endured over 10 years. One woman experienced such symptoms for 60 years. After years of turmoil, few at the time of writing expressed confidence that their symptoms might be eradicated.

TABLE 2.—DURATION OF NEGATIVE FEELINGS FOLLOWING ABORTION

Characteristics of respondents	Duration (percent of respondents)			
	Immediate onset	0 to 5 years	6 to 10 years	10+ years
All respondents (*N*=45)	64.4	6.7	40.0	42.2
Age at time of abortion:				
Pre-21 (*N*=19)	68.4	5.3	36.8	57.9
21–30 (*N*=17)	70.6	11.8	28.6	42.8
Age at time of contact (1987)				
21–30 (*N*=18)	61.1	16.7	55.5	16.7
31–40 (*N*=14)	57.1	.....	7.1	64.3
Reason for abortion				
Elective (*N*=33)	51.5	3.0	33.3	42.4
Pressured (*N*=12)	100.0	.....	37.5	25.0
Subsequent children (N=26)	65.4	3.8	34.6	53.8
Marital status at time of abortion				
Single (*N*=30)	73.3	10.0	46.7	36.7
Married (*N*=10)	70.0	.....	30.0	60.0
Practicing Christian at time of abortion				
No (*N*=19)	68.4	5.7	47.4	31.6
Yes (*N*=11)	63.6	18.1	27.2	36.3
Time of abortion				
Before Roe (*N*=10)	50.0	.....	.....	90.0
After Roe (*N*=32)	68.7	9.4	46.9	34.4

Note.—Because 11 respondents did not specify length of time, percentages do not add up to 100 percent.

DISCUSSION

Due to the manner in which the data became available, this study's design falls far short of the gold standard—a randomized, double-blind longitudinal study. The data are retrospective and self-reported. The person responsible for gathering the data made no provision to control for population variables. No uniform instrument was used. The participants came from a self-selected population group (the Protestant congregation) with a known bias against induced abortion. The possibility of embellishment by the sample population, given the stated purpose for the requested letters, existed. Only negative responses to the experience of abortion were solicited. No psychological testing could be done, nor was the frequency or perceived effectiveness of mental health treatment noted. Incomplete demographic information permitted limited aggregate evaluation and conclusions.

Still, we believe that the testimony of these women permits four observations that suggest some perspective on prolonged negative sequelae possibly associated with abortion. First, this series of cases reinforces a clinician's anecdotal awareness that such sequelae occur. If ethics has to do with what ought to be done all things considered, then clinicians should be careful not to be inattentive to indications that an abortion may create for the woman terminating her pregnancy a period of crisis, requiring effective counseling and reliable support.

Such attention has not been encouraged by the social and political turmoil that has surrounded abortion since Roe v. Wade. Opinion about whether abortion inevitably causes psychological harm for women terminating their pregnancies had begun to shift when the U.S. Supreme Court decided Roe v. Wade. The American Psychiatric Association membership, for instance, did an about-face between 1967 and 1969 on the issue of legalizing

abortion on request—with those in favor increasing from 24 to 72 percent. In the aftermath of Roe v. Wade, elective abortion came widely to be seen, in most instances, as a conflict-free decision. Consistent with this perception, interpreters of data that suggested the occurrence of negative psychologic sequelae tended to minimize the incidence. For instance, Smith reported that ''only'' 6 percent of the 80 women studied had necessitated psychiatric treatment within two years of their abortions. Lazarus found that ''only'' 15 percent of the 292 women followed for two weeks after abortion acknowledged feelings of guilt and depression. American medical literature turned to other facets of potential perinatal grief responses. The cultural climate permitted preabortion counseling to become optional, rather than a prerequisite to the procedure.

Second, it has been estimated that nearly half of all women who received abortions deny having had abortions. The letters in this article suggest that such denial is a refusal to publicize an experience, but not a refusal privately to face painful consequences. Of these women, 35 percent spoke of masking their experience with the appearance of well-being. Women who received abortions before they were 21 mentioned masking their psychological pain far more frequently than the women who had abortions when they were older. Women who had abortions before Roe v. Wade mentioned this hidden pain twice as often as women who had abortions after Roe. This difference may illustrate that since Roe, the social stigma associated with having an abortion has lessened.

Third, a clinician has reason to be concerned when a women perceives the termination of her pregnancy as a coerced decision. The responses of the women who described their decisions to abort as freely chosen did not differ significantly from the total responses, suggesting doubt about the perception that only coerced decisions put a woman at risk. However, the responses of the women who spoke of being coerced (by peers, family, medical complications, economic fears) to have an abortion showed a higher incidence of negative sequelae in all but one emotional category (Table 1). They unanimously admitted guilt feelings. Their problems were, without exception, manifest immediately after the procedure, whereas only half of the women who did not feel coerced but later experienced problems mentioned such immediate sequelae. This difference draws attention to the need for professionals as well as significant others to probe signals of ambiguity from women considering abortion in a manner that is sensitive yet accurate.

Fourth, these letters raise questions about the hypothesis that religious fervor causes and/or magnifies psychological complications after abortion. Two out of three respondents mentioned that they were not practicing Christians or active members of this particular church when they had their abortions. Although there is the possibility that religious beliefs encouraged the prolonged grieving, the responses of those women who were not practicing Christians when they had their abortions did not differ significantly from the responses of all the respondents. Those who were practicing Christians when they had their abortions did indicate a slightly higher incidence of depression and shame. The letters suggest that religious convictions and religious involvement appear to have deepened the psychological pain for some of the women, while for others the same convictions and involvement served as an important resource to reduce the feelings of guilt and despair that had already developed.

CONCLUSION

These letters have provided a window into the ramifications that can surround abortion. We are not taking issue with the generalization, ''legal abortion of an unwanted pregnancy in the first trimester does not pose a psychological hazard for women.'' However, generalizations are, by definition, subject to exception. The more frequent the exceptions, the more tenuous becomes the generalization. Here, 81 percent of the women who experienced painful and prolonged emotional sequelae indicated that their abortions were first-trimester abortions.

Our interpretation of these letters does not reinforce either of the categorical positions—for or against abortion—that are presently polarized in public debate. This study does reinforce the need, if possible, for clinically valid studies of the syndrome of delayed grief among what appears to be a small but significant number of women who have abortions. The causal relationship (or lack thereof) between such women's abortions and their enduring, psychologic pain needs research documentation. The frequency needs to be determined. Factors that predict such problems need to be identified so that psychologic intervention can be made more readily available and even encouraged in some settings.

Clinical implications, not political ramifications, have prompted their descriptive study. The quality of medical care and the assurance of truly informed consent in the termination of pregnancy depend ultimately upon prospective research of negative psychological sequelae. Until such research is achieved, case services of such experiences should not be discounted on methodological grounds or exploited in public debate. Instead, they should be documented as reminders that abortion is, for some women, a moment of crisis of immediate and/or enduring proportion. What is at stake is not the validity of either side in the ongoing public debate over abortion, but the issue of patient care.

Mr. BROWN of Ohio. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. BILIRAKIS. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Florida (Mr. BILIRAKIS) that the House suspend the rules and agree to the resolution, House Resolution 163.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the resolution was agreed to.

A motion to reconsider was laid on the table.

LUPUS RESEARCH AND CARE AMENDMENTS OF 2000

Mr. BILIRAKIS. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 762) to amend the Public Health Service Act to provide for research and services with respect to lupus, as amended.

The Clerk read as follows:

H.R. 762

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the ''Lupus Research and Care Amendments of 2000''.

SEC. 2. FINDINGS.

The Congress finds that—

(1) lupus is a serious, complex, inflammatory, autoimmune disease of particular concern to women;

(2) lupus affects women 9 times more often than men;

(3) there are 3 main types of lupus: systemic lupus, a serious form of the disease that affects many parts of the body; discoid lupus, a form of the disease that affects mainly the skin; and drug-induced lupus caused by certain medications;

(4) lupus can be fatal if not detected and treated early;

(5) the disease can simultaneously affect various areas of the body, such as the skin, joints, kidneys, and brain, and can be difficult to diagnose because the symptoms of lupus are similar to those of many other diseases;

(6) lupus disproportionately affects African-American women, as the prevalence of the disease among such women is 3 times the prevalence among white women, and an estimated 1 in 250 African-American women between the ages of 15 and 65 develops the disease;

(7) it has been estimated that between 1,400,000 and 2,000,000 Americans have been diagnosed with the disease, and that many more have undiagnosed cases;

(8) current treatments for the disease can be effective, but may lead to damaging side effects;

(9) many victims of the disease suffer debilitating pain and fatigue, making it difficult to maintain employment and lead normal lives; and

(10) in fiscal year 1996, the amount allocated by the National Institutes of Health for research on lupus was $33,000,000, which is less than ½ of 1 percent of the budget for such Institutes.

TITLE I—RESEARCH ON LUPUS

SEC. 101. EXPANSION AND INTENSIFICATION OF ACTIVITIES.

Subpart 4 of part C of title IV of the Public Health Service Act (42 U.S.C. 285d et seq.) is amended by inserting after section 441 the following section:

''LUPUS

''SEC. 441A. (a) IN GENERAL.—The Director of the Institute shall expand and intensify research and related activities of the Institute with respect to lupus.

''(b) COORDINATION WITH OTHER INSTITUTES.—The Director of the Institute shall coordinate the activities of the Director under subsection (a) with similar activities conducted by the other national research institutes and agencies of the National Institutes of Health to the extent that such Institutes and agencies have responsibilities that are related to lupus.

''(c) PROGRAMS FOR LUPUS.—In carrying out subsection (a), the Director of the Institute shall conduct or support research to expand the understanding of the causes of, and to find a cure for, lupus. Activities under such subsection shall include conducting and supporting the following:

''(1) Research to determine the reasons underlying the elevated prevalence of lupus in women, including African-American women.

''(2) Basic research concerning the etiology and causes of the disease.

''(3) Epidemiological studies to address the frequency and natural history of the disease and the differences among the sexes and among

racial and ethnic groups with respect to the disease.

''(4) The development of improved diagnostic techniques.

''(5) Clinical research for the development and evaluation of new treatments, including new biological agents.

''(6) Information and education programs for health care professionals and the public.

''(d) AUTHORIZATION OF APPROPRIATIONS.—For the purpose of carrying out this section, there are authorized to be appropriated such sums as may be necessary for each of the fiscal years 2001 through 2003.''.

TITLE II—DELIVERY OF SERVICES REGARDING LUPUS

SEC. 201. ESTABLISHMENT OF PROGRAM OF GRANTS.

(a) IN GENERAL.—The Secretary of Health and Human Services shall in accordance with this title make grants to provide for projects for the establishment, operation, and coordination of effective and cost-efficient systems for the delivery of essential services to individuals with lupus and their families.

(b) RECIPIENTS OF GRANTS.—A grant under subsection (a) may be made to an entity only if the entity is a public or nonprofit private entity, which may include a State or local government; a public or nonprofit private hospital, community-based organization, hospice, ambulatory care facility, community health center, migrant health center, or homeless health center; or other appropriate public or nonprofit private entity.

(c) CERTAIN ACTIVITIES.—To the extent practicable and appropriate, the Secretary shall ensure that projects under subsection (a) provide services for the diagnosis and disease management of lupus. Activities that the Secretary may authorize for such projects may also include the following:

(1) Delivering or enhancing outpatient, ambulatory, and home-based health and support services, including case management and comprehensive treatment services, for individuals with lupus; and delivering or enhancing support services for their families.

(2) Delivering or enhancing inpatient care management services that prevent unnecessary hospitalization or that expedite discharge, as medically appropriate, from inpatient facilities of individuals with lupus.

(3) Improving the quality, availability, and organization of health care and support services (including transportation services, attendant care, homemaker services, day or respite care, and providing counseling on financial assistance and insurance) for individuals with lupus and support services for their families.

(d) INTEGRATION WITH OTHER PROGRAMS.—To the extent practicable and appropriate, the Secretary shall integrate the program under this title with other grant programs carried out by the Secretary, including the program under section 330 of the Public Health Service Act.

SEC. 202. CERTAIN REQUIREMENTS.

A grant may be made under section 201 only if the applicant involved makes the following agreements:

(1) Not more than 5 percent of the grant will be used for administration, accounting, reporting, and program oversight functions.

(2) The grant will be used to supplement and not supplant funds from other sources related to the treatment of lupus.

(3) The applicant will abide by any limitations deemed appropriate by the Secretary on any charges to individuals receiving services pursuant to the grant. As deemed appropriate by the Secretary, such limitations on charges may vary based on the financial circumstances of the individual receiving services.

(4) The grant will not be expended to make payment for services authorized under section 201(a) to the extent that payment has been made, or can reasonably be expected to be made, with respect to such services—

(A) under any State compensation program, under an insurance policy, or under any Federal or State health benefits program; or

(B) by an entity that provides health services on a prepaid basis.

(5) The applicant will, at each site at which the applicant provides services under section 201(a), post a conspicuous notice informing individuals who receive the services of any Federal policies that apply to the applicant with respect to the imposition of charges on such individuals.

SEC. 203. TECHNICAL ASSISTANCE.

The Secretary may provide technical assistance to assist entities in complying with the requirements of this title in order to make such entities eligible to receive grants under section 201.

SEC. 204. DEFINITIONS.

For purposes of this title:

(1) The term ''official poverty line'' means the poverty line established by the Director of the Office of Management and Budget and revised by the Secretary in accordance with section 673(2) of the Omnibus Budget Reconciliation Act of 1981.

(2) The term ''Secretary'' means the Secretary of Health and Human Services.

SEC. 205. AUTHORIZATION OF APPROPRIATIONS.

For the purpose of carrying out this title, there are authorized to be appropriated such sums as may be necessary for each of the fiscal years 2001 through 2003.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Florida (Mr. BILIRAKIS) and the gentleman from Ohio (Mr. BROWN) each will control 20 minutes.

The Chair recognizes the gentleman from Florida (Mr. BILIRAKIS).

GENERAL LEAVE

Mr. BILIRAKIS. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks and include extraneous material on H.R. 762, the bill now under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Florida?

There was no objection.

Mr. BILIRAKIS. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, it is with great pleasure that I rise today in support of H.R. 762, the Lupus Research and Care Amendments. This important measure addresses the devastating, devastating, I underline devastating, disease of lupus. It was introduced by my colleague, the gentlewoman from Florida (Mrs. MEEK), who lost her sister to complications from the illness.

Lupus is a disease which causes the body's immune system to attack its own cells, resulting in progressive damage to all organs. It affects more than 1.5 million Americans. The vast majority of patients who suffer from lupus are women, and a disproportionate number are minorities. Most women are afflicted in their childbearing years, making it difficult for them to work and care for their families.

H.R. 762 expands lupus-related activities of the National Institutes of Health in the areas of basic research, epidemiology, treatment, diagnosis, and public and health care provider education. It also authorizes project grants for the delivery of essential services to individuals with lupus to be administered through local governments, community hospitals, and other nonprofit health care facilities.

By enhancing research on lupus, the bill before us will speed the day when a cure is found for this terrible disease. H.R. 762 will provide early diagnosis and disease management services for lupus patients. It will also increase outreach and expand patient care among low- income populations. Further, the initiatives authorized under this measure will provide a road map for other private and public programs to help victims of lupus.

H.R. 762, Mr. Speaker, has the support of 245 cosponsors in the House; and it was unanimously approved by the Committee on Commerce last month. I urge my colleagues to join me in supporting passage of this very important legislation.

Mr. Speaker, I reserve the balance of my time.

Mr. BROWN of Ohio. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I want to commend the gentlewoman from Florida (Mrs. MEEK) for her dedication on the issue of lupus and her successful effort to put together widespread support for this bill in Congress. This bill has special meaning for my colleague, and I am proud to be one of the bill's 243 cosponsors.

H.R. 762 provides a blueprint for combating lupus, a complex and lethal autoimmune disorder for which there currently is no cure. Lupus affects nine times more women than men, disproportionately more blacks, Hispanics, more Asians, and is most commonly diagnosed in individuals between the ages of 15 and 45.

The ability of lupus, as well as other autoimmune diseases, to strike someone as young as 15 years old speaks to the need for expanded research. Lupus is not universally fatal. Young people with lupus are capable of living active lives, but diagnosis is difficult. There is not a test for lupus, and young people will continue to suffer and die from lupus without our help.

I am pleased that autoimmune disease research was included in the children's health bill now awaiting the President's signature. Autoimmune diseases are unique. Research on one, like lupus, can benefit many others in a synergistic sort of way.

The bill sponsored by the gentlewoman from Florida is a responsible investment in our Nation's health, and I urge its passage.

Mr. Speaker, I yield 5 minutes to the gentlewoman from Florida (Mrs. MEEK), the author of this bill, who has fought on this issue for months and months and years and years.

Mrs. MEEK of Florida. Mr. Speaker, I thank the gentleman for yielding me this time. It is a very proud moment for me. It also is a moment of personal feeling at this time. I lost my dear sister to lupus and many of my very close friends.

I want to thank the chairman, the gentleman from Florida (Mr. BILIRAKIS), for having gone with me for quite a few years. I first applied for this bill in 1995, and it has been back and forth. But now we are at the point where he has pushed, as chairman of the Subcommittee on Health and Environment, and now the gentleman from Ohio (Mr. BROWN), as his ranking member. We have 243 people in this Congress who feel this is important.

I am pleased to rise in support of it because it is going to expand and intensify the research part of lupus. NIH each year has done something toward the application of research to lupus, but now we are asking that this be a mandate of NIH to be sure that they expand research efforts, so it will make it much easier to diagnose this. This is a crippler, Mr. Speaker. It is a crippler and it is a killer. It catches women in their childbearing years, and it is time we put research into it to find out about it. There is very little known about this disease, too little known about it with its crippling effects.

Since my arrival at the House in 1993, I have urged the Congress to direct NIH to mount an all-out campaign against lupus. If any of my colleagues have ever seen or talked to someone who suffers from this disease, they will surely understand why. My colleague, the gentlewoman from Florida (Ms. ROS-LEHTINEN), and I have also fought for this in our Dade County. We have found a great number of Hispanic and black people who are certainly besieged by this terrible disease.

I want to assure my dear colleagues that if we pass this bill and the Senate takes it up and passes it on to the President, and if he signs it, we will have alleviated in the future, I am sure, a great deal of pain and suffering.

I want to thank the Speaker, and I want to thank the minority leader, the gentleman from Missouri (Mr. GEPHARDT), the gentleman from Virginia (Mr. BLILEY), the ranking member, the gentleman from Michigan (Mr. DINGELL), and chairman of the subcommittee, the gentleman from Florida (Mr. BILIRAKIS), to be sure, as well as the ranking member, the gentleman from Ohio (Mr. BROWN), of the subcommittee. If it were not for the top of the tickets here pushing this bill, I do not think it would have come to this floor.

A word of thanks to the chairman of the Committee on Appropriations, the gentleman from Florida (Mr. YOUNG), the ranking member, the gentleman from Wisconsin (Mr. OBEY), and chairman of the Subcommittee on Labor, Health and Human Services, and Education, the gentleman from Illinois (Mr. PORTER). And here I want to take a special moment to thank the gentleman from Illinois, Mr. Speaker. Every year, every time the appropriations bill came before him, we did not have any kind of legislation that would authorize it, but he still added money to the NIH budget because he saw the very, very deleterious effects of this disease.

□ 1530

So I certainly want to thank all those people and last, but not least, my 244 colleagues who have cosponsored this bill for bringing their help in bringing this bipartisan measure to the floor.

I want to especially thank Duane Peters and Lee Peckarsky of the Lupus Foundation of America and all of the dedicated lupus volunteers from all around America who work so tirelessly to support this bill.

Mr. Speaker, we have heard a lot today about lupus. It is an autoimmune disease that afflicts women nine times more than it does men. It has its most significant impact on women during the child-bearing years. About 1.4 million Americans have some form of lupus, one out of every 185 Americans. Many of them do not even recognize that they have it. Many think they have arthritis or some kind of rheumatoid disease because the diagnosis is so very hard.

Lupus disproportionately affects African-American women. The prevalence of lupus among African-American women is three times that of white women. We do not yet know why this is so. This is one of the many mysteries about lupus that still needs to be resolved.

Thousands of women with lupus die each year. Thousands of women die from complications caused by lupus. Many other victims suffer debilitating pain and fatigue, making it difficult to maintain employment and lead normal lives. Many women who have young babies and have lupus cannot even hold their children. Lupus is devastating not only to the patient but to family members, as well.

My bill authorizes appropriations of such funds as are necessary for fiscal year 2000 through fiscal year 2003 for lupus research so badly needed, Mr. Speaker. The education that goes along with this bill is so badly needed and the treatment, as well.

So this also empowers the Secretary of the Department of Health and Human Services to protect the poor and the uninsured from financial devastation by limiting charges to individuals receiving lupus services pursuant to the grant program, the way that we do under the Ryan White CARE Act.

It is very important, Mr. Speaker, that we realize that this is a bipartisan bill that has been carried through this process by both Republicans and Democrats for the benefit of the people of America.

Mr. BILIRAKIS. Mr. Speaker, I reserve the balance of my time.

Mr. BROWN of Ohio. Mr. Speaker, I yield 2 minutes to the gentlewoman from Texas (Ms. JACKSON-LEE).

Ms. JACKSON-LEE of Texas. Mr. Speaker, I would like to thank the gentleman from Florida (Mr. BILIRAKIS) and thank the gentleman from Ohio (Mr. BROWN) for their leadership in this legislation and the chairman and the ranking member. I am also proud to be a co-sponsor of this important legislation.

But I would really like to shower applause down on my good colleague and friend the gentlewoman from Florida (Mrs. MEEK) for the leadership that she has offered and the persistence that she has offered not only on the floor of the House and tracking this bill through Commerce, but working every year diligently with the appropriators to provide funds for research regarding this devastating disease.

Lupus kills. I lost a very dear friend, a young mother, who did not get a chance to see her children grow up. And then I have a dear friend named Pat who lives valiantly with lupus but yet suffers every day. Her enthusiasm for being alive was seen through her hard work in organizing a Lupus Day walk to raise funds in Houston.

I want to encourage those around the Nation who want to educate people about lupus to continue to go out and walk and to have walks that will raise private money and along with federal funds we may find a cure for this disease that strike down young women.

Lupus does kill. It disproportionately affects African-American women, as the prevalence of the disease among such women is three times the prevalence among white women and an estimated one in 250 African-American women between the ages of 15 and 65 develop the disease. But it affects all women. And more than 1.4 million to 2 million Americans have been diagnosed with the disease and there are many more undiagnosed cases because sometimes people do not know what they have, they just feel they have a few aches and pains. But yet, if they are not diagnosed, they can ultimately die from the disease.

I want to thank the gentlewoman from Florida (Mrs. MEEK) for the $33 million that was allocated in 1996 for the National Institutes for Health to do more research. This is an important legislative initiative. Every time we can come to the floor of the House in a bipartisan way to save lives of Americans, I think, Mr. Speaker, that we are doing what the American people would want us to do.

I hope this legislation will be taken up in the Senate. And I believe that,

with the passage of this legislation, we will be able to save many more lives and be on the pathway for doing more to improve the health of all Americans.

Mr. BILIRAKIS. Mr. Speaker, I reserve the balance of my time.

Mr. BROWN of Ohio. Mr. Speaker, I yield 2 minutes to the gentleman from New Jersey (Mr. PASCRELL).

Mr. PASCRELL. Mr. Speaker, I thank the gentleman from Ohio (Mr. BROWN) for yielding me the time.

Mr. Speaker, I would like to begin by acknowledging my colleague, the gentlewoman from Florida (Mrs. MEEK), for her hard work, determination, and advocacy on behalf of those with lupus. This is an issue that the congresswoman has been working on for a very long time. And I am pleased to see that the leadership is working in a bipartisan way to bring this legislation to the floor.

Mr. Speaker, this should be the way we should handle all matters in these final, final days. We need to do here for those least able to help themselves. I think that should be the barometer. It will help us through these tough days.

This is a serious, complex, inflammatory, autoimmune disease that affects women nine times more often than men. Oftentimes those suffering from lupus are not diagnosed in a timely manner. I have seen that happen to close friends. They remain in pain and the sickness progresses.

It has been estimated that between 1.4 and 2 million Americans have been diagnosed with this disease and that many more have undiagnosed cases.

The victims of the disease suffer debilitating pain and fatigue, making it difficult to maintain employment and to lead normal lives.

This critical legislation will correct the oversight that was made in the past by providing increased funding for NIH scientific and clinical research and for improved patient access and care measures. It will ensure that every person who suffers from this disease will receive the highest quality of care possible.

The funding will also improve the quality, availability, and the organization of health care and support services for individuals with lupus and support services for their families.

I wholeheartedly support the passage of this legislation and encourage all my colleagues to do the same.

Mr. BILIRAKIS. Mr. Speaker, I reserve the balance of my time.

Mr. BROWN of Ohio. Mr. Speaker, I yield 1 minute to the gentleman from New York (Mr. TOWNS).

Mr. TOWNS. Mr. Speaker, let me begin by first congratulating my colleague, the gentlewoman from Florida (Mrs. MEEK), of course and the ranking member of the subcommittee, as well.

Let me just say that this is a very important piece of legislation. As we walk and we talk to people who are suffering from this disease, we think about the fact that maybe we need to do more. I think that this is a giant step in the right direction because we need to do more in terms of research and need to make certain that treatment is available to those that suffer from this illness.

I think that access to treatment is very, very important. I think that when we look at many people in some of the rural areas of this country that are having great difficulty getting treatment, I think that this is the right step.

I would like to again congratulate my colleague from Ohio and, of course, my colleague from Florida, both colleagues from Florida, for their outstanding work in this effort and to say to them that they probably do not realize how many lives they are saving and how many people that are encountering all kinds of difficulties that they are going to make life better for all of them. And I want to salute them for that.

Mr. BROWN of Ohio. Mr. Speaker, I yield back the balance of my time.

Mr. BILIRAKIS. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, just very quickly. This is a very, very important piece of legislation, and we are all very pleased to have been a part of it. An awful lot of hard work went into it.

The personal staff of the gentlewoman from Florida (Mrs. MEEK) and my personal staff, Anne Esposito particularly, and the Committee on Commerce both majority and minority staffs are really to be congratulated. They are responsible for this more so than the rest of us.

Mr. Speaker, I ask for support of this legislation.

Mr. DAVIS of Virginia. Mr. Speaker, I rise today in strong support of H.R. 762, the Lupus Research and Care Amendments of 1999. I am proud to be a cosponsor of this legislation to expand and intensify the research efforts of the National Institute of Health to diagnose, treat, and eventually cure lupus.

Lupus is a very serious illness that causes the body's immune system to attack its own cells. More people suffer from this little-known illness than from cerebral palsy, multiple sclerosis, sickle cell anemia, cystic fibrosis, and AIDS combined. Although lupus may occur at any age and in either sex, 90 percent of those affected are women. During the childbearing years, lupus strikes women 10 to 15 times more often than men. More than 1.5 million Americans have been diagnosed with this terrible disease. Many more cases go undiagnosed, since the symptoms of this disease tend to wax and wane with passing time.

H.R. 762 would require the Director of the National Institute of Arthritis and Musculoskeletal and Skin Diseases to expand its research activities on the disease lupus, especially with regard to its increasing prevalence among women. The bill expands lupus-related activities at the Institute into the areas of basic research, epidemiology, treatment, diagnosis, and public and health care provider education. H.R. 762 also authorizes project grants to improve health delivery services through local governments and to community hospitals.

Mr. Speaker, H.R. 762 would provide the needed support to NIH in their works towards making medical breakthroughs in the fight against lupus. I urge all of my colleagues to join me in voting in support of the lupus research and care amendments.

Mr. DINGELL. Mr. Speaker, I strongly support H.R. 762, the Lupus Research and Care Amendments. I want to commend my good friend and colleague, Representative CARRIE MEEK for her steadfast advocacy for this excellent legislation. Lupus is a debilitating and sometimes fatal auto-immune disease that disproportionately afflicts women, particularly women of color. Today's vote brings help and hope to approximately 1.5 million Americans with lupus, and their families.

H.R. 762 accomplishes two goals. Title I recognizes the National Institute of Health's (NIH) present research activities on the many facets of this disease through the National Institute of Arthritis and Musculoskeletal and Skin Diseases and the Autoimmune Diseases Coordinating Committee. It authorizes appropriations to expand and intensify these activities with emphasis on earlier diagnosis, better treatment, and an eventual cure. Epidemiologic studies and education about lupus for the public and health professionals will also be undertaken with funds made available by this bill.

Title II addresses on-going primary care and treatment needs of poor and uninsured individuals with this expensive-to-treat and debilitating disease. It authorizes the Secretary to award care grants to local governments, community hospitals, health centers, and other nonprofit health facilities for the provision of out-patient care and a breadth of support services to affect individuals and the family members who are involved in their care. The holistic treatment and support services provided by H.R. 762 will diminish the sense of isolation that is concomitant to chronic illness by weaving a safety-net of services.

This an excellent bill and I urge my colleagues to join me in supporting its passage today.

Mrs. MORELLA. Mr. Speaker, I am delighted to join my good friend and colleague, Congresswoman CARRIE MEEK, as we move forward and pass H.R. 762, the Lupus Research and Care Amendments.

This bill would amend the Public Health Service Act and require the Director of the National Institute of Arthritis and Musculoskeletal and Skin Diseases to expand and intensify its research activities on the disease lupus, especially with regard to its increasing prevalence among African-American and other women.

This bill will expand lupus-related activities at the Institute into areas of basic research, treatment, diagnosis, and public and health care provider education.

Mr. Speaker, lupus is an autoimmune disease, passage of this H.R. 762, will leverage H.R. 4365, ''The Children Health Act of 2000'' which was recently passed by this House.

Title XIX of this bill, ''NIH Initiative on Autoimmune Diseases'', requires the Director of NIH to expand, intensify, and coordinate the activities of NIH with respect to autoimmune

diseases. This includes forming an Autoimmune Diseases Coordinating Committee and Advisory Council that will develop a plan for NIH activities related to autoimmune diseases and to require different institutes within NIH to provide a detailed report to Congress specifying how funds were spent on autoimmune diseases.

Recently, the American Journal of Public Health published a study demonstrating that autoimmune disorders are among the top 10 leading causes of death among women under 65, indeed today, three-quarters of the 13.5 million Americans afflicted with an autoimmune disease are women.

I urge my colleagues to support H.R. 762, to support the health of our nation's citizens.

Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore (Mr. GIBBONS). The question is on the motion offered by the gentleman from Florida (Mr. BILIRAKIS) that the House suspend the rules and pass the bill, H.R. 762, as amended.

The question was taken.

Mr. BILIRAKIS. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX and the Chair's prior announcement, further proceedings on this motion will be postponed.

DRUG DEALER LIABILITY ACT OF 1999

Mr. BILIRAKIS. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 1042) to amend the Controlled Substances Act to provide civil liability for illegal manufacturers and distributors of controlled substances for the harm caused by the use of those controlled substances.

The Clerk read as follows:

H.R. 1042

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the ''Drug Dealer Liability Act of 1999''.

SEC. 2. FEDERAL CAUSE OF ACTION FOR DRUG DEALER LIABILITY.

(a) IN GENERAL.—Part E of the Controlled Substances Act is amended by adding at the end the following:

''SEC. 521. FEDERAL CAUSE OF ACTION FOR DRUG DEALER LIABILITY.

''(a) IN GENERAL.—Except as provided in subsection (b), any person who manufactures or distributes a controlled substance in a felony violation of this title or title III shall be liable in a civil action to any party harmed, directly or indirectly, by the use of that controlled substance.

''(b) EXCEPTION.—An individual user of a controlled substance may not bring or maintain an action under this section unless the individual personally discloses to narcotics enforcement authorities all of the information known to the individual regarding all that individual's sources of illegal controlled substances.''.

(b) CLERICAL AMENDMENT.—The table of sections for the Comprehensive Drug Abuse Prevention and Control Act of 1970 is amended by inserting after the time relating to section 520 the following new item:

''Sec. 521. Federal cause of action for drug dealer liability.''.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Florida (Mr. BILIRAKIS) and the gentleman from Ohio (Mr. BROWN) each will control 20 minutes.

The Chair recognizes the gentleman from Florida (Mr. BILIRAKIS).

GENERAL LEAVE

Mr. BILIRAKIS. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks and to include extraneous material on H.R. 1042.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Florida?

There was no objection.

Mr. BILIRAKIS. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise today in support of H.R. 1042, the Drug Dealer Liability Act.

I am pleased to act on this legislation because it will give law enforcement authorities and the American public another tool in our efforts to reduce the use of illegal drugs.

We have all known for some time, Mr. Speaker, that the costs of drug abuse in the United States are certainly quite high. In addition to the terrible impact drugs have on users, experts estimate that our country loses close to $100 billion a year to drug-related illnesses, lost productivity and crime. In many cases, these costs are being absorbed by American families and those who are victimized by the drug trade. The bill of the gentleman from Iowa (Mr. LATHAM) would help change that.

Under H.R. 1042, drug dealers would begin paying from their own pocketbooks for the damage that they level on our society. This legislation would allow victims of the drug trade to recover civil money damages from individuals who have sold or manufactured illegal drugs.

Parents, drug-addicted babies, and employers will now have an expanded ability to punish drug dealers and put these criminals out of business.

This type of law is already on the book in 12 States and would be extended to the other 38 under this bill.

So, Mr. Speaker, I commend the distinguished gentleman from Iowa (Mr. LATHAM) for authoring this legislation. By passing this bill, we are sending a message to America's drug dealers: Dealing drugs does not pay. If they are an aspiring drug dealer and believe that they can make a lot of money off of selling drugs, think again. Under this proposal, they will be at great risk of going bankrupt.

I urge support of this legislation.

Mr. Speaker, I reserve the balance of my time.

Mr. BROWN of Ohio. Mr. Speaker, I yield myself 2 minutes.

Mr. Speaker, I am pleased to support the Drug Dealer Liability Act; and I commend its author, my colleague, the gentleman from Iowa (Mr. LATHAM).

H.R. 1042 would subject individuals who participate in illegal drug activity to civil liability. The civil justice system is an important deterrent to unlawful activity and an effective avenue for compensating individuals and organizations harmed by illegal activity.

No illegal activity inflicts more harm than the illegal drug trade. Illegal drugs fuel crime, siphon public and private dollars into prevention and treatment programs. They undercut productive lives. They undermine entire communities. They kill our children.

□ 1545

The criminal justice system is giving the drug problem its primary attention. Its counterpart, the civil justice system, should be brought into the fight.

Individuals who engage in the drug trade should know that they will be held financially liable for the harm they cause. Manufacturers and distributors of these drugs should bear the costs associated with their illegal activity, including the costs of medical treatment or drug rehabilitation. Taxpayers currently bear most of that burden. That is not the way it should be.

This legislation gives us another weapon in the war against drugs. I am pleased to support it.

Mr. LATHAM. Mr. Speaker, I rise today as the sponsor of H.R. 1042, the Drug Dealer Liability Act, to urge your strong support for this important legislation. This is not the first time we have addressed this issue. You may recall the House voted overwhelmingly to add the very provisions included in this legislation to the Juvenile Justice Bill in 1999.

Unfortunately, juvenile crime is a growing trend across the nation. For years, the rural states thought themselves immune from the serious juvenile crime and drug problems on America's coasts and in the big cities. However, this is no longer the case.

In fact, nowhere is the juvenile crime problem growing faster than in America's heartland. This is, of course, directly related to the incredible growth in drug use. According to the U.S. Department of Justice's latest statistics, juvenile drug arrests across the nation have more than doubled since 1988. My home state of Iowa is experiencing an unprecedented influx of methamphetamine. In calendar year 1999, there were over 300 federal methamphetamine lab seizures in the State of Iowa. State law enforcement personnel seized an additional 500 labs during that same time.

Clearly, our children are the most innocent and vulnerable of those affected by illegal drug use. The very nature of drug abuse makes this an epidemic that has severe monetary costs as well, creating significant financial challenges for parents, law enforcement and human services providers. For many of

the juvenile addicts, who are increasingly female, the only hope is extensive medical and psychological treatment, physical therapy, or special education.

All of these potential remedies are expensive. In fact, recent figures estimate the annual cost of substance in the United States to be nearly $100 billion. Juveniles, through their parents or through court appointed guardians, should be able to recover damages from those in the community who have entered and participated in the sale of the types of illegal drugs that have caused their injuries.

The legislation I am offering today would provide a civil remedy for people harmed by drugs—whether it be the actual user, the family of a user or even the hospital that provides treatment—to hold drug dealers accountable for selling this poison that is tearing apart the fabric of our society. There are drug pushers in all of our congressional districts who profit from this culture of death, pain and dependency that must be taken to task. Many of them elude the authorities by getting off on technicalities or through their position as affluent persons in the community. However, that should not make them immune from paying for the destruction they cause.

This legislation would empower victims to take action like the Utah housewife who sued her husband's drug dealer ''friend'' of six years under that State's drug dealer liability law. Her husband actually shared a vacation cabin with the dealer until, after years of abuse, her husband lost his job and ruined the family. Other states, such as California, Arkansas, Illinois, Michigan, Georgia, Louisiana, Indiana, Hawaii, South Dakota and Oklahoma, and just October 1, Maryland have enacted similar laws.

The first lawsuit brought under a state drug dealer liability law was brought by Wayne County Neighborhood Legal Services on behalf of a drug-addicted baby and its siblings. The suit resulted in a judgment of $1 million in favor of the baby. The City of Detroit joined in on the suit and received a judgment for more than $7 million to provide drug treatment for inmates in the city's jails.

This legislation, while not as comprehensive as those state laws—which incorporate a broad reaching liability—does provide a simple tool to empower victims. In fact, this legislation is perfectly suited to go after the ''white collar'' drug dealers who's clientele includes their professional ''friends'', and who are less likely to be the subject of a criminal investigation. As we all know, parents who abuse drugs are more likely to have children that abuse drugs as well.

It is my hope the prospect of substantial monetary loss made possible my legislation would also act as a deterrent to entering the narcotics market. Dealers pushing their poison on our children and other family members may think again when they consider that they could lose everything even without a criminal conviction. In addition, this legislation would establish an incentive for users to identify and seek payment for their own drug treatment from those dealers who have sold drugs to the user in the past. While this legislation is not meant to be a ''silver bullet'', it is another tool to combat and deter drug abuse and trafficking.

Current law allows for a producer of a product that injures a consumer to be held liable for injuries resulting from the use of that product. However, most states do not provide for compensation from persons who cause injury by intentionally distributing illegal drugs. The Latham Drug Dealer Liability Act fills the gap to make drug dealers liable—under civil law—for the injuries to the victims of drugs.

Finally, I hope that I will be able to work with Chairman MCCOLLUM and the ranking Member, Mr. CONYERS, on a more comprehensive liability measure in the future.

With that, Mr. Speaker, I urge my colleagues to support H.R. 1042, the Drug Dealer Liability Act, and give the victims of illegal drugs an opportunity to hold the dealers of this poison accountable under criminal and civil law.

THE LATHAM DRUG DEALER LIABILITY ACT

According to a joint study by the Center for Substance Abuse Treatment and the University of Maryland, drug abuse cost the United States $98 billion in 1992. The majority of the costs were due to drug-related illnesses, lost productivity, crime and premature death. It's time drug dealers started paying for these costs.

The Latham amendment would be most effective in instances where a dealer has gotten off in criminal court on a technicality. A plaintiff would only need to provide that there is a preponderance of evidence that a defendant was the dealer in a civil case, unlike the much stricter standard in criminal court. The success of this strategy is well demonstrated by the civil case brought against O.J. Simpson by the family of victim Ron Goldman.

The amendment could also prove effective against professionals dealing to their ''friends'' who they share a professional relationship with, such as lawyers, stockbrokers, and other high-income users. People who think our nation's drug problem exists only in the cities and among the poor are way off the mark. The problem is everywhere, as much in small towns in Iowa as it is in America's big cities.

The Latham amendment would even be useful in cases where the dealer has already been convicted. According to a U.S. Supreme Court ruling in June of 1999 (U.S. v. Bajakajian), certain seizures by the government may be ruled unconstitutionally disproportional under the Eight Amendment's excessive fines clause. This could mean that a convicted drug dealer or manufacturer may maintain a portion of their assets and/or property after a government seizure or forfeiture. As an excessive fine is defined in U.S. v. Bakajian, the case sets a Constitutional precedent in this area for the first time. It certainly opens up the excessive fines clause of the Eighth Amendment up for what could be construed as a stricter application.

Basically, the legislation provides a civil vehicle for punishment of drug dealers and for recovery of damages for those injured (directly or indirectly) as a result of an individual's use of a controlled substance.

The parameters of the legislation are intentionally broad to allow as many injured individuals to benefit while creating an increased window of liability for the drug dealer. Therefore, not only would the individual who used the drugs be able to bring about a suit, but so would their parents, employer (for losses resulting from the employee's drug use), health care providers, and even governmental entities. In fact, a suit could be filed on behalf of a drug baby (in utero liability) or by that child once they reach the age of 18.

STATES WHO HAVE PASSED SIMILAR LAWS

Hawaii, Indiana, Michigan, Utah, Illinois, California, Arkansas, Oklahoma, Georgia, Louisiana, Kansas, South Dakota, and Maryland.

EXAMPLES OF SETTLEMENTS IN STATE CASES

First lawsuit under the act (July 21, 1995) resulted in a judgment of $1 million in favor of a drug baby, as well as more than $7 million to the City of Detroit for drug treatment expenses for inmates in the city's jails. The suit was filed by attorneys from Wayne County Neighborhood Legal Services on behalf of the drug baby and its siblings.

A case was settled in Utah in which the wife of a drug abuser brought a case against her husband's dealer of six years under the Utah DDLA law.

MAKING IT A FEDERAL CASE

This legislation, intended to extend the drug dealer liability to the Federal level, would establish a vehicle for persons in the 38 states that have not enacted a similar law (and to those in the twelve states listed above if the Federal law is preferable). However, the amendment would only allow an individual who used drugs to recover damages if they worked with authorities to provide information on all of that individual's narcotics sources.

The Latham amendment is different from the Drug Dealer Liability Act laws in these states in that it only extends liability to persons who are found to have knowingly provided or manufactured the drugs that harmed the individual or party filing the suit. The state laws are based on a broad market liability standard that holds dealers liable based on the premise that a dealer is involved in the illegal drug trade in a particular area and so is directly or indirectly involved in the promotion of the illegal drugs that harmed the plaintiff.

The Latham amendment fills a void in two ways: (1) it provides compensation for the victims of crime, and (2) it holds the drug dealers accountable that escape criminal punishment—whether it be as a result of getting off on a technicality or because a person may deal to a ''behind the scenes'' white collar crowd as opposed to the more conspicuous street gangs. Those ''high dollar'' dealers are less likely to be apprehended by law enforcement—why should they get off scot-free? Like the wife in Utah, more family members may be willing to take matters into their own hands and go after those who deal this poison to our children and other loved ones.

Mr. BROWN of Ohio. Mr. Speaker, I yield back the balance of my time.

Mr. BILIRAKIS. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore (Mr. GIBBONS). The question is on the motion offered by the gentleman from Florida (Mr. BILIRAKIS) that the House suspend the rules and pass the bill, H.R. 1042.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the bill was passed.

A motion to reconsider was laid on the table.

SUPPORTING INTERNET SAFETY AWARENESS

Mr. BILIRAKIS. Mr. Speaker, I move to suspend the rules and agree to the

resolution (H. Res. 575) supporting Internet safety awareness, as amended.

The Clerk read as follows:

H. RES. 575

Whereas the Internet provides citizens of the United States with the technology for research, education, entertainment, and communication;

Whereas millions of Americans, many school libraries and classrooms, and many public libraries are connected to the Internet;

Whereas more than 1 out of 5 missing 15- to 17-year-old teenagers have disappeared because of someone they met while chatting on the Internet;

Whereas there are an estimated 10,000 Internet websites designed for or by individuals who have a sexual preference for children;

Whereas there are an estimated 200 million pages of pornography, hate, violence, and abuse on the Internet;

Whereas there are multitudes of strangers who use the Internet to enter homes, talk to and ''groom'' children, and will take indecent advantages of those children if given a chance;

Whereas children have been raped, assaulted, kidnapped, and deprived of their innocence by individuals they met on the Internet; and

Whereas September 2000 is Internet Safety Awareness Month: Now, therefore, be it

Resolved, That the House of Representatives—

(1) urges the citizens of the United States to recognize and support educational programs that make surfing on the Internet safe and fun;

(2) supports initiatives to educate parents, children, educators, and community leaders about the enormous possibilities and the potential dangers of the Internet;

(3) urges all Americans to become informed about the Internet and to support proactive efforts that will provide Internet safety for children and for future generations to come; and

(4) expresses the sincere appreciation of the House of Representatives for the thousands of law enforcement officials who are aggressively working to protect America's children while they are online.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Florida (Mr. BILIRAKIS) and the gentleman from Massachusetts (Mr. MARKEY) each will control 20 minutes.

The Chair recognizes the gentleman from Florida (Mr. BILIRAKIS).

GENERAL LEAVE

Mr. BILIRAKIS. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks on this legislation and to insert extraneous material on the resolution.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Florida?

There was no objection.

Mr. BILIRAKIS. Mr. Speaker, I yield such time as he may consume to the gentleman from Virginia (Mr. GOODE).

Mr. GOODE. Mr. Speaker, I rise in support of H. Res. 575, a resolution to promote Internet safety awareness. As more and more Americans are utilizing the Internet and many children in this country have access to the Internet, it is important that we raise awareness to the dangers that the Internet can pose, especially to children.

As this resolution reflects, the National Center for Missing and Exploited Children estimates that one out of five missing 15-, 16- and 17-year-olds in America are due to Internet activity. There are many predators that use the Internet to make contact and gain information on unsuspecting children. Children have been raped, assaulted and kidnapped by individuals they met on the Internet.

In Bedford County, Virginia, a county that I represent along with the gentleman from Virginia (Mr. GOODLATTE), we are proud of the diligent work that Sheriff Mike Brown and his office have done to combat Internet predators. Developing a nationally recognized program called Operation Blue Ridge Thunder, Sheriff Brown and his office have targeted pedophiles that use the Internet to reach children. While law enforcement officials in Bedford County, Virginia and elsewhere have been successful in apprehending on-line predators, there is no substitute for having parents and children that are aware and educated on the dangers that exist on the Internet and how to keep children safe from online predators. With the aid of grants from the U.S. Department of Justice, the Bedford County sheriff's office has also conducted Internet safety programs dubbed Safe Surfin' in the local schools. They hope to make children aware of the dangers and teach them how to surf the Internet safely.

I want to commend many of my colleagues who attended the demonstration here in the Capitol in September of 1999 on Operation Blue Ridge Thunder that was provided by the Bedford County sheriff's office. The demonstration showed the extensive presence of pedophiles and predators online and illustrated the importance and necessity of Internet safety awareness and education.

The Commonwealth of Virginia recognized September as Internet Child Safety Awareness Month and has run public service announcements on television and radio warning parents of the dangers that exist on the Internet. I commend the Commonwealth for its proactive role in promoting Internet safety, and I hope that my colleagues will join me in passing this resolution raising awareness to the dangers of the Internet and supporting efforts to educate parents and children on the safe use of the Internet.

Mr. MARKEY. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise to congratulate the authors of this very well thought out House resolution. As we move deeper and deeper into the Internet era, we reach the Dickensian conclusion that it is the best of wires and it is the worst of wires simultaneously, that it has the ability to enable and to ennoble but it also has the ability to degrade and to debase. It is this duality of personality that we are talking about here today.

This resolution is one that basically urges all citizens of the country, parents and educators, librarians, law enforcement officials, everyone in our society to take a more active role in supporting educational programs that help to make Internet surfing safe for young people in our country and to generally support all of the programs in our country that promote Internet safety.

It is a straightforward, common sense resolution. The gentleman from Texas (Mr. GREEN), a good Democratic Member, added language to this bill which also commends the law enforcement community for everything that they are doing to help to promote an environment in which children are not exploited online. We all know that we have a child online privacy act that protects children 12 and under in terms of their privacy as they use commercial online sites, but we do not have any laws protecting anyone over the age of 12. And we cannot really say honestly that a 13-, a 14-, a 15-, a 16-year-old is not in need of legal protection as well. I think that the next Congress is going to be addressing those issues.

But generally speaking, I think that since these children are in a situation with a new technology, in many instances with more knowledge than their parents have, then it is critical for us to continue to reemphasize how important it is that we increase these educational programs so that the children of the country derive all of the positive benefits from the new technology while minimizing this unfortunate side effect which all too often is insinuating itself into the homes of families all across the country. I commend the authors of this resolution.

Mr. Speaker, I reserve the balance of my time.

Mr. BILIRAKIS. Mr. Speaker, I ask unanimous consent that the gentleman from Ohio (Mr. OXLEY) be permitted to control the remainder of my time for the consideration of this legislation.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Florida?

There was no objection.

Mr. OXLEY. Mr. Speaker, I am pleased to yield 5 minutes to the gentleman from Virginia (Mr. GOODLATTE), the coauthor of the legislation.

Mr. GOODLATTE. Mr. Speaker, I thank the gentleman for yielding me this time and I thank him and the other members of the Committee on Commerce for shepherding this legislation through the committee, but I most especially want to thank the gentleman from Virginia (Mr. GOODE), the author of this legislation, who, as a

member of the Congressional Internet Caucus, has been working very hard to combat this serious problem on the Internet and for identifying the need for this resolution and working to get it through the House this year.

The Internet Caucus has been very involved in the issue of Internet safety, both from a law enforcement and a prevention perspective. With the help of the gentleman from Virginia (Mr. GOODE), the Congress hosted a briefing last fall on online sexual predators to present to Members of Congress the nature of this problem. Bedford County Sheriff Mike Brown and Commonwealth Attorney Randy Krantz demonstrated Operation Blue Ridge Thunder, which works to apprehend and prosecute sexual predators and traffickers of child pornography on the Internet.

Child pornographers and sexual predators online are an enormous problem for law enforcement agencies. Pedophiles currently operate more than 10,000 Web sites and more than 300,000 children are now involved in the illegal sex trade. This event was held to assist Members of Congress in examining how law enforcement agencies are fighting child pornography and sexual predators and exploring ways to improve efforts to address this growing national problem.

Operation Blue Ridge Thunder is one of a handful of agencies nationwide to receive a Justice Department grant to surf online chat rooms for pedophiles. The success of these agencies has been significant, and, in response, over 125 Republican and Democratic Members joined together this year to request a significant increase to $10 million in funding from House appropriators to help local law enforcement programs like Operation Blue Ridge Thunder and other similar programs to continue their vital work at ridding our Nation of people who prey on our most innocent citizens, our children.

We were very pleased to see Operation Blue Ridge Thunder profiled on the CBS–TV program ''48 Hours.'' In the 2 days after the broadcast, the Bedford sheriff's department logged more than 1,000 calls in support of what Operation Blue Ridge Thunder is doing. Only three calls criticized what is being done. This is vivid proof that the American public appreciates the work being done by the Federal Bureau of Investigation and local law enforcement programs like Operation Blue Ridge Thunder.

We cannot rest until each and every person who wishes to harm our children with deviant behavior is arrested and prosecuted. We intend on continuing to support the efforts of organizations like Operation Blue Ridge Thunder in this regard.

In addition to supporting law enforcement efforts, the Internet Caucus has also been very involved with prevention in the form of a program called GetNetWise. Last year, in response to a challenge from Congress, leading Internet companies, nonprofit organizations, and child safety experts created GetNetWise, an Internet resource to help parents and caregivers protect children online from unwanted contact and content.

GetNetWise, which can be found at www.getnetwise.org, is an innovative and easy-to-use resource that responds to the concerns of parents and caregivers. GetNetWise provides parents and caregivers with the online resources necessary to protect children. Thus, authority to control access to materials on the Internet remains with each family. In its first year, more than 1,800,000 unique Web users visited the GetNetWise user empowerment resources over 5 million times. Not only are we encouraging folks at home to check out GetNetWise, but Members of Congress are also being encouraged to link their websites to GetNetWise to help get the information to parents and children in their districts.

This legislation calling the importance of this problem to the attention of the American people is very valuable. I again commend the gentleman from Virginia (Mr. GOODE) for his leadership on this issue and urge my colleagues to support this resolution.

Mr. MARKEY. Mr. Speaker, I yield myself such time as I may consume.

There is unanimous agreement on the Democratic side that this is a very good resolution. It is something that does, in fact, capture the sense of the Congress and the American people that more has to be done in order to ensure that these kinds of predatory practices do not endanger the children of the country. My hope is that in the next Congress, we can actually begin to pass concrete legislation that can ensure that we do more to protect the privacy of all children within our country, especially those that are still left unprotected because they are over the age of 12. I thank all who were involved, the gentleman from Virginia (Mr. GOODLATTE), the gentleman from Virginia (Mr. GOODE), and all on our side as well.

Mr. Speaker, I yield back the balance of my time.

Mr. OXLEY. Mr. Speaker, I yield 2 minutes to the gentleman from Louisiana (Mr. TAUZIN).

Mr. TAUZIN. Mr. Speaker, H. Res. 575 is pretty straightforward. It is indeed a good resolution, introduced by the gentleman from Virginia (Mr. GOODE) and it is designed literally to improve Internet safety awareness.

As we have seen in the last few years, the Internet provides, of course, a great new array of opportunities for all of our citizens.

□ 1600

From buying gifts online to witnessing the miracles of telemedicine, to helping to educate children across our country, I think Americans are coming to know and understand the important value of the Internet. The popularity of the Internet is increasing. People are using it on a daily basis across this great country, and they are beginning to understand that it holds new and exciting possibilities for their children.

Unfortunately, it is also a technology that can be used by the wrong people sometimes, and criminals indeed are looking at it as a new place to take advantage of some Americans. Some people are using it, in fact, in harmful ways to spread destructive material or to aid in criminal activity. There is a spread of obscene material, child pornography, child exploitation as the use of the Internet has increased. Every day crimes in the analogue world are being diverted now to the Internet where the reach of such crimes is, like other things, greatly multiplied.

Over the years, the law enforcement communities have been called upon to improve their enforcement of the current law. They have also been asked to tell Congress where current law needs to change in order to reflect these new technologies. We acknowledge, indeed, the hard work of these agencies; but we know that much work needs to be done.

H. Res. 575 will not stop criminal activity. It will not protect our citizens from sinister behavior, but it does take this important step: it brings to light the relevant issues facing Internet usage, and hopefully it will help educate the American people of the need to be watchful of Internet activity, especially as it affects our Nation's children.

We have an obligation, indeed, to educate the American people about existing problems of Internet use. This resolution will help. It is an extremely important one, and I urge all Members to support it.

Mr. OXLEY. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I will just sum up briefly with our congratulations to the author of the legislation, the gentleman from Virginia (Mr. GOODLATTE). As the other speakers have said, the Internet provides a great upside opportunity for education, entertainment and the like, but it certainly has its dark side as well. Those of us who worked on the Child Online Protection Act understand how difficult some of these circumstances can be with children having access to some of this terrible material.

While the Child Online Protection Act, which passed virtually unanimously in the 105th Congress, is now undergoing judicial review, whether in fact we are successful or not ultimately in getting that legislation to be considered constitutional the real issue is how do we deal in the meantime with

educating our children to the potential dangers of the Internet. That is why this legislation has such importance, has such broad-based support from both sides of the aisle.

So that is why it is important that we pass this legislation today.

Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore (Mr. GIBBONS). The question is on the motion offered by the gentleman from Ohio (Mr. OXLEY) that the House suspend the rules and agree to the resolution, H. Res. 575, as amended.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the resolution, as amended, was agreed to.

A motion to reconsider was laid on the table.

ESTABLISHING A STANDARD TIME ZONE FOR GUAM AND THE MARIANA ISLANDS

Mr. OXLEY. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 3756) to establish a standard time zone for Guam and the Commonwealth of the Northern Mariana Islands, and for other purposes.

The Clerk read as follows:

H.R. 3756

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. TIME ZONE ESTABLISHED.

(a) IN GENERAL.—The first section of the Act of March 19, 1918 (15 U.S.C. 261; commonly known as the Calder Act) is amended—

(1) in the first sentence, by striking ''eight zones'' and inserting ''nine zones''; and

(2) in the second sentence—

(A) by striking ''; and that of the eighth'' and inserting ''; that of the eighth''; and

(B) by inserting before the period the following: ''; and that of the ninth zone on the one hundred and fiftieth meridian of longitude east from Greenwich.''.

(b) NAME OF ZONE.—Section 4 of the Act of March 19, 1918 (15 U.S.C. 263; commonly known as the Calder Act) is amended—

(1) by striking ''and that of the eighth'' and inserting ''that of the eighth''; and

(2) by inserting before the period the following: ''; and that of the ninth zone shall be known as Chamorro standard time''.

(c) DAYLIGHT SAVINGS TIME.—Section 7 of the Uniform Time Act of 1966 (15 U.S.C. 267) is amended by inserting ''Guam, the Commonwealth of the Northern Mariana Islands,'' after ''Puerto Rico,''.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Ohio (Mr. OXLEY) and the gentleman from New York (Mr. TOWNS) each will control 20 minutes.

The Chair recognizes the gentleman from Ohio (Mr. OXLEY).

GENERAL LEAVE

Mr. OXLEY. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks and insert extraneous material on H.R. 3756.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Ohio?

There was no objection.

Mr. OXLEY. Mr. Speaker, I yield myself 1 minute.

Mr. Speaker, this bill is simple and straightforward. The legislation establishes a separate time zone for Guam and the Northern Mariana Islands by increasing the number of standard time zones in the United States from 8 to 9. This new time zone will be known as the Chamorro time zone and will be required to observe daylight savings time.

The gentleman from Guam (Mr. UNDERWOOD) deserves praise for his tenacity on this issue. It is a simple measure without controversy, and I urge all of my colleagues to support it.

Mr. Speaker, I reserve the balance of my time.

Mr. TOWNS. Mr. Speaker, I yield myself 2 minutes.

Mr. Speaker, let me convey how pleased I am to support this legislation. The bill corrects current law by recognizing that there is a ninth time zone in the United States, namely the time zone followed by the people of Guam and the Northern Marianas.

My colleague, the gentleman from Guam (Mr. UNDERWOOD), I want to salute him today, has corrected this oversight with this bill and has also given the time zone a name, Chamorro standard time.

Chamorro refers to the indigenous people of the area, and I salute my colleague for his creativity by choosing the name Chamorro. The time zone will honor the historic unity of Guam and the Commonwealth of the Marianas and the people who live in the region.

I congratulate the gentleman from Guam (Mr. UNDERWOOD) for his work on this bill; and, of course, I congratulate his staff and all the staff members that have been involved in this.

Mr. Speaker, I reserve the balance of my time.

Mr. OXLEY. Mr. Speaker, I continue to reserve the balance of my time.

Mr. TOWNS. Mr. Speaker, I yield 3 minutes to the gentleman from Guam (Mr. UNDERWOOD).

Mr. UNDERWOOD. Mr. Speaker, I thank the gentleman from New York (Mr. TOWNS) for yielding me this time.

Mr. Speaker, I urge my colleagues to support H.R. 3756, a bill to name the ninth time zone under U.S. jurisdiction for Guam and the Commonwealth of the Northern Mariana Islands.

I would also like to take this time to thank my distinguished colleagues who have worked to get this bill to the floor: the gentleman from Virginia (Mr. BLILEY), the gentleman from Michigan (Mr. DINGELL), the gentleman from Ohio (Mr. OXLEY), the gentleman from New York (Mr. TOWNS), the gentleman from Michigan (Mr. CAMP), chairman of the Corrections Day Advisory Committee, and the gentleman from California (Mr. WAXMAN), ranking member of that same committee.

Wherever the U.S. flag flies, there is a title for each time zone in which it flies, whether it is in the Virgin Islands and Puerto Rico with its Atlantic time zone; this city, with its eastern time zone; Chicago, with central time; Denver, with mountain time; Los Angeles, with Pacific time; Honolulu, with Hawaii standard time; Anchorage, with Alaska standard time; and even American Samoa, with Samoa standard time. But there is a ninth time zone where Guam sits and the Commonwealth of the Northern Mariana Islands sits as well; and where there is no official title for this time zone. Not that there is no time there, obviously, but that there is no specific title for this time zone.

Perhaps this is an oversight. The fact that this ninth time zone is on the other side of the international dateline and could appropriately claim the title of being the first American time zone, could get the competitive spirits of those in the Atlantic time zone aroused. But when information is being sent out about changes in national time or announcements concerning time, this ninth time zone, in geography going west but first in terms of time, frequently gets ignored.

After all, the Calder Act, which provides for the designation of names of time zones under U.S. jurisdiction, only names eight time zones.

This bill fills the void of the ninth time zone under U.S. jurisdiction, corrects this oversight, and appropriately designates each and every American time zone.

The unique feature of this particular piece of legislation is that it is responsive to a quandary that does not quite exist in the other time zones. We have two jurisdictions with two distinct names. We could call it the Guam time zone, the Guam/Marianas time zone, but I think over time Marianas would be dropped, or we could call it the Marianas time zone, but that would put out of focus Guam.

Therefore, in honor of the historical unity of both Guam and the Northern Marianas and the people who were the original inhabitants of the entire island chain, I have named this new time zone as Chamorro standard time. The term ''Chamorro'' refers to the indigenous people of Guam and the Northern Mariana Islands and forms the basis of the underlying historical and cultural connection between the people of Guam and the people of Luta, Tinian, Saipan, Agrigan, and other islands in the Northern Marianas.

Mr. Speaker, the administration supports H.R. 3756, and I urge my colleagues to support this important legislation as well. Esta oran Chamorro.

Mr. OXLEY. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. TOWNS. Mr. Speaker, I yield myself 1 minute.

Mr. Speaker, let me again congratulate my colleague for the outstanding work that he has done in terms of creating the ninth time zone. I urge my colleagues to support this.

Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Ohio (Mr. OXLEY) that the House suspend the rules and pass the bill, H.R. 3756.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the bill was passed.

A motion to reconsider was laid on the table.

SUPREME COURT SECURITY ACT OF 2000

Mr. CANADY of Florida. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 5136) to make permanent the authority of the Marshal of the Supreme Court and the Supreme Court Police to provide security beyond the Supreme Court building and grounds.

The Clerk read as follows:

H.R. 5136

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. MAKING PERMANENT CERTAIN POLICING AUTHORITY.

(a) ELIMINATION OF SUNSET PROVISION AND REPORTING REQUIREMENT.—Section 9 of the Act entitled ''An Act relating to the policing of the building and grounds of the Supreme Court of the United States'', approved August 18, 1949 (40 U.S.C. 13n), is amended—

(1) by striking subsection (c); and

(2) by redesignating subsection (d) as subsection (c).

(b) TECHNICAL AMENDMENT.—Section 9 of such Act is further amended in subsection (b) by striking ''are hereby authorized'' and inserting ''is authorized''.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Florida (Mr. CANADY) and the gentleman from Virginia (Mr. SCOTT) each will control 20 minutes.

The Chair recognizes the gentleman from Florida (Mr. CANADY).

GENERAL LEAVE

Mr. CANADY of Florida. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks and include extraneous material on H.R. 5136.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Florida?

There was no objection.

Mr. CANADY of Florida. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in support of H.R. 5136, a bill to make permanent the authority of the Marshal of the Supreme Court and the Supreme Court Police to provide security beyond the Supreme Court building and grounds. The gentleman from Florida (Mr. MCCOLLUM), chairman of the Subcommittee on Crime, introduced H.R. 5136 at the request of the Chief Justice of the United States. It was reported by voice vote from the Committee on the Judiciary on September 20.

The Supreme Court Police is charged with enforcing the law at the Supreme Court building and its grounds, as well as protecting Justices and other Court employees off grounds. This authority rests in the United States Code.

Since 1982, Congress has provided statutory authority for the Supreme Court Police to provide security beyond the Court building and grounds for Justices, Court employees, and official visitors. This authority requires that the Supreme Court annually report to Congress on the cost of such security, and it also contains a sunset clause that would cause this authority to lapse if not renewed.

Since 1986, Congress has extended this off-grounds authority four times, but this authority will automatically terminate on December 29, 2000.

The current authority and jurisdiction of the Supreme Court Police are essential to the force's performance of everyday duties. Today the Supreme Court Police regularly provides security to Justices by transporting and accompanying them to official functions in the Washington, D.C. metropolitan area and occasionally outside it when they or official guests of the Court are traveling on court business.

Some Justices, because of threats to their personal safety, are driven by the police to and from their homes and the Court every day. Additionally, the police protect Court employees going to and from its parking lot, which is located one half block east of the Supreme Court building and off the ground of the Court.

The gentleman from Florida (Mr. MCCOLLUM) and I believe that the Supreme Court Police should continue to provide off-ground security to protect the Justices and guests of the Court. Given the fact that the Court's police force is well trained and has an excellent performance record, I think it appropriate that we respond in the affirmative to the Chief Justice's request and make the authority to provide off-ground security permanent.

H.R. 5136 would also eliminate the Court's annual reporting requirement to Congress detailing the administrative cost associated with such protection. This cost has been very modest in the past and is fully detailed each year in the court's annual budget request to Congress.

Finally, H.R. 5136 would also repeal the ministerial requirement that the Chief Justice authorize in writing armed protection for official guests of the Supreme Court when they are traveling in the United States but outside of the Washington, D.C. metropolitan area.

Mr. Speaker, I urge all of my colleagues to support this important and very reasonable legislation.

Mr. Speaker, I reserve the balance of my time.

Mr. SCOTT. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, as indicated by my colleague, this bill will make permanent the authority of the United States Supreme Court Police to provide security for its Justices, Court employees and official visitors on and off the Supreme Court grounds. The U.S. Supreme Court Police department was first authorized by Congress to carry firearms and protect Court personnel outside the Supreme Court grounds in 1982, and the statutory authority was scheduled to terminate, but Congress has extended such authorization and has done so five additional times. The last extension occurred in October 1996. It is set to expire December 29, 2000.

□ 1615

It is clear that the security concerns that gave rise to the original authorization, including threats of violence against the Justices and the Court, will continue for the foreseeable future.

In addition, I am not aware of any suggestion that they have misused that authority, nor should they not be entitled to such authority on a permanent basis. In fact, the evidence suggests that the Department has discharged its responsibilities in an efficient and cost-effective manner.

For example, the cost of the program has been minimal. The Supreme Court police worked closely with the U.S. Marshal's office to provide security for Supreme Court Justices when they travel outside the Washington, D.C. area. Over the past 4 years, there were 74 requests for that kind of protection beyond the D.C. metropolitan area at a total cost of approximately $17,000, a little more than $4,000 per year.

In light of the continuing security concerns and the Supreme Court police's record of providing appropriate protection over the past 18 years for the Justices, court employees, and official visitors, I support making permanent the Supreme Court police's authority to provide security on and off Supreme Court grounds.

As a result, Mr. Speaker, I urge my colleagues to support the bill.

Mr. Speaker, I yield back the balance of my time.

Mr. CANADY of Florida. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore (Mr. GIBBONS). The question is on the motion offered by the gentleman from Florida (Mr. CANADY) that the House suspend the rules and pass the bill, H.R. 5136.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the bill was passed.

A motion to reconsider was laid on the table.

VISA WAIVER PERMANENT PROGRAM ACT

Mr. SMITH of Texas. Mr. Speaker, I move to suspend the rules and concur in the Senate amendments to the bill (H.R. 3767) to amend the Immigration and Nationality Act to make improvements to, and permanently authorize, the visa waiver pilot program under section 217 of such Act.

The Clerk read as follows:

Senate amendments:

Page 5, line 12, strike out ''2006'' and insert ''2007''.

Page 7, line 11, strike out all after ''(g)'' down to and including ''SYSTEM'' in line 13 and insert ''VISA APPLICATION SOLE METHOD TO DISPUTE DENIAL OF WAIVER BASED ON A GROUND OF INADMISSIBILITY

Page 7, line 13, strike out all after ''alien'' down to and including ''use'' in line 16 and insert'' denied a waiver under the program by reason of a ground of inadmissibility described in section 212(a) that is discovered at the time of the alien's application for the waiver or through the use''.

Page 7, strike out all after line 22 over to and including line 15 on page 8

Page 9, line 6, strike out ''United States);'' and insert ''United States and the existence and effectiveness of its agreements and procedures for extraditing to the United States individuals, including its own nationals, who commit crimes that violate United States law);''.

Page 9, line 11, strike out all after ''Judiciary'' down to and including ''and'' in line 12 and insert ''and the Committee on International Relations of the House of Representatives and the Committee on the Judiciary and the Committee on Foreign Relations''.

Page 10, line 7, strike out ''United States);'' and insert ''United States and the existence and effectiveness of its agreements and procedures for extraditing to the United States individuals, including its own nationals, who commit crimes that violate United States law);''.

Page 10, line 8, after ''determine'' insert '', based upon the evaluation in subclause (I),''.

Page 10, line 14, strike out all after ''ary'' down to and including ''and'' in line 15 and insert ''and the Committee on International Relations of the House of Representatives and the Committee on the Judiciary and the Committee on Foreign Relations''.

Page 10, line 25, strike out all after ''General,'' over to and including ''Register'' in line 3 on page 11 and insert ''in consultation with the Secretary of State''.

Page 12, line 10, strike out ''(C)'' and insert ''(B)''.

Page 13, line 3, after ''ity)'' insert ''on the territory of the program country''.

Page 13, strike out all after line 3 down to and including line 6 and insert:

''(III) a severe breakdown in law and order affecting a significant portion of the program country's territory;

''(IV) a severe economic collapse in the program country; or''.

Page 13, line 8, after ''event'' insert ''in the program country''.

Page 13, line 12, after ''States)'' insert ''and where the country's participation in the program could contribute to that threat''.

Page 13, line 17, after ''General'' insert '', in consultation with the Secretary of State,''.

Page 14, line 7, strike out ''(D)'' and insert ''(C)''.

Page 14, line 12, strike out '', (B), or (C)'' and insert ''or (B)''.

Page 14, line 18, strike out ''a designation''

Page 15, line 11, after ''arrives'' insert ''and departs''.

Page 16, line 25, strike out all after ''RECORD.—'' over to and including ''Senate'' in line 6 on page 17 and insert ''As part of the annual report required to be submitted under section 110(e)(1) of the Illegal Immigration Reform and Immigrant Responsibility Act of 1996, the Attorney General shall include a section''.

Page 17, line 8, after ''year'' insert '', together with an analysis of that information''.

Page 17, line 10, strike out ''October 1'' and insert ''December 31''.

Page 18, after line 2 insert:

''The report required by this clause may be combined with the annual report required to be submitted on that date under section 110(e)(1) of the Illegal Immigration Reform and Immigrant Responsibility Act of 1996.''

Page 19, line 21, after ''name'' insert ''or Service identification number''.

Page 20, strike out all after line 21 over to and including line 4 on page 21 and insert:

''(6) COMPUTATION OF VISA REFUSAL RATES.—For purposes of determining the eligibility of a country to be designated as a program country, the calculation of visa refusal rates shall not include any visa refusals which incorporate any procedures based on, or are otherwise based on, race, sex, or disability, unless otherwise specifically authorized by law or regulation. No court shall have jurisdiction under this paragraph to review any visa refusal, the denial of admission to the United States of any alien by the Attorney General, the Secretary's computation of the visa refusal rate, or the designation or nondesignation of any country.''.

Page 21, after line 4 insert:

''SEC. 207. VISA WAIVER INFORMATION.

''Section 217(c) of the Immigration and Nationality Act (8 U.S.C. 1187(c)), as amended by sections 204(b) and 206 of this Act, is further amended by adding at the end the following:

''(7) VISA WAIVER INFORMATION.—

''(A) IN GENERAL.—In refusing the application of nationals of a program country for United States visas, or the applications of nationals of a country seeking entry into the visa waiver program, a consular officer shall not knowingly or intentionally classify the refusal of the visa under a category that is not included in the calculation of the visa refusal rate only so that the percentage of that country's visa refusals is less than the percentage limitation applicable to qualification for participation in the visa waiver program.

''(B) REPORTING REQUIREMENT.—On May 1 of each year, for each country under consideration for inclusion in the visa waiver program, the Secretary of State shall provide to the appropriate congressional committees—

''(i) the total number of nationals of that country that applied for United States visas in that country during the previous calendar year;

''(ii) the total number of such nationals who received United States visas during the previous calendar year;

''(iii) the total number of such nationals who were refused United States visas during the previous calendar year;

''(iv) the total number of such nationals who were refused United States visas during the previous calendar year under each provision of this Act under which the visas were refused; and

''(v) the number of such nationals that were refused under section 214(b) as a percentage of the visas that were issued to such nationals.

''(C) CERTIFICATION.—Not later than May 1 of each year, the United States chief of mission, acting or permanent, to each country under consideration for inclusion in the visa waiver program shall certify to the appropriate congressional committees that the information described in subparagraph (B) is accurate and provide a copy of that certification to those committees.

''(D) CONSIDERATION OF COUNTRIES IN THE VISA WAIVER PROGRAM.—Upon notification to the Attorney General that a country is under consideration for inclusion in the visa waiver program, the Secretary of State shall provide all of the information described in subparagraph (B) to the Attorney General.

''(E) DEFINITION.—In this paragraph, the term 'appropriate congressional committees' means the Committee on the Judiciary and the Committee on Foreign Relations of the Senate and the Committee on the Judiciary and the Committee on International Relations of the House of Representatives.''.

''TITLE III—IMMIGRATION STATUS OF ALIEN EMPLOYEES OF INTELSAT AFTER PRIVATIZATION

''SEC. 301. MAINTENANCE OF NONIMMIGRANT AND SPECIAL IMMIGRANT STATUS NOTWITHSTANDING INTELSAT PRIVATIZATION.

''(a) OFFICERS AND EMPLOYEES.—

''(1) AFTER PRIVATIZATION.—In the case of an alien who, during the 6-month period ending on the day before the date of privatization, was continuously an officer or employee of INTELSAT, and pursuant to such position continuously maintained, during such period, the status of a lawful nonimmigrant described in section 101(a)(15)(G)(iv) of the Immigration and Nationality Act (8 U.S.C. 1101(a)(15)(G)(iv)), the alien shall be considered as maintaining such nonimmigrant status on and after the date of privatization, but only during the period in which the alien is an officer or employee of INTELSAT or any successor or separated entity of INTELSAT.

''(2) PRECURSORY EMPLOYMENT WITH SUCCESSOR BEFORE PRIVATIZATION COMPLETION.—In the case of an alien who commences service as an officer or employee of a successor or separated entity of INTELSAT before the date of privatization, but after the date of the enactment of the ORBIT Act (Public Law 106–180; 114 Stat. 48) and in anticipation of privatization, if the alien, during the 6-month period ending on the day before such commencement date, was continuously an officer or employee of INTELSAT, and pursuant to such position continuously maintained, during such period, the status of a lawful nonimmigrant described in section 101(a)(15)(G)(iv) of the Immigration and Nationality Act (8 U.S.C. 1101(a)(15)(G)(iv)), the alien shall be considered as maintaining such nonimmigrant status on and after such commencement date, but only during the period in which the alien is an officer or employee of any successor or separated entity of INTELSAT.

''(b) IMMEDIATE FAMILY MEMBERS.—

''(1) ALIENS MAINTAINING STATUS.—

''(A) AFTER PRIVATIZATION.—An alien who, on the day before the date of privatization, was a member of the immediate family of an alien described in subsection (a)(1), and had the status of a lawful nonimmigrant described in section 101(a)(15)(G)(iv) of the Immigration and Nationality Act (8 U.S.C. 1101(a)(15)(G)(iv)) on such day, shall be considered as maintaining such nonimmigrant status on and after the date of privatization, but, only during the period in which the alien described in subsection (a)(1) is an officer or employee of INTELSAT or any successor or separated entity of INTELSAT.

''(B) AFTER PRECURSORY EMPLOYMENT.—An alien who, on the day before a commencement date described in subsection (a)(2), was a member of the immediate family of the commencing alien, and had the status of a lawful nonimmigrant described in section 101(a)(15)(G)(iv) of the Immigration and Nationality Act (8 U.S.C. 1101(a)(15)(G)(iv)) on such day, shall be considered as maintaining such nonimmigrant status on and after such commencement date, but only during the period in which the commencing alien is an officer or employee of any successor or separated entity of INTELSAT.

''(2) ALIENS CHANGING STATUS.—In the case of an alien who is a member of the immediate family of an alien described in paragraph (1) or (2) of subsection (a), the alien may be granted and may maintain status as a nonimmigrant described in section 101(a)(15)(G)(iv) of the Immigration and Nationality Act (8 U.S.C. 1101(a)(15)(G)(iv)) on the same terms as an alien described in subparagraph (A) or (B), respectively, of paragraph (1).

''(c) SPECIAL IMMIGRANTS.—For purposes of section 101(a)(27)(I) (8 U.S.C. 1101(a)(27)(I)) of the Immigration and Nationality Act, the term ''international organization'' includes INTELSAT or any successor or separated entity of INTELSAT.

''SEC. 302. TREATMENT OF EMPLOYMENT FOR PURPOSES OF OBTAINING IMMIGRANT STATUS AS A MULTINATIONAL EXECUTIVE OR MANAGER.

''(a) IN GENERAL.—Notwithstanding section 212(e) of the Immigration and Nationality Act (8 U.S.C. 1182(e)), in the case of an alien described in subsection (b)—

''(1) any services performed by the alien in the United States as an officer or employee of INTELSAT or any successor or separated entity of INTELSAT, and in a capacity that is managerial or executive, shall be considered employment outside the United States by an employer described in section 203(b)(1)(C) of such Act (8 U.S.C. 1153(b)(1)(C)), if the alien has the status of a lawful nonimmigrant described in section 101(a)(15)(G)(iv) of such Act (8 U.S.C. 1101(a)(15)(G)(iv)) during such period of service; and

''(2) the alien shall be considered as seeking to enter the United States in order to continue to render services to the same employer.

''(b) ALIENS DESCRIBED.—An alien described in this subsection is an alien—

''(1) whose nonimmigrant status is maintained pursuant to section 301(a); and

''(2) who seeks adjustment of status after the date of privatization to that of an alien lawfully admitted for permanent residence under section 245 of the Immigration and Nationality Act (8 U.S.C. 1255) based on section 203(b)(1)(C) of such Act (8 U.S.C. 1153(b)(1)(C)) during the period in which the alien is—

''(A) an officer or employee of INTELSAT or any successor or separated entity of INTELSAT; and

''(B) rendering services as such an officer or employee in a capacity that is managerial or executive.

''SEC. 303. DEFINITIONS.

''For purposes of this title—

''(1) the terms ''INTELSAT'', ''separated entity'', and ''successor entity'' shall have the meaning given such terms in the ORBIT Act (Public Law 106–180; 114 Stat. 48);

''(2) the term ''date of privatization'' means the date on which all or substantially all of the then existing assets of INTELSAT are legally transferred to one or more stock corporations or other similar commercial entities; and

''(3) all other terms shall have the meaning given such terms in section 101(a) of the Immigration and Nationality Act (8 U.S.C. 1101(a)).

''TITLE IV—MISCELLANEOUS PROVISIONS

''SEC. 401. AMENDMENT TO SECTION 214 OF THE IMMIGRATION AND NATIONALITY ACT.

''Section 214(c) of the Immigration and Nationality Act (8 U.S.C. 1184(c)) is amended by adding the following new paragraph:

''(10) An amended H–1B petition shall not be required where the petitioning employer is involved in a corporate restructuring, including but not limited to a merger, acquisition, or consolidation, where a new corporate entity succeeds to the interests and obligations of the original petitioning employer and where the terms and conditions of employment remain the same but for the identity of the petitioner.''.

''SEC. 402. THE IMMIGRANT INVESTOR PILOT PROGRAM.

''(a) EXTENSION OF PROGRAM.—Section 610(b) of the Departments of Commerce, Justice, and State, the Judiciary, and Related Agencies Appropriations Act, 1993 (8 U.S.C. 1153 note) is amended by striking ''seven years'' and inserting ''ten years''.

''(b) DETERMINATIONS OF JOB CREATION.—Section 610(c) of such Act is amended by inserting '', improved regional productivity, job creation, or increased domestic capital investment'' after ''increased exports''.

''SEC. 403. PARTICIPATION OF BUSINESS AIRCRAFT IN THE VISA WAIVER PROGRAM.

''(a) ENTRY OF BUSINESS AIRCRAFT.—Section 217(a)(5) of the Immigration and Nationality Act (as redesignated by this Act) is amended by striking all after ''carrier'' and inserting the following: '', including any carrier conducting operations under part 135 of title 14, Code of Federal Regulations, or a noncommercial aircraft that is owned or operated by a domestic corporation conducting operations under part 91 of title 14, Code of Federal Regulations which has entered into an agreement with the Attorney General pursuant to subsection (e). The Attorney General is authorized to require a carrier conducting operations under part 135 of title 14, Code of Federal Regulations, or a domestic corporation conducting operations under part 91 of that title, to give suitable and proper bond, in such reasonable amount and containing such conditions as the Attorney General may deem sufficient to ensure compliance with the indemnification requirements of this section, as a term of such an agreement.''.

''(b) ROUND-TRIP TICKET.—Section 217(a)(8) of the Immigration and Nationality Act (as redesignated by this Act) is amended by inserting ''or the alien is arriving at the port of entry on an aircraft operated under part 135 of title 14, Code of Federal Regulations, or a noncommercial aircraft that is owned or operated by a domestic corporation conducting operations under part 91 of title 14, Code of Federal Regulations'' after ''regulations''.

''(c) AUTOMATED SYSTEM CHECK.—Section 217(a) (8 U.S.C. 1187(a)) of the Immigration and Nationality Act is amended by adding at the end the following: ''Operators of aircraft under part 135 of title 14, Code of Federal Regulations, or operators of noncommercial aircraft that are owned or operated by a domestic corporation conducting operations under part 91 of title 14, Code of Federal Regulations, carrying any alien passenger who will apply for admission under this section shall furnish such information as the Attorney General by regulation shall prescribe as necessary for the identification of any alien passenger being transported and for the enforcement of the immigration laws. Such information shall be electronically transmitted not less than one hour prior to arrival at the port of entry for purposes of checking for inadmissibility using the automated electronic database.''.

''(d) CARRIER AGREEMENT REQUIREMENTS TO INCLUDE BUSINESS AIRCRAFT.—

''(1) IN GENERAL.—Section 217(e) (8 U.S.C. 1187(e)) of the Immigration and Nationality Act is amended—

''(A) by striking ''carrier'' each place it appears and inserting ''carrier (including any carrier conducting operations under part 135 of title 14, Code of Federal Regulations) or a domestic corporation conducting operations under part 91 of that title''; and

''(B) in paragraph (2), by striking ''carrier's failure'' and inserting ''failure by a carrier (including any carrier conducting operations under part 135 of title 14, Code of Federal Regulations) or a domestic corporation conducting operations under part 91 of that title''.

''(2) BUSINESS AIRCRAFT REQUIREMENTS.—Section 217(e) (8 U.S.C. 1187(e)) of the Immigration and Nationality Act is amended by adding at the end the following new paragraph:

''(3) BUSINESS AIRCRAFT REQUIREMENTS.—

''(A) IN GENERAL.—For purposes of this section, a domestic corporation conducting operations under part 91 of title 14, Code of Federal Regulations that owns or operates a noncommercial aircraft is a corporation that is organized under the laws of any of the States of the United States or the District of Columbia and is accredited by or a member of a national organization that sets business aviation standards. The Attorney General shall prescribe by regulation the provision of such information as the Attorney General deems necessary to identify the domestic corporation, its officers, employees, shareholders, its place of business, and its business activities.

''(B) COLLECTIONS.—In addition to any other fee authorized by law, the Attorney General is authorized to charge and collect, on a periodic basis, an amount from each domestic corporation conducting operations under part 91 of title 14, Code of Federal Regulations, for nonimmigrant visa waiver admissions on noncommercial aircraft owned or operated by such domestic corporation equal to the total amount of fees assessed for issuance of nonimmigrant visa waiver arrival/departure forms at land border ports of entry. All fees collected under this paragraph shall be deposited into the Immigration User Fee Account established under section 286(h).''.

''(e) REPORT REQUIRED.—Not later than two years after the date of enactment of this Act, the Attorney General shall submit a report to the Committees on the Judiciary of

the House of Representatives and the Senate assessing the effectiveness of the program implemented under the amendments made by this section for simplifying the admission of business travelers from visa waiver program countries and compliance with the Immigration and Nationality Act by such travelers under that program.

SEC. 404. MORE EFFICIENT COLLECTION OF INFORMATION FEE.

''Section 641(e) of the Illegal Immigration Reform and Immigrant Responsibility Act of 1996 (division C of Public Law 104–208) is amended—

''(1) in paragraph (1)—

''(A) by striking ''an approved institution of higher education and a designated exchange visitor program'' and inserting ''the Attorney General'';

''(B) by striking ''the time—'' and inserting the following: ''a time prior to the alien being classified under subparagraph (F), (J), or (M) of section 101(a)(15) of the Immigration and Nationality Act.''; and

''(C) by striking subparagraphs (A) and (B);

''(2) by amending paragraph (2) to read as follows:

''(2) REMITTANCE.—The fees collected under paragraph (1) shall be remitted by the alien pursuant to a schedule established by the Attorney General for immediate deposit and availability as described under section 286(m) of the Immigration and Nationality Act.'';

''(3) in paragraph (3)—

''(A) by striking ''has'' the first place it appears and inserting ''seeks''; and

''(B) by striking ''has'' the second place it appears and inserting ''seeks to'';

''(4) in paragraph (4)—

''(A) by inserting before the period at the end of the second sentence of subparagraph (A) the following: '', except that, in the case of an alien admitted under section 101(a)(15)(J) of the Immigration and Nationality Act as an au pair, camp counselor, or participant in a summer work travel program, the fee shall not exceed $40''; and

''(B) by adding at the end of subparagraph (B) the following new sentence: ''Such expenses include, but are not necessarily limited to, those incurred by the Secretary of State in connection with the program under subsection (a).''; and

''(5) by adding at the end the following new paragraphs:

''(5) PROOF OF PAYMENT.—The alien shall present proof of payment of the fee before the granting of—

''(A) a visa under section 222 of the Immigration and Nationality Act or, in the case of an alien who is exempt from the visa requirement described in section 212(d)(4) of the Immigration and Nationality Act, admission to the United States; or

''(B) change of nonimmigrant classification under section 248 of the Immigration and Nationality Act to a classification described in paragraph (3).

''(6) IMPLEMENTATION.—The provisions of section 553 of title 5, United States Code (relating to rule-making) shall not apply to the extent the Attorney General determines necessary to ensure the expeditious, initial implementation of this section.''.

''SEC. 405. NEW TIME-FRAME FOR IMPLEMENTATION OF DATA COLLECTION PROGRAM.

''Section 641(g)(1) of the Illegal Immigration Reform and Immigrant Responsibility Act of 1996 (division C of Public Law 104–208) is amended to read as follows:

''(1) EXPANSION OF PROGRAM.—Not later than 12 months after the submission of the report required by subsection (f), the Attorney General, in consultation with the Secretary of State and the Secretary of Education, shall commence expansion of the program to cover the nationals of all countries.''.

''SEC. 406. TECHNICAL AMENDMENTS.

''Section 641 of the Illegal Immigration Reform and Immigrant Responsibility Act of 1996 (division C of Public Law 104–208) is amended—

''(1) in subsection (h)(2)(A), by striking ''Director of the United States Information Agency'' and inserting ''Secretary of State''; and

''(2) in subsection (d)(1), by inserting ''institutions of higher education or exchange visitor programs'' after ''by''.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Texas (Mr. SMITH) and the gentlewoman from Texas (Ms. JACKSON-LEE) each will control 20 minutes.

The Chair recognizes the gentleman from Texas (Mr. SMITH).

GENERAL LEAVE

Mr. SMITH of Texas. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks and include extraneous matter on the legislation under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Texas?

There was no objection.

Mr. SMITH of Texas. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, the visa waiver pilot program allows aliens traveling from certain designated countries to come to the United States as temporary visitors for business or pleasure without having to obtain the nonimmigrant visa normally required to enter the United States. There are currently 29 countries participating in this program.

H.R. 3767 is a bipartisan bill. It was passed unanimously by the Subcommittee on Immigration and Claims in the Committee on the Judiciary. The Senate modifications to the House-passed language were worked out on a bipartisan basis with the Committee on the Judiciary.

Since its initial enactment as a temporary program in 1986, the Visa Waiver Pilot Program has been regularly extended by Congress. However, the latest extension expired on April 30.

Fourteen years is a long time for a pilot program. H.R. 3767, The Visa Waiver Permanent Program Act, makes the visa waiver program more secure and by ending the need to periodically reauthorize it, makes the program.

H.R. 3767 is a bipartisan bill. It was passed unanimously by the Subcommittee on Immigration and Claims and the Judiciary Committee. The Senate modifications to the House-passed language were worked out on a bipartisan basis with the Judiciary Committee.

The tourism and travel industry strongly supports this legislation. Visa-free travel under the program has stimulated tourism in the United States from participating countries. More than 17 million visitors enter the United States under the Visa Waiver Program each year. A permanent program will be a long term benefit to the tourism industry and remove the uncertainty caused by the periodic expiration of the program.

A permanent program should not be authorized if the program poses a threat to the safety and well-being of the United States or allows large numbers of aliens to use the program to circumvent immigration laws. Thus, H.R. 3767 contains several provisions that are needed to strengthen the program.

First, the current requirement that participating countries have a machine readable passport has been strengthened by establishing a date certain for all countries in the program to implement a machine readable passport.

Second, H.R. 3767 requires the INS to develop a fully automated system for tracking the entry and departure of visa waiver travelers entering by air and sea.

Third, H.R. 3767 establishes procedures for periodic reviews of countries already in the program and for suspending a country's participation in the program during emergency situations such as war, economic collapse, or a breakdown in law and order. Such procedures ensure that a permanent visa waiver program does not pose a threat to the law enforcement and security interests of the United States.

Finally, H.R. 3767 requires the INS and the Department of State to upgrade their automated lookout systems for screening visa waiver travelers.

H.R. 3767, as passed by the Senate, includes a number of new provisions that are agreeable to the Judiciary Committee. The first two modify the visa waiver program. The first would allow corporate aircraft to utilize the visa waiver program under the same conditions and with the same safeguards as may commercial air carriers. This provision will facilitate travel for those large number American businesses utilizing non-commercial air transport and will promote the economic health of the business aviation industry.

The second new measure requires the Secretary of State to provide Congress with information regarding countries under consideration for inclusion in the visa waiver program. It requires that visa refusal data not be manipulated by consular officers so as to favor a country's qualification for the visa waiver program.

The bill also includes new provisions not relating to the visa waiver program. The first deals with the immigration law consequences of the privatization of INTELSAT, the International Telecommunications Satellite Organization.

Prior to privatization, foreign INTELSAT employees in the United States received ''G–4'' nonimmigrant visas which are available to officers and employees (and their family members) of international organizations. Such employees (and their family members) are eligible for permanent residence upon retirement (and under certain other circumstances) pursuant to the special immigrant visa program.

Without legislative action, INTELSAT's foreign employees would be forced to leave the United States upon the entity's privatization.

The bill provides that foreign employees (and their family members) who worked for INTELSAT in the United States for at least 6 months prior to privatization can continue to use their G–4 visas for as long as they work for INTELSAT or a successor or separated entity. The bill further provides that these foreign employees (and their families) can continue to make use of the special immigrant visa program despite INTELSAT's privatization.

Finally, the bill provides that those qualifying foreign employees of INTELSAT who work in a managerial or executive capacity may seek permanent residence under the multinational executive and manager green card program.

The bill extends the length of the regional center pilot program of the employment creation immigrant visa program through October 1, 2003. This pilot program sets aside 3,000 visas a year for aliens investing in regional centers that promote economic growth. Under the pilot as amended by this bill, qualifying regional centers may create jobs indirectly through revenues generated from increased exports, improved regional productivity, job creation, or increased domestic capital investment.

The bill modifies the program set up under the Illegal Immigration Reform and Immigrant Responsibility Act of 1996 to collect information on alien post-secondary students and exchange visitors. In 1995, the Immigration and Naturalization Service issued a report which found that ''Americans have a fundamental, basic expectation that their Government is effectively monitoring and controlling foreign students. . . . Because there have been high profile instances where terrorists and criminal aliens have been linked to student visas, there is a growing degree of public concern about this issue.''

Section 641 of IIRIRA required the implementation (first as a pilot program) of a system which would collect electronically information from schools on foreign students including identity and address, current academic status and any disciplinary action taken by a school against a student as a result of the commission of a crime. The system is soon to go into effect nationwide.

This bill clarifies that the fee funding this program shall be collected by the Attorney General prior to the issuance of a visa, and not by the institution of higher education or exchange visitor program when the alien registers or first commences activities.

In addition, the bill provides that aliens subject to the program who are admitted under ''J'' exchange visas as au pairs, camp counselors, or participants in summer work travel programs shall pay a fee of no more than $40.

Finally, the bill provides that employers utilizing the H–1B program do not have to file amended petitions for alien workers as a result of their being involved in corporate restructurings, including but not limited to mergers, acquisitions, or consolidations, where new corporate entities succeed to the interest and obligations of the original employers and where the terms and conditions of employment remain the same.

I urge my colleagues to vote for the Visa Waiver Permanent Program Act.

Mr. Speaker, I reserve the balance of my time.

Ms. JACKSON-LEE of Texas. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, let me add my appreciation to the chairman of the subcommittee, and, as well, to all of those who worked to move this legislation along.

Mr. Speaker, I support H.R. 3767. It is an important vehicle to improve the ability for tourism in the United States. Many entities worked to ensure that the visa waiver program became permanent.

This is, of course, to allow short-term visitors to travel to the United States without having to obtain a non-immigrant visa, thereby encouraging and facilitating international tourism to the United States. This will help all of our States, and particularly my State of Texas, that ranks number four in the Nation in overall visitor spending and travel.

Mr. Speaker, let me conclude by simply saying that I would hope that we would have the opportunity to look at countries in the continent of Africa, particularly South Africa, to include in this program, and that this program will continue to grow in a positive way so we can continue to have the important exchange that is so very important in the United States of America to promote cooperation and exchange.

Mr. FARR of California. Mr. Speaker, as co-chair of the House Travel and Tourism Caucus, I express my strong support for passage of the Visa Waiver Permanent Program Act (H.R. 3767) to permanently reauthorize the Visa Waiver Pilot Program.

The Visa Waiver Program facilitates and streamlines international travel by allowing visitors from 29 low-risk countries to enter the U.S. visa-free for up to 90 days. A permanent program will encourage international travel to the United States at a time when we should be promoting the U.S. travel and tourism industry. As the fastest growing industry in the United States, the third-largest retail industry, and one of the Nation's largest employers, tourism is one of our most vibrant economic industries.

More than 46 million international visitors come to the United States each year, and the numbers keep on increasing. These tourists spend more than $90 billion in the United States, supporting directly and indirectly 16.9 million American jobs, and creating a tourism trade surplus of $14.2 billion. More than 94 percent of these jobs are created by small businesses located in communities in every corner of the United States. In fact, the travel industry provides jobs for more than 800,000 people in California and 20,000 in my district alone. As the second largest economic engine on the central coast, bringing in $1.5 billion a year, tourism is absolutely integral to my district's economic success story.

Nearly half of all overseas visitors currently arrive under the Visa Waiver Program. Without this program, the number of international tourists will decrease substantially—which will be felt on Main Street, USA nationwide.

This success of the Visa Waiver Program has been an integral component in our increased international tourism, which has in turn provided substantial economic benefits to the United States. Therefore, on behalf of bed and breakfasts, retail shop owners, taxi drivers and tour operators across the Nation, I urge your support for making the Visa Waiver Pilot Program permanent.

Mr. UNDERWOOD. Mr. Speaker, thank you for allowing me the opportunity to comment in support of H.R. 3767, a bill which will make permanent the Visa Waiver Program Act. The original program allowed visitors from certain foreign countries to enter the United States and the Territories without having to apply for a visa.

Since the program expired on April 30 of this year, visitors to Guam from Japan and other countries covered under the program, have entered the island under INS paroling rules. This has created a burden of additional paperwork for INS agents to process; and, as a consequence, visitors are enduring longer lines in immigration. The average waiting period for processing ballooned from 45 minutes to up to 4 hours. Imagine yourself as a visitor traveling from Japan for 3 hours then waiting in line for an additional 4 hours to process through immigration before your able to leave the airport and begin your vacation. This is a reality that some visitors to Guam have had to endure.

This program is crucial to the success of American communities that rely on tourism as their main source of revenue. For 14 years the program has soundly demonstrated its ability to expand our travel and tourism base and aid our country's economic growth. Indeed, Guam has itself reaped the benefits of this program, alleviating the process for applying for a visa to certain visitors traveling to the United States for business or pleasure.

Since 1988, travel to the United States from foreign countries has consistently risen each year. International travel has given our country a trade surplus within the tourism industry totaling as much as $26 billion in 1996. It is clear that with revenues like this, we should make the Visit Waiver Program permanent.

Mr. Speaker, I urge the passage today of H.R. 3767, the Visa Waiver Permanent Program Act, which is instrumental to continuing the prosperity of our nations' economy, including my home island of Guam.

Mr. CONYERS. Mr. Speaker, on April 11, 2000, the House passed H.R. 3767, the Visa Waiver Permanent Program Act, which included an amendment I offered during the Judiciary Committee markup. My amendment prohibits the use of visa refusal rates to disqualify countries from the visa waiver program when visa refusals are based on the discriminatory practices of the adjudicating Consulate. The amendment as passed by both the committee and the House ensures that Consulates and Embassies abroad adjudicate visa applications based on the merits of the applications, and not on the basis of ''race, sex, sexual orientation, or disability.'' Unfortunately, this bill's Senate counterpart has been held up in large part because of opposition to my amendment by the senior Senator from North Carolina and others in the Senate majority.

In an effort to reach a compromise, the Senate bill retains my amendment, except for the prohibition of discrimination on the basis of

sexual orientation. In addition, the Senate amendment provides that:

No court shall have jurisdiction under [the Conyers' amendment] to review any visa refusal or the Secretary's computation of the visa refusal rate.

I would have preferred that these changes not have been made, but, given the lateness in the session and the importance of the visa waiver program being extended, I am willing to support the legislation before us.

The impetus for the amendment was U.S. District Court Judge Stanley Sporkin's decisive findings in the case of Olden versus Albright in December 1997 that the U.S. Consulate General in Sao Paulo, Brazil, based its nonimmigrant visa determinations in large part on the applicants' race, ethnicity or national origin. For example, Korean and Chinese nationals were rarely issued visas unless they were older and had previously received a visa. According to the Consular Section Head, ''Filipinos and Nigerians have high fraud rates, and their applications should be viewed with extreme suspicion, while British and Japanese citizens rarely overstay, and generally require less scrutiny.'' Further, identifying cities ''known for fraud'' (most with predominantly black populations), the Consulate's manual stated that ''anyone born in these locations is suspect unless older, well-traveled, etc.''

Judge Sporkin correctly stated:

The principle that government must not discriminate against particular individuals because of the color of their skin or the place of their birth means that the use of generalizations based on these factors is unfair and unjustified.

When, as in the Olsen case, that discriminatory profiling is occurring and where it occurs at the Federal level, it is particularly important that Congress act to prevent further discrimination.

Notwithstanding the Senate's revision to the bill, the final language makes it clear to the U.S. Consulates and Embassies abroad that it is a violation of U.S. law for visa refusals to occur based on generalizations that by their very nature are not applicable to the individual application. The revised language continues to ensure that Embassies and Consulates adjudicate visas based on the merits of the applications, and not on the basis of irrelevant and harmful discriminatory stereotypes. Further, the Olson decision continues to stand for the legal proposition that the use of generalizations based on race, sex, and disability (as well as sexual orientation, nationality, place of birth, and place of residence) is unfair, unjustified, and contrary to law.

The amendment added in the Senate will have no practical legal effect and I understand from my Senate colleagues that it is merely a symbolic gesture. Nonetheless, court stripping provisions, whether symbolic or not, is contrary to our democratic principles. I hesitate before supporting another bill out of this Congress that removes the ability of immigrants to have administrative determinations reviewed by a court. It seems to me ironic that our Republican friends demanded only a short while ago that Elian Gonzalez be afforded the right of judicial review. These demands must also have been only symbolic.

The bill passed by the Senate also includes a new title III to permit INTELSAT's foreign employees to maintain their nonimmigrant status notwithstanding the organization's privatization. At the present time, INTELSAT's foreign employees are in a visa status based on their employment by an international organization. After INTELSAT privatizes, its current employees will no longer be eligible to maintain their current visa status without this change in the law. the purpose of title III is not to give INTELSAT an unfair advantage with regard to its hiring practices as compared with its competitors. Let me just clarify my understanding of two references within Title III.

First, in sections 301(a)(1) and (a)(2), the phrase ''separate entity of INTELSAT'' is intended to address the situation in which, between passage of this bill and privatization, INTELSAT establishes a new separated entity as a shell company in anticipation of privatization. It is not our intent for an employee of INTELSAT who, post-privatization, becomes an employee of a separated entity that pre-dates this legislation (e.g., New Skies Satellites N.V.) to retain his or her nonimmigrant status.

Second, in sections 301(a)(1) and (a)(2), the phrase ''the date of privatization'' means either the date that INTELSAT privatizes or April 1, 2001, whichever is earlier. The ORBIT Act specifies April 1, 2001 as the date by which INTELSAT must privatize, without regard to whether INTELSAT is granted an extension, pursuant to Section 621(5) of the ORBIT Act, to conduct an initial public offering.

Finally, I would like to thank the Travel Industry Association, and in particular its president, Bill Norman, for their exemplary work on ensuring the final passage of this bill.

The Visa Waiver Permanent Program Act is too important to our business and tourism industries to delay it any longer. I therefore urge my colleagues to support this bill.

Ms. JACKSON-LEE of Texas. Mr. Speaker, I yield back the balance of my time.

Mr. SMITH of Texas. Mr. Speaker, I urge my colleagues to support this bill, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Texas (Mr. SMITH) that the House suspend the rules and concur in the Senate amendments to the bill, H.R. 3767.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the Senate amendments were concurred in.

A motion to reconsider was laid on the table.

DISABLED IMMIGRANT NATURALIZATION OATH WAIVER

Mr. SMITH of Texas. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 4838) to amend the Immigration and Nationality Act to provide a waiver of the oath of renunciation and allegiance for naturalization of aliens having certain disabilities, as amended.

The Clerk read as follows:

H.R. 4838

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. WAIVER OF OATH OF RENUNCIATION AND ALLEGIANCE FOR NATURALIZATION OF ALIENS HAVING CERTAIN DISABILITIES.

(a) IN GENERAL.—Section 337(a) of the Immigration and Nationality Act (8 U.S.C. 1448(a)) is amended by adding at the end the following:

''The Attorney General may waive the taking of the oath by a person if in the opinion of the Attorney General the person is unable to understand, or to communicate an understanding of, its meaning because of a physical or developmental disability or mental impairment. If the Attorney General waives the taking of the oath by a person under the preceding sentence, the person shall be considered to have met the requirements of section 316(a)(3) with respect to attachment to the principles of the Constitution and well disposition to the good order and happiness of the United States.''.

(b) EFFECTIVE DATE.—The amendment made by subsection (a) shall apply to persons applying for naturalization before, on, or after the date of the enactment of this Act.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Texas (Mr. SMITH) and the gentlewoman from Texas (Ms. JACKSON-LEE) each will control 20 minutes.

The Chair recognizes the gentleman from Texas (Mr. SMITH).

GENERAL LEAVE

Mr. SMITH of Texas. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks and include extraneous material on the bill under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Texas?

There was no objection.

Mr. SMITH of Texas. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I thank the gentlewoman from Florida (Ms. ROS-LEHTINEN) for introducing this bill, and I appreciate the effort she put into it to get to the point it is in today.

Mr. Speaker, H.R. 4838 permits the Attorney General to waive the taking of the oath of allegiance by a naturalization applicant if, in the opinion

of the Attorney General, the applicant is unable to understand or to communicate an understanding of the oath's meaning because of a physical or developmental disability or mental impairment.

Mr. Speaker, some disabled, lawful permanent resident aliens have been unable to overcome obstructions at various stages in the naturalization process because of their disabilities. The Immigration and Nationality Act permits the Attorney General to waive the taking of the oath by a child if the child is unable to understand its meaning. Yet, some of those disabled individuals who were granted a medical waiver for the English, history and government exams due to their physical or developmental disability or mental impairment also cannot communicate an understanding of the oath of renunciation. This bill provides the necessary waiver.

Like the preexisting oath waiver for children, this bill permits disabled applicants who cannot understand the oath or cannot communicate an understanding of the oath to overcome this last obstruction to becoming a United States citizen.

This bill will apply to persons applying for naturalization before, on, or after the date of enactment of this act.

Disabled naturalization applicants who have in the past been denied naturalization because they could not understand or communicate an understanding of the meaning of the oath may reopen their naturalization applications and continue the process of becoming American citizens.

I appreciate the willingness of the gentlewoman from Florida (Ms. ROS-LEHTINEN) to agree to the technical corrections found in this suspension version of H.R. 4838. I also appreciate her dedication to this deserving group of aspiring citizens.

Mr. Speaker, I urge my colleagues to support this bill.

Mr. Speaker, I reserve the balance of my time.

Ms. JACKSON-LEE of Texas. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, before I begin my remarks, I would like to add a special note of tribute and sadness to the loss of the gentleman from Minnesota (Mr. VENTO).

In particular, I want to acknowledge the work that he did with our subcommittee on the Hmong Naturalization Act, which gave relief to Laotian veterans who fought during the Vietnam War. We have waived their citizenship requirements, and the bill passed in the House and Senate. The gentleman from Minnesota was a great leader on these issues, and we thank him very much for the service he gave. His loss will be very much experienced by all of us.

Mr. Speaker, I rise in support of the bill of the gentlewoman from Florida (Ms. ROS-LEHTINEN), H.R. 4838. This bill would provide a waiver of the oath of renunciation and allegiance for naturalization in the case of certain people who are incapable of understanding such an oath. The oath of allegiance is the last step in the naturalization process. I thank the chairman for seeing this bill through the process and working in a bipartisan manner.

Mr. Speaker, this bill signifies the fact that the person is renouncing allegiance to the country he or she is already a citizen of and declaring allegiance to the United States. It is a meaningless requirement in the case of a person who cannot understand such an oath, and it is causing great harm to many people.

Naturalization applicants are required to demonstrate their ability to take a meaningful oath of allegiance to the United States. Perhaps the potential unfairness of this requirement can be seen most clearly in the case of Alzheimer's victims. Remember, many of these individuals are elderly, and may have waited a long period of time to receive this precious right of citizenship in the United States.

As a country, we have decided to provide medical benefits to our citizens. Alzheimer's victims who have been lawful, permanent residents for decades are in desperate need of these benefits, and they would be entitled to them as U.S. citizens, but for the fact that the Alzheimer's disease is preventing them to take an oath of allegiance. This truly is a catch-22 situation. The very disease that creates the need for medical services is preventing them from receiving the services.

This does not just apply to victims of Alzheimer's disease, it applies to many elderly people in our society who have lived in the United States as lawful, productive members of our society for many years and now desperately need medical assistance.

I have three constituents I want to tell Members about, a man and a woman and their 17-year-old child who has a mental impairment. The man and woman have applied for naturalization, and we have every reason to expect their applications to be granted. The problem is that their child will age out of eligibility for derivative citizenship when she turns 18 at the end of the year. She would then have to apply for naturalization on her own, which would require an oath of allegiance.

The child will lose derivative citizenship because INS cannot process a naturalization application for her parents in a reasonable amount of time. The average processing time for a naturalization application is more than 20 months. Because she is not competent to take an oath of allegiance, she will not be able to pursue a naturalization application on her own when she is 18 years old and has aged out of eligibility for derivative status.

This is terribly unfair. This is dividing and destroying a family. I enthusiastically urge members to support H.R. 4838, and thank my colleague, the gentlewoman from Florida (Ms. ROS-LEHTINEN), enthusiastically for her work.

Mr. Speaker, I rise in support of Representative ROS-LEHTINEN's bill, H.R. 4838. This bill would provide a waiver of the oath of renunciation and allegiance for naturalization in the case of certain people who are incapable of understanding such an oath. The oath of allegiance is the last step in the naturalization process.

It signifies the fact that the person is renouncing allegiance to the country he or she is already a citizen of and declaring allegiance to the United States. It is a meaningless requirement in the case of a person who cannot understand such an oath, and it is causing great harm to many people.

Naturalization applications are required to demonstrate their ability to take a ''meaningful oath'' of allegiance to the United States. Perhaps the potential unfairness of this requirement can be seen most clearly in the case of Alzheimer's victims. As a country, we have decided to provide medical benefits to our citizens. Alzheimer victims who have been lawful permanent residents for decades are in desperate need of these medical benefits, and they would be entitled to them as U.S. citizens but for the fact that Alzheimer's disease is preventing them from taking an oath of allegiance. This is truly a ''catch 22'' situation. The very disease that creates the need for medical services is preventing them from receiving the services.

This doesn't just apply to victims of Alzheimer's disease. It applies to many elderly people in our society who have lived in the United States as lawful, productive members of our society for many years, and new desperately need medical assistance.

I have three constituents I want to tell you about, a man and a woman and their 17-year-old child who has a mental impairment. The man and the woman have applied for naturalization, and we have every reason to expect their applications to be granted. The problem is that their child will age-out of eligibility for derivative citizenship when she turns 18 at the end of the year. She will then have to apply for naturalization on her own, which will require an oath of allegiance.

The child will lose derivative citizenship because INS cannot process the naturalization applications of her parents in a reasonable amount of time.

The average processing time for a naturalization application is more than 20 months. And, because she is not competent to take an oath of allegiance, she won't be able to pursue a naturalization application on her own when she is 18 years old and has aged out of eligibility for derivative status. This is terribly unfair.

I urge Members to support H.R. 4838.

Mr. Speaker, I reserve the balance of my time.

Mr. SMITH of Texas. Mr. Speaker, I yield such time as she may consume to the gentlewoman from Florida (Ms. ROS-LEHTINEN), the author of the bill.

Ms. ROS-LEHTINEN. Mr. Speaker, I thank the chairman for yielding time to me.

Mr. Speaker, the United States is the world's greatest economic power. We sustain one of the world's highest standards of living that is more diversified than any other on Earth.

As a naturalized citizen, I know that the United States is the greatest country in the world, which is why it is not surprising that every year thousands of people from all over the world wish to be part of our great Nation.

But it is not necessarily the economic prosperity found here in our country that brings people here, because what naturalized Americans cherish most are the basic freedoms of life, liberty, and the pursuit of happiness.

As with many of my constituents, I know firsthand what it means and what it takes to become an American citizen. It is an emotional moment when one declares to the world that this is their new land and this is indeed where they belong. So many people struggle with distance, language, and culture to come to a moment where they pledge the oath of allegiance, that this is their new countries, the United States of America.

At each naturalization ceremony, new Americans amplify a commitment that they have made in their hearts. As I was, they are reminded not only of America's promise, but of the responsibilities that they will proudly bear.

The U.S. has historically offered opportunities to all people, regardless of race, ethnicity, or religion. However, immigration law has not yet considered a small group of individuals with cognitive disabilities. In fact, a small fraction, only .1 percent, of soon-to-be Americans cannot complete the naturalization process because of a handicap that renders them ineffective in communicating an understanding of the naturalization oath.

These individuals are not exempt from fulfilling requirements of naturalization such as being of good moral character and of residency here in the United States. They must still fulfill those responsibilities. But these severely disabled individuals pose no threat to American society. Yet, they should be entitled to the same responsibilities and opportunities that we as Americans all share.

My legislation will enable individuals suffering from advanced Alzheimer's, from Downs syndrome, and from autism to waive the oath of allegiance in order to become United States citizens.

The United States is the greatest success story of the modern world. So in a Nation such as ours, disability should not hinder a person from achieving one of the loftiest goals, that of becoming a United States citizen.

In our country, persons with disabilities who are given opportunities have never let us down. Waiving the oath for .1 percent of neurologically-impaired persons will help fulfill the American dream for many new American families.

□ 1630

It will affirm the generous nature of the American spirit, and it will boast of America's compassionate character. I urge my colleagues to vote for passage of my legislation. It will ensure that equality is meant for all persons regardless of their disabilities. And I thank the gentleman from Texas (Mr. SMITH) again for his time.

Ms. JACKSON-LEE of Texas. Mr. Speaker, I reserve the balance of my time.

Mr. SMITH of Texas. Mr. Speaker, I yield 3 minutes to the gentleman from California (Mr. COX), the chairman of the Committee on House Policy.

Mr. COX. Mr. Speaker, I thank the gentleman from Texas (Chairman SMITH) and the gentlewoman from Florida (Ms. ROS-LEHTINEN) for their leadership on this legislation, which is so strongly needed in the interests of justice. Everyone is moved by stories of people who work hard and play by the rules. That is certainly the case for one of my constituents who, for 6 years, has been working hard to become legally a citizen of the United States.

Mr. Speaker, unfortunately, when the system of justice does not work, it is heartbreaking for those involved. In the case of Vijai Rajan, who is 25 years old, she has lived in this country her entire life, since she was 4 months old. Both of her parents are naturalized U.S. citizens. Her sister was born in Cincinnati. The Rajan family wanted Vijai also to become a citizen, but you see, Vijai is in a wheelchair. She requires 24-hour-a-day care. She has cerebral palsy, muscular dystrophy, Crohn's disease, and suffers from seizures.

She communicates by sounds and by signs that she understands, and the only expressions are those that she feels. Of course, Vijai could not raise her hand and take the oath of citizenship. But the INS, the Immigration and Naturalization Service, where her family applied for her some 6 years ago has run them through the bureaucratic mill for years.

They contacted my office after having twice filed for citizenship, after having had her in her wheelchair even down to the INS office. She had been working for 4 years with the INS at that point; and not until later, not until the very end, did the INS tell them, even though they had met the other requirements, that she could not become a citizen in any event, because she could not raise her hand and say the oath.

The INS regs already allow an exemption from the English language for people who wish to become citizens. They allow for people with disabilities an exemption from the American history requirement. And a recent court case recently held that a man with Down's Syndrome who could not recite the oath could still be granted citizenship.

But in the case of Vijai Rajan, the INS pressed on, litigated, tried to do everything possible to prevent this woman and her family from letting her become a citizen.

Today with the passage of H.R. 4838, Congress will clearly state that the Attorney General has the authority to waive the oath requirement for people with disabilities. This legislation also sends a strong signal that long delays in bureaucratic impediments are not the greeting that this great Nation will extend to its new citizens. I thank the Rajan family for never losing hope.

It sometimes takes an act of Congress to write a wrong. Vijai may not be able to comprehend the full extent of her legacy, but I know that passing this legislation will bring great comfort to all of her family and friends and all other immigrants who dream of becoming United States citizens. I thank my colleagues for their leadership in bringing this important legislation to the floor.

Ms. JACKSON-LEE of Texas. Mr. Speaker, I reserve the balance of my time.

Mr. SMITH of Texas. Mr. Speaker, I yield 2 minutes to the gentlewoman from Maryland (Mrs. MORELLA), my colleague and classmate.

Mrs. MORELLA. Mr. Speaker, I thank the gentleman from Texas (Mr. SMITH), my classmate, for yielding the time to me, for his leadership on this committee and on this subcommittee.

I very much appreciate having this bill come on the floor. I want to certainly thank the author of the bill, the gentlewoman from Florida (Ms. ROS-LEHTINEN), because this is something that is so humane and does help so many people who are so deserving of citizenship.

It will allow the Attorney General to waive the oath requirements for nationalization, if the applicant is an individual with a physical or mental disability or mental impairment, who because of such disability is unable to understand or communicate an understanding of the meaning of the oath.

We all have examples. Let me just try one out. Gustavo Galvez-Letona, a 27-year-old native Guatemalan with Down's Syndrome, arrived in the United States when he was 10 years old. INS waived the English and civics tests for him but refused to waive the oath; thus he is the only member of his family who is not yet naturalized.

A Federal district court granted his petition for naturalization, recognizing that since INS has statutory authority to waive the oath for children, the oath

is not an essential eligibility requirement. The court ordered INS to naturalize Mr. Galvez-Letona, stating that because of his severe mental disability, he is no different than a child who is unable to understand the oath and attachment requirements.

The Department of Justice has appealed the court's decision.

By passing this bill, which will waive the oath of renunciation and allegiance for naturalization for individuals with cognitive disabilities, or children who are unable to understand the meaning of the oath, we will enable thousands of families across our country who are living with autism, Down's Syndrome, Alzheimer's and other neurological disorders to realize American citizenship.

It is historically a part of our great country to be an inclusive Nation and provide opportunities for all, so I salute all who are involved in this legislation.

Ms. JACKSON-LEE of Texas. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I urge my colleagues to support this humanitarian bill.

Mr. Speaker, not knowing whether I will appear as a manager of a bill again, let me thank the Committee on the Judiciary staff for their leadership and outstanding service, and particularly those of the subcommittee that are here: George Fishman, Lora Reis, Kelly Dixon, Leon Buck, and Nolan Rappaport.

Mr. DIAZ-BALART. Mr. Speaker, I rise today in strong support for the critically-needed legislation introduced by my colleague, Ms. ROS-LEHTINEN (H.R. 4838).

This legislation would remove an onerous obstacle for those persons with disabilities who are legal permanent residents, but because of their disabilities, are foreclosed from obtaining citizenship because they cannot recite the naturalization oath.

This legislation gives the Attorney General the authority to waive the oath of renunciation and allegiance for naturalization for individuals with cognitive disabilities, or children who are unable to understand the meaning of the oath. Accordingly, this legislation will enable thousands of families in our nation who have loved ones with autism, down syndrome, Alzheimer's and other neurological disorders to realize American citizenship for their loved ones. It will also give them peace of mind in that their loved ones will be able to attain citizenship and thereby secure the benefits and security accorded to United States citizens. This legislation will also enable disabled people the opportunity, as citizens, to develop their abilities so that they can be the most productive citizens they possibly can be.

Mr. Speaker, I am proud to be a cosponsor of this worthwhile legislation and I applaud my colleagues ILEANA ROS-LEHTINEN and Subcommittee Chairman LAMAR SMITH for advancing it to the House suspension calendar for a vote today.

Mr. SHAYS. Mr. Speaker, I rise in strong support of H.R. 4838, which would permit the Attorney General to waive the oath of renunciation and allegiance in instances when the applicant for naturalization is an individual with a severe disability who is unable to understand or communicate an understanding of the meaning of the oath. This legislation is important to families in Connecticut and across this country.

I want to thank Congresswoman ILEANA ROS-LEHTINEN for introducing this legislation and Chairman LAMAR SMITH for working with our offices to bring it to the floor. I also want to thank Connecticut's senior senator, CHRISTOPHER DODD, for his work on this legislation in the Senate.

Under current law, the Attorney General has the authority to waive for disabled applicants the English and civics tests required for naturalization. It makes little sense that the Attorney General has the discretion to waive these tests but is prohibited from waiving the oath of renunciation and allegiance required of these same disabled applicants.

The result is that despite the fulfillment of all other requirements for naturalization, certain disabled individuals are unable to ever become citizens. These instances are rare, but they have terrible implications for the affected families. For example, it is possible under current law for an entire family to be naturalized with the exception of one disabled family member—who then could face possible deportation.

The main purpose of the oath requirement is to prevent the naturalization of people who are hostile to the United States Government or the principles of the Constitution. Waiving this requirement for people with severe disabilities does nothing to defeat this purpose or threaten our national security because these individuals lack the capacity to understand the oath and, therefore, cannot form the intent to act against our government.

Furthermore, individuals with disabilities who receive a waiver would still have to fulfill other requirements of naturalization, including good moral character and residency.

The legislation we are considering today poses no danger and manifests our nation's compassion—a characteristic too often missing from our immigration policy. I urge my colleagues to support its passage.

Ms. JACKSON-LEE of Texas. Mr. Speaker, I yield back the balance of my time.

Mr. SMITH of Texas. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore (Mr. GIBBONS). The question is on the motion offered by the gentleman from Texas (Mr. SMITH) that the House suspend the rules and pass the bill, H.R. 4838, as amended.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the bill, as amended, was passed.

A motion to reconsider was laid on the table.

Mr. SMITH of Texas. Mr. Speaker, I ask unanimous consent that the Committee on the Judiciary be discharged from the further consideration of the Senate bill (S. 2812) to amend the Immigration and Nationality Act to provide a waiver of the oath of renunciation and allegiance for naturalization of aliens having certain disabilities, and ask for its immediate consideration in the House.

The Clerk read the title of the Senate bill.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Texas?

Ms. JACKSON-LEE of Texas. Mr. Speaker, reserving the right to object, I yield to the gentleman from Texas (Mr. SMITH) for an explanation.

Mr. SMITH of Texas. Mr. Speaker, let me explain that the purpose of the request is to amend the companion Senate bill and send it back to the Senate with the text of H.R. 4838 which the House has just passed.

Ms. JACKSON-LEE of Texas. Reclaiming my time, I thank the gentleman for his response.

Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Texas?

There was no objection.

The Clerk read the Senate bill, as follows:

S. 2812

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. WAIVER OF OATH OF RENUNCIATION AND ALLEGIANCE FOR NATURALIZATION OF ALIENS HAVING CERTAIN DISABILITIES.

(a) IN GENERAL.—The last sentence of section 337(a) of the Immigration and Nationality Act (8 U.S.C. 1448(a)) is amended to read as follows: ''The Attorney General may waive the taking of the oath if in the opinion of the Attorney General the applicant for naturalization is an individual with a disability, or a child, who is unable to understand or communicate an understanding of the meaning of the oath. If the Attorney General waives the oath for such an individual, the individual shall be considered to have met the requirements of section 316(a)(3) as to attachment to the Constitution and well disposition to the United States.''.

(b) EFFECTIVE DATE.—The amendment made by subsection (a) shall apply to individuals who applied for naturalization before, on, or after the date of enactment of this Act.

MOTION OFFERED BY MR. SMITH OF TEXAS

Mr. SMITH of Texas. Mr. Speaker, I offer a motion.

The Clerk read, as follows:

Mr. SMITH of Texas moves to strike out all after the enacting clause of S. 2812 and in lieu thereof insert the text of H.R. 4838 as passed by the House.

The motion was agreed to.

The Senate bill was ordered to be read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

A similar House bill (H.R. 4838) was laid on the table.

PIPELINE SAFETY IMPROVEMENT ACT OF 2000

Mr. SHUSTER. Mr. Speaker, I move to suspend the rules and pass the Senate bill (S. 2438) to provide for enhanced safety, public awareness, and environmental protection in pipeline transportation, and for other purposes.

The Clerk read as follows:

S. 2438

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE; AMENDMENT OF TITLE 49, UNITED STATES CODE.

(a) SHORT TITLE.—This Act may be cited as the ''Pipeline Safety Improvement Act of 2000''.

(b) AMENDMENT OF TITLE 49, UNITED STATES CODE.—Except as otherwise expressly provided, whenever in this Act an amendment or repeal is expressed in terms of an amendment to, or a repeal of, a section or other provision, the reference shall be considered to be made to a section or other provision of title 49, United States Code.

SEC. 2. IMPLEMENTATION OF INSPECTOR GENERAL RECOMMENDATIONS.

(a) IN GENERAL.—Except as otherwise required by this Act, the Secretary shall implement the safety improvement recommendations provided for in the Department of Transportation Inspector General's Report (RT–2000–069).

(b) REPORTS BY THE SECRETARY.—Not later than 90 days after the date of enactment of this Act, and every 90 days thereafter until each of the recommendations referred to in subsection (a) has been implemented, the Secretary shall transmit to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives a report on the specific actions taken to implement such recommendations.

(c) REPORTS BY THE INSPECTOR GENERAL.—The Inspector General shall periodically transmit to the Committees referred to in subsection (b) a report assessing the Secretary's progress in implementing the recommendations referred to in subsection (a) and identifying options for the Secretary to consider in accelerating recommendation implementation.

SEC. 3. NTSB SAFETY RECOMMENDATIONS.

(a) IN GENERAL.—The Secretary of Transportation, the Administrator of Research and Special Program Administration, and the Director of the Office of Pipeline Safety shall fully comply with section 1135 of title 49, United States Code, to ensure timely responsiveness to National Transportation Safety Board recommendations about pipeline safety.

(b) PUBLIC AVAILABILITY.—The Secretary, Administrator, or Director, respectively, shall make a copy of each recommendation on pipeline safety and response, as described in sections 1135 (a) and (b) of title 49, United States Code, available to the public at reasonable cost.

(c) REPORTS TO CONGRESS.—The Secretary, Administrator, or Director, respectively, shall submit to the Congress by January 1 of each year a report containing each recommendation on pipeline safety made by the Board during the prior year and a copy of the response to each such recommendation.

SEC. 4. QUALIFICATIONS OF PIPELINE PERSONNEL.

(a) QUALIFICATION PLAN.—Each pipeline operator shall make available to the Secretary of Transportation, or, in the case of an intrastate pipeline facility operator, the appropriate State regulatory agency, a plan that is designed to enhance the qualifications of pipeline personnel and to reduce the likelihood of accidents and injuries. The plan shall be made available not more than 6 months after the date of enactment of this Act, and the operator shall revise or update the plan as appropriate.

(b) REQUIREMENTS.—The enhanced qualification plan shall include, at a minimum, criteria to demonstrate the ability of an individual to safely and properly perform tasks identified under section 60102 of title 49, United States Code. The plan shall also provide for training and periodic reexamination of pipeline personnel qualifications and provide for requalification as appropriate. The Secretary, or, in the case of an intrastate pipeline facility operator, the appropriate State regulatory agency, may review and certify the plans to determine if they are sufficient to provide a safe operating environment and shall periodically review the plans to ensure the continuation of a safe operation. The Secretary may establish minimum standards for pipeline personnel training and evaluation, which may include written examination, oral examination, work performance history review, observation during performance on the job, on the job training, simulations, or other forms of assessment.

(c) REPORT TO CONGRESS.—

(1) IN GENERAL.—The Secretary shall submit a report to the Congress evaluating the effectiveness of operator qualification and training efforts, including—

(A) actions taken by inspectors;

(B) recommendations made by inspectors for changes to operator qualification and training programs; and

(C) industry responses to those actions and recommendations.

(2) CRITERIA.—The Secretary may establish criteria for use in evaluating and reporting on operator qualification and training for purposes of this subsection.

(3) DUE DATE.—The Secretary shall submit the report required by paragraph (1) to the Congress 3 years after the date of enactment of this Act.

SEC. 5. PIPELINE INTEGRITY INSPECTION PROGRAM.

Section 60109 is amended by adding at the end the following:

''(c) INTEGRITY MANAGEMENT.—

''(1) GENERAL REQUIREMENT.—The Secretary shall promulgate regulations requiring operators of hazardous liquid pipelines and natural gas transmission pipelines to evaluate the risks to the operator's pipeline facilities in areas identified pursuant to subsection (a)(1), and to adopt and implement a program for integrity management that reduces the risk of an incident in those areas. The regulations shall be issued no later than one year after the Secretary has issued standards pursuant to subsections (a) and (b) of this section or by December 31, 2001, whichever is sooner.

''(2) STANDARDS FOR PROGRAM.—In promulgating regulations under this section, the Secretary shall require an operator's integrity management plan to be based on risk analysis and each plan shall include, at a minimum—

''(A) periodic assessment of the integrity of the pipeline through methods including internal inspection, pressure testing, direct assessment, or other effective methods;

''(B) clearly defined criteria for evaluating the results of the periodic assessment methods carried out under subparagraph (A) and procedures to ensure identified problems are corrected in a timely manner; and

''(C) measures, as appropriate, that prevent and mitigate unintended releases, such as leak detection, integrity evaluation, restrictive flow devices, or other measures.

''(3) CRITERIA FOR PROGRAM STANDARDS.—In deciding how frequently the integrity assessment methods carried out under paragraph (2)(A) must be conducted, an operator shall take into account the potential for new defects developing or previously identified structural defects caused by construction or installation, the operational characteristics of the pipeline, and leak history. In addition, the Secretary may establish a minimum testing requirement for operators of pipelines to conduct internal inspections.

''(4) STATE ROLE.—A State authority that has an agreement in effect with the Secretary under section 60106 is authorized to review and assess an operator's risk analyses and integrity management plans required under this section for interstate pipelines located in that State. The reviewing State authority shall provide the Secretary with a written assessment of the plans, make recommendations, as appropriate, to address safety concerns not adequately addressed in the operator's plans, and submit documentation explaining the State-proposed plan revisions. The Secretary shall carefully consider the State's proposals and work in consultation with the States and operators to address safety concerns.

''(5) MONITORING IMPLEMENTATION.—The Secretary of Transportation shall review the risk analysis and program for integrity management required under this section and provide for continued monitoring of such plans. Not later than 2 years after the implementation of integrity management plans under this section, the Secretary shall complete an assessment and evaluation of the effects on safety and the environment of extending all of the requirements mandated by the regulations described in paragraph (1) to additional areas. The Secretary shall submit the assessment and evaluation to Congress along with any recommendations to improve and expand the utilization of integrity management plans.

''(6) OPPORTUNITY FOR LOCAL INPUT ON INTEGRITY MANAGEMENT.—Within 18 months after the date of enactment of the Pipeline Safety Improvement Act of 2000, the Secretary shall, by regulation, establish a process for raising and addressing local safety concerns about pipeline integrity and the operator's pipeline integrity plan. The process shall include—

''(A) a requirement that an operator of a hazardous liquid or natural gas transmission pipeline facility provide information about the risk analysis and integrity management plan required under this section to local officials in a State in which the facility is located;

''(B) a description of the local officials required to be informed, the information that is to be provided to them and the manner, which may include traditional or electronic means, in which it is provided;

''(C) the means for receiving input from the local officials that may include a public forum sponsored by the Secretary or by the State, or the submission of written comments through traditional or electronic means;

''(D) the extent to which an operator of a pipeline facility must participate in a public forum sponsored by the Secretary or in another means for receiving input from the

local officials or in the evaluation of that input; and

''(E) the manner in which the Secretary will notify the local officials about how their concerns are being addressed.''.

SEC. 6. ENFORCEMENT.

(a) IN GENERAL.—Section 60112 is amended—

(1) by striking subsection (a) and inserting the following:

''(a) GENERAL AUTHORITY.—After notice and an opportunity for a hearing, the Secretary of Transportation may decide a pipeline facility is hazardous if the Secretary decides that—

''(1) operation of the facility is or would be hazardous to life, property, or the environment; or

''(2) the facility is, or would be, constructed or operated, or a component of the facility is, or would be, constructed or operated with equipment, material, or a technique that the Secretary decides is hazardous to life, property, or the environment.''; and

(2) by striking ''is hazardous,'' in subsection (d) and inserting ''is, or would be, hazardous,''.

SEC. 7. PUBLIC EDUCATION, EMERGENCY PREPAREDNESS, AND COMMUNITY RIGHT TO KNOW.

(a) Section 60116 is amended to read as follows:

''§ 60116. Public education, emergency preparedness, and community right to know

''(a) PUBLIC EDUCATION PROGRAMS.—

''(1) Each owner or operator of a gas or hazardous liquid pipeline facility shall carry out a continuing program to educate the public on the use of a one-call notification system prior to excavation and other damage prevention activities, the possible hazards associated with unintended releases from the pipeline facility, the physical indications that such a release may have occurred, what steps should be taken for public safety in the event of a pipeline release, and how to report such an event.

''(2) Within 12 months after the date of enactment of the Pipeline Safety Improvement Act of 2000, each owner or operator of a gas or hazardous liquid pipeline facility shall review its existing public education program for effectiveness and modify the program as necessary. The completed program shall include activities to advise affected municipalities, school districts, businesses, and residents of pipeline facility locations. The completed program shall be submitted to the Secretary or, in the case of an intrastate pipeline facility operator, the appropriate State agency and shall be periodically reviewed by the Secretary or, in the case of an intrastate pipeline facility operator, the appropriate State agency.

''(3) The Secretary may issue standards prescribing the elements of an effective public education program. The Secretary may also develop material for use in the program.

''(b) EMERGENCY PREPAREDNESS.—

''(1) OPERATOR LIAISON.—Within 12 months after the date of enactment of the Pipeline Safety Improvement Act of 2000, an operator of a gas transmission or hazardous liquid pipeline facility shall initiate and maintain liaison with the State emergency response commissions, and local emergency planning committees in the areas of pipeline right-of-way, established under section 301 of the Emergency Planning and Community Right-To-Know Act of 1986 (42 U.S.C. 11001) in each State in which it operates.

''(2) INFORMATION.—An operator shall, upon request, make available to the State emergency response commissions and local emergency planning committees, and shall make available to the Office of Pipeline Safety in a standardized form for the purpose of providing the information to the public, the information described in section 60102(d), the operator's program for integrity management, and information about implementation of that program. The information about the facility shall also include, at a minimum—

''(A) the business name, address, telephone number of the operator, including a 24-hour emergency contact number;

''(B) a description of the facility, including pipe diameter, the product or products carried, and the operating pressure;

''(C) with respect to transmission pipeline facilities, maps showing the location of the facility and, when available, any high consequence areas which the pipeline facility traverses or adjoins and abuts;

''(D) a summary description of the integrity measures the operator uses to assure safety and protection for the environment; and

''(E) a point of contact to respond to questions from emergency response representative.

''(3) SMALLER COMMUNITIES.—In a community without a local emergency planning committee, the operator shall maintain liaison with the local fire, police, and other emergency response agencies.

''(4) PUBLIC ACCESS.—The Secretary shall prescribe requirements for public access, as appropriate, to this information, including a requirement that the information be made available to the public by widely accessible computerized database.

''(c) COMMUNITY RIGHT TO KNOW.—Not later than 12 months after the date of enactment of the Pipeline Safety Improvement Act of 2000, and annually thereafter, the owner or operator of each gas transmission or hazardous liquid pipeline facility shall provide to the governing body of each municipality in which the pipeline facility is located, a map identifying the location of such facility. The map may be provided in electronic form. The Secretary may provide technical assistance to the pipeline industry on developing public safety and public education program content and best practices for program delivery, and on evaluating the effectiveness of the programs. The Secretary may also provide technical assistance to State and local officials in applying practices developed in these programs to their activities to promote pipeline safety.

''(d) PUBLIC AVAILABILITY OF REPORTS.—The Secretary shall—

''(1) make available to the public—

''(A) a safety-related condition report filed by an operator under section 60102(h);

''(B) a report of a pipeline incident filed by an operator;

''(C) the results of any inspection by the Office of Pipeline Safety or a State regulatory official; and

''(D) a description of any corrective action taken in response to a safety-related condition reported under subparagraph (A), (B), or (C); and

''(2) prescribe requirements for public access, as appropriate, to integrity management program information prepared under this chapter, including requirements that will ensure data accessibility to the greatest extent feasible.''.

(b) SAFETY CONDITION REPORTS.—Section 60102(h)(2) is amended by striking ''authorities.'' and inserting ''officials, including the local emergency responders.''.

(c) CONFORMING AMENDMENT.—The chapter analysis for chapter 601 is amended by striking the item relating to section 60116 and inserting the following:

''60116. Public education, emergency preparedness, community right to know.''.

SEC. 8. PENALTIES.

(a) CIVIL PENALTIES.—Section 60122 is amended—

(1) by striking ''$25,000'' in subsection (a)(1) and inserting ''$500,000'';

(2) by striking ''$500,000'' in subsection (a)(1) and inserting ''$1,000,000'';

(3) by adding at the end of subsection (a)(1) the following: ''The preceding sentence does not apply to judicial enforcement action under section 60120 or 60121.''; and

(4) by striking subsection (b) and inserting the following:

''(b) PENALTY CONSIDERATIONS.—In determining the amount of a civil penalty under this section—

''(1) the Secretary shall consider—

''(A) the nature, circumstances, and gravity of the violation, including adverse impact on the environment;

''(B) with respect to the violator, the degree of culpability, any history of prior violations, the ability to pay, any effect on ability to continue doing business; and

''(C) good faith in attempting to comply; and

''(2) the Secretary may consider—

''(A) the economic benefit gained from the violation without any discount because of subsequent damages; and

''(B) other matters that justice requires.''.

(b) EXCAVATOR DAMAGE.—Section 60123(d) is amended—

(1) by striking ''knowingly and willfully'';

(2) by inserting ''knowingly and willfully'' before ''engages'' in paragraph (1); and

(3) striking paragraph (2)(B) and inserting the following:

''(B) a pipeline facility, is aware of damage, and does not report the damage promptly to the operator of the pipeline facility and to other appropriate authorities; or''.

(c) CIVIL ACTIONS.—Section 60120(a)(1) is amended to read as follows:

''(1) On the request of the Secretary of Transportation, the Attorney General may bring a civil action in an appropriate district court of the United States to enforce this chapter, including section 60112 of this chapter, or a regulation prescribed or order issued under this chapter. The court may award appropriate relief, including a temporary or permanent injunction, punitive damages, and assessment of civil penalties considering the same factors as prescribed for the Secretary in an administrative case under section 60122.''.

SEC. 9. STATE OVERSIGHT ROLE.

(a) STATE AGREEMENTS WITH CERTIFICATION.—Section 60106 is amended—

(1) by striking ''GENERAL AUTHORITY.—'' in subsection (a) and inserting ''AGREEMENTS WITHOUT CERTIFICATION.—'';

(2) by redesignating subsections (b), (c), and (d) as subsections (c), (d), and (e); and

(3) by inserting after subsection (a) the following:

''(b) AGREEMENTS WITH CERTIFICATION.—

''(1) IN GENERAL.—If the Secretary accepts a certification under section 60105 of this title and makes the determination required under this subsection, the Secretary may make an agreement with a State authority authorizing it to participate in the oversight of interstate pipeline transportation. Each such agreement shall include a plan for the

State authority to participate in special investigations involving incidents or new construction and allow the State authority to participate in other activities overseeing interstate pipeline transportation or to assume additional inspection or investigatory duties. Nothing in this section modifies section 60104(c) or authorizes the Secretary to delegate the enforcement of safety standards prescribed under this chapter to a State authority.

''(2) DETERMINATIONS REQUIRED.—The Secretary may not enter into an agreement under this subsection, unless the Secretary determines that—

''(A) the agreement allowing participation of the State authority is consistent with the Secretary's program for inspection and consistent with the safety policies and provisions provided under this chapter;

''(B) the interstate participation agreement would not adversely affect the oversight responsibilities of intrastate pipeline transportation by the State authority;

''(C) the State is carrying out a program demonstrated to promote preparedness and risk prevention activities that enable communities to live safely with pipelines;

''(D) the State meets the minimum standards for State one-call notification set forth in chapter 61; and

''(E) the actions planned under the agreement would not impede interstate commerce or jeopardize public safety.

''(3) EXISTING AGREEMENTS.—If requested by the State Authority, the Secretary shall authorize a State Authority which had an interstate agreement in effect after January, 1999, to oversee interstate pipeline transportation pursuant to the terms of that agreement until the Secretary determines that the State meets the requirements of paragraph (2) and executes a new agreement, or until December 31, 2001, whichever is sooner. Nothing in this paragraph shall prevent the Secretary, after affording the State notice, hearing, and an opportunity to correct any alleged deficiencies, from terminating an agreement that was in effect before enactment of the Pipeline Safety Improvement Act of 2000 if—

''(A) the State Authority fails to comply with the terms of the agreement;

''(B) implementation of the agreement has resulted in a gap in the oversight responsibilities of intrastate pipeline transportation by the State Authority; or

''(C) continued participation by the State Authority in the oversight of interstate pipeline transportation has had an adverse impact on pipeline safety.''.

(b) ENDING AGREEMENTS.—Subsection (e) of section 60106, as redesignated by subsection (a), is amended to read as follows:

''(e) ENDING AGREEMENTS.—

''(1) PERMISSIVE TERMINATION.—The Secretary may end an agreement under this section when the Secretary finds that the State authority has not complied with any provision of the agreement.

''(2) MANDATORY TERMINATION OF AGREEMENT.—The Secretary shall end an agreement for the oversight of interstate pipeline transportation if the Secretary finds that—

''(A) implementation of such agreement has resulted in a gap in the oversight responsibilities of intrastate pipeline transportation by the State authority;

''(B) the State actions under the agreement have failed to meet the requirements under subsection (b); or

''(C) continued participation by the State authority in the oversight of interstate pipeline transportation would not promote pipeline safety.

''(3) PROCEDURAL REQUIREMENTS.—The Secretary shall give the notice and an opportunity for a hearing to a State authority before ending an agreement under this section. The Secretary may provide a State an opportunity to correct any deficiencies before ending an agreement. The finding and decision to end the agreement shall be published in the Federal Register and may not become effective for at least 15 days after the date of publication unless the Secretary finds that continuation of an agreement poses an imminent hazard.''.

SEC. 10. IMPROVED DATA AND DATA AVAILABILITY.

(a) IN GENERAL.—Within 12 months after the date of enactment of this Act, the Secretary shall develop and implement a comprehensive plan for the collection and use of gas and hazardous liquid pipeline data to revise the causal categories on the incident report forms to eliminate overlapping and confusing categories and include subcategories. The plan shall include components to provide the capability to perform sound incident trend analysis and evaluations of pipeline operator performance using normalized accident data.

(b) REPORT OF RELEASES EXCEEDING 5 GALLONS.—Section 60117(b) is amended—

(1) by inserting ''(1)'' before ''To'';

(2) redesignating paragraphs (1) and (2) as subparagraphs (A) and (B);

(3) inserting before the last sentence the following:

''(2) A person owning or operating a hazardous liquid pipeline facility shall report to the Secretary each release to the environment greater than five gallons of the hazardous liquid or carbon dioxide transported. This section applies to releases from pipeline facilities regulated under this chapter. A report must include the location of the release, fatalities and personal injuries, type of product, amount of product release, cause or causes of the release, extent of damage to property and the environment, and the response undertaken to clean up the release.

''(3) During the course of an incident investigation, a person owning or operating a pipeline facility shall make records, reports, and information required under subsection (a) of this section or other reasonably described records, reports, and information relevant to the incident investigation, available to the Secretary within the time limits prescribed in a written request.''; and

(4) indenting the first word of the last sentence and inserting ''(4)'' before ''The Secretary'' in that sentence.

(c) PENALTY AUTHORITIES.—(1) Section 60122(a) is amended by striking ''60114(c)'' and inserting ''60117(b)(3)''.

(2) Section 60123(a) is amended by striking ''60114(c),'' and inserting ''60117(b)(3),''.

(d) ESTABLISHMENT OF NATIONAL DEPOSITORY.—Section 60117 is amended by adding at the end the following:

''(l) NATIONAL DEPOSITORY.—The Secretary shall establish a national depository of data on events and conditions, including spill histories and corrective actions for specific incidents, that can be used to evaluate the risk of, and to prevent, pipeline failures and releases. The Secretary shall administer the program through the Bureau of Transportation Statistics, in cooperation with the Research and Special Programs Administration, and shall make such information available for use by State and local planning and emergency response authorities and the public.''.

SEC. 11. RESEARCH AND DEVELOPMENT.

(a) INNOVATIVE TECHNOLOGY DEVELOPMENT.—

(1) IN GENERAL.—As part of the Department of Transportation's research and development program, the Secretary of Transportation shall direct research attention to the development of alternative technologies—

(A) to expand the capabilities of internal inspection devices to identify and accurately measure defects and anomalies;

(B) to inspect pipelines that cannot accommodate internal inspection devices available on the date of enactment;

(C) to develop innovative techniques measuring the structural integrity of pipelines;

(D) to improve the capability, reliability, and practicality of external leak detection devices; and

(E) to develop and improve alternative technologies to identify and monitor outside force damage to pipelines.

(2) COOPERATIVE.—The Secretary may participate in additional technological development through cooperative agreements with trade associations, academic institutions, or other qualified organizations.

(b) PIPELINE SAFETY AND RELIABILITY RESEARCH AND DEVELOPMENT.—

(1) IN GENERAL.—The Secretary of Transportation, in coordination with the Secretary of Energy, shall develop and implement an accelerated cooperative program of research and development to ensure the integrity of natural gas and hazardous liquid pipelines. This research and development program—

(A) shall include materials inspection techniques, risk assessment methodology, and information systems surety; and

(B) shall complement, and not replace, the research program of the Department of Energy addressing natural gas pipeline issues existing on the date of enactment of this Act.

(2) PURPOSE.—The purpose of the cooperative research program shall be to promote pipeline safety research and development to—

(A) ensure long-term safety, reliability and service life for existing pipelines;

(B) expand capabilities of internal inspection devices to identify and accurately measure defects and anomalies;

(C) develop inspection techniques for pipelines that cannot accommodate the internal inspection devices available on the date of enactment;

(D) develop innovative techniques to measure the structural integrity of pipelines to prevent pipeline failures;

(E) develop improved materials and coatings for use in pipelines;

(F) improve the capability, reliability, and practicality of external leak detection devices;

(G) identify underground environments that might lead to shortened service life;

(H) enhance safety in pipeline siting and land use;

(I) minimize the environmental impact of pipelines;

(J) demonstrate technologies that improve pipeline safety, reliability, and integrity;

(K) provide risk assessment tools for optimizing risk mitigation strategies; and

(L) provide highly secure information systems for controlling the operation of pipelines.

(3) AREAS.—In carrying out this subsection, the Secretary of Transportation, in coordination with the Secretary of Energy, shall consider research and development on natural gas, crude oil and petroleum product pipelines for—

(A) early crack, defect, and damage detection, including real-time damage monitoring;

(B) automated internal pipeline inspection sensor systems;

(C) land use guidance and set back management along pipeline rights-of-way for communities;

(D) internal corrosion control;

(E) corrosion-resistant coatings;

(F) improved cathodic protection;

(G) inspection techniques where internal inspection is not feasible, including measurement of structural integrity;

(H) external leak detection, including portable real-time video imaging technology, and the advancement of computerized control center leak detection systems utilizing real-time remote field data input;

(I) longer life, high strength, non-corrosive pipeline materials;

(J) assessing the remaining strength of existing pipes;

(K) risk and reliability analysis models, to be used to identify safety improvements that could be realized in the near term resulting from analysis of data obtained from a pipeline performance tracking initiative;

(L) identification, monitoring, and prevention of outside force damage, including satellite surveillance; and

(M) any other areas necessary to ensuring the public safety and protecting the environment.

(4) POINTS OF CONTACT.—

(A) IN GENERAL.—To coordinate and implement the research and development programs and activities authorized under this subsection—

(i) the Secretary of Transportation shall designate, as the point of contact for the Department of Transportation, an officer of the Department of Transportation who has been appointed by the President and confirmed by the Senate; and

(ii) the Secretary of Energy shall designate, as the point of contact for the Department of Energy, an officer of the Department of Energy who has been appointed by the President and confirmed by the Senate.

(B) DUTIES.—

(i) The point of contact for the Department of Transportation shall have the primary responsibility for coordinating and overseeing the implementation of the research, development, and demonstration program plan under paragraphs (5) and (6).

(ii) The points of contact shall jointly assist in arranging cooperative agreements for research, development and demonstration involving their respective Departments, national laboratories, universities, and industry research organizations.

(5) RESEARCH AND DEVELOPMENT PROGRAM PLAN.—Within 240 days after the date of enactment of this Act, the Secretary of Transportation, in coordination with the Secretary of Energy and the Pipeline Integrity Technical Advisory Committee, shall prepare and submit to the Congress a 5-year program plan to guide activities under this subsection. In preparing the program plan, the Secretary shall consult with appropriate representatives of the natural gas, crude oil, and petroleum product pipeline industries to select and prioritize appropriate project proposals. The Secretary may also seek the advice of utilities, manufacturers, institutions of higher learning, Federal agencies, the pipeline research institutions, national laboratories, State pipeline safety officials, environmental organizations, pipeline safety advocates, and professional and technical societies.

(6) IMPLEMENTATION.—The Secretary of Transportation shall have primary responsibility for ensuring the 5-year plan provided for in paragraph (5) is implemented as intended. In carrying out the research, development, and demonstration activities under this paragraph, the Secretary of Transportation and the Secretary of Energy may use, to the extent authorized under applicable provisions of law, contracts, cooperative agreements, cooperative research and development agreements under the Stevenson-Wydler Technology Innovation Act of 1980 (15 U.S.C. 3701 et seq.), grants, joint ventures, other transactions, and any other form of agreement available to the Secretary consistent with the recommendations of the Advisory Committee.

(7) REPORTS TO CONGRESS.—The Secretary of Transportation shall report to the Congress annually as to the status and results to date of the implementation of the research and development program plan. The report shall include the activities of the Departments of Transportation and Energy, the national laboratories, universities, and any other research organizations, including industry research organizations.

SEC. 12. PIPELINE INTEGRITY TECHNICAL ADVISORY COMMITTEE.

(a) ESTABLISHMENT.—The Secretary of Transportation shall enter into appropriate arrangements with the National Academy of Sciences to establish and manage the Pipeline Integrity Technical Advisory Committee for the purpose of advising the Secretary of Transportation and the Secretary of Energy on the development and implementation of the 5-year research, development, and demonstration program plan under section 11(b)(5). The Advisory Committee shall have an ongoing role in evaluating the progress and results of the research, development, and demonstration carried out under that section.

(b) MEMBERSHIP.—The National Academy of Sciences shall appoint the members of the Pipeline Integrity Technical Advisory Committee after consultation with the Secretary of Transportation and the Secretary of Energy. Members appointed to the Advisory Committee should have the necessary qualifications to provide technical contributions to the purposes of the Advisory Committee.

SEC. 13. AUTHORIZATION OF APPROPRIATIONS.

(a) GAS AND HAZARDOUS LIQUIDS.—Section 60125(a) is amended to read as follows:

''(a) GAS AND HAZARDOUS LIQUID.—To carry out this chapter and other pipeline-related damage prevention activities of this title (except for section 60107), there are authorized to be appropriated to the Department of Transportation—

''(1) $26,000,000 for fiscal year 2001, of which $20,000,000 is to be derived from user fees for fiscal year 2001 collected under section 60301 of this title; and

''(2) $30,000,000 for each of the fiscal years 2002 and 2003 of which $23,000,000 is to be derived from user fees for fiscal year 2002 and fiscal year 2003 collected under section 60301 of this title.''.

(b) GRANTS TO STATES.—Section 60125(c) is amended to read as follows:

''(c) STATE GRANTS.—Not more than the following amounts may be appropriated to the Secretary to carry out section 60107—

''(1) $17,000,000 for fiscal year 2001, of which $15,000,000 is to be derived from user fees for fiscal year 2001 collected under section 60301 of this title; and

''(2) $20,000,000 for the fiscal years 2002 and 2003 of which $18,000,000 is to be derived from user fees for fiscal year 2002 and fiscal year 2003 collected under section 60301 of this title.''.

(c) OIL SPILLS.—Sections 60525 is amended by redesignating subsections (d), (e), and (f) as subsections (e), (f), (g) and inserting after subsection (c) the following:

''(d) OIL SPILL LIABILITY TRUST FUND.—Of the amounts available in the Oil Spill Liability Trust Fund, $8,000,000 shall be transferred to carry out programs authorized in this Act for fiscal year 2001, fiscal year 2002, and fiscal year 2003.''.

(d) PIPELINE INTEGRITY PROGRAM.—(1) There are authorized to be appropriated to the Secretary of Transportation for carrying out sections 11(b) and 12 of this Act $3,000,000, to be derived from user fees under section 60125 of title 49, United States Code, for each of the fiscal years 2001 through 2005.

(2) Of the amounts available in the Oil Spill Liability Trust Fund established by section 9509 of the Internal Revenue Code of 1986 (26 U.S.C. 9509), $3,000,000 shall be transferred to the Secretary of Transportation to carry out programs for detection, prevention and mitigation of oil spills under sections 11(b) and 12 of this Act for each of the fiscal years 2001 through 2005.

(3) There are authorized to be appropriated to the Secretary of Energy for carrying out sections 11(b) and 12 of this Act such sums as may be necessary for each of the fiscal years 2001 through 2005.

SEC. 14. OPERATOR ASSISTANCE IN INVESTIGATIONS.

(a) IN GENERAL.—If the Department of Transportation or the National Transportation Safety Board investigate an accident, the operator involved shall make available to the representative of the Department or the Board all records and information that in any way pertain to the accident (including integrity management plans and test results), and shall afford all reasonable assistance in the investigation of the accident.

(b) CORRECTIVE ACTION ORDERS.—Section 60112(d) is amended—

(1) by inserting ''(1)'' after ''CORRECTIVE ACTION ORDERS.—''; and

(2) by adding at the end the following:

''(2) If, in the case of a corrective action order issued following an accident, the Secretary determines that the actions of an employee carrying out an activity regulated under this chapter, including duties under section 60102(a), may have contributed substantially to the cause of the accident, the Secretary shall direct the operator to relieve the employee from performing those activities, reassign the employee, or place the employee on leave until—

''(A) the Secretary determines that the employee's performance of duty in carrying out the activity did not contribute substantially to the cause of the accident; or

''(B) the Secretary determines the employee has been re-qualified or re-trained as provided for in section 4 of the Pipeline Safety Improvement Act of 2000 and can safely perform those activities.

''(3) Disciplinary action taken by an operator under paragraph (2) shall be in accordance with the terms and conditions of any applicable collective bargaining agreement to the extent it is not inconsistent with the requirements of this section.''.

SEC. 15. PROTECTION OF EMPLOYEES PROVIDING PIPELINE SAFETY INFORMATION.

(a) IN GENERAL.—Chapter 601 is amended by adding at the end the following:

''§ 60129. Protection of employees providing pipeline safety information

''(a) DISCRIMINATION AGAINST PIPELINE EMPLOYEES.—No pipeline operator or contractor or subcontractor of a pipeline may discharge an employee or otherwise discriminate against an employee with respect to compensation, terms, conditions, or privileges of

employment because the employee (or any person acting pursuant to a request of the employee)—

''(1) provided, caused to be provided, or is about to provide (with any knowledge of the employer) or cause to be provided to the employer or Federal Government information relating to any violation or alleged violation of any order, regulation, or standard of the Research and Special Programs Administration or any other provision of Federal law relating to pipeline safety under this chapter or any other law of the United States;

''(2) has filed, caused to be filed, or is about to file (with any knowledge of the employer) or cause to be filed a proceeding relating to any violation or alleged violation of any order, regulation, or standard of the Administration or any other provision of Federal law relating to pipeline safety under this chapter or any other law of the United States;

''(3) testified or is about to testify in such a proceeding; or

''(4) assisted or participated or is about to assist or participate in such a proceeding.

''(b) DEPARTMENT OF LABOR COMPLAINT PROCEDURE.—

''(1) FILING AND NOTIFICATION.—A person who believes that he or she has been discharged or otherwise discriminated against by any person in violation of subsection (a) may, not later than 90 days after the date on which such violation occurs, file (or have any person file on his or her behalf) a complaint with the Secretary of Labor alleging such discharge or discrimination. Upon receipt of such a complaint, the Secretary of Labor shall notify, in writing, the person named in the complaint and the Administrator of the Research and Special Programs Administration of the filing of the complaint, of the allegations contained in the complaint, of the substance of evidence supporting the complaint, and of the opportunities that will be afforded to such person under paragraph (2).

''(2) INVESTIGATION; PRELIMINARY ORDER.—

''(A) IN GENERAL.—Not later than 60 days after the date of receipt of a complaint filed under paragraph (1) and after affording the person named in the complaint an opportunity to submit to the Secretary of Labor a written response to the complaint and an opportunity to meet with a representative of the Secretary to present statements from witnesses, the Secretary of Labor shall conduct an investigation and determine whether there is reasonable cause to believe that the complaint has merit and notify in writing the complainant and the person alleged to have committed a violation of subsection (a) of the Secretary's findings. If the Secretary of Labor concludes that there is reasonable cause to believe that a violation of subsection (a) has occurred, the Secretary shall accompany the Secretary's findings with a preliminary order providing the relief prescribed by paragraph (3)(B). Not later than 30 days after the date of notification of findings under this paragraph, either the person alleged to have committed the violation or the complainant may file objections to the findings or preliminary order, or both, and request a hearing on the record. The filing of such objections shall not operate to stay any reinstatement remedy contained in the preliminary order. Such hearings shall be conducted expeditiously. If a hearing is not requested in such 30-day period, the preliminary order shall be deemed a final order that is not subject to judicial review.

''(B) REQUIREMENTS.—

''(i) REQUIRED SHOWING BY COMPLAINANT.—The Secretary of Labor shall dismiss a complaint filed under this subsection and shall not conduct an investigation otherwise required under subparagraph (A) unless the complainant makes a prima facie showing that any behavior described in paragraphs (1) through (4) of subsection (a) was a contributing factor in the unfavorable personnel action alleged in the complaint.

''(ii) SHOWING BY EMPLOYER.—Notwithstanding a finding by the Secretary that the complainant has made the showing required under clause (i), no investigation otherwise required under subparagraph (A) shall be conducted if the employer demonstrates, by clear and convincing evidence, that the employer would have taken the same unfavorable personnel action in the absence of that behavior.

''(iii) CRITERIA FOR DETERMINATION BY SECRETARY.—The Secretary may determine that a violation of subsection (a) has occurred only if the complainant demonstrates that any behavior described in paragraphs (1) through (4) of subsection (a) was a contributing factor in the unfavorable personnel action alleged in the complaint.

''(iv) PROHIBITION.—Relief may not be ordered under subparagraph (A) if the employer demonstrates by clear and convincing evidence that the employer would have taken the same unfavorable personnel action in the absence of that behavior.

''(3) FINAL ORDER.—

''(A) DEADLINE FOR ISSUANCE; SETTLEMENT AGREEMENTS.—Not later than 120 days after the date of conclusion of a hearing under paragraph (2), the Secretary of Labor shall issue a final order providing the relief prescribed by this paragraph or denying the complaint. At any time before issuance of a final order, a proceeding under this subsection may be terminated on the basis of a settlement agreement entered into by the Secretary of Labor, the complainant, and the person alleged to have committed the violation.

''(B) REMEDY.—If, in response to a complaint filed under paragraph (1), the Secretary of Labor determines that a violation of subsection (a) has occurred, the Secretary of Labor shall order the person who committed such violation to—

''(i) take affirmative action to abate the violation;

''(ii) reinstate the complainant to his or her former position together with the compensation (including back pay) and restore the terms, conditions, and privileges associated with his or her employment; and

''(iii) provide compensatory damages to the complainant.

If such an order is issued under this paragraph, the Secretary of Labor, at the request of the complainant, shall assess against the person whom the order is issued a sum equal to the aggregate amount of all costs and expenses (including attorney's and expert witness fees) reasonably incurred, as determined by the Secretary of Labor, by the complainant for, or in connection with, the bringing the complaint upon which the order was issued.

''(C) FRIVOLOUS COMPLAINTS.—If the Secretary of Labor finds that a complaint under paragraph (1) is frivolous or has been brought in bad faith, the Secretary of Labor may award to the prevailing employer a reasonable attorney's fee not exceeding $1,000.

''(4) REVIEW.—

''(A) APPEAL TO COURT OF APPEALS.—Any person adversely affected or aggrieved by an order issued under paragraph (3) may obtain review of the order in the United States Court of Appeals for the circuit in which the violation, with respect to which the order was issued, allegedly occurred or the circuit in which the complainant resided on the date of such violation. The petition for review must be filed not later than 60 days after the date of issuance of the final order of the Secretary of Labor. Review shall conform to chapter 7 of title 5, United States Code. The commencement of proceedings under this subparagraph shall not, unless ordered by the court, operate as a stay of the order.

''(B) LIMITATION ON COLLATERAL ATTACK.—An order of the Secretary of Labor with respect to which review could have been obtained under subparagraph (A) shall not be subject to judicial review in any criminal or other civil proceeding.

''(5) ENFORCEMENT OF ORDER BY SECRETARY OF LABOR.—Whenever any person has failed to comply with an order issued under paragraph (3), the Secretary of Labor may file a civil action in the United States district court for the district in which the violation was found to occur to enforce such order. In actions brought under this paragraph, the district courts shall have jurisdiction to grant all appropriate relief, including, but not to be limited to, injunctive relief and compensatory damages.

''(6) ENFORCEMENT OF ORDER BY PARTIES.—

''(A) COMMENCEMENT OF ACTION.—A person on whose behalf an order was issued under paragraph (3) may commence a civil action against the person to whom such order was issued to require compliance with such order. The appropriate United States district court shall have jurisdiction, without regard to the amount in controversy or the citizenship of the parties, to enforce such order.

''(B) ATTORNEY FEES.—The court, in issuing any final order under this paragraph, may award costs of litigation (including reasonable attorney and expert witness fees) to any party whenever the court determines such award costs is appropriate.

''(c) MANDAMUS.—Any nondiscretionary duty imposed by this section shall be enforceable in a mandamus proceeding brought under section 1361 of title 28, United States Code.

''(d) NONAPPLICABILITY TO DELIBERATE VIOLATIONS.—Subsection (a) shall not apply with respect to an employee of a pipeline, contractor or subcontractor who, acting without direction from the pipeline contractor or subcontractor (or such person's agent), deliberately causes a violation of any requirement relating to pipeline safety under this chapter or any other law of the United States.

''(e) CONTRACTOR DEFINED.—In this section, the term 'contractor' means a company that performs safety-sensitive functions by contract for a pipeline.''.

(b) CIVIL PENALTY.—Section 60122(a) is amended by adding at the end the following:

''(3) A person violating section 60129, or an order issued thereunder, is liable to the Government for a civil penalty of not more than $1,000 for each violation. The penalties provided by paragraph (1) do not apply to a violation of section 60129 or an order issued thereunder.''.

(c) CONFORMING AMENDMENT.—The chapter analysis for chapter 601 is amended by adding at the end the following:

''60129. Protection of employees providing pipeline safety information.''.

SEC. 16. STATE PIPELINE SAFETY ADVISORY COMMITTEES.

Within 90 days after receiving recommendations for improvements to pipeline safety from an advisory committee appointed by the Governor of any State, the

Secretary of Transportation shall respond in writing to the committee setting forth what action, if any, the Secretary will take on those recommendations and the Secretary's reasons for acting or not acting upon any of the recommendations.

SEC. 17. FINES AND PENALTIES.

The Inspector General of the Department of Transportation shall conduct an analysis of the Department's assessment of fines and penalties on gas transmission and hazardous liquid pipelines, including the cost of corrective actions required by the Department in lieu of fines, and, no later than 6 months after the date of enactment of this Act, shall provide a report to the Senate Committee on Commerce, Science, and Transportation and the House Committee on Transportation and Infrastructure on any findings and recommendations for actions by the Secretary or Congress to ensure the fines assessed are an effective deterrent for reducing safety risks.

SEC. 18. STUDY OF RIGHTS-OF-WAY.

The Secretary of Transportation is authorized to conduct a study on how best to preserve environmental resources in conjunction with maintaining pipeline rights-of-way. The study shall recognize pipeline operators' regulatory obligations to maintain rights-of-way and to protect public safety.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Pennsylvania (Mr. SHUSTER) and the gentleman from Minnesota (Mr. OBERSTAR) each will control 20 minutes.

The Chair recognizes the gentleman from Pennsylvania (Mr. SHUSTER).

Mr. SHUSTER. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, today we are considering a bill to save lives. This legislation is tough new pipeline safety legislation that is going to significantly strengthen our Nation's pipeline safety laws. In the past year and a half, the Nation has suffered two tragic pipeline accidents.

This legislation reauthorizes our Nation's pipeline safety program for 3 years and makes a number of very important, substantive changes to the pipeline safety statute.

It reflects a year of intensive efforts by the Congress to bring a balanced measure to the floor. The legislation we have before us passed the United States Senate unanimously just a week or so ago by a vote of 99–0.

It was supported by the White House, the Secretary of Transportation, the National Governors Association, even the Mayor of Bellingham, Washington, the site of one of the tragic accidents.

Indeed, I would note this is very bipartisan. The Mayor of Bellingham happens to be a Democrat; many of the members of the Washington delegation are Republicans. This is not, and should not be, a political issue. It is a bipartisan issue attempting to deal with safety and save lives. It is a good bill, but it is not a perfect bill. It balances many competing concerns.

I know we are going to hear from my colleagues on the other side of the aisle, some of them at least, who feel that it does not go far enough. I happen to agree with them.

If I had my druthers, I would like to have worked out a House bill that we could bring to the floor, then pass it, then go to conference with the Senate, then negotiate a compromise, bring it back and bring back what I believe could be an even better bill.

The problem, however, is we are running out of time; that simply is not going to happen. The legislation that we have before us today does indeed address all of the major issues debated during the reauthorization effort on both sides of the Capitol. This legislation that we have before us today provides for mandatory inspections. It requires qualifications of pipeline personnel.

It requires certification so we know that people are competent in looking out for pipeline safety. It expands public access to information on pipeline operations, and it provides, very importantly, a greater role for the States in oversight of interstate pipelines.

It also provides for the ability to reassign employees involved in incidents during the investigation of those incidents. It significantly increases penalties and removes the penalty cap. It provides whistle-blower protection, and it significantly increases funding for the pipeline safety program.

It is a strong step in the direction of reducing risks and, indeed, reducing the awful possibility of losing lives. It improves the current pipeline safety program by several different movements, one of which is addressing criticisms which have been leveled by the NTSB, the IG and GAO, and not only by addressing those criticisms, but providing funding levels to effectively implement those tougher changes.

There are going to be those who say the bill does not go far enough. I happen to agree with that. I know the gentleman from Minnesota (Mr. OBERSTAR), my dear friend, would like the House to act. I agree with him. I would like the House to act also. The problem is we simply are running out of time. And if we do not move this good legislation, this safety legislation to save lives, there is not going to be any legislation, because we are not going to have the time to pass a House bill and go to conference and work out our differences.

□ 1645

There will not be any safety legislation, and I think that would be regrettable.

I think it is very important to note that Senator MURRAY from Washington strongly supports the bill, Senator BREAUX supports the bill, Senator MCCAIN supports the bill. This really should have been an easy matter for this body. The bill passed the Senate unanimously. It addresses a very serious pressing problem.

Unfortunately, some of my colleagues on the other side of the aisle apparently thought to politicize this issue and kill this legislation. I think that would be regrettable because if we kill the legislation, then we will not have improved pipeline safety. We will not have provided the opportunity to save lives.

So I say let us not let the perfect, which is unattainable, become the enemy of the good. This is a good bill. It is going to save lives. I urge my colleagues to support it.

Mr. Speaker, I reserve the balance of my time.

Mr. OBERSTAR. Mr. Speaker, I yield myself 5½ minutes.

Mr. Speaker, on Tuesday, July 8, 1986, a quiet neighborhood in Mounds View, Minnesota, at 4 a.m. was wrenched from its slumber by a shattering explosion. A wall of fire roared through the street, turning the night into an inextinguishable nightmare.

The explosion of a pipeline carrying unleaded gasoline killed a mother and her 7-year-old daughter, incinerated them, and severely injured another woman who emerged from her home.

Lawns were scorched, mailboxes melted, power lines were down, cars set afire, the road buckled, and trees wilted. A quarter of a million dollars of property damage was caused. The origin of it all: a ruptured hazardous liquid pipeline carrying gasoline between St. Paul and Duluth.

It focused the attention of the Congress and of the country and the review of the National Transportation Safety Board and the General Accounting Office on the need to improve the safety of the Nation's pipelines.

I was then chair of the Subcommittee on Investigations and Oversight and had been preparing for a hearing on pipeline safety when this tragedy occurred. We held those hearings.

Following the hearings, my then partner on that subcommittee, Mr. Clinger from Pennsylvania, and I made recommendations for safety improvements, including a substantial increase in pipeline inspections to detect problems before they lead to tragedy, better information on pipelines for persons who live near them, improvement in the data submitted by the Office of Pipeline Safety, improvements in cathodic protection, automatic shut-off valves to detect problems and prevent them from getting worse in suburbanized areas.

The NTSB agreed and issued recommendations that the Office of Pipeline Safety require operators to conduct periodic internal inspection of their lines. But nothing happened because the administration at the time did not want those recommendations to go into effect.

My two Senate Republican colleagues from Minnesota introduced legislation that required 3-year inspections, every 3 years. Tough inspections. Mandatory inspections. Established in legislation.

That was reflected in our hearings. So in 1992, Congress passed legislation requiring OPS to set requirements for operators to conduct internal inspections by 1995.

Today, 14 years after Mounds View, little progress has been made. The accident rate has not improved. In fact, it is increasing by 4 percent a year rate of accidents in pipelines. Twenty-four percent of the gas pipelines in this country are now more than 50 years old. The Office of Pipeline Safety has failed to step up to the plate and deal with the problem.

The Office of Pipeline Safety has failed to comply with 22 directives from Congress to adopt regulations and undertake the necessary studies and regulatory action. That office has the lowest rate of any in the Department of Transportation of accepting NTSB recommendations.

The bill before us is not as they, the industry, claim, a ''tough'' bill that will promote pipeline safety. The Senate bill mandates nothing beyond the current inadequate program of OPS. It leaves it to the discretion of OPS whether to adopt stronger programs. That approach has not worked.

This bill will be requirement 23 on the Office of Pipeline Safety to adopt regulations. They have not done it 22 other times, what makes anyone think they are going to do it now?

OPS has not issued a single final regulation requiring inspections. Just a short time ago, in the absence of inspection requirements, we had another tragedy. In Carlsbad, New Mexico, a 50-year-old pipeline exploded, killing 12 people, 5 children. Inspections showed that the pipeline had significant internal corrosion. It had never been properly inspected in 50 years. We cannot wait for OPS to do some more foot dragging in the face of this industry opposition to mandatory actions.

There is a whole group of people that do not want this legislation and want this legislation strengthened. We have been told right from the very outset, we were in the process, I say to the gentleman from Pennsylvania (Chairman SHUSTER), we had reached a staff agreement, we had moved forward with a bill, and then, the Senate, on September 7, passed their bill.

All of a sudden, we heard from the other body, you know the process over here in the Senate. There is not enough time left. That was a month ago. We could have had a bill on the floor. We could have been in conference with the Senate. We could even have some discussions with the Senate and do better, do better.

I resent the implication and the statements made on the floor of the other body down the hall from here that people in this body, with indirect reference to this Member, are objecting to this bill on political grounds. Bologna. Anyone who knows me knows I stand for principle and for safety, and that is what this debate is all about.

Mr. SHUSTER. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I want to say that I agree with so very much of what the gentleman from Minnesota (Mr. OBERSTAR) has said about the serious problems that have existed. If I could, I would wave a magic wand and get a bill through the House here that we could go to the Senate with and negotiate a compromise, and I think we could have a better product. Time is not on our side.

So I believe we are faced with the reality of we take this bill, which did, indeed, pass the Senate unanimously, 99 to 0, or we simply will not get any safety bill. I regret that, but I believe that is the reality of where we are.

Mr. Speaker, I am pleased to yield 2 minutes to a distinguished gentleman from Louisiana (Mr. TAUZIN).

Mr. TAUZIN. Mr. Speaker, the gentleman from Pennsylvania (Chairman SHUSTER) has said it best, of course we could do a better bill in the House. Of course, if we have the time, we could perhaps resolve all the problems in pipeline safety. But this Senate bill, passed by unanimous consent, is what we have.

It is a strong and effective bill. It makes some very important steps in favor of pipeline safety. It improves and expands the public's right to know about pipeline hazards. It requires pipeline operators to test and inspect. It requires the operators to qualify and test their personnel. It requires spills as small as 5 gallons to be reported. It significantly raises the penalties for safety violations. It invests in new technologies to improve pipeline safety. It provides protections for whistle blowers, an important part of this process. It increases State oversight and local government input. Finally, it increases funding for safety efforts.

Mr. Speaker, if one looked at a map of my State, and my district in particular, the third district in Louisiana, a map of pipelines across my district and the State, it looks like spaghetti. We are just absolutely covered with pipelines that carry all sorts of hazardous and very important products for America, oil, gas, liquids of all kinds.

Pipeline safety is incredibly important to the people of my State. I will say again what the gentleman from Pennsylvania (Chairman SHUSTER) has said, I think if we had the occasion to sit down in this Chamber and write a better bill than this one, I think we could because this bill is not perfect and could be improved.

But what has been agreed upon by the Senate, it dramatically advances pipeline safety. It is an incredibly important step in the right direction. For us not to take this step this session would be a shame. It would be, I think, a disregard of our duty. This is the opportunity for us to improve pipeline safety across this country. We need to take that important step. We need to pass this bill.

We will be back here next year. We can provide the oversight over the DOT and the other agencies to make sure they carry out the intent of both this act and other acts. I urge my colleagues to pass this bill.

Mr. OBERSTAR. Mr. Speaker, I yield 5 minutes to the gentleman from Michigan (Mr. DINGELL), the ranking member of the Committee on Commerce.

Mr. DINGELL. Mr. Speaker, I rise in opposition to this embarrassment that is called a piece of legislation, S. 2438. It does nothing to add to the safety of the American people or to ensure the safety of pipelines. There is little in this bill that cannot be done under existing law, and there is little in this bill that cannot be done by regulation at the Office of Pipeline Safety. It does little to correct the weakening that was done in the agreement which produced a bill which slipped through this House and through the Senate not long back and which resulted in significant weakening of the law with regard to pipeline safety.

It is time that we did something meaningful in the area of pipeline safety. The results of inaction by the Office of Pipeline Safety, a very weak agency, and by this Congress, are that there are more than 15 people dead in the last 18 months, including seven children under the age of 10.

The environment has suffered, too. In the first 9 months of this year, property and environmental damages from hazardous liquid pipeline accidents has already surpassed that of any other full year. Consumers have suffered from pipeline accidents on the Explorer pipeline in Texas and the Wolverine pipeline in my own State of Michigan. Those events helped drive the gasoline price to as high as $2.50 a gallon in parts of the Midwest this summer.

Inaction has hurt people. It has killed people. It has hurt the economy. It has raised gas and oil prices. There is no friend outside of this Chamber to the legislation except the pipeline industry. They are the only people that want this bill. They are the only people that do not know it is a sham, because they know there is something in it for them.

There is more inaction by OPS, there is more inaction by the Congress, and there is a weak law under which little, if anything, is going to be done to take care of the safety of the American people.

This legislation is opposed by organized labor. The AFL-CIO, the Teamsters, PACE, the transportation trades, the building and construction trades, the plumbers and the pipefitters all have sent letters urging Members to oppose this bill.

The bill is also opposed by environment and public safety groups, including the League of Conservation Voters, the Environmental Defense Fund, the Natural Resources Defense Council, Physicians for Social Responsibility, Clean Water Action, U.S. PIRG, and the National Pipeline Reform Coalition.

Finally, and most importantly, the families of the Bellingham, Washington pipeline disaster oppose this legislation. They sent a letter to the House of Representatives urging us to vote against this sham safety legislation. The bill, as initiated in the Senate, was named after the two 5-year-old boys in Bellingham who were killed last year. Those names were removed from the bill at the request of the parents of Wade King and Stephen Tsiorvas because, in their view, the legislation is so weak that it is unworthy of being named after their sons.

Who does support the bill? Pipeline companies and their trade organizations. They are the only ones supporting the bill. Why? Because it is a sweetheart deal, because it is not going to do anything.

My counsel to this House is based on years of experience with OPS and with pipeline safety and with the pipeline companies, and that is reject the bill. Nothing is going to happen other than the fact that we will save this House a little bit of time, and we will enable us to approach this bill in a more sensible way next year without the kind of, quite frankly, disgrace that we confront at this particular time.

□ 1700

I would simply observe, no one is going to be hurt by rejecting a bill like this, which does so little. Everyone will be helped by passing a decent piece of legislation. We can do that next year. There is no need to make haste to pass this kind of an abomination.

Mr. Speaker, I urge my colleagues, let us pass good legislation, let us strengthen pipeline safety, let us see to it that people are no longer killed by indifference and by poor legislation and by sweetheart deals cut which result in bad legislation coming to this House, and by weak organizations like the Office of Pipeline Safety, which does not do the job it should do in protecting the American people.

I urge the legislation be rejected. We can do a better job next year. Certainly we cannot do a worse job next year.

Mr. SHUSTER. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, when my good friend from Michigan, with whom I have stood shoulder to shoulder in fighting so many battles together, says that this legislation, if I heard him correctly, is only supported by the pipeline industry, I have to refer to numerous other important people, I think, and organizations which indeed have expressed their strong support for this legislation.

Senator PATTY MURRAY, Democrat of Washington, who is intimately familiar with the terrible problems, has come out strongly for this legislation; Senator SLADE GORTON, a Republican of Washington. So we have both the Republican and the Democratic Senators representing the whole State, a State which has been so badly hurt in the past, supporting the legislation. The Secretary of Transportation, Rodney Slater, who says this legislation is critical to much-needed improvements in pipeline safety program; Vice President AL GORE, and I might get in trouble with some of my colleagues over here for emphasizing this, but facts are facts. Vice President GORE said, ''I commend the Senate for taking action today on this important issue of pipeline safety and I urge the House to take up this legislation soon.''

The National Association of Regulatory Utility Commissioners. The National Governors' Association, which says, ''On behalf of the national governors, we are writing to urge you to support this legislation adopted by the Senate to improve oil and gas pipeline safety and to support prompt passage of such legislation.'' The newspaper in Bellingham, where the terrible tragedy occurred, says ''Given where we are now, the reforms provided by the Senate legislation are significant. We cannot wait. The time is now for pipeline safety legislation.''

And indeed, Senator PATTY MURRAY, who has been in the forefront of supporting this on the floor of the Senate said, ''Well, some critics say we'll start again next year; we'll do better next year. That means it will be at least a year. And how can we have so much faith that we will get anything stronger or anything at all under a new Congress and a new President?'' And she says, ''Let me ask a simple question. Will you take that bet, if your family's safety depended upon it? I wouldn't, and I don't think we can shirk our responsibility to protect the public this year.''

I find myself in a bit of an incongruous position in defending, in the midst of this heated political campaign, the Clinton administration, defending a Democratic administration who says we should pass this because it is so critical. And again, I emphasize we could have done a better job here in the House if we had had the time. But that simply is not the reality that we face, and so we should settle for a good piece of legislation, one which we indeed could have made better, but given the time, it is either this or nothing. And, indeed, if we want to bring up something next year to improve it further, we can certainly do that; but let us not continue to jeopardize the lives of American people, and in many cases young children, by doing nothing this year.

Mr. Speaker, I reserve the balance of my time.

Mr. OBERSTAR. Mr. Speaker, I yield 2 minutes to the gentleman from Massachusetts (Mr. MARKEY).

Mr. MARKEY. Mr. Speaker, I thank the gentleman for yielding me this time. He is noted for his generosity, and once again that is being exemplified here by his activities on the floor.

This is really a sad day when we are listening to Members of the House of Representatives tell every other Member that we should not have any judgment on a piece of legislation; we should just listen to the Senate.

Now, the gentleman from Pennsylvania would never, under any circumstances, have the Senate make every decision about every highway, every dam, every railroad in the United States. But he is out here today telling us that for pipeline safety, these pipes that go past homes and playgrounds all over the United States, that we should listen to the Senate. Since when did they become so wise?

The bill before us fails to repeal the cost-benefit provision put into the 1996 reauthorization bill. I opposed these provisions then and support their repeal now. Keeping that section on the book's allows for paralysis by analysis. The pipeline companies just squeeze these smaller communities and individual neighborhood groups to death because they cannot get over this huge procedural obstacle which is built into the existing piece of legislation.

Secondly, the bill does not meaningfully address the Department of Transportation's failure to enact many of the proposed safety recommendations issued by the National Transportation Safety Board. Here is what the National Transportation Safety Board, Chairman Jim Hall, said in the Boston Globe on March 5, 1999. He said that he would give the Office of Pipeline Safety a big fat F, F, on everything that it has done regarding the safety of pipelines in our country.

We are reauthorizing a bill with that kind of a grade being attached to it by the chairman of the National Transportation Safety Board? And moreover, the bill itself rejects the amendment which I tried to make in committee which would have held the Department's feet to the fire so they had deadlines that they had to meet in order to ensure there was public safety.

Who opposes this bill? I will tell my colleagues who opposes it. The Environmental Defense Fund, the National Resources Defense Council, and the League of Conservation Voters. In fact, the League of Conservation Voters is going to make this one of the votes for the year to get our grade. That is how important it is to them.

So, please, reject this and do the House of Representatives the honor of being allowed to deal with the subject itself and not allowing the Senate to do our thinking for us.

Mr. Speaker, submitted, as follows, for the RECORD, is a letter from the League of Conservation Voters regarding this matter:

LEAGUE OF CONSERVATION VOTERS,
Washington, October 6, 2000.

Re Oppose S. 2438, The Pipeline Safety Improvement Act of 2000

U.S. House of Representatives,
Washington, DC.

DEAR REPRESENTATIVE: The League of Conservation Voters (LCV) is the bipartisan, political voice of the national environmental community. Each year, LCV publishes the National Environmental Scoreboard, which details the voting records of Members of Congress on environmental legislation. The Scoreboard is distributed to LCV members, concerned voters nationwide, and the press.

LCV urges you to oppose S. 2438, the ''Pipeline Safety Improvement Act of 2000.'' S. 2438 does not contain any of the elements that are needed to significantly improve the safety of natural gas and oil pipelines.

According to the General Accounting Office, approximately four major pipeline accidents occur each week. The GAO also found that major accidents are increasing by approximately 4% annually at the same time that DOT's Office of Pipeline Safety's fines against the industry are declining: currently, only one in 25 violators receives a proposed fine. Oil pipelines spill over 6 million gallons annually, an amount equal to more than half of the Exxon Valdez release, and average spill size has been increasing since 1993 to over 44,000 gallons in 1999.

LCV believes that legislation to address pipeline safety issues must include the following three elements:

1. Strong regulatory standards (including pipeline testing type and frequency, leak detection requirements, etc.), and effective enforcement of those standards;

2. Expanded liability for releases; and,

3. Public accountability through right-to-know reporting and establishment and funding of regional advisory councils (similar to the councils in Alaska created by the Oil Pollution Act of 1990).

Several bills introduced in the House (H.R. 3558, 4792, and 5361) contain some or all of these critical pipeline safety provisions. In addition, LCV believes it is essential to remove the cost-benefit provisions put into section 60102(b) of the pipeline statute during its 1996 reauthorization, which are designed to prevent enactment of new safety and environmental protection regulations by requiring those regulations to meet economic and judicial tests that no other federal agency's standards must meet.

We urge you to vote no on S. 2438 and to pass a bill that is more protective of the environment and the public's health. LCV's Political Advisory Committee will consider including votes on these votes on these issues in compiling LCV's 2000 Scorecard: If you need more information, please call Betsy Loyless in my office at 202/785–8683.

Sincerely,

DEB CALLAHAN,
President.

Mr. SHUSTER. Mr. Speaker, I yield 5 minutes to the gentleman from Texas (Mr. BARTON).

Mr. BARTON of Texas. Mr. Speaker, I thank the gentleman from Pennsylvania (Mr. SHUSTER), the distinguished chairman of the Committee on Transportation and Infrastructure, for yielding me this time.

Mr. Speaker, I am a little bit puzzled at some of the opposition from the other side on this issue. My subcommittee held hearings on this legislation last year. My subcommittee passed the bill, I think, by unanimous consent out of the subcommittee. We passed a piece of legislation on this issue either by unanimous consent or with very few no votes out of the full Committee on Commerce, over a year ago. That legislation has languished as the Senate has worked its will on this same issue.

And now, as we are in the waning weeks of this Congress, the Senate has reported a bill that, quite frankly, is much stronger than the bill that came out of the Committee on Commerce. Our bill was a straight reauthorization of the existing pipeline safety law with some modifications. At the time of our hearings and the time of the debate in the committee, the Committee on Commerce, there were some concerns raised. The gentleman from Massachusetts (Mr. MARKEY), who just spoke, raised some concerns; but basically, at that point in time last year, it was felt that straight reauthorization with some modification was acceptable.

Now, what the other body has done is to actually present a much tougher bill in terms of safety. In fact, I think I could say with a straight face on the floor that this is the toughest pipeline safety bill to ever come before the House of Representatives. It increases fines in some cases by a factor of 20. It reduces the reporting requirements for liquid spills to 5 gallons. It increases dramatically the rights of local officials, safety agencies, and community residents to have access to important safety information from pipelines. It provides for a much expanded R&D program to improve pipeline safety technology. It provides, for the first time, whistle-blower protection for pipeline employees who wish to come forward and report possible safety or other types of violations.

Mr. Speaker, I could go on and on. I might add in the political context that the Clinton-Gore administration supported passage of this bill when it came out of the other body. The Democrat Senators from some of the States that have pipeline accidents in New Mexico and Washington State supported this bill when it was on the other body's floor.

So it comes over to us. Now, in a perfect world, we would like to have the Committee on Transportation and Infrastructure pass a bill, then go to the Committee on Rules and merge the Committee on Commerce bill and the Committee on Transportation and Infrastructure bill, then come to the floor and have a debate with some amendments. But we are late in the session, so we have put the Senate bill on the floor under suspension of the rules, which means it will take a two-thirds vote to pass this legislation later this evening.

I think we should be able to get a two-thirds vote. And if there are those that, for whatever reason, think that the Senate bill is imperfect, we can obviously come back to this legislation in the next Congress and, depending on which political party is in control, obviously reopen it and make further improvements, if that is necessary. But the decision today is do we pass the Senate bill. My judgment as subcommittee chairman that has jurisdiction on this issue is that the Senate bill is an improvement over current law, that it needs to be passed.

We should get the two-thirds vote. I have gone through the summary of the Senate legislation. I have looked at all of the analysis of the Senate legislation. I could quote some of the support groups that are supporting it. In addition to the Clinton-Gore administration, the National Governors' Conference is supporting this legislation. So it is a good piece of legislation.

I would hope that our colleagues, when we come to the floor later this evening, do pass this by a two-thirds vote so that we can send it on its way. If for some reason that fails, I would recommend to the leadership that we go to the Committee on Rules, we get a rule, and we bring it out under regular order, have a debate and vote it where it only needs a majority. But we felt like this was a strong enough piece of legislation that it could be put on the suspension calendar.

And, quite frankly, I thought it was noncontroversial enough to be put on the suspension calendar. So I am a little bit surprised about some of the statements that have been made so far on this particular bill.

Mr. Speaker, I rise in support of S. 2438, the Pipeline Safety Improvement Act of 2000. This legislation greatly improves the safe operation of natural gas, oil, and hazardous liquid pipelines and goes far to prevent future accidents.

The bill requires higher safety standards, allows a greater role for State participation, provides for strict accountability by the Department of Transportation to Congress, and allows increased public education and participation. It provides long term solutions for public safety by appropriating funds for Research and Development for innovative technologies for improving the structural integrity of pipelines and preventing accidents. And, it backs up these higher safety standards by sharply raising penalties for safety violators.

The recent accidents in Bellingham, Washington and New Mexico have made us all aware that higher safety standards and additional oversight authority benefit all of us. This legislation answers the concerns raised by those accidents. It requires the Department of Transportation to issue rules and for pipeline operators to develop programs that provide for: increased inspection of pipelines; increased maintenance; public input into the development of these programs; strengthened

training for pipeline employees; improved data collection about pipelines and about accidents; public education programs; availability of information to the public; greater emergency preparedness; an expanded State role in oversight, inspection, and investigation of interstate pipelines; and protection for employees that report safety violations. In addition, the legislation requires inspection reports, maps of pipeline facilities, and other data to be available to the public. It raises public awareness by requiring a public education program. Many of these programs have deadlines and require the Secretary of Transportation to report back to Congress on the progress of these programs within a certain period of time. And, as I stated earlier, penalties have been increased, in one instance from 25 thousand dollars to five hundred thousand dollars.

We know that it is essential to have public support for maintaining the safe operation of pipelines. That is why a ''whistleblower'' protection provision is included in this bill. Other bills do not have these protections for good citizens and employees. This legislation also brings in the experts—it provides for the National Academy of Sciences to advise the Secretary of Transportation on Research and Development for innovative technologies to improve the safety, reliability, and structural integrity of pipelines, and inspection and leak detection technology. Research and Development is also focused on minimizing the environmental impact of pipelines.

In sum, this legislation greatly advances the ultimate goal of preventing future accidents by requiring and enforcing stricter safety standards, and expanding the role of the States and the public to ensure the safe operation of pipelines. I strongly urge my colleagues to support S. 2438.

Mr. OBERSTAR. Mr. Speaker, I yield 1 minute to the gentleman from New Jersey (Mr. PASCRELL).

Mr. PASCRELL. Mr. Speaker, this is an insult to our intelligence. Let us put our cards on the table; let us say it the way it is. This legislation that we have just received from the Senate requires no periodic inspections. It requires zilch.

Number two, the people who do the inspections do not even have to be trained. Now, who are we kidding? Who are we really kidding on this legislation? This is a disgrace.

There are 2.2 million miles of pipeline in this country. And if my colleagues think this is going to help us, other than helping the pipeline companies, they are dead wrong and others are dead in the past 10 years.

My colleagues have heard the statistics. This is an insult that my colleagues would think that this is pipeline safety. Who are my colleagues doing their bidding for?

I have always stood up here with congeniality, but if my colleagues think this is going to help pipeline safety when these pipelines go into people's houses and through dormitories, do my colleagues know what we are now leading to? We are leading to a moratorium on pipelines until we get our own act together, and I do not care who supports it. We should vote this down.

□ 1715

Mr. OBERSTAR. Mr. Speaker, I yield 2 minutes to the gentleman from Washington (Mr. INSLEE).

Mr. INSLEE. Mr. Speaker, I rise to urge a no vote.

And that is not out of disrespect to the work done by Senators MCCAIN and MURRAY in the other Chamber in an attempt to advance this cause. But, Mr. Speaker, the majority leadership has not brought one single House bill on this issue to the floor of this House this session despite multiple tragedies in multiple States of this country, not one single bill.

And why is that important? It is important because, unless we have a strong mandate that pipelines be inspected, a stronger mandate than is in the Senate bill, we will be committing the very same blunder, the very same blunder that Congress has made for 20 years running. They have deferred to OPS to pass rules 22 times, and 22 times that has been ignored. The House bills that we want to vote on a simple chance to vote plug that gigantic hole.

Now, there is one thing I know. I am not a scientist. I am not a meteorologist. I am not a hydrologist. But there is one thing I know, and that is that nobody has ever gotten a different result by doing the same thing.

We must break this chain of failure and statutorily mandate inspections or commit the same blunder that every Congress has made late in the session saying, it is the best we can do. It is not the best we can do, and it is not up to American standards.

I am not alone in this opinion. The people with moral authority on this subject, the three families who sent their young men out on a nice day in Bellingham in June last year whose sons never came home, want us to defeat this bill and move on to a stronger bill.

Now, the oil and gas industry desperately wants this legislation. They have sent armies of lobbyists up here to try to get this bill through. But I am not voting for them. I am not voting with them. I am voting for the families. I am voting for Redmond and Kirkland. I am voting for the environmental community. I am voting for my conviction of conscience that we must enact a strong bill now or forever lose our chance until another string of tragedies occur.

I will say one more thing. The oil and gas pipeline industry understands pressure. Do not let them use this for a relief valve. Keep the pressure on and pass a strong bill.

Mr. SHUSTER. Mr. Speaker, I yield 1 minute to the gentleman from Texas (Mr. BARTON).

Mr. BARTON of Texas. Mr. Speaker, I thank the gentleman for yielding me the time.

Mr. Speaker, I want to point out once again, the Clinton-Gore administration supports passage of this bill. It passed the Senate by unanimous consent, which, if I understand correctly, there are 45 Democrat Senators in the other body. So this should not be a partisan issue.

I want to briefly read from the report that the gentleman from Michigan (Mr. DINGELL) asked the GAO to do on pipeline safety. On page 5, in the summary section, it says, ''The office,'' meaning the office that is responsible for overseeing pipeline safety, ''has historically had the lowest rate of implementation for these recommendations of any Transportation agency and has not implemented 22 statutory requirements, 12 of which date from 1992 or earlier.''

Now, the law that is before us is stronger than the current law. And the Clinton-Gore administration has not implemented the current law.

For my friends on the other side of the aisle that have concerns, legitimate concerns, direct those to the present administration. Help us pass this bill and then get it implemented.

Mr. OBERSTAR. Mr. Speaker, I yield myself 15 seconds.

Mr. Speaker, on October 3 the White House issued this statement: It is imperative that the House bring legislation to the floor as soon as possible so a new pipeline safety law that can be enacted before the end of the year.

The Secretary of Transportation said, referring to the bill Mr. DINGELL and I introduced, ''I urge the House leadership and its members to act quickly to pass comprehensive pipeline safety legislation and move to a conference with the Senate.''

There is no statement of administration support for this legislation.

Mr. Speaker, I yield 2 minutes to the gentleman from Washington (Mr. METCALF.)

Mr. METCALF. Mr. Speaker, I rise to oppose this bill because it is far, far too weak.

Pipeline safety has been one of my top priorities in this, my last term in the House. In a way, it is gratifying to see a bill debated on the floor today which addresses some of the most important safety issues facing our communities. The two Senators from my state, SLADE GORTON and PATTY MURRAY, fought tirelessly for pipeline safety in the other body and moved legislation forward which markedly improves current law in several key areas, including expanded right-to-know provisions, increased civil penalties for bad actors, and whistleblower protections. I am extremely grateful to them both for their sincere efforts.

Unfortunately, I cannot support the bill we will vote on today. At the end of the day, it still leaves far too much discretion in the hands of the Office of Pipeline Safety (OPS), an agency which has habitually ignored Congressional directives and National Transportation Safety Board recommendations. For example: as part of this bill, pipeline operators are required to

submit Integrity Management Plans to OPS which include periodic testing of their pipelines. There is no maximum period for frequency of inspections. Similar vagueness exists in the section dealing with employee training. In 1996, I voted against the last pipeline reauthorization bill because it removed the requirement that pipeline operators be certified as qualified to do their jobs. This bill does not reinstate that requirement.

Further, the language allows the states to take a more active role in pipeline safety regulation is weak, and in no way resembles my legislation, which is based on the model of the Clean Water Act. I fear that much of this bill could end up meaning nothing at all. We need to enact a law that leaves very little wiggle room to Federal regulators who have proven that they cannot be trusted to protect the public.

Proponents of this legislation admit that it is far from perfect. In fact, the strongest argument they make for its passage is that time is too short to pass something better. It may well be true that defeat of this bill means the death of pipeline legislation in this Congress. I am retiring at the end of this year, and would love to see a strong bill passed before I leave office. However, I would rather see Congress go back to the drawing board next year than pass this watered-down bill. I will vote against it, and would urge my colleagues to do the same.

Mr. OBERSTAR. Mr. Speaker, I yield 1 minute to the gentleman from Texas (Mr. DOGGETT).

Mr. DOGGETT. Mr. Speaker, pipelines are certainly important in supplying our Nation's energy needs. But in Travis County, Texas, when gasoline is to be pumped through a 50-year-old line not designed for gasoline located within a few feet of 11 public schools and across a major source of drinking water, the term ''pipeline safety'' is a conflict. It is an oxymoron.

Despite over thousands of Central Texans asking that they place the pipeline somewhere else, the Office of Pipeline Safety has been totally useless.

Frank King, for whose son this bill has been named, came all the way from Washington State to Austin, Texas, to meet with us to describe the horror that can develop when pipeline safety is neglected and pipelines are mislocated. This bill does his family absolutely no justice. It has been so weakened that it has even been blessed by the giant oil companies that are trying to impose the Longhorn pipeline on Central Texas neighborhoods.

We need a real pipeline safety bill, not a legislative illusion that does more to appease special interests than protect America's families. Reject this illusion tonight.

Mr. OBERSTAR. Mr. Speaker, I yield 1 minute to the gentleman from Massachusetts (Mr. TIERNEY).

Mr. TIERNEY. Mr. Speaker, I thank the ranking member for yielding me the time.

This Senate bill that is being proposed here today under the suspension rules falls very far short of the necessary protections that we need. And while some have said that this is a step in the right direction and some have even told us that we should not let the perfect be the enemy of the good, when is it that this House started letting only the passably good be the enemy of the best that we can do?

I agree with the gentleman from Texas (Mr. BARTON), we can do better and we should do better. And if we need to bring it to committee and allow it to come out under a regular rule so that we can put amendments to it, let us do it. But this bill as it came out of the Senate is too inadequate. It needs to be amended. We need to have inspections. We need to have training for workers so that they can do the right job on that for their own good and for the good of the public.

This is a bill that needs sorely to be corrected and to be improved. I ask that we do that in the right process, that we not settle here. There is nothing going to be accomplished by letting this pass in its present form. We can do much better. We can do much for many more people if we do the right thing and bring it back, let us amend it, let us make it a strong bill. Let us have safety in the pipelines.

Mr. OBERSTAR. Mr. Speaker, I yield myself the balance of the time.

Mr. Speaker, I just want to repeat the words of Marlene Robinson, mother of Liam Wood, whose life was lost in the Billingham pipeline tragedy.

He was 18 years old. He had just graduated from high school 5 days before. He did not go off on a party with his buddies. He went off fly fishing, the thing she said that made him happiest, 5 minutes from downtown. What he did not know was that a gas pipeline went through that area. A wall of fumes roared down that canyon and snuffed his life out, and then it exploded and incinerated two other children further on down.

That is what this is all about. Do not tell me this is about the good and the perfect. Do not tell me this is about the other body that will not give us time to consider the bill.

They passed their bill a month ago. We had a month to do something whether in committee or on this floor. We had a month to do something good for life.

And what Marlene Robinson said was that this bill does not do the job. If the Office of Pipeline Safety will not protect the health and safety of our children in the community, she said, then our lawmakers must.

She referred to this bill and said it is fatally weakened by effects of intense pressure from the pipeline industry. It is lives at stake. It is not political careers. It is not who is in charge. It is not who is the majority this year, who may be the majority next year. It is what we can do now.

We will be judged on whether we have made the pile higher and better and left a better legacy. We can do better than this bill. We can do something that we have been waiting 13 years to do, at least this gentleman has since the last hearings that I chaired on the subject and found in a Republican administration failure of this Office of Pipeline Safety to do its job, in a Democratic administration failure of the same office to do its job.

It is up to the Congress, as Mrs. Robinson said, it is up to us to draw the line, to protect communities, and to pass a bill that ensures safety for all of our children.

This is the hour of truth.

Mr. SHUSTER. Mr. Speaker, I yield myself the balance of the time.

Mr. Speaker, I would indeed point out that the complaints which my good friend has alluded to and which I agree with really are complaints about the Clinton-Gore administration for not enforcing the law and not being tough enough with their regulations. And indeed that is what we are trying to fix here.

In fact, I hear so much about the pipeline industry being for this, if we really wanted to help the pipeline industry, we would bottle up this legislation and not pass anything so there would be weaker than the weak current legislation on the books. Instead, we provide what is clearly stronger legislation.

Now, a year ago our good friends on the Committee on Commerce passed legislation on pipeline safety with virtually no substantive change in it and the very gentlemen, my good friends from the Committee on Commerce, who have taken the floor today to oppose this stronger legislation voted unanimously in favor of that weaker legislation which came out of their committee just a year ago.

So this indeed is stronger legislation, not as strong as I would like it to be. And if we had more time, my colleagues can bet we would be attempting to negotiate with the Senate an even better bill.

But the stark choice today is to live with the weak law we have or to accept the improvements passed by the Senate not overwhelmingly, that is not an adequate term, unanimously, 99–0, with 45 Democrats supporting the legislation.

So it clearly is bipartisan. It is a major step in the right direction. I would be happy to join with my friends next year if we are here to try to improve it further. But let us pass legislation which is going to save lives rather than defer that until another year.

And so, I strongly urge that this legislation be passed.

Mr. Speaker, I submit this Joint Explanatory Statement for the gentleman from Virginia (Chairman BLILEY) and myself.

S. 2438 requires the Secretary of Transportation to implement the safety improvement

recommendations provided for in the Department of Transportation Inspector General's Report. In addition, the legislation requires the Secretary of Transportation to submit reports on the implementation of those recommendations to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives. The Committee on Commerce of the House of Representatives also shares responsibility for pipeline safety legislation. Therefore, in addition to the abovementioned Committees, the Secretary of Transportation should also transmit such reports to the Committee on Commerce of the House of Representatives.

Mr. HOLT. Mr. Speaker, this nation has 157,000 miles of aging pipeline. The fact is that pipelines transport most of the natural gas and hazardous liquids in the United States.

In many places, pipelines go unnoticed. Sometimes people don't even know that there is a pipeline near their home.

However, in places like Lively, Texas; Mounds View, Minnesota; Bellingham, Washington; and Edison, New Jersey, just north of my district, pipelines are no longer taken for granted. Explosions have rocked these communities and taken innocent lives.

We need to ensure accidents like these will never happen again. We need stronger pipeline standards.

There must be statutorily required inspections at least once every five years.

There must be a national safety certification program for pipeline operators, like programs for railroad engineers or FAA mechanics.

And we need penalties for spills occurring on land to be made as stringent as existing penalties for spills occurring in water under the Clean Water Act.

S. 2438 does not ensure that these protections are provided.

I am proud to join my colleagues Representative INSLEE and Representative PASCRELL (PALLONE, BAIRD, SMITH, DICKS, MCDERMOTT are also sponsors) in sponsoring the ''Comprehensive Pipeline Safety Improvement Act of 2000'' (HR 4792) that will make these protections mandatory.

Time is running out in this Congress to provide these protections. We need to act now. For all these reasons, I will be opposing this bill today. I urge my colleagues to defeat S. 2438 so that we can bring up real, strong, pipeline safety legislation.

Ms. EDDIE BERNICE JOHNSON of Texas. Mr. Speaker, I rise in reluctant opposition to S. 2438, the Pipeline Safety Improvement Act of 2000.

All too often, Members of this body are faced with the unpleasant task of choosing between doing nothing at all or doing something that is inadequate. I will readily admit that S. 2438 is an improvement over the current pipeline safety regime. However, this Congress could have done so much more, and I believe that doing the inadequate would be a grave injustice to those who lost their lives in recent pipeline accidents and to the loved ones they left behind.

Proponents of S. 2438 tacitly admit that there bill does not do enough to improve pipeline safety standards and enforcement. They instead urge that we pass this bill because Congress simply does not have enough time to work on a stronger bill. The reality is that the House had plenty of time to consider how to improve on the Senate bill. Furthermore, even before we received the Senate bill, staff on the communities with jurisdiction over the bill were negotiating in good faith to reach a compromise to incorporate the key provisions of several bills introduced in the House. The failure of the House to act on true reform measures to improve pipeline safety merely epitomes this Congress' failure to enact a whole host of legislation to improve the health and safety of ordinary Americans.

It is still not too late to pass a strong pipeline safety bill before the 106th Congress adjourns. Representatives OBERSTAR and DINGELL recently introduced H.R. 5361, a bill that includes necessary provisions pertaining to accountability to the public, stronger safety standards, and more diligent enforcement. Now that the bill has failed to obtain the requisite two-thirds support to pass under suspension of the rules, I hope that S. 2438 will be reconsidered under regular order, thereby enabling the House to consider H.R. 5361 as an amendment in the nature of a substitute.

Mr. Speaker, it is still not too late to act on pipeline safety. I urge the House to pass H.R. 5361 or similar legislation.

Mr. MCDERMOTT. Mr. Speaker, I rise in opposition to S. 2438, the Senate pipeline bill in its current form. Pipeline safety is an issue of great importance, and one that hits very close to home for those of us in the Pacific Northwest, a pipeline explosion in Bellingham, Washington on June 10, 1999 killed three children. This and other recent tragedies have highlighted the need for strengthening federal pipeline safety laws; that is why I cosponsored H.R. 5361. Unfortunately, the bill that provides the greatest protection for workers and their families did not make it to the floor of the House. Since the House Leadership has scheduled a vote on S. 2438 under suspension of the rules, and no amendments may be offered for its improvement, I must vote against it.

S. 2438 fails to adequately protect our communities because the federal Office of Pipeline Safety (OPS) would not be required to take action on such critical matters as pipeline inspection, leak detection, worker protection and training, and fines. This is in stark contrast to the mandatory requirements that are included in H.R. 5361. The pipeline industry has succeeded in circumventing meaningful regulation for decades because of weak legislation. Passing S. 2438 would send yet another message to OPS that the industry can continue to do so.

Critics of the stronger House legislation say it has no chance of passing during this Congress, therefore, we must support the weaker Senate version—something is better than nothing. I disagree, once pipeline safety legislation is passed, the urgency to revisit the issue will diminish. At least until another deadly explosion.

Mr. Speaker, I submit the following Seattle Times op-ed into the RECORD. It is written by the parents of the three children killed in the Bellingham, Washington pipeline explosion and calls for Congress to pass the stronger House legislation.

[From the Seattle Times, Editorials & Opinion, Fri., Oct. 06, 2000]

PIPELINE SAFETY: DON'T SACRIFICE THE GOOD FOR THE STATUS QUO

(By Marlene Robinson and Bruce Brabec, Frank and Mary King, Katherine Dalen and Edwin Williams Special to The Times)

We are the parents who lost children when the Olympic pipeline exploded on June 10, 1999. As we struggled with our own loss, we also have struggled to give meaning to that loss by trying to make pipelines safer in this country. To our sadness and despair, before we were able to see meaningful pipeline reform occur, tragedy struck again with a pipeline explosion that killed 12 family members in New Mexico.

The Washington state delegation to Congress, led by Reps. Jay Inslee and Jack Metcalf, and Sens. Slade Gorton and Patty Murray, have done a wonderful job of pushing pipeline safety into the consciousness of Washington, D.C. Without their efforts, there would not now be a debate regarding whether to pass the weak bill that the Senate approved, or to wait for a real, meaningful bill from the House. For their efforts, we thank them.

In her recent guest commentary, Sen. Murray said that our push for a meaningful pipeline safety bill from the House means that we are willing ''to sacrifice the good for the perfect.'' We wish our choice was between good and perfect but, unfortunately, the bill that passed the Senate was so watered down by those who pay homage to the powerful oil and gas lobbyists, that in reality it would change very little.

The Senate pipeline bill leaves almost all decisions on critical matters, such as pipeline testing, pipeline leak detection, employee training, public involvement and fines, up to the discretion of the federal Office of Pipeline Safety (OPS). According to the General Accounting Office, OPS has failed to implement 22 legislative mandates Congress has passed since 1988. If you tell an agency to do something 22 times and they ignore you, by what logic do you think they will pay attention the 23rd time?

After a terrible pipeline explosion killed a mother and her daughter in Mounds View, Minn., in 1986, the industry and the OPS said they would develop new standards to ensure safety. They did not. After a huge pipeline explosion destroyed part of Edison, N.J., in 1994, the industry and OPS said they would develop new standards to ensure safety. They did not!

After three dead here in Bellingham, and now 12 more dead in New Mexico, guess what the industry and OPS are saying. Why should we trust them this time? Ask yourself why pipeline-safety organizations across the country are opposed to the Senate pipeline bill, while the pipeline industry is now trying to push for its passage.

For a pipeline bill to have real meaning, it has to take the discretion away from the industry-controlled Office of Pipeline Safety. It has to spell out clearly how often pipelines need to be tested, and how that testing is to be accomplished. It has to set strict penalties for companies that do not pay enough attention to their pipelines. It has to include strong local oversight of pipeline safety so those who have the most to lose it something goes wrong have a say in making sure that pipelines are safe. And it needs to ensure that the public can review a wide range of information regarding the pipeline that runs through their communities.

These requirements all made common sense, practical sense, and represent what a good pipeline safety bill would do. The Senate bill does not accomplish any of these, and we call on the members of the House to do what it takes to pass a stronger ball that secures the public true safety improvements.

Those who are advocating our acceptance of the inadequate Senate bill urge us not to ''sacrifice the good for the perfect.'' But the reality is that the Senate bill is a long way from ''good'' and will result in business as usual in an industry that enjoyed a net profit of 40 percent in 1999, while communities across the nation will continue to experience horrific failures of aging pipelines.

How many more sons and daughters will be lost before meaningful pipeline-safety reform is passed? We do not want to wait until next year, but we will if we must.

Fortunately, good pipeline-safety bills have already been drafted and introduced in the House. The House needs to pass one promptly, and the Senate needs to follow the House's lead and not sacrifice the good for the status quo.

The authors are parents of the three young people killed in the Bellingham pipeline disaster.

Mr. SHOWS. Mr. Speaker, pipeline safety is of great importance to environmentally sensitive areas. Some of the most environmentally sensitive pipeline facilities are cable suspension bridges that convey pipelines above rivers and canyons.

As a former state highway commissioner, I strongly believe that it is critical to maintain the approximately 4,000 pipeline bridges in this country or we will face the prospect of having to bore underground to replace this essential part of our infrastructure. It is important to clarify that cable suspension pipeline bridges have unique qualifications in addition to other pipelines that must be addressed to ensure safety through regular maintenance and inspection.

Pipeline safety legislation under consideration today requires that the operators and inspectors be properly trained to inspect all pipeline facilities. It is imperative that the inspectors of these pipelines possess specialized knowledge to properly determine the structural integrity and soundness of the cable suspension bridge that supports the pipeline as well as the pipeline itself. Such knowledge should include an understanding of and training in: steel fabrication, structural engineering fundamentals, pipeline behavior under operating pressure, the characteristics of all cable types used in suspension bridges, and the characteristics of reinforced concrete foundation structures.

It will be required through this bill that the Office of Pipeline Safety's technical experts, in conjunction with the industry, develop specific plans to ensure the integrity and safety of all pipelines. These regulations will ensure that all pipelines, including cable suspension pipeline bridges, are properly maintained and inspected to ensure the highest safety standards possible.

Mr. GREEN of Texas. Mr. Speaker, I am pleased today to rise in support of S. 2438, the Pipeline Safety Improvement Act of 2000. This legislation will provide tough new financial penalties for safety violations and will lower the spill reporting threshold to five gallons as opposed to 50 barrels under existing law. In addition, the bill requires pipeline companies to implement stronger training and qualifications requirements for their personnel and strengthens the public ''right to know'' and ''whistle-blower'' protections for pipeline company employees.

Each of these changes is designed to rebuild confidence in what has been one of the safest industries in the country. Unfortunately, no industry is perfect and the need for this legislation was highlighted by two recent pipeline explosions in Washington State and New Mexico. These two events have galvanized my belief that S. 2438 will move towards improving the industry safety record.

Although I would still like to include other public safety protections, I understand the need for a pipeline safety bill this year is clear. I look forward to continuing working with my colleagues on the Committee on Commerce that I serve on but also in the Committee on Transportation and Infrastructure if necessary to move even stronger legislation next year. Pipelines have been shown to be a much safer way to transport products than trucks or other methods and the current bill increases that safety factor.

I also want to point out what I believe should be the model pipeline in terms of safety. I, along with several of my Texas colleagues, have been working to secure Federal approval of a project called the Longhorn Pipeline. The Longhorn Pipeline begins at Galena Park, Texas, in east Harris County in the district I represent and goes across Texas for approximately 700 miles to El Paso, Texas. The Longhorn Mitigation Plan protects the environment and all the people along the pipeline route and is of a scope and rigor unprecedented in the pipeline industry. It includes measures designed to reduce the probability of a spill as well as measures designed to provide greater protection to the more sensitive areas, including areas where communities and drinking water supplies could be affected.

Longhorn was willing to take extraordinary steps to protect the people living in close proximity to their pipeline and I believe they have set the industry standard.

Mr. Speaker, transporting hazardous materials by pipeline is the safest and most economical way to deliver these products to market. S. 2438 will raise the bar of safety on our pipeline companies and punish those bad actors who operate on the margins of the safety envelope. Human lives and environmental quality are too important for us not to take action immediately.

Mr. HALL of Texas. Mr. Speaker, I rise today in support of S. 2438, the Pipeline Safety Improvement Act, a bill introduced by Senator JOHN MCCAIN which had bipartisan support in the Senate. My home state of Texas has more pipeline mileage than any other state, so maintaining the safe operation of these systems is important. In 1996, two teenagers were killed in my Congressional district while they were trying to warn their neighborhood about a leak from a pipeline carrying flammable butane. More can be done to improve pipeline safety, and this legislation represents the best—and for this Congress, the only—opportunity to make constructive changes.

Several of my colleagues have argued that we should kill this bill now, and work to pass another bill later, more along the lines of the bill introduced by my friends Mr. DINGELL and Mr. OBERSTAR. I respect the concerns of these gentlemen, but I would say to my friends that the bill before us today is a good bill. The question of which bill is tougher is relative—in some areas the McCain bill is tougher, and in other areas the Dingell/Oberstar bill is tougher. For example, the McCain bill has higher penalties for safety violations, protections for pipeline employee whistleblowers, more defined pipeline safety research and development goals, and temporary job assignment requirements for pipeline employees involved in an accident. But more importantly, it is worth noting that the McCain bill, and the bill introduced by Messrs. OBERSTAR and DINGELL, are much more alike than different. I think it's important that we not lose sight of this fact.

Mr. Speaker, the McCain bill has one other key advantage over any House legislation—it has already passed the Senate by a unanimous vote. Let's not drop the ball in the last few seconds of the game. Americans want safe pipelines. In this final week of the 106th Congress, we ought to join together to pass this laudable legislation, and work in the next Congress with Mr. DINGELL and Mr. OBERSTAR to ensure that the Act is implemented in a responsible manner.

Let's not let the perfect be the enemy of the good. I urge my colleagues to vote ''yes'' on S. 2438.

Mr. BLILEY. Mr. Speaker, I rise in support of S. 2438, the Pipeline Safety Improvement Act of 2000. This is a good bill which will improve the safety of our natural gas and hazardous liquid pipelines.

There are 325,000 miles of natural gas pipelines and almost 156,000 miles of hazardous liquid pipelines in the United States. These pipelines transport over 20 trillion cubic feet of natural gas and 616.5 billion ton-miles of oil and oil products each year. These pipelines are critical in moving the fuels necessary to heat and light our homes and businesses and power our cars. As we discovered last winter, when heating oil was in short supply in the Northeast, and this past summer, when certain types of gasoline had difficulty reaching cities in the Midwest, these pipelines are also an important part of our economy. Therefore, it is important that these pipelines are operated as safely as possible, not only to protect individuals living or working near these

lines and the environment, but to also assure that these fuels get to where they are needed.

The natural gas and hazardous liquid pipeline safety programs are essential to preserving the safety of our communities from the risk posed by pipelines. Since 1968, the Natural Gas and Hazardous Liquid Pipeline Safety Acts have been the primary authorities through which the Department of Transportation has instituted regulations safeguarding our national pipeline system. This statute must be periodically reauthorized and the current authorization expires at the end of Fiscal Year 2000. The Commerce Committee shares jurisdiction over pipeline safety and has worked towards reauthorization of this important Act since early last year. We are including in the record today, a joint explanation with Chairman Shuster, indicating that reports required by S. 2438 should be provided to the Committee on Commerce, as well as the Committee on Transportation and Infrastructure, so that both Committees can continue to monitor the implementation of this Act.

With the recent accidents in Bellingham, Washington and New Mexico, the Department of Transportation's pipeline safety program has been placed under scrutiny by Congress and others. Unfortunately, that scrutiny has revealed some real shortcomings in the program. As analysis of the pipeline safety program conducted by the Inspector General of the Department of Transportation recommended six things that could be done to improve the pipeline safety program. For the most part, these are simple things: complete the actions Congress mandated in 1992 and 1996, expand the focus of its research and development programs, develop a program to better train its inspectors on the latest technologies, revise its system of collecting and processing accident date to allow for more detailed trend analysis, require revised accident reports when necessary, and respond to open National Transportation Safety Board safety recommendations. These simple actions can have big impacts on improved pipeline safety.

S. 2438 requires the Office of Pipeline Safety to comply with these recommendations. It also contains provisions requiring periodic testing of pipelines, improved training for pipeline operators, improved public information, increased reporting of spills. In addition, the bill increases State and local oversight and input, provides for more targeted research and development to improve pipeline safety, and provides increased funding for the Office of Pipeline Safety. Finally, the bill provides important protection for whistleblowers.

I know there are some who would like to put in place even more mandates. I don't think that is the answer. Greater accountability is key. Unfortunately, as long as we have an Office of Pipeline Safety that fails to act on the Congressional mandates already in place both new and old mandates will not be worth the paper they are written on. And one thing Washington doesn't need more of is paper.

I believe this bill strikes the right balance between new mandates targeted at specific problems and accountability for implementing old mandates. I urge my colleagues to support this legislation.

Mr. ROTHMAN. Mr. Speaker, I rise today in strong opposition to S. 2438.

I oppose this bill because it is weak and does next to nothing to ensure the safety of my constituents who live or work near a natural gas pipeline.

Sadly, thirteen years after the National Transportation Safety Board first recommended that pipeline operators inspect their pipelines to identify corrosion or other mechanical damage—nothing has been done.

The Department of Transportation has not moved on the NTSB's 1987 recommendation and no regulations exist today to force pipeline operators to regularly inspect their pipelines.

I am deeply concerned over the issue of pipeline safety because in New Jersey, the most densely populated state in the nation, tens of thousands of residents live and work near areas cris-crossed by pipelines.

As my colleagues from New Jersey will remember, it was only six years ago that a massive natural gas pipeline explosion occurred in Edison, New Jersey.

That pipeline explosion destroyed eight apartment buildings and disrupted what was once a stable neighborhood.

Mr. Speaker, there are plans to today to expand a natural gas pipeline in Bergen County, New Jersey, a pipeline that would run very near a residential neighborhood and a playground in North Arlington, New Jersey.

How can this Congress, in good conscience, pass a bill that simply extends the status quo—and does not require the Department of Transportation to issue any meaningful regulations designed to address pipeline safety issues?

What will we say when and if a pipeline problem harms innocent individuals in North Arlington, New Jersey or elsewhere in America?

I urge my colleagues to oppose this weak bill that fails and honor our obligation to protect the public's safety.

Mr. SANDLIN. Mr. Speaker, I rise in strong support of S. 2438, the King and Tsiorvas Pipeline Safety Improvement Act. In order to know why this legislation is so important, one only has to remember that seventeen U.S. citizens have died in pipeline accidents during this Congress.

By passing this legislation, the House will be taking an important step in avoiding future pipeline tragedies. We all recognize that natural gas, oil, gasoline, diesel fuel, and other industrial liquids play key roles in the nation's economy. Over 3,000 natural gas operators and 52,000 master meter and liquefied natural gas operators and over 200 hazardous liquid operators bring these products to market. Transporting both gaseous and liquid materials safely through an intricate network of over 1,750,000 miles of pipeline is a complex undertaking. Today, we have the opportunity to better protect the public from the dangers of pipeline operations.

Among other things, S. 2438 will improve current law by investing in new technology to improve pipeline safety, increasing civil penalties for safety violations, and requiring pipeline operators to conduct periodic inspections of their systems. In addition, in response to accusations that the Office of Pipeline Safety (OPS) has not always done its job in the past S. 2438 provides a significant increase in funds for the OPS to enable it to hire more personnel to handle the mandates that Congress has already required.

Some of our colleagues will argue that this bill is not strong enough. In fact, S. 2438 is the strongest pipeline safety reform ever adopted by either body of Congress. This bill represents meaningful reform. It was crafted by a bipartisan group of legislators who worked through months of meetings and negotiations to develop the best bill possible. The resulting legislation is so strong that both the Vice President and the Secretary of Transportation supported passage of S. 2438.

Let's not put process over results. Our nation needs strong pipeline safety legislation this year. The safety of millions of Americans is at stake, and S. 2438 is a strong, workable bill that will result in vast improvements over the current safeguards for pipeline operations. I urge all Members to support S. 2438. It is a good bipartisan bill that will take an effective first step towards improving pipeline safety.

Mr. SHUSTER. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore (Mr. DICKEY). The question is on the motion offered by the gentleman from Pennsylvania (Mr. SHUSTER) that the House suspend the rules and pass the Senate bill, S. 2438.

The question was taken.

Mr. OBERSTAR. Mr. Speaker, I object to the vote on the ground that a quorum is not present and make the point of order that a quorum is not present.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX and the Chair's prior announcement, further proceedings on this motion will be postponed.

The point of no quorum is considered withdrawn.

□ 1730

DISASTER MITIGATION ACT OF 2000

Mr. SHUSTER. Mr. Speaker, I move to suspend the rules and concur in the Senate amendment to the House amendment to the Senate amendment to the bill (H.R. 707) to amend the Robert T. Stafford Disaster Relief and Emergency Assistance Act to authorize a program for predisaster mitigation, to streamline the administration of disaster relief, to control the Federal costs of disaster assistance, and for other purposes.

The Clerk read as follows:

Senate amendment to House amendment to Senate amendment:

In lieu of the matter proposed to be inserted by the House amendment, insert:

SECTION 1. SHORT TITLE; TABLE OF CONTENTS.

(a) SHORT TITLE.—This Act may be cited as the ''Disaster Mitigation Act of 2000''.

(b) TABLE OF CONTENTS.—The table of contents of this Act is as follows:

Sec. 1. Short title; table of contents.

TITLE I—PREDISASTER HAZARD MITIGATION

Sec. 101. Findings and purpose.
Sec. 102. Predisaster hazard mitigation.

Sec. 103. Interagency task force.
Sec. 104. Mitigation planning; minimum standards for public and private structures.

TITLE II—STREAMLINING AND COST REDUCTION

Sec. 201. Technical amendments.
Sec. 202. Management costs.
Sec. 203. Public notice, comment, and consultation requirements.
Sec. 204. State administration of hazard mitigation grant program.
Sec. 205. Assistance to repair, restore, reconstruct, or replace damaged facilities.
Sec. 206. Federal assistance to individuals and households.
Sec. 207. Community disaster loans.
Sec. 208. Report on State management of small disasters initiative.
Sec. 209. Study regarding cost reduction.

TITLE III—MISCELLANEOUS

Sec. 301. Technical correction of short title.
Sec. 302. Definitions.
Sec. 303. Fire management assistance.
Sec. 304. Disaster grant closeout procedures.
Sec. 305. Public safety officer benefits for certain Federal and State employees.
Sec. 306. Buy American.
Sec. 307. Treatment of certain real property.
Sec. 308. Study of participation by Indian tribes in emergency management.

TITLE I—PREDISASTER HAZARD MITIGATION

SEC. 101. FINDINGS AND PURPOSE.

(a) FINDINGS.—Congress finds that—

(1) natural disasters, including earthquakes, tsunamis, tornadoes, hurricanes, flooding, and wildfires, pose great danger to human life and to property throughout the United States;

(2) greater emphasis needs to be placed on—

(A) identifying and assessing the risks to States and local governments (including Indian tribes) from natural disasters;

(B) implementing adequate measures to reduce losses from natural disasters; and

(C) ensuring that the critical services and facilities of communities will continue to function after a natural disaster;

(3) expenditures for postdisaster assistance are increasing without commensurate reductions in the likelihood of future losses from natural disasters;

(4) in the expenditure of Federal funds under the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5121 et seq.), high priority should be given to mitigation of hazards at the local level; and

(5) with a unified effort of economic incentives, awareness and education, technical assistance, and demonstrated Federal support, States and local governments (including Indian tribes) will be able to—

(A) form effective community-based partnerships for hazard mitigation purposes;

(B) implement effective hazard mitigation measures that reduce the potential damage from natural disasters;

(C) ensure continued functionality of critical services;

(D) leverage additional non-Federal resources in meeting natural disaster resistance goals; and

(E) make commitments to long-term hazard mitigation efforts to be applied to new and existing structures.

(b) PURPOSE.—The purpose of this title is to establish a national disaster hazard mitigation program—

(1) to reduce the loss of life and property, human suffering, economic disruption, and disaster assistance costs resulting from natural disasters; and

(2) to provide a source of predisaster hazard mitigation funding that will assist States and local governments (including Indian tribes) in implementing effective hazard mitigation measures that are designed to ensure the continued functionality of critical services and facilities after a natural disaster.

SEC. 102. PREDISASTER HAZARD MITIGATION.

(a) IN GENERAL.—Title II of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5131 et seq.) is amended by adding at the end the following:

"SEC. 203. PREDISASTER HAZARD MITIGATION.

"(a) DEFINITION OF SMALL IMPOVERISHED COMMUNITY.—In this section, the term 'small impoverished community' means a community of 3,000 or fewer individuals that is economically disadvantaged, as determined by the State in which the community is located and based on criteria established by the President.

"(b) ESTABLISHMENT OF PROGRAM.—The President may establish a program to provide technical and financial assistance to States and local governments to assist in the implementation of predisaster hazard mitigation measures that are cost-effective and are designed to reduce injuries, loss of life, and damage and destruction of property, including damage to critical services and facilities under the jurisdiction of the States or local governments.

"(c) APPROVAL BY PRESIDENT.—If the President determines that a State or local government has identified natural disaster hazards in areas under its jurisdiction and has demonstrated the ability to form effective public-private natural disaster hazard mitigation partnerships, the President, using amounts in the National Predisaster Mitigation Fund established under subsection (i) (referred to in this section as the 'Fund'), may provide technical and financial assistance to the State or local government to be used in accordance with subsection (e).

"(d) STATE RECOMMENDATIONS.—

"(1) IN GENERAL.—

"(A) RECOMMENDATIONS.—The Governor of each State may recommend to the President not fewer than 5 local governments to receive assistance under this section.

"(B) DEADLINE FOR SUBMISSION.—The recommendations under subparagraph (A) shall be submitted to the President not later than October 1, 2001, and each October 1st thereafter or such later date in the year as the President may establish.

"(C) CRITERIA.—In making recommendations under subparagraph (A), a Governor shall consider the criteria specified in subsection (g).

"(2) USE.—

"(A) IN GENERAL.—Except as provided in subparagraph (B), in providing assistance to local governments under this section, the President shall select from local governments recommended by the Governors under this subsection.

"(B) EXTRAORDINARY CIRCUMSTANCES.—In providing assistance to local governments under this section, the President may select a local government that has not been recommended by a Governor under this subsection if the President determines that extraordinary circumstances justify the selection and that making the selection will further the purpose of this section.

"(3) EFFECT OF FAILURE TO NOMINATE.—If a Governor of a State fails to submit recommendations under this subsection in a timely manner, the President may select, subject to the criteria specified in subsection (g), any local governments of the State to receive assistance under this section.

"(e) USES OF TECHNICAL AND FINANCIAL ASSISTANCE.—

"(1) IN GENERAL.—Technical and financial assistance provided under this section—

"(A) shall be used by States and local governments principally to implement predisaster hazard mitigation measures that are cost-effective and are described in proposals approved by the President under this section; and

"(B) may be used—

"(i) to support effective public-private natural disaster hazard mitigation partnerships;

"(ii) to improve the assessment of a community's vulnerability to natural hazards; or

"(iii) to establish hazard mitigation priorities, and an appropriate hazard mitigation plan, for a community.

"(2) DISSEMINATION.—A State or local government may use not more than 10 percent of the financial assistance received by the State or local government under this section for a fiscal year to fund activities to disseminate information regarding cost-effective mitigation technologies.

"(f) ALLOCATION OF FUNDS.—The amount of financial assistance made available to a State (including amounts made available to local governments of the State) under this section for a fiscal year—

"(1) shall be not less than the lesser of—

"(A) $500,000; or

"(B) the amount that is equal to 1.0 percent of the total funds appropriated to carry out this section for the fiscal year;

"(2) shall not exceed 15 percent of the total funds described in paragraph (1)(B); and

"(3) shall be subject to the criteria specified in subsection (g).

"(g) CRITERIA FOR ASSISTANCE AWARDS.—In determining whether to provide technical and financial assistance to a State or local government under this section, the President shall take into account—

"(1) the extent and nature of the hazards to be mitigated;

"(2) the degree of commitment of the State or local government to reduce damages from future natural disasters;

"(3) the degree of commitment by the State or local government to support ongoing non-Federal support for the hazard mitigation measures to be carried out using the technical and financial assistance;

"(4) the extent to which the hazard mitigation measures to be carried out using the technical and financial assistance contribute to the mitigation goals and priorities established by the State;

"(5) the extent to which the technical and financial assistance is consistent with other assistance provided under this Act;

"(6) the extent to which prioritized, cost-effective mitigation activities that produce meaningful and definable outcomes are clearly identified;

"(7) if the State or local government has submitted a mitigation plan under section 322, the extent to which the activities identified under paragraph (6) are consistent with the mitigation plan;

"(8) the opportunity to fund activities that maximize net benefits to society;

"(9) the extent to which assistance will fund mitigation activities in small impoverished communities; and

"(10) such other criteria as the President establishes in consultation with State and local governments.

"(h) FEDERAL SHARE.—

"(1) IN GENERAL.—Financial assistance provided under this section may contribute up to 75 percent of the total cost of mitigation activities approved by the President.

"(2) SMALL IMPOVERISHED COMMUNITIES.—Notwithstanding paragraph (1), the President may contribute up to 90 percent of the total cost of a mitigation activity carried out in a small impoverished community.

"(i) NATIONAL PREDISASTER MITIGATION FUND.—

"(1) ESTABLISHMENT.—The President may establish in the Treasury of the United States a

fund to be known as the 'National Predisaster Mitigation Fund', to be used in carrying out this section.

''(2) TRANSFERS TO FUND.—There shall be deposited in the Fund—

''(A) amounts appropriated to carry out this section, which shall remain available until expended; and

''(B) sums available from gifts, bequests, or donations of services or property received by the President for the purpose of predisaster hazard mitigation.

''(3) EXPENDITURES FROM FUND.—Upon request by the President, the Secretary of the Treasury shall transfer from the Fund to the President such amounts as the President determines are necessary to provide technical and financial assistance under this section.

''(4) INVESTMENT OF AMOUNTS.—

''(A) IN GENERAL.—The Secretary of the Treasury shall invest such portion of the Fund as is not, in the judgment of the Secretary of the Treasury, required to meet current withdrawals. Investments may be made only in interest-bearing obligations of the United States.

''(B) ACQUISITION OF OBLIGATIONS.—For the purpose of investments under subparagraph (A), obligations may be acquired—

''(i) on original issue at the issue price; or

''(ii) by purchase of outstanding obligations at the market price.

''(C) SALE OF OBLIGATIONS.—Any obligation acquired by the Fund may be sold by the Secretary of the Treasury at the market price.

''(D) CREDITS TO FUND.—The interest on, and the proceeds from the sale or redemption of, any obligations held in the Fund shall be credited to and form a part of the Fund.

''(E) TRANSFERS OF AMOUNTS.—

''(i) IN GENERAL.—The amounts required to be transferred to the Fund under this subsection shall be transferred at least monthly from the general fund of the Treasury to the Fund on the basis of estimates made by the Secretary of the Treasury.

''(ii) ADJUSTMENTS.—Proper adjustment shall be made in amounts subsequently transferred to the extent prior estimates were in excess of or less than the amounts required to be transferred.

''(j) LIMITATION ON TOTAL AMOUNT OF FINANCIAL ASSISTANCE.—The President shall not provide financial assistance under this section in an amount greater than the amount available in the Fund.

''(k) MULTIHAZARD ADVISORY MAPS.—

''(1) DEFINITION OF MULTIHAZARD ADVISORY MAP.—In this subsection, the term 'multihazard advisory map' means a map on which hazard data concerning each type of natural disaster is identified simultaneously for the purpose of showing areas of hazard overlap.

''(2) DEVELOPMENT OF MAPS.—In consultation with States, local governments, and appropriate Federal agencies, the President shall develop multihazard advisory maps for areas, in not fewer than 5 States, that are subject to commonly recurring natural hazards (including flooding, hurricanes and severe winds, and seismic events).

''(3) USE OF TECHNOLOGY.—In developing multihazard advisory maps under this subsection, the President shall use, to the maximum extent practicable, the most cost-effective and efficient technology available.

''(4) USE OF MAPS.—

''(A) ADVISORY NATURE.—The multihazard advisory maps shall be considered to be advisory and shall not require the development of any new policy by, or impose any new policy on, any government or private entity.

''(B) AVAILABILITY OF MAPS.—The multihazard advisory maps shall be made available to the appropriate State and local governments for the purposes of—

''(i) informing the general public about the risks of natural hazards in the areas described in paragraph (2);

''(ii) supporting the activities described in subsection (e); and

''(iii) other public uses.

''(l) REPORT ON FEDERAL AND STATE ADMINISTRATION.—Not later than 18 months after the date of enactment of this section, the President, in consultation with State and local governments, shall submit to Congress a report evaluating efforts to implement this section and recommending a process for transferring greater authority and responsibility for administering the assistance program established under this section to capable States.

''(m) TERMINATION OF AUTHORITY.—The authority provided by this section terminates December 31, 2003.''.

(b) CONFORMING AMENDMENT.—Title II of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5131 et seq.) is amended by striking the title heading and inserting the following:

''TITLE II—DISASTER PREPAREDNESS AND MITIGATION ASSISTANCE''.

SEC. 103. INTERAGENCY TASK FORCE.

Title II of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5131 et seq.) (as amended by section 102(a)) is amended by adding at the end the following:

''SEC. 204. INTERAGENCY TASK FORCE.

''(a) IN GENERAL.—The President shall establish a Federal interagency task force for the purpose of coordinating the implementation of predisaster hazard mitigation programs administered by the Federal Government.

''(b) CHAIRPERSON.—The Director of the Federal Emergency Management Agency shall serve as the chairperson of the task force.

''(c) MEMBERSHIP.—The membership of the task force shall include representatives of—

''(1) relevant Federal agencies;

''(2) State and local government organizations (including Indian tribes); and

''(3) the American Red Cross.''.

SEC. 104. MITIGATION PLANNING; MINIMUM STANDARDS FOR PUBLIC AND PRIVATE STRUCTURES.

(a) IN GENERAL.—Title III of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5141 et seq.) is amended by adding at the end the following:

''SEC. 322. MITIGATION PLANNING.

''(a) REQUIREMENT OF MITIGATION PLAN.—As a condition of receipt of an increased Federal share for hazard mitigation measures under subsection (e), a State, local, or tribal government shall develop and submit for approval to the President a mitigation plan that outlines processes for identifying the natural hazards, risks, and vulnerabilities of the area under the jurisdiction of the government.

''(b) LOCAL AND TRIBAL PLANS.—Each mitigation plan developed by a local or tribal government shall—

''(1) describe actions to mitigate hazards, risks, and vulnerabilities identified under the plan; and

''(2) establish a strategy to implement those actions.

''(c) STATE PLANS.—The State process of development of a mitigation plan under this section shall—

''(1) identify the natural hazards, risks, and vulnerabilities of areas in the State;

''(2) support development of local mitigation plans;

''(3) provide for technical assistance to local and tribal governments for mitigation planning; and

''(4) identify and prioritize mitigation actions that the State will support, as resources become available.

''(d) FUNDING.—

''(1) IN GENERAL.—Federal contributions under section 404 may be used to fund the development and updating of mitigation plans under this section.

''(2) MAXIMUM FEDERAL CONTRIBUTION.—With respect to any mitigation plan, a State, local, or tribal government may use an amount of Federal contributions under section 404 not to exceed 7 percent of the amount of such contributions available to the government as of a date determined by the government.

''(e) INCREASED FEDERAL SHARE FOR HAZARD MITIGATION MEASURES.—

''(1) IN GENERAL.—If, at the time of the declaration of a major disaster, a State has in effect an approved mitigation plan under this section, the President may increase to 20 percent, with respect to the major disaster, the maximum percentage specified in the last sentence of section 404(a).

''(2) FACTORS FOR CONSIDERATION.—In determining whether to increase the maximum percentage under paragraph (1), the President shall consider whether the State has established—

''(A) eligibility criteria for property acquisition and other types of mitigation measures;

''(B) requirements for cost effectiveness that are related to the eligibility criteria;

''(C) a system of priorities that is related to the eligibility criteria; and

''(D) a process by which an assessment of the effectiveness of a mitigation action may be carried out after the mitigation action is complete.

''SEC. 323. MINIMUM STANDARDS FOR PUBLIC AND PRIVATE STRUCTURES.

''(a) IN GENERAL.—As a condition of receipt of a disaster loan or grant under this Act—

''(1) the recipient shall carry out any repair or construction to be financed with the loan or grant in accordance with applicable standards of safety, decency, and sanitation and in conformity with applicable codes, specifications, and standards; and

''(2) the President may require safe land use and construction practices, after adequate consultation with appropriate State and local government officials.

''(b) EVIDENCE OF COMPLIANCE.—A recipient of a disaster loan or grant under this Act shall provide such evidence of compliance with this section as the President may require by regulation.''.

(b) LOSSES FROM STRAIGHT LINE WINDS.—The President shall increase the maximum percentage specified in the last sentence of section 404(a) of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5170c(a)) from 15 percent to 20 percent with respect to any major disaster that is in the State of Minnesota and for which assistance is being provided as of the date of enactment of this Act, except that additional assistance provided under this subsection shall not exceed $6,000,000. The mitigation measures assisted under this subsection shall be related to losses in the State of Minnesota from straight line winds.

(c) CONFORMING AMENDMENTS.—

(1) Section 404(a) of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5170c(a)) is amended—

(A) in the second sentence, by striking ''section 409'' and inserting ''section 322''; and

(B) in the third sentence, by striking ''The total'' and inserting ''Subject to section 322, the total''.

(2) Section 409 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5176) is repealed.

TITLE II—STREAMLINING AND COST REDUCTION

SEC. 201. TECHNICAL AMENDMENTS.

Section 311 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C.

5154) is amended in subsections (a)(1), (b), and (c) by striking ''section 803 of the Public Works and Economic Development Act of 1965'' each place it appears and inserting ''section 209(c)(2) of the Public Works and Economic Development Act of 1965 (42 U.S.C. 3149(c)(2))''.

SEC. 202. MANAGEMENT COSTS.

(a) IN GENERAL.—Title III of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5141 et seq.) (as amended by section 104(a)) is amended by adding at the end the following:

''SEC. 324. MANAGEMENT COSTS.

''(a) DEFINITION OF MANAGEMENT COST.—In this section, the term 'management cost' includes any indirect cost, any administrative expense, and any other expense not directly chargeable to a specific project under a major disaster, emergency, or disaster preparedness or mitigation activity or measure.

''(b) ESTABLISHMENT OF MANAGEMENT COST RATES.—Notwithstanding any other provision of law (including any administrative rule or guidance), the President shall by regulation establish management cost rates, for grantees and subgrantees, that shall be used to determine contributions under this Act for management costs.

''(c) REVIEW.—The President shall review the management cost rates established under subsection (b) not later than 3 years after the date of establishment of the rates and periodically thereafter.''.

(b) APPLICABILITY.—

(1) IN GENERAL.—Subject to paragraph (2), subsections (a) and (b) of section 324 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (as added by subsection (a)) shall apply to major disasters declared under that Act on or after the date of enactment of this Act.

(2) INTERIM AUTHORITY.—Until the date on which the President establishes the management cost rates under section 324 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (as added by subsection (a)), section 406(f) of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5172(f)) (as in effect on the day before the date of enactment of this Act) shall be used to establish management cost rates.

SEC. 203. PUBLIC NOTICE, COMMENT, AND CONSULTATION REQUIREMENTS.

Title III of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5141 et seq.) (as amended by section 202(a)) is amended by adding at the end the following:

''SEC. 325. PUBLIC NOTICE, COMMENT, AND CONSULTATION REQUIREMENTS.

''(a) PUBLIC NOTICE AND COMMENT CONCERNING NEW OR MODIFIED POLICIES.—

''(1) IN GENERAL.—The President shall provide for public notice and opportunity for comment before adopting any new or modified policy that—

''(A) governs implementation of the public assistance program administered by the Federal Emergency Management Agency under this Act; and

''(B) could result in a significant reduction of assistance under the program.

''(2) APPLICATION.—Any policy adopted under paragraph (1) shall apply only to a major disaster or emergency declared on or after the date on which the policy is adopted.

''(b) CONSULTATION CONCERNING INTERIM POLICIES.—

''(1) IN GENERAL.—Before adopting any interim policy under the public assistance program to address specific conditions that relate to a major disaster or emergency that has been declared under this Act, the President, to the maximum extent practicable, shall solicit the views and recommendations of grantees and subgrantees with respect to the major disaster or emergency concerning the potential interim policy, if the interim policy is likely—

''(A) to result in a significant reduction of assistance to applicants for the assistance with respect to the major disaster or emergency; or

''(B) to change the terms of a written agreement to which the Federal Government is a party concerning the declaration of the major disaster or emergency.

''(2) NO LEGAL RIGHT OF ACTION.—Nothing in this subsection confers a legal right of action on any party.

''(c) PUBLIC ACCESS.—The President shall promote public access to policies governing the implementation of the public assistance program.''.

SEC. 204. STATE ADMINISTRATION OF HAZARD MITIGATION GRANT PROGRAM.

Section 404 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5170c) is amended by adding at the end the following:

''(c) PROGRAM ADMINISTRATION BY STATES.—

''(1) IN GENERAL.—A State desiring to administer the hazard mitigation grant program established by this section with respect to hazard mitigation assistance in the State may submit to the President an application for the delegation of the authority to administer the program.

''(2) CRITERIA.—The President, in consultation and coordination with States and local governments, shall establish criteria for the approval of applications submitted under paragraph (1). The criteria shall include, at a minimum—

''(A) the demonstrated ability of the State to manage the grant program under this section;

''(B) there being in effect an approved mitigation plan under section 322; and

''(C) a demonstrated commitment to mitigation activities.

''(3) APPROVAL.—The President shall approve an application submitted under paragraph (1) that meets the criteria established under paragraph (2).

''(4) WITHDRAWAL OF APPROVAL.—If, after approving an application of a State submitted under paragraph (1), the President determines that the State is not administering the hazard mitigation grant program established by this section in a manner satisfactory to the President, the President shall withdraw the approval.

''(5) AUDITS.—The President shall provide for periodic audits of the hazard mitigation grant programs administered by States under this subsection.''.

SEC. 205. ASSISTANCE TO REPAIR, RESTORE, RECONSTRUCT, OR REPLACE DAMAGED FACILITIES.

(a) CONTRIBUTIONS.—Section 406 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5172) is amended by striking subsection (a) and inserting the following:

''(a) CONTRIBUTIONS.—

''(1) IN GENERAL.—The President may make contributions—

''(A) to a State or local government for the repair, restoration, reconstruction, or replacement of a public facility damaged or destroyed by a major disaster and for associated expenses incurred by the government; and

''(B) subject to paragraph (3), to a person that owns or operates a private nonprofit facility damaged or destroyed by a major disaster for the repair, restoration, reconstruction, or replacement of the facility and for associated expenses incurred by the person.

''(2) ASSOCIATED EXPENSES.—For the purposes of this section, associated expenses shall include—

''(A) the costs of mobilizing and employing the National Guard for performance of eligible work;

''(B) the costs of using prison labor to perform eligible work, including wages actually paid, transportation to a worksite, and extraordinary costs of guards, food, and lodging; and

''(C) base and overtime wages for the employees and extra hires of a State, local government, or person described in paragraph (1) that perform eligible work, plus fringe benefits on such wages to the extent that such benefits were being paid before the major disaster.

''(3) CONDITIONS FOR ASSISTANCE TO PRIVATE NONPROFIT FACILITIES.—

''(A) IN GENERAL.—The President may make contributions to a private nonprofit facility under paragraph (1)(B) only if—

''(i) the facility provides critical services (as defined by the President) in the event of a major disaster; or

''(ii) the owner or operator of the facility—

''(I) has applied for a disaster loan under section 7(b) of the Small Business Act (15 U.S.C. 636(b)); and

''(II)(aa) has been determined to be ineligible for such a loan; or

''(bb) has obtained such a loan in the maximum amount for which the Small Business Administration determines the facility is eligible.

''(B) DEFINITION OF CRITICAL SERVICES.—In this paragraph, the term 'critical services' includes power, water (including water provided by an irrigation organization or facility), sewer, wastewater treatment, communications, and emergency medical care.

''(4) NOTIFICATION TO CONGRESS.—Before making any contribution under this section in an amount greater than $20,000,000, the President shall notify—

''(A) the Committee on Environment and Public Works of the Senate;

''(B) the Committee on Transportation and Infrastructure of the House of Representatives;

''(C) the Committee on Appropriations of the Senate; and

''(D) the Committee on Appropriations of the House of Representatives.''.

(b) FEDERAL SHARE.—Section 406 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5172) is amended by striking subsection (b) and inserting the following:

''(b) FEDERAL SHARE.—

''(1) MINIMUM FEDERAL SHARE.—Except as provided in paragraph (2), the Federal share of assistance under this section shall be not less than 75 percent of the eligible cost of repair, restoration, reconstruction, or replacement carried out under this section.

''(2) REDUCED FEDERAL SHARE.—The President shall promulgate regulations to reduce the Federal share of assistance under this section to not less than 25 percent in the case of the repair, restoration, reconstruction, or replacement of any eligible public facility or private nonprofit facility following an event associated with a major disaster—

''(A) that has been damaged, on more than 1 occasion within the preceding 10-year period, by the same type of event; and

''(B) the owner of which has failed to implement appropriate mitigation measures to address the hazard that caused the damage to the facility.''.

(c) LARGE IN-LIEU CONTRIBUTIONS.—Section 406 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5172) is amended by striking subsection (c) and inserting the following:

''(c) LARGE IN-LIEU CONTRIBUTIONS.—

''(1) FOR PUBLIC FACILITIES.—

''(A) IN GENERAL.—In any case in which a State or local government determines that the public welfare would not best be served by repairing, restoring, reconstructing, or replacing any public facility owned or controlled by the

State or local government, the State or local government may elect to receive, in lieu of a contribution under subsection (a)(1)(A), a contribution in an amount equal to 75 percent of the Federal share of the Federal estimate of the cost of repairing, restoring, reconstructing, or replacing the facility and of management expenses.

''(B) AREAS WITH UNSTABLE SOIL.—In any case in which a State or local government determines that the public welfare would not best be served by repairing, restoring, reconstructing, or replacing any public facility owned or controlled by the State or local government because soil instability in the disaster area makes repair, restoration, reconstruction, or replacement infeasible, the State or local government may elect to receive, in lieu of a contribution under subsection (a)(1)(A), a contribution in an amount equal to 90 percent of the Federal share of the Federal estimate of the cost of repairing, restoring, reconstructing, or replacing the facility and of management expenses.

''(C) USE OF FUNDS.—Funds contributed to a State or local government under this paragraph may be used—

''(i) to repair, restore, or expand other selected public facilities;

''(ii) to construct new facilities; or

''(iii) to fund hazard mitigation measures that the State or local government determines to be necessary to meet a need for governmental services and functions in the area affected by the major disaster.

''(D) LIMITATIONS.—Funds made available to a State or local government under this paragraph may not be used for—

''(i) any public facility located in a regulatory floodway (as defined in section 59.1 of title 44, Code of Federal Regulations (or a successor regulation)); or

''(ii) any uninsured public facility located in a special flood hazard area identified by the Director of the Federal Emergency Management Agency under the National Flood Insurance Act of 1968 (42 U.S.C. 4001 et seq.).

''(2) FOR PRIVATE NONPROFIT FACILITIES.—

''(A) IN GENERAL.—In any case in which a person that owns or operates a private nonprofit facility determines that the public welfare would not best be served by repairing, restoring, reconstructing, or replacing the facility, the person may elect to receive, in lieu of a contribution under subsection (a)(1)(B), a contribution in an amount equal to 75 percent of the Federal share of the Federal estimate of the cost of repairing, restoring, reconstructing, or replacing the facility and of management expenses.

''(B) USE OF FUNDS.—Funds contributed to a person under this paragraph may be used—

''(i) to repair, restore, or expand other selected private nonprofit facilities owned or operated by the person;

''(ii) to construct new private nonprofit facilities to be owned or operated by the person; or

''(iii) to fund hazard mitigation measures that the person determines to be necessary to meet a need for the person's services and functions in the area affected by the major disaster.

''(C) LIMITATIONS.—Funds made available to a person under this paragraph may not be used for—

''(i) any private nonprofit facility located in a regulatory floodway (as defined in section 59.1 of title 44, Code of Federal Regulations (or a successor regulation)); or

''(ii) any uninsured private nonprofit facility located in a special flood hazard area identified by the Director of the Federal Emergency Management Agency under the National Flood Insurance Act of 1968 (42 U.S.C. 4001 et seq.).''.

(d) ELIGIBLE COST.—

(1) IN GENERAL.—Section 406 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5172) is amended by striking subsection (e) and inserting the following:

''(e) ELIGIBLE COST.—

''(1) DETERMINATION.—

''(A) IN GENERAL.—For the purposes of this section, the President shall estimate the eligible cost of repairing, restoring, reconstructing, or replacing a public facility or private nonprofit facility—

''(i) on the basis of the design of the facility as the facility existed immediately before the major disaster; and

''(ii) in conformity with codes, specifications, and standards (including floodplain management and hazard mitigation criteria required by the President or under the Coastal Barrier Resources Act (16 U.S.C. 3501 et seq.)) applicable at the time at which the disaster occurred.

''(B) COST ESTIMATION PROCEDURES.—

''(i) IN GENERAL.—Subject to paragraph (2), the President shall use the cost estimation procedures established under paragraph (3) to determine the eligible cost under this subsection.

''(ii) APPLICABILITY.—The procedures specified in this paragraph and paragraph (2) shall apply only to projects the eligible cost of which is equal to or greater than the amount specified in section 422.

''(2) MODIFICATION OF ELIGIBLE COST.—

''(A) ACTUAL COST GREATER THAN CEILING PERCENTAGE OF ESTIMATED COST.—In any case in which the actual cost of repairing, restoring, reconstructing, or replacing a facility under this section is greater than the ceiling percentage established under paragraph (3) of the cost estimated under paragraph (1), the President may determine that the eligible cost includes a portion of the actual cost of the repair, restoration, reconstruction, or replacement that exceeds the cost estimated under paragraph (1).

''(B) ACTUAL COST LESS THAN ESTIMATED COST.—

''(i) GREATER THAN OR EQUAL TO FLOOR PERCENTAGE OF ESTIMATED COST.—In any case in which the actual cost of repairing, restoring, reconstructing, or replacing a facility under this section is less than 100 percent of the cost estimated under paragraph (1), but is greater than or equal to the floor percentage established under paragraph (3) of the cost estimated under paragraph (1), the State or local government or person receiving funds under this section shall use the excess funds to carry out cost-effective activities that reduce the risk of future damage, hardship, or suffering from a major disaster.

''(ii) LESS THAN FLOOR PERCENTAGE OF ESTIMATED COST.—In any case in which the actual cost of repairing, restoring, reconstructing, or replacing a facility under this section is less than the floor percentage established under paragraph (3) of the cost estimated under paragraph (1), the State or local government or person receiving assistance under this section shall reimburse the President in the amount of the difference.

''(C) NO EFFECT ON APPEALS PROCESS.—Nothing in this paragraph affects any right of appeal under section 423.

''(3) EXPERT PANEL.—

''(A) ESTABLISHMENT.—Not later than 18 months after the date of enactment of this paragraph, the President, acting through the Director of the Federal Emergency Management Agency, shall establish an expert panel, which shall include representatives from the construction industry and State and local government.

''(B) DUTIES.—The expert panel shall develop recommendations concerning—

''(i) procedures for estimating the cost of repairing, restoring, reconstructing, or replacing a facility consistent with industry practices; and

''(ii) the ceiling and floor percentages referred to in paragraph (2).

''(C) REGULATIONS.—Taking into account the recommendations of the expert panel under subparagraph (B), the President shall promulgate regulations that establish—

''(i) cost estimation procedures described in subparagraph (B)(i); and

''(ii) the ceiling and floor percentages referred to in paragraph (2).

''(D) REVIEW BY PRESIDENT.—Not later than 2 years after the date of promulgation of regulations under subparagraph (C) and periodically thereafter, the President shall review the cost estimation procedures and the ceiling and floor percentages established under this paragraph.

''(E) REPORT TO CONGRESS.—Not later than 1 year after the date of promulgation of regulations under subparagraph (C), 3 years after that date, and at the end of each 2-year period thereafter, the expert panel shall submit to Congress a report on the appropriateness of the cost estimation procedures.

''(4) SPECIAL RULE.—In any case in which the facility being repaired, restored, reconstructed, or replaced under this section was under construction on the date of the major disaster, the cost of repairing, restoring, reconstructing, or replacing the facility shall include, for the purposes of this section, only those costs that, under the contract for the construction, are the owner's responsibility and not the contractor's responsibility.''.

(2) EFFECTIVE DATE.—The amendment made by paragraph (1) takes effect on the date of enactment of this Act and applies to funds appropriated after the date of enactment of this Act, except that paragraph (1) of section 406(e) of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (as amended by paragraph (1)) takes effect on the date on which the cost estimation procedures established under paragraph (3) of that section take effect.

(e) CONFORMING AMENDMENT.—Section 406 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5172) is amended by striking subsection (f).

SEC. 206. FEDERAL ASSISTANCE TO INDIVIDUALS AND HOUSEHOLDS.

(a) IN GENERAL.—Section 408 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5174) is amended to read as follows:

''SEC. 408. FEDERAL ASSISTANCE TO INDIVIDUALS AND HOUSEHOLDS.

''(a) IN GENERAL.—

''(1) PROVISION OF ASSISTANCE.—In accordance with this section, the President, in consultation with the Governor of a State, may provide financial assistance, and, if necessary, direct services, to individuals and households in the State who, as a direct result of a major disaster, have necessary expenses and serious needs in cases in which the individuals and households are unable to meet such expenses or needs through other means.

''(2) RELATIONSHIP TO OTHER ASSISTANCE.—Under paragraph (1), an individual or household shall not be denied assistance under paragraph (1), (3), or (4) of subsection (c) solely on the basis that the individual or household has not applied for or received any loan or other financial assistance from the Small Business Administration or any other Federal agency.

''(b) HOUSING ASSISTANCE.—

''(1) ELIGIBILITY.—The President may provide financial or other assistance under this section to individuals and households to respond to the disaster-related housing needs of individuals and households who are displaced from their predisaster primary residences or whose predisaster primary residences are rendered uninhabitable as a result of damage caused by a major disaster.

''(2) DETERMINATION OF APPROPRIATE TYPES OF ASSISTANCE.—

''(A) IN GENERAL.—The President shall determine appropriate types of housing assistance to

be provided under this section to individuals and households described in subsection (a)(1) based on considerations of cost effectiveness, convenience to the individuals and households, and such other factors as the President may consider appropriate.

''(B) MULTIPLE TYPES OF ASSISTANCE.—One or more types of housing assistance may be made available under this section, based on the suitability and availability of the types of assistance, to meet the needs of individuals and households in the particular disaster situation.

''(c) TYPES OF HOUSING ASSISTANCE.—

''(1) TEMPORARY HOUSING.—

''(A) FINANCIAL ASSISTANCE.—

''(i) IN GENERAL.—The President may provide financial assistance to individuals or households to rent alternate housing accommodations, existing rental units, manufactured housing, recreational vehicles, or other readily fabricated dwellings.

''(ii) AMOUNT.—The amount of assistance under clause (i) shall be based on the fair market rent for the accommodation provided plus the cost of any transportation, utility hookups, or unit installation not provided directly by the President.

''(B) DIRECT ASSISTANCE.—

''(i) IN GENERAL.—The President may provide temporary housing units, acquired by purchase or lease, directly to individuals or households who, because of a lack of available housing resources, would be unable to make use of the assistance provided under subparagraph (A).

''(ii) PERIOD OF ASSISTANCE.—The President may not provide direct assistance under clause (i) with respect to a major disaster after the end of the 18-month period beginning on the date of the declaration of the major disaster by the President, except that the President may extend that period if the President determines that due to extraordinary circumstances an extension would be in the public interest.

''(iii) COLLECTION OF RENTAL CHARGES.—After the end of the 18-month period referred to in clause (ii), the President may charge fair market rent for each temporary housing unit provided.

''(2) REPAIRS.—

''(A) IN GENERAL.—The President may provide financial assistance for—

''(i) the repair of owner-occupied private residences, utilities, and residential infrastructure (such as a private access route) damaged by a major disaster to a safe and sanitary living or functioning condition; and

''(ii) eligible hazard mitigation measures that reduce the likelihood of future damage to such residences, utilities, or infrastructure.

''(B) RELATIONSHIP TO OTHER ASSISTANCE.—A recipient of assistance provided under this paragraph shall not be required to show that the assistance can be met through other means, except insurance proceeds.

''(C) MAXIMUM AMOUNT OF ASSISTANCE.—The amount of assistance provided to a household under this paragraph shall not exceed $5,000, as adjusted annually to reflect changes in the Consumer Price Index for All Urban Consumers published by the Department of Labor.

''(3) REPLACEMENT.—

''(A) IN GENERAL.—The President may provide financial assistance for the replacement of owner-occupied private residences damaged by a major disaster.

''(B) MAXIMUM AMOUNT OF ASSISTANCE.—The amount of assistance provided to a household under this paragraph shall not exceed $10,000, as adjusted annually to reflect changes in the Consumer Price Index for All Urban Consumers published by the Department of Labor.

''(C) APPLICABILITY OF FLOOD INSURANCE REQUIREMENT.—With respect to assistance provided under this paragraph, the President may not waive any provision of Federal law requiring the purchase of flood insurance as a condition of the receipt of Federal disaster assistance.

''(4) PERMANENT HOUSING CONSTRUCTION.—The President may provide financial assistance or direct assistance to individuals or households to construct permanent housing in insular areas outside the continental United States and in other remote locations in cases in which—

''(A) no alternative housing resources are available; and

''(B) the types of temporary housing assistance described in paragraph (1) are unavailable, infeasible, or not cost-effective.

''(d) TERMS AND CONDITIONS RELATING TO HOUSING ASSISTANCE.—

''(1) SITES.—

''(A) IN GENERAL.—Any readily fabricated dwelling provided under this section shall, whenever practicable, be located on a site that—

''(i) is complete with utilities; and

''(ii) is provided by the State or local government, by the owner of the site, or by the occupant who was displaced by the major disaster.

''(B) SITES PROVIDED BY THE PRESIDENT.—A readily fabricated dwelling may be located on a site provided by the President if the President determines that such a site would be more economical or accessible.

''(2) DISPOSAL OF UNITS.—

''(A) SALE TO OCCUPANTS.—

''(i) IN GENERAL.—Notwithstanding any other provision of law, a temporary housing unit purchased under this section by the President for the purpose of housing disaster victims may be sold directly to the individual or household who is occupying the unit if the individual or household lacks permanent housing.

''(ii) SALE PRICE.—A sale of a temporary housing unit under clause (i) shall be at a price that is fair and equitable.

''(iii) DEPOSIT OF PROCEEDS.—Notwithstanding any other provision of law, the proceeds of a sale under clause (i) shall be deposited in the appropriate Disaster Relief Fund account.

''(iv) HAZARD AND FLOOD INSURANCE.—A sale of a temporary housing unit under clause (i) shall be made on the condition that the individual or household purchasing the housing unit agrees to obtain and maintain hazard and flood insurance on the housing unit.

''(v) USE OF GSA SERVICES.—The President may use the services of the General Services Administration to accomplish a sale under clause (i).

''(B) OTHER METHODS OF DISPOSAL.—If not disposed of under subparagraph (A), a temporary housing unit purchased under this section by the President for the purpose of housing disaster victims—

''(i) may be sold to any person; or

''(ii) may be sold, transferred, donated, or otherwise made available directly to a State or other governmental entity or to a voluntary organization for the sole purpose of providing temporary housing to disaster victims in major disasters and emergencies if, as a condition of the sale, transfer, or donation, the State, other governmental agency, or voluntary organization agrees—

''(I) to comply with the nondiscrimination provisions of section 308; and

''(II) to obtain and maintain hazard and flood insurance on the housing unit.

''(e) FINANCIAL ASSISTANCE TO ADDRESS OTHER NEEDS.—

''(1) MEDICAL, DENTAL, AND FUNERAL EXPENSES.—The President, in consultation with the Governor of a State, may provide financial assistance under this section to an individual or household in the State who is adversely affected by a major disaster to meet disaster-related medical, dental, and funeral expenses.

''(2) PERSONAL PROPERTY, TRANSPORTATION, AND OTHER EXPENSES.—The President, in consultation with the Governor of a State, may provide financial assistance under this section to an individual or household described in paragraph (1) to address personal property, transportation, and other necessary expenses or serious needs resulting from the major disaster.

''(f) STATE ROLE.—

''(1) FINANCIAL ASSISTANCE TO ADDRESS OTHER NEEDS.—

''(A) GRANT TO STATE.—Subject to subsection (g), a Governor may request a grant from the President to provide financial assistance to individuals and households in the State under subsection (e).

''(B) ADMINISTRATIVE COSTS.—A State that receives a grant under subparagraph (A) may expend not more than 5 percent of the amount of the grant for the administrative costs of providing financial assistance to individuals and households in the State under subsection (e).

''(2) ACCESS TO RECORDS.—In providing assistance to individuals and households under this section, the President shall provide for the substantial and ongoing involvement of the States in which the individuals and households are located, including by providing to the States access to the electronic records of individuals and households receiving assistance under this section in order for the States to make available any additional State and local assistance to the individuals and households.

''(g) COST SHARING.—

''(1) FEDERAL SHARE.—Except as provided in paragraph (2), the Federal share of the costs eligible to be paid using assistance provided under this section shall be 100 percent.

''(2) FINANCIAL ASSISTANCE TO ADDRESS OTHER NEEDS.—In the case of financial assistance provided under subsection (e)—

''(A) the Federal share shall be 75 percent; and

''(B) the non-Federal share shall be paid from funds made available by the State.

''(h) MAXIMUM AMOUNT OF ASSISTANCE.—

''(1) IN GENERAL.—No individual or household shall receive financial assistance greater than $25,000 under this section with respect to a single major disaster.

''(2) ADJUSTMENT OF LIMIT.—The limit established under paragraph (1) shall be adjusted annually to reflect changes in the Consumer Price Index for All Urban Consumers published by the Department of Labor.

''(i) RULES AND REGULATIONS.—The President shall prescribe rules and regulations to carry out this section, including criteria, standards, and procedures for determining eligibility for assistance.''.

(b) CONFORMING AMENDMENT.—Section 502(a)(6) of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5192(a)(6)) is amended by striking ''temporary housing''.

(c) ELIMINATION OF INDIVIDUAL AND FAMILY GRANT PROGRAMS.—Section 411 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5178) is repealed.

(d) EFFECTIVE DATE.—The amendments made by this section take effect 18 months after the date of enactment of this Act.

SEC. 207. COMMUNITY DISASTER LOANS.

Section 417 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5184) is amended—

(1) by striking ''(a) The President'' and inserting the following:

''(a) IN GENERAL.—The President'';

(2) by striking ''The amount'' and inserting the following:

''(b) AMOUNT.—The amount'';

(3) by striking ''Repayment'' and inserting the following:

''(c) REPAYMENT.—

''(1) CANCELLATION.—Repayment'';

(4) by striking ''(b) Any loans'' and inserting the following:

''(d) EFFECT ON OTHER ASSISTANCE.—Any loans'';

(5) in subsection (b) (as designated by paragraph (2))—

(A) by striking ''and shall'' and inserting ''shall''; and

(B) by inserting before the period at the end the following: '', and shall not exceed $5,000,000''; and

(6) in subsection (c) (as designated by paragraph (3)), by adding at the end the following:

''(2) CONDITION ON CONTINUING ELIGIBILITY.—A local government shall not be eligible for further assistance under this section during any period in which the local government is in arrears with respect to a required repayment of a loan under this section.''.

SEC. 208. REPORT ON STATE MANAGEMENT OF SMALL DISASTERS INITIATIVE.

Not later than 3 years after the date of enactment of this Act, the President shall submit to Congress a report describing the results of the State Management of Small Disasters Initiative, including—

(1) identification of any administrative or financial benefits of the initiative; and

(2) recommendations concerning the conditions, if any, under which States should be allowed the option to administer parts of the assistance program under section 406 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5172).

SEC. 209. STUDY REGARDING COST REDUCTION.

Not later than 3 years after the date of enactment of this Act, the Director of the Congressional Budget Office shall complete a study estimating the reduction in Federal disaster assistance that has resulted and is likely to result from the enactment of this Act.

TITLE III—MISCELLANEOUS

SEC. 301. TECHNICAL CORRECTION OF SHORT TITLE.

The first section of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5121 note) is amended to read as follows:

''SECTION 1. SHORT TITLE.

''This Act may be cited as the 'Robert T. Stafford Disaster Relief and Emergency Assistance Act'.''.

SEC. 302. DEFINITIONS.

Section 102 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5122) is amended—

(1) in each of paragraphs (3) and (4), by striking ''the Northern'' and all that follows through ''Pacific Islands'' and inserting ''and the Commonwealth of the Northern Mariana Islands'';

(2) by striking paragraph (6) and inserting the following:

''(6) LOCAL GOVERNMENT.—The term 'local government' means—

''(A) a county, municipality, city, town, township, local public authority, school district, special district, intrastate district, council of governments (regardless of whether the council of governments is incorporated as a nonprofit corporation under State law), regional or interstate government entity, or agency or instrumentality of a local government;

''(B) an Indian tribe or authorized tribal organization, or Alaska Native village or organization; and

''(C) a rural community, unincorporated town or village, or other public entity, for which an application for assistance is made by a State or political subdivision of a State.''; and

(3) in paragraph (9), by inserting ''irrigation,'' after ''utility,''.

SEC. 303. FIRE MANAGEMENT ASSISTANCE.

(a) IN GENERAL.—Section 420 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5187) is amended to read as follows:

''SEC. 420. FIRE MANAGEMENT ASSISTANCE.

''(a) IN GENERAL.—The President is authorized to provide assistance, including grants, equipment, supplies, and personnel, to any State or local government for the mitigation, management, and control of any fire on public or private forest land or grassland that threatens such destruction as would constitute a major disaster.

''(b) COORDINATION WITH STATE AND TRIBAL DEPARTMENTS OF FORESTRY.—In providing assistance under this section, the President shall coordinate with State and tribal departments of forestry.

''(c) ESSENTIAL ASSISTANCE.—In providing assistance under this section, the President may use the authority provided under section 403.

''(d) RULES AND REGULATIONS.—The President shall prescribe such rules and regulations as are necessary to carry out this section.''.

(b) EFFECTIVE DATE.—The amendment made by subsection (a) takes effect 1 year after the date of enactment of this Act.

SEC. 304. DISASTER GRANT CLOSEOUT PROCEDURES.

Title VII of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5101 et seq.) is amended by adding at the end the following:

''SEC. 705. DISASTER GRANT CLOSEOUT PROCEDURES.

''(a) STATUTE OF LIMITATIONS.—

''(1) IN GENERAL.—Except as provided in paragraph (2), no administrative action to recover any payment made to a State or local government for disaster or emergency assistance under this Act shall be initiated in any forum after the date that is 3 years after the date of transmission of the final expenditure report for the disaster or emergency.

''(2) FRAUD EXCEPTION.—The limitation under paragraph (1) shall apply unless there is evidence of civil or criminal fraud.

''(b) REBUTTAL OF PRESUMPTION OF RECORD MAINTENANCE.—

''(1) IN GENERAL.—In any dispute arising under this section after the date that is 3 years after the date of transmission of the final expenditure report for the disaster or emergency, there shall be a presumption that accounting records were maintained that adequately identify the source and application of funds provided for financially assisted activities.

''(2) AFFIRMATIVE EVIDENCE.—The presumption described in paragraph (1) may be rebutted only on production of affirmative evidence that the State or local government did not maintain documentation described in that paragraph.

''(3) INABILITY TO PRODUCE DOCUMENTATION.—The inability of the Federal, State, or local government to produce source documentation supporting expenditure reports later than 3 years after the date of transmission of the final expenditure report shall not constitute evidence to rebut the presumption described in paragraph (1).

''(4) RIGHT OF ACCESS.—The period during which the Federal, State, or local government has the right to access source documentation shall not be limited to the required 3-year retention period referred to in paragraph (3), but shall last as long as the records are maintained.

''(c) BINDING NATURE OF GRANT REQUIREMENTS.—A State or local government shall not be liable for reimbursement or any other penalty for any payment made under this Act if—

''(1) the payment was authorized by an approved agreement specifying the costs;

''(2) the costs were reasonable; and

''(3) the purpose of the grant was accomplished.''.

SEC. 305. PUBLIC SAFETY OFFICER BENEFITS FOR CERTAIN FEDERAL AND STATE EMPLOYEES.

(a) IN GENERAL.—Section 1204 of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3796b) is amended by striking paragraph (7) and inserting the following:

''(7) 'public safety officer' means—

''(A) an individual serving a public agency in an official capacity, with or without compensation, as a law enforcement officer, as a firefighter, or as a member of a rescue squad or ambulance crew;

''(B) an employee of the Federal Emergency Management Agency who is performing official duties of the Agency in an area, if those official duties—

''(i) are related to a major disaster or emergency that has been, or is later, declared to exist with respect to the area under the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5121 et seq.); and

''(ii) are determined by the Director of the Federal Emergency Management Agency to be hazardous duties; or

''(C) an employee of a State, local, or tribal emergency management or civil defense agency who is performing official duties in cooperation with the Federal Emergency Management Agency in an area, if those official duties—

''(i) are related to a major disaster or emergency that has been, or is later, declared to exist with respect to the area under the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5121 et seq.); and

''(ii) are determined by the head of the agency to be hazardous duties.''.

(b) EFFECTIVE DATE.—The amendment made by subsection (a) applies only to employees described in subparagraphs (B) and (C) of section 1204(7) of the Omnibus Crime Control and Safe Streets Act of 1968 (as amended by subsection (a)) who are injured or who die in the line of duty on or after the date of enactment of this Act.

SEC. 306. BUY AMERICAN.

(a) COMPLIANCE WITH BUY AMERICAN ACT.—No funds authorized to be appropriated under this Act or any amendment made by this Act may be expended by an entity unless the entity, in expending the funds, complies with the Buy American Act (41 U.S.C. 10a et seq.).

(b) DEBARMENT OF PERSONS CONVICTED OF FRAUDULENT USE OF ''MADE IN AMERICA'' LABELS.—

(1) IN GENERAL.—If the Director of the Federal Emergency Management Agency determines that a person has been convicted of intentionally affixing a label bearing a ''Made in America'' inscription to any product sold in or shipped to the United States that is not made in America, the Director shall determine, not later than 90 days after determining that the person has been so convicted, whether the person should be debarred from contracting under the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5121 et seq.).

(2) DEFINITION OF DEBAR.—In this subsection, the term ''debar'' has the meaning given the term in section 2393(c) of title 10, United States Code.

SEC. 307. TREATMENT OF CERTAIN REAL PROPERTY.

(a) IN GENERAL.—Notwithstanding the National Flood Insurance Act of 1968 (42 U.S.C. 4001 et seq.), the Flood Disaster Protection Act of 1973 (42 U.S.C. 4002 et seq.), or any other provision of law, or any flood risk zone identified, delineated, or established under any such law (by flood insurance rate map or otherwise), the real property described in subsection (b) shall not be considered to be, or to have been, located in any area having special flood hazards (including any floodway or floodplain).

(b) REAL PROPERTY.—The real property described in this subsection is all land and improvements on the land located in the Maple Terrace Subdivisions in the city of Sycamore, DeKalb County, Illinois, including—

(1) Maple Terrace Phase I;

(2) Maple Terrace Phase II;

(3) Maple Terrace Phase III Unit 1;

(4) Maple Terrace Phase III Unit 2;

(5) Maple Terrace Phase III Unit 3;

(6) Maple Terrace Phase IV Unit 1;

(7) Maple Terrace Phase IV Unit 2; and

(8) Maple Terrace Phase IV Unit 3.

(c) REVISION OF FLOOD INSURANCE RATE LOT MAPS.—As soon as practicable after the date of enactment of this Act, the Director of the Federal Emergency Management Agency shall revise the appropriate flood insurance rate lot maps of the agency to reflect the treatment under subsection (a) of the real property described in subsection (b).

SEC. 308. STUDY OF PARTICIPATION BY INDIAN TRIBES IN EMERGENCY MANAGEMENT.

(a) DEFINITION OF INDIAN TRIBE.—In this section, the term ''Indian tribe'' has the meaning given the term in section 4 of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450b).

(b) STUDY.—

(1) IN GENERAL.—The Director of the Federal Emergency Management Agency shall conduct a study of participation by Indian tribes in emergency management.

(2) REQUIRED ELEMENTS.—The study shall—

(A) survey participation by Indian tribes in training, predisaster and postdisaster mitigation, disaster preparedness, and disaster recovery programs at the Federal and State levels; and

(B) review and assess the capacity of Indian tribes to participate in cost-shared emergency management programs and to participate in the management of the programs.

(3) CONSULTATION.—In conducting the study, the Director shall consult with Indian tribes.

(c) REPORT.—Not later than 1 year after the date of enactment of this Act, the Director shall submit a report on the study under subsection (b) to—

(1) the Committee on Environment and Public Works of the Senate;

(2) the Committee on Transportation and Infrastructure of the House of Representatives;

(3) the Committee on Appropriations of the Senate; and

(4) the Committee on Appropriations of the House of Representatives.

The SPEAKER pro tempore (Mr. DICKEY). Pursuant to the rule, the gentleman from Pennsylvania (Mr. SHUSTER) and the gentleman from Minnesota (Mr. OBERSTAR) each will control 20 minutes.

The Chair recognizes the gentleman from Pennsylvania (Mr. SHUSTER).

Mr. SHUSTER. Mr. Speaker, I yield 3 minutes to the gentlewoman from Washington (Ms. DUNN) who I am sure will be able to tie our interest in this legislation back to the pipeline safety bill that we have just passed.

Ms. DUNN. I thank the gentleman for yielding me this time.

Mr. Speaker, I want to thank the gentleman from Pennsylvania (Mr. SHUSTER) for bringing Senate bill 2438 to the floor and I want to make a few comments on it. I appreciate his leadership and commitment to passing a very strong pipeline safety bill.

We are all aware of the tragedy of pipeline accidents. In Washington State, as I am sure Members have heard from the gentleman from Washington (Mr. METCALF), we have been dealing with this important issue ever since three young boys were tragically killed by a pipeline explosion in Bellingham on June 10, 1999, in our State of Washington. After consulting with the parents of the three youngsters and the mayors of the communities in the district I represent, I have supported stronger pipeline inspection requirements than this bill provides. But I truly believe that Senate bill 2438 is a meaningful step forward in strengthening our laws and protecting the people we represent. I believe, too, that a vote against this pipeline safety bill is a vote for the status quo. A status quo in which communities are unable to gather information about the pipelines that run under their schools and neighborhoods; a status quo that does not increase penalties for those who fail to comply with the law; and a status quo that says pipeline companies do not have to report a leak until 2,100 gallons have been spilled into our communities.

Mr. Speaker, the status quo is not enough. We cannot simply place our hopes on future legislation and fail to protect those who live near the pipelines today. It is time to pass a strong pipeline safety bill and demand that the Office of Pipeline Safety enforce it. Today, we have an opportunity to pass a substantive pipeline bill that will increase and improve safety in our communities. It requires pipeline companies to provide information to the public and emergency agencies. It increases fines for noncompliance and the caps on maximum enforcement penalties. It requires pipeline companies to report any spills over five gallons so that our communities will be well informed and ready to respond. And it provides local citizens a forum in which to make recommendations to the Federal Government about the pipelines in their own neighborhoods.

Pipeline safety does not end today. This is a beginning. And we can build upon this beginning by holding the Office of Pipeline Safety and pipeline companies accountable to Congress and to our communities. I strongly urge my colleagues to support this bill.

Mr. SHUSTER. Mr. Speaker, I yield myself such time as I may consume.

Returning now to H.R. 707, I would note that I have no further requests for time but simply would point out, I understand we have strong bipartisan support on this legislation which is the norm in our committee. What this legislation does, the Disaster Mitigation Act of 2000 marks the first major amendments to the Stafford Disaster Relief Act since 1988. I would urge strong support for it.

Mr. Speaker, I reserve the balance of my time.

Mr. OBERSTAR. Mr. Speaker, I yield myself such time as I may consume.

I will resist the temptation to rebut the statements just made on pipeline safety, made out of order, out of regular time, except to say that we had time to get a better bill. We still could do it, there is plenty of time left in this session, we still can work things out, and we ought to.

This disaster mitigation legislation does represent the very best, however, of comity between the two parties in this House and the two sides of our committee. The benefit of this bill is that it establishes a predisaster mitigation program based on the very effective Project Impact initiative that emphasizes local community involvement critical to the success of implementing long-term strategies for disaster resistance.

This is the first time at the Federal level that we will be providing a mechanism and funding to address problems before they occur. If we can avoid losses, we can avoid future tragedies, we will save tens of millions of dollars, and that is the essential character of this legislation, the essential contribution that it makes.

I rise in support of H.R. 707, the Disaster Mitigation Act of 2000, the third and final time that we take up this legislation in this body. This legislation represents tireless work on the part of the gentlewoman from Florida who has given exhausting hours of her time to fashion a bill that will be effective and that will respond to the concerns that she has expressed so well, not only in Florida but elsewhere around this country. The cooperative work that she has undertaken with our ranking member, the gentleman from Ohio (Mr. TRAFICANT), has been exemplary. I appreciate the many visits that we have had about this and about the terrorism commission legislation which I will address in a moment.

The benefits of the disaster mitigation bill are that first of all it establishes a predisaster mitigation program based on the very effective Project Impact initiative. Project Impact emphasizes local community involvement that is critical to the success of implementing long-term strategies for disaster resistance.

This is the first time that we will be attempting at the Federal level to address problems before they occur. I think properly so, because if we address problems that we know cause increased losses, we can avoid those losses in the future disasters that we know are likely to occur. These initiatives, rather modest in this bill, will translate into millions of dollars of savings.

There are, however, a couple of concerns that I have about the legislation. Both House and Senate bills require non-profit entities to seek loans from the Small Business Administration as a precondition of assistance. But, certain non-profits are singled out not for what they do but for who they are. Libraries, museums and shelters should not be discriminated against in this fashion. It is not a fatal flaw in the bill, not one that would cause me to oppose it, but one that I hope can be revisited and fixed in the future.

Second, the bill authorizes funding only for the next three fiscal years. I believe that oversight of this program will demonstrate its value, and that there will be a continuing need to work with communities for many years. I look forward to working to extend this program.

The Senate has removed language requiring the establishment of a President's Council on Domestic Terrorism and Preparedness within the Executive Office of the President. The gentlewoman has again devoted tireless hours and very deep personal conviction to this legislation. This is not something that she has undertaken as a gesture, but as a matter of very deep conviction. I have been greatly persuaded by her activism, by her profound self-assurance based on case studies and careful analysis of the situation and the failure of the existing system to perform as intended.

I support the establishment of the President's council. I worked to mediate between the subcommittee and the Office of Management and Budget and White House staff. I think under the circumstances this is a sound, reasonable, responsible initiative. As the gentlewoman has said to me, in years to come after she enters retirement, she does not want to look back on a tragedy and say, ''That could have been prevented. I could have done something while I was in Congress.'' She tried her hardest to do something, Mr. Speaker. But, the Senate has refused to acquiesce. That is unfortunate, but the unwillingness of the Senate causes us to accept the agreement on mitigation and address terrorism preparedness at a later date.

Mr. Speaker, I reserve the balance of my time.

Mr. SHUSTER. Mr. Speaker, I yield myself such time as I may consume.

I would like to comment that I understand there has been some byplay among our staffs, perhaps, on an issue of whether or not we are going to move to the next bill which is strongly supported by the gentleman from West Virginia (Mr. RAHALL). It has been suggested to me that there might be some tactics on both our parts to delay this. That is not my style. I am quite prepared once we dispose of this to move ahead with the gentleman from West Virginia's legislation because it is the right thing to do. If we have anything else we need to fight out, we can do that later.

Mr. Speaker, I reserve the balance of my time.

Mrs. FOWLER. Mr. Speaker, I rise in strong support of this important legislation.

In 1992, Hurricane Andrew slammed into the coast of Florida resulting in total losses exceeding $30 billion. Andrew is the costliest major disaster in U.S. history.

Of course, Floridians are not the only ones at risk from natural disasters. In the past 10 years every State and territory in the Union has been adversely impacted by a natural disaster.

This Nation simply can't afford to keep exposing our people and their property to these disasters.

In the past, Congress has focused on assisting the victims of disasters after the damage is done: Since 1989, Congress has spent over $25 billion on disaster relief.

Our emphasis needs to change. H.R. 707 significantly increases Federal assistance for projects that prevent damage before hurricanes and other disasters strike.

This money can be used for such projects as strengthening schools, providing shelters for evacuees, and hurricane-proofing homes. If used in the right way, such spending should decrease overall Federal spending by reducing the disaster relief needed after a disaster hits.

With more emphasis on mitigation we will have less to fear from natural disasters and reduce the threat to our families and property.

I want to thank Mr. BOEHLERT for all his work on this bill as well as the ranking member of the subcommittee Mr. TRAFICANT.

I also want to thank Chairman SHUSTER and the ranking minority member of the full committee, Mr. OBERSTAR, for their support and encouragement.

While I am very pleased to support final passage of H.R. 707, I am disappointed that the Senate failed to retain a section of the bill establishing a President's council to coordinate domestic terrorism preparedness programs.

There is clearly more work that needs to be done to prepare and protect the public from man-caused disasters. I have no doubt that the next Congress will continue to grapple with this important issue.

Regardless of this omission, this is still an excellent bill and I urge my colleagues to support H.R. 707.

I want to thank my subcommittee staff: Marcus Peacock, Charlie Ziegler, Miki White, Denise Beshaw, and Dan Shulman for their dedication and hard work throughout the year in getting this legislation passed.

Mr. TRAFICANT. Mr. Speaker, I rise in strong support of H.R. 707, the Disaster Mitigation Amendments Act of 2000. The amendments establish a predisaster mitigation grant program, make it easier for states to administer the Federal program, and enhance state efforts to prepare for and respond to disasters.

Before I continue, I would like to thank Chairman SHUSTER and Ranking Democratic Member OBERSTAR for their assistance on this legislation. I also would like to commend and thank Chairman FOWLER for her leadership, her hard work and her willingness to listen to all the stakeholders, the Administration and Members, in an effort to make this the best legislation it could be. She indeed has done an admirable job.

The Disaster Mitigation Act of 2000 is about being prepared for natural disasters. By establishing and funding a pre-disaster mitigation program, we can lessen the human and financial losses associated with natural disasters such as hurricanes, floods, and earthquakes.

This bill also simplifies the Federal-State relationship in providing Federal disaster assistance. It encourages States to be more active in providing assistance, and to assume responsibility for administering benefits where the state chooses to do so. It also protects the taxpayer by encouraging those communities suffering from repetitive losses to undertake efforts to reduce those losses. But it also protects the local community by establishing a 3-year limitation on FEMA's ability to review an assistance grant for compliance with law and regulation.

It is my understanding that there were some Members of the other body that had some concerns about the part of the bill that contained the Council for Terrorism Preparedness. I am sorry that we were not able to work out those concerns. We missed a tremendous opportunity to help organize and prepare for any future terrorist attacks against our nation. I am disappointed about that. I hope we will have a chance in the future to pass a bill on terrorism preparedness.

Mr. Speaker, disaster mitigation is such an extremely important and urgent issue for our country. I support the Disaster Mitigation Act of 2000, and urge my colleagues to support it.

Mr. OBERSTAR. Mr. Speaker, I yield back the balance of my time.

Mr. SHUSTER. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Pennsylvania (Mr. SHUSTER) that the House suspend the rules and concur in the Senate amendment to the House amendment to the Senate amendment to the bill, H.R. 707.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the Senate amendment to the House amendment to the Senate amendment was concurred in.

A motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. SHUSTER. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks on H.R. 707, the bill just passed.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Pennsylvania?

There was no objection.

MOTOR CARRIER FUEL COST EQUITY ACT OF 2000

Mr. SHUSTER. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 4441) to amend title 49, United States Code, to provide a mandatory fuel surcharge for transportation provided by certain motor carriers, and for other purposes, as amended.

The Clerk read as follows:

H.R. 4441

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the ''Motor Carrier Fuel Cost Equity Act of 2000''.

SEC. 2. MANDATORY FUEL SURCHARGE.

(a) IN GENERAL.—Chapter 137 of title 49, United States Code, is amended by adding at the end the following:

''§ 13714. Fuel surcharge

''(a) MANDATORY FUEL SURCHARGE.—

''(1) ASSESSMENT OF SURCHARGE.—Any motor carrier, broker, or freight forwarder subject to

jurisdiction under chapter 135 regularly providing truck-load transportation service shall assess under each contract or agreement for such service the payor of transportation charges a surcharge under this section, or a surcharge or other fuel cost adjustment permitted under section 13715, for fuel used in the transportation provided to such payor commencing when an increase in the price of such fuel surpasses the benchmark in paragraph (2). A surcharge assessed under this section by the motor carrier, broker, or freight forwarder shall be calculated on the basis of mileage or percentage of revenue (whichever basis the motor carrier, broker, or freight forwarder elects) and shall be the amount necessary to compensate the motor carrier, broker, or freight forwarder or other person responsible for paying for fuel for the difference in the price of fuel between the Current Fuel Price and the Fuel Price Norm determined under paragraph (2).

''(2) BENCHMARK.—

''(A) IN GENERAL.—The benchmark referred to in paragraph (1) is the difference between the Current Fuel Price and the Fuel Price Norm, when such difference exceeds $0.05.

''(B) CURRENT FUEL PRICE.—The Current Fuel Price referred to in paragraph (1) and subparagraph (A) shall be determined from the latest weekly Energy Information Administration's Average Retail On-Highway Diesel Prices, National U.S. Average, as published by the Department of Energy.

''(C) FUEL PRICE NORM.—The Fuel Price Norm referred to in paragraph (1) and subparagraph (A) shall be determined by calculating the latest 52-week average of the Average Retail On-Highway Diesel Prices referred to in subparagraph (B).

''(b) IMPLEMENTATION.—The surcharge referred to in subsection (a)(1) shall be—

''(1) calculated on the date the shipment is tendered to the motor carrier, broker, or freight forwarder;

''(2) itemized separately on the motor carrier, broker, or freight forwarder's invoices; and

''(3) paid by the payor of the related transportation charges.

''(c) FACTORS.—For purposes of calculating a surcharge under this section—

''(1) average fuel economy is 5 miles per gallon for calendar year 2000 and shall be determined on January 1 of such year thereafter by the Secretary of Transportation; and

''(2) mileage means the number of paid miles driven as determined under the Department of Defense, Military Traffic Management Command's 'Defense Table of Official Distances'.

''(d) LIMITATION ON AUTHORITY.—Notwithstanding any other provision of this part, any action to enforce this section under section 14704 may only be brought by the motor carrier, broker, or freight forwarder that provided the transportation services against the payor of the transportation charges or by the payor of the transportation charges against the motor carrier, broker, of freight forwarder that provided the transportation services. In such action, a court shall only have the authority to determine whether a fuel surcharge assessed under this section has been assessed or paid. A court shall not have the authority in such action to review any other charges imposed by the provider of the transportation services. Neither the Secretary of Transportation nor the Surface Transportation Board shall have regulatory or enforcement authority relating to provisions of this section.

''(e) EFFECTIVE PERIOD.—Subsections (a) through (d) and section 13715 shall be in effect beginning the 60th day following the date of enactment of this section and ending September 30, 2003.

''§ 13715. Negotiated fuel adjustments

''(a) IN GENERAL.—Nothing in section 13714 shall be construed to abrogate provisions relating to fuel cost adjustments in any transportation contract or agreement in effect on the date of enactment of the Motor Carrier Fuel Cost Equity Act of 2000 and any renewal of such a contract or agreement thereafter. Nothing in this section and sections 13714 and 14102 shall be construed to prohibit any motor carrier, broker, or freight forwarder from including any reasonable privately negotiated fuel cost adjustment provision in any contract or agreement to provide transportation.

''(b) CONTINUATION OF AUTHORITY.—Nothing in section 13714 shall impair the ability of any person to enter into any contract or agreement after the date of enactment of the Motor Carrier Fuel Cost Equity Act of 2000 that provides for a fuel adjustment under this section or section 13714 during any period in which no fuel surcharge is required under section 13714.''.

(b) CLERICAL AMENDMENT.—The analysis for chapter 137 of such title is amended by adding at the end the following:

''13714. Fuel surcharge.

''13715. Negotiated fuel adjustments.''.

SEC. 3. CONFORMING AMENDMENT.

Section 14102 of title 49, United States Code, is amended by adding at the end the following:

''(c) MANDATORY PASS-THROUGH TO COST BEARER.—

''(1) IN GENERAL.—A motor carrier, broker, or freight forwarder providing transportation or service using motor vehicles not owned by it and using fuel not paid for by it—

''(A) shall pass through to the person responsible for paying for fuel any fuel surcharge required pursuant to section 13714, or fuel cost adjustment permitted under section 13715, or provided for in transportation contracts or agreements;

''(B) shall disclose in writing to the person responsible for paying for fuel the amount of all freight rates and charges and fuel surcharges under section 13714 and fuel cost adjustments permitted under section 13715 applicable to such transportation or service; and

''(C) is prohibited from—

''(i) intentionally reducing compensatory transportation costs (other than the fuel surcharge) to the person responsible for paying for fuel for the purpose of adjusting for or avoiding the pass through of the fuel surcharge; and

''(ii) intentionally imposing a fuel cost adjustment in accordance with section 13715 for the purpose of avoiding any payment under this section or section 13714.

''(2) LIMITATION ON AUTHORITY.—Notwithstanding any other provision of this part, the person responsible for paying for fuel may only bring an action to enforce this section under section 14704 against the motor carrier, freight forwarder, or broker providing the transportation services with vehicles not owned by it. Neither the Secretary of Transportation nor the Surface Transportation Board shall have regulatory or enforcement authority relating to provisions of this subsection.

''(3) EFFECTIVE PERIOD.—Paragraphs (1) and (2) shall be in effect beginning the 60th day following the date of enactment of this section and ending September 30, 2003.''.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Pennsylvania (Mr. SHUSTER) and the gentleman from West Virginia (Mr. RAHALL) each will control 20 minutes.

The Chair recognizes the gentleman from Pennsylvania (Mr. SHUSTER).

Mr. SHUSTER. Mr. Speaker, I yield myself such time as I may consume.

Today, the House is considering H.R. 4441, the Motor Carrier Fuel Cost Equity Act of 2000. Earlier this year, the Subcommittee on Ground Transportation held a hearing to examine the price spikes in gasoline and diesel markets. At this meeting, a number of options were discussed to bring relief to those hardest hit by those spikes, such as enabling truckers to negotiate rates that reflect their increased fuel costs. Three months later, the subcommittee convened a panel of truck drivers, shippers and representatives from motor carriers and other transportation intermediaries to hear testimony on the gentleman from West Virginia's (Mr. RAHALL) bill, H.R. 4441, to require a mandatory fuel surcharge.

The Committee on Transportation and Infrastructure then worked for several months to address the concerns raised and to craft a bill we could all support. The bill we are considering today includes numerous changes to the original bill.

In July, the Subcommittee on Ground Transportation approved a substitute amendment by voice vote and later that day the full committee approved the subcommittee's amendment unanimously, which is generally the way our committee works. H.R. 4441 helps trucking companies and particularly independent operators weather the diesel fuel price spikes in the same way that the large trucking companies have been able to do for years. By including a fuel surcharge as part of the total transportation bill, these small business truckers, these independent truckers, will not see their already slim margins disappear when the price of diesel fuel rises sharply and suddenly.

This bill, as amended in committee, has my support. I urge its passage here today.

Mr. Speaker, I reserve the balance of my time.

Mr. RAHALL. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I would first like to express my deep appreciation to the gentleman from Pennsylvania (Mr. SHUSTER) for bringing this piece of legislation to the floor. I commend the statesmanlike manner in which he has just conducted himself in the statement he made prior to consideration of this bill. I have known that to be true through our many years of work together on the Committee on Transportation and Infrastructure. We have worked in a very gentlemanly manner and in a bipartisan manner, I might add, as well. I commend the gentleman from Minnesota (Mr. OBERSTAR), the ranking member, for his support of this legislation and his help as well.

It is supported, as the chairman has said, by a bipartisan group of Members, including the assistant whip on the majority side the gentleman from Missouri (Mr. BLUNT). This bill seeks to

address a real and pressing crisis facing an important segment of our trucking industry. That problem is twofold: First, owner-operators are being hit hard by high diesel fuel prices and simply do not have the market clout to negotiate the same sort of arrangement that the larger companies can to offset those costs. Unable to cope with high diesel prices, many owner-operators are simply unable to continue in business. In fact, fuel prices were the primary factor in the 1,365 trucking company bankruptcies which occurred during the first 6 months of this year. Second, coupled with a national driver shortage, just-in-time deliveries are being threatened, fewer transportation alternatives for shippers are available, and consumers could face a rise in the price of various goods and commodities.

As such, the pending legislation provides owner-operators, shippers and consumers with a safety net by ensuring that any fuel surcharges assessed are ultimately passed on to the entity which actually purchases the fuel. And just what is a fuel surcharge? It is a long established practice in the industry under which a shipper pays to the trucking companies the difference between what is deemed to be a baseline cost of diesel fuel and any sudden and dramatic increases in the cost of that fuel, such as what we are experiencing today. Independent owner-operators, however, are not in the position to negotiate fuel surcharges or, where they exist, be paid the fuel surcharge. And when you consider that two-thirds of the trucking operations in the country today operate six or fewer trucks, we are talking about a sizable segment of the industry.

The pending legislation, as originally introduced, would have imposed a mandatory fuel surcharge program. It has been modified to fully take into account privately negotiated fuel surcharge programs. No existing fuel surcharge arrangement would be abrogated and any future privately negotiated programs of this nature would not be precluded.

Let me repeat. Any current and future privately negotiated fuel surcharge agreements are fully respected by the pending legislation. And I repeat that a third time. Past, current or future privately negotiated fuel surcharge agreements are fully respected.

The essential feature of this bill is that it provides a private right of action as a means to ensure that the entity which actually pays for the fuel receives the surcharge. No Federal Government enforcement. No cost to the taxpayers. Just simply equity and fairness.

Mr. Speaker, America watched the economies of Britain and France thrown into chaos on the issue of diesel fuel prices. I have already noted the large number of industry bankruptcies taking place in this country.

□ 1745

Coupled with a shortage of up to 80,000 truck drivers, we have a formula for disaster in the making.

I might add that high fuel prices have also had a devastating effect on the Nation's port drivers as well. Their poor working condition has come to the attention of the Teamsters Union, which is exploring ways to organize these truck drivers and is working to bring public attention to their plight.

In conclusion, Mr. Speaker, I say let us strike a blow for the little guy, the small businessman, and for the integrity of our economy by passing the pending legislation.

Mr. Speaker, I reserve the balance of my time.

Mr. SHUSTER. Mr. Speaker, I yield 7 minutes to the gentleman from Wisconsin (Mr. PETRI), the distinguished chairman of the Subcommittee on Ground Transportation.

Mr. PETRI. Mr. Speaker, I thank the gentleman from Pennsylvania (Mr. SHUSTER) for yielding me this time.

Mr. Speaker, I rise to speak on H.R. 4441, the bill before us today. Before I do, I just think I would like to take a minute to point out that this may be the last piece of legislation that comes out of the subcommittee that I have had the privilege of chairing for the last 6 years. Under the rules that have been set in the House since 1994, we have term limits for chairmen and subcommittee chairmen, so I will not be chairing that subcommittee in the next Congress, should I be fortunate enough to be reelected.

During those 6 years I have had the opportunity to work with a remarkable ranking Democrat on that subcommittee, and that is my colleague from West Virginia (Mr. RAHALL). Our committee has been, I think, the most productive committee, as a whole, in the Congress of the United States over this period of time, and that is something that no one person could bring about. Only a group of people working cooperatively together were able to accomplish that.

That means that that is a bipartisan accomplishment, and I think that while we clearly do not agree on everything that this committee has to deal with or this Congress has to deal with, we all agree, regardless of party on our Committee on Transportation and Infrastructure, on the importance of transportation infrastructure and transportation investment and a need to keep up on the public side of the ledger with investment and needed infrastructure to keep our economy strong and growing; and we have worked together, industry, labor, the safety community, the environmental community, in this effort.

The door has always been open of our chairman, of the gentleman from West Virginia (Mr. RAHALL), and I hope I can say that of myself, to listen to different people with ideas on legislation and to do what we could to bring them together to a common productive result.

This legislation before us today is just one example of that spirit. Its prime author is a member of the minority party; but it is before us today, and I think it is going to receive bipartisan support. It came out of a hearing that our committee had, or perhaps a series of hearings on the fuel crisis; meeting with industry groups and the Teamsters Union and others to explore different ideas about what we could do as a Congress to react to this crisis to help the little guy, to help the person who does not have the power in the marketplace to impose pass-through clauses and provisions as some of the larger truckers do, so that they are not overwhelmed by swings in energy prices, but do have an opportunity to adjust and to continue in business; and that is the basic purpose of the act before us.

This reflects, I think, the sensitivity and the concern that my colleague, the gentleman from West Virginia (Mr. RAHALL), and that we all have to try to do something constructive in this area. I think that this crisis continues. I am sure, regardless of what happens in the upcoming election, our committee will be eager and responsive to deal with the problems that people in the transportation sector have.

The bill before us, H.R. 4441, as has been mentioned, seeks to ease the effect of sudden and dramatic increases in the cost of fuel on the trucking industry by ensuring that these added costs can be recovered. Under the provisions of the bill, the spike in the price of diesel fuel will trigger a mandatory surcharge to be assessed to the party paying for the transportation costs of the motor carrier transporting the goods. This automatic surcharge is imposed when there is a 5 cent disparity between the latest week's national average and the previous year's national average for diesel fuel. In this way, those businesses hit hardest by surges in the fuel market will be able to recoup additional costs by passing them along to the shipper as part of the total bill.

This past July, the Committee on Transportation and Infrastructure approved a substitute amendment that represents a bipartisan effort to perfect the original text of the bill. This substitute permits companies to include privately negotiated fuel adjustments; and, second, it clarifies the provision and provides the right to sue to collect the surcharge; and, third, it includes a sunset provision that terminates the mandatory surcharge at the end of budget year 2003. At that point, Congress will be able to review the effectiveness of the bill before us.

Mr. Speaker, our committee is the largest committee in the Congress; our

subcommittee is the largest subcommittee in the Congress. The potential for chaos, or at least disorder and delay, was perhaps great; but in fact the cooperation and the achievement instead have been great. We hear a lot about the decline of civility and an increase of partisan bickering in this Congress; and I think the fact of the matter is, those who go about their business quietly achieving results sometimes are lost among the din but are, in truth, a growing number. This committee has prospered in this Congress. Members have sought to be on the committee. The fact that people seek to be on this committee shows that most Members of this House, when given the chance, want to be a part of a productive team.

So I just want to say that as we conclude the second session of this Congress with the passage of this important legislation, H.R. 4441, I appreciate the spirit that has enabled us to reach this point; and I commend it to some other committees in this Congress.

Mr. RAHALL. Mr. Speaker, I yield myself 30 seconds.

Mr. Speaker, I certainly want to commend the gentleman from Wisconsin (Mr. PETRI) for his excellent statement and say to him as well that it has been my pleasure to serve with him for the last 6 years under his chairmanship of the Subcommittee on Ground Transportation. It has truly been an enjoyable experience, not necessarily the position where my chair is; but certainly serving next to the gentleman from Wisconsin (Mr. PETRI) has been a delight. He has always held comprehensive and very timely hearings on not only this issue but other issues. He has spoken of the bipartisanship of our committee and the camaraderie, and I certainly salute him and wish him Godspeed.

Mr. SHUSTER. Mr. Speaker, I reserve the balance of my time.

Mr. RAHALL. Mr. Speaker, I yield such time as he may consume to the gentleman from Minnesota (Mr. OBERSTAR), the distinguished ranking member of our committee.

Mr. OBERSTAR. Mr. Speaker, I thank the gentleman from West Virginia (Mr. RAHALL) for yielding me this time.

Mr. Speaker, I, first of all, want to congratulate our full committee chairman, the gentleman from Pennsylvania (Mr. SHUSTER), on his superb leadership over these 6 years. This may not be the last bill we bring to the floor of the House. We certainly have plenty of time for another bill on pipeline safety. We could do that yet. But over the years of his chairmanship, he has done a superb job reconciling differences; bringing people together; building America; investing in the Nation's future; strengthening the Nation's infrastructure. It has been an extraordinary record of achievement, not only in our field of transportation and related issues but also I think, as the gentleman from Wisconsin (Mr. PETRI) alluded to, in a time when politics is rife and rancor is rampant both inside and outside this body, the Committee on Transportation and Infrastructure has proceeded in a cooperative, bipartisan spirit of understanding and keeping our eye on the objective and doing something good for America.

In addition, in the last Congress this committee handled more than 24 percent of all the bills enacted into law. So far in this Congress, at least in this session of the Congress, nearly a third of all the bills that moved through the House moved through this committee and about 25 percent of all of those were enacted into law. That is an extraordinary record. One does not get those just by being good scouts. It is done by working together, resolving differences, coming to the floor with a unified product that can win the respect and the majority vote in the House.

This bill before us today, the Motor Carrier Fuel Cost Equity Act of 2000, is an example. I commend the chairman of the subcommittee, the gentleman from Wisconsin (Mr. PETRI), the gentleman from West Virginia (Mr. RAHALL), the ranking member of the subcommittee, who initiated the legislation and whose sensitivity to the problems of this segment of the trucking industry has made it possible for us to be here today. He listened. He understood the problems. He told the small motor carriers who have less influence in transportation markets than the larger motor carriers that he would initiate legislation on their behalf; would take the action; would first get a hearing and then see if we could draft legislation, which he did. Now we are here on this floor today, and I hope this bill moves not only through our body but the other body and on to the President for signature into law.

Fuel costs represent a larger proportion of small carriers' operating budgets. Assuming that freight rates are based on true costs, it is obvious small carriers have greater difficulty passing along price increases that represent a larger portion of their operating costs than do the large carriers.

Data provided in 1998 by carriers with $3 million or more in annual revenue show that fuel costs represent only 5 to 6 percent of large carrier operating budgets. Those percentages may be one or two points higher today due to recent price increases. Owner-operators typically do not report cost information to the Department of Transportation. We understand, however, from our discussions with the industry that fuel costs really represent about 30 percent of an owner-operator's operating budget. Obviously, those conditions put the smaller carriers at a disadvantage in a fuel price inflationary era such as we are now experiencing. Seventy percent of owner-operators have lease arrangements with larger carriers, and they ought to be treated fairly by the carriers they lease to. This bill requires that the fuel surcharge paid by shippers be passed on through to whoever is paying for fuel under the lease arrangement. Most often, that is the independent owner-operator.

So the gentleman from West Virginia deserves high praise for recognizing the very real and personal hardships faced by independent truckers and their families, brought on by these higher fuel prices. The gentleman has been out in the highways and the byways and listened to those who drive the trucks, listened to those who face the financial cost price squeeze and recognize that independent truckers should be treated fairly when the Nation goes through the kind of fuel price spikes that we have been experiencing these last several months.

□ 1800

This bill goes a long way toward providing the kind of relief that those hard-pressed, hard-working men and women need in these difficult times. I urge the passage of this legislation.

Mr. SHUSTER. Mr. Speaker, I am pleased to yield 5 minutes to the distinguished gentleman from Missouri (Mr. BLUNT).

Mr. BLUNT. Mr. Speaker, I thank the chairman for yielding time to me, and thank him and the ranking member for their support of this legislation. I certainly am appreciative that the gentleman from West Virginia (Mr. RAHALL) saw this problem and drafted legislation, and I was glad to join him as one of the early cosponsors of this bill, H.R. 4441.

This Motor Carrier Fuel Cost Equity Act is a bill that is really designed to bring temporary emergency relief to an industry that, maybe more than any other industry in the country, has been caught in a devastating situation by these rapid increases in fuel prices.

This is an industry where the cost of fuel is everything, and it is an industry where so many trucks are operated by the people who own those trucks. Their entire livelihood is dependent on what happens in that truck that month. Their entire livelihood is dependent on what the repair costs of the trucks are, what the fuel costs, what the tire costs are.

Many of these owner-operators, I see them in my district, are husband-and-wife driving teams, sometimes with a child that is not ready for school yet riding right along with them and seeing the country.

But their plans were made, their bids were offered, their arrangements were entered into anticipating a much lower cost in the price of fuel, so we have seen this huge increase in fuel in the last several months. Over 70 percent of

motor carriers have six or fewer trucks. These are men and women who haul almost all of our produce, livestock, consumer goods, building materials, raw materials. They are the indispensable engine that drives this economy. They fill in the gaps where people need a load taken here or taken there, where people have not really adequately planned to have everything they needed done done, but there is an independent owner-operator there ready to do that job.

As they have seen these fuel prices go up 70 percent, reaching record high prices in just the last month, thousands of truckers have gone out of business. Fuel prices are only predicted to go even higher in the next few months, putting in peril the future of thousands of small businessmen and businesswomen.

Safety is an issue as they are more and more stressed to pay the bills with the bids that they have out there. They have many problems. This bill helps small businesses at no cost to taxpayers. There is no Federal enforcement. It helps truckers cope with the high cost of diesel by ensuring that any fuel charge assessed is paid to the person who actually purchased the fuel.

We need to end this series of bankruptcies among small truckers. We need to be sure that we keep competition in this marketplace. Competition is ultimately what keeps prices down and makes our economy work. I am wholeheartedly in support of this bill.

Mr. BEREUTER. Mr. Speaker, this Member rises today to express his opposition to H.R. 4441, the Motor Carrier Fuel Cost Equity Act. This legislation would require any motor carrier, broker or freight forwarder regularly providing truckload transportation service, to assess the payer of transportation a fuel surcharge whenever an increase in the price of fuel surpasses the benchmark difference between the current fuel price and the fuel price norm by five cents.

Most assuredly, this Member is very concerned about truckers, especially small and independent trucking firms, regarding the burden of high costs of fuel. However, H.R. 4441 is very ill-considered legislation because it decreases the pressure on the petroleum industry to keep prices down by placing the burden of higher prices on consumers across America. This tactic is clearly a mistake. Federal regulations requiring companies to forward increased prices to consumers will not decrease fuel prices. This Member is committed to helping the small and independent truckers who are hurting from higher gasoline prices by working to decrease the price of fuel.

Mr. RAHALL. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. SHUSTER. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore (Mr. DICKEY). The question is on the motion offered by the gentleman from Pennsylvania (Mr. SHUSTER) that the House suspend the rules and pass the bill, H.R. 4441, as amended.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the bill, as amended, was passed.

A motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. SHUSTER. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks on H.R. 707 and H.R. 4441.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Pennsylvania?

There was no objection.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, the Chair will now put the question on each motion to suspend the rules on which further proceedings were postponed earlier today.

Votes will be taken in the following order:

S. 2438, de novo;

H.R. 208, by the yeas and nays;

H.R. 762, by the yeas and nays.

The Chair will reduce to 5 minutes the time for any electronic vote after the first such vote in this series.

PIPELINE SAFETY IMPROVEMENT ACT OF 2000

The SPEAKER pro tempore. The pending business is the question of suspending the rules and passing the Senate bill, S. 2438.

The Clerk read the title of the Senate bill.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Pennsylvania (Mr. SHUSTER) that the House suspend the rules and pass the Senate bill, S. 2438.

The question was taken.

Mr. OBERSTAR. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The vote was taken by electronic device, and there were—yeas 232, nays 158, not voting 42, as follows:

□ 1830

Messrs. RAHALL, OWENS, MEEHAN and NADLER changed their vote from ''yea'' to ''nay''.

Ms. MILLENDER-McDONALD and Mr. BARCIA changed their vote from ''nay'' to ''yea''.

So (two-thirds not having voted in favor thereof) the motion was rejected.

The result of the vote was announced as above recorded.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (Mr. GUTKNECHT). Pursuant to clause 8 of rule XX, the Chair will reduce to 5 minutes the minimum time for electronic voting on each additional motion to suspend the rules on which the Chair has postponed further proceedings.

FEDERAL THRIFT SAVINGS PLAN PARTICIPATION ACT

The SPEAKER pro tempore. The pending business is the question of suspending the rules and concurring in the Senate amendments to the bill, H.R. 208.

The Clerk read the title of the bill.

The SPEAKER pro tempore. The question is on the motion offered by the gentlewoman from Maryland (Mrs. MORELLA) that the House suspend the rules and concur in the Senate amendments to the bill, H.R. 208, on which the yeas and nays are ordered.

This will be a 5-minute vote.

The vote was taken by electronic device, and there were—yeas 382, nays 0, not voting 50, as follows:

□ 1837

So (two-thirds having voted in favor thereof) the rules were suspended and the Senate amendments were concurred in.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

Stated for:

Mr. STEARNS. Mr. Speaker, on rollcall No. 520, I was unavoidably detained. Had I been present, I would have voted ''yes.''

LUPUS RESEARCH AND CARE AMENDMENTS OF 2000

The SPEAKER pro tempore. The pending business is the question of suspending the rules and passing the bill, H.R. 762, as amended.

The Clerk read the title of the bill.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Florida (Mr. BILIRAKIS) that the House suspend the rules and pass the bill, H.R. 762, as amended,

on which the yeas and nays are ordered.

This will be a 5-minute vote.

The vote was taken by electronic device, and there were—yeas 385, nays 2, not voting 45, as follows:

□ 1846

So (two-thirds having voted in favor thereof) the rules were suspended and the bill, as amended, was passed.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

REMOVAL OF NAME OF MEMBER AS COSPONSOR OF HOUSE RESOLUTION 184, H.R. 745, H.R. 1640, AND H.R. 3634

Mr. BRADY of Texas. Mr. Speaker, I ask unanimous consent that my name be removed as a cosponsor from the following bills: House Resolution 184, H.R. 745, H.R. 1640, and H.R. 3634.

I believe there may have been some confusion with the gentleman from Pennsylvania (Mr. BRADY).

The SPEAKER pro tempore (Mr. GUTKNECHT). Is there objection to the request of the gentleman from Texas?

There was no objection.

FURTHER MESSAGE FROM THE SENATE

A further message from the Senate by Mr. Lundregan, one of its clerks, announced that the Senate has passed with amendment in which the concurrence of the House of requested, a bill of the House of the following title:

H.R. 2389. An Act to restore stability and predictability to the annual payments made to States and counties containing National Forest System lands and public domain lands managed by the Bureau of Land Management for use by the counties for the benefit of public schools, roads, and other purposes.

REPORT ON RESOLUTION PROVIDING FOR CONSIDERATION OF MOTIONS TO SUSPEND THE RULES

Mr. REYNOLDS, from the Committee on Rules, submitted a privileged report (Rept. No. 106–951) on the resolution (H. Res. 615) providing for consideration of motions to suspend the rules, which was referred to the House Calendar and ordered to be printed.

REPORT ON RESOLUTION WAIVING POINTS OF ORDER AGAINST CONFERENCE REPORT ON H.R. 4205, FLOYD D. SPENCE NATIONAL DEFENSE AUTHORIZATION ACT FOR FISCAL YEAR 2001

Mr. REYNOLDS, from the Committee on Rules, submitted a privileged report (Rept. No. 106–952) on the resolution (H. Res. 616) waiving points of order against the conference report to accompany the bill (H.R. 4205) to authorize appropriations for fiscal year 2001 for military activities of the Department of Defense and for military construction, to prescribe military personnel strengths for fiscal year 2001, and for other purposes, which was referred to the House Calendar and ordered to be printed.

REPORT ON RESOLUTION WAIVING POINTS OF ORDER AGAINST CONFERENCE REPORT ON H.R. 4461, AGRICULTURE, RURAL DEVELOPMENT, FOOD AND DRUG ADMINISTRATION, AND RELATED AGENCIES APPROPRIATIONS ACT, 2001

Mr. REYNOLDS, from the Committee on Rules, submitted a privileged report (Rept. No. 106–953) on the resolution (H. Res. 617) waiving points of order against the conference report to accompany the bill (H.R. 4461) making appropriations for Agriculture,

Rural Development, Food and Drug Administration, and Related Agencies programs for the fiscal year ending September 30, 2001, and for other purposes, which was referred to the House Calendar and ordered to be printed.

ENERGY AND WATER DEVELOPMENT APPROPRIATIONS ACT, 2001—VETO MESSAGE FROM THE PRESIDENT OF THE UNITED STATES (H. DOC. NO. 106-299)

The SPEAKER pro tempore laid before the House the following veto message from the President of the United States:

To the House of Representatives:

I am returning herewith without my approval, H.R. 4733, the ''Energy and Water Development Appropriations Act, 2001.'' The bill contains an unacceptable rider regarding the Army Corps of Engineers' master operating manual for the Missouri River. In addition, it fails to provide funding for the California-Bay Delta initiative and includes nearly $700 million for over 300 unrequested projects.

Section 103 would prevent the Army Corps of Engineers from revising the operating manual for the Missouri River that is 20 years old and needs to be updated based on the most recent scientific information. In its current form, the manual simply does not provide an appropriate balance among the competing interests, both commercial and recreational, of the many people who seek to use this great American river. The bill would also undermine implementation of the Endangered Species Act by preventing the Corps of Engineers from funding reasonable and much-needed changes to the operating manual for the Missouri River. The Corps and the U.S. Fish and Wildlife Service are entering a critical phase in their Section 7 consultation on the effects of reservoir project operations. This provision could prevent the Corps from carrying out a necessary element of any reasonable and prudent alternative to avoid jeopardizing the continued existence of the endangered least tern and pallid sturgeon, and the threatened piping plover.

In addition to the objectionable restriction placed upon the Corps of Engineers, the bill fails to provide funding for the California-Bay Delta initiative. This decision could significantly hamper ongoing Federal and State efforts to restore this ecosystem, protect the drinking water of 22 million Californians, and enhance water supply and reliability for over 7 million acres of highly productive farmland and growing urban areas across California. The $60 million budget request, all of which would be used to support activities that can be carried out using existing authorities, is the minimum necessary to ensure adequate Federal participation in these initiatives, which are essential to reducing existing conflicts among water users in California. This funding should be provided without legislative restrictions undermining key environmental statutes or disrupting the balanced approach to meeting the needs of water users and the environment that has been carefully developed through almost 6 years of work with the State of California and interested stakeholders.

The bill also fails to provide sufficient funding necessary to restore endangered salmon in the Pacific Northwest, which would interfere with the Corps of Engineers' ability to comply with the Endangered Species Act, and provides no funds to start the new construction project requested for the Florida Everglades. The bill also fails to fund the Challenge 21 program for environmentally friendly flood damage reduction projects, the program to modernize Corps recreation facilities, and construction of an emergency outlet at Devil's Lake. In addition, it does not fully support efforts to research and develop nonpolluting, domestic sources of energy through solar and renewable technologies that are vital to America's energy security.

Finally, the bill provides nearly $700 million for over 300 unrequested projects, including: nearly 80 unrequested projects totaling more than $330 million for the Department of Energy; nearly 240 unrequested projects totaling over $300 million for the Corps of Engineers' and, more than 10 unrequested projects totaling in excess of $10 million for the Bureau of Reclamation. For example, more than 80 unrequested Corps of Engineers construction projects included in the bill would have a long-term cost of nearly $2.7 billion. These unrequested projects and earmarks come at the expense of other initiatives important to taxpaying Americans.

The American people deserve Government spending based upon a balanced approach that maintains fiscal discipline, eliminates the national debt, extends the solvency of Social Security and Medicare, provides for an appropriately sized tax cut, establishes a new voluntary Medicare prescription drug benefit in the context of broader reforms, expands health care coverage to more families, and funds critical investments for our future. I urge the Congress to work expeditiously to develop a bill that addresses the needs of the Nation.

WILLIAM J. CLINTON.

THE WHITE HOUSE, *October 7, 2000.*

The SPEAKER pro tempore. The objections of the President will be spread at large upon the Journal, and the message and bill will be printed as a House document.

Mr. PACKARD. Mr. Speaker, I ask unanimous consent that further consideration of the veto message be postponed until Wednesday, October 11.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

There was no objection.

EXPRESSING SORROW OF THE HOUSE AT THE DEATH OF THE HONORABLE BRUCE VENTO, MEMBER OF CONGRESS FROM THE STATE OF MINNESOTA

Mr. OBERSTAR. Mr. Speaker, I offer a privileged resolution (H. Res. 618) and ask for its immediate consideration.

The Clerk read the resolution, as follows:

H. RES. 618

Resolved, That the House has heard with profound sorrow of the death of the Honorable Bruce F. Vento, a Representative from the State of Minnesota.

Resolved, That a committee of such Members of the House as the Speaker may designate, together with such Members of the Senate as may be joined, be appointed to attend the funeral.

Resolved, That the Sergeant at Arms of the House be authorized and directed to take such steps as may be necessary for carrying out the provisions of these resolutions and that the necessary expenses in connection therewith be paid out of applicable accounts of the House.

Resolved, That the Clerk communicate these resolutions to the Senate and transmit a copy thereof to the family of the deceased.

Resolved, That when the House adjourns today, it adjourn as a further mark of respect to the memory of the deceased.

The SPEAKER pro tempore (Mrs. FOWLER). The gentleman from Minnesota (Mr. OBERSTAR) is recognized for 1 hour.

Mr. OBERSTAR. Madam Speaker, I yield myself such time as I may consume.

Madam Speaker, it was with great sadness, a sense of personal loss, and a loss to this body that at the opening of session today I took the well to announce that at 11:20 this morning our colleague, our dear friend, BRUCE VENTO, succumbed to mesothelioma, asbestos-induced cancer of the lung and peritoneal cavity.

Madam Speaker, I will reserve my comments for this great and distinguished legislator, friend, hard-working great American until later in this 1-hour.

Madam Speaker, I yield such time as he may consume to the gentleman from Minnesota (Mr. SABO).

Mr. SABO. Madam Speaker, I thank my colleague, the gentleman from Minnesota (Mr. OBERSTAR), for yielding me this time.

It is a sad day. BRUCE VENTO and I have been friends for 30 years. I remember him when he came to the Minnesota State legislature as a new member. We served 6 years together there, then he preceded me by 2 years in Congress. I watched this young man, who came to the State legislature as an eager young freshman legislator, grow into one of our great national leaders on so many issues.

I want to offer my condolences to his wife, Susan, to his sons, his grandchildren, and the rest of the Vento family. BRUCE was always very close to his family and so proud of them. That was part of his being, just as being from the east side of St. Paul was part of his being. He never forgot those roots. He represented the people of that district with a passion.

BRUCE was a person with passion for many, many things: to make sure that the recent immigrants, the Hmong from his district, who had served our country, could become citizens.

□ 1900

A broad array of housing legislation with little special emphasis on the homeless, but it really went to the totality of housing programs in this country because he felt people needed decent housing, to dealing with the complexity of how we deal with financial institutions in this country.

I always thought it was so fitting that BRUCE, the biology teacher in south Minneapolis, became chair of our Subcommittee on National Parks and Public Lands because this was another real passion for him. And he left a real legacy in terms of expanded public lands, expanded parks and a whole variety of other public facilities in this country that will be a legacy for many, many future generations to enjoy.

So it is a sad day. But I think, and most importantly, of simply a good friend.

Mr. OBERSTAR. Madam Speaker, I am now happy to yield to the gentleman from New York (Mr. GILMAN) the chairman of the Committee on International Relations.

Mr. GILMAN. Madam Speaker, I thank the gentleman for yielding.

Madam Speaker, I rise in support of the privileged resolution offered by the gentleman from Minnesota (Mr. OBERSTAR).

I want to express my deep sorrow regarding the passing of not only a good colleague who was an outstanding Member of this Chamber, but a dear friend.

I have known BRUCE VENTO since he first came to this Chamber back in 1976. He brought with him at that time an enthusiasm, a dedication and patriotism which caused him to become one of our most respected colleagues on both sides of the aisle.

Having enjoyed three successful terms in the State legislature of Minnesota, BRUCE brought with him to this Chamber a deep understanding of the legislative process and the knowledge of how to get things done.

In a testimonial just this past June, President Clinton credited BRUCE with steering into law more than 300 bills to protect our Nation's natural resources.

I had the opportunity to come to know BRUCE well when we had occasion to travel together overseas. He participated on several occasions in the U.S. delegation that meets with the European parliament where he made particularly significant contributions to discussions on areas such as transatlantic cooperation to protect the environment.

As chairman of the House Committee on International Relations, I worked closely with BRUCE in his commendable efforts to make American citizens of the Hmong, an ethnic Laotian group which fought with our own forces during the Vietnam conflict. These courageous people were indeed fortunate to have such a champion as BRUCE VENTO.

When Democrats controlled the House, BRUCE VENTO served as chairman of our Subcommittee on Natural Resources, and in that capacity he helped my own district preserve Sterling Forest as a virgin territory.

To his wife Susan and his three sons, my spouse Georgia and I and our colleagues unite in extending our deep condolences with the knowledge that BRUCE VENTO was a giant among us whose shoes will be difficult to fill.

Mr. OBERSTAR. Madam Speaker, I thank the gentleman for his remarks, and I yield to the gentleman from Minnesota (Mr. PETERSON).

Mr. PETERSON of Minnesota. Madam Speaker, I thank the gentleman for yielding.

Madam Speaker, it is a tough day for all of us from Minnesota. BRUCE was not only a good friend of ours and a colleague, but he was someone that was, in the tradition of Minnesota, which has sent all kinds of outstanding elected leaders to Washington and St. Paul and throughout our elected offices in Minnesota, without a doubt, BRUCE VENTO was at the top of that list of great leaders that we have sent to Washington from Minnesota.

As many of you know, he spent a good part of his life teaching and then serving the interests of his people there in St. Paul, both in the legislature and in Congress. And he did that with so much compassion, so much dignity. I am sure that his constituents are the ones that are feeling the loss as much as anybody, because he really went to bat for them. No matter who they were, no matter what status in life they came from, BRUCE VENTO was always there fighting for his constituents.

I extend the deepest condolences to his wife Susan and his family, who BRUCE thought so much of.

BRUCE and I worked together on a lot of things. We agreed on a lot of things, and there were things that we did not agree on. But the thing that I really appreciated about BRUCE was that, even though we sometimes would be on opposite sides of the issue, we always were good friends and he always treated us with tremendous respect and dignity.

I just think that he is, without a doubt, one of the greatest Members of this House. He will be missed a lot by myself and I think all of our colleagues and especially by the people of Minnesota.

So I thank the gentleman very much for inviting me to speak.

Mr. OBERSTAR. Madam Speaker, I now yield to the gentleman from Minnesota (Mr. RAMSTAD).

Mr. RAMSTAD. Madam Speaker, I thank my friend for yielding and for organizing this resolution and tribute to our dear friend and colleague, the gentleman from Minnesota (Mr. VENTO).

This is, Madam Speaker, truly a sad day for all Minnesotans. We have lost a great public servant. Congress has lost its champion of the environment.

Our thoughts and prayers are certainly with BRUCE's family, with his wonderful wife, Susan Lynch Vento; with BRUCE's sons, Michael, Peter and John; and their families as well.

For 24 years, BRUCE VENTO served the people of Minnesota's Fourth Congressional District with great integrity and a strong commitment to helping people in need. His work to protect the environment, provide affordable housing, his work to help the homeless and open new doors for immigrants, his work has truly established a lasting legacy.

I was privileged over the last 10 years to work in this body closely with BRUCE VENTO on a number of legislative initiatives, and I deeply respected BRUCE as a colleague and a friend like all of us here in the House.

The people of Minnesota and the Nation will sorely miss BRUCE's vigilant protection of our environment. When it comes to protecting the environment, BRUCE VENTO was truly a global champion. Whether it was defending our precious Boundary Waters Canoe Area wilderness, helping the homeless, providing affordable housing, or aiding our newest immigrants in Minnesota, our Hmong community, BRUCE always made his case with great eloquence and great passion.

BRUCE VENTO, Madam Speaker, represented the best in public service. And his integrity, his work ethic, his strong commitment to the people of Minnesota will continue to inspire all of us.

May you rest in peace, dear friend.

Mr. OBERSTAR. Madam Speaker, I yield now to the gentleman from Minnesota (Mr. LUTHER).

Mr. LUTHER. Madam Speaker, I thank very much the gentleman from Minnesota (Mr. OBERSTAR) for organizing this evening's effort, the leader of our delegation in Minnesota.

Madam Speaker, I think one of the most difficult things that any of us can do is to come to this floor to talk about the passing of a friend and a colleague. And I, like the others, want to extend my sympathies to Susan, a good friend as well, and to the entire Vento family. The family is just an outstanding Minnesota family, and I want

to extend my sympathies to each and every member.

BRUCE was a dear friend and an extremely sincere, hard-working, dedicated person as a Member of this body. He touched all of us in so many ways.

The adjectives could go on and on when describing a person like BRUCE. I think most people will remember him for his tireless work on behalf of the environment, on behalf of the homeless. I will remember him for these efforts and a dimension that has already been touched on here but that is the dimension of always looking out for the interest of the common person.

No matter what the issue was, BRUCE just had this ability to see beyond the special interests and all the glamor of Washington and the influences in Washington and just look at how this would affect the common person and how he could best represent that common person.

I will also remember BRUCE as a legislator who was more concerned about rolling up his sleeves and getting the job done rather than issuing press releases and taking credit. And I think that really truly earned him the respect and friendship of so many people in this body. So that, even if he could have a battle over an issue with others in the body, he developed an incredible friendship and following here within this body.

I think that was pointed out so vividly at the time that he came to the well of the House and actually advised us of his particular illness. The outpouring of support that day just shows that a person that conducts himself the way he did, the kind of support and friendship that he can have in this body.

I think young people looking to get involved in public service in our country can look to BRUCE VENTO as a model of a public servant, the kind of person we learned about as young people that are the models for us. And I think young people today can look at his life.

Perhaps most vivid in my own personal memory will be the way in which he welcomed me to the House when I was first elected here after the 1994 election. I had served briefly with BRUCE in the Minnesota legislature for a couple of years before he came to Congress; and so, I knew BRUCE. But he had moved on to this body long before I had. He welcomed me with open arms. There simply is no one who spent more time making sure that I was adjusted, that I understood how this institution operated compared to the Minnesota legislature.

Afterwards I started thinking about that and I thought to myself, you know, he is not treating me any different than he would treat anyone else. Yes, I knew him from the Minnesota legislature. But it did not matter who you were, BRUCE VENTO would open his arms to you, he would welcome you in, he would take whatever time was necessary in order to make sure that you felt comfortable, that you were achieving what you wanted to achieve. That is the kind of person we are talking about here this evening. He was really just an outstanding Member of Congress and an outstanding individual. I have no doubt that his legacy will live on for many years.

In conclusion, I would simply say that, now that he has passed away, it is up to the rest of us to carry on the work and the commitment of BRUCE VENTO.

Mr. OBERSTAR. Madam Speaker, I yield to the gentleman from Minnesota (Mr. GUTKNECHT).

Mr. GUTKNECHT. Madam Speaker, I want to thank my colleague from Minnesota for offering this resolution tonight.

This hardly seems possible. It seems just a few months ago that BRUCE was strong and healthy and vigorous. I would see him in the House gym in the morning. He loved to go for a swim, and so did I. And he would be in the pool when I got there at 7 o'clock and he would still be in the pool when I left. He was probably in better condition than virtually any other Member here in the Congress. And to think that this terrible disease drained the life out of him in such a short period of time just really does not seem possible.

□ 1915

In many respects, BRUCE VENTO typified, I think, the best of public service. And I think those of us from Minnesota do have a special pride for the kind of public service that BRUCE VENTO believed in. In many respects, the way he died also symbolized the way he lived. He was prepared to fight for what he believed in, even against insurmountable odds, as he fought these last several months against a disease which would not surrender. But he was passionate about those things. And I have come to respect and admire him so much for the way that he would fight even on those issues on which we disagreed, and as a member of the Minnesota delegation, the institutional wisdom that he brought on all of the issues that affected our entire State and when we worked together on issues that were important to Minnesota, we all worked together and we all listened when he spoke and we all appreciated his wisdom. The contributions that he made on the environment and so many other issues will be remembered for many, many years to come.

There is an expression up above the Speaker's rostrum, a quote from Noah Webster and it closes with these words: ''So that we in our day and generation may not perform something worthy to be remembered.'' Well, BRUCE VENTO will be remembered, because he performed many things in this body worthy to be remembered. BRUCE VENTO will be remembered and ultimately he will be succeeded. But he will never be replaced. We can only hope and pray, and I will say that as he approaches the next part of life's journey, that he will be greeted with these words, ''Well done, o good and noble servant.''

Mr. OBERSTAR. Madam Speaker, I yield such time as he may consume to the gentleman from Minnesota (Mr. MINGE).

Mr. MINGE. Madam Speaker, I would like to thank the gentleman from Minnesota (Mr. OBERSTAR) for arranging for this opportunity to pay our tributes to BRUCE VENTO. BRUCE had a distinguished and very vigorous career here in Congress. He was an advocate for the environment and for all Americans. His work set a high standard for public service. He raised the bar for all of us. We are and we will continue to be challenged to match his level of commitment and accomplishment.

I certainly learned from him of the ways to be more effective in this legislative process, in this body. I have been inspired as have many others by his commitment to opportunity, particularly in the areas of education, housing, financial services and citizenship. BRUCE clearly believed that all Americans, especially those of us from humble backgrounds and limited means, must have full opportunity to participate in our society and that this meant very vigorous and dedicated work on behalf of all of our constituents.

I would like to simply point out two things that BRUCE worked on that I deeply respected and certainly felt keenly his sense of accomplishment. The first is his work on behalf of Hmong residents of our country, a group of individuals from Laos that had come to the United States after the Vietnam War who were essentially people without a nation, without a home. He championed their cause here in Congress and spearheaded the effort in the House of Representatives to grant citizenship to Hmong.

In connection with conservation and the environment, he and I shared a keen interest in cleaning up and providing wildlife habitat in the river systems in the upper Midwest, and particularly the Minnesota and the Mississippi Rivers. What he did for the river front area of St. Paul is truly remarkable and is a lasting accomplishment for our State and our Nation. What he did in connection with the Boundary Waters Canoe Area is also outstanding. He was a tireless advocate. It was a controversial issue within our delegation, within our State. But BRUCE would not give up. He insisted on protecting this important resource. And in the end, he and the gentleman from Minnesota (Mr. OBERSTAR) reached an understanding or an accommodation, shook hands and moved forward shoulder to shoulder on behalf of

an arrangement which he believed preserved the very best and the very essence of this important Boundary Waters Canoe Area. I and many others shared that commitment and that concern with him.

I have gotten to know BRUCE's wife, Susan Lynch, a remarkable person, and our sympathies go out to her and to BRUCE's sons, to his grandchildren and others in the Vento family in this great loss. It certainly is an occasion for all of us to examine our priorities, our commitments, our role and, as I said earlier, when it comes to our role and our work, BRUCE VENTO raised the bar and all of us are challenged to redouble our efforts to maintain the level of commitment and accomplishment that BRUCE has established.

Mr. OBERSTAR. Madam Speaker, I am pleased to yield such time as he may consume to the gentleman from Iowa (Mr. LEACH), chairman of the Committee on Banking and Financial Services.

Mr. LEACH. Madam Speaker, I thank the gentleman from Minnesota and his fellow Minnesotans for taking responsibility to introduce this resolution for our friend BRUCE. BRUCE and I came into Congress together and for 24 years we served on the same committee. Of all the Members I have ever dealt with and known, BRUCE combined an almost innate sense of idealism with a can-do practicality and how to apply it to the legislative process.

Ralph Waldo Emerson once wrote:

To laugh often and much; to win the respect of intelligent people and the affection of children; to earn the appreciation of honest critics and endure the betrayal of false friends; to appreciate beauty, to find the best in others; to leave the world a bit better, whether by healthy child, a garden patch or a redeemed social condition; to know even one life has breathed easier because you have lived. This is to have succeeded.

BRUCE succeeded in each and every way. He will be much missed.

Mr. OBERSTAR. Madam Speaker, I yield such time as she may consume to the gentlewoman from Ohio (Ms. KAPTUR).

Ms. KAPTUR. Madam Speaker, it is a high privilege for me this evening to join in this resolution introduced by the dean of the Minnesota delegation and the Minnesota Members to participate in this remembrance of our beloved colleague, BRUCE VENTO. I can say that I have known BRUCE for 18 years now. As a new Member of Congress, he sat right behind me, that meant he had more seniority, on the Committee on Banking and Financial Services. He welcomed me just as other Members have indicated he welcomed them as they came. What was great for me, and I say this to his family as they are enduring this great, great loss, he was so friendly. In the days when he first came, there were only about two dozen women in the House, and I was not an attorney in a body with about 75 percent of the Members who were attorneys, and to discover he was a biologist who had been an educator made me feel right at home. As we would go through amendments in the committee, I found a real friend who would talk to me and who would bring me along, that made me feel that I was an equal Member. As I came to know his other committee work outside of banking where he championed the needs of the homeless before it became a popular expression in the country, or homes for people who had difficulty with affordability. I learned about his tremendous interest in the environment. He was quite a bicyclist. And I watched his work in literally every congressional district across this country, as a real successor to Johnny Appleseed and the great American tradition of love of the outdoors.

In my own district, for example, we have the Maumee Heritage Corridor now. The Maumee River is the largest river that empties into the Great Lakes. Without BRUCE VENTO, that designation would not be possible. And the discovery of the Fallen Timbers battle site which ranks with Yorktown and Gettysburg as one of the three most important battle sites in the founding of the republic would not be possible without the legislative efforts of BRUCE VENTO.

And so I just wanted to come down here to say that I shall always remember BRUCE VENTO. And as a representative of the people of my district, I will say that I remember his great ability, his great humor, his great service as an educator as well as a lawmaker. I will remember him talking to me throughout my career about the importance of housing as well as the needs of the underserved and America's greatest, greatest lawmaker in my era in terms of the environment and our open spaces and our needs to continue to conserve our beautiful land and our resources.

I just say again to his family and to his beloved Minnesota colleagues, we have lost a dear friend and a great lawmaker.

Mr. OBERSTAR. Madam Speaker, I am pleased to yield such time as he may consume to the gentleman from New York (Mr. HINCHEY).

Mr. HINCHEY. Madam Speaker, I want to express my appreciation to the gentleman from Minnesota (Mr. OBERSTAR) for organizing this opportunity for us to pay tribute to a great representative of the American people. The men and women of this House have lost a warm and wonderful colleague. The people of St. Paul and Minnesota have lost a passionate and powerfully effective advocate. And the people of America have lost a very model of what a Member of this Congress should and ought to be. BRUCE VENTO was all of that and more. I had the privilege of serving with him for 6 years on both the Committee on Banking and Financial Services and the Committee on Resources. In that experience, I learned a great deal from him about the Nation's banking system and our need to protect and preserve soundness and security within that system, and although I thought I knew a great deal about the environment and America's natural places, I learned more than I ever thought was possible from listening to BRUCE and traveling with him.

My first term here in the Congress, he organized a trip as chairman of the Subcommittee on Parks of the Committee on Resources into the Bob Marshall which is the wildest area in the lower 48 States. After a day of traveling to a remote camp, we arose early the next morning and rode 10 miles on horseback and then later in the day another 10 miles on foot to a very remote lake on the edge of the Cascade Mountains. In that experience with BRUCE and members of the Forest Service, I learned a great deal about America's wild places and the need to protect and preserve them. And I learned them from someone who as a biologist was fortified with the knowledge that made his advocacy as a conservationist and a naturalist even more effective.

BRUCE VENTO was, yes, a great representative for the people that he served and for all of the people of this Nation, but I think fundamentally he was a teacher. In everything that he did, he sought the opportunity to expand knowledge, his own as well as those around him. Anyone who had the opportunity to spend any time with him whatsoever, engaged in conversation with him, learned a great deal about a myriad variety of subjects on which he was very, very knowledgeable. We have lost a dear friend, a good colleague, a strong advocate.

I would hope that at a time not far from this moment, this Congress would turn its attention toward designating some appropriate place in this country among the wild areas, among the natural areas of America, to name in honor of the service of BRUCE VENTO to the people of Minnesota and to the people of America.

□ 1930

Mr. OBERSTAR. Madam Speaker, I yield myself such time as I may consume.

Madam Speaker, I thank the gentleman for his comments and for his suggestion of a naming, and I would say that we are working on one or two in Minnesota. Already an elementary school has been named for BRUCE VENTO. There are two other designations that we are working on that we hoped to have accomplished before the end of this session, but his death preceded our best efforts.

Madam Speaker, I yield such time as she may consume to the gentlewoman from Cleveland, Ohio (Mrs. JONES).

Mrs. JONES of Ohio. Madam Speaker, I thank the gentleman from Minnesota (Mr. OBERSTAR) for organizing this hour.

Madam Speaker, as I sit here, I realize I am probably the person who is speaking who knew BRUCE VENTO the least amount of time. I just came to Congress in this 106th Congress and had the fortune of serving on the Committee on Banking and Financial Services with BRUCE VENTO, as well as the Subcommittee on Housing and Community Opportunity. Now, when one is a freshman, as the gentlewoman from Ohio (Ms. KAPTUR) said, one sits way down in the front and the more higher ranking members sit way in the back. So when we started, because this is such a large body, one does not get to know all of the Members; but one gets to know the people they serve on the committee with.

The thing I remember first about BRUCE VENTO was that deep voice. So when we went through the roll, they would say VENTO, here or yes, and I would turn around and try to figure out who it was.

Luckily on the Subcommittee on Housing and Community Opportunity, the room was much smaller, and so he sat right behind me. Many chances I got to say so and so and how are you doing and the like. All I can say is having only known him about 20 months or less, he was good at, as everyone said, instructing and teaching. Through the H.R. 10 financial modernization, I always looked to hear what he had to say as we went through our hearings. Through the housing situations, I agreed with him about the need for affordable housing.

Dr. Martin Luther King says these words: ''God can do tremendous things through the person who does not care who gets the credit,'' and I think that most exemplifies BRUCE VENTO.

I am pleased to be here this evening. I did not know his wife. I did not know his family; but as just one little Member of Congress, I say to them that they have my condolences and my prayers, and I know where BRUCE VENTO is. He is up among the birds and the trees on a lake somewhere just laying back and enjoying it, and I pray that he enjoys the rest of his time.

Mr. OBERSTAR. Madam Speaker, I yield such time as he may consume to the gentleman from Michigan (Mr. KILDEE), who sat side by side with Mr. VENTO for so many years on the Committee on Resources.

Mr. KILDEE. Madam Speaker, I thank the gentleman from Minnesota (Mr. OBERSTAR) for yielding me this time.

BRUCE VENTO and I came to Congress together in 1977, and for many years we were seat mates on the Committee on Resources. Like me, he was a schoolteacher and brought his ability to instruct others to this Congress. He understood and could explain the intricacies of banking legislation in very, very clear detail. His well-known love for the environment and its protection has enriched our country beyond measure. For several years, his family and my family would celebrate Thanksgiving together, with great joy and filled with wonderful animated conversation.

This country is clearly a better country because of BRUCE VENTO, and I know that I am a better person because of BRUCE VENTO. May the angels receive you into paradise, dear friend.

Mr. OBERSTAR. Madam Speaker, I yield such time as he may consume to the gentleman from Georgia (Mr. LEWIS). He may be the gentleman from Georgia, but he is also the gentleman from all America.

Mr. LEWIS of Georgia. Madam Speaker, I want to thank my friend and colleague, the gentleman from Minnesota (Mr. OBERSTAR), for holding this special order and paying tribute to our friend, our colleague, and our brother, BRUCE VENTO.

Madam Speaker, I came to the Congress in 1987 when I first met BRUCE VENTO. I was more than lucky but really truly blessed to serve on the old Interior Committee with BRUCE. BRUCE was our Chair, the Chair of the Subcommittee on National Parks and Public Lands; and it was a delight and wonderful to serve with this wonderful, gifted, talented human being.

He loved America. He loved open space, the land. He wanted to do as much as possible to preserve some of this beauty and leave it a little cleaner for future generations.

I had an opportunity to travel with BRUCE on one occasion, I will never forget, for a hearing we held in Minnesota at the State Capitol, dealing with protecting the Mississippi. While I was there, I am not sure whether it was on a Monday or a Tuesday, but it was a Taste of Minnesota Day. BRUCE took me out of the State Capitol, and the members of the subcommittee. We went out on the grounds and we tasted all of this wonderful food that BRUCE introduced me to.

He was very delightful in introducing a poor guy who grew up in Alabama, now living in Georgia, to this very special and wonderful food in Minnesota.

I had an opportunity to invite BRUCE to come to Atlanta, and he came to Georgia. We held a hearing on the Martin Luther King Historic Site, and I would say today if it had not been for our friend and colleague, BRUCE VENTO, neither the Martin Luther King Historic Site in Atlanta, nor the historic trail, Highway 80 from Selma to Montgomery, would be in existence.

BRUCE never gave up. He had a vision of making America better, saving the land, saving the forests; and I truly believe when historians pick up their pens and write about this period in our history they will have to say this man, our colleague, our friend, BRUCE VENTO, made a difference.

So on behalf of myself and my wife, Lillian, that BRUCE would ask me about from time to time, how is Lillian, I want to say to BRUCE's family, his wife and children, you have our sympathy. You will be kept in our prayers; and we will never, ever forget the likeness of this one giant among us. He will be deeply missed.

Mr. OBERSTAR. Madam Speaker, I thank the gentleman from Georgia (Mr. LEWIS) for those heartfelt, very touching words.

Madam Speaker, I yield such time as he may consume to the gentleman from American Samoa (Mr. FALEOMAVAEGA).

Mr. FALEOMAVAEGA. Madam Speaker, I want to thank the gentleman from Minnesota (Mr. OBERSTAR), my good friend and colleague, for giving me time to say these things concerning this great American.

Madam Speaker, I too am truly saddened to learn of our colleague's passing today. Congressman BRUCE VENTO was truly a champion and one of the outstanding leaders of this institution whenever conservation and environmental issues were deliberated and debated in this Chamber. As a senior member of the House Committee on Resources, the gentleman from Minnesota (Mr. VENTO) let it be known to all the members of our committee and to all of our colleagues where the line is drawn whenever environmental issues are taken up by this body.

In the many years that he served as chairman of the Subcommittee on National Parks and Public Lands, I can attest to my colleagues and to our Nation that some 300 bills that have become law have VENTO's signature on them. I can honestly say that even the national park that is now established in my own district was due mainly to VENTO's leadership and legislative skills that Congress passed a law to have this national park in my district.

I want to express the sense of appreciation and gratitude from our traditional leaders and from the people of American Samoa to Mr. VENTO.

Madam Speaker, I am going to miss this gentle giant, and I say giant, from Minnesota. I have always valued his opinions and how much he has influenced my own thinking about life itself. I remember when he visited our national park in American Samoa, none of us were able to catch up with them when he was climbing one of the steep mountains, even on the roads and the trails that were so muddy that not even the four-wheel vehicles could make it.

Madam Speaker, I want to convey to Mrs. Vento and the family the condolences of the people of my district. Our people have a saying in a traditional sense, ia manuia lau faigamalaga lau

afioga BRUCE VENTO. May you have a good and successful voyage, Your Honor, BRUCE VENTO.

Again, I thank the gentleman from Minnesota (Mr. OBERSTAR) for yielding me time to honor this great American.

Mr. OBERSTAR. Madam Speaker, I thank the gentleman from American Samoa (Mr. FALEOMAVAEGA) for those wonderful words from your native land that our colleague would so much appreciate.

Madam Speaker, I yield such time as he may consume to the gentleman from Wisconsin (Mr. KIND).

Mr. KIND. Madam Speaker, I thank my friend, the gentleman from Minnesota (Mr. OBERSTAR), for yielding me this time.

Madam Speaker, I commend him and the rest of the Minnesota delegation for organizing this special order to pay tribute to a dear friend, BRUCE VENTO.

BRUCE VENTO was a dear friend and a dear colleague of mine, who I greatly respected and admired. Even though I have had the privilege of serving with him for the past 4 years in the United States Congress, I knew of BRUCE VENTO as an admirer from afar, given his work on conservation and environmental measures and as a resident of western Wisconsin just across the river from his congressional district.

Since coming to Congress, I had the privilege of serving with him on the Committee on Resources and the Subcommittee on National Parks and Public Lands; and he was a natural leader on the Committee on Resources, unquestionably, given his profound interest and depth of knowledge and expertise on these issues of 24 years serving on the Committee on Resources; 10 of those years as Chair of the Subcommittee on National Parks and Public Lands, to which the Nation owes him a debt of gratitude.

His strong leadership on the Committee on Resources resulted in protecting hundreds of thousands of acreage and the enactment of over 300 laws preserving the environment, from the Boundary Waters Canoe Area Wilderness Area, a place that holds special meaning to me since I try to get up there for a week every summer with some brothers and friends to spend time in the Boundary Waters Area canoeing and camping; to the Minnesota National Wildlife Refuge; to the new parks and wilderness that were created in Alaska and even in American Samoa, as our good friend just stated earlier.

What especially impressed me about BRUCE VENTO was his concern about some of the most disenfranchised and politically powerless people that exist in our country, from the homeless to his concern for housing issues but especially his tireless advocacy for the Hmong population in this country. Both BRUCE VENTO and I share a sizable Hmong population in our respective congressional districts. That is why I was especially proud to be able to join forces with BRUCE on a number of issues that affected Hmong rights, but most particularly the Hmong Veterans Naturalization Act that BRUCE championed for quite a few years and which ultimately was passed into law this year, that recognizes the tremendous contribution that Hmong veterans and their families gave U.S. armed services personnel during the war in Southeast Asia.

These were people who fought side by side with our veterans of the Vietnam conflict. They were there building the landing strips for our air personnel. They were there rescuing downed pilots during the Vietnam War, and they were the ones who were most persecuted after the war, many of whom were able to seek refuge and safety in the United States. But these were not a very politically powerful or a large political constituency, and they were a group of people who were in search of a leader to represent their views and to bring fairness and decency to their cause, and that is what BRUCE VENTO provided them.

This was not a political issue for him, but it was an issue of doing right by our friends and allies and recognizing their contribution. Perhaps there are going to be many living legacies that BRUCE VENTO has given us in this Nation, but I could not think of one more important or more lasting than providing a home in a country for the Hmong population who live with us today.

The people in Minnesota and Wisconsin and the entire United States will sorely miss Congressman BRUCE VENTO. I am proud to have served with him and to have called him my friend, but I especially appreciated the moments we shared together on our numerous flights to and from the Twin Cities and out here to Washington.

□ 1945

He and I would oftentimes be sitting next to each other, which gave me a wonderful opportunity to pick his brain and talk about legislation and policy issues. I enjoyed listening to his stories of his recent bike trips that he enjoyed doing time and time again, but I especially liked listening to his stories about his family.

For a guy who was as busy and as committed as BRUCE VENTO was on the great public policy issues of our day and the work that he did in the United States Congress, he always kept family first. He was so proud of his children, but especially proud of his grandchildren. You could just see his face light up with joy and excitement talking about his latest discovery of a grandchild, or of seeing the world anew through his grandchildren.

That, for a young Member of Congress, that drove home a very important point and lesson that I have committed to my own service here. That was to not lose focus or proper perspective on the role and the importance of family life and spending enough time with our own children, and hopefully someday for myself, even my grandchildren.

He will be missed. He will never be replaced. But I can honestly say that this country is definitely a better place due to his efforts. I thank him for his advice and guidance, and may he rest in peace.

Mr. OBERSTAR. Madam Speaker, I am pleased to yield such time as she may consume to the gentlewoman from Illinois (Ms. SCHAKOWSKY).

Ms. SCHAKOWSKY. Madam Speaker, I thank the gentleman for yielding time to me.

I am feeling very sad today and bad today because I had meant to write a note to BRUCE VENTO and did not do it in time. What I wanted to tell him, maybe I can pass on in some way to his family, was to thank him for his incredible generosity to a freshman Member of the United States Congress.

I served with him on the Committee on Banking and Financial Services and on the Subcommittee on Housing and Community Opportunity. At one point last year, early in my very first term, I had a press conference dealing with funding for low-income housing. While I had invited a lot of Members to come, one of the few that showed up was BRUCE VENTO, who is a very important member on that committee. I was really honored for him to be there.

Among the things he said were nice things about me, which was so greatly appreciated, and so unnecessary. When I presented my very first amendment on the floor of the House, rather clumsily, it would have been a whole lot worse if BRUCE VENTO had not been there, because he stood by my side and told me exactly what I should do. And then he spoke to the amendment, which was fairly noncontroversial, a big deal to me, and I think he knew that, because he came down not so much because he supported it, which he did, but I think he came down to the floor to support me, which, again, was greatly appreciated.

In a town where people say, ''If you want a friend, get a dog,'' BRUCE VENTO was the kind of person who would really be a friend, no strings attached. He wanted to help people because he was a kind and a generous and a decent and a nice person.

So in addition to all the wonderful contributions that he has made to our country, I wanted to tell him that I really appreciated how kind he was to me. I want to express my deepest condolences to his family, and just to say that I will miss him very much.

Mr. OBERSTAR. Madam Speaker, I am pleased to yield such time as he may consume to the gentleman from Guam (Mr. UNDERWOOD).

Mr. UNDERWOOD. Madam Speaker, I thank the gentleman for yielding time to me.

I, too, rise to pay tribute to the passing of our friend and colleague, the gentleman from Minnesota, BRUCE VENTO. Much has been said already by a number of Members regarding how he dealt with freshman Members and how willing he was to devote his time and energy to explain things.

I would have to say that as a first-termer elected in the 103rd Congress, he was chairman of the Subcommittee on National Parks and Public Lands. He helped me pass my very first bill, which was a bill relating to the War in the Pacific Park in Guam, and how he took the time not only to help me shepherd that bill through, but there was a significant amount of time that he devoted committee resources to.

He was a marvelous teacher, and in many respects, coming from the field of education, I feel a very special kinship to him because I, too, am a teacher. He was able to evidence the best in teaching behavior, not only in how he carried himself here as a legislator, but how he interacted individually with Members.

He was a persistent, unrelenting friend of the environment, constantly on focus, sometimes much to the distraction of those who opposed him. Having observed him and participated with him in many discussions in the Committee on Resources, he was very unrelenting, but I think in an admirable way in and in a way that people honored and recognized his expertise and his commitment and his passion.

There will be or there should be no occasion for any American not to know the work of BRUCE VENTO when they go around and see the national parks in this country, and see his commitment to protecting the environment and making sure that, for generations yet unborn, they, too, will benefit and profit from green spaces and from understanding the connection that we all have to the environment and to each other.

In my capacity as chairman of the Congressional Asian Pacific caucus, I learned another dimension about BRUCE; that is, his passion and his work for the Hmong people, and again, in a way that I had not thought about. Again, he demonstrated what kind of a legislator he was; that he was wide-ranging, that he understood his responsibility to his constituents, and he understood the unique circumstances which the Hmong people in his district lived under, and he took steps to alleviate and to mediate, help mediate their experience here in the United States.

Of course, his work for the homeless is legendary.

So in many, many ways, we will all miss BRUCE. I wanted just to have the opportunity to express my personal gratitude for his efforts in helping me as a freshman Member shepherd my first piece of legislation through this body and through committees, and also to thank him for his efforts in that regard; to pay tribute to his unrelenting commitment and passion for the environment; and to express my sincerest condolences to his family.

We will miss him, and I am sure he is in a better place.

Mr. OBERSTAR. Madam Speaker, I yield myself such time as I may consume.

Madam Speaker, I thank the gentleman for his comments. I would express my great appreciation to all the Members who have stayed long after the legislative business of the House to express their profound respect for the work of BRUCE VENTO in this body, for the friendship that he has meant to each of them.

BRUCE VENTO, like all of us, had great moments in this body, but none was greater than the moment that he took some months ago in the well of this House to address us all about the illness which had afflicted him and which he knew would take his life.

What stands out is that in a time of rancor, in a body where campaigns have moved from the hinterlands to the House floor and have so often spilled over into invective, that was a shining moment for this House, where he spoke of the politics of joy and of hope, of the meaning of public service, and his pride in serving the people of his district, of his State, and of his country.

It was a great moment for the House of Representatives, one that will be enshrined forever, not just in the RECORD, but in the hearts of all of us who were privileged to hear that beautiful outpouring of the meaning of this great deliberative body.

Madam Speaker, I am pleased to yield such time as he may consume to the gentleman from West Virginia (Mr. RAHALL), who sat side by side with BRUCE VENTO throughout all these 12 terms.

Mr. RAHALL. Madam Speaker, I think my friend for yielding time to me.

Indeed, BRUCE VENTO was a dear colleague to me, as well. Having served with him, as well as the gentleman from Michigan (Mr. KILDEE), side by side, first on the Interior and Insular Affairs Committee, and now on the Committee on Resources for my 24 years in this body, to say that BRUCE VENTO knew what was in every piece of legislation that came before our committee is not an understatement.

As I said, having sat next to him, I could see him and would marvel at the way he would read every piece of bill upon which he were asked to vote, with that red highlight pen underlining the pertinent pieces of every piece of legislation that came before our committee.

Truly, he was a knowledgeable Member of this body. He was dedicated to our environment. He came with me to my district in southern West Virginia, rode on our whitewater rivers, and came back and helped me craft legislation to preserve those rivers for generations to come.

BRUCE was in my class. We came to this body in 1977. Throughout our years together, he was a man who truly lived the words ''public servant'' to their fullest.

To his wife, to his family, to his friends back in Minnesota who he so ably served, I do say, we shall all miss him. BRUCE VENTO was a dear friend to all of us.

Mr. OBERSTAR. Madam Speaker, I yield myself such time as I may consume.

Madam Speaker, in the few moments that remain, there was only one other person who in my memory stands out for having taken the well of the House to address his colleagues on the meaning of life and the meaning of legislative service. That was Senator Hubert Humphrey, who was invited by this body to address the House from the Clerk's desk.

Parenthetically, when he arrived there, he looked out over this assembled gathering of Members of the House and Members of the Senate and said, ''Oh, you don't know how long I have waited to stand here and make this speech.''

BRUCE and I were standing together and marvelled at this wonderful expose of the meaning of the legislative process and of service to humanity. Little did either of us realize years later he, too, would take the well to give a similar civics lesson, one from the heart, on the meaning of comity and of service.

At the fundraising event in BRUCE's honor where funds were raised for a scholarship program for science students, little red pine seedlings were handed out. I took three of those, one for each of his sons, because I had a sense then that we were witnessing a drama that would play itself out in the end of his life in some months.

I planted those seedlings in our backyard. They are thriving. They will get another place where they will get more light, more strength. They will be a symbol to all of us of this recurring resource that BRUCE fought so hard to preserve, to protect: the flora, the fauna, the water, the air, the land.

□ 2000

At the end of life, we will not be judged by how large a surplus we left, how large a nuclear arsenal, how great an Army we left behind us, or by how many bills had been enacted into law. We will be judged by, I was naked and you clothed me; I was hungry and you fed me; I was homeless and you took me in.

When we cloth our fellow human beings in dignity, when we take the homeless into our hearts, into our

lives, and when we feed the hungry with the spirit that gives life, we are truly doing the Lord's work in this life. That was BRUCE VENTO. That was all that he committed himself to do in public service.

With Samuel Gompers, BRUCE can say I came into the labor movement with one purpose, to leave it a better place and a better movement than I found it in. BRUCE leaves this body, his city, his district, his constituents these resources of land and air and water and the creatures among them in better condition than he found them in.

Mrs. MALONEY of New York. Madam Speaker, it is with a heavy heart that I join my colleagues tonight in this tribute to Congressman BRUCE VENTO. We all knew that someday Members of Congress would stand in the well of the House in tribute to BRUCE VENTO's many accomplishments, it is truly sad that this day has come too soon. Since coming to Congress 8 years ago, I have had the pleasure of a close relationship with Congressman VENTO on the Banking Committee.

The Banking Committee deals with some of the most complex issues in all of Congress. Congressman VENTO put in the time, attended all the hearings, and mastered all these complex problems. As a teacher himself prior to coming to Congress, he became a resource to all Committee members, providing counsel on a host of from financial modernization to complex housing programs.

Congressman VENTO served as a tireless advocate for all consumers on the committee. He truly stood up for working people of all stripes time and time again. He made it a focus to make sure that individuals rights are protected by law as they interact with the most powerful financial companies in the world. His legacy on the committee and his impact on consumer banking law will live forward for decades to come.

From timeless issues such as housing for the poor, to newer issues like the protection of consumers' private banking information in the online world, Congressman VENTO was ahead of the curve, and on the people's side. I will truly miss Congressman VENTO, Congress is truly diminished by his absence. Let me convey to Congressman VENTO's family, his dedicated longtime staff here in Washington and Minnesota, and to the people of Congressman VENTO's 4th district my strongest, and heartfelt condolences.

Mr. OBERSTAR. Madam Speaker, I yield back the balance of my time.

The SPEAKER pro tempore (Mrs. FOWLER). Without objection, the previous question is ordered on the resolution.

There was no objection.

The resolution was agreed to.

A motion to reconsider was laid on the table.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, the Chair announces that she will postpone further proceedings today on each motion to suspend the rules on which a recorded vote or the yeas and nays are ordered, or on which the vote is objected to under clause 6 of rule XX.

Any record votes on postponed questions will be taken tomorrow.

SENSE OF CONGRESS REGARDING BURMA

Mr. BEREUTER. Mr. Speaker, I move to suspend the rules and agree to the concurrent resolution (H. Con. Res. 328) expressing the sense of the Congress in recognition of the 10th anniversary of the free and fair elections in Burma and the urgent need to improve the democratic and human rights of the people of Burma, as amended.

The Clerk read as follows:

H. CON. RES. 328

Whereas in 1988 thousands of Burmese citizens called for a democratic change in Burma and participated in peaceful demonstrations to achieve this result;

Whereas these demonstrations were brutally repressed by the Burmese military, resulting in the loss of hundreds of lives;

Whereas despite continued repression, the Burmese people turned out in record numbers to vote in elections deemed free and fair by international observers;

Whereas on May 27, 1990, the National League for Democracy (NLD) led by Daw Aung San Suu Kyi won more than 60 percent of the popular vote and 80 percent of the parliamentary seats in the elections;

Whereas the Burmese military rejected the results of the elections, placed Daw Aung San Suu Kyi and hundreds of members of the NLD under arrest, pressured members of the NLD to resign, and severely restricted freedom of assembly, speech, and the press;

Whereas 48,000,000 people in Burma continue to suffer gross violations of human rights, including the right to democracy, and economic deprivation under a military regime known as the State Peace and Development Council (SPDC);

Whereas on September 16, 1998, the members of the NLD and other political parties who won the 1990 elections joined together to form the Committee Representing the People's Parliament (CRPP) as an interim mechanism to address human rights, economic and other conditions, and provide representation of the political views and voice of Members of Parliament elected to but denied office in 1990;

Whereas the United Nations General Assembly and Commission on Human Rights have condemned in nine consecutive resolutions the persecution of religious and ethnic minorities and the political opposition, and SPDC's record of forced labor, exploitation, and sexual violence against women;

Whereas the United States and the European Union Council of Foreign Ministers have similarly condemned conditions in Burma and officially imposed travel restrictions and other sanctions against the SPDC;

Whereas in May 1999, the International Labor Organization (ILO) condemned the SPDC for inflicting forced labor on the people and has banned the SPDC from participating in any ILO meetings;

Whereas the 1999 Department of State Country Reports on Human Rights Practices for Burma estimates more than 1,300 people continue to suffer inhumane detention conditions as political prisoners in Burma;

Whereas the Department of State International Narcotics Control Strategy Report for 2000 determines that Burma is the second largest world-wide source of illicit opium and heroin and that there are continuing, reliable reports that Burmese officials are ''involved in the drug business or are paid to allow the drug business to be conducted by others'', conditions which pose a direct threat to United States national security interests;

Whereas Daw Aung San Suu Kyi has been denied the basic rights to freedom of movement and assemble with members of the NLD by Burmese security authorities who, on August 24, 2000, forcibly blocked her and her party from traveling to NLD township offices near Rangoon;

Whereas after having been halted for nine days at a roadblock, Daw Aung San Suu Kyi and her party were forcibly returned to Rangoon by Burmese security authorities;

Whereas since their forcible return to Rangoon Daw Aung San Suu Kyi and other NLD leaders have been held incommunicado in their residences and diplomats and others have been denied access to them;

Whereas the refusal to allow Daw Aung San Suu Kyi to leave her compound or to allow others access to her has created grave concern for her safety and welfare;

Whereas the NLD party offices have been ransacked and documents seized by Burmese authorities and access to the party headquarters has been denied to NLD members;

Whereas the Burmese authorities have continued to refuse to engage in a substantive dialogue with the NLD and other elements of the democratic opposition; and

Whereas despite these massive violations of human rights and civil liberties and chronic economic deprivation, Daw Aung San Suu Kyi and members of the NLD have continued to call for a peaceful political dialogue with the SPDC to achieve a democratic transition: Now, therefore, be it

Resolved by the House of Representatives (the Senate concurring), That it is the Sense of the Congress that—

(1) United States policy should strongly support the restoration of democracy in Burma, including implementation of the results of the free and fair elections of 1990;

(2) United States policy should continue to call upon the military regime in Burma known as the State Peace and Development Council (SPDC)—

(A) to guarantee freedom of assembly, freedom of movement, freedom of speech, and freedom of the press for all Burmese citizens;

(B) to immediately accept a political dialogue with Daw Aung San Suu Kyi, the National League for Democracy (NLD), and ethnic leaders to advance peace and reconciliation in Burma;

(C) to immediately and unconditionally release all detained Members elected to the 1990 parliament and other political prisoners; and

(D) to promptly and fully uphold the terms and conditions of all human rights and related resolutions passed by the United Nations General Assembly, the Commission on Human Rights, the International Labor Organization, and the European Union; and

(3) United States policy should sustain current economic and political sanctions against Burma as the appropriate means—

(A) to secure the restoration of democracy, human rights, and civil liberties in Burma; and

(B) to support United States national security counternarcotics interests.

The SPEAKER pro tempore (Mr. PEASE). Pursuant to the rule, the gentleman from Nebraska (Mr. BEREUTER) and the gentleman from American Samoa (Mr. FALEOMAVAEGA) each will control 20 minutes.

The Chair recognizes the gentleman from Nebraska (Mr. BEREUTER).

GENERAL LEAVE

Mr. BEREUTER. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks on H. Con. Res. 328, as amended.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Nebraska?

There was no objection.

Mr. BEREUTER. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, we are on with the House business now after a very important and moving tribute to our late colleague, BRUCE VENTO. As I begin, I must reflect upon the service I had with him for almost 20 years on the Committee on Banking and Financial Services and earlier for 4 years on what was then the House Committee on Interior and Insular Affairs, where he really accomplished remarkable things in both jurisdictions, but I think he will be known so much for the kind of things that he assisted America to preserve and protect in our national environment.

I remember well how much assistance he gave to this Member on a very controversial measure related to a scenic river designation in my own State.

Today, Mr. Speaker, H. Con. Res. 328 is before us. It was introduced on May 16 by the distinguished gentleman from Illinois (Mr. PORTER) and was unanimously approved by the Subcommittee on Asia and the Pacific on September 13 and by the House Committee on International Relations on September 21.

For over 10 years, the Burmese military regime, now known as the State Peace and Development Council, the SPDC, has refused to implement the results of the 1990 elections which were won overwhelmingly by the National League for Democracy, the NLD. During this period, and indeed since 1962, when General Ne Win and the military seized control, the Burmese military has engaged in egregious systematic violence and abuse of the fundamental human rights of ethnic minorities and other people of the country.

The abuses of the junta in Rangoon again came under international scrutiny when, on August 24 of this year, Aung San Suu Kyi was denied the ability to visit NLD party offices outside the capital. For 9 days, she was detained at a roadblock and eventually was forcibly removed to her residence. She and other NLD party leaders were placed under virtual house arrest.

Despite the military's denials, no independent observer was allowed to visit her; and the British ambassador, for example, was roughed up when he attempted to force his way into her compound. In addition, party offices were ransacked and papers seized.

To justify their action, the junta has issued the ludicrous charge that the NLD had formed an alliance with rebels in the provinces.

On September 21, the day the committee passed this measure, Aung San Suu Kyi was again blocked from traveling outside Rangoon by the military regime.

She planned to travel by train to Mandalay in order to visit with NLD party members. Officials at the Rangoon's central train station, insisting that there were no train tickets available, refused to sell tickets to her and her accompanying party.

Eventually, after hours of stalemate, police removed her from the train station and forced her to return home. Since her September 21 attempt to travel to Mandalay, Aung San Suu Kyi and other NLD party leaders remain under de facto house arrest, and the regime has denied any contact with foreign diplomats.

NLD vice chairman Tin Oo is being detained by the military regime.

This week, the U.N. Secretary General special envoy, Malaysian diplomat, Ambassador Razali Ismail, has been in Rangoon meeting with senior leaders in the Burmese military regime, including Foreign Minister Win Aung and General Khin Nyunt. Despite his mandate to promote human rights and restore democracy in Burma, Ambassador Razali has yet to meet with Aung San Suu Kyi or any other NLD party leaders.

This is Razali's second visit to Burma as the U.N. Secretary General's special envoy. Clearly not meeting with Aung San Suu Kyi or any other NLD leaders brings the U.N.'s credibility into question.

Mr. Speaker, it is entirely proper, therefore, that the House of Representatives go on record condemning these human rights abuses. Since her electoral victory in 1990, Daw Aung San Suu Kyi has repeatedly been arrested, threatened, and harassed.

The illegal SDPC military regime has done everything possible to discredit NLD and its leaders. This is simply wrong, and this body should say so.

Mr. Speaker, at the subcommittee markup, an amendment was approved that had the concurrence of the resolution's distinguished author, the gentleman from Illinois (Mr. PORTER), and which was designed to update the situation in Burma.

The amendment updated the current standoff between Aung San Suu Kyi and the military by including six new whereas clauses. These clauses detailed the denial of right to movement and association, and the seizure of documents at NLD party offices.

The new language makes it clear that Aung San Suu Kyi was clearly within her rights in attempting to visit party offices and that there was no justification for the roadblock established by the SDPC.

Mr. Speaker, this Member urges the body to approve H. Con. Res. 328, as amended.

Mr. Speaker, I reserve the balance of my time.

Mr. FALEOMAVAEGA. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, like my colleague, the gentleman from Nebraska (Mr. BEREUTER), the chairman of our Subcommittee on Asia and the Pacific and the Committee on International Relations, I, too, echo the same sentiments as I expressed earlier about the passing of our colleague, BRUCE VENTO, from the State of Minnesota, expressing the same sympathy and condolences to the members of his family.

Mr. Speaker, I want to certainly thank the gentleman from Illinois (Mr. PORTER) and the gentleman from California (Mr. LANTOS), the gentleman from New York (Mr. GILMAN), chairman of our Committee on International Relations, and also the gentleman from New Jersey (Mr. SMITH) as the chief cosponsors of this resolution.

Mr. Speaker, I rise in strong support of this resolution. I would first like to say introducing this resolution was very appropriate and the fact of the matter is that 12 years ago, thousands of Burmese citizens demonstrated in the streets calling for democratic change in Burma.

In May 1990, the National League for Democracy, led by Daw Aung San Suu Kyi won more than 60 percent of the popular vote and 80 percent of the parliament seats in the elections.

Despite this, Mr. Speaker, instead of turning over the power to the winner of the elections, however, the Burmese military rejected the results of the election and, for the past 10 years, have continued their brutal crackdown on organized political opposition, free press, and freedom of assembly.

Daw Aung San Suu Kyi has remained under tight control since the elections, and Burma's dictators have even denied her ailing husband permission to visit his wife one last time before he passed away.

Mr. Speaker, the State Department's annual human rights report identifies more than 1,300 people who continue to suffer inhuman detention conditions as political prisoners in Burma. Furthermore, the State Department Narcotics Control Report for the year 2000 determined that Burma is the second largest worldwide source of illicit opium and heroin trafficking.

The United Nations General Assembly and the Commission on Human Rights have responded to this continuing crackdown on basic freedoms

by condemning nine consecutive resolutions, the persecution of religious and ethnic minorities and the political opposition.

The resolutions have also criticized Burma's record of forced labor, exploitation and sexual violence against women. Both the Clinton administration and the European Union have similarly condemned conditions in Burma and have imposed travel restrictions and other sanctions against Burma's dictators.

Mr. Speaker, the resolution before the House today reiterates that it is U.S. policy to support the restoration of democracy in Burma, including the implementation of the 1990 elections.

The resolution also calls on Burma's leaders to guarantee the basic human rights of its citizens, to accept a dialogue with Daw Aung San Suu Kyi, to immediately release all political prisoners, and to promptly uphold the terms of international resolutions on Burma's situation.

Finally, Mr. Speaker, the resolution states that the U.S. should continue policies designed to secure the restoration of democracy, human rights and civil liberties in Burma and to support U.S. national security and counternarcotics interests.

This is a great piece of legislation, Mr. Speaker; and I urge my colleagues to support this bill.

Mr. Speaker, I reserve the balance of my time.

Mr. BEREUTER. Mr. Speaker, it is my pleasure to yield 5 minutes to the gentleman from New Jersey (Mr. SMITH), my colleague on the Committee on International Relations, the chairman of the Subcommittee on International Operations and Human Rights.

Mr. SMITH of New Jersey. Mr. Speaker, I thank my good friend, the gentleman from Nebraska (Mr. BEREUTER), for yielding me the time; and I thank him for his work on behalf of Burmese people, for the fine remarks of the gentleman from American Samoa (Mr. FALEOMAVAEGA), for the gentleman from Connecticut (Mr. GEJDENSON), and the gentleman from New York (Mr. GILMAN) for the work on this resolution and, above all, to the gentleman from Illinois (Mr. PORTER), the prime sponsor of it.

Mr. Speaker, just over 10 years ago, in the spring of 1990, the people of Burma courageously embraced democracy. In the face of intimidation by the Burmese military, they turned out in record numbers to participate in freedom and fair elections.

In those elections, the National League for Democracy, led so aptly by Daw Aung San Suu Kyi, won more than 60 percent of the popular vote; and as my friend, the gentleman from American Samoa (Mr. FALEOMAVAEGA), reminded us 80 percent, 80 percent of the seats in parliament went to the National League for Democracy. The Burmese military responded by rejecting the election results, imprisoning hundreds of NLD Members, including Daw Aung San Suu Kyi and severely curtailing the civil liberties of the Burmese people.

Since that time, the ruling military thugs, who currently call themselves the State Peace and Development Council, have inflicted massive human rights violations and economic privations on the people in Burma. More than 1,300 political prisoners, including the woman elected to lead Burma, Aung San Suu Kyi, still suffer at the hands of their government captors.

Just last month, as we all know, she was forcibly detained when Aung San Suu Kyi attempted to travel outside the Burmese capital to Mandalay. The Burmese regime routinely uses forced labor, and it continues to wage a brutal war against ethnic minorities within its borders.

Mr. Speaker, in August of 1998, I traveled to that region in an effort to secure the release of one of my constituents, Michele Keegan, who had been seized by the Burmese authorities for passing out cards the size of our voting cards that said ''We have not forgotten you. We support your hopes for human rights and democracy.''

The SLORC repeatedly refused my requests for a visa to enter Burma, so I had to help negotiate her release from Bangkok, Thailand. After 5 days of detention, Michele and 17 other foreign activists were expelled from Burma, but not until they had been sentenced to 5 years imprisonment for sedition.

□ 2015

Let me remind Members, they handed out a card that said we have not forgotten you, we support your hopes for human rights and democracy, a little card just handed out on the streets in Rangoon; and for that, a 5-year sentence. That is just an indication of what they do to their own people.

Mr. Speaker, I am also proud to note that the State Department reauthorization bill, H.R. 3472, the Embassy Security Act, which I introduced last year that, thankfully, became law, retained a provision that helps ensure that the United Nations Development Program, UNDP, does not enrich the Burmese military regime. It reduces U.S. contributions to UNDP by the amount that that program spends in Burma unless UNDP's activities in Burma: One, are focused on eliminating human suffering; two, are carried out only through private voluntary organizations that are independent of the regime; three, do not benefit the regime; and four, are carried out only after consultation with the leadership of the National League for Democracy and the leadership of the National Coalition Government of the Union of Burma.

The resolution before us today, Mr. Speaker, H. Con. Res. 328, properly commemorates the 1990 elections, describes adequately and accurately the situation in Burma and expresses the sense of the Congress that the United States should strongly support the restoration of democracy in that country. It urges the military regime in Burma to guarantee basic freedoms for Burmese citizens, to undertake a political dialogue with the National League for Democracy and ethnic leaders, and to immediately release all political prisoners, and to fulfill the conditions of international human rights instruments.

It also recognizes the current sanctions in place against the government of Burma as appropriate means of pursuing democracy and civil liberties for the people of Burma.

Again, I want to thank all those involved, but especially the gentleman from Illinois (Mr. PORTER) for offering this resolution.

Mr. BEREUTER. Mr. Speaker, it is my pleasure to yield such time as he may consume to the distinguished gentleman from Illinois (Mr. PORTER) who has offered this and many other resolutions important to human rights. He will be sorely missed when he retires at the end of this session.

Mr. PORTER. Mr. Speaker, I thank the gentleman from Nebraska (Mr. BEREUTER) for those kind words, for yielding me the time, and for the leadership that he has brought to bear on this and so many other issues in Asia and all around the world.

I also want to commend the gentleman from New York (Mr. GILMAN) as well as the gentleman from New Jersey (Mr. SMITH) for bringing the resolution together with the gentleman from Nebraska (Mr. BEREUTER) to the floor, and for their leadership on human rights in so many instances. For such a long time they have stood up and stood for those who were oppressed in foreign countries and for the expansion of their rights. I commend them again for doing so with respect to the people of this country, Burma.

Mr. Speaker, I have a written statement I will submit for the RECORD.

Mr. Speaker, Burma is a country of almost 50 million people. We talk today about the National League for Democracy. We talk about Daw Aung San Suu Kyi and her great leadership for the things that all human beings on this planet ought to be accorded, basic human dignity and basic rights as opposed to the rights of their governments. Yet, in Burma, it is not just the National League for Democracy or Daw Aung San Suu Kyi, it is all the people of Burma who suffer at the hands of this terrible military dictatorship.

There are no rights in Burma. There are no rights to speak freely. There are no rights to worship freely. There are no rights to assemble. There are no

rights to stand up and be counted for the things that people believe ought to be done. There are no free elections.

The only free election that has been held in Burma in at least the last 50 years was the one held in 1990 that was won by the National League for Democracy, as has been detailed by each of the gentlemen today.

Unfortunately, that chance for a better life for the Burmese people was stolen away by the military who now run one of the worst regimes in the world in terms of abusing their population.

In August, as the gentleman from Nebraska (Mr. BEREUTER) and the gentleman from New Jersey (Mr. SMITH) detailed, Daw Aung San Suu Kyi and her followers in the National League for Democracy were again particularly abused as they have been in the past.

But I want to say today, there is nothing this regime can do that will ever overcome this lady. She won the Nobel Prize for Peace. She has an indomitable spirit that cannot be crushed. She is a person of great integrity, great intelligence and great articulation. She is a person of beauty because she stands as an example to the Burmese people of what life could be, how beautiful it could be if only they could live in freedom.

Lately, the international community, thank God, has finally begun to see the regime in Burma for what it is. Most recently, Switzerland decided not only to condemn the conduct of the SPDC, but also to impose sanctions, not as strong as I would like to see, not as strong as those that the United States has imposed, but sanctions; and perhaps we are beginning to see some change in the international community to bring pressure to end the repression in Burma.

Gradually this world is changing. Gradually the world is coming together to stand up for basic human rights for all peoples. The fall of Slobodan Milosevic. The war crimes tribunal that brings people who violated the rights of others, even in times of war, before a tribunal for accountability. Maybe some day soon we will find a way to believe that the most important thing that we can do on this Earth is to care about one another and to care about establishing a rule of law that guarantees basic human rights.

It is unfortunate that in so many places in the world today that is not being observed, in China and Sudan and Turkey and Burma and many other places. But we are gradually moving in the right direction. The message today is that we must always, always stand and knock on the door day after day, week after week, month after month, year after year until the rights of every single human being on this planet are established and protected. Because the denial of the rights of any single person is the denial of the rights of every one of us.

I want to commend the committee and the subcommittee for bringing this resolution forward, for insisting that we recognize that it has been 10 years since the people of Burma chose a freely elected government and 10 years of ongoing repression by a military regime that wants to offer no rights.

Someday soon, Mr. Speaker, this is going to change. The United States of America must stand up and be counted day after day and year after year to make certain that this happens.

Mr. Speaker, I rise today in strong support of H. Con. Res. 328, commemorating the tenth anniversary of the free and fair elections in Burma. I would like to thank the gentleman from New York (Mr. GILMAN), the gentleman from Nebraska (Mr. BEREUTER), and the gentleman from New Jersey (Mr. SMITH) for their leadership in bringing this resolution to the floor.

Mr. Speaker, Burma is a country governed by a military junta. Burma is a country with no respect for human rights and no rule of law. On May 27th, 1990, the National League for Democracy (NLD), led by Daw Aung San Suu Kyi, won a majority of the parliamentary seats in the nationally held elections. This was a great victory for the champions of democracy and human rights in Burma.

However, the Burmese military regime, known as the State Peace and Development Council (SPDC), arbitrarily annulled the results and arrested Aung San Suu Kyi and hundreds of NLD members. Many were forced to flee the country, and ever since, freedoms of assembly, speech and the press have been severely restricted. Hundreds of NLD members are political prisoners and still hundreds more live in exile around the world.

Daw Aung San Suu Kyi has been forced to live under house arrest in Rangoon most of the time since 1989. The past two months have seen the outrageous treatment of the Nobel Peace Prize winner exacerbated. Twice in less than two months, Suu Kyi has been detained when she has tried to travel outside the capital. Soldiers have surrounded her car on the road side, removed her from the train station and surrounded her house, while she is forced to sit idly inside.

Since September 22nd when she was again placed under house arrest, her telephone lines have been cut, and she has been denied all communication. Presently, it is not only Suu Kyi being suppressed, other members of the NLD's central executive committee are either in detention or being kept incommunicado under virtual house arrest, with approximately one hundred NLD members, including members of the NLD women's group having been arrested by the military in recent days.

I commend the statements in recent days from the international community, condemning the SPDC. Switzerland announced last week that it would impose sanctions on Burma, similar to those imposed by the European Union, which include freezing assets, visa bans and an arms embargo. Although these sanctions are not as strong as current U.S. sanctions, slowly the international community is coming together to demonstrate that we will not do business or work with these egregious violators of human rights.

We must stand together as one, against those who, when they violate the rights of one of us, violate the rights of all.

The United States is seen as a beacon of light and of hope around the world. We must remember what our country stands for: democracy, the rule of law, freedom of speech and free and fair elections. The Burmese can not exercise any of these basic human rights.

I hope that all of my colleagues will join me in standing with our fellow duly-elected representatives in Burma and join their call to take their rightful places in parliament.

The SPEAKER pro tempore (Mr. PEASE). Does the gentleman from Nebraska (Mr. BEREUTER) yield to the gentleman from New York (Mr. GILMAN) to control the time?

Mr. BEREUTER. Mr. Speaker, I yield to the gentleman from New York (Mr. GILMAN) and ask unanimous consent that he be permitted to control the time.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Nebraska?

There was no objection.

Mr. GILMAN. Mr. Speaker, I ask the Chair how much time we have remaining.

The SPEAKER pro tempore. The gentleman from New York (Mr. GILMAN) has 4 minutes remaining.

Mr. GILMAN. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, this measure recognizes the 10th anniversary of the freedom and fair elections in Burma and the urgent need to improve the democratic and human rights of the people of Burma. Aung San Suu Kyi and members of the parliament who were elected in 1990 have not been able to establish a government inside of Burma. Many of her supporters have been and still are in prison. Thousands have been tortured and murdered.

The government relies heavily on slave and forced labor for construction projects. The International Labor Organization, the ILO, has even banned it from participating in any ILO meetings.

The government of Burma is indifferent to the illicit drug trade and was recently decertified for not fully cooperating to our Nation. It has provided a safe haven to notorious Burmese drug dealer Khun Saw. It was just reported that Secretary of Defense Cohen was in Thailand 2 days ago and that the Thai are now asking for 50 helicopters to fight against the drug traffickers.

The Thai military has estimated that some 600 million amphetamine pills flooded Thailand just last year from across the border with Burma. Thai community leaders have frequently accused Burma of destroying Thai youth, warning that drug addiction was reaching crisis proportions in Thailand with more than 600,000 young people reportedly hooked on amphetamines.

On September 19, Secretary Cohen said, ''We understand now that there is

a serious problem concerning Thailand by virtue of methamphetamine being produced and distributed from Burma. The drug problem will be high on the agenda of the commander of the U.S. forces in the Pacific, who is due to visit Thailand next week.

On September 21, Aung San Suu Kyi was prevented from boarding a train to leave Rangoon, and many of her supporters were arrested. Since that time, diplomats and friends have been prevented from seeing her, and no one knows the whereabouts of her arrested colleagues.

Just 2 days ago, Mr. Speaker, the government-run newspaper in Rangoon issued a statement by officials stating, ''Anyone confronting the military government in Myanmar is committing what amounts to high treason.''

Mr. Speaker, the only way for the drug production to end in Burma is for our Nation and for the world to take a stronger stand against the illegal Burmese government so that it steps down and hands over the reigns of power to the democratically elected government of Aung San Suu Kyi.

Accordingly, Mr. Speaker, I urge my colleagues to support this measure.

Mr. Speaker, I reserve the balance of my time.

Mr. FALEOMAVAEGA. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I would truly be remiss, and it will probably be the last opportunity I have before we adjourn, if I did not express my personal sense of appreciation and gratitude to the gentleman from Illinois (Mr. PORTER), not only as cochairman of our Human Rights Caucus, but certainly for his outstanding leadership and service that he has rendered to our Nation.

I want the gentleman from Illinois (Mr. PORTER) to know how much I really appreciate his friendship over the years that I have got to know him.

Mr. Speaker, I have no additional speakers, and I yield back the balance of my time.

Mr. GILMAN. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Nebraska (Mr. BEREUTER) that the House suspend the rules and agree to the concurrent resolution, H. Con. Res. 328, as amended.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and concurrent resolution, as amended, was agreed to.

A motion to reconsider was laid on the table.

CALLING FOR IMMEDIATE RELEASE OF MR. EDMOND POPE FROM PRISON IN RUSSIAN FEDERATION

Mr. GILMAN. Mr. Speaker, I move to suspend the rules and agree to the concurrent resolution (H. Con. Res. 404) calling for the immediate release of Mr. Edmond Pope from prison in the Russian Federation for humanitarian reasons, and for other purposes.

The Clerk read as follows:

H. CON. RES. 404

Whereas Mr. Edmond Pope of State College, Pennsylvania, is a husband, father, grandfather, son, and United States businessman;

Whereas Edmond Pope has visited the Russian Federation 27 times in order to foster better business and university-based research relationships;

Whereas Edmond Pope traveled to the Russian Federation in late March 2000 in order to purchase commercially advertised underwater propulsion technology, as stated in his visa approved by the Government of the Russian Federation;

Whereas Edmond Pope was arrested on April 3, 2000, in Moscow, imprisoned in Lefortovo, and charged with espionage;

Whereas the Russian who allegedly committed an act of treason by aiding Edmond Pope was released and has been living with his family;

Whereas Edmond Pope has been treated for hemangiopericytoma, a rare form of cancer, that was in remission prior to his travel;

Whereas Edmond Pope's father is dying of multiple myeloma, a type of bone cancer that can be hereditary;

Whereas Edmond Pope should receive routine medical care by a qualified, trained professional in order to monitor the possibility of a recurrence of cancer due to his high-risk potential;

Whereas Edmond Pope has missed his annual monitoring visit resulting in a 14 month lapse since his last visit;

Whereas Edmond Pope's prison conditions have caused a dramatic loss in weight and his physical stature has deteriorated;

Whereas Edmond Pope has been denied the basic human right of proper medical attention deserving of an individual in his condition;

Whereas two Americans have died in the past few months within prisons in the Russian Federation and another individual has recently died in Lefortovo;

Whereas Edmond Pope has been unjustly arrested and detained for more than 5 months, preventing him from celebrating his 30th wedding anniversary and the marriage of his son, and during which time his mother-in-law passed away;

Whereas recent events have shown that trials in the Russian Federation involving alleged violations in the area of national security can take several years;

Whereas it is unlikely that Edmond Pope would survive a lengthy trial; and

Whereas United States business and academic interests with the Russian Federation are beginning to be detrimentally impacted by this event: Now, therefore, be it

Resolved by the House of Representatives (the Senate concurring), That—

(1) the Congress calls on the Russian Federation, under the leadership of President Vladimir Putin, to immediately release Mr. Edmond Pope of State College, Pennsylvania, and to ensure that proper and qualified medical attention is provided to him in order to ensure that another loss of life does not occur in a prison in the Russian Federation;

(2) it is the sense of Congress that if Edmond Pope is not released immediately the President should continue all efforts afforded to the administration to secure his release, including the consideration of—

(A) terminating all assistance to the Government of the Russian Federation under the Foreign Assistance Act of 1961 and the annual Foreign Operations, Export Financing, and Related Programs Appropriations Act for purposes of preparing the Russian Federation's entrance or accession to the World Trade Organization (WTO); and

(B) opposing any further debt relief of obligations owed to the United States Government from the Government of the Russian Federation; and

(3) the President should increase efforts to secure appropriate medical attention for Edmond Pope.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from New York (Mr. GILMAN) and the gentleman from American Samoa (Mr. FALEOMAVAEGA) each will control 20 minutes.

The Chair recognizes the gentleman from New York (Mr. GILMAN).

GENERAL LEAVE

Mr. GILMAN. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks on H. Con. Res. 404.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New York?

There was no objection.

Mr. GILMAN. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, this resolution, House Concurrent Resolution 404, introduced by the gentleman from Pennsylvania (Mr. PETERSON), supports Mr. Edmond Pope, an American citizen who has been jailed by the Russian government for several months on the charge of espionage that, by all accounts, is based on extremely dubious evidence. I commend the gentleman from Pennsylvania (Mr. PETERSON) for his tireless work on behalf of one of his constituents, Mr. Pope.

This resolution calls on the Russian government to immediately release Mr. Pope and to ensure that he is provided proper medical attention for the rare form of cancer with which he is afflicted.

Let me point out to my colleagues that Mr. Pope is a businessman and that he has been to Russia many times over the past few years on business trips.

I simply do not believe that the Russian government has proved its case, particularly in light of the fact that a Russian citizen who supposedly worked with Mr. Pope in the alleged espionage case has already been released by the Russian government.

This resolution makes it abundantly clear that, if Mr. Pope is not released, the President of the United States should continue to seek his release and should consider terminating all assistance that our Nation provides to the Russian government under our Foreign Assistance Act for purposes of preparing Russia to enter the World Trade Organization.

□ 2030

It also calls on our President to refuse further debt relief for the Russian Government if it does not release Mr. Pope.

My colleagues, the actions of the Russian Government in this case do not appear to be those of a country interested in proper treatment of businessmen and investors. I believe it is, therefore, appropriate to send this message in the form of a nonbinding resolution that we expect a nation that wants to be part of an international trade organization, that wants debt relief, and that wants more American investment to treat our American businessmen appropriately.

I would point out to my colleagues that over the past few years our government has reportedly arrested several Russian spies here in our Nation, some under diplomatic cover and others operating without it. I understand we have allowed those Russian spies in recent years to return home to Russia, even when our FBI believed them to be career members of the Russian intelligence agencies. Even when a Russian espionage device was found in our State Department headquarters itself, we sent the so-called diplomat back home.

We are all aware of the reports that Russian spying conducted here in our Nation and from espionage facilities, such as the one at Lourdes, Cuba, is today at record levels. It is ironic, Mr. Speaker, that Russia would arrest and imprison for months an American businessman who may very well be innocent, all the while conducting espionage against us at records that exceed those of the Cold War.

Mr. Speaker, I support this nonbinding resolution and I urge my colleagues to adopt it.

Mr. Speaker, I reserve the balance of my time.

Mr. FALEOMAVAEGA. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in strong support of this resolution.

Mr. Pope was arrested in Russia on April 3, 2000, while negotiating the purchase of an underwater propulsion technology which was advertised for commercial use. Mr. Speaker, I submit Mr. Pope is not a spy. His Russian visa states that the purpose of the trip to Russia was to acquire such technology.

It is outrageous, Mr. Speaker, that Mr. Pope has been languishing at the Lefortovo prison, the former KGB stronghold, for nearly 6 months now. Mr. Pope has been diagnosed with a rare form of bone cancer which requires annual screening and which he has missed this past August because of his arrest.

His health may be getting worse, but the Russians refuse access to him by a qualified Western oncologist. The Russian authorities have said that the Russian doctors are capable of examining Mr. Pope, and based on that examination, they supposedly say he is fit to stand trial.

Mr. Speaker, this case has been discussed at the highest levels of the American and Russian governments. Our own President, President Clinton, has raised this issue with President Putin several times now, most recently at the U.N. Millennium Summit in New York City. At every opportunity, the Russians have been told the charges against Mr. Pope are groundless and they must let him come home to his family.

I share some of the State Department concerns about the call in the resolution for cutting all foreign assistance to Russia, which includes denuclearization assistance and support for democratic institutions and independent media. I would hope that the administration could effectively utilize policy levers short of this drastic step to achieve Mr. Pope's release.

We should at least commend our good friend and colleague, the gentleman from Pennsylvania (Mr. PETERSON), for doing such a fantastic job supporting Mr. Pope's family in support of this resolution, and I urge my colleagues to support this resolution.

Mr. Speaker, I reserve the balance of my time.

Mr. GILMAN. Mr. Speaker, I yield 6 minutes to the gentleman from Pennsylvania (Mr. PETERSON).

Mr. PETERSON of Pennsylvania. Mr. Speaker, I want to thank the chairman for yielding me this time. I appreciate the very strong support we have had from the gentleman from New York (Mr. GILMAN); the ranking member, the gentleman from Connecticut (Mr. GEJDENSON); as well as the gentleman from American Samoa (Mr. FALEOMAVAEGA), who has been such a good friend; and I want to thank the staff who have worked so hard on this issue. I also want to thank the leadership and the majority leader, who have personally helped me at every turn.

Mr. Speaker, this has been one of the most difficult issues I have ever dealt with. Let us just think about it for a moment. For 11 days, Edmund Pope has been in a Russian prison. If my colleagues have not been in a Russian prison, I was there a few months ago. It is no place to be.

He went over there in March on his 27th trip to do business. He was arrested on April 3 and thrown in prison. For 13 weeks, his wife never received a note from him, a phone call from him or any word. He never received one of her letters that she sent daily. Between two countries that have normal relations in business, a prisoner never heard from his family or was allowed to communicate with his family for 13 weeks.

In June, Cheri Pope, his wife, and two of my staff went to Russia. They found out he did not have a competent lawyer, a 73-year-old lawyer that was not considered good; and so they were able to hire him a good lawyer who has been very helpful and who started to build a case. It was not long before he found out that there was no real case against Edmund Pope. In fact, the Russians had never even told us what the case was about; it was just that he had committed espionage.

On August 5, his son was married in State College without his father. Then a little later, in August, Cheri Pope, his wife, and I and two of my staff returned to Russia. We were able to elevate this issue to an international issue. Before that it had not been well covered by the press. It was obvious then. And after we arrived there and made it an issue, the Russians finally responded and said, well, he was purchasing this Squall technology, which had been advertised for sale in 1996 and had been sold to other countries, we are told.

The FSB, who finally gave these details, is like combining our FBI, our Secret Service, our CIA, and whatever else, and all combined into one. It is the most powerful agency in Russia, and they have been in control. This was Ed's 27th visit there. He had had many business partnerships there. He had brought many scientists from Russia to Pennsylvania, to Penn State. Had taken many groups of scientists to Russia to help them in their trying to build a free economic system. He loved the Russians, told all his neighbors and friends that I have talked to. He was very fond of the Russians and wanted them to have economic opportunity like we have here.

For 17 months, Ed Pope has not had adequate health screenings. Edmund Pope, a number of years ago, was diagnosed with bone cancer. It has been arrested. He should, from the cancer experts we have talked to, have MRI and CT scan screenings every 6 months. It has been 17 months now since he has had any screenings.

In August we had a hearing; and in September we had a hearing on a health-related release, and he was turned down. They had the appeal to the hearing and asked for him to be seen by an American doctor and have the appropriate test and again was turned down. It is now approaching mid-October and Edmund Pope has still not had the health screenings that he needs.

If we get Edmund Pope out tomorrow, he may have reactivated cancer and he will have a very shortened life. We are still asking every day for routine cancer screening. It is available 7 miles from his prison in a Russian facility with adequate doctors to read the scans, and we again ask for that.

We know that from talking to his attorney and others there, the FSB-appointed judge will find him guilty

whenever this trial is held. They will be given a predetermined verdict. I do not think we in America realize how a jury trial and the chance to defend ourselves is so basic a fundamental to the rule of law. In Russia, we are told the FSB knows how to frame people, but they do not know how to convict people. If it was a jury trial, his lawyer says, he would be innocent in a moment. As soon as the trial was held, he would be declared innocent and proven that he is innocent. But Edmund Pope will not get that chance.

Mr. Speaker, I want to thank the Congress today for their support of this resolution and sending a strong message to this administration to continue every effort they can put forward. Edmund Pope needs to have health screenings so that we know his cancer is still in arrest. We need to know that he has not contracted TB, which is prevalent in Russian prisons. He has had a cough every time we have spoken to him. We are asking for health care first and then his timely release. It is time to get Ed Pope home.

I guess just in conclusion, Mr. Speaker, Edmund Pope is a good man, a great American, served his country valiantly, been a good businessman, and been good for the Russians; been good for economic relationships with them; helped them partner in many business deals and commercialize other kinds of technologies they had and helped do some partnerships that helped in health care and opticals. Russia should have a lot of Ed Popes helping them to build their economy and become part of the global economy.

They need to resolve this issue so we can become friends, work together, and not be enemies.

Mr. FALEOMAVAEGA. Mr. Speaker, I yield myself such time as I may consume to compliment again my colleague from Pennsylvania. I think it is a good example of a demonstration of what every Member should be doing for their constituents, and I want to commend him for that.

Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. GILMAN. Mr. Speaker, I yield 3 minutes to the gentleman from New Jersey (Mr. SMITH), our distinguished chairman of our Subcommittee on International Operations and Human Rights.

Mr. SMITH of New Jersey. Mr. Speaker, I thank the gentleman for yielding me this time.

First of all, I rise in very strong support of the Peterson resolution, H. Con. Res. 404, calling for the immediate release of Edmund Pope from prison in the Russian Federation based on humanitarian reasons.

I think it is very important that the chairman of the House Committee on International Relations and the ranking member, the gentleman from New York (Mr. GILMAN) and the gentleman from Connecticut (Mr. GEJDENSON), have moved very quickly on this resolution to bring it to the floor and before our colleagues because this is a very, very important resolution of humanitarian concern.

This resolution calls for the immediate release of Mr. Pope, an American citizen arrested for allegedly spying in Russia and, as we know, in prison now in Moscow since early April of this year. Mr. Pope has been arrested for trying to purchase so-called secret technology that had already been advertised for commercial sale.

Mr. Speaker, I would be the first to agree that countries are entitled to protect sensitive information or state secrets; but the case against Mr. Pope is without merit. When we consider that the Russian Government has already released the alleged co-conspirator in this case, it is difficult to understand why Mr. Pope is considered such a danger.

As the gentleman from Pennsylvania (Mr. PETERSON) so passionately and eloquently pointed out, Mr. Pope is seriously ill and the Russian Government has not permitted an American physician to even visit him, which one might expect on simple humanitarian grounds.

Mr. Speaker, the Russian Government recently announced that the Pope case has been turned over to the court. This may look like progress, but experience tells us otherwise. When we look at the long drawn out case of Alexandr Nikitin, for whom it took 4½ years to prove his innocence on trumped-up charges of espionage, I believe it is unlikely Mr. Pope would survive a lengthy judicial process.

Mr. Speaker, the U.S. Government has repeatedly raised this case with the Russian Government. Why are they not listening? At a recent hearing of our Committee on International Relations, our Secretary of State, Madeleine Albright, reiterated her conviction this case should be resolved quickly in Mr. Pope's favor.

Finally, I would note that in connection with this case, a Moscow radio station stated that the Russian security service often considers principles of humanity in deciding whom to release. It seems no other person in Russia today fits that definition. This man is sick, he is innocent, and he needs to be released.

Again, I want to thank the gentleman from Pennsylvania (Mr. PETERSON) for his great leadership on this case.

Mr. GILMAN. Mr. Speaker, I yield 3 minutes to the gentleman from Oregon (Mr. WALDEN), and I want to also thank the gentleman from New Jersey (Mr. SMITH) for his eloquent response to this important issue.

Mr. WALDEN of Oregon. Mr. Speaker, I thank the gentleman for yielding me this time, and I thank both the chairman and the subcommittee chairman for their work in bringing this measure forward; and to my colleague, the gentleman from Pennsylvania (Mr. PETERSON), I thank him for his tireless efforts in trying to seek Mr. Pope's release.

Mr. Speaker, I rise today to urge support for H. Con. Res. 404 and make clear our message to the Russian Government. Edmund Pope must be released from prison, and he must be released immediately. Mr. Pope's deteriorating health simply will not wait for the Russian Government to accept what we in this country have long known: that Ed does not deserve his imprisonment and that the Russian Government cannot justify holding him one day longer.

For 191 days, Ed Pope has been denied his freedom. For 191 days, he has been denied regular contact with his wife of 30 years and his children. And for 191 days, he has been denied access to basic medical care, despite grave threats to his health.

□ 2045

In an age when the access to adequate shelter and medical care is correctly viewed as humanity at its most fundamental level, Ed has been forced to endure deprivations that are downright abysmal.

The prison where Mr. Pope is being held is a grim reminder of a system of government that for too long has subordinated human rights. Ed Pope's harsh imprisonment illustrates Russia's continued hostility to the West, despite its repeated assurances that Russia wants to join the ranks of the world's civilized nations.

I am dismayed by President Putin's squandering of an opportunity to demonstrate to the nations of the world that a new Russia has indeed risen from the ashes of the old Soviet Union, a nation that values human rights and the rule of international law. But until Mr. Pope is released and the judicial system in Russia improves, this transformation will be incomplete.

If the question of Mr. Pope's guilt or innocence is to be debated, it must only be after he is allowed access to the medical care his condition demands. With the release of Ed Pope, President Putin can demonstrate that he is serious about eliminating the distrust and hesitation that has characterized U.S. and Russian relations for decades. Or he can continue to prolong Ed's unjust captivity and reinforce the negative image of Russia, that of a secretive, enigmatic state whose journey to first world status remains long.

Mr. Speaker, I urge my colleagues to vote for H.Con.Res. 404 and declare in no uncertain terms that the United States does not tolerate the treatment of its citizens in this manner.

Mr. GILMAN. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I want to commend the gentleman from Pennsylvania (Mr. PETERSON) and the gentleman from Oregon (Mr. WALDEN) for their diligent efforts on behalf of Mr. Pope. We are pleased to join with them.

Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore (Mr. PEASE). The question is on the motion offered by the gentleman from New York (Mr. GILMAN) that the House suspend the rules and agree to the concurrent resolution, H. Con. Res. 404.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the concurrent resolution was agreed to.

A motion to reconsider was laid on the table.

CALLING FOR LASTING PEACE, JUSTICE, AND STABILITY IN KOSOVO

Mr. GILMAN. Mr. Speaker, I move to suspend the rules and agree to the resolution (H. Res. 451) calling for lasting peace, justice, and stability in Kosovo, as amended.

The Clerk read as follows:

H. RES. 451

Whereas on June 10, 1999, the North Atlantic Treaty Organization (NATO) military air operation in the former Yugoslavia victoriously concluded with the withdrawal of all Serbian police, paramilitary, and military forces from Kosova;

Whereas after the NATO victory, the international community mobilized assistance that helped feed and house more than 1,000,000 Kosova refugees before the first post-war winter;

Whereas nearly 1,000,000 refugees and hundreds of thousands of internally displaced persons attempted to return to their homes in Kosova in the belief that a peaceful, stable, and just society would be created through their diligent efforts, supported by the international community;

Whereas United Nations Security Council Resolution 1244 (June 10, 1999) established the United Nations Mission in Kosovo (UNMIK) as the sole administration of the province until such time as its political status is decided;

Whereas some 2,000 citizens were illegally detained and kidnapped to Serbia by Serbian forces as they withdrew from Kosova in violation of the Geneva Conventions and international humanitarian law;

Whereas an additional 5,000 Kosova citizens are believed to be detained in Serbian prisons;

Whereas the international mission in Kosova successfully negotiated an agreement with the Kosovo Liberation Army (KLA) to disband and publicly hand over its weapons;

Whereas hundreds of Kosova Albanian citizens have been prevented from returning to their homes in the divided city of Mitrovice by Serb Kosova citizens who are believed to be assisted by Serb paramilitaries who have illegally re-entered Kosova;

Whereas although the initiation of the recent operation between the NATO-led peacekeeping force in Kosova (KFOR) and UNMIK to confirm international authority throughout northern Kosova is welcomed, KFOR and UNMIK must fully implement their plan and take appropriate action to ensure that all residents are able to return to their homes;

Whereas the United Nations and the Organization for Security and Cooperation in Europe (OSCE) have set the date for local municipal elections in Kosova for October 28, 2000;

Whereas the assertion of authority over the Trepca mining complex by UNMIK is welcomed and an assessment of its environmental hazards and financial viability should proceed as quickly as possible in order to maximize employment for Kosovar citizens;

Whereas although daily life in Kosova in the summer of 2000 is significantly improved in comparison to the violence, devastation, and chaos that plagued the region during armed conflict in 1999, more must be done to develop a self-sustaining economy that discourages the rise of criminal elements;

Whereas, in view of the disproportionate share of the military costs borne by the United States during the NATO operation, the European Union has agreed that it will undertake the major share of the costs for economic reconstruction in Kosova;

Whereas the European Commission and the World Bank have estimated the costs for the reconstruction of Kosova over the next 4 to 5 years at $2,300,000,000, with nearly half that amount available to be spent by the end of 2001; and

Whereas the Foreign Operations, Export Financing, and Related Programs Appropriations Act, 2000 (as enacted by section 1000(a)(2) of Public Law 106–113) capped United States pledges of assistance for Kosova at the subsequent Kosova donors conference at 15 percent of the total resources pledged by all donors: Now, therefore, be it

Resolved, That—

(1) the European Union should continue to bear the primary responsibility and costs for the economic reconstruction of Kosova, and take all necessary steps to ensure that its future budgets provide the required resources in a timely fashion;

(2) the administration of all baseline services such as police, sanitation, water, telecommunications, and electrical supply should be put into the hands of the people of Kosova at the earliest possible date;

(3) the strategy for economic reconstruction in Kosova should be focused on utilizing private investment and empowerment of the people of Kosova to take charge of their livelihoods;

(4) the United States Government should make it a priority to promote noncorrupt government and business practices in Kosova by providing judicial training and technical advice and assistance to police, border police, and customs officers;

(5) the United Nations Security Council should demand the immediate and unconditional return of all Kosova prisoners from Serbia;

(6) the international peacekeeping force in Mitrovice should take immediate measures to ensure that all the residents are able to return in security to their homes;

(7) all the citizens of Kosova should avail themselves of the opportunity to democratically express their political preferences by participating in the elections on October 28, 2000;

(8) the resolve of the international community to work towards lasting peace, stability, and justice in Kosova will not be deterred by Slobodan Milosevic's provocations within the region; and

(9) all citizens of Kosova should adhere to the principles enunciated by community leaders at the Airlie House declaration of July 23, 2000, where all parties agreed to a rigorous Campaign Against Violence, representation of all citizens in municipal councils, surrendering of illegal weapons, a commitment to counter Slobodan Milosevic's influence in Kosova, and to dissolve any other illegitimate governing and security structures.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from New York (Mr. GILMAN) and the gentleman from American Samoa (Mr. FALEOMAVAEGA) each will control 20 minutes.

The Chair recognizes the gentleman from New York (Mr. GILMAN).

GENERAL LEAVE

Mr. GILMAN. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks on H. Res. 451.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New York?

There was no objection.

Mr. GILMAN. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I have brought this measure to the floor of the House in order to call attention to some continuing problems in the international community's efforts to bring about a stable, just, and a lasting peace to the people of Kosovo.

The Committee on International Relations approved this measure without dissent and it represents a bipartisan consensus on the part of our committee members on how to redress some of the difficulties in Kosovo. I ask all our House colleagues to join with us today in supporting H. Res. 451.

Our principal concern is that the international community, rather than fostering a self-reliant, prosperous Kosovar-run Kosovo, is creating a new international dependency hooked on assistance funds and the presence of numerous international aid workers.

What seems to have been overlooked in the current approach is the fact that prior to the move to strip away Kosovo's political autonomy in 1989, and even during the decade of oppression the Kosovars suffered under Milosevic, the Kosovar people demonstrated a remarkable amount of initiative and economic skill. These characteristics should be part of our strategy in restoring Kosovo's economy.

Another problem is the plight of thousands of Kosovars who are being illegally detained in Serbia. Some of these individuals were taken in the final hours of Serbia's sway over Kosovo last June as virtual hostages. They include some of the leading intellectual lights of Kosovar society: doctors, lawyers, journalists and teachers.

The fact that the international community has remained nearly mute in the face of their continued detention is

disappointing, and the refusal of the U.N. Security Council to demand their immediate release is troubling and unacceptable.

Until the Kosovar detainees have been released and accounted for, no real peace will be able to come to Kosovo. I would hope that the new government in Serbia under President Kostunica will cooperate in remedying this tragic situation.

The important industrial town of Mitrovice remains a divided city where international peacekeepers have been unable to return hundreds of ethnic Albanian residents to their homes. Failure to resolve this issue leaves the shadow of possible partition hanging over Kosovo.

Another problem in the U.N.'s approach to the Kosovo mission is the issue of who should be able to control and operate important economic assets such as the Trepca mines. Although there have been recent steps to explore reopening this most important economic asset for many months, the U.N. did not take any action because of its fears that Serb ownership would be an obstacle.

Elections have been scheduled in 30 municipalities throughout Kosovo for October 28. This resolution calls upon all the citizens of Kosovo to avail themselves of the Democratic process and to peacefully express their political preferences. Let us hope that the adoption of this resolution and those upcoming elections will provide the beginning of the journey to a lasting and just peace in Kosovo.

Accordingly, Mr. Speaker, I urge my colleagues in the House to support H. Res. 451.

Mr. Speaker, I reserve the balance of my time.

Mr. FALEOMAVAEGA. Mr. Speaker, I yield 6 minutes to the gentleman from New York (Mr. ENGEL) one of the original cosponsors of this legislation.

Mr. ENGEL. Mr. Speaker, I thank my colleague from American Samoa for yielding me the time.

Mr. Speaker, I rise in strong support of H.Res. 451. I am an original cosponsor. I commend the chairman of our Committee on International Relations for sponsoring this resolution and for the work that he has done on Kosovo and on so many other wonderful things in the House Committee on International Relations, and I am honored to cosponsor this resolution with him.

This calls for lasting peace, justice, and stability in Kosovo. And it is something that is still illusive even after the successful American intervention there where we prevented lives from being lost, we prevented ethnic cleansing and genocide. I am very, very proud of the role that this country and this Congress have played in saving the Kosovar people, the people of Kosovo.

I rise in strong support of this resolution because although the international community talks a good game, the European Union has not met its pledges even though it has contributed the majority of the funding for Kosovo reconstruction. This resolution calls upon the EEU to do so.

As the resolution states, police, sanitation, telecommunications, electricity and water supply have not been adequately put forth for the people of Kosovo. It is too long. It must end.

This resolution also calls, as the chairman pointed out, for the immediate return of all Kosovar prisoners still being held in Serbia. There are still hundreds of Kosovars in Serb jails, perhaps thousands, including Flora Brovina and Albin Kurti. They should be freed immediately and returned to their families in Kosovo.

It is an outrage that when the Serbs were retreating from Kosovo they captured Kosovar Albanians and imprisoned them, dragged them to Belgrade, dragged them into Serbia, and imprisoned them where they remain today. These people should be freed immediately.

This resolution also gives Congress an opportunity to discuss broader issues. I and all Americans congratulate the Serbian people for the birth of democracy in their land and for finally running their murderous leader, Milosevic, out of office.

Yet, while the United States is certainly pleased of the changes in Serbia, there are significant issues which we must consider. The most important is the question of sanctions. We must be open to the new Democratically elected government in Serbia. President Kostunica needs the opportunity to succeed. Lifting some sanctions should be on the table, but lifting all should not.

I agree with the actions of the Clinton administration maintaining visa restrictions against Milosevic and his lieutenants, but I am also concerned about lowering the outer wall of sanctions. Those must remain on Serbia.

We have withheld international financial institution assistance because Belgrade was opposing the work of the International War Crimes Tribunal and denying Kosovars the right to self-determination. For the outer wall to crumble while President Kostunica rejects the tribunal, and he is rejecting it still, and Serbia is still acting as though nothing happened in Kosovo, is unwise.

The new government in Belgrade must recognize the new reality in Kosovo. After the thousands of deaths and tens of thousands of wounded, it remains extremely difficult to ever imagine Kosovo again as part of Serbia. Kosovo deserves the opportunity to be dependent and the outer wall of sanctions against Serbia should remain in place until Serbia is prepared to be part of a solution, not the problem, in Kosovo.

Independence for Kosovo is something that is right. And as the chairman pointed out, elections are being held later on this month and it will be the first opportunity for Kosovars to participate in democracy. And I would urge all of them do so. And that ought to be the first step in a free and independent and democratic Kosovo.

There are still, however, many problems. Mitrovice is a divided city. The Serbs have occupied the mines and have not allowed the Albanian Kosovars to be able to establish any kind of economic viability because of the occupation of these mines. Those mines are part of Kosovo and should not be occupied by the Serbs.

Mitrovice should not be a divided city. Albanians there are being prevented from returning to their homes. That must not stand.

Finally, Belgrade must finally recognize the independence of Bosnia. Until Belgrade gives up on controlling lands on both sides of the Drina River and establishes permanent diplomatic relations with Bosnia, the Yugoslav state succession question will still fester.

And by the way, while we are saying that the Kosovars have the right to self-determination and independence, and they must have that right, I believe the Montenegrins have as well.

Yugoslavia is a fallacy. Serbia continues to keep the Montenegrins as part of so-called Yugoslavia and continues the fallacy that Kosovo is part of Yugoslavia. The Kosovar Albanians and the Montenegrins should have the right to self-determination and should have the right to establish their own democratic nations if they so desire.

Therefore, while I rise in favor of this important resolution, I urge my colleagues to keep in mind the bigger picture in the form Yugoslavia. I urge all my colleagues to support H. Res. 451.

Mr. GILMAN. Mr. Speaker, I am pleased to yield 5 minutes to the gentleman from New Jersey (Mr. SMITH) the distinguished chairman of our Subcommittee on International Operations and Human Rights.

Mr. SMITH of New Jersey. Mr. Speaker, I thank my good friend the gentleman from New York (Mr. GILMAN) for his leadership in bringing this very important resolution to the floor today and to my good friends on the minority side and the gentleman from American Samoa (Mr. FALEOMAVAEGA) for his leadership and the gentleman form Connecticut (Mr. GEJDENSON).

This is the time for us to make this statement, and I think we are doing it collectively as a Congress. Hopefully our voices will be heard in Serbia.

Mr. Speaker, I am an original cosponsor of H. Res. 451 and I strongly support its passage here today.

In a series of hearings that we held on the Helsinki Commission, which I chair, the atrocities committed in Kosovo by Yugoslav and Serbian forces

have been very amply documented and the continued incarceration of Kosovar Albanians in Serbian prisons were detailed in very numbing detail.

The culpability of Milosevic for war crimes and crimes against humanity for which he has been indicted have also been made clear. It is also obvious that there is an unacceptable lack of security in Kosovo, evident in the frequent instances of violence and destruction in the period since the conflict ended.

Last week, Mr. Speaker, major change finally came to Yugoslavia. The people voted to throw Slobodan Milosevic out of office. And when he would not leave, they took to the streets to make clear that they had had enough.

While President Kostunica takes a nationalist point of view, he nevertheless appears willing to work towards democracy and the rule of law rather than create more problems.

I was pleased to hear that he has already indicated his willingness to look into the cases of Kosovar Albanians who right now, today, are languishing in Serbian prisons.

□ 2100

I believe he will, and every friend of democracy fully expects him to do the right thing. At one of our Helsinki Commission hearings, we heard terrible testimony, horrible conditions about these people who have been held in these terrible prisons, Kosovar Albanians who have committed no crimes. We ask, we demand that they be released now, immediately. Let the Albanians go.

Mr. Speaker, in closing, I think it is critical that we strongly condemn all of the violence which is occurring in Kosovo today regardless of the ethnicity of the victim, regardless of the ethnicity of the culprit. I have been a strong critic of Serbian repression in Kosovo in the past. As a matter of fact, when I met Milosevic the first time in Belgrade in the early 1990s, I raised the issue of his police, his thugs who are committing egregious abuses against the Kosovar Albanians and called on him and his thugs to stop it. But let me also say that none of us want to accept any wanton acts of violence whether it be revenge against Serbs or other members of minorities in Kosovo. Therefore, and I think this is important in the resolution, the Campaign Against Violence mentioned in this resolution is absolutely critical for all sides to accept and to implement. I would hope that the Albanians will criticize Albanians and Serbs will criticize Serbs when that Campaign Against Violence is transgressed. We need peaceful nonviolence in Kosovo and in Serbia. This resolution calls on all parties to stand down.

Mr. GILMAN. Mr. Speaker, I want to thank the gentleman from New Jersey (Mr. SMITH) for his eloquent support of this measure.

Mr. Speaker, I reserve the balance of my time.

Mr. FALEOMAVAEGA. Mr. Speaker, I yield myself such time as I may consume.

Again my compliments and commendation to the gentleman from New York (Mr. GILMAN), the gentleman from California (Mr. LANTOS), the gentleman from New York (Mr. ENGEL) and certainly the chairman of our Subcommittee on International Operations and Human Rights, the gentleman from New Jersey (Mr. SMITH) for their primary sponsorship of this legislation.

Mr. Speaker, I rise in strong support of this measure which enjoys strong bipartisan support. It is also supported by the administration. Congressional oversight of policy in Kosovo is remiss if it only looks at the inevitable problems that follow 40 years of communism, 10 years of apartheid and 1 year of brutal armed aggression. Responsible oversight must also recognize achievements as well as goals for future progress.

After the NATO victory, the international community mobilized assistance that helped feed and house more than one million Kosovo refugees before the first postwar winter. The international mission in Kosovo successfully negotiated an agreement with the Kosovo Liberation Army to disband and publicly hand over its weapons.

Although daily life in Kosovo has significantly improved compared to the violence, devastation and chaos that plagued the region during armed conflict a year ago, more must be done, Mr. Speaker, to develop a self-sustaining economy that discourages the rise of criminal elements.

The European Union must also continue to bear the primary responsibility and costs for the economic reconstruction of Kosovo and take all necessary steps to ensure that its future budgets provide the required resources in a timely fashion.

Mr. Speaker, the administration of all basic services such as police, sanitation, water, telecommunications and electrical supply should be put into the hands of the people of Kosovo at the earliest possible date. The international peacekeeping force in Mitrovica should take immediate measures to ensure that all the residents are able to return in security to their homes. And, most importantly, all citizens of Kosovo should follow the principles enunciated by community leaders at the Airlie House declaration of July 23 of this year which included antiviolence, representation of all citizens in local councils, surrendering illegal weapons, a commitment to counter Slobodan Milosevic's influence in Kosovo as well as dissolving any other illegitimate governing and security structures.

Mr. Speaker, the winds of democratic change have swept through the region in recent days and months, bringing in democratic reform in Croatia and toppling Slobodan Milosevic from controlling Serbia. In the wake of these dramatic events, the resolution before the House today supports greater progress towards reconciliation within Kosovo and between the member nations of southeast Europe to build a community of cooperating democracies and growing free market economies.

Again I urge my colleagues to support this resolution.

Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. GILMAN. Mr. Speaker, I want to thank the gentleman from American Samoa for his support of this resolution.

Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore (Mr. PEASE). The question is on the motion offered by the gentleman from New York (Mr. GILMAN) that the House suspend the rules and agree to the resolution, House Resolution 451, as amended.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the resolution, as amended, was agreed to.

A motion to reconsider was laid on the table.

HONORING UNITED NATIONS HIGH COMMISSIONER FOR REFUGEES

Mr. GILMAN. Mr. Speaker, I move to suspend the rules and agree to the resolution (H. Res. 577) to honor the United Nations High Commissioner for Refugees (UNHCR) for its role as a protector of the world's refugees, to celebrate UNHCR's 50th anniversary, and to praise the High Commissioner Sadako Ogata for her work with UNHCR for the past 10 years, as amended.

The Clerk read as follows:

H. RES. 577

Whereas since the founding of the United Nations High Commissioner for Refugees (UNHCR) in December 1950, it has become one of the world's principal humanitarian agencies with 244 offices in 118 countries and helps nearly 22,000,000 people in more than 140 countries;

Whereas on December 14, 2000, UNHCR marks a half-century of helping millions of the world's most vulnerable and courageous people;

Whereas UNHCR continues to fulfill its mandate, as adopted by the United Nations General Assembly on December 14, 1950, to provide international protection to refugees and persons seeking asylum and to seek durable solutions to their problems;

Whereas UNHCR has worked to ensure respect of refugees' basic human rights and adherence to the principle of nonrefoulement, which prohibits the expulsion and return of refugees to countries or territories where their lives or freedom would be threatened;

Whereas the United States and its citizens have long welcomed refugees to our shores;

Whereas, although UNHCR's responsibilities under its original mandate do not include internally displaced persons, it plays a critical role in assisting and protecting internally displaced populations in many situations, particularly where refugee and internally displaced populations are mixed;

Whereas the heart of UNHCR's mandate is protection, and UNHCR must continue to emphasize protection in choosing durable solutions for refugees, including voluntary return, local integration in countries of first asylum, and resettlement;

Whereas vulnerable refugees, particularly women, children, and the elderly, face special protection and assistance needs and UNHCR must continue to emphasize their needs in its policy and program efforts;

Whereas, in collaboration with other international agencies and nongovernmental organizations, UNHCR has shaped policies on which the international community can agree to move forward on peacefully resolving refugee situations;

Whereas under the leadership of High Commissioner Sadako Ogata and her predecessors, UNHCR has made invaluable contributions for humanity by helping to promote peace and respect for human rights for all uprooted peoples; and

Whereas UNHCR has twice been awarded the Nobel Peace Prize for its service to humanity: Now, therefore, be it

Resolved, That the United States House of Representatives—

(1) recognizes and honors the United Nations High Commissioner for Refugees (UNHCR) on the occasion of its 50th anniversary for its contributions on behalf of the world's refugees;

(2) expresses its support for the continued efforts of UNHCR;

(3) affirms its support for international protection for the victims of persecution and human rights violations and for the achievement of durable solutions for refugees; and

(4) calls on the international community to work together with UNHCR in efforts to ensure that host countries uphold humanitarian principles and the human rights of refugees, to lessen the impact of refugees on host countries, and to promote the safe voluntary repatriation, local integration, or resettlement of refugees.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from New York (Mr. GILMAN) and the gentleman from American Samoa (Mr. FALEOMAVAEGA) each will control 20 minutes.

The Chair recognizes the gentleman from New York (Mr. GILMAN).

GENERAL LEAVE

Mr. GILMAN. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks on this measure.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New York?

There was no objection.

Mr. GILMAN. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in strong support of H. Res. 577, in observation of the 50th anniversary of the establishment of the United Nations High Commissioner for Refugees. This measure honors the excellent service that the UNHCR has provided the international community since 1950.

This comparatively small agency of the U.N., since its inception, has helped ameliorate and, in many instances, resolve the plight of millions of victims of persecution and abuse. I would like to commend our colleague the gentleman from Ohio (Mr. HALL) for his diligence in making certain that this Congress is able to record its immense respect for the UNHCR on the occasion of this important milestone.

We should also note that H. Res. 577 pays fitting tribute to our current High Commissioner, Dr. Sadako Ogata, who is stepping down after completing a meritorious 10-year tour of duty in this vital international post. During her tenure, Commissioner Ogata has seen the case load of refugees and persons of concern to her office rise to a total of some 22 million. These millions are indicative of the increase in wars, internal conflicts and natural disasters that have produced a tide of human suffering that has only been paralleled in the past by our most serious global conflicts.

The UNHCR has also had to exceed the terms of its own mandate as laid out in the statutes that created the office of high commissioner some 50 years ago by providing invaluable assistance to those vulnerable individuals who are internally displaced within the borders of their home nations but are also victims of persecution or human rights abuses.

As global events have become more complex, Mr. Speaker, the UNHCR has been able to adapt itself to meeting the new challenges these situations have presented. It is hoped, therefore, that this resolution, by calling attention to the good work performed by the UNHCR and by the staff of that office, will increase the support by American citizens and others around the world of the effort spearheaded by the UNHCR.

Accordingly, Mr. Speaker, I urge our colleagues to support H. Res. 577.

Mr. Speaker, I reserve the balance of my time.

Mr. FALEOMAVAEGA. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, again I want to compliment the chief sponsor of this bill the gentleman from Ohio (Mr. HALL) and our chairman of the Committee on International Relations, the gentleman from New York (Mr. GILMAN), and also the ranking member of our committee, the gentleman from Connecticut (Mr. GEJDENSON).

Mr. Speaker, I rise in strong support of this resolution. House Resolution 577 honors and recognizes the United Nations High Commissioner for Refugees on the occasion of its 50th anniversary for its contributions on behalf of the world's refugees. On December 14 of this year, the UNHCR will mark a half century of helping millions of the world's most vulnerable people.

As I said earlier, I want to commend the gentleman from Ohio for introducing this legislation on behalf of many of the hungry and homeless people around the world. The UNHCR, Mr. Speaker, has been mandated by the United Nations to lead and coordinate international action for the worldwide protection of refugees and the resolution of refugee problems. It is one of the world's principal humanitarian organizations helping some 23 million people in more than 140 countries.

Mrs. Sadako Ogata has served as the United Nations High Commissioner for Refugees now for nearly 10 years. It is one of the toughest jobs and she has done a magnificent and superb job of bringing both professionalism and compassion to the organization over her decade of service not only to the United Nations but certainly to the people of the world.

This resolution also calls on the international community to bring together with UNHCR an effort to reassure that host countries uphold humanitarian and human rights principles for refugees, to lessen the impact of refugees on host countries, and to promote the safe and voluntary repatriation, local integration or resettlement of these refugees.

While the resolution before the House does not deal with the refugee situation in West Timor, Indonesia, it is important, however, to remember the recent killing of three UNHCR workers who were helping East Timorese refugees. These UNHCR employees, including one American, were trying to bring order to the refugee camps and create a situation where the East Timorese refugees could return home. Their killing by the militias was deplorable. We must always remember the dangerous conditions which these workers are exposed to.

I would be remiss, Mr. Speaker, if I did not also offer my compliments and commendation to Ms. Kathleen Mazed who is the staff consultant on this side of the aisle of our committee for the superb job that she has done not only to this piece of legislation but three other pieces of legislation. I want to thank her and recognize her services for doing this.

Mr. Speaker, I reserve the balance of my time.

Mr. GILMAN. Mr. Speaker, I am pleased to yield 5 minutes to the distinguished gentleman from New Jersey (Mr. SMITH), chairman of the Subcommittee on International Operations and Human Rights.

Mr. SMITH of New Jersey. Mr. Speaker, I thank the gentleman for yielding me this time. I am very proud to be a cosponsor of this resolution introduced by my good friend, the gentleman from Ohio (Mr. HALL), whose commitment to human rights and humanitarian principles is well known.

The resolution celebrates the 50th anniversary of the office of the United Nations High Commissioner for Refugees, the UNHCR. It commends the UNHCR on its good work over the years and congratulates the present High Commissioner, Dr. Ogata, who will be retiring in December. The Subcommittee on International Operations and Human Rights made minor technical changes to the legislation and reported it favorably to the full committee which reported it out last week.

As the resolution rightly points out, it is important that the UNHCR never forget that the heart of its mandate is protection. Donor countries including a major donor, the United States, often forget this. Our own contribution to refugee protection around the world is about 20 percent lower than it was just 5 years ago and most other countries have done even worse. Moreover, countries of first asylum, to which refugees have fled from persecution or the fear of persecution, often wish they would go away. And sometimes the brutal regimes from which they fled are only all too happy to get them back. So there is always pressure on the UNHCR to pretend that mass repatriation would be safe when, in fact, it is dangerous or to pretend that repatriation is voluntary when, in fact, the refugees and asylum seekers are given no choice.

Mr. Speaker, we are the subcommittee of jurisdiction on refugee protection. We have had numerous hearings on many parts of the world, including Africa, the Great Lakes region, Rwanda, and I take a back seat to no one and my very good friend the ranking member, the gentlewoman from Georgia (Ms. MCKINNEY), has likewise been there and the gentleman from California (Mr. LANTOS) who was the ranker 2 years ago in raising concerns about people being forced back when they had a real fear of persecution and many of those people when forced back have come to a very untimely and unfortunate fate. Occasionally, as in the so-called comprehensive plan of action, for example, asylum seekers from Indochina, the UNHCR in that case yielded to pressure. On these occasions, I and other Members as I have pointed out were among UNHCR's strongest critics. However, on many, many other occasions, the UNHCR has stood for the principle of protection, even at great risk to its own institutional interests. This resolution celebrates those instances of courage, those instances of compassion over the last 50 years and particularly during the stewardship of Dr. Ogata.

I support this resolution and urge my colleagues to support it.

Mr. GILMAN. Mr. Speaker, I want to thank the gentleman from New Jersey (Mr. SMITH) for his strong advocacy of this measure.

Mr. Speaker, I reserve the balance of my time.

Mr. FALEOMAVAEGA. Mr. Speaker, I yield myself such time as I may consume.

I want to say, Mr. Speaker, if there is ever a champion and someone anywhere in the four corners of the world that I will travel as someone to attend with me when we talk about human rights is none other than the gentleman from New Jersey (Mr. SMITH). I want to commend him for that. I know that the situation in West Papua, New Guinea now is burning up to a situation given the fact that some 300,000 West Papains were murdered, tortured, and killed by the Indonesian military since 1963.

□ 2115

We can go on, but I want to thank the gentleman from New Jersey (Mr. SMITH); and I thank the gentleman from New York (Mr. GILMAN) also for his outstanding leadership when it comes to the issue of human rights.

Mr. Speaker, I yield back the balance of my time.

Mr. GILMAN. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I want to thank the gentleman from American Samoa (Mr. FALEOMAVAEGA) for his leadership on these measures we have had before us at this late hour, and I want to thank the gentleman from New Jersey (Mr. SMITH) for his advocacy.

Mr. HALL of Ohio. Mr. Speaker, I also want to thank Chairman GILMAN and SAM GEJDENSON and CHRIS SMITH for their leadership in moving this resolution through Committee and for their strong support of the bill.

I am proud to be the sponsor of H. Res. 577 which honors and recognizes the United Nations High Commissioner for Refugees (UNHCR) on the occasion of its 50th anniversary for its contributions on behalf of the world's refugees. On December 14, 2000, UNHCR will mark a half-century of helping millions of the world's most vulnerable people.

UNHCR has been mandated by the United Nations to lead and coordinate international action for the world-wide protection of refugees and the resolution of refugee problems. It is one of the world's principal humanitarian organizations helping 23 million people in more than 140 countries.

Madam Sadako Ogata has served as the United Nations High Commissioner for Refugees now for nearly ten years. it is a tough job, and Madam Ogata has performed superbly, bringing both professionalism and compassion to the organization over her decade of service.

This resolution also calls on the international community to work together with UNHCR in efforts to ensure that host countries uphold humanitarian and human rights principles for refugees, to lessen the impact of refugees on host countries, and to promote the safe voluntary repatriation, local integration, or resettlement of refugees.

I would urge my colleagues to support this legislation.

Mr. GILMAN. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore (Mr. PEASE). The question is on the motion offered by the gentleman from New York (Mr. GILMAN) that the House suspend the rules and agree to the resolution, H. Res. 577, as amended.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the resolution, as amended, was agreed to.

A motion to reconsider was laid on the table.

PROVIDING FOR VOTING IN MILITARY INSTALLATIONS

Mr. BARTLETT of Maryland. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 5174) to amend titles 10 and 18, United States Code, and Revised Statutes to remove the uncertainty regarding the authority of the Department of Defense to permit buildings located on military installations and reserve component facilities to be used as polling places in Federal, State and local elections for public office.

The Clerk read as follows:

H.R. 5174

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. USE OF BUILDINGS ON MILITARY INSTALLATIONS AND RESERVE COMPONENT FACILITIES AS POLLING PLACES.

(a) USE OF MILITARY INSTALLATIONS AUTHORIZED.—Section 2670 of title 10, United States Code, is amended—

(1) by striking ''Under'' and inserting ''(a) USE BY RED CROSS.—Under'';

(2) by striking ''this section'' and inserting ''this subsection''; and

(3) by adding at the end the following new subsection:

''(b) USE AS POLLING PLACES.—(1) Notwithstanding chapter 29 of title 18 (including sections 592 and 593 of such title), the Secretary of a military department may make a building located on a military installation under the jurisdiction of the Secretary available for use as a polling place in any Federal, State, or local election for public office.

''(2) Once a military installation is made available as the site of a polling place with respect to a Federal, State, or local election for public office, the Secretary shall continue to make the site available for subsequent elections for public office unless the Secretary provides to Congress advance notice in a reasonable and timely manner of the reasons why the site will no longer be made available as a polling place.

''(3) In this section, the term 'military installation' has the meaning given the term in section 2687(e) of this title.''.

(b) USE OF RESERVE COMPONENT FACILITIES.—(1) Section 18235 of title 10, United States Code, is amended by adding at the end the following new subsection:

''(c) Pursuant to a lease or other agreement under subsection (a)(2), the Secretary may make a facility covered by subsection (a) available for use as a polling place in any Federal, State, or local election for public office notwithstanding chapter 29 of title 18 (including sections 592 and 593 of such title). Once a facility is made available as the site of a polling place with respect to an election

for public office, the Secretary shall continue to make the facility available for subsequent elections for public office unless the Secretary provides to Congress advance notice in a reasonable and timely manner of the reasons why the facility will no longer be made available as a polling place.''.

(2) Section 18236 of such title is amended by adding at the end the following new subsection:

''(e) Pursuant to a lease or other agreement under subsection (c)(1), a State may make a facility covered by subsection (c) available for use as a polling place in any Federal, State, or local election for public office notwithstanding chapter 29 of title 18 (including sections 592 and 593 of such title).''.

(c) CONFORMING AMENDMENTS TO TITLE 18.—(1) Section 592 of title 18, United States Code, is amended by adding at the end the following:

''This section shall not prohibit the use of buildings located on military installations, or the use of reserve component facilities, as polling places in Federal, State, and local elections for public office in accordance with section 2670(b), 18235, or 18236 of title 10.''.

(2) Section 593 of such title is amended by adding at the end the following:

''This section shall not prohibit the use of buildings located on military installations, or the use of reserve component facilities, as polling places in Federal, State, and local elections for public office in accordance with section 2670(b), 18235, or 18236 of title 10.''.

(d) CONFORMING AMENDMENT TO VOTING RIGHTS LAW.—Section 2003 of the Revised Statutes (42 U.S.C. 1972) is amended by adding at the end the following: ''Making a military installation or reserve component facility available as a polling place in a Federal, State, or local election for public office in accordance with section 2670(b), 18235, or 18236 of title 10, United States Code, shall be deemed to be consistent with this section.''.

(e) AVAILABILITY OF POLLING PLACES FOR 2000 FEDERAL ELECTIONS.—If a military installation or reserve component facility was made available as the site of a polling place with respect to an election for Federal office held during 1998, the same or a comparable site shall be made available for use as a polling place with respect to the general election for Federal office to be held in November 2000.

(f) CLERICAL AMENDMENTS.—(1) The heading of section 2670 of title 10, United States Code, is amended to read as follows:

''§ 2670. Buildings on military installations: use by American National Red Cross and as polling places in Federal, State, and local elections''

(2) The item relating to such section in the table of sections at the beginning of chapter 159 of such title is amended to read as follows:

''2670. Buildings on military installations: use by American National Red Cross and as polling places in Federal, State, and local elections.''.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Maryland (Mr. BARTLETT) and the gentleman from Hawaii (Mr. ABERCROMBIE) each will control 20 minutes.

The Chair recognizes the gentleman from Maryland (Mr. BARTLETT).

GENERAL LEAVE

Mr. BARTLETT of Maryland. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks on H.R. 5174.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Maryland?

There was no objection.

Mr. BARTLETT of Maryland. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, H.R. 5174 clarifies the authority of the Secretary of the Defense to use DOD facilities as polling places in Federal, State and local elections for public office.

Mr. Speaker, H.R. 5174 brings a common sense approach to the issue of voting on military installations. There is no retrenchment from the prohibition against using military forces to influence voters. The Congress will remain vigilant against any potential that military forces could be used to intimidate voters. However, we must guard against the over reaction that voting must never be allowed on military facilities regardless of the benign circumstances in the absence of a threat of coercion by military forces.

The simple fact is that in some remote and rural locations in our Nation, military facilities are important community resources that have been used for polling for a number of years. The members of the local community that have used DOD facilities for voting are not threatened by the military forces that live and work in their communities.

It is important to note that this language does not require military commanders to open their facilities for voting. The bill only makes explicit that polling on military facilities is not illegal.

Mr. Speaker, H.R. 5174 does not force either local community leaders nor the military commanders to use military facilities for voting. However, if both sides agree that using military facilities for polling is in the best interest of the community and the military mission is not harmed as a result, then this bill authorizes the military commander to make the facilities available legally.

I commend the gentleman from California (Mr. THOMAS) for bringing this important matter to the attention of the House, and I urge my colleagues to vote yes on H.R. 5174.

Mr. Speaker, I reserve the balance of my time.

Mr. ABERCROMBIE. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise reluctantly in opposition to H.R. 5174.

One important component of U.S. foreign policy is the promotion of democracies worldwide. Each time the U.S. supports a fledgling democracy, we insist on a clear decoupling of the civilian leadership and a nation's military. We insist that the military subsume itself to civilian control by elected officials. This principle is as important today as it was to our Founders. Because of the strength of that principle I must stand in strong opposition to the measure before us today. Protection of this enduring principle requires adherence to established procedures.

There is a longstanding tradition of avoiding the politicization of military bases. Polling activity brings with it electioneering, and that activity on a military base is clearly inappropriate.

Military personnel vote at their home of record. For most, this means that they vote through absentee ballot. There is no indication that military personnel are currently disenfranchised, and that this measure would be necessary.

There may be legal considerations regarding the assignment of precincts and other state election laws. These may conflict with federal considerations.

The addition of new polling places may require that the states provide new balloting machines. There is no funding for this under this measure, and may therefore present the states with an unfunded mandate.

Many of our bases are open bases with free access to civilians. However, some bases are not for national security and/or force protection reasons. It is unclear how this bill would affect those concerns.

In addition, the Department of Defense is opposed to this provision. This provision deserves to be taken through the normal committee process, and not be considered under suspension of the rules.

Most Important: There have been no hearings on this measure. Many questions, such as those above, should be fully investigated through the committee hearing process before this bill is brought to the floor.

A citizen's right to vote is the linchpin of our democracy, therefore nothing should be held in higher regard nor given more deference. This bill should be afforded a full and comprehensive review by the entire Congress through established procedures. Anything short of that is irresponsible and borders on weakening the time-tested foundations of democracy.

Mr. Speaker, I include additional material for the RECORD.

The Department of Defense has a standing policy prohibiting the use of federal, active military and reserve facilities as polling or voting places. The Department believes that the military should not be involved in any way in the electoral process, in order to avoid the possibility or the perception of voter coercion or intimidation by military personnel or a military presence, or the perception that the military has authority over the election process. The principle that the military should remain separated from the electoral process is reflected in existing laws imposing criminal penalties on commanders who station troops or armed men at any place where a special or general election is held, and on members of the Armed Forces who impose regulations on the conduct of such elections or otherwise interfere in any manner with an election officer's discharge of his duties. See 18 U.S.C. 592, 593. Locating polling places on military installations, where a commander's authority is paramount, in inconsistent with DoD policy and runs the risk of exposing military personnel to criminal sanctions.

Mr. Speaker, I yield such time as he may consume to the gentleman from Missouri (Mr. SKELTON).

Mr. SKELTON. Mr. Speaker, I thank the gentleman from Hawaii (Mr. ABERCROMBIE) for yielding me this time, and also let me thank the gentleman from Maryland (Mr. BARTLETT) for bringing this bill up at this moment.

Mr. Speaker, I am troubled by this legislative proposal. This breaks a long-standing American tradition; and I frankly cannot, will not support this legislation.

Let me quote from the Department of Defense on this bill, and I think they are absolutely correct.

The Department of Defense has a standing policy prohibiting the use of Federal, active military and reserve facilities as polling or voting places. The Department believes that the military should not be involved in any way in the electoral process, in order to avoid the possibility or the perception of voter coercion or intimidation by military personnel or a military presence, or the perception that the military has authority over the election process.

Further,

The principle that the military shall remain separated from the electoral process is reflected in existing laws imposing criminal penalties on commanders who station troops or armed men at any place where a special or general election is held, and on members of the armed forces who impose regulations on the conduct of such elections or otherwise interfere in any manner with an election officer's discharge of his duties.

Let me give an example there if I may, Mr. Speaker. Polling places being held on a military installation such as Fort Leonard Wood in Missouri, military installations, bases or posts by their very nature have men and women under arms; and then, of course, near a polling place would consist of a criminal penalty, and I think that is asking too much of our military personnel to impose that type of restriction and threat on them of having violated a criminal statute.

Further, the Department of Defense states that locating a polling place in military installations where a commander's authority is paramount is inconsistent with the Department of Defense policy, and it runs the risk of exposing military personnel to criminal sanctions, as I just mentioned.

Now, let me point this out, Mr. Speaker: this is a controversial issue at best; and as such we have committees, we have a Committee on Armed Services that I am pleased to be the ranking member thereof and all of us on the committee take our jobs very seriously. I think that a measure such as this should have extensive hearings. Those in favor of it should appear before us and say why they feel as they do and those of us that oppose it will have the opportunity to ask questions and cross-examine the witnesses and hear witnesses who are opposed to it, including those from the Department of Defense. I think it is a violation at least of the process by which controversial legislation is handled in this wonderful body we call the House of Representatives. So consequently, I find that I must and do sincerely oppose this legislation.

Mr. Speaker, at this point in the RECORD I would add a letter from the Department of Defense which outlines in detail their reasons, and there are four of them spelled out.

GENERAL COUNSEL OF THE
DEPARTMENT OF DEFENSE,
Washington, DC, October 10, 2000.

Hon. WILLIAM M. THOMAS,
Chairman, Committee on Administration, House of Representatives, Washington, DC.

DEAR MR. CHAIRMAN: This is in response to your request for the views of the Department of Defense on H.R. 5174, 106th Congress, a bill ''To amend titles 10 and 18, United States Code, and the Revised Statutes to remove the uncertainty regarding the authority of the Department of Defense to permit buildings on military installations and reserve component facilities to be used as polling places in Federal, State, and local elections for public office.''

The Department of Defense opposes this legislation.

The Department has a longstanding policy prohibiting the use of military installations as polling sites for elections. This policy is based on sound public policy of maintaining strict separation between the military and the political process. The policy of separating the military and partisan politics is critically important to maintaining public support for and confidence in our Armed Forces, as well as maintaining good order and discipline within military ranks.

The principle of separating the military from the political process is also reflected in two federal criminal statutes. 18 U.S.C. §592 provides that:

[W]hoever, being an officer of the Army or Navy, or other person in the civil, military or naval service of the United States, orders, brings, keeps, or has under his authority or control any troops or armed men at any place where a general or special election is held, unless such force be necessary to repel armed enemies of the United States, shall be fined under this title or imprisoned not more than five years or both.

Similarly, 18 U.S.C. §593 subjects members of the Armed Forces to criminal penalties if they ''impose or attempt to impose any regulations for conducting any general or special election in a State, different from those prescribed by law,'' or ''interfere in any manner with an election officer's discharge of his duties.'' Placement of voting sites on military installations in which ''troops or armed men'' are likely to come into close contact with voters is fundamentally incompatible with the concept of maintaining separation between the military and politics.

If enacted, H.R. 5174 would reverse Department of Defense policy by authorizing the use of military installations as polling places. We strongly disagree that it is appropriate for the fundamental political activity of voting to take place at locations that the Department of Defense strives to make politically neutral and nonpartisan. The proposed legislation also would not effectively amend the criminal statutes reference above to relieve military personnel from potential criminal liability. Specifically, the amendments to the criminal statutes proposed in section 1(c) of H.R. 5174 would only clarify that it is not a crime for polling places to be placed on military installations. It would not address at all the placement of troops or armed men at polling places. It would not be practical simply to prohibit military personnel from approaching or entering a polling place on a military installation during voting hours. The commander of a military installation must at all times have complete control over the facilities within his or her authority. It is possible that circumstances could arise that would require a commander to order military personnel to enter a building designated as a polling site if that building is located on a military installation. We believe it is therefore prudent to retain the prohibition on the use of military buildings as polling places.

We recognize that some installations have overlooked the Department's policy on this issue in the past and that some military facilities have been used as polling places in some localities. In some cases, short-term waivers of the policy have been granted if an alternative location could not be identified in time to avoid disruption to an upcoming election. In such cases, local election officials have been advised to designate a new polling place as soon as possible. Furthermore, section 121 of the Military Construction Appropriation Act for Fiscal Year 2001 requires that military facilities that have been used as polling places over recent years must be permitted to be used as polling places for the November election. Enactment of H.R. 5174 is not necessary, therefore, to relieve any possible inconvenience to voters in the November election resulting from enforcement of the Department of Defense policy.

Finally, we want to point out that our policy does not apply to National Guard armories or other Guard facilities. These buildings are subject to the control of state Governors through their Adjutant Generals, not the Department of Defense.

The Office of Management and Budget advises that, from the standpoint of the Administration's program, there is no objection to the presentation of this report for consideration of the Committee.

Sincerely,

DOUGLAS A. DWORKIN.

Mr. BARTLETT of Maryland. Mr. Speaker, I yield myself such time as I may consume, and I would ask the gentleman from Missouri (Mr. SKELTON) if he might engage in a colloquy with me.

It is my understanding that for a number of years now at certain limited number of our military facilities that there has been voting. If this has been going on, and I am assured that it has, then clearly this is in violation of current law. What this bill, as I understand it, intends to do is to make it possible to continue voting at some of these remote bases and a few reserve bases where this has appeared to be in the best interest of the community.

I would point out that this legislation is entirely permissive. The military can decide that they do not want voting in any of their facilities. I am reading from the bill itself now. It says: ''The secretary of a military department may make a building located on a military installation available, and for the reserve component the language is essentially the same.'' The secretary may make a facility covered by subsection A available for use. They do not have to make it available at all.

My question to the gentleman from Missouri (Mr. SKELTON) is if this has been a practice, and if at some very remote locations where the military facility is just about the only show in town, because it was placed there because of the desire of the military to be very remote so that essentially all of the people in that community are associated with the military, it is my understanding that is predominately the locations where this has been going on, and my question is, if that has been going on and if it was deemed necessary to do that because of a shortage of other places in the community, then why would this totally permissive legislation be objectionable since in all other places the military could exercise its option to not permit voting at all?

Mr. SKELTON. Mr. Speaker, will the gentleman yield?

Mr. BARTLETT of Maryland. I yield to the gentleman from Missouri.

Mr. SKELTON. Mr. Speaker, I thank the gentleman from Maryland (Mr. BARTLETT) for his inquiry. Back home in Missouri we have the saying, two wrongs do not make a right. And the fact that they have been doing it, I think, because of the policy of the United States in the past, they have been violating that policy.

Now, this does not apply to National Guard armories, because National Guard armories are State property. There are many places that are available, whether it be schools or private places, sometimes private homes. There are many places and one does not need a military installation to fulfill the opportunity for folks to vote.

Let me say that there are four reasons that the Department of Defense opposes this legislation. There is a long-standing policy prohibiting the use of a military installation as polling sites for elections. This policy is based on sound public policy of maintaining strict separation between the military and the political process.

Similarly, the law, 18 U.S.C. 593, subjects members of the armed forces to criminal penalties if they impose or attempt to impose any regulations for conducting any general or special election in the State different from those prescribed by law.

I think that that is a situation where one may put someone in the armed forces in a very embarrassing and possibly a criminal violation.

Further, the Department of Defense policy, if this were enacted, would reverse the policy by authorizing the use of military installations, and the Department strongly disagrees that it is appropriate for the fundamental political activity of voting to take place on locations that the Department of Defense strives to make politically neutral and nonpartisan.

The proposed legislation would not effectively amend the criminal statutes. It leaves those alone and consequently would subject certain members of the armed forces to criminal violations.

Further, the Department recognizes some installations have overlooked the Department's policy, as the gentleman has pointed out, on this issue in the past and that some military facilities have been used. In some cases short-term waivers of the policy have been granted, and I think there is a short period that a waiver has been established. But I think quite honestly we should not allow this situation where there have been a few folks in violation of this policy, to enlarge itself and become the norm.

□ 2130

It bothers me a great deal. I just do not think that the military and the political process should get thrown together. Consequently, let us keep them separated. The military is far removed from the political ways of our country, as they should be.

That is why I just, in all good conscience, cannot support this. At best, we have to have a hearing on this. I would like to have the opportunity to cross-examine those who propose it.

Mr. ABERCROMBIE. Mr. Speaker, will the gentleman yield?

Mr. BARTLETT of Maryland. I yield to the gentleman from Hawaii.

Mr. ABERCROMBIE. Mr. Speaker, I am grateful for the gentleman yielding, and for the opportunity, particularly since I have so much respect for his commitment to all questions that we have dealt with in the Committee on Armed Services.

The issue is an important one. There is a waiver in existence now with respect to the use of the facilities so perhaps we do not find anybody in violation, inadvertently or otherwise. Perhaps this is an issue, although I realize the gentleman is not in the position of advocating the bill this evening.

There should be an opportunity for us to discuss this, then, in committee. I am sure we could take up the pros and cons and maybe talk it out a little bit, and perhaps another solution could be arrived at.

But I have to stand, then, with my original reluctance and at the same time say that even after this colloquy I find myself still in opposition, not necessarily to doing it or finding some other solution, but at this particular time, pending hearings in the House Committee on Armed Services, I ask that it be defeated for the time being, at least.

Mr. BARTLETT of Maryland. Mr. Speaker, I understand the gentleman's concern. I would state that I do not believe it was the intention of this bill to enlarge this practice.

The gentleman mentioned that waivers have been granted. These were in very limited locations, and they were granted because it was felt that voting at the military facility was the only reasonable thing that could be done.

I think the reason for this bill is that we cannot, in a military base, waive law. That is what they were pretending to do. We cannot just waive law. The law now says we cannot do it there. I think what the intent of this bill is is simply for those rare occasions where this needs to be done, that this now puts the commander of the base not in violation of the law when he does a reasonable thing, and that is to permit the people to vote there.

That is my understanding of the bill, and I think that is all that was intended by the bill, was to solve a current problem where those commanders who have waived the law, and I do not think we can waive a Federal statute, they have waived the law and in effect they have been in violation of the law when they have permitted voting in their facility, this now would make them in compliance with the law, because this would say they have the option of doing that if it is appropriate.

The bill makes very clear that this is not appropriate when it violates any of the intent, any of the mission of that facility. It is totally permissive, it is not obligatory in any sense. I believe that I am clearly expressing the intent of the legislation and the desire of the gentleman from California (Mr. THOMAS).

Mr. SKELTON. Mr. Speaker, if the gentleman will continue to yield, I appreciate that statement.

I keep going back to my old Missouri comment: Two wrongs do not make a right. I am very concerned that should this bill become law it would be permissive, and it would enlarge a practice that really should not have begun to begin with.

So I do not think that we are doing anyone a service here. I think we are doing ourselves a disservice by mixing the military and the political process together. I thank the gentleman for yielding and for taking the bill up at this time.

Mr. BARTLETT of Maryland. Mr. Speaker, I would like to say in closing that Federal law prohibits political activity on any Federal land, including military land.

In Maryland, we can campaign within 100 feet of the polling place. If that polling place were on a military facility, it would be my understanding that we could not campaign within 100 feet of the polling place.

I do not see voting as a partisan political activity, I see it as a patriotic activity. Campaigning for a specific candidate I see as partisan political activity, which I would not think would be appropriate to go on on a military facility.

Mr. ABERCROMBIE. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I would like to comment on the last observation of the gentleman from Maryland (Mr. BARTLETT), which I agree with. Unfortunately, I come to a little bit different conclusion this evening. This is one of the reasons why I oppose it at this time, or oppose passage at this time.

I believe voting is a patriotic act. I believe it is an act, if you will, of self-preservation of a democracy, certainly our democracy. Because free speech is so important, I think the gentleman is quite correct in observing that it is unlikely that commanders would like to have political activity, sign-holding, et cetera, very near a polling place if it was in the middle of a base.

I expect different jurisdictions across the Nation have different rules with respect to how close to a voting booth one can actually politic, but nonetheless, it is unlikely that military bases would find themselves easily resolving those kinds of questions.

My point, in conclusion, Mr. Speaker, is that while this is an idea that certainly should receive full discussion and consideration, passing it at this time has not allowed for that. So therefore, again, I reluctantly state my opposition at this time.

Mr. LINDER. Mr. Speaker, I rise in support of the bill H.R. 5174, a bill to help families and communities that support military bases preserve their voting rights.

I have been very concerned with the decision earlier this year by the Department of Defense to not allow voting booths on military facilities, even though many of these facilities are isolated and in remote areas of our country. The Department refers to a law preventing the presence of troops at election sites, something we can all agree is a good law. Mr. Speaker, that law was never intended to prevent local election officials from asking to set up voting booths in order to let military personnel and people in the community vote. The purpose of that old law was to stop intimidation and abuse of the military in elections.

The men and women who support these bases, not only those in the service, have been used to voting at long established voting booths in some of these military owned buildings. Sometimes in these remote communities, the military owns all the buildings suitable to set up a voting booth. It is unfair that we would stop this from continuing since there are no known instances in which this posed a problem or voting infringement by anyone. Frankly, it is just overzealous lawyering at work in the Department. H.R. 5174 sets this straight.

I am especially pleased that H.R. 5174 does not attempt to force some new mission onto the military. It quietly allows voting booths to continue to be set up on these military facilities. It also gives the proper discretion to the military to continue or discontinue this practice. H.R. 5174 allows the military to keep the status quo of providing this service to our servicemen and their supporters while taking away any fear of breaking the law. I support H.R. 5174 because it helps service personnel, their families, and the people who support these isolated bases to continue to exercise their right to vote.

People in the military work hard enough and suffer hardships by living in isolation. We should not be making it harder for them to vote. We should make it easier.

Mr. THOMAS. Mr. Speaker, I rise in support of my bill H.R. 5174, which preserves the voting rights of people in communities who live on or around military bases in remote, rural areas.

Earlier this year the Department of Defense issued a directive that disrupts the traditional role of these bases whose commanders have for years allowed local election officials to set up election voting booths. Lawyers at the Department of Defense have said they are concerned that an old Civil War era law prohibiting troops at election polls could be used to impose criminal sanctions on military personnel who are simply allowing local election officials to set up voting booths. My interest is in protecting those military personnel while allowing the commanders of remote bases to continue to allow the setting up of voting booths. H.R. 5174 does this.

The need to act quickly is great. These bases are sometimes the only facility in a remove and isolated area; indeed, the remoteness is usually what attracted the military to locate the base there in the first place. It is entirely proper that the military should permit these election polls to continue at the commander's discretion. The people in communities that support our military bases sacrifice by living in isolated rural areas. They look to the military for shopping needs at commissaries, recreation needs at rec halls and theaters, and sometimes homes and schools on base. We should not be making it more difficult for them to vote. We should be making it easier.

At the same time, I am very aware that the military must have the final say as to whether an election poll can be permitted on a military base. The very nature of national defense is such that we must not tie the hands of those who are working to protect us. Obviously, many bases, if not most, are sensitive and should not be open to election operations. That is why I have written H.R. 5174 with great care to allow the presence of election polls on military sites, but the discretion to have them is entirely with the military. H.R. 5174 provides a safe harbor by expressly stating that the military may make a building located on a military installation available for use as a polling place in any Federal, State, or local election.

I hope my colleagues will join me in voting for this bill and preserving the tradition of the military in protecting the voting rights of people in communities that support our military facilities.

Mr. ABERCROMBIE. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. BARTLETT of Maryland. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore (Mr. PEASE). The question is on the motion offered by the gentleman from Maryland (Mr. BARTLETT) that the House suspend the rules and pass the bill, H.R. 5174.

The question was taken.

Mr. BARTLETT of Maryland. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX and the Chair's prior announcement, further proceedings on this motion will be postponed.

EXPRESSING APPRECIATION FOR U.S. SERVICE MEMBERS ABOARD HMT ROHNA WHEN IT SANK

Mr. BARTLETT of Maryland. Mr. Speaker, I move to suspend the rules and agree to the concurrent resolution (H. Con. Res. 408) expressing appreciation for the United States service members who were aboard the British transport HMT ROHNA when it sank, the families of these service members, and the rescuers of the HMT ROHNA's passengers and crew.

The Clerk read as follows:

H. CON. RES. 408

Whereas on November 26, 1943, a German bomber off the coast of North Africa sunk the British transport HMT ROHNA with a radio-controlled, rocket-boosted bomb;

Whereas 1,015 United States service members and more than 100 British and Allied officers and crewmen perished as a result of the attack;

Whereas hundreds died immediately when the bomb struck and hundreds more died when darkness and rough seas limited rescue efforts;

Whereas many families still do not know the circumstances of the deaths of loved ones who died as a result of the attack;

Whereas more than 900 United States service members survived the attack under extremely adverse circumstances;

Whereas United States, British, and French rescuers worked valiantly to save the passengers and crew who made it off the HMT ROHNA into the sea;

Whereas one United States ship, the USS PIONEER, picked up many of those who were saved;

Whereas because of inadequate record keeping, some survivors of the attack struggled for years to verify the details of the sinking of the HMT ROHNA;

Whereas the men who died as a result of the attack on the HMT ROHNA have been largely forgotten by the Nation; and

Whereas the Congress and the people of the United States have never recognized the bravery and sacrifice of the United States service members who died as a result of the sinking of the HMT ROHNA or the United States service members who survived the sinking and continued to serve the Nation valiantly abroad during the war: Now, therefore, be it

Resolved by the House of Representatives (the Senate concurring), That the Congress expresses appreciation for—

(1) the United States service members who died in the sinking of the HMT ROHNA, for the heroic sacrifice they made for freedom and the defense of the Nation;

(2) the United States service members who survived the sinking of the HMT ROHNA, for their bravery in the face of disaster and their

subsequent service during the war on behalf of the Nation;

(3) the families of all of these service members; and

(4) the United States, British, and French rescuers, especially the crew of the USS PIONEER, who endangered their lives to save the passengers and crew of the HMT ROHNA.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Maryland (Mr. BARTLETT) and the gentleman from Hawaii (Mr. ABERCROMBIE) each will control 20 minutes.

The Chair recognizes the gentleman from Maryland (Mr. BARTLETT).

GENERAL LEAVE

Mr. BARTLETT of Maryland. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks on the bill under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Maryland?

There was no objection.

Mr. BARTLETT of Maryland. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, today the House undertakes a solemn task. House Concurrent Resolution 408 remembers the loss of 1,015 American soldiers who died when the British troop transport ship HMT ROHNA was tragically sunk off the coast of North Africa on November 26, 1943, during World War II. This resolution recognizes that the sinking of the ROHNA was a major catastrophic event of World War II.

Mr. Speaker, this recognition is long overdue. We owe recognition to the men who gave their lives that day. We owe recognition to the men who survived the sinking and went on to fight bravely in the China-Burma-Indian theater and other combat theaters.

We owe recognition to the families of both groups of men. The high price paid by families is often made worse by the absence of information about their loss caused by the demands for secrecy during war. The sinking of the ROHNA was just such a case. Many of the families of those killed were not aware of the details of the sinking until recently. When they asked for more information, they found that there were very few records available.

Mr. Speaker, House Concurrent Resolution 408 puts the sinking of the ROHNA in proper perspective by outlining the details of the attack and rescue. The resolution then expresses the gratitude of the Congress and all Americans, recognizing the sacrifices of the men who died and the men who survived the horror of the sinking and went on to carry the fight to the enemy in other battles.

The resolution also thanks the family members of both groups of officers for the sacrifice of their loved ones in the defense of freedom.

Finally, the resolution thanks the crews of the U.S. French and British ships that endangered their lives to save the survivors of the ROHNA.

Mr. Speaker, the sinking of the ROHNA was a horrific event that America must not overlook any longer. We owe this recognition to the men, both living and dead, who suffered during this disaster. They and their families deserve better. I urge my colleagues to vote yes on House Concurrent Resolution 408.

Mr. Speaker, I reserve the balance of my time.

Mr. ABERCROMBIE. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I would like to echo the comments of the gentleman from Maryland (Mr. BARTLETT) with respect to this resolution.

Mr. Speaker, I join in support of the resolution introduced by my colleague, Mr. METCALF, in expressing the appreciation of the United States to those who were aboard the British transport H.M.T. *Rohna* during World War II.

According to the limited data available, the H.M.T. *Rohna* was transporting American troops and Red Cross workers to Bombay, India, for the China-Burma-India Theater of war. On November 26, 1943, during an air attack, a German bomber launched a guided missile, which sunk the British transport. One thousand, one hundred and thirty eight individuals died as a result of the attack, including one thousand and fifteen American troops. The attack of the H.M.T. *Rohna* was one of the greatest losses of lives during World War II.

Much of the details surrounding the sinking of the H.M.T. *Rohna* are still unavailable. What is known is that more than nine hundred service members survived the attack, because of the brave and heroic actions of the U.S.S. *Pioneer* crew, who rescued many of the survivors. However, it was not until 1995, over fifty years later, a group of survivors, next-of-kin, and rescuers, came together to recognize this historical tragedy.

The resolution before the House today recognizes this devastating disaster and expresses the appreciation of the Congress to the service members who died in the sinking of the H.M.T. *Rohna* for their ultimate sacrifice in defense of our country, expresses admiration of the survivors and the families for their bravery and courage in brining attention to this catastrophe, and acknowledges the efforts of the United States, British and French rescuers, especially the crew of the U.S.S. *Pioneer*, to save the passengers and crew of the H.M.T. *Rohna*.

Mr. Speaker, I urge my colleagues to support this measure.

Mr. Speaker, it is a great pleasure for me to be on the floor with the gentleman from Washington (Mr. METCALF) this evening in recognition of his work in this area.

I want to express to him that it does not surprise me in the least, having gotten to know him over the past few years, that he is concentrating on making sure that those who had not been recognized are given the attention that they deserve.

I think it expresses the kind of person that the gentleman from Washington is, and I, for one, will miss the contributions that he has made, and I am sure will continue to make to this Nation and to his community.

Mr. BARTLETT of Maryland. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I would like to state my friendship for the gentleman from Washington, my respect for him, and I regret the fact that he has decided to retire and leave us. We will be diminished by the fact that he no longer serves his constituents and the country.

Mr. Speaker, I yield such time as he may consume to the gentleman from Washington (Mr. METCALF), the author of this bill.

Mr. METCALF. Mr. Speaker, I thank the gentleman from Maryland for yielding time to me, and for his gracious words, and I thank the gentleman from Hawaii for his kind words.

Mr. Speaker, I would like to express my deep gratitude to the gentleman from South Carolina (Chairman SPENCE) and ranking member, the gentleman from Missouri (Mr. SKELTON), for working with me to move this resolution to the floor.

Michael Higgins, the Committee on Armed Services staff, was especially helpful, and I appreciate his efforts.

The greatest naval disaster for the United States during World War II was the sinking of the Arizona, when 1,077 were killed. The Arizona has properly been memorialized in the national consciousness.

On November 26, 1943, there was a loss of American military personnel of almost identical magnitude when the British troop transport ship HMT ROHNA was sunk by a radio-controlled rocket-boosted bomb launched from a German bomber off the coast of North Africa.

By the next day, 1,015 American troops and more than 100 British and allied officers and crewmen had perished, but the U.S. troops aboard the ROHNA have been largely forgotten by the country. It was not publicized at the time at all. Hundreds died immediately when the missile struck. The majority died from exposure and drowning when darkness and rough seas limited rescue efforts. Over 900 did survive.

British, American, and French rescuers worked valiantly to save those ROHNA passengers and crew who made it off the ship into the ocean, and of course a lot of them did not make it off the ship. One of them, the U.S.S. Pioneer, picked up two-thirds of all those who were saved, 606 GIs. Many of those in the water had to endure hours and hours of chilling temperature before being picked up. As the evening moved into the middle of the night and early morning hours, some men were speechless from the cold. Many died deaths of terrible agony.

The United States government had not properly acknowledged this event because inadequate records were kept. Some survivors had to fight for years to prove that the ROHNA even existed, let alone that survivors might be due some recognition.

At a 1996 memorial dedication honoring Americans who died on the ROHNA, survivor John Fievet spoke the following words:

I dedicate this memorial to the memory of those who fell in the service of our country. I dedicate it in the names of those who offered their lives that justice, freedom, and democracy might survive to be the victorious ideals of the world. The lives of those who made the supreme sacrifice are glorious before us. Their deeds are an inspiration; as they served America in time of war . . . yielding their last full measure of devotion, may we serve America in time of peace. . . . I dedicate this monument to them, and with it, I dedicate this society to the faithful service of our country and to the preservation of the memory of those who died, that liberty might live.

□ 2145

The men who gave their lives for their country on board this ship were heroes who deserve to be recognized as such and not forgotten. The parents of virtually all of them died without ever learning how their sons had died. Their brothers, sisters and wives and children need to hear their story. All Americans need to learn of their bravery and sacrifice. Not only do the victims of the tragic sinking need to be honored, but also their comrades who survived to be sent to the Burma-China-India theater of the war and to serve valiantly there.

On November 11, 1993, Charles Osgood featured the Rohna's story on his widespread radio program. For the first time, a broad cross-section of America got to hear the story of some of its unknown warriors. Osgood revisited the subject 2 weeks later. According to Osgood, and I quote, ''It is not that we forgot, it's just that we never knew.''

Americans need to know about the Rohna. They need to know about the men who died when the Rohna was sunk, sacrificing their lives in the fight against tyranny. Americans need to know and not to forget. I did not know anything about this until a brother of one of the men who died on the Rohna came to me and told me about it and asked me to get involved.

Mr. ABERCROMBIE. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. BARTLETT of Maryland. Mr. Speaker, I have no additional requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore (Mr. PEASE). The question is on the motion offered by the gentleman from Maryland (Mr. BARTLETT) that the House suspend the rules and agree to the concurrent resolution, H. Con. Res. 408.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the concurrent resolution was agreed to.

A motion to reconsider was laid on the table.

PROMOTION OF ADOPTION OF MILITARY WORKING DOGS

Mr. BARTLETT of Maryland. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 5314) to require the immediate termination of the Department of Defense practice of euthanizing military working dogs at the end of their useful working life and to facilitate the adoption of retired military working dogs by law enforcement agencies, former handlers of these dogs, and other persons capable of caring for these dogs, as amended.

The Clerk read as follows:

H.R. 5314

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. PROMOTION OF ADOPTION OF MILITARY WORKING DOGS.

(a) ADOPTION OF MILITARY WORKING DOGS.—Chapter 153 of title 10, United States Code, is amended by adding at the end the following new section:

''§ 2582. Military working dogs: transfer and adoption at end of useful working life

''(a) AVAILABILITY FOR ADOPTION.—The Secretary of Defense shall make a military working dog of the Department of Defense available for adoption by a person or entity referred to in subsection (c) at the end of the dog's useful working life or when the dog is otherwise excess to the needs of the Department, unless the dog has been determined to be unsuitable for adoption under subsection (b).

''(b) SUITABILITY FOR ADOPTION.—The decision whether a particular military working dog is suitable or unsuitable for adoption under this section shall be made by the commander of the last unit to which the dog is assigned before being declared excess. The unit commander shall consider the recommendations of the unit's veterinarian in making the decision regarding a dog's adoptability.

''(c) AUTHORIZED RECIPIENTS.—Military working dogs may be adopted under this section by law enforcement agencies, former handlers of these dogs, and other persons capable of humanely caring for these dogs.

''(d) CONSIDERATION.—The Secretary may authorize the transfer a military working dog under this section without charge to the recipient.

''(e) LIMITATIONS ON LIABILITY FOR TRANSFERRED DOGS.—Notwithstanding any other provision of law, the United States shall not be subject to any suit, claim, demand or action, liability, judgment, cost, or other fee arising out of any claim for personal injury or property damage that results from, or is in any manner predicated upon, the act or omission of a former military working dog transferred under this section, including any training provided to the dog while a military working dog.

''(f) ANNUAL REPORT.—The Secretary shall submit to Congress an annual report specifying the number of military working dogs adopted under this section during the preceding year, the number of these dogs currently awaiting adoption, and the number of these dogs euthanized during the preceding year. With respect to each euthanized military working dog, the report shall contain an explanation of the reasons why the dog was euthanized rather than retained for adoption under this section.''.

(b) CLERICAL AMENDMENT.—The table of sections at the beginning of such chapter is amended by adding at the end the following new item:

''2582. Military working dogs: transfer and adoption at end of useful working life.''.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Maryland (Mr. BARTLETT) and the gentleman from Hawaii (Mr. ABERCROMBIE) each will control 20 minutes.

The Chair recognizes the gentleman from Maryland (Mr. BARTLETT).

GENERAL LEAVE

Mr. BARTLETT of Maryland. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks on H.R. 5314, as amended.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Maryland?

There was no objection.

Mr. BARTLETT of Maryland. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, a few weeks ago, an article was brought to my attention regarding the plight of one of our finest soldiers, the military working dog. The article delineated the Department of Defense policy regarding the fate of these valiant dogs after completion of service to their country.

I learned that military working dogs remain in their assigned unit until they are 8 to 10 years old. Unfortunately, as the situation currently stands, there is no easy solution for these loyal dogs after their body is no longer able to sustain the workload of their mission.

At this point, the future becomes bleak. In a best-case scenario, the dogs are sent back to Lackland Air Force base, their original training school, where they are used to instruct their human counterparts to become handlers after they have served this final duty, they are kenneled for an undetermined amount of time, and then put down.

In some instances, military working dogs are caged as long as a year until they meet their final outcome. Equally as sad, if no kennel space is available, the less fortunate are terminated directly upon arrival to Lackland.

After learning about the bleak future of military working dogs, not only did I become concerned for their final treatment, but I was also troubled by the fact that they were robbed of a quiet retirement. Why? Simply because the DOD policy prohibits the adoption of retired military dogs even by their handlers.

My colleagues may be familiar with the plight of Robby, a professional

military working dog. As an 11-year-old Belgian Malinois, he is no longer deployable. Suffering from missing teeth and arthritis, his ability to work at full capacity has been hindered.

Common sense would say that Robby could now retreat to a quiet existence. On the contrary, Robby is to report to Lackland Air Force Base for one final deployment. Sadly, he will be caged and eventually euthanized.

Last week I had the opportunity to meet Robby. I was able to pet Robby through the cage when I initially arrived. As a 3-time Pentagon champion, his body is showing the wear of a full military career. It was obvious to me that Robby is a dog who has faithfully served his country; however, now his physical body is failing to the point that he is hardly able to perform minimal responsibility necessary for completing his mission.

It was also obvious to me that Robby has a special bond with his handler. Understandably so, as the two spent several years working side by side. The level of trust maintained between the two while in the line of duty is still present today.

Robby's handler would like to spare his life through an adoption by either himself or another handler; however, the DOD would not allow it. In light of seeing Robby and his handler together, I feel that DOD's prohibition on handler adoption is pointlessly tragic.

I feel, despite the dog's deteriorating health, he could still have the opportunity to experience the comforts and joys of normal companionship. Disallowing a handler the option to adopt their canine partner runs contrary to normal logic. Why should military working dogs be kept from a calm existence upon retirement when the only other alternative is more work before a final death?

Upon further research, I learned that the 1949 Federal Property and Administrative Services Act enacted after World War II reclassified military working dogs as equipment. According to the military mentality, any piece of equipment no longer operable becomes a hardship to the unit and must be disposed of.

In 1997, the Federal Property and Administrative Services Act was amended. At that time the act was altered to permit Federal dog handlers, such as those in the Drug Enforcement Administration, to adopt their aging canine partners. Oddly enough, the Department of Defense canine partners were the only Federal canine group not to be included in the modification.

Again, I ask the question, why? Are these worthy canines any less deserving than people of living out the remainder of their days than other Federal working dogs? Clearly not.

The bill I bring before the House today, H.R. 5314, makes the adoption of a retired military working dog a reality for the handler. I have labored hard to ensure that the language was constructed at the best vantage point for all parties involved. The decision to allow a handler to adopt their partner rests on the shoulders of those who know the dog best, the dog's last unit commander and the last unit veterinarian.

Made on a dog-by-dog basis, the commander and veterinarian are obligated to give their consent before the adoption process can move forward. Furthermore, H.R. 5314 provides an additional safeguard at the Federal level. Upon receipt of the dog, the adopt handler waives all liability against the Federal Government.

H.R. 5314 will effectively accomplish two goals. It offers the DOD a solution to their dilemma of maintaining aging canines and lifts the restriction that prohibits the adoption of military working dogs. Former dog handlers, individuals with comparable experience, or law enforcement agencies will be able to provide a loving home for such deserving animals.

Through the passage of this legislation, not only will the military working dog be taken from caged status, but also the dog will be given the opportunity for a positive home environment. I know my colleagues will agree that after a lifetime of service, there could be no better reward for both dog and handler.

In closing, H.R. 5314 has been endorsed by the Humane Society of the United States, the American Veterinary Medical Association, the Society for Animal Protective Legislation, the Doris Day Animal Rights League, and the American Society of the Prevention of Cruelty to Animals. Please join me in passing this positive measure which is a win-win solution for dog handler and the Department of Defense.

Mr. Speaker, I reserve the balance of my time.

Mr. ABERCROMBIE. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I can hardly add to the compelling case that the gentleman from Maryland (Mr. BARTLETT) has made.

Mr. Speaker, I would like to say that, as was mentioned by the gentleman from Washington (Mr. METCALF), I wanted to make a statement that it does not surprise me that this legislation would be put forward by the gentleman from Maryland (Mr. BARTLETT).

If there is anyone in the Congress who carries through on his convictions, if there is anyone who is looking out for those who cannot speak for themselves, in this instance most assuredly so, it is the gentleman from Maryland (Mr. BARTLETT); and I am quite proud to be able to be here this evening and to be able to support his legislation.

I had no idea and I doubt if any other Member in the body had any idea that this was, in fact, the case, that working dogs in the military would be put down when they were no longer thought to be useful. And I must say in conclusion, that it just seemed perfectly natural to me when the gentleman from Maryland (Mr. BARTLETT) came up and asked for my support that he would be leading the charge on this particular piece of legislation.

It is a pleasure to be working with him and to have the opportunity to join with him in supporting this bill.

Mr. Speaker, I rise in support of H.R. 5314, introduced by my friend and Armed Services Committee colleague, Mr. ROSCOE BARTLETT. The bill before the House today would terminate the Department of Defense policy of putting down aging military working dogs and provide for their adoption

Currently, there is no policy to allow these elderly dogs to be retired and transferred to an individual or private entity that could provide appropriate care for these aging dogs.

H.R. 5314 would address this unfortunate situation and allow elderly military working dogs to be adopted by law enforcement agencies, former handlers, and other persons capable of humanely caring for these fine animals. The bill also includes a provision that limits the Federal Government's liability in cases where a former military working dog is transferred.

H.R. 5314 allows the commander of the individual dog's unit to decide whether a particular military working dog is suitable for adoption. This will afford military working dogs the same treatment given to those dogs who serve on our community police forces, and allow military working dogs to retire and enjoy the last few years of their life.

Mr. Speaker, I urge my colleagues to support this measure.

Mr. Speaker, I yield back the balance of my time.

Mr. BARTLETT of Maryland. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I thank the gentleman from Hawaii (Mr. ABERCROMBIE) for his very kind remarks. I thank him very much for the comments.

Mr. Speaker, now I would like to thank Mr. Philip Grone of our Committee on Armed Services for his considerable help. We had to spend a number of hours working out the details of this language to make sure that it was satisfactory to DOD in assuring them that they had no liability as a result of adopting these dogs out.

This legislation would not have been possible without the considerable help of Mr. Philip Grone, and I am very appreciative of that help.

Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore (Mr. RYAN of Wisconsin). The question is on the motion offered by the gentleman from Maryland (Mr. BARTLETT) that the House suspend the rules and pass the bill, H.R. 5314, as amended.

The question was taken; and (two-thirds having voted in favor thereof)

the rules were suspended and the bill, as amended, was passed.

The title of the bill was amended so as to read: ''A bill to amend title 10, United States Code, to facilitate the adoption of retired military working dogs by law enforcement agencies, former handlers of these dogs, and other persons capable of caring for these dogs.''

A motion to reconsider was laid on the table.

POSTHUMOUS PROMOTION OF WILLIAM CLARK TO GRADE OF CAPTAIN

Mr. BARTLETT of Maryland. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 3621) to provide for the posthumous promotion of William Clark of the Commonwealth of Virginia and the Commonwealth of Kentucky, co-leader of the Lewis and Clark Expedition, to the grade of captain in the Regular Army.

The Clerk read as follows:

H.R. 3621

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. POSTHUMOUS PROMOTION OF WILLIAM CLARK, CO-LEADER OF THE LEWIS AND CLARK EXPEDITION, TO THE GRADE OF CAPTAIN IN THE REGULAR ARMY.

(a) POSTHUMOUS PROMOTION.—William Clark, of the Commonwealth of Virginia and the Commonwealth of Kentucky, co-leader of the Lewis and Clark Expedition of 1804–1806, shall be deemed for all purposes to have held the grade of captain, rather than lieutenant, in the Regular Army, effective as of March 26, 1804, and continuing until his separation from the Army on February 27, 1807.

(b) PROHIBITION OF BENEFITS.—No person is entitled to any bonus, gratuity, pay, or allowance because of the provisions of subsection (a).

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Maryland (Mr. BARTLETT) and the gentleman from Hawaii (Mr. ABERCROMBIE) each will control 20 minutes.

The Chair recognizes the gentleman from Maryland (Mr. BARTLETT).

GENERAL LEAVE

Mr. BARTLETT of Maryland. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks on H.R. 3621.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Maryland?

There was no objection.

Mr. BARTLETT of Maryland. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, today the House has a rare opportunity to correct a long-standing injustice and blemish in our Nation's history.

H.R. 3621 would authorize the posthumous promotion of William Clark, co-leader of the Lewis and Clark Expedition, to the grade of captain in the Regular Army.

William Clark played a pivotal role in the expedition to explore the Missouri River chartered by President Thomas Jefferson. He shared command of the exploration party known as the Corps of Discovery with Captain Meriweather Lewis.

In fact, Captain Lewis had handpicked William Clark to jointly command the expedition team with him. Captain Lewis believed he was conveying the promise to the United States Government and the Army when he offered William Clark an appointment in the grade of captain. Unfortunately, the Army was unable to make a place for William Clark as a captain, and he was confirmed by the Senate as a lieutenant.

The fact that William Clark was not appointed a captain was the source of great embarrassment and disappointment to Captain Lewis. His response was to treat William Clark as a co-commander of the expedition, with equal authority.

In fact, the two agreed at Captain Lewis' insistence that the members of the Corps of Discovery and any others that came in contact with the expedition would only know William Clark as a captain and co-commander. As a result, all the documentation dealing with the expedition and the Corps Discovery refer to Captain William Clark.

For all practical purposes, William Clark deserved equal billing with Captain Lewis. He performed superbly as co-commander throughout the expedition and was a respected leader.

William Clark played a key role and contributed immeasurably to the history-making exploration of the Missouri River that paved the way for the expansion of the United States westward.

William Clark's place in history is secure. The only thing left to do is remove the cloud of uncertainty concerning his appointment as a captain.

Mr. Speaker, I commend the author of H.R. 3621, the gentleman from Nebraska (Mr. BEREUTER), for bringing this issue to the attention of the House. His commitment to this issue again proves that it is never too late to do the right thing.

Mr. Speaker, William Clark earned the privilege to be called captain and the records of our Nation should document that honor. I urge my colleagues to vote yes on H.R. 3621.

Mr. Speaker, I reserve the balance of my time.

□ 2200

Mr. ABERCROMBIE. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I think the gentleman from Maryland (Mr. BARTLETT) has provided the background, and I suspect there will be some further commentary by the introducer of the bill.

Mr. Speaker, I rise in support of H.R. 3621, introduced by Mr. DOUG BEREUTER, which would provide for the posthumous promotion of William Clark to the grade of captain in the Regular Army.

William Clark was the coleader with Meriwether Lewis of the ''Corps of Discovery'', a military and scientific expedition to the Pacific Northwest from 1804 to 1806. This expedition provided vast information on the resources of the West and encouraged further exploration and settlement.

In 1792, William Clark became an officer in the regular army and fought in the battle of Fallen Timbers. In 1803, Clark accepted an invitation to serve as coleader of the ''Corps of Discovery''. He spent several months studying astronomy and map-making, and traveled with Meriwether Lewis down the Ohio River to Wood River, Illinois, where they made the final preparations for their expedition across America.

Upon his return from the expedition, William Clark continued his outstanding service to this nation. In 1807, President Thomas Jefferson appointed him principal Indian Agent for the Louisiana Territory and brigadier general of its militia, which he held until 1813, when he became governor of the newly formed Missouri Territory.

As we begin celebrations recognizing the 200th anniversary of the Corps of Discovery, it is fitting that we acknowledge the contributions of William Clark and provide him with a posthumous promotion to Captain.

Mr. Speaker, I urge my colleagues to support this measure.

Mr. Speaker, I reserve the balance of my time.

Mr. BARTLETT of Maryland. Mr. Speaker, I yield such time as he may consume to the gentleman from Nebraska (Mr. BEREUTER), the author of the bill.

Mr. BEREUTER. Mr. Speaker, I am pleased to rise today in support of H.R. 3621, a legislation this Member introduced to correct a nearly 200-year-old error. I thank the gentleman for yielding me this time.

This Member would also like to thank the distinguished gentleman from South Carolina (Chairman SPENCE) for his assistance in moving this bill forward, and the distinguished gentleman from Indiana (Mr. BUYER), chairman of the Subcommittee on Military Personnel for his cooperation.

I also want to express my appreciation to the distinguished gentleman from Missouri (Mr. SKELTON), the ranking minority member of the committee, for his continuing support on this effort and for his cosponsorship of the resolution.

The gentleman from Maryland (Mr. BARTLETT) has given us an important part of the background on this issue. As we approach the bicentennial of the Lewis and Clark Expedition, it is important to formally recognize the role

of William Clark by posthumously awarding him the rank of captain which he had been promised.

The legislation we are considering today, H.R. 3621, states that William Clark ''shall be deemed for all purposes to have held the grade of captain, rather than lieutenant, in the Regular Army, effective as of March 26, 1804, and continuing until his separation from the Army on February 27, 1807.'' This Member urges my colleagues to support H.R. 3621 and help correct an error that has persisted for nearly two centuries.

Although most people consider Meriwether Lewis and William Clark to be of equal rank due to their shared command of the expedition, the fact is that Clark remained a lieutenant despite an earlier promise by President Jefferson that he would be commissioned as a captain. In fact, Captain Lewis treated William Clark as a coequal leader of the Corps of Discovery throughout the expedition; and in all probability, the men assumed that their leaders held the rank of captain, both of them.

Stephen Ambrose, in his outstanding book ''Undaunted Courage,'' gives a detailed and well-documented description of the events that resulted in the diminished rank for Clark. Despite the clearly stated intentions by President Jefferson and Lewis, a number of actions denied Clark his rightful rank. Nevertheless, Clark served his country admirably and emerged, along with Lewis, a true American hero for all time.

The approaching bicentennial of this extraordinarily important expedition provides the United States of America an excellent opportunity to correct this oversight and elevate Clark to his rightful rank. This Member has fully investigated this issue with the U.S. Army and finds that introducing this legislation is the proper course to follow without setting inappropriate precedent. A similar legislative action was taken to promote George Washington in rank posthumously in 1978.

As a footnote, Members may be interested to know that there is no cost associated with H.R. 3621 as the legislation prohibits any person from collecting any bonus, gratuity, pay or allowance because of the posthumous promotion. This legislation simply gives Lieutenant William Clark the promotion to Captain promised by President Jefferson before the Lewis and Clark expedition began.

Retired General Gordon R. Sullivan on behalf of the Association of the United States Army applauded this legislation and pledged their support.

Mr. Speaker, in closing, I would say this, William Clark served our country admirably, with great courage and leadership skills, and emerged, along with Meriwether Lewis, as a true American hero for all times. As a cochairman of the House Lewis and Clark Caucus and a former Army officer, this Member believes that this legislation is a matter in which the Congress should act.

Therefore, I urge my colleagues to support H.R. 3621. It is the right thing to do, even now.

Mr. ABERCROMBIE. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, there are no further requests for time on this side. I would like to close simply by observing that I have had the opportunity, the good fortune, I might say, through the auspices of the ranking minority member, to have conversations, with some other Members, with Mr. Ambrose, the author. I, just by way of observation, hope that, when this passes, as I am sure it will unanimously, that perhaps we could see to it that a copy of the resolution in some appropriate form be sent to him. I am sure he would find it interesting and a nice, not conclusion, certainly, but certainly an addition to the interest that Mr. Ambrose induced in the Nation with the publication of his book on the expedition.

Mr. Speaker, I yield back the balance of my time.

Mr. BARTLETT of Maryland. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore (Mr. RYAN of Wisconsin). The question is on the motion offered by the gentleman from Maryland (Mr. BARTLETT) that the House suspend the rules and pass the bill, H.R. 3621.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the bill was passed.

A motion to reconsider was laid on the table.

PERMISSION TO FILE CONFERENCE REPORT ON H.R. 4392, INTELLIGENCE AUTHORIZATION ACT FOR FISCAL YEAR 2001

Mr. BARRETT of Nebraska. Mr. Speaker, I ask unanimous consent that the managers on the part of the House have until midnight tonight to file a conference report to accompany the bill, H.R. 4392.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Nebraska?

There was no objection.

GRAIN STANDARDS AND WAREHOUSE IMPROVEMENT ACT OF 2000

Mr. BARRETT of Nebraska. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 4788) to amend the United States Grain Standards Act to extend the authority of the Secretary of Agriculture to collect fees to cover the cost of services performed under the Act, to extend the authorization of appropriations for the Act, and to improve the administration of the Act, as amended.

The Clerk read as follows:

H.R. 4788

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE; TABLE OF CONTENTS.

(a) SHORT TITLE.—This Act may be cited as the ''Grain Standards and Warehouse Improvement Act of 2000''.

(b) TABLE OF CONTENTS.—The table of contents of this Act is as follows:

Sec. 1. Short title; table of contents.

TITLE I—GRAIN STANDARDS

Sec. 101. Sampling for export grain.
Sec. 102. Geographic boundaries for official agencies.
Sec. 103. Authorization to collect fees.
Sec. 104. Testing of equipment.
Sec. 105. Limitation on administrative and supervisory costs.
Sec. 106. Licenses and authorizations.
Sec. 107. Grain additives.
Sec. 108. Authorization of appropriations.
Sec. 109. Advisory committee.
Sec. 110. Conforming amendments.
Sec. 111. Special effective date for certain expired provisions.

TITLE II—WAREHOUSES

Sec. 201. Storage of agricultural products in warehouses.
Sec. 202. Regulations.

TITLE I—GRAIN STANDARDS

SEC. 101. SAMPLING FOR EXPORT GRAIN.

Section 5(a)(1) of the United States Grain Standards Act (7 U.S.C. 77(a)(1)) is amended by striking ''(on the basis'' and all that follows through ''from the United States)''.

SEC. 102. GEOGRAPHIC BOUNDARIES FOR OFFICIAL AGENCIES.

(a) INSPECTION AUTHORITY.—Section 7(f) of the United States Grain Standards Act (7 U.S.C. 79(f)) is amended by striking paragraph (2) and inserting the following:

''(2) GEOGRAPHIC BOUNDARIES FOR OFFICIAL AGENCIES.—Not more than 1 official agency designated under paragraph (1) or State delegated authority under subsection (e)(2) to carry out the inspection provisions of this Act shall be operative at the same time in any geographic area defined by the Secretary, except that, if the Secretary determines that the presence of more than 1 designated official agency in the same geographic area will not undermine the policy stated in section 2, the Secretary may—

''(A) allow more than 1 designated official agency to carry out inspections within the same geographical area as part of a pilot program; and

''(B) allow a designated official agency to cross boundary lines to carry out inspections in another geographic area if the Secretary also determines that—

''(i) the current designated official agency for that geographic area is unable to provide inspection services in a timely manner;

''(ii) a person requesting inspection services in that geographic area has not been receiving official inspection services from the current designated official agency for that geographic area; or

''(iii) a person requesting inspection services in that geographic area requests a probe inspection on a barge-lot basis.''.

(b) WEIGHING AUTHORITY.—Section 7A(i) of the United States Grain Standards Act (7 U.S.C. 79a(i)) is amended—

(1) by striking ''(i) No'' and inserting the following:

''(i) UNAUTHORIZED WEIGHING PROHIBITED.—''(1) IN GENERAL.—No'';

(2) by striking the second sentence; and

(3) by adding at the end the following:

''(2) GEOGRAPHIC BOUNDARIES FOR OFFICIAL AGENCIES.—Not more than 1 designated official agency referred to in paragraph (1) or State agency delegated authority pursuant to subsection (c)(2) to carry out the weighing provisions of this Act shall be operative at the same time in any geographic area defined by the Secretary, except that, if the Secretary determines that the presence of more than 1 designated official agency in the same geographic area will not undermine the policy stated in section 2, the Secretary may—

''(A) allow more than 1 designated official agency to carry out the weighing provisions within the same geographical area as part of a pilot program; and

''(B) allow a designated official agency to cross boundary lines to carry out the weighing provisions in another geographic area if the Secretary also determines that—

''(i) the current designated official agency for that geographic area is unable to provide the weighing services in a timely manner; or

''(ii) a person requesting weighing services in that geographic area has not been receiving official weighing services from the current designated official agency for that geographic area.''.

SEC. 103. AUTHORIZATION TO COLLECT FEES.

(a) INSPECTION AND SUPERVISORY FEES.—Section 7(j)(4) of the United States Grain Standards Act (7 U.S.C. 79(j)(4)) is amended in the first sentence by striking ''2000'' and inserting ''2005''.

(b) WEIGHING AND SUPERVISORY FEES.—Section 7A(l)(3) of the United States Grain Standards Act (7 U.S.C. 79a(l)(3)) is amended in the first sentence by striking ''2000'' and inserting ''2005''.

SEC. 104. TESTING OF EQUIPMENT.

Section 7B(a) of the United States Grain Standards Act (7 U.S.C. 79b(a)) is amended in the first sentence by striking ''but at least annually and''.

SEC. 105. LIMITATION ON ADMINISTRATIVE AND SUPERVISORY COSTS.

Section 7D of the United States Grain Standards Act (7 U.S.C. 79d) is amended—

(1) by striking ''2000'' and inserting ''2005''; and

(2) by striking ''40 per centum'' and inserting ''30 percent''.

SEC. 106. LICENSES AND AUTHORIZATIONS.

Section 8(a)(3) of the United States Grain Standards Act (7 U.S.C. 84(a)(3)) is amended by inserting ''inspection, weighing,'' after ''laboratory testing,''.

SEC. 107. GRAIN ADDITIVES.

Section 13(e)(1) of the United States Grain Standards Act (7 U.S.C. 87b(e)(1)) is amended by inserting '', or prohibit disguising the quality of grain,'' after ''sound and pure grain''.

SEC. 108. AUTHORIZATION OF APPROPRIATIONS.

Section 19 of the United States Grain Standards Act (7 U.S.C. 87h) is amended by striking ''2000'' and inserting ''2005''.

SEC. 109. ADVISORY COMMITTEE.

Section 21(e) of the United States Grain Standards Act (7 U.S.C. 87j(e)) is amended by striking ''2000'' and inserting ''2005''.

SEC. 110. CONFORMING AMENDMENTS.

(a) OBSOLETE STUDIES AND REPORTS.—Section 8 of the United States Grain Standards Act of 1976 (7 U.S.C. 79 note; Public Law 94–582) is amended—

(1) by striking ''(a)''; and

(2) by striking subsection (b).

(b) TEMPORARY AUTHORITIES AND STUDY.—Sections 23, 24, and 25 of the United States Grain Standards Act of 1976 (7 U.S.C. 87e–1, 7 U.S.C. 76 note; Public Law 94–582) are repealed.

(c) TRANSITIONAL PROVISION.—Section 27 of the United States Grain Standards Act of 1976 (7 U.S.C. 74 note; Public Law 94–582) is amended by striking ''; and thereafter'' and all that follows and inserting a period.

SEC. 111. SPECIAL EFFECTIVE DATE FOR CERTAIN EXPIRED PROVISIONS.

The amendments made by sections 103, 105, 108, and 109 shall take effect as if enacted on September 30, 2000.

TITLE II—WAREHOUSES

SEC. 201. STORAGE OF AGRICULTURAL PRODUCTS IN WAREHOUSES.

The United States Warehouse Act (7 U.S.C. 241 et seq.) is amended to read as follows:

''SECTION 1. SHORT TITLE.

''This Act may be cited as the 'United States Warehouse Act'.

''SEC. 2. DEFINITIONS.

''In this Act:

''(1) AGRICULTURAL PRODUCT.—The term 'agricultural product' means an agricultural commodity, as determined by the Secretary, including a processed product of an agricultural commodity.

''(2) APPROVAL.—The term 'approval' means the consent provided by the Secretary for a person to engage in an activity authorized by this Act.

''(3) DEPARTMENT.—The term 'Department' means the Department of Agriculture.

''(4) ELECTRONIC DOCUMENT.—The term 'electronic document' means a document that is generated, sent, received, or stored by electronic, optical, or similar means, including electronic data interchange, electronic mail, telegram, telex, or telecopy.

''(5) ELECTRONIC RECEIPT.—The term 'electronic receipt' means a receipt that is authorized by the Secretary to be issued or transmitted under this Act in the form of an electronic document.

''(6) HOLDER.—The term 'holder' means a person that has possession in fact or by operation of law of a receipt or any electronic document.

''(7) PERSON.—The term 'person' means—

''(A) a person (as defined in section 1 of title 1, United States Code);

''(B) a State; and

''(C) a political subdivision of a State.

''(8) RECEIPT.—The term 'receipt' means a warehouse receipt issued in accordance with this Act, including an electronic receipt.

''(9) SECRETARY.—The term 'Secretary' means the Secretary of Agriculture.

''(10) WAREHOUSE.—The term 'warehouse' means a structure or other approved storage facility, as determined by the Secretary, in which any agricultural product may be stored or handled for the purposes of interstate or foreign commerce.

''(11) WAREHOUSE OPERATOR.—The term 'warehouse operator' means a person that is lawfully engaged in the business of storing or handling agricultural products.

''SEC. 3. POWERS OF SECRETARY.

''(a) IN GENERAL.—The Secretary shall have exclusive power, jurisdiction, and authority, to the extent that this Act applies, with respect to—

''(1) each warehouse operator licensed under this Act;

''(2) each person that has obtained an approval to engage in an activity under this Act; and

''(3) each person claiming an interest in an agricultural product by means of a document or receipt subject to this Act.

''(b) COVERED AGRICULTURAL PRODUCTS.—The Secretary shall specify, after an opportunity for notice and comment, those agricultural products for which a warehouse license may be issued under this Act.

''(c) INVESTIGATIONS.—The Secretary may investigate the storing, warehousing, classifying according to grade and otherwise, weighing, and certifying of agricultural products.

''(d) INSPECTIONS.—The Secretary may inspect or cause to be inspected any person or warehouse licensed under this Act and any warehouse for which a license is applied for under this Act.

''(e) SUITABILITY FOR STORAGE.—The Secretary may determine whether a licensed warehouse, or a warehouse for which a license is applied for under this Act, is suitable for the proper storage of the agricultural product or products stored or proposed for storage in the warehouse.

''(f) CLASSIFICATION.—The Secretary may classify a licensed warehouse, or a warehouse for which a license is applied for under this Act, in accordance with the ownership, location, surroundings, capacity, conditions, and other qualities of the warehouse and as to the kinds of licenses issued or that may be issued for the warehouse under this Act.

''(g) WAREHOUSE OPERATOR'S DUTIES.—Subject to the other provisions of this Act, the Secretary may prescribe the duties of a warehouse operator operating a warehouse licensed under this Act with respect to the warehouse operator's care of and responsibility for agricultural products stored or handled by the warehouse operator.

''(h) SYSTEMS FOR ELECTRONIC CONVEYANCE.—

''(1) REGULATIONS GOVERNING ELECTRONIC SYSTEMS.—Except as provided in paragraph (2), the Secretary may promulgate regulations governing 1 or more electronic systems under which electronic receipts may be issued and transferred and other electronic documents relating to the shipment, payment, and financing of the sale of agricultural products may be issued or transferred.

''(2) LIMITATIONS.—The Secretary shall not have the authority under this Act to establish—

''(A) 1 or more central filing systems for the filing of financing statements or the filing of the notice of financing statements; or

''(B) rules to determine security interests of persons affected by this Act.

''(i) EXAMINATION AND AUDITS.—In addition to the authority provided under subsection (l), on request of the person, State agency, or commodity exchange, the Secretary may conduct an examination, audit, or similar activity with respect to—

''(1) any person that is engaged in the business of storing an agricultural product that is subject to this Act;

''(2) any State agency that regulates the storage of an agricultural product by such a person; or

''(3) any commodity exchange with regulatory authority over the storage of agricultural products that are subject to this Act.

''(j) LICENSES FOR OPERATION OF WAREHOUSES.—The Secretary may issue to any warehouse operator a license for the operation of a warehouse in accordance with this Act if—

''(1) the Secretary determines that the warehouse is suitable for the proper storage of the agricultural product or products stored or proposed for storage in the warehouse; and

''(2) the warehouse operator agrees, as a condition of the license, to comply with this Act (including regulations promulgated under this Act).

''(k) LICENSING OF OTHER PERSONS.—

''(1) IN GENERAL.—On presentation of satisfactory proof of competency to carry out the activities described in this paragraph, the Secretary may issue to any person a Federal license—

''(A) to inspect any agricultural product stored or handled in a warehouse subject to this Act;

''(B) to sample such an agricultural product;

''(C) to classify such an agricultural product according to condition, grade, or other class and certify the condition, grade, or other class of the agricultural product; or

''(D) to weigh such an agricultural product and certify the weight of the agricultural product.

''(2) CONDITION.—As a condition of a license issued under paragraph (1), the licensee shall agree to comply with this Act (including regulations promulgated under this Act).

''(l) EXAMINATION OF BOOKS, RECORDS, PAPERS, AND ACCOUNTS.—The Secretary may examine and audit, using designated officers, employees, or agents of the Department, all books, records, papers, and accounts relating to activities subject to this Act of—

''(1) a warehouse operator operating a warehouse licensed under this Act;

''(2) a person operating a system for the electronic recording and transfer of receipts and other documents authorized by the Secretary; or

''(3) any other person issuing receipts or electronic documents authorized by the Secretary under this Act.

''(m) COOPERATION WITH STATES.—The Secretary may—

''(1) cooperate with officers and employees of a State who administer or enforce State laws relating to warehouses, warehouse operators, weighers, graders, inspectors, samplers, or classifiers; and

''(2) enter into cooperative agreements with States to perform activities authorized under this Act.

''SEC. 4. IMPOSITION AND COLLECTION OF FEES.

''(a) IN GENERAL.—The Secretary shall assess persons covered by this Act fees to cover the costs of administering this Act.

''(b) RATES.—The fees under this section shall be set at a rate determined by the Secretary.

''(c) TREATMENT OF FEES.—All fees collected under this section shall be credited to the account that incurs the costs of administering this Act and shall be available to the Secretary without further appropriation and without fiscal year limitation.

''(d) INTEREST.—Funds collected under this section may be deposited in an interest-bearing account with a financial institution, and any interest earned on the account shall be credited under subsection (c).

''(e) EFFICIENCIES AND COST EFFECTIVENESS.—

''(1) IN GENERAL.—The Secretary shall seek to minimize the fees established under this section by improving efficiencies and reducing costs, including the efficient use of personnel to the extent practicable and consistent with the effective implementation of this Act.

''(2) REPORT.—The Secretary shall publish an annual report on the actions taken by the Secretary to comply with paragraph (1).

''SEC. 5. QUALITY AND VALUE STANDARDS.

''If standards for the evaluation or determination of the quality or value of an agricultural product are not established under another Federal law, the Secretary may establish standards for the evaluation or determination of the quality or value of the agricultural product under this Act.

''SEC. 6. BONDING AND OTHER FINANCIAL ASSURANCE REQUIREMENTS.

''(a) IN GENERAL.—As a condition of receiving a license or approval under this Act (including regulations promulgated under this Act), the person applying for the license or approval shall execute and file with the Secretary a bond, or provide such other financial assurance as the Secretary determines appropriate, to secure the person's performance of the activities so licensed or approved.

''(b) SERVICE OF PROCESS.—To qualify as a suitable bond or other financial assurance under subsection (a), the surety, sureties, or financial institution shall be subject to service of process in suits on the bond or other financial assurance in the State, district, or territory in which the warehouse is located.

''(c) ADDITIONAL ASSURANCES.—If the Secretary determines that a previously approved bond or other financial assurance is insufficient, the Secretary may suspend or revoke the license or approval covered by the bond or other financial assurance if the person that filed the bond or other financial assurance does not provide such additional bond or other financial assurance as the Secretary determines appropriate.

''(d) THIRD PARTY ACTIONS.—Any person injured by the breach of any obligation arising under this Act for which a bond or other financial assurance has been obtained as required by this section may sue with respect to the bond or other financial assurance in a district court of the United States to recover the damages that the person sustained as a result of the breach.

''SEC. 7. MAINTENANCE OF RECORDS.

''To facilitate the administration of this Act, the following persons shall maintain such records and make such reports, as the Secretary may by regulation require:

''(1) A warehouse operator that is licensed under this Act.

''(2) A person operating a system for the electronic recording and transfer of receipts and other documents that are authorized under this Act.

''(3) Any other person engaged in the issuance of electronic receipts or the transfer of documents under this Act.

''SEC. 8. FAIR TREATMENT IN STORAGE OF AGRICULTURAL PRODUCTS.

''(a) IN GENERAL.—Subject to the capacity of a warehouse, a warehouse operator shall deal, in a fair and reasonable manner, with persons storing, or seeking to store, an agricultural product in the warehouse if the agricultural product—

''(1) is of the kind, type, and quality customarily stored or handled in the area in which the warehouse is located;

''(2) is tendered to the warehouse operator in a suitable condition for warehousing; and

''(3) is tendered in a manner that is consistent with the ordinary and usual course of business.

''(b) ALLOCATION.—Nothing in this section prohibits a warehouse operator from entering into an agreement with a depositor of an agricultural product to allocate available storage space.

''SEC. 9. COMMINGLING OF AGRICULTURAL PRODUCTS.

''(a) IN GENERAL.—A warehouse operator may commingle agricultural products in a manner approved by the Secretary.

''(b) LIABILITY.—A warehouse operator shall be severally liable to each depositor or holder for the care and redelivery of the share of the depositor and holder of the commingled agricultural product to the same extent and under the same circumstances as if the agricultural products had been stored separately.

''SEC. 10. TRANSFER OF STORED AGRICULTURAL PRODUCTS.

''(a) IN GENERAL.—In accordance with regulations promulgated under this Act, a warehouse operator may transfer a stored agricultural product from 1 warehouse to another warehouse for continued storage.

''(b) CONTINUED DUTY.—The warehouse operator from which agricultural products have been transferred under subsection (a) shall deliver to the rightful owner of such products, on request at the original warehouse, such products in the quantity and of the kind, quality, and grade called for by the receipt or other evidence of storage of the owner.

''SEC. 11. WAREHOUSE RECEIPTS.

''(a) IN GENERAL.—At the request of the depositor of an agricultural product stored or handled in a warehouse licensed under this Act, the warehouse operator shall issue a receipt to the depositor as prescribed by the Secretary.

''(b) ACTUAL STORAGE REQUIRED.—A receipt may not be issued under this section for an agricultural product unless the agricultural product is actually stored in the warehouse at the time of the issuance of the receipt.

''(c) CONTENTS.—Each receipt issued for an agricultural product stored or handled in a warehouse licensed under this Act shall contain such information, for each agricultural product covered by the receipt, as the Secretary may require by regulation.

''(d) PROHIBITION ON ADDITIONAL RECEIPTS OR OTHER DOCUMENTS.—

''(1) RECEIPTS.—While a receipt issued under this Act is outstanding and uncanceled by the warehouse operator, an additional receipt may not be issued for the same agricultural product (or any portion of the same agricultural product) represented by the outstanding receipt, except as authorized by the Secretary.

''(2) OTHER DOCUMENTS.—If a document is transferred under this section, no duplicate document in any form may be transferred by any person with respect to the same agricultural product represented by the document, except as authorized by the Secretary.

''(e) ELECTRONIC RECEIPTS AND ELECTRONIC DOCUMENTS.—Except as provided in section 3(h)(2), notwithstanding any other provision of Federal or State law:

''(1) IN GENERAL.—The Secretary may promulgate regulations that authorize the issuance, recording, and transfer of electronic receipts, and the transfer of other electronic documents, in accordance with this subsection.

''(2) ELECTRONIC RECEIPT OR ELECTRONIC DOCUMENT SYSTEMS.—Electronic receipts may be issued, recorded, and transferred, and electronic documents may be transferred, under this subsection with respect to an agricultural product under, a system or systems maintained in 1 or more locations and approved by the Secretary in accordance with regulations issued under this Act.

''(3) TREATMENT OF HOLDER.—Any person designated as the holder of an electronic receipt or other electronic document issued or transferred under this Act shall, for the purpose of perfecting the security interest of the person under Federal or State law and for all other purposes, be considered to be in possession of the receipt or other electronic document.

''(4) NONDISCRIMINATION.—An electronic receipt issued, or other electronic document transferred, in accordance with this Act shall not be denied legal effect, validity, or enforceability on the ground that the information is generated, sent, received, or stored by electronic or similar means.

''(5) SECURITY INTERESTS.—If more than 1 security interest exists in the agricultural product that is the subject of an electronic receipt or other electronic document under this Act, the priority of the security interest shall be determined by the applicable Federal or State law.

''(6) NO ELECTRONIC RECEIPT REQUIRED.—A person shall not be required to issue in electronic form a receipt or document with respect to an agricultural product.

''(7) OPTION FOR NON-FEDERALLY LICENSED WAREHOUSE OPERATORS.—Notwithstanding any other provision of this Act, a warehouse operator not licensed under this Act may, at the option of the warehouse operator and in accordance with regulations established by the Secretary, issue electronic receipts and transfer other electronic documents in accordance with this Act.

''(8) APPLICATION TO STATE-LICENSED WAREHOUSE OPERATORS.—This subsection shall not apply to a warehouse operator that is licensed under State law to store agricultural commodities in a warehouse in the State if the warehouse operator elects—

''(A) not to issue electronic receipts authorized under this subsection; or

''(B) to issue electronic receipts authorized under State law.

''SEC. 12. CONDITIONS FOR DELIVERY OF AGRICULTURAL PRODUCTS.

''(a) PROMPT DELIVERY.—In the absence of a lawful excuse, a warehouse operator shall, without unnecessary delay, deliver the agricultural product stored or handled in the warehouse on a demand made by—

''(1) the holder of the receipt for the agricultural product; or

''(2) the person that deposited the product, if no receipt has been issued.

''(b) PAYMENT TO ACCOMPANY DEMAND.—Prior to delivery of the agricultural product, payment of the accrued charges associated with the storage of the agricultural product, including satisfaction of the warehouseman's lien, shall be made if requested by the warehouse operator.

''(c) SURRENDER OF RECEIPT.—When the holder of a receipt requests delivery of an agricultural product covered by the receipt, the holder shall surrender the receipt to the warehouse operator, in the manner prescribed by the Secretary, to obtain the agricultural product.

''(d) CANCELLATION OF RECEIPT.—A warehouse operator shall cancel each receipt returned to the warehouse operator upon the delivery of the agricultural product for which the receipt was issued.

''SEC. 13. SUSPENSION OR REVOCATION OF LICENSES.

''(a) IN GENERAL.—After providing notice and an opportunity for a hearing in accordance with this section, the Secretary may suspend or revoke any license issued, or approval for an activity provided, under this Act—

''(1) for a material violation of, or failure to comply, with any provision of this Act (including regulations promulgated under this Act); or

''(2) on the ground that unreasonable or exorbitant charges have been imposed for services rendered.

''(b) TEMPORARY SUSPENSION.—The Secretary may temporarily suspend a license or approval for an activity under this Act prior to an opportunity for a hearing for any violation of, or failure to comply with, any provision of this Act (including regulations promulgated under this Act).

''(c) AUTHORITY TO CONDUCT HEARINGS.—The agency within the Department that is responsible for administering regulations promulgated under this Act shall have exclusive authority to conduct any hearing required under this section.

''(d) JUDICIAL REVIEW.—

''(1) JURISDICTION.—A final administrative determination issued subsequent to a hearing may be reviewable only in a district court of the United States.

''(2) PROCEDURE.—The review shall be conducted in accordance with the standards set forth in section 706(2) of title 5, United States Code.

''SEC. 14. PUBLIC INFORMATION.

''(a) IN GENERAL.—The Secretary may release to the public the names, addresses, and locations of all persons—

''(1) that have been licensed under this Act or that have been approved to engage in an activity under this Act; and

''(2) with respect to which a license or approval has been suspended or revoked under section 13, the results of any investigation made or hearing conducted under this Act, including the reasons for the suspension or revocation.

''(b) CONFIDENTIALITY.—Except as otherwise provided by law, an officer, employee, or agent of the Department shall not divulge confidential business information obtained during a warehouse examination or other function performed as part of the duties of the officer, employee, or agent under this Act.

''SEC. 15. PENALTIES FOR NONCOMPLIANCE.

''If a person fails to comply with any requirement of this Act (including regulations promulgated under this Act), the Secretary may assess, on the record after an opportunity for a hearing, a civil penalty—

''(1) of not more than $25,000 per violation, if an agricultural product is not involved in the violation; or

''(2) of not more than 100 percent of the value of the agricultural product, if an agricultural product is involved in the violation.

''SEC. 16. JURISDICTION AND ARBITRATION.

''(a) FEDERAL JURISDICTION.—A district court of the United States shall have exclusive jurisdiction over any action brought under this Act without regard to the amount in controversy or the citizenship of the parties.

''(b) ARBITRATION.—Nothing in this Act prevents the enforceability of an agreement to arbitrate that would otherwise be enforceable under chapter 1 of title 9, United States Code.

''SEC. 17. AUTHORIZATION OF APPROPRIATIONS.

''There are authorized to be appropriated such sums as are necessary to carry out this Act.''.

SEC. 202. REGULATIONS.

(a) PROPOSED REGULATIONS.—Not later than 90 days after the date of enactment of this Act, the Secretary of Agriculture shall publish in the Federal Register proposed regulations for carrying out the amendment made by section 201.

(b) FINAL REGULATIONS.—Not later than 180 days after the date of enactment of this Act, the Secretary shall promulgate final regulations for carrying out the amendment made by section 201.

(c) EFFECTIVENESS OF EXISTING ACT.—The United States Warehouse Act (7 U.S.C. 241 et seq.) (as it existed before the amendment made by section 201) shall be effective until the earlier of—

(1) the date on which final regulations are promulgated under subsection (b); or

(2) August 1, 2001.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Nebraska (Mr. BARRETT) and the gentleman from Texas (Mr. STENHOLM) each will control 20 minutes.

The Chair recognizes the gentleman from Nebraska (Mr. BARRETT).

Mr. BARRETT of Nebraska. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise this evening in support of the bill, H.R. 4788, the Grain Standards and Warehouse Improvement Act of 2000, as amended.

The Subcommittee on General Farm Commodities, Resource Conservation and Credit, which I chair, reported the Grain Standards Act reauthorization bill out of subcommittee on July 25 of this year. I thank the gentleman from Minnesota (Mr. MINGE), the ranking member of the subcommittee, who was a cosponsor of the bill, for his contributions to this important legislation.

I also thank the gentleman from Texas (Mr. COMBEST), chairman of the full committee, and certainly the gentleman from Texas (Mr. STENHOLM), the ranking member of the committee, for their assistance in bringing this bill to the floor as well.

A special thanks to Mr. Jim Baker, who is the administrator of the Grain Inspection, Packers and Stockyards Administration, and his staff for their cooperation in working out the details of this reauthorization.

On September 30, the authorization for the collection of fees by the Grain Inspection, Packers and Stockyards Administration of the USDA expired. Since approximately 75 percent of the grain inspection budget is obtained through the collection of fees and only 25 percent through appropriations, this legislation is critical to assure the continued marketing of grain and oilseeds.

The grain standards provisions ensure confidence to our producers, grain elevators, and overseas buyers. The grain inspection and weighing procedure is very important to farmers and grain elevators. It is critical that the Department of Agriculture continue to thoroughly inspect grain for purity or, in the case of official agencies, USDA needs to provide vigilant oversight. This program provides official inspection so that customers are delivered certainly a quality product.

The bill also provides for a reasonable compromise on the issue of geographic boundaries. It will allow grain inspectors to cross boundary lines with approval from the Secretary of Agriculture. But it will also keep official agencies in place, within geographical areas.

H.R. 4788, now under consideration, also includes under Title II the important revisions to the U.S. Warehouse

Act. The main revision is to authorize the use of electronic receipts.

Mr. Speaker, I urge my colleagues to support this very timely and very important piece of legislation.

Mr. Speaker, I reserve the balance of my time.

Mr. STENHOLM. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise tonight in support of H.R. 4788, which reauthorizes the U.S. Grain Standards Act and also updates the U.S. Warehouse Act.

Given today's world market, it is important that our farmers and commodity merchants have the best technical support possible to help them compete in the marketplace. This legislation helps continue that tradition by reauthorizing the inspection and weighing activities of the Grain Inspection, Packers and Stockyards Administration as well as updating the U.S. Warehouse Act and providing for the use of electronic documentation under that act.

Due to the technical nature of many of the provisions included in this legislation, I would have much preferred to report this bill from the Committee on Agriculture. However, it is imperative that we provide the grain inspection service with the authority to collect fees to provide official weighing and inspection services for grain bound for export since their authority expired on September 30. Unfortunately, we simply cannot wait any longer at this point and take the time to go through the committee process.

I urge my colleagues to support this routine update of these two statutes and ask for their support of H.R. 4788.

Mr. Speaker, I reserve the balance of my time.

Mr. BARRETT of Nebraska. Mr. Speaker, I am pleased to yield 2 minutes to the gentleman from Virginia (Mr. GOODLATTE), a member of the full Committee on Agriculture.

Mr. GOODLATTE. Mr. Speaker, I thank the gentleman for yielding me this time and for his leadership on this issue. I also commend the gentleman from Illinois (Mr. LAHOOD) for his contribution to this effort as well.

Mr. Speaker, I rise today in support of H.R. 4788, the Grain Standards and Warehouse Improvement Act of 2000. H.R. 4788 is a necessary and important piece of legislation in that it allows the Grain Inspection Packers and Stockyards Administration to continue to serve the essential purpose of guaranteeing a quality grain supply.

Through vigorous inspection, GIPSA has assisted in maintaining the integrity of the American grain, both at home and abroad. To fund this program, GIPSA has creatively relied on the collection of fees to recoup its costs for service. By reauthorizing its authority in the area of grain quality inspection, H.R. 4788 takes the necessary step to ensuring that the Grain Inspection, Packers and Stockyards Administration will continue to serve America's agriculture producers.

Mr. Speaker, I am particularly interested in H.R. 4788 because it also makes dramatic improvements to the Warehouse Act by providing the U.S. Department of Agriculture with a framework for efficient business practices most explicitly demonstrated by its language authorizing and standardizing electronic receipt documents.

Like any business today, farmers are using computers and the Internet for a variety of purposes, including financial management systems and market information. It is becoming increasingly important to ensure that all segments of our economy are technologically efficient. It is vital to empower producers and farmers by providing them with a technological tools to do business electronically in the information age. Electronic warehouse receipts and H.R. 4788 are a step in the right direction.

Mr. Speaker, I urge my colleagues to support this fine legislation.

Mr. BARRETT of Nebraska. Mr. Speaker, I am pleased to yield 2 minutes to the gentleman from Illinois (Mr. LAHOOD), a very valued member of the full Committee on Agriculture.

Mr. LAHOOD. Mr. Speaker, I wish to thank the gentleman from Nebraska (Mr. BARRETT) for yielding me this time. I also want to thank the staff of the Committee on Agriculture for the work they have done to develop this legislation.

To put it simply, this legislation reauthorizes the Grain Standards Act and revises the U.S. Warehouse Act to bring them into line with the 21st century. Of particular interest to me are the provisions that update the U.S. Warehouse Act by allowing for the use of electronic receipts and other documents.

I might add, parenthetically, that earlier this year, with the help of the gentleman from Virginia (Mr. GOODLATTE), the chairman of the subcommittee, we were able to pass an e-file bill that I think will bring the U.S. Department of Agriculture into the 21st century. We could not have done it without the chairman and the ranking member and their support of our e-file bill.

In this age of electronic commerce, I believe that there is a need for a Federal presence in electronic documents. But the U.S. Government should focus on establishing rules and regulations under which private operators of electronic document systems can compete.

This legislation envisions the Federal Government acting as an umpire over multiple private electronic document systems. This is the type of system currently in place for electronic cotton warehouse receipts, and it has proven to work in that arena.

Also, I realize there is a cost associated with administering this act, and that is why this legislation provides authority for the Department of Agriculture to charge fees to offset this cost.

I believe that such fees should be as low as possible and that there should be a correlation between whatever fees are ultimately charged under the Act and the specific services being rendered by the USDA.

In order to insure the viability of electronic receipts, I believe that fees should not be of such amount that they hinder the use of electronic warehouse receipts or any other electronic documents. Also, I do not believe that charging per transaction fees on electronic warehouse receipts is appropriate.

Having made these points, I believe this is a good bill which will improve the efficiency and profitability of American agriculture, and I urge all Members to support this very important legislation that, again, brings the USDA and agriculture into the 21st century electronically.

Mr. Speaker, I wish to thank the gentleman from Texas (Mr. COMBEST) for yielding time. I also want to thank the staff of the Agriculture Committee for the work they have done to develop this legislation.

To put it simply, this legislation reauthorizes the Grains Standards Act and revises the U.S. Warehouse Act to bring them in-line with the 21st century. Of particular interest to me are the provisions that update the U.S. Warehouse Act by allowing for the use of electronic receipts and other documents.

In this age of e-commerce, I believe that there is a need for a federal presence in electronic documents, but that the U.S. government should focus on establishing rules and regulations under which private operators of electronic document systems can compete. This legislation envisions the federal government acting as umpire over multiple private electronic document systems. This is the type of system currently in place for electronic cotton warehouse receipts, and it has proven to work in that arena.

Also, I realize that there is a cost associated with administering this act, and that is why this legislation provides authority for the Department of Agriculture to charge fees to offset this cost. I believe that such fees should be as low as possible and that there should be a correlation between whatever fees are ultimately charged under the Act and the specific services being rendered by USDA. In order to insure the viability of electronic receipts, I believe that fees should not be of such amount that they hinder the use of electronic warehouse receipts or other electronic documents. Also, I do not believe that charging per transaction fees on electronic warehouse receipts is appropriate.

Having made these points, I believe that this is a good bill, which will improve the efficiency and profitability of American agriculture. I urge my fellow members to support this legislation.

Mr. COMBEST. Mr. Speaker, I rise today to suspend the rules and pass the bill H.R. 4788, with an amendment, and urge my colleagues

to support the Grain Standards and Warehouse Improvement Act of 2000. This reauthorization will provide the Grain Inspection Packers and Stockyards Administration with essential authority to continue the inspection of grain utilized in both domestic and international markets, and extends the authority of the Secretary of Agriculture to collect fees to cover the costs of services performed under the Act until the year 2005.

On September 30, 2000, the authorization for the collection of fees by the Grain Inspection Packers and Stockyards Administration expired. The latest figures show that approximately 75% of the grain inspection budget is funded through the collection of fees and only 25% through appropriations. Therefore, it is imperative that Congress act now to renew this expired authority.

H.R. 4788 also makes improvements to the Warehouse Act. This will provide the United States Department of Agriculture with a uniform regulatory system to govern the operation of federally licensed warehouses involved in storing agricultural products.

Currently, warehouse licenses may be issued for the storage of major commodities and cottonseed. According to the USDA, 45.5% of the U.S. off-farm grain and rice storage capacity and 49.5% of the total cotton storage capacity is licensed under the Warehouse Act.

The revisions to the Warehouse Act will make this program more relevant to today's agricultural marketing system. The legislation would do such things as (1) authorize and standardize electronic documents and allow their transfer from buyer to seller across state and international boundaries; (2) authorize warehouse operators to enter into contracts or agreements with depositors to allocate available storage space; and (3) protect the integrity of state warehouse laws and regulations from federal preemption.

In 1992, Congress directed the Secretary of Agriculture to establish electronic warehouse receipts for the cotton industry. Since then, participation in the electronic-based program has grown to more than 90% of the U.S. cotton crop. This legislation would extend the electronic warehouse receipts program to include all agriculture commodities covered by the U.S. Warehouse Act.

This legislation has been negotiated with the United States Department of Agriculture and the relevant industries. It provides for a consistent inspection of grains and the ability to utilize electronic receipts and documents for all major commodities, which will foster more reliable, competitive and efficient commerce within the agricultural sector.

In summary Mr. Speaker, this legislation will bring grain inspection and the use of warehouse facilities into the 21st century, all at no net cost to the taxpayer. I urge my colleagues to support this timely and important piece of legislation.

Mr. STENHOLM. Mr. Speaker I have no further requests for time. I encourage Members to support the bill, and I yield back the balance of my time.

Mr. BARRETT of Nebraska. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Nebraska (Mr. BARRETT) that the House suspend the rules and pass the bill, H.R. 4788, as amended.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the bill, as amended, was passed.

The title of the bill was amended so as to read:

''A bill to amend the United States Grain Standards Act to extend the authority of the Secretary of Agriculture to collect fees to cover the cost of services performed under that Act, extend the authorization of appropriations for that Act, and improve the administration of that Act, to reenact the United States Warehouse Act to require the licensing and inspection of warehouses used to store agricultural products and provide for the issuance of receipts, including electronic receipts, for agricultural products stored or handled in licensed warehouses, and for other purposes.''.

A motion to reconsider was laid on the table.

□ 2215

GENERAL LEAVE

Mr. BARRETT of Nebraska. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks on H.R. 4788, the bill just passed.

The SPEAKER pro tempore (Mr. RYAN of Wisconsin). Is there objection to the request of the gentleman from Nebraska?

There was no objection.

SECURE RURAL SCHOOLS AND COMMUNITY SELF-DETERMINATION ACT OF 2000

Mr. GOODLATTE. Mr. Speaker, I move to suspend the rules and concur in the Senate amendment to the bill (H.R. 2389) to restore stability and predictability to the annual payments made to States and counties containing National Forest System lands and public domain lands managed by the Bureau of Land Management for use by the counties for the benefit of public schools, roads, and other purposes.

The Clerk read as follows:

Senate amendment:

Strike out all after the enacting clause and insert:

SECTION 1. SHORT TITLE; TABLE OF CONTENTS.

(a) SHORT TITLE.—This Act may be cited as the ''Secure Rural Schools and Community Self-Determination Act of 2000''.

(b) Table of Contents.—The table of contents of this Act is as follows:

Sec. 1. Short title; table of contents.
Sec. 2. Findings and purposes.
Sec. 3. Definitions.
Sec. 4. Conforming amendment.
TITLE I—SECURE PAYMENTS FOR STATES AND COUNTIES CONTAINING FEDERAL LANDS
Sec. 101. Determination of full payment amount for eligible States and counties.
Sec. 102. Payments to States from National Forest Service lands for use by counties to benefit public education and transportation.
Sec. 103. Payments to counties from Bureau of Land Management lands for use to benefit public safety, law enforcement, education, and other public purposes.
TITLE II—SPECIAL PROJECTS ON FEDERAL LANDS
Sec. 201. Definitions.
Sec. 202. General limitation on use of project funds.
Sec. 203. Submission of project proposals.
Sec. 204. Evaluation and approval of projects by Secretary concerned.
Sec. 205. Resource advisory committees.
Sec. 206. Use of project funds.
Sec. 207. Availability of project funds.
Sec. 208. Termination of authority.
TITLE III—COUNTY PROJECTS
Sec. 301. Definitions.
Sec. 302. Use of county funds.
Sec. 303. Termination of authority.
TITLE IV—MISCELLANEOUS PROVISIONS
Sec. 401. Authorization of appropriations.
Sec. 402. Treatment of funds and revenues.
Sec. 403. Regulations.
Sec. 404. Conforming amendments.
TITLE V—MINERAL REVENUE PAYMENTS CLARIFICATION
Sec. 501. Short title.
Sec. 502. Findings.
Sec. 503. Amendment of the Mineral Leasing Act.
TITLE VI—COMMUNITY FOREST RESTORATION
Sec. 601. Short title.
Sec. 602. Findings.
Sec. 603. Purposes.
Sec. 604. Definitions.
Sec. 605. Establishment of program.
Sec. 606. Selection process.
Sec. 607. Monitoring and evaluation.
Sec. 608. Report.
Sec. 609. Authorization of appropriations.

SEC. 2. FINDINGS AND PURPOSES.

(a) FINDINGS.—The Congress finds the following:

(1) The National Forest System, which is managed by the United States Forest Service, was established in 1907 and has grown to include approximately 192,000,000 acres of Federal lands.

(2) The public domain lands known as revested Oregon and California Railroad grant lands and the reconveyed Coos Bay Wagon Road grant lands, which are managed predominantly by the Bureau of Land Management were returned to Federal ownership in 1916 and 1919 and now comprise approximately 2,600,000 acres of Federal lands.

(3) Congress recognized that, by its decision to secure these lands in Federal ownership, the counties in which these lands are situated would be deprived of revenues they would otherwise receive if the lands were held in private ownership.

(4) These same counties have expended public funds year after year to provide services, such as education, road construction and maintenance, search and rescue, law enforcement, waste removal, and fire protection, that directly benefit these Federal lands and people who use these lands.

(5) To accord a measure of compensation to the affected counties for the critical services they provide to both county residents and visitors to these Federal lands, Congress determined that the Federal Government should share with these counties a portion of the revenues the United States receives from these Federal lands.

(6) Congress enacted in 1908 and subsequently amended a law that requires that 25 percent of the revenues derived from National Forest System lands be paid to States for use by the counties in which the lands are situated for the benefit of public schools and roads.

(7) Congress enacted in 1937 and subsequently amended a law that requires that 75 percent of the revenues derived from the revested and reconveyed grant lands be paid to the counties in which those lands are situated to be used as are other county funds, of which 50 percent is to be used as other county funds.

(8) For several decades primarily due to the growth of the Federal timber sale program, counties dependent on and supportive of these Federal lands received and relied on increasing shares of these revenues to provide funding for schools and road maintenance.

(9) In recent years, the principal source of these revenues, Federal timber sales, has been sharply curtailed and, as the volume of timber sold annually from most of the Federal lands has decreased precipitously, so too have the revenues shared with the affected counties.

(10) This decline in shared revenues has affected educational funding and road maintenance for many counties.

(11) In the Omnibus Budget Reconciliation Act of 1993, Congress recognized this trend and ameliorated its adverse consequences by providing an alternative annual safety net payment to 72 counties in Oregon, Washington, and northern California in which Federal timber sales had been restricted or prohibited by administrative and judicial decisions to protect the northern spotted owl.

(12) The authority for these particular safety net payments is expiring and no comparable authority has been granted for alternative payments to counties elsewhere in the United States that have suffered similar losses in shared revenues from the Federal lands and in the funding for schools and roads those revenues provide.

(13) There is a need to stabilize education and road maintenance funding through predictable payments to the affected counties, job creation in those counties, and other opportunities associated with restoration, maintenance, and stewardship of Federal lands.

(14) Both the Forest Service and the Bureau of Land Management face significant backlogs in infrastructure maintenance and ecosystem restoration that are difficult to address through annual appropriations.

(15) There is a need to build new, and strengthen existing, relationships and to improve management of public lands and waters.

(b) PURPOSES.—The purposes of this Act are as follows:

(1) To stabilize payments to counties to provide funding for schools and roads that supplements other available funds.

(2) To make additional investments in, and create additional employment opportunities through, projects that improve the maintenance of existing infrastructure, implement stewardship objectives that enhance forest ecosystems, and restore and improve land health and water quality. Such projects shall enjoy broad-based support with objectives that may include, but are not limited to—

(A) road, trail, and infrastructure maintenance or obliteration;

(B) soil productivity improvement;

(C) improvements in forest ecosystem health;

(D) watershed restoration and maintenance;

(E) restoration, maintenance and improvement of wildlife and fish habitat;

(F) control of noxious and exotic weeds; and

(G) reestablishment of native species.

(3) To improve cooperative relationships among the people that use and care for Federal lands and the agencies that manage these lands.

SEC. 3. DEFINITIONS.

In this Act:

(1) FEDERAL LANDS.—The term ''Federal lands'' means—

(A) lands within the National Forest System, as defined in section 11(a) of the Forest and Rangeland Renewable Resources Planning Act of 1974 (16 U.S.C. 1609(a)) exclusive of the National Grasslands and land utilization projects designated as National Grasslands administered pursuant to the Act of July 22, 1937 (7 U.S.C. 1010–1012); and

(B) such portions of the revested Oregon and California Railroad and reconveyed Coos Bay Wagon Road grant lands as are or may hereafter come under the jurisdiction of the Department of the Interior, which have heretofore or may hereafter be classified as timberlands, and power-site lands valuable for timber, that shall be managed, except as provided in the former section 3 of the Act of August 28, 1937 (50 Stat. 875; 43 U.S.C. 1181c), for permanent forest production.

(2) ELIGIBILITY PERIOD.—The term ''eligibility period'' means fiscal year 1986 through fiscal year 1999.

(3) ELIGIBLE COUNTY.—The term ''eligible county'' means a county that received 50-percent payments for one or more fiscal years of the eligibility period or a county that received a portion of an eligible State's 25-percent payments for one or more fiscal years of the eligibility period. The term includes a county established after the date of the enactment of this Act so long as the county includes all or a portion of a county described in the preceding sentence.

(4) ELIGIBLE STATE.—The term ''eligible State'' means a State that received 25-percent payments for one or more fiscal years of the eligibility period.

(5) FULL PAYMENT AMOUNT.—The term ''full payment amount'' means the amount calculated for each eligible State and eligible county under section 101.

(6) 25-PERCENT PAYMENT.—The term ''25-percent payment'' means the payment to States required by the sixth paragraph under the heading of ''FOREST SERVICE'' in the Act of May 23, 1908 (35 Stat. 260; 16 U.S.C. 500), and section 13 of the Act of March 1, 1911 (36 Stat. 963; 16 U.S.C. 500).

(7) 50-PERCENT PAYMENT.—The term ''50-percent payment'' means the payment that is the sum of the 50-percent share otherwise paid to a county pursuant to title II of the Act of August 28, 1937 (chapter 876; 50 Stat. 875; 43 U.S.C. 1181f), and the payment made to a county pursuant to the Act of May 24, 1939 (chapter 144; 53 Stat. 753; 43 U.S.C. 1181f–1 et seq.).

(8) SAFETY NET PAYMENTS.—The term ''safety net payments'' means the special payment amounts paid to States and counties required by section 13982 or 13983 of the Omnibus Budget Reconciliation Act of 1993 (Public Law 103–66; 16 U.S.C. 500 note; 43 U.S.C. 1181f note).

SEC. 4. CONFORMING AMENDMENT.

Section 6903(a)(1)(C) of title 31, United States Code, is amended by inserting after ''(16 U.S.C. 500)'' the following: ''or the Secure Rural Schools and Community Self-Determination Act of 2000''.

TITLE I—SECURE PAYMENTS FOR STATES AND COUNTIES CONTAINING FEDERAL LANDS

SEC. 101. DETERMINATION OF FULL PAYMENT AMOUNT FOR ELIGIBLE STATES AND COUNTIES.

(a) CALCULATION REQUIRED.—

(1) ELIGIBLE STATES.—For fiscal years 2001 through 2006, the Secretary of the Treasury shall calculate for each eligible State that received a 25-percent payment during the eligibility period an amount equal to the average of the three highest 25-percent payments and safety net payments made to that eligible State for the fiscal years of the eligibility period.

(2) BUREAU OF LAND MANAGEMENT COUNTIES.—For fiscal years 2001 through 2006, the Secretary of the Treasury shall calculate for each eligible county that received a 50-percent payment during the eligibility period an amount equal to the average of the three highest 50-percent payments and safety net payments made to that eligible county for the fiscal years of the eligibility period.

(b) ANNUAL ADJUSTMENT.—For each fiscal year in which payments are required to be made to eligible States and eligible counties under this title, the Secretary of the Treasury shall adjust the full payment amount for the previous fiscal year for each eligible State and eligible county to reflect 50 percent of the changes in the consumer price index for rural areas (as published in the Bureau of Labor Statistics) that occur after publication of that index for fiscal year 2000.

SEC. 102. PAYMENTS TO STATES FROM NATIONAL FOREST SYSTEM LANDS FOR USE BY COUNTIES TO BENEFIT PUBLIC EDUCATION AND TRANSPORTATION.

(a) PAYMENT AMOUNTS.—The Secretary of the Treasury shall pay an eligible State the sum of the amounts elected under subsection (b) by each eligible county for either—

(1) the 25-percent payment under the Act of May 23, 1908 (16 U.S.C. 500), and section 13 of the Act of March 1, 1911 (16 U.S.C. 500); or

(2) the full payment amount in place of the 25-percent payment.

(b) ELECTION TO RECEIVE PAYMENT AMOUNT.—

(1) ELECTION; SUBMISSION OF RESULTS.—The election to receive either the full payment amount or the 25-percent payment shall be made at the discretion of each affected county and transmitted to the Secretary by the Governor of a State.

(2) DURATION OF ELECTION.—A county election to receive the 25-percent payment shall be effective for two fiscal years. When a county elects to receive the full payment amount, such election shall be effective for all the subsequent fiscal years through fiscal year 2006.

(3) SOURCE OF PAYMENT AMOUNTS.—The payment to an eligible State under this section for a fiscal year shall be derived from any revenues, fees, penalties, or miscellaneous receipts, exclusive of deposits to any relevant trust fund, or special accounts, received by the Federal Government from activities by the Forest Service on the Federal lands described in section 3(1)(A) and to the extent of any shortfall, out of any funds in the Treasury not otherwise appropriated.

(c) DISTRIBUTION AND EXPENDITURE OF PAYMENTS.—

(1) DISTRIBUTION METHOD.—A State that receives a payment under subsection (a) shall distribute the payment among all eligible counties in the State in accordance with the Act of May 23, 1908 (16 U.S.C. 500), and section 13 of the Act of March 1, 1911 (36 Stat. 963; 16 U.S.C. 500).

(2) EXPENDITURE PURPOSES.—Subject to subsection (d), payments received by a State under subsection (a) and distributed to eligible counties shall be expended as required by the laws referred to in paragraph (1).

(d) EXPENDITURE RULES FOR ELIGIBLE COUNTIES.—

(1) ALLOCATIONS.—

(A) USE OF PORTION IN SAME MANNER AS 25-PERCENT PAYMENTS.—If an eligible county elects to receive its share of the full payment amount, not less than 80 percent, but not more than 85 percent, of the funds shall be expended in the same manner in which the 25-percent payments are required to be expended.

(B) ELECTION AS TO USE OF BALANCE.—An eligible county shall elect to do one or more of the

following with the balance of the funds not expended pursuant to subparagraph (A):

(i) Reserve the balance for projects in accordance with title II.

(ii) Reserve the balance for projects in accordance with title III.

(iii) Return the balance to the General Treasury in accordance with section 402(b).

(2) DISTRIBUTION OF FUNDS.—

(A) TREATMENT OF TITLE II FUNDS.—Funds reserved by an eligible county under paragraph (1)(B)(i) shall be deposited in a special account in the Treasury of the United States and shall be available for expenditure by the Secretary of Agriculture, without further appropriation, and shall remain available until expended in accordance with title II.

(B) TREATMENT OF TITLE III FUNDS.—Funds reserved by an eligible county under paragraph (1)(B)(ii) shall be available for expenditure by the county and shall remain available, until expended, in accordance with title III.

(3) ELECTION.—

(A) IN GENERAL.—An eligible county shall notify the Secretary of Agriculture of its election under this subsection not later than September 30 of each fiscal year. If the eligible county fails to make an election by that date, the county is deemed to have elected to expend 85 percent of the funds to be received under this section in the same manner in which the 25-percent payments are required to be expended, and shall remit the balance to the Treasury of the United States in accordance with section 402(b).

(B) COUNTIES WITH MINOR DISTRIBUTIONS.—Notwithstanding any adjustment made pursuant to section 101(b) in the case of each eligible county to which less than $100,000 is distributed for any fiscal year pursuant to subsection (c)(1), the eligible county may elect to expend all such funds in accordance with subsection (c)(2).

(e) TIME FOR PAYMENT.—The payment to an eligible State under this section for a fiscal year shall be made as soon as practicable after the end of that fiscal year.

SEC. 103. PAYMENTS TO COUNTIES FROM BUREAU OF LAND MANAGEMENT LANDS FOR USE TO BENEFIT PUBLIC SAFETY, LAW ENFORCEMENT, EDUCATION, AND OTHER PUBLIC PURPOSES.

(a) PAYMENT.—The Secretary of the Treasury shall pay an eligible county either—

(1) the 50-percent payment under the Act of August 28, 1937 (43 U.S.C. 1181f), or the Act of May 24, 1939 (43 U.S.C. 1181f–1) as appropriate; or

(2) the full payment amount in place of the 50-percent payment.

(b) ELECTION TO RECEIVE FULL PAYMENT AMOUNT.—

(1) ELECTION; DURATION.—The election to receive the full payment amount shall be made at the discretion of the county. Once the election is made, it shall be effective for the fiscal year in which the election is made and all subsequent fiscal years through fiscal year 2006.

(2) SOURCE OF PAYMENT AMOUNTS.—The payment to an eligible county under this section for a fiscal year shall be derived from any revenues, fees, penalties, or miscellaneous receipts, exclusive of deposits to any relevant trust fund, or permanent operating funds, received by the Federal Government from activities by the Bureau of Land Management on the Federal lands described in section 3(1)(B) and to the extent of any shortfall, out of any funds in the Treasury not otherwise appropriated.

(c) EXPENDITURE RULES FOR ELIGIBLE COUNTIES.—

(1) ALLOCATIONS.—

(A) USE OF PORTION IN SAME MANNER AS 50-PERCENT PAYMENTS.—Of the funds to be paid to an eligible county pursuant to subsection (a)(2), not less than 80 percent, but not more than 85 percent, of the funds distributed to the eligible county shall be expended in the same manner in which the 50-percent payments are required to be expended.

(B) ELECTION AS TO USE OF BALANCE.—An eligible county shall elect to do one or more of the following with the balance of the funds not expended pursuant to subparagraph (A):

(i) Reserve the balance for projects in accordance with title II.

(ii) Reserve the balance for projects in accordance with title III.

(iii) Return the balance to the General Treasury in accordance with section 402(b).

(2) DISTRIBUTION OF FUNDS.—

(A) TREATMENT OF TITLE II FUNDS.—Funds reserved by an eligible county under paragraph (1)(B)(i) shall be deposited in a special account in the Treasury of the United States and shall be available for expenditure by the Secretary of the Interior, without further appropriation, and shall remain available until expended in accordance with title II.

(B) TREATMENT OF TITLE III FUNDS.—Funds reserved by an eligible county under paragraph (1)(B)(ii) shall be available for expenditure by the county and shall remain available, until expended, in accordance with title III.

(3) ELECTION.—An eligible county shall notify the Secretary of the Interior of its election under this subsection not later than September 30 of each fiscal year. If the eligible county fails to make an election by that date, the county is deemed to have elected to expend 85 percent of the funds received under subsection (a)(2) in the same manner in which the 50-percent payments are required to be expended and shall remit the balance to the Treasury of the United States in accordance with section 402(b).

(d) TIME FOR PAYMENT.—The payment to an eligible county under this section for a fiscal year shall be made as soon as practicable after the end of that fiscal year.

TITLE II—SPECIAL PROJECTS ON FEDERAL LANDS

SEC. 201. DEFINITIONS.

In this title:

(1) PARTICIPATING COUNTY.—The term ''participating county'' means an eligible county that elects under section 102(d)(1)(B)(i) or 103(c)(1)(B)(i) to expend a portion of the Federal funds received under section 102 or 103 in accordance with this title.

(2) PROJECT FUNDS.—The term ''project funds'' means all funds an eligible county elects under sections 102(d)(1)(B)(i) and 103(c)(1)(B)(i) to reserve for expenditure in accordance with this title.

(3) RESOURCE ADVISORY COMMITTEE.—The term ''resource advisory committee'' means an advisory committee established by the Secretary concerned under section 205, or determined by the Secretary concerned to meet the requirements of section 205.

(4) RESOURCE MANAGEMENT PLAN.—The term ''resource management plan'' means a land use plan prepared by the Bureau of Land Management for units of the Federal lands described in section 3(1)(B) pursuant to section 202 of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1712) or a land and resource management plan prepared by the Forest Service for units of the National Forest System pursuant to section 6 of the Forest and Rangeland Renewable Resources Planning Act of 1974 (16 U.S.C. 1604).

(5) SECRETARY CONCERNED.—The term ''Secretary concerned'' means—

(A) the Secretary of Agriculture or the designee of the Secretary of Agriculture with respect to the Federal lands described in section 3(1)(A); and

(B) the Secretary of the Interior or the designee of the Secretary of the Interior with respect to the Federal lands described in section 3(1)(B).

SEC. 202. GENERAL LIMITATION ON USE OF PROJECT FUNDS.

Project funds shall be expended solely on projects that meet the requirements of this title. Project funds may be used by the Secretary concerned for the purpose of entering into and implementing cooperative agreements with willing Federal agencies, State and local governments, private and nonprofit entities, and landowners for protection, restoration and enhancement of fish and wildlife habitat, and other resource objectives consistent with the purposes of this title on Federal land and on non-Federal land where projects would benefit these resources on Federal land.

SEC. 203. SUBMISSION OF PROJECT PROPOSALS.

(a) SUBMISSION OF PROJECT PROPOSALS TO SECRETARY CONCERNED.—

(1) PROJECTS FUNDED USING PROJECT FUNDS.—Not later than September 30 for fiscal year 2001, and each September 30 thereafter for each succeeding fiscal year through fiscal year 2006, each resource advisory committee shall submit to the Secretary concerned a description of any projects that the resource advisory committee proposes the Secretary undertake using any project funds reserved by eligible counties in the area in which the resource advisory committee has geographic jurisdiction.

(2) PROJECTS FUNDED USING OTHER FUNDS.—A resource advisory committee may submit to the Secretary concerned a description of any projects that the committee proposes the Secretary undertake using funds from State or local governments, or from the private sector, other than project funds and funds appropriated and otherwise available to do similar work.

(3) JOINT PROJECTS.—Participating counties or other persons may propose to pool project funds or other funds, described in paragraph (2), and jointly propose a project or group of projects to a resource advisory committee established under section 205.

(b) REQUIRED DESCRIPTION OF PROJECTS.—In submitting proposed projects to the Secretary concerned under subsection (a), a resource advisory committee shall include in the description of each proposed project the following information:

(1) The purpose of the project and a description of how the project will meet the purposes of this Act.

(2) The anticipated duration of the project.

(3) The anticipated cost of the project.

(4) The proposed source of funding for the project, whether project funds or other funds.

(5) Expected outcomes, including how the project will meet or exceed desired ecological conditions, maintenance objectives, or stewardship objectives, as well as an estimation of the amount of any timber, forage, and other commodities and other economic activity, including jobs generated, if any, anticipated as part of the project.

(6) A detailed monitoring plan, including funding needs and sources, that tracks and identifies the positive or negative impacts of the project, implementation, and provides for validation monitoring. The monitoring plan shall include an assessment of the following: Whether or not the project met or exceeded desired ecological conditions; created local employment or training opportunities, including summer youth jobs programs such as the Youth Conservation Corps where appropriate; and whether the project improved the use of, or added value to, any products removed from lands consistent with the purposes of this Act.

(7) An assessment that the project is to be in the public interest.

(c) AUTHORIZED PROJECTS.—Projects proposed under subsection (a) shall be consistent with section 2(b).

SEC. 204. EVALUATION AND APPROVAL OF PROJECTS BY SECRETARY CONCERNED.

(a) CONDITIONS FOR APPROVAL OF PROPOSED PROJECT.—The Secretary concerned may make a decision to approve a project submitted by a resource advisory committee under section 203 only if the proposed project satisfies each of the following conditions:

(1) The project complies with all applicable Federal laws and regulations.

(2) The project is consistent with the applicable resource management plan and with any watershed or subsequent plan developed pursuant to the resource management plan and approved by the Secretary concerned.

(3) The project has been approved by the resource advisory committee in accordance with section 205, including the procedures issued under subsection (e) of such section.

(4) A project description has been submitted by the resource advisory committee to the Secretary concerned in accordance with section 203.

(5) The project will improve the maintenance of existing infrastructure, implement stewardship objectives that enhance forest ecosystems, and restore and improve land health and water quality.

(b) ENVIRONMENTAL REVIEWS.—

(1) PAYMENT OF REVIEW COSTS.—

(A) REQUEST FOR PAYMENT BY COUNTY.—The Secretary concerned may request the resource advisory committee submitting a proposed project to agree to the use of project funds to pay for any environmental review, consultation, or compliance with applicable environmental laws required in connection with the project. When such a payment is requested and the resource advisory committee agrees to the expenditure of funds for this purpose, the Secretary concerned shall conduct environmental review, consultation, or other compliance responsibilities in accordance with Federal law and regulations.

(B) EFFECT OF REFUSAL TO PAY.—If a resource advisory committee does not agree to the expenditure of funds under subparagraph (A), the project shall be deemed withdrawn from further consideration by the Secretary concerned pursuant to this title. Such a withdrawal shall be deemed to be a rejection of the project for purposes of section 207(c).

(c) DECISIONS OF SECRETARY CONCERNED.—

(1) REJECTION OF PROJECTS.—A decision by the Secretary concerned to reject a proposed project shall be at the Secretary's sole discretion. Notwithstanding any other provision of law, a decision by the Secretary concerned to reject a proposed project shall not be subject to administrative appeal or judicial review. Within 30 days after making the rejection decision, the Secretary concerned shall notify in writing the resource advisory committee that submitted the proposed project of the rejection and the reasons for rejection.

(2) NOTICE OF PROJECT APPROVAL.—The Secretary concerned shall publish in the Federal Register notice of each project approved under subsection (a) if such notice would be required had the project originated with the Secretary.

(d) SOURCE AND CONDUCT OF PROJECT.—Once the Secretary concerned accepts a project for review under section 203, it shall be deemed a Federal action for all purposes.

(e) IMPLEMENTATION OF APPROVED PROJECTS.—

(1) COOPERATION.—Notwithstanding chapter 63 of title 31, United States Code, using project funds the Secretary concerned may enter into contracts, grants, and cooperative agreements with States and local governments, private and nonprofit entities, and landowners and other persons to assist the Secretary in carrying out an approved project.

(2) BEST VALUE CONTRACTING.—For any project involving a contract authorized by paragraph (1) the Secretary concerned may elect a source for performance of the contract on a best value basis. The Secretary concerned shall determine best value based on such factors as:

(A) The technical demands and complexity of the work to be done.

(B) The ecological objectives of the project and the sensitivity of the resources being treated.

(C) The past experience by the contractor with the type of work being done, using the type of equipment proposed for the project, and meeting or exceeding desired ecological conditions.

(D) The commitment of the contractor to hiring highly qualified workers and local residents.

(3) MERCHANTABLE MATERIAL CONTRACTING PILOT PROGRAM.—

(A) ESTABLISHMENT.—The Secretary concerned shall establish a pilot program to implement a certain percentage of approved projects involving the sale of merchantable material using separate contracts for—

(i) the harvesting or collection of merchantable material; and

(ii) the sale of such material.

(B) ANNUAL PERCENTAGES.—Under the pilot program, the Secretary concerned shall ensure that, on a nationwide basis, not less than the following percentage of all approved projects involving the sale of merchantable material are implemented using separate contracts:

(i) For fiscal year 2001, 15 percent.

(ii) For fiscal year 2002, 25 percent.

(iii) For fiscal year 2003, 25 percent.

(iv) For fiscal year 2004, 50 percent.

(v) For fiscal year 2005, 50 percent.

(vi) For fiscal year 2006, 50 percent.

(C) INCLUSION IN PILOT PROGRAM.—The decision whether to use separate contracts to implement a project involving the sale of merchantable material shall be made by the Secretary concerned after the approval of the project under this title.

(D) ASSISTANCE.—The Secretary concerned may use funds from any appropriated account available to the Secretary for the Federal lands to assist in the administration of projects conducted under the pilot program. The total amount obligated under this subparagraph may not exceed $1,000,000 for any fiscal year during which the pilot program is in effect.

(E) REVIEW AND REPORT.—Not later than September 30, 2003, the Comptroller General shall submit to the Committee on Agriculture, Nutrition, and Forestry of the Senate, the Committee on Energy and Natural Resources of the Senate, the Committee on Agriculture of the House of Representatives, and the Committee on Resources of the House of Representatives a report assessing the pilot program. The Secretary concerned shall submit to such committees an annual report describing the results of the pilot program.

(f) REQUIREMENTS FOR PROJECT FUNDS.—The Secretary shall ensure that at least 50 percent of all project funds be used for projects that are primarily dedicated—

(1) to road maintenance, decommissioning, or obliteration; or

(2) to restoration of streams and watersheds.

SEC. 205. RESOURCE ADVISORY COMMITTEES.

(a) ESTABLISHMENT AND PURPOSE OF RESOURCE ADVISORY COMMITTEES.—

(1) ESTABLISHMENT.—The Secretary concerned shall establish and maintain resource advisory committees to perform the duties in subsection (b), except as provided in paragraph (4).

(2) PURPOSE.—The purpose of a resource advisory committee shall be to improve collaborative relationships and to provide advice and recommendations to the land management agencies consistent with the purposes of this Act.

(3) ACCESS TO RESOURCE ADVISORY COMMITTEES.—To ensure that each unit of Federal land has access to a resource advisory committee, and that there is sufficient interest in participation on a committee to ensure that membership can be balanced in terms of the points of view represented and the functions to be performed, the Secretary concerned may, establish resource advisory committees for part of, or one or more, units of Federal lands.

(4) EXISTING ADVISORY COMMITTEES.—Existing advisory committees meeting the requirements of this section may be deemed by the Secretary concerned, as a resource advisory committee for the purposes of this title. The Secretary of the Interior may deem a resource advisory committee meeting the requirements of subpart 1784 of part 1780 of title 43, Code of Federal Regulations, as a resource advisory committee for the purposes of this title.

(b) DUTIES.—A resource advisory committee shall—

(1) review projects proposed under this title by participating counties and other persons;

(2) propose projects and funding to the Secretary concerned under section 203;

(3) provide early and continuous coordination with appropriate land management agency officials in recommending projects consistent with purposes of this Act under this title; and

(4) provide frequent opportunities for citizens, organizations, tribes, land management agencies, and other interested parties to participate openly and meaningfully, beginning at the early stages of the project development process under this title.

(c) APPOINTMENT BY THE SECRETARY.—

(1) APPOINTMENT AND TERM.—The Secretary concerned, shall appoint the members of resource advisory committees for a term of 3 years beginning on the date of appointment. The Secretary concerned may reappoint members to subsequent 3-year terms.

(2) BASIC REQUIREMENTS.—The Secretary concerned shall ensure that each resource advisory committee established meets the requirements of subsection (d).

(3) INITIAL APPOINTMENT.—The Secretary concerned shall make initial appointments to the resource advisory committees not later than 180 days after the date of the enactment of this Act.

(4) VACANCIES.—The Secretary concerned shall make appointments to fill vacancies on any resource advisory committee as soon as practicable after the vacancy has occurred.

(5) COMPENSATION.—Members of the resource advisory committees shall not receive any compensation.

(d) COMPOSITION OF ADVISORY COMMITTEE.—

(1) NUMBER.—Each resource advisory committee shall be comprised of 15 members.

(2) COMMUNITY INTERESTS REPRESENTED.—Committee members shall be representative of the interests of the following three categories:

(A) 5 persons who—

(i) represent organized labor;

(ii) represent developed outdoor recreation, off highway vehicle users, or commercial recreation activities;

(iii) represent energy and mineral development interests;

(iv) represent the commercial timber industry; or

(v) hold Federal grazing permits, or other land use permits within the area for which the committee is organized.

(B) 5 persons representing—

(i) nationally recognized environmental organizations;

(ii) regionally or locally recognized environmental organizations;

(iii) dispersed recreational activities;

(iv) archaeological and historical interests; or

(v) nationally or regionally recognized wild horse and burro interest groups.

(C) 5 persons who—

(i) hold State elected office or their designee;
(ii) hold county or local elected office;
(iii) represent American Indian tribes within or adjacent to the area for which the committee is organized;
(iv) are school officials or teachers; or
(v) represent the affected public at large.

(3) BALANCED REPRESENTATION.—In appointing committee members from the three categories in paragraph (2), the Secretary concerned shall provide for balanced and broad representation from within each category.

(4) GEOGRAPHIC DISTRIBUTION.—The members of a resource advisory committee shall reside within the State in which the committee has jurisdiction and, to extent practicable, the Secretary concerned shall ensure local representation in each category in paragraph (2).

(5) CHAIRPERSON.—A majority on each resource advisory committee shall select the chairperson of the committee.

(e) APPROVAL PROCEDURES.—(1) Subject to paragraph (2), each resource advisory committee shall establish procedures for proposing projects to the Secretary concerned under this title. A quorum must be present to constitute an official meeting of the committee.

(2) A project may be proposed by a resource advisory committee to the Secretary concerned under section 203(a), if it has been approved by a majority of members of the committee from each of the three categories in subsection (d)(2).

(f) OTHER COMMITTEE AUTHORITIES AND REQUIREMENTS.—

(1) STAFF ASSISTANCE.—A resource advisory committee may submit to the Secretary concerned a request for periodic staff assistance from Federal employees under the jurisdiction of the Secretary.

(2) MEETINGS.—All meetings of a resource advisory committee shall be announced at least one week in advance in a local newspaper of record and shall be open to the public.

(3) RECORDS.—A resource advisory committee shall maintain records of the meetings of the committee and make the records available for public inspection.

SEC. 206. USE OF PROJECT FUNDS.

(a) AGREEMENT REGARDING SCHEDULE AND COST OF PROJECT.—

(1) AGREEMENT BETWEEN PARTIES.—The Secretary concerned may carry out a project submitted by a resource advisory committee under section 203(a) using project funds or other funds described in section 203(a)(2), if, as soon as practicable after the issuance of a decision document for the project and the exhaustion of all administrative appeals and judicial review of the project decision, the Secretary concerned and the resource advisory committee enter into an agreement addressing, at a minimum, the following:

(A) The schedule for completing the project.

(B) The total cost of the project, including the level of agency overhead to be assessed against the project.

(C) For a multiyear project, the estimated cost of the project for each of the fiscal years in which it will be carried out.

(D) The remedies for failure of the Secretary concerned to comply with the terms of the agreement consistent with current Federal law.

(2) LIMITED USE OF FEDERAL FUNDS.—The Secretary concerned may decide, at the Secretary's sole discretion, to cover the costs of a portion of an approved project using Federal funds appropriated or otherwise available to the Secretary for the same purposes as the project.

(b) TRANSFER OF PROJECT FUNDS.—

(1) INITIAL TRANSFER REQUIRED.—As soon as practicable after the agreement is reached under subsection (a) with regard to a project to be funded in whole or in part using project funds, or other funds described in section 203(a)(2), the Secretary concerned shall transfer to the applicable unit of National Forest System lands or BLM District an amount of project funds equal to—

(A) in the case of a project to be completed in a single fiscal year, the total amount specified in the agreement to be paid using project funds, or other funds described in section 203(a)(2); or

(B) in the case of a multiyear project, the amount specified in the agreement to be paid using project funds, or other funds described in section 203(a)(2) for the first fiscal year.

(2) CONDITION ON PROJECT COMMENCEMENT.—The unit of National Forest System lands or BLM District concerned, shall not commence a project until the project funds, or other funds described in section 203(a)(2) required to be transferred under paragraph (1) for the project, have been made available by the Secretary concerned.

(3) SUBSEQUENT TRANSFERS FOR MULTIYEAR PROJECTS.—For the second and subsequent fiscal years of a multiyear project to be funded in whole or in part using project funds, the unit of National Forest System lands or BLM District concerned shall use the amount of project funds required to continue the project in that fiscal year according to the agreement entered into under subsection (a). The Secretary concerned shall suspend work on the project if the project funds required by the agreement in the second and subsequent fiscal years are not available.

SEC. 207. AVAILABILITY OF PROJECT FUNDS.

(a) SUBMISSION OF PROPOSED PROJECTS TO OBLIGATE FUNDS.—By September 30 of each fiscal year through fiscal year 2006, a resource advisory committee shall submit to the Secretary concerned pursuant to section 203(a)(1) a sufficient number of project proposals that, if approved, would result in the obligation of at least the full amount of the project funds reserved by the participating county in the preceding fiscal year.

(b) USE OR TRANSFER OF UNOBLIGATED FUNDS.—Subject to section 208, if a resource advisory committee fails to comply with subsection (a) for a fiscal year, any project funds reserved by the participating county in the preceding fiscal year and remaining unobligated shall be available for use as part of the project submissions in the next fiscal year.

(c) EFFECT OF REJECTION OF PROJECTS.—Subject to section 208, any project funds reserved by a participating county in the preceding fiscal year that are unobligated at the end of a fiscal year because the Secretary concerned has rejected one or more proposed projects shall be available for use as part of the project submissions in the next fiscal year.

(d) EFFECT OF COURT ORDERS.—If an approved project under this Act is enjoined or prohibited by a Federal court, the Secretary concerned shall return the unobligated project funds related to that project to the participating county or counties that reserved the funds. The returned funds shall be available for the county to expend in the same manner as the funds reserved by the county under section 102(d)(1)(B)(i) or 103(c)(1)(B)(i), whichever applies to the funds involved.

SEC. 208. TERMINATION OF AUTHORITY.

The authority to initiate projects under this title shall terminate on September 30, 2006. Any project funds not obligated by September 30, 2007, shall be deposited in the Treasury of the United States.

TITLE III—COUNTY PROJECTS

SEC. 301. DEFINITIONS.

In this title:

(1) PARTICIPATING COUNTY.—The term ''participating county'' means an eligible county that elects under section 102(d)(1)(B)(ii) or 103(c)(1)(B)(ii) to expend a portion of the Federal funds received under section 102 or 103 in accordance with this title.

(2) COUNTY FUNDS.—The term ''county funds'' means all funds an eligible county elects under sections 102(d)(1)(B)(ii) and 103(c)(1)(B)(ii) to reserve for expenditure in accordance with this title.

SEC. 302. USE OF COUNTY FUNDS.

(a) LIMITATION ON COUNTY FUND USE.—County funds shall be expended solely on projects that meet the requirements of this title. A project under this title shall be approved by the participating county only following a 45-day public comment period, at the beginning of which the county shall—

(1) publish a description of the proposed project in the publications of local record; and

(2) send the proposed project to the appropriate resource advisory committee established under section 205, if one exists for the county.

(b) AUTHORIZED USES.—

(1) SEARCH, RESCUE, AND EMERGENCY SERVICES.—An eligible county or applicable sheriff's department may use these funds as reimbursement for search and rescue and other emergency services, including fire fighting, performed on Federal lands and paid for by the county.

(2) COMMUNITY SERVICE WORK CAMPS.—An eligible county may use these funds as reimbursement for all or part of the costs incurred by the county to pay the salaries and benefits of county employees who supervise adults or juveniles performing mandatory community service on Federal lands.

(3) EASEMENT PURCHASES.—An eligible county may use these funds to acquire—

(A) easements, on a willing seller basis, to provide for nonmotorized access to public lands for hunting, fishing, and other recreational purposes;

(B) conservation easements; or

(C) both.

(4) FOREST RELATED EDUCATIONAL OPPORTUNITIES.—A county may use these funds to establish and conduct forest-related after school programs.

(5) FIRE PREVENTION AND COUNTY PLANNING.—A county may use these funds for—

(A) efforts to educate homeowners in fire-sensitive ecosystems about the consequences of wildfires and techniques in home siting, home construction, and home landscaping that can increase the protection of people and property from wildfires; and

(B) planning efforts to reduce or mitigate the impact of development on adjacent Federal lands and to increase the protection of people and property from wildfires.

(6) COMMUNITY FORESTRY.—A county may use these funds towards non-Federal cost-share requirements of section 9 of the Cooperative Forestry Assistance Act of 1978 (16 U.S.C. 2105).

SEC. 303. TERMINATION OF AUTHORITY.

The authority to initiate projects under this title shall terminate on September 30, 2006. Any county funds not obligated by September 30, 2007 shall be available to be expended by the county for the uses identified in section 302(b).

TITLE IV—MISCELLANEOUS PROVISIONS

SEC. 401. AUTHORIZATION OF APPROPRIATIONS.

There are hereby authorized to be appropriated such sums as may be necessary to carry out this Act for fiscal years 2001 through 2006.

SEC. 402. TREATMENT OF FUNDS AND REVENUES.

(a) RELATION TO OTHER APPROPRIATIONS.—Funds appropriated pursuant to the authorization of appropriations in section 401 and funds made available to a Secretary concerned under section 206 shall be in addition to any other annual appropriations for the Forest Service and the Bureau of Land Management.

(b) DEPOSIT OF REVENUES AND OTHER FUNDS.—All revenues generated from projects

pursuant to title II, any funds remitted by counties pursuant to section 102(d)(1)(B)(iii) or section 103(c)(1)(B)(iii), and any interest accrued from such funds shall be deposited in the Treasury of the United States.

SEC. 403. REGULATIONS.

The Secretaries concerned may jointly issue regulations to carry out the purposes of this Act.

SEC. 404. CONFORMING AMENDMENTS.

Sections 13982 and 13983 of the Omnibus Budget Reconciliation Act of 1993 (Public Law 103–66; 16 U.S.C. 500 note; 43 U.S.C. 1181f note) are repealed.

TITLE V—MINERAL REVENUE PAYMENTS CLARIFICATION

SEC. 501. SHORT TITLE.

This title may be cited as the ''Mineral Revenue Payments Clarification Act of 2000''.

SEC. 502. FINDINGS.

The Congress finds the following:

(1) Section 10201 of the Omnibus Budget Reconciliation Act of 1993 (Public Law 103–66; 107 Stat. 407) amended section 35 of the Mineral Leasing Act (30 U.S.C. 191) to change the sharing of onshore mineral revenues and revenues from geothermal steam from a 50:50 split between the Federal Government and the States to a complicated formula that entailed deducting from the State share of leasing revenues ''50 percent of the portion of the enacted appropriations of the Department of the Interior and any other agency during the preceding fiscal year allocable to the administration of all laws providing for the leasing of any onshore lands or interest in land owned by the United States for the production of the same types of minerals leasable under this Act or of geothermal steam, and to enforcement of such laws . . .''.

(2) There is no legislative record to suggest a sound public policy rationale for deducting prior-year administrative expenses from the sharing of current-year receipts, indicating that this change was made primarily for budget scoring reasons.

(3) The system put in place by this change in law has proved difficult to administer and has given rise to disputes between the Federal Government and the States as to the nature of allocable expenses. Federal accounting systems have proven to be poorly suited to breaking down administrative costs in the manner required by the law. Different Federal agencies implementing this law have used varying methodologies to identify allocable costs, resulting in an inequitable distribution of costs during fiscal years 1994 through 1996. In November 1997, the Inspector General of the Department of the Interior found that ''the congressionally approved method for cost sharing deductions effective in fiscal year 1997 may not accurately compute the deductions''.

(4) Given the lack of a substantive rationale for the 1993 change in law and the complexity and administrative burden involved, a return to the sharing formula prior to the enactment of the Omnibus Budget Reconciliation Act of 1993 is justified.

SEC. 503. AMENDMENT OF THE MINERAL LEASING ACT.

Section 35(b) of the Mineral Leasing Act (30 U.S.C. 191(b)) is amended to read as follows:

''(b) In determining the amount of payments to the States under this section, the amount of such payments shall not be reduced by any administrative or other costs incurred by the United States.''.

TITLE VI—COMMUNITY FOREST RESTORATION

SEC. 601. SHORT TITLE.

This title may be cited as the ''Community Forest Restoration Act''.

SEC. 602. FINDINGS.

The Congress finds the following:

(1) A century of fire suppression, logging, and livestock grazing has altered the ecological balance of New Mexico's forests.

(2) Some forest lands in New Mexico contain an unnaturally high number of small diameter trees that are subject to large, high intensity wildfires that can endanger human lives, livelihoods, and ecological stability.

(3) Forest lands that contain an unnaturally high number of small diameter trees have reduced biodiversity and provide fewer benefits to human communities, wildlife, and watersheds.

(4) Healthy and productive watersheds minimize the threat of large, high intensity wildfires, provide abundant and diverse wildlife habitat, and produce a variety of timber and non-timber products including better quality water and increased water flows.

(5) Restoration efforts are more successful when there is involvement from neighboring communities and better stewardship will evolve from more diverse involvement.

(6) Designing demonstration restoration projects through a collaborative approach may—

(A) lead to the development of cost effective restoration activities;

(B) empower diverse organizations to implement activities which value local and traditional knowledge;

(C) build ownership and civic pride; and

(D) ensure healthy, diverse, and productive forests and watersheds.

SEC. 603. PURPOSES.

The purposes of this title are—

(1) to promote healthy watersheds and reduce the threat of large, high intensity wildfires, insect infestation, and disease in the forests in New Mexico;

(2) to improve the functioning of forest ecosystems and enhance plant and wildlife biodiversity by reducing the unnaturally high number and density of small diameter trees on Federal, Tribal, State, County, and Municipal forest lands;

(3) to improve communication and joint problem solving among individuals and groups who are interested in restoring the diversity and productivity of forested watersheds in New Mexico;

(4) to improve the use of, or add value to, small diameter trees;

(5) to encourage sustainable communities and sustainable forests through collaborative partnerships, whose objectives are forest restoration; and

(6) to develop, demonstrate, and evaluate ecologically sound forest restoration techniques.

SEC. 604. DEFINITIONS.

As used in this title—

(1) the term ''Secretary'' means the Secretary of Agriculture acting through the Chief of the Forest Service; and

(2) the term ''stakeholder'' includes: tribal governments, educational institutions, landowners, and other interested public and private entities.

SEC. 605. ESTABLISHMENT OF PROGRAM.

(a) FOREST RESTORATION PROGRAM.—The Secretary shall establish a cooperative forest restoration program in New Mexico in order to provide cost-share grants to stakeholders for experimental forest restoration projects that are designed through a collaborative process (hereinafter referred to as the ''Collaborative Forest Restoration Program''). The projects may be entirely on, or on any combination of, Federal, Tribal, State, County, or Municipal forest lands. The Federal share of an individual project cost shall not exceed 80 percent of the total cost. The 20-percent matching may be in the form of cash or in-kind contribution.

(b) ELIGIBILITY REQUIREMENTS.—To be eligible to receive funding under this title, a project shall—

(1) address the following objectives—

(A) reduce the threat of large, high intensity wildfires and the negative effects of excessive competition between trees by restoring ecosystem functions, structures, and species composition, including the reduction of non-native species populations;

(B) re-establish fire regimes approximating those that shaped forest ecosystems prior to fire suppression;

(C) preserve old and large trees;

(D) replant trees in deforested areas if they exist in the proposed project area; and

(E) improve the use of, or add value to, small diameter trees;

(2) comply with all Federal and State environmental laws;

(3) include a diverse and balanced group of stakeholders as well as appropriate Federal, Tribal, State, County, and Municipal government representatives in the design, implementation, and monitoring of the project;

(4) incorporate current scientific forest restoration information; and

(5) include a multiparty assessment to—

(A) identify both the existing ecological condition of the proposed project area and the desired future condition; and

(B) report, upon project completion, on the positive or negative impact and effectiveness of the project including improvements in local management skills and on the ground results;

(6) create local employment or training opportunities within the context of accomplishing restoration objectives, that are consistent with the purposes of this title, including summer youth jobs programs such as the Youth Conservation Corps where appropriate;

(7) not exceed 4 years in length;

(8) not exceed a total annual cost of $150,000, with the Federal portion not exceeding $120,000 annually, nor exceed a total cost of $450,000 for the project, with the Federal portion of the total cost not exceeding $360,000;

(9) leverage Federal funding through in-kind or matching contributions; and

(10) include an agreement by each stakeholder to attend an annual workshop with other stakeholders for the purpose of discussing the cooperative forest restoration program and projects implemented under this title. The Secretary shall coordinate and fund the annual workshop. Stakeholders may use funding for projects authorized under this title to pay for their travel and per diem expenses to attend the workshop.

SEC. 606. SELECTION PROCESS.

(a) After consulting with the technical advisory panel established in subsection (b), the Secretary shall select the proposals that will receive funding through the Collaborative Forest Restoration Program.

(b) The Secretary shall convene a technical advisory panel to evaluate the proposals for forest restoration grants and provide recommendations regarding which proposals would best meet the objectives of the Collaborative Forest Restoration Program. The technical advisory panel shall consider eligibility criteria established in section 605, the effect on long-term management, and seek to use a consensus-based decisionmaking process to develop such recommendations. The panel shall be composed of 12 to 15 members, to be appointed by the Secretary as follows:

(1) A State Natural Resource official from the State of New Mexico.

(2) At least two representatives from Federal land management agencies.

(3) At least one tribal or pueblo representative.

(4) At least two independent scientists with experience in forest ecosystem restoration.

(5) Equal representation from—

(A) conservation interests;

(B) local communities; and

(C) commodity interests.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Virginia (Mr. GOODLATTE) and the gentleman from Texas (Mr. STENHOLM) each will control 20 minutes.

The Chair recognizes the gentleman from Virginia (Mr. GOODLATTE).

GENERAL LEAVE

Mr. GOODLATTE. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks on H.R. 2389, the bill now under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Virginia?

There was no objection.

Mr. GOODLATTE. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in strong support of H.R. 2389, the Secure Rural Schools and Community Self-Determination Act of 2000. I want to particularly commend the gentleman from Florida (Mr. BOYD), the gentleman from Georgia (Mr. DEAL), the gentleman from Oregon (Mr. DEFAZIO), and the chairman of our committee, the gentleman from Texas (Mr. COMBEST), as well as the ranking member, the gentleman from Texas (Mr. STENHOLM), for their dedicated efforts on this legislation.

I would also like to particularly single out members of the staff of my subcommittee, Dave Tenny, of the full committee, and Brent Gattis of my subcommittee, and Kevin Kramp, formerly of my subcommittee, as well the staff on the Democratic side for very, very long, dedicated work to get this legislation to this point.

This bill is landmark policy on two important fronts. First, it provides critical funding for schoolchildren in hundreds of rural communities all over America who have been left behind by the policies of their own government. Second, it creates a new paradigm for local citizen participation in the management of our Federal forest lands.

In 1908, our government made a promise to the people who live in and around our Federal forests. The government promised to share the economic bounty of these lands with the local people to sustain their schools, their communities, and their way of life. This was a contract to compensate these communities for the economic opportunities lost because the Federal Government owned most of the land.

Now, 90 years later, the government has defaulted on this promise and rural communities all over America are suffering. Federal policies have eliminated the economic bounty from our Federal forest lands. As a result, schools have cut their services to the bone and, in some cases, closed their doors all together for lack of funding.

Families have been torn apart as parents are forced to work farther and farther from home. Local infrastructure has disintegrated; and, sadly, the primary victims of this tragedy have been schoolchildren, children who have been left behind by their government while the rest of America prospers.

The purpose of H.R. 2389 is to correct this wrong. By shoring up Federal payments to rural forest communities, this legislation restores our government's commitment to education in rural forest communities. Significantly, and this is a very important point in this time of intense debate on education in our country, the commitments made to education in this bill come without strings attached.

That means when a county in Oregon or Arkansas or Pennsylvania or Florida receives Federal support for education under this bill, the local community, not the Federal Government, will determine how that funding is best used. If local schools need books, they can buy books. If they need additional teachers, they can hire them. If they need to fix the roof on a school, they can do it. This philosophy of Federal support coupled with local decisionmaking should be a model for the Congress as we work to improve education in our country.

H.R. 2389 also changes the way we approach Federal forest management. For the first time, local communities will have a direct stake in the management of our national forests. This has been one of the worst wildfire seasons of the century, and the experts tell us that the worst may be yet to come. This bill provides critical funding that counties can leverage with private investments and Federal appropriations to address fire risk head on.

Counties can also use this funding to restore watersheds, improve fish and wildlife habitat, and enhance the overall health of our forests. It establishes a framework for local collaboration that, if successful, will replace the current centralized command and control policy with a new and effective way to resolve forest management issues at the local level using local expertise.

I urge the Members of this body to join me in taking this important step today by sending H.R. 2389 to the President's desk. We can renew the promise made to our rural forest communities back in 1908. We can raise the hopes of rural school children all over America and begin the process in earnest of helping them rebuild their homes and communities. Join me in declaring a strong commitment to rural schools and rural communities. Vote in favor of this legislation.

Mr. Speaker, I reserve the balance of my time.

Mr. STENHOLM. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in support of H.R. 2389, the Secure Rural Schools and Communities Self-Determination Act of 2000. H.R. 2389, when signed by the President, will set in motion significant improvements in the manner that the Federal Government fulfills its financial commitment to rural counties located within the boundaries of our national forest system.

The fulfillment of this commitment is even more critical today where the county payments have declined considerably as a result of major forest resource management policy changes. After 2 years of hard work, we have before us compromise legislation that maintains the core components of the Federal Government's payments system for forest counties.

Mr. Speaker, the manner in which this Congress continues these payments is critical to the future well-being of national forest health and the economic stability of rural communities. This compromise legislation is a step in the right direction. I urge all of my colleagues to support final passage.

Mr. Speaker, I reserve the balance of my time.

Mr. GOODLATTE. Mr. Speaker, I yield 1 minute to the gentleman from Oregon (Mr. WALDEN), who has also been a significant contributor to this effort.

Mr. WALDEN of Oregon. Mr. Speaker, I thank the gentleman for yielding me this time, and I want to commend the gentleman from Virginia and the gentleman from Texas, as well as my colleagues from Oregon, in putting together this very important legislation that will help our school children and our counties who have been hurt tremendously by changes in Federal policy.

Since 1908, rural counties adjacent to Forest Service and BLM forest lands have received Federal funds for schools and roads based on the revenue received from land management activities. Over the last decade, as a result of sharp declines in revenues from these Federal forest lands, many of these counties have been unable to fund essential programs for their kids and to take care of their road maintenance and infrastructure.

Mr. Speaker, this legislation goes a long way toward resolving that problem and toward making the Federal Government a better neighbor and certainly a better partner in the health of our communities in rural America. I urge passage of this legislation.

Mr. STENHOLM. Mr. Speaker, I yield such time as she may consume to the gentlewoman from North Carolina (Mrs. CLAYTON.)

Mrs. CLAYTON. Mr. Speaker, I thank the gentleman from Texas for yielding me this time and for his leadership, as well as the gentleman from Virginia (Mr. GOODLATTE) for his leadership.

Mr. Speaker, this is an opportunity to speak on a subject which is dear to my heart, H.R. 2389, the Secure Rural Schools and Community Self-Determination Act of 2000. We have spoken

extensively about our priorities to make schools safer, with smaller class sizes, skilled teachers, the latest technology, excellent school facilities with the proper books, lunch programs, and extracurricular activities. Yet we have witnessed many schools lacking the funds needed to improve our schools.

I not only live in rural America, but I represent a district which is predominantly rural. I am aware of the great challenges counties face in providing adequate funding for their schools. We know that in addition to love and care from family members, schools are the foundation for developing successful young people and strong vibrant economies.

For decades now, counties received a 25 percent revenue from forest receipts. These funds were used to help make their schools successful. Unfortunately, these receipts have gradually dwindled. Federal forest receipts in some counties have dropped more than 90 percent. This decline has severely impacted the quality of education provided in the affected rural counties. Many schools have been forced to do just the opposite of what we were hoping to achieve: many teachers have been laid off, and bus drivers, nurses and other employees have also faced a similar fate.

We need to support H.R. 2389. A ''yes'' vote on H.R. 2389 will assist these communities in providing an equitable and stable source of funding in rural settings. By supporting this measure, we can be assured we are doing all we can to assist communities by providing an equitable and stable source of funding for schools in and near our forest areas.

Mr. STENHOLM. Mr. Speaker, I yield such time as he may consume to the gentleman from Oregon (Mr. DEFAZIO).

Mr. DEFAZIO. Mr. Speaker, I rise in strong support of this long-awaited vital legislation for our counties and schools.

I congratulate and thank all those who have been involved in this landmark legislation. I urge my colleagues to support this and send it to the President for his signature.

Mr. STENHOLM. Mr. Speaker, I yield such time as he may consume to the gentleman from Florida (Mr. BOYD).

Mr. BOYD. Mr. Speaker, I thank the gentleman from Texas (Mr. STENHOLM), and also my partner, the gentleman from Virginia, the chairman of the subcommittee, for his skill in which he has managed this legislation.

Mr. Speaker, make no mistake that this is an education bill, a rural education bill that is very important to many, many communities around the country, including some communities in north Florida.

As we have heard described here today, a compact was made in 1908 with these communities when the forest lands were put into the ownership of the Federal Government, and that compact has been broken. This legislation will fix that compact again and make it work like it is supposed to.

I know in my particular area, the way that compact was broken was the fact that the Forest Service began to manage their timberlands in a different way because of the protection of the habitat for the endangered red cockaded woodpecker. The revenues to our local school districts in those forest communities declined by as much as 90 percent. So this, again, will go a long ways toward correcting that.

I want to give a word of thanks to our partners who have helped us here. Again, the gentleman from Virginia (Mr. GOODLATTE), the gentleman from Georgia (Mr. DEAL), who was an original cosponsor of this legislation with myself, also the gentleman from Oregon (Mr. DEFAZIO), the gentleman from Texas (Mr. TURNER), the gentleman from California (Mr. GEORGE MILLER), the gentlewoman from North Carolina (Mrs. CLAYTON), and the gentleman from Texas (Mr. STENHOLM).

Also, Mr. Speaker, I want to take this opportunity to thank the staff members who have done a wonderful job of negotiating some very difficult and complex negotiations with the Senate and the administration in the last 10 days. That is Dave Tenny, Brent Gattis, and Quinton Robinson, from the House Committee on Agriculture; Doug Crandall from the House Committee on Resources; Penny Dodge and Amelia Jenkins with the office of the gentleman from Oregon (Mr. DEFAZIO); Trent Ashby with the office of the gentleman from Texas (Mr. TURNER); Tom Pyle with the majority whip's office; and Chris Schloesser from my own staff.

□ 2230

I also want to thank the chairman of the National Forest Counties and Schools Coalition, Mr. Bob Douglas, whose group certainly provided impetus for us to get to this point today. And I also want to thank my own superintendent of schools in Liberty County, Florida, who has been a leader for me in this, Mr. Hal Summers.

Mr. STENHOLM. Mr. Speaker, I yield such time as he may consume to the gentleman from Texas (Mr. TURNER).

Mr. TURNER. Mr. Speaker, it is an honor to rise in support of this legislation this evening. I join in the remarks of those who preceded me. I thank each Member on the floor who has worked so hard to bring this bill to fruition.

I particularly want to thank the National Forest Counties and Schools Coalition, that coalition of over 1,000 rural education, government, and business leaders, who worked hard to put this legislation together. That coalition included groups like the National Education Association, the U.S. Chamber of Commerce, the American Association of School Administrators, and the National Association of Counties.

Many representatives and community leaders from across the country have come to Washington to work on this bill over the last several months. Two of them are good examples from my district, my own county judge, Chris Vanderhof, and Trinity County Judge Mark Evans, who served on the National Coalition.

This is a good bill. It returns stability to the funds that flow to over 700 counties across this country that have national forest lands within their boundaries. It means a lot to the school districts in those counties. This will return some stability to their flow of funds, and it will provide a good source of funding for education for many rural school children across this country. I urge adoption of this legislation.

Mr. STENHOLM. Mr. Speaker, I yield such time as she may consume to the gentlewoman from Oregon (Ms. HOOLEY).

Ms. HOOLEY of Oregon. Mr. Speaker, I too would like to thank my colleagues for all of their hard work on this piece of legislation. I rise in strong support of H.R. 2389.

The children in my district in Oregon and the children in over 800 counties across the rest of the United States are being shortchanged. People in Oregon and across the United States that live in rural areas with vast amounts of Federal land depend on payments from the Federal Government.

Unfortunately, these payments have decreased in recent years; and, as a consequence, education programs and county services have been subjected to massive budget cuts.

Over the last 10 years, I have seen class sizes grow while teachers, buses, music and art programs and many other services are reduced or eliminated. These cuts need to be restored.

The children in these counties deserve the same quality schools and educational opportunities as the rest of America.

In this election year, we have heard a lot about education and how it is a priority for everybody. Well, this is a chance for people in this House to show their commitment to education by voting yes on H.R. 2389.

I hope they will join me in voting yes on education and voting yes on H.R. 2389.

Mr. STENHOLM. Mr. Speaker, I have no further requests for time and encourage support of H.R. 2389.

Mr. Speaker, I yield back the balance of my time .

Mr. GOODLATTE. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I neglected to mention and thank the gentlewoman from North Carolina (Mrs. CLAYTON) for her contribution. We thank her very much. I, too, urge my colleagues to support this legislation.

Mr. COMBEST. Mr. Speaker, I rise today in support of H.R. 2389, the Secure Rural Schools and Community Self-determination Act of 1999. As I do so, I urge my colleagues to join me as a statement of our united commitment to education and economic stability in rural forest communities all over America.

Our rural forest communities are at a crossroads. Nearly a hundred year ago, the federal government made a commitment to share the revenues derived from federal lands to fund local schools and roads. The purpose of this commitment was to compensate these communities for the loss of local property taxes. Yet, during the last several years, the federal government has unilaterally defaulted on this commitment. The federal timber sale program has collapsed and federal policies now virtually prohibit the use of our national forests to sustain the communities and schools that are located in and around them. As a result rural forest communities and school districts all over America are in tatters—the victims of their own government.

The purpose of H.R. 2389 is to right this wrong. By providing stable and predictable funding for rural education, it will ensure that school children in forest-dependent communities are no longer punished by the policies of their own government. Passage of this bill will directly benefit 4 million schoolchildren in 700 counties nationwide, thereby opening the same doors of opportunity for them that children in other parts of the country enjoy.

H.R. 2389 also provides a framework for rural forest counties to rebuild their communities and their way of life by giving them a direct stake in the management of our federal forests. By giving local stakeholders both the opportunity and the funding resources to address local forest management issues, local experts can work together on solutions that are not only good for the forest, but also the local economies that sustain them.

H.R. 2389 is supported by a broad range of interests from all over the country. The bill has earned the endorsement of the National Association of Counties, the National Education Association, the U.S. Chamber of Commerce, the American Federation of State, County and Municipal Employees, and a grass roots coalition of over 1,000 local education, business and government organizations in 36 states.

I urge my colleagues to take a stand in support of our rural school children and the forest communities in which they live, Join me in voting aye on H.R. 2389.

Mr. GOODLATTE. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore (Mr. RYAN of Wisconsin). The question is on the motion offered by the gentleman from Virginia (Mr. GOODLATTE) that the House suspend the rules and concur in the Senate amendment to the bill, H.R. 2389.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the Senate amendment was concurred in.

A motion to reconsider was laid on the table.

ALASKA NATIVE CLAIMS SETTLEMENT ACT TECHNICAL AMENDMENTS

Mr. HANSEN. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 4345) to amend the Alaska Native Claims Settlement Act to clarify the process of allotments to Alaskan Natives who are veterans, and for other purposes, as amended.

The Clerk read as follows:

H.R. 4345

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

TITLE I—TECHNICAL AMENDMENTS TO ALASKA NATIVE CLAIMS SETTLEMENT ACT

SEC. 101. ALASKA NATIVE VETERANS.

Section 41 of the Alaska Native Claims Settlement Act (43 U.S.C. 1629g) is amended as follows:

(1) Subsection (a)(3)(I)(4) is amended by striking ''and Reindeer'' and inserting ''or''.

(2) Subsection (a)(4)(B) is amended by striking ''; and'' and inserting ''; or''.

(3) Subsection (b)(1)(B)(i) is amended by striking ''June 2, 1971'' and inserting ''December 31, 1971''.

(4) Subsection (b)(2) is amended by striking the matter preceding subparagraph (A) and inserting the following:

''(2) The personal representative or special administrator, appointed in an Alaska State court proceeding of the estate of a decedent who was eligible under subsection (b)(1)(A) may, for the benefit of the heirs, select an allotment if the decedent was a veteran who served in South East Asia at any time during the period beginning August 5, 1964, and ending December 31, 1971, and during that period the decedent—''.

SEC. 102. LEVIES ON SETTLEMENT TRUST INTERESTS.

Section 39(c) of the Alaska Native Claims Settlement Act (43 U.S.C. 1629e(c)) is amended by adding at the end the following new paragraph:

''(8) A beneficiary's interest in a settlement trust and the distributions thereon shall be subject to creditor action (including without limitation, levy attachment, pledge, lien, judgment execution, assignment, and the insolvency and bankruptcy laws) only to the extent that Settlement Common Stock and the distributions thereon are subject to such creditor action under section 7(h) of this Act.''.

TITLE II—NATIONAL LEADERSHIP SYMPOSIUM FOR AMERICAN INDIAN, ALASKAN NATIVE, AND NATIVE HAWAIIAN YOUTH

SEC. 201. ADMINISTRATION OF NATIONAL LEADERSHIP SYMPOSIUM FOR AMERICAN INDIAN, ALASKAN NATIVE, AND NATIVE HAWAIIAN YOUTH.

(a) IN GENERAL.—There are authorized to be appropriated to the Secretary of Education for the Washington Workshops Foundation $2,200,000 for administration of a national leadership symposium for American Indian, Alaskan Native, and Native Hawaiian youth on the traditions and values of American democracy.

(b) CONTENT OF SYMPOSIUM.—The symposium administered under subsection (a) shall—

(1) be comprised of youth seminar programs which study the workings and practices of American national government in Washington, DC, to be held in conjunction with the opening of the Smithsonian National Museum of the American Indian; and

(2) envision the participation and enhancement of American Indian, Alaskan Native, and Native Hawaiian youth in the American political process by interfacing in the first-hand operations of the United States Government.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Utah (Mr. HANSEN) and the gentleman from American Samoa (Mr. FALEOMAVAEGA) each will control 20 minutes.

The Chair recognizes the gentleman from Utah (Mr. HANSEN).

Mr. HANSEN. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, H.R. 4345 amends the Alaska Native Claims Settlement Act to clarify the process of allotments to Alaskan Natives who are veterans and makes a number of technical changes to the Alaskan Native Claims Settlement Act.

Title I of the bill outlines the qualifying dates and requirements of the Alaskan Native Vietnam veterans and their executors to apply for their native allotments under the Native Allotment Act.

Title II of the bill would allow American Indian or Alaska Native and Native Hawaii students to participate in a week-long national symposium on American democracy when the Smithsonian National Museum of the American Indians opens in 2002.

I urge an aye vote on this important bill for Alaska.

Mr. HANSEN. Mr. Speaker, I submit the following letter for the RECORD:

U.S. DEPARTMENT OF THE INTERIOR,
OFFICE OF THE SECRETARY,
Washington, DC, October 10, 2000.

Re: H.R. 4345 and amendments to P.L. 105–276.

Hon. DON YOUNG,
Chairman, Committee on Resources, House of Representatives, Washington, DC.

DEAR MR. CHAIRMAN: On June 14, I testified before your Committee concerning H.R. 4345, the Alaska Native Claims Technical Amendments Act of 2000. During the hearing, I promised to work with Alaska Native groups in an effort to address their concerns raised at the hearing, particularly over section 3 of the bill regarding Alaska Native veteran allotments.

As you know, the Department reviewed H.R. 4345 as introduced and expressed its strong disagreement with most of that bill. We indicated in our official statement submitted to you at the hearing that if Sections 2, 3, 4, and 5 of that bill were passed, we would recommend a veto to the President. Section 6 was not unacceptable to us. As we discussed at the hearing, and in the spirit of cooperation with your Committee, I asked Marilyn Heiman, Special Assistant to the Secretary for Alaska, to take the lead in meeting with Alaska Native interests and discussing their concerns. Those meetings have taken place. Following those meetings, and further contact among the Committee, the Native groups, and the Department, the Committee has proposed to us informally for review a revised version of H.R. 4345. The provisions to which we objected have been removed and a set of technical changes to P.L. 105–276 have been added, including one

change which directly reflects Native interest in expanding eligibility for allotment applications for heirs of deceased veterans.

The revised draft of H.R. 4345 contains two titles: Title I pertains to Alaska Native Veteran allotments, as well as levies on settlement trust interests (formerly section 6 of the original bill), and Title II contains wholly new provisions authorizing $2,200,000 to the Washington Workshops Foundation for administration of a national leadership symposium for Native American and Eskimo youth.

The Department does not object to the revised bill.

TITLE I

We had mentioned earlier in testimony that there are technical corrections which should be made to the language of the Vietnam Veteran Allotment legislation passed in 1998 in section 432 of P.L. 105–276, in order to correct three technical gaps and problems with that section. The new bill makes those corrections in section 101.

1. It amends Section 41(a)(3)(1)(4) concerning lands selected or claimed and unavailable for conveyance, to delete the words ''and Reindeer'' and insert the word ''or''. This language clarifies the intent of the provision to make unavailable for selection headquarters sites for various activities including reindeer herding. There are a number of different activities that can support a headquarters site unrelated to reindeer herding which would be unavailable for conveyance. The original wording was in error and could result in a taking which must be avoided.

2. It amends section 41(a)(4)(B), concerning categories of land available for selection, to delete after the semicolon the word ''and'' and insert the word ''or''. The current wording will cause difficulty in implementation. Three categories of land are listed, but the use of the word ''and'' requires that an individual apply for land that meets the criteria of all three categories. That is impossible because land cannot be simultaneously reserved and unreserved.

3. It amends section (41)(b)(1)(B)(i), pertaining to ''Eligible Person,'' to change the date ''June 2, 1971'' to ''December 31, 1971.'' The current wording causes veterans who began their service after December 3, 1970 and before June 2, 1971 to be ineligible, even though they may have served more than six months between 1969 and 1971.

4. Section 101 of the bill also amends section 41(b)(2), concerning eligible heirs of decedents, with two changes to obtain greater facility in administration and to broaden the eligibility of veterans' heirs who would benefit.

First, the bill contains critical language to make clear that the personal representative of an estate will be appointed by a judge of probates in a State Court of Alaska. The State Court judges advise us that they can perform this function quickly and at relatively low cost. This Department does not have the personnel or the procedures to resolve problems amongst heirs concerning who will be the personal representative and which tracts of land will be chosen for the allotment application. By letting the State probate courts resolve the choice of personal representative, a task which is performed every day, we can expedite the processing of the allotment application by heirs without BLM being flooded with separate applications by each heir claiming a different location.

Second, for the group of veterans who died as a direct result of the war, (killed in action, wounded in action and subsequently died as a result of those wounds, or died while a prisoner of war) the bill broadens the time for eligibility of heirs of such deceased veterans to include those who died from August 5, 1964 to December 31, 1971. All of these veterans could be considered to have missed their opportunity to file an allotment application by virtue of their military service. We believe it is important to keep eligibility limited to deaths caused by war, because otherwise there is no basis for distinction between Native veterans who lost their opportunity due to service and other Natives who served or who are not veterans.

The Department can accept these changes. However, this is the full extent of changes to P.L. 105–276 that we can accept. We are opposed to further changes or expansion of the law, which we believe fully and fairly addresses the problem of lost opportunity due to military service for Alaska Native veterans of the Vietnam war to apply for allotments. We have just issued regulations to implement the original law. Unfair, unacceptable restrictions regulations are not the same as original Native allottees of Native applicants to 1971. Need hearing on their unfair regulations for Vietnam Veterans. The above changes can be reasonably accommodated, and the program should now move forward unimpeded by further revisions to the program and the regulations.

The former section 6 of the bill becomes section 102. This section, unrelated to the other provisions of the bill, amends section 39(c) of ANCSA (43 U.S.C. 1629e(c)) to add a new paragraph on Levies on Settlement Trust Interests, placing limits on such actions against interests of shareholders. While we do not object to this section, we raised with the proponents of the section a clerical error in its original draft and the need for a further expansion of the language for protected interests in settlement trusts. The new paragraph corrects the erroneous cross reference contained in the current language of the section and adds the words ''levy, attachment,'' to make clearer the types of creditor actions being limited.

TITLE II

Title II provides for a National Leadership Symposium for American Indian, Alaska Native, and Native Hawaiian youth to be comprised of youth seminar programs which study the workings and practice of American national government in Washington, D.C. We encourage the development of such a program. However, the bill as written is not clear as to the source of funds, the Federal agency designated to receive the funds, the basis for the amount for the project or the choice of organizations to lead it. Nor is it clear who, if anyone, on behalf of the Federal government would provide any financial oversight or program guidance for the program. We recommend that these issues be clarified.

The Office of Management and Budget advises that there is no objection to the presentation of this report from the standpoint of the Administration's program.

Sincerely,

JOHN BERRY,
Assistant Secretary.

Mr. Speaker, I reserve the balance of my time.

Mr. FALEOMAVAEGA. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in strong support of H.R. 4345, this proposed piece of legislation sponsored by the gentleman from Alaska (Mr. YOUNG), my good friend and the chairman of the House Committee on Resources.

As introduced, H.R. 4345 contains a number of controversial provisions which were objectionable to the administration originally. However, I am pleased to say that the bill before us now has been significantly amended and is no longer opposed by the Department of the Interior.

Mr. Speaker, the most notable provision of this bill concerns the Native Alaskan veterans who served in the Vietnam conflict. This legislation is intended to benefit the families of Native Alaskans who served in Southeast Asia between 1964 and 1971 and who died as a direct result of their military service.

Under this bill, the descendants of these Native Alaskan veterans would be allowed a new opportunity to file under the Allotment Act of 1906 for up to 160 acres of parcels of land which the family traditionally used and occupied.

The Allotment Act of 1906 was repealed by the Alaska Native Claims Act in 1917, which was intended to resolve the Native land claims against the United States. That historic act conveyed over 40 million acres of land and approximately $1 billion dollars in compensation to be managed by over 200 Native Alaskan corporations, representing the villages and regions of the State of Alaska.

It is fair to say, Mr. Speaker, that the minority on the Committee on Resources on this side has not always shared the enthusiasm of our chairman for reopening the land claims and making significant amendments to the 1971 Alaska Native Claims Settlement Act. We tend to give greater emphasis to the word ''settlement'' in that act.

However, Mr. Speaker, in this instance, the allotment act language reflects a compromise struck after negotiations between the Department of the Interior and the Alaskan Federation of Natives.

A rider on the fiscal year 1999 VA-HUD appropriations bill reopened applications for Native veterans who served in the 3-year period prior to the repeal of the allotment act in 1971. Since the Department of the Interior has already opened that door, extending the same opportunity to the families of Native veterans who were killed in action is a matter of understandable equity. It is troublesome, however, that the Department cannot tell us how many new applications would be generated by this bill, nor can they give us any clear notion of the potential impacts on public land in Alaska.

However, by allowing this bill to proceed, it is our intent that this action is final and that there will be no further extensions of land claims under an act that was passed by Congress at the turn of the century and repealed 3 decades ago. It is my understanding that

the Department of the Interior shares this view as well.

In summary, Mr. Speaker, let me take what may be one of our last opportunities in this Congress to give credit to the gentleman from Alaska (Mr. YOUNG), the chairman of our House Committee on Resources, who has served as chairman of the committee for the past 6 years. The chairman is a forceful advocate for his Alaska Native constituents, and it is due to his commitment that this bill is before us today.

Mr. Speaker, I want to commend the gentleman from Alaska, chairman of the committee, for his leadership and also his willingness to assist with issues affecting our insular areas. And above all, Mr. Speaker, this Member appreciates very much the genuine friendship of the gentleman from Alaska (Chairman YOUNG) with those of us who represent the territories.

Mr. HANSEN. Mr. Speaker, I yield back the balance of my time.

Mr. FALEOMAVAEGA. Mr. Speaker, I have no additional speakers, so I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Utah (Mr. HANSEN) that the House suspend the rules and pass the bill, H.R. 4345, as amended.

The question was taken.

Mr. FALEOMAVAEGA. Mr. Speaker, I object to the vote on the ground that a quorum is not present and make the point of order that a quorum is not present.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX and the Chair's prior announcement, further proceedings on this motion will be postponed.

The point of no quorum is considered withdrawn.

LAKE TAHOE BASIN LAND CONVEYANCE

Mr. HANSEN. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 4656) to authorize the Forest Service to convey certain lands in the Lake Tahoe Basin to the Washoe County School District for use as an elementary school site.

The Clerk read as follows:

H.R. 4656

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. CONVEYANCE OF CERTAIN FOREST SERVICE LAND IN THE LAKE TAHOE BASIN.

(a) CONVEYANCE.—Upon application, the Secretary of Agriculture, acting through the Chief of the Forest Service, may convey to the Washoe County School District all right, title, and interest of the United States in the property described as a portion of the Northwest quarter of Section 15, Township 16 North, Range 18 East, M.D.B. & M., more particularly described as Parcel 1 of Parcel Map No. 426 for Boise Cascade, filed in the office of the Washoe County Recorder, State of Nevada, on May 19, 1977, as file No. 465601, Official Records.

(b) REVIEW OF APPLICATION.—When the Secretary receives an application to convey the property under subsection (a), the Secretary shall make a final determination whether or not to convey such property before the end of the 180-day period beginning on the date of the receipt of the application.

(c) USE; REVERSION.—The conveyance of the property under subsection (a) shall be for the sole purpose of the construction of an elementary school on the property. The property conveyed shall revert to the United States if the property is used for a purpose other than as an elementary school site.

(d) CONSIDERATION BASED ON REQUIREMENT TO USE FOR LIMITED PUBLIC PURPOSES.—The Secretary shall determine the amount of any consideration required for the conveyance of property under this section based on the fair market value of the property when it is subject to the restriction on use under subsection (c).

(e) PROCEEDS.—The proceeds from the conveyance of the property under subsection (a) shall be available to the Secretary without further appropriation and shall remain available until expended for the purpose of acquiring environmentally sensitive land in the Lake Tahoe Basin pursuant to section 3 of the Act entitled ''An Act to provide for the orderly disposal of certain Federal lands in Nevada and for the acquisition of certain other lands in the Lake Tahoe Basin, and for other purposes'', approved December 23, 1980 (94 Stat. 3381; commonly known as the ''Santini-Burton Act'').

(f) APPLICABLE LAW.—Except as otherwise provided in this section, any sale of National Forest System land under this section shall be subject to the laws (including regulations) applicable to the conveyance of National Forest System lands.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Utah (Mr. HANSEN) and the gentleman from American Samoa (Mr. FALEOMAVAEGA) each will control 20 minutes.

The Chair recognizes the gentleman from Utah (Mr. HANSEN).

Mr. HANSEN. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, H.R. 4656 was introduced by my colleague, the gentleman from Nevada (Mr. GIBBONS). This legislation would convey a little over 8 small acres of Forest Service land to the Washoe County School District in Nevada located in the Lake Tahoe Basin for fair market value.

This bill passed full committee by voice vote on September 13 of this year. I would urge all Members to support passage of this excellent piece of legislation today.

Mr. Speaker, I reserve the balance of my time.

Mr. FALEOMAVAEGA. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I certainly want to thank my good friend, the gentleman from Utah (Mr. HANSEN), chairman of our Subcommittee on National Parks and Public Lands, and the chief sponsor of this legislation, the gentleman from Nevada (Mr. GIBBONS).

However, this evening, Mr. Speaker, with tremendous reluctance and despite my respect for my good friend from Nevada, I have to rise in opposition to H.R. 4656.

This bill authorizes the Forest Service to convey for fair market value an approximately 8.7 acre parcel on the Tahoe National Forest in Washoe County School District for use as an elementary school site.

Although the parcel is valued between $2 million and $4 million, a deed restriction directing use as a school site and a reversionary clause reduces the value considerably.

The administration testified that the appraisal value would be reduced by approximately 75 percent. The parcel to be conveyed was originally acquired by the Forest Service in 1981 as an environmentally sensitive property under the Santini-Burton Act for approximately $500,000. This land, as other land around Lake Tahoe, has appreciated considerably in the last 20 years. Sound fiscal policy dictates that the public should receive full value for its public assets.

In this case, getting fair compensation is particularly critical because the taxpayers purchased the land under a Federal program to buy environmentally sensitive land around Lake Tahoe and because the proceeds of the sale would be used to purchase additional environmentally sensitive land in the Lake Tahoe area.

Hence to offset the fiscal and environmental loss of this sensitive property, the Federal Government should get its full value.

Mr. Speaker, this bill also undermines the intent of the Santini-Burton Act. While the act allows transfers of land in interest to State and local governments, the deed restrictions must protect the environmental quality and public recreational purposes of the land.

Legislation is needed in this instance because this conveyance does not fall within the parameters of the act. Unlike other sites conveyed for less than fair market value with reversionary clauses, this land was not public domain or surplus land. Rather, this land was specifically purchased for its environmental value and is integral to the land-use planning scheme surrounding Lake Tahoe. This bill deprives the public of what is owed as well as the ability to offset the loss of this environmentally sensitive property with the purchase of comparable property.

I urge my colleagues not to accept this legislation.

Mr. Speaker, I reserve the balance of my time.

Mr. HANSEN. Mr. Speaker, I am happy to yield such time as he may consume to the gentleman from Nevada (Mr. GIBBONS), the author of this legislation, .

Mr. GIBBONS. Mr. Speaker, I would like to thank my colleague and friend

from Utah (Mr. HANSEN) for allowing me the time to speak here today.

□ 2245

Before, Mr. Speaker, I approach and answer the questions and issues of my colleague from American Samoa, I want to thank the gentleman from Alaska (Mr. YOUNG) for his leadership on this important bill which seeks to provide the children of Incline Village, Nevada with the sound footing for a quality education.

Mr. Speaker, H.R. 4656 authorizes the U.S. Forest Service to convey 8.7 acres of land in Washoe County, Nevada at fair market value for the limited use as an elementary school. It also requires the proceeds from the sale to be used to purchase environmentally sensitive land in the Lake Tahoe Basin in the future. H.R. 4656 is the product of a great deal of hard work, and I believe it strikes a balance that will benefit all parties involved.

The present Incline Village elementary school, constructed in 1964, can no longer meet the needs of an increasing student population. The overcrowding problems have become so severe that the school must now place up to 40 children in one classroom because there is simply not enough space to accommodate them all. The school district has considered every possible remedy to this problem, including looking at other land within the basin, and the best solution is H.R. 4656.

Expanding beyond the school's current design is physically impossible, as is rezoning the district to bus school children to another school district since the road to the next closest school is closed half the year due to snow. The only solution is a new school and the only suitable land to provide the students of Incline Village with a proper facility is the land to be conveyed in this bill.

Purchased by the U.S. Government under the Burton-Santini Act, this land currently has no market value since under Burton-Santini it cannot be developed without an act of Congress. Certainly the commercial use of the land would garner a much more attractive profit for the Federal Government, but the environmental sensitivity of the land would undoubtedly be threatened. However, under H.R. 4656, the intent of the Burton-Santini Act to protect the land's environmental sensitivity would be maintained. The school will not jeopardize the sensitivity of the seasonal stream that runs through the land. The school district will install water filtration systems and incorporate the sensitive elements of the site into existing education programs on water quality for the students.

Therefore, Mr. Speaker, the use restrictions of my bill will succeed in protecting the environment and ensuring that the Federal Government receives compensation for the land. The land will not be conveyed for free but at an affordable price for the school district. This bill is truly a win-win for everyone involved.

Finally, Mr. Speaker, this bill is not really about the land conveyance. This is about educating children. All children deserve safe and quality school facilities. The passage of H.R. 4656 will extend this opportunity to the students of Incline Village.

Mr. Speaker, let me also add that if this bill is not passed, there may actually be that child who has to stand up because there will not be room for his or her desk in the school district because there are 400 students now expected to be in this school. If you combine those students, most of which are ESL, more than 50 percent of the student population is ESL students, they will be pushed into an ever decreasing smaller and smaller environment.

This bill, if it is not passed, there will not be that new school for them and no place for these students to learn. We all realize, I hope, how important it is to the future of our children and to the future of our Nation to have well-educated children. It is my hope that no one in this Chamber will deny the young children of Incline Village, Nevada the opportunity to learn how to read, how to write or how to add and subtract in a suitable facility that can promote education, not inhibit it.

Mr. Speaker, we are asking only for 8.7 acres purchased at fair market value with a school restriction by the Washoe County school district for the purpose of an elementary school. The purpose of this bill is to provide the children in this area with an adequate, suitable place to get an education.

Mr. FALEOMAVAEGA. Mr. Speaker, I yield myself such time as I may consume. I was looking at the clock and looking at some 11 hours, that I had sincerely hoped that the staff members on the majority side and our side would at least have had this occasion for this whole day passing, if there is some way we can negotiate in good faith and some way to find a solution to prevent this kind of a deadlock. And now we bring ourselves here to the floor with this kind of a situation that I feel very, very bad about. I sincerely wish there could have been some other way of resolving this issue. Now that we are before the floor and reluctantly and with tremendous respect that I have for my good friend from Nevada, I had just hoped that we would have resolved this issue in some way or somehow, but somehow this matter has not been resolved.

As I said, with tremendous reluctance, I have to respectfully oppose this piece of legislation.

Mr. Speaker, I yield back the balance of my time.

Mr. HANSEN. Mr. Speaker, I yield such time as he may consume to the gentleman from Nevada (Mr. GIBBONS).

Mr. GIBBONS. Mr. Speaker, to my great friend from American Samoa, I want to say that this land of 8.7 acres is squeezed in between condominium developments and a Safeway shopping center right in front of it. This is not the pristine type of ground that one normally envisions when we talk about environmentally sensitive lands with great vistas looking out over Lake Tahoe. The fact is that this land is going to be better off being utilized as a school because the environmental sensitivities will be taken into consideration by the school in its development plan. It will actually enhance the environmental sensitivity of the land as well.

Let me also say that the League to Save Lake Tahoe, the well-known, well-respected environmental group that looks after much of the Lake Tahoe area does not oppose this bill. This is a critical piece of legislation for the students of Nevada. There have been many attempts on the other side to have legislation passed which also sets a precedent. I know my friends on the other side of the aisle have oftentimes passed legislation which will convey land for free for educational purposes, such as the San Juan College Act passed, that is H.R. 695 of our good friend and colleague the gentleman from New Mexico (Mr. UDALL). It conveyed land for educational purposes with a restriction in it as well. We also have an opportunity to look at other pieces of legislation which the other side has passed which would convey for even free, without the cost to the United States, land for educational purposes for the Lewis and Clark National Historic Interpretive Center. That passed 355–0 and was signed into law last year.

Mr. Speaker, there are other opportunities. H.R. 2737 of the gentleman from Illinois (Mr. COSTELLO) that was going to convey 39 acres of government land for free to the State of Illinois. We talked about that one. As I am saying, even H.R. 2890 which many of my friends and colleagues on the other side of the aisle support, transfers the land of Vieques Island that is currently used as an artillery bombing range to Puerto Rico at no cost. Now, here is thousands upon thousands and thousands of acres that belong to the Federal Government that are supported in being transferred to a State agency for that matter without a cost to the Federal Government in giving up that. So it is not an issue here today. We are talking about 8.7 acres. It is not an issue of fair market value. We are talking about getting an education for 400 children.

Without this, Mr. Speaker, without this land, without being able to construct this new school, 400 children are going to be forced into classrooms or denied an education, and 400 children, I do not think, want to be subject of standing in their classroom without so

much as room for their desk in order to get that education. We have to pass this bill. It is now, it is critical, and time is of the essence for this bill.

I once again thank my friends and colleagues for their support and hope everyone will support this piece of legislation.

Mr. HANSEN. Mr. Speaker, I yield myself such time as I may consume.

I congratulate my friend from Nevada for his excellent presentation. I would like to point out that in my 20 years on the Committee on Resources, we have done this many, many times. Education in this year is one of the big things we are all looking at. I hope it does not become a partisan issue. We are trying to educate some kids. I could give example after example of my many years on this committee where we have done exactly that, to give some acreage so we can expand a school, so we can help some children out. The backbone of this country is educating our children. I commend the gentleman from Nevada for his excellent presentation.

Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore (Mr. RYAN of Wisconsin). The question is on the motion offered by the gentleman from Utah (Mr. HANSEN) that the House suspend the rules and pass the bill, H.R. 4656.

The question was taken.

Mr. FALEOMAVAEGA. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX and the Chair's prior announcement, further proceedings on this motion will be postponed.

PROVIDING FOR CONCURRENCE BY HOUSE WITH AMENDMENT IN SENATE AMENDMENT TO H.R. 150, EDUCATION LAND GRANT ACT

Mr. HANSEN. Mr. Speaker, I move to suspend the rules and agree to the resolution (H. Res. 621) providing for the concurrence by the House with an amendment in the Senate amendment to H.R. 150.

The Clerk read as follows:

H. RES. 621

Resolved, That upon the adoption of this resolution the House shall be considered to have taken from the Speaker's table the bill H.R. 150, with the Senate amendment thereto, and to have concurred in the Senate amendment with the following amendment:

In lieu of the matter proposed to be inserted by the amendment of the Senate, insert the following:

SECTION. 1. SHORT TITLE.

This Act may be cited as the ''Education Land Grant Act''.

SEC. 2. CONVEYANCE OF NATIONAL FOREST SYSTEM LANDS FOR EDUCATIONAL PURPOSES.

(a) AUTHORITY TO CONVEY.—Upon application, the Secretary of Agriculture may convey National Forest System lands for use for educational purposes if the Secretary determines that—

(1) the entity seeking the conveyance will use the conveyed land for a public or publicly funded elementary or secondary school, to provide grounds or facilities related to such a school, or for both purposes;

(2) the conveyance will serve the public interest;

(3) the land to be conveyed is not otherwise needed for the purposes of the National Forest System; and

(4) the total acreage to be conveyed does not exceed the amount reasonably necessary for the proposed use.

(b) ACREAGE LIMITATION.—A conveyance under this section may not exceed 80 acres. However, this limitation shall not be construed to preclude an entity from submitting a subsequent application under this section for an additional land conveyance if the entity can demonstrate to the Secretary a need for additional land.

(c) COSTS AND MINERAL RIGHTS.—A conveyance under this section shall be for a nominal cost. The conveyance may not include the transfer of mineral rights.

(d) REVIEW OF APPLICATIONS.—When the Secretary receives an application under this section, the Secretary shall—

(1) before the end of the 14-day period beginning on the date of the receipt of the application, provide notice of that receipt to the applicant; and

(2) before the end of the 120-day period beginning on that date—

(A) make a final determination whether or not to convey land pursuant to the application, and notify the applicant of that determination; or

(B) submit written notice to the applicant containing the reasons why a final determination has not been made.

(e) REVERSIONARY INTEREST.—If at any time after lands are conveyed pursuant to this section, the entity to whom the lands were conveyed attempts to transfer title to or control over the lands to another or the lands are devoted to a use other than the use for which the lands were conveyed, without the consent of the Secretary, title to the lands shall revert to the United States.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Utah (Mr. HANSEN) and the gentleman from American Samoa (Mr. FALEOMAVAEGA) each will control 20 minutes.

The Chair recognizes the gentleman from Utah (Mr. HANSEN).

Mr. HANSEN. Mr. Speaker, I yield myself such time as I may consume.

On June 8, 1999, the House passed H.R. 150, the Education Land Grant Act, by voice vote. Since that time, the bill was amended in the other body. However, the committee nor the author are agreeable to the amendments. Thus, this resolution strips the Senate amendments and inserts the original text as passed by the House.

Mr. Speaker, H.R. 150 is a good piece of legislation that will help school children in rural communities throughout the country. I commend the gentleman from Arizona (Mr. HAYWORTH) for his hard work on this bill.

The Education Land Grant Act was designed to alleviate a problem that many small western communities face. These towns are often hemmed in by government-owned lands such as BLM land, Indian reservations, national forests, State land and now all over the West national monuments, national parks, et cetera. Since so much of the land base in these areas is nontaxable government land, they often find it difficult to afford school facilities.

H.R. 150 was designed to help these towns and cities surrounded by or adjacent to Forest Service land. They would be able to buy parcels of land for school facilities from the Forest Service at nominal cost. We have the opportunity to provide communities across our great Nation with the ability to purchase public lands to facilitate the education of our youth. This is a good cause and a great idea. H.R. 150 is simply legislation that resolves an extremely difficult problem for rural school districts. I urge my colleagues to support this resolution.

Mr. Speaker, I reserve the balance of my time.

Mr. FALEOMAVAEGA. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, first of all I certainly want to commend my good friend the gentleman from Arizona (Mr. HAYWORTH), the chief sponsor of this bill.

Mr. Speaker, H.R. 621 would have the effect of returning to the Senate the House-passed language in the bill H.R. 150, the Education Land Grant Act. The House originally passed this measure in June of last year and the Senate subsequently took up the bill and sent it back to the House in April of this year with an amendment.

The Senate amendment is a significant change in the purpose and scope of H.R. 150 as passed by this body. There are a number of serious problems with the Senate amendment in terms of policy and its application. Whereas the House bill was narrowly focusing on making land available for schools, the Senate amendment greatly expands the authorized purposes, includes new detailed language on the transfers and reverters as well as making a number of other changes in the bill. It is our understanding that the administration strongly opposes the language of the Senate amendment.

Given the problems with the Senate amendment, we do not object to disagreeing with the Senate language and returning the bill to the Senate with the original House-passed provisions.

Mr. Speaker, again I want to commend my friend from Arizona for this legislation. I urge my colleagues to support the bill.

Mr. Speaker, I reserve the balance of my time.

Mr. HANSEN. Mr. Speaker, I am happy to yield such time as he may consume to the gentleman from Arizona (Mr. HAYWORTH), the author of this bill.

Mr. HAYWORTH. Mr. Speaker, I thank the gentleman from Utah for yielding me this time. I would also ask the indulgence of those who join us this evening as I battle a bit of a cold.

□ 2300

Mr. Speaker, tonight before us is an important bipartisan bill that will help school districts around the country by allowing those districts to apply for conveyances of small tracts of Forest Service land at a nominal cost for the purposes of building, renovating or expanding school facilities.

Currently, only school districts near Bureau of Land Management lands can apply for conveyances under the Recreation and Public Purposes Act, and modeled after that act this legislation simply adds Forest Service lands to the equation.

It is worth noting, as my colleagues have before me, that H.R. 150 unanimously passed this House by a recorded vote with 420 of us in attendance voting yes; not a single voice, not a single vote, Mr. Speaker, in opposition in June of last year.

By unanimous consent, as was mentioned earlier, Mr. Speaker, the Senate passed an amendment in the nature of a substitute to H.R. 150 and while this was a bipartisan agreement, objections have been raised. They were enumerated by my good friend, the gentleman from American Samoa (Mr. FALEOMAVAEGA). Therefore, by disagreeing to the Senate amendments to H.R. 150, we can send the House-passed bill back to the Senate in the form of H. Res. 621 and send it directly to the President after the other body passes the legislation.

To recount, this new Education Land Grant Act authorizes the Secretary of Agriculture to convey Forest Service lands for educational purposes if certain conditions are met. First, the entity seeking the conveyance must use the land for a public or publicly funded elementary or secondary school.

Second, the conveyance must serve the public interest.

Third, the land conveyed cannot be environmentally sensitive land and cannot be otherwise needed for purposes of the national forest system.

Finally, the total acreage to be conveyed cannot exceed the amount reasonably necessary for the proposed use.

Furthermore, our new Education Land Grant Act limits the amount of acreage to be conveyed to 80 acres. It also provides that conveyances under this legislation shall be for a nominal cost using the guidelines of the Recreation and Public Purposes Act, which allows for conveyances or transfers to be made at $10 per acre.

The bill would require expedited review of applications by requiring the Secretary of Agriculture to acknowledge receipt of an application within 14 days of receiving it. A final determination about whether to convey the land must be made within 120 days, unless the Secretary submits a written notice to the applicant explaining the delay.

Mr. Speaker, ofttimes rural school districts cannot afford the costs of buying land and building new school facilities. In fact, in the 104th Congress, I introduced legislation which was signed into law that helped one of these aforementioned financially strapped school districts, the Alpine School District in Eastern Arizona. This district desperately needed new facilities. However, they could not afford the cost of acreage which was estimated to be approximately one quarter of a million dollars, as well as the cost of new school facilities.

This legislation seeks to set up a national mechanism for school districts to apply to the Agriculture Secretary for Forest Service land without having to come to Congress every year to pass legislation for their particular school district. Indeed, Mr. Speaker, part and parcel of the exercise tonight is perhaps to an onlooker, Mr. Speaker, a crazy quilt of small applications or conveyances of land. The beauty of the new Education Land Grant Act is to offer a uniform mechanism that can be used.

Mr. Speaker, I would point out that although it is of special interest in the rural West, it is important to note that this legislation would help school districts in 44 of our 50 States.

The Constitution gives our Congress authority in article IV, section 3 when it states that Congress shall have the power to dispose of and make needful rules and regulations respecting the territory or other properties belonging to the United States. I mention the conditions unique to the West. It has been part and parcel of discussion on earlier legislation tonight. Private land in the West is extremely expensive, and while it is true most federally controlled land is located in the western States, we also confront a problem there: Rapidly growing populations. In fact, Arizona, Utah and Nevada have the three fastest growing States in the Nation. With less and less private land on which to build schools and other facilities, the West will increasingly need to find new solutions to growth problems. The Education Land Grant Act provides one of the ways we can alleviate some of these concerns and at the same time help our children receive the education they need and deserve.

Not only is there rapid growth in the West but nationwide. As has been part of the discussion on this floor and in other venues, many school districts find themselves financially strapped. We have the opportunity tonight, in the tradition of Justin Smith Morrill, who consulted with then candidate Abraham Lincoln, in the election campaign of 1860, for an Education Land Grant Act that allowed for conveyances of land for the construction and establishment of institutions of higher learning in the agricultural and mechanical arts, in that tradition that Lincoln made the centerpiece of his campaign for the presidency and, of course, a terrible war intervened and his assassination. Ultimately, the Morrill Land Grant Act was signed into law. Indeed, from the vantage of time we see how important that was to higher education in this country.

Mr. Speaker, tonight we again have the opportunity to stand and deliver, and though it is virtually ignored by the fourth estate, in retrospect, Mr. Speaker, this legislation is of great importance because it enables local districts to free up their precious resources to help teachers teach and help children learn.

Certainly despite our many differences, as we take a look at the political calendar we can agree on that basic mission. In the tradition of original passage last year, unanimous passage by this House, I would ask this House again to support this legislation now by calling for passage of H. Res. 621 so that this new Education Land Grant Act can become reality, so that we can streamline this process for the greater good of all America's children in our finest traditions.

Mr. FALEOMAVAEGA. Mr. Speaker, I yield back the balance of my time.

Mr. HANSEN. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore (Mr. RYAN of Wisconsin). The question is on the motion offered by the gentleman from Utah (Mr. HANSEN) that the House suspend the rules and agree to the resolution, H. Res. 621.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the resolution was agreed to.

A motion to reconsider was laid on the table.

PLACEMENT AT LINCOLN MEMORIAL OF PLAQUE COMMEMORATING SPEECH OF MARTIN LUTHER KING, JR., KNOWN AS ''I HAVE A DREAM'' SPEECH

Mr. HANSEN. Mr. Speaker, I move to suspend the rules and concur in the Senate amendment to the bill (H.R. 2879) to provide for the placement at the Lincoln Memorial of a plaque commemorating the speech of Martin Luther King, Jr., known as the ''I Have a Dream'' speech.

The Clerk read as follows:

Senate amendment:

Strike out all after the enacting clause and insert:

SECTION 1. PLACEMENT OF PLAQUE AT LINCOLN MEMORIAL.

(a) PLACEMENT OF PLAQUE.—

(1) IN GENERAL.—The Secretary of the Interior shall install in the area of the Lincoln Memorial in the District of Columbia a suitable plaque to commemorate the speech of Martin Luther King, Jr., known as the ''I Have A Dream'' speech.

(2) RELATION TO COMMEMORATIVE WORKS ACT.—The Commemorative Works Act (40 U.S.C. 1001 et seq.) shall apply to the design and placement of the plaque within the area of the Lincoln Memorial.

(b) ACCEPTANCE OF CONTRIBUTIONS.—

(1) IN GENERAL.—The Secretary of the Interior is authorized to accept and expand contributions toward the cost of preparing and installing the plaque, without further appropriation. Federal funds may be used to design, procure, or install the plaque.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Utah (Mr. HANSEN) and the gentleman from American Samoa (Mr. FALEOMAVAEGA) each will control 20 minutes.

The Chair recognizes the gentleman from Utah (Mr. HANSEN).

Mr. HANSEN. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in strong support of H.R. 2879, introduced by the gentlewoman from Kentucky (Mrs. NORTHUP). H.R. 2879 would provide for the placement at the Lincoln Memorial of a plaque commemorating the speech of Martin Luther King, Jr., known as the ''I Have a Dream'' speech. The plaque would be placed in an appropriate location in the vicinity of the Lincoln Memorial where Dr. King delivered his famous civil rights speech on August 28, 1963. This bill also directs the Secretary of the Interior to accept contributions to help offset any costs associated with the preparation and placement of the plaque.

Mr. Speaker, this is an important bill. It has bipartisan support. I urge all of my colleagues to support H.R. 2879, as amended.

Mr. Speaker, I reserve the balance of my time.

Mr. FALEOMAVAEGA. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, H.R. 2879 as passed by the House directs the Secretary of the Interior to insert on the steps of the Lincoln Memorial a plaque commemorating the speech of Dr. Martin Luther King, Jr., known as the ''I Have a Dream'' speech.

The bill originally passed the House by a voice vote on November 9 of last year. The Senate passed the bill last week and has returned the measure to the House with an amendment.

The Senate amendment makes a number of clarifying and technical changes to the bill. We support these changes. In fact, we believe these changes strengthen the bill by providing greater flexibility on the placement of a plaque and by making sure that this action is carried out in conformance with the Commemorative Works Act.

Mr. Speaker, I want to note that our colleague, the gentleman from Georgia (Mr. LEWIS) was present and was one of the speakers that day in the summer of 1963 on the steps of the Lincoln Memorial and was with Dr. King when rendering the ''I Have a Dream'' speech that occurred at the Lincoln Memorial, which certainly had a profound impact not only on the civil rights movement but I would say that this Member particularly was very touched by the speech that Dr. King gave on that day. I ask my colleagues to support this measure.

Mr. Speaker, I yield back the balance of my time.

Mr. HANSEN. Mr. Speaker, I yield such time as she may consume to the gentlewoman from Kentucky (Mrs. NORTHUP), who has worked so diligently on this legislation, and I commend her for the good work she has done.

Mrs. NORTHUP. Mr. Speaker, this bill originated because one of my constituents, Thomas Williams, came to Washington, D.C. with his wife to see Washington, as so many Americans do. He wrote to me when he got home and talked about the moving moments he had as he went around Washington walking in the footsteps and being reminded of what a democracy this was and some of our important leaders.

He wrote to me about what he thought was missing, and I would like to share with you some of those words: I looked for the spot on which Martin Luther King stood when he spoke. I looked for a marker to remind me and others that for a single moment on a hot August day a descendant of a slave held the most prominent space in our Nation and delivered words that will always stay with that space. I could not find a marker or the words on those steps. And he goes on to say that markers such as this are reminders that an ordinary space we sometimes occupy can become forever changed by the deeds of a person that has stood there.

Looking even further, he said, into the future I saw a day when I could bring my yet unborn children to that spot where Martin Luther King spoke and I could show them that marker and read them the words of his dream.

□ 2310

''I could tell them that this is still a nation where a simple Kentucky farmer could rise to the heights of president, and that a son of a slave could inspire future generations with the power of his words and his compassion.''

Mr. Speaker, this plaque gives us these memories. All of us see schoolchildren that come to Washington each year. I reminded them that they are not only visiting the past, walking in the footsteps of our history, but that they are being filled with inspiration for their futures and for their responsibilities as leaders to make this democracy even better, to not be afraid to tackle the challenges, and to be part of the goodness of this country.

These children look for the markers, look for the memories, that give them this inspiration, give them example, and give them a belief that they, too, can make a difference.

So it is important that as they walk on the steps of the Lincoln Monument, that they not forget that very important day and that very important leader that Dr. Martin Luther King was to this country.

I think it is also important to thank my constituent, Tom Williams, who wanted the events of 1963 to come alive to all who toured the Lincoln Monument. Today we honor his contribution as an interested citizen, a citizen that believed that he could make a suggestion, and that that suggestion might have a powerful result.

Finally, the movement of this legislation also honors another man, Senator Paul Coverdell from Georgia, who sponsored this legislation on the Senate side. Senator Coverdell's death was a great loss to all of us this year, and we will miss him, but like the man we are honoring here today, Senator Coverdell will also be fondly remembered in our hearts.

Mr. HANSEN. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore (Mr. RYAN of Wisconsin). The question is on the motion offered by the gentleman from Utah (Mr. HANSEN) that the House suspend the rules and concur in the Senate amendment to the bill, H.R. 2879.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the Senate amendment was concurred in.

A motion to reconsider was laid on the table.

COASTAL BARRIER RESOURCES SYSTEM CORRECTIONS

Mr. HANSEN. Mr. Speaker, I move to suspend the rules and concur in the Senate amendments to the bill (H.R. 34) to direct the Secretary of the Interior to make technical corrections to a map relating to the Coastal Barrier Resources System.

The Clerk read as follows:

Senate amendments:

Page 2, line 9, strike out all after ''System'','' down to and including ''tives.'' in line 11 and insert ''dated June 5, 2000''.

Page 2, after line 18, insert:

''(c) AVAILABILITY.—The Secretary of the Interior shall keep the map descried in subsection (b) on file and available for public inspection in accordance with section 4(b) of the Coastal Barrier Resources Act (16 U.S.C. 3503(b)).''

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Utah (Mr. HANSEN) and the gentleman from American Samoa (Mr. FALEOMAVAEGA) each will control 20 minutes.

The Chair recognizes the gentleman from Utah (Mr. HANSEN).

Mr. HANSEN. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, H.R. 34 passed the House by unanimous consent on November 18, 1999. The other body made some technical amendments to the bill which are acceptable to the sponsor of this bill.

The gentleman from Florida (Mr. GOSS) is to be commended for his determination in getting this bill through the process and to final passage.

This bill corrects coastal maps which labeled developed private property as part of a State park. H.R. 34 adopts a new map drawn by the Fish and Wildlife Service which correctly portrays the boundary of the Cayo Costa State Park in Florida.

This change is supported by the U.S. Fish and Wildlife Service. Adopting the Senate amendments will clear this bill for the President. I strongly urge passage of this legislation.

Mr. Speaker, I reserve the balance of my time.

Mr. FALEOMAVAEGA. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I also want to commend the gentleman from Florida (Mr. GOSS) for his introduction of this legislation.

The Coastal Barrier Resources Act established the sound policy that the best way to protect coastal barriers was not to prohibit private development, but instead, to remove Federal benefits and financial assistance that encourage or subsidize such developments.

In general, this policy has been very successful. And that said, Mr. Speaker, Congress has found the need from time to time to correct technical errors revealed in the original Coastal Barrier System maps.

As noted by the previous speaker, the House passed H.R. 34 last November without objection. At the request of the other body, the Fish and Wildlife Service completed a digital analysis of public land holdings on North Captiva Island that are presently included in the otherwise protected area labeled as P–19P.

The new map was developed by the Fish and Wildlife Service to depict more detailed analysis. This new map, dated June 5 of this year, was adopted by the other body when it passed H.R. 34 last week. It is our understanding that this new map has not changed in any way the corrected boundaries for Cayo Costa State Park.

Furthermore, we understand that these digital clarifications have not removed any area from either the otherwise protected area of P–19P or from the adjacent coastal barrier resources system unit, P–19.

Lastly, the Fish and Wildlife Service fully attests to the accuracy of this new map. As a result, we have no objections to this legislation as amended by the other body to adopt the map dated June 5 of this year.

This legislation falls within the realm of legitimate technical corrections, and the bill is not controversial. I urge my colleagues to support this measure.

Mr. Speaker, I yield back the balance of my time.

Mr. HANSEN. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Utah (Mr. HANSEN) that the House suspend the rules and concur in the Senate amendments to H.R. 34.

The question was taken.

Mr. FALEOMAVAEGA. Mr. Speaker, I object to the vote on the ground that a quorum is not present and make the point of order that a quorum is not present.

The SPEAKER pro tempore. Pursuant to clause 8, rule XX and the Chair's prior announcement, further proceedings on this motion will be postponed.

The point of no quorum is considered withdrawn.

CAT ISLAND NATIONAL WILDLIFE REFUGE

Mr. HANSEN. Mr. Speaker, I move to suspend the rules and concur in the Senate amendments to the bill (H.R. 3292) to provide for the establishment of the Cat Island National Wildlife Refuge in West Feliciana Parish, Louisiana.

The Clerk read as follows:

Senate amendments:

Page 4, line 7, after ''animals;'' insert: ''and''.

Page 4, strike out lines 8 through 11.

Page 4, line 12, strike out ''(6)'' and insert: ''(5)''.

Page 5, line 19, before ''The'' insert: ''(a) IN GENERAL.—''.

Page 6, after line 2, insert:

(b) PRIORITY USES.—In providing opportunities for compatible fish- and wildlife-oriented recreation, the Secretary, in accordance with paragraphs (3) and (4) of section 4(a) of the National Wildlife Refuge System Administration Act of 1966 (16 U.S.C. 668dd(a)), shall ensure that hunting, fishing, wildlife observation and photography, and environmental education and interpretation are the priority public uses of the Refuge.

Page 6, after line 11, insert:

SEC. 8. DESIGNATION OF HERBERT H. BATEMAN EDUCATION AND ADMINISTRATIVE CENTER.

(a) IN GENERAL.—A building proposed to be located within the boundaries of the Chincoteague National Wildlife Refuge, on Assateague Island, Virginia, shall be known and designated as the ''Herbert H. Bateman Education and Administrative Center''.

(b) REFERENCES.—Any reference in a law, map, regulation, document, paper, or other record of the United States to the building referred to in subsection (a) shall be deemed to be a reference to the Herbert H. Bateman Education and Administrative Center.

SEC. 9. TECHNICAL CORRECTIONS.

(a) Effective on the day after the date of enactment of the Act entitled, ''An Act to reauthorize the Junior Duck Stamp Conservation and Design Program Act of 1994'' (106th Congress), section 6 of the Junior Duck Stamp Conservation and Design Program Act of 1994 (16 U.S.C. 668dd note; Public Law 103–340), relating to an environmental education center and refuge, is redesignated as section 7.

(b) Effective on the day after the date of enactment of the Cahaba River National Wildlife Refuge Establishment Act (106th Congress), section 6 of that Act is amended—

(1) in paragraph (2), by striking ''the Endangered Species Act of 1973 (16 U.S.C. 1331 et seq.)'' and inserting ''the Endangered Species Act of 1973 (16 U.S.C. 1531 et seq.)''; and

(2) in paragraph (3), by striking ''section 4(a)(3) and (4) of the National Wildlife Refuge System Administration Act of 1966 (16 U.S.C. 668ee(a)(3), (4))'' and inserting ''paragraphs (3) and (4) of section 4(a) of the National Wildlife Refuge System Administration Act of 1966 (16 U.S.C. 668dd(a))''.

(c) Effective on the day after the date of enactment of the Red River National Wildlife Refuge Act (106th Congress), section 4(b)(2)(D) of that Act is amended by striking ''section 4(a)(3) and (4) of the National Wildlife Refuge System Administration Act of 1966 (16 U.S.C. 668ee(a)(3), (4))'' and inserting ''paragraphs (3) and (4) of section 4(a) of the National Wildlife Refuge System Administration Act of 1966 (16 U.S.C. 668dd(a))''.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Utah (Mr. HANSEN) and the gentleman from American Samoa (Mr. FALEOMAVAEGA) each will control 20 minutes.

The Chair recognizes the gentleman from Utah (Mr. HANSEN).

Mr. HANSEN. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in support of H.R. 3292, which will establish the Cat Island National Wildlife Refuge near Baton Rouge, Louisiana, represented by our colleague, the gentleman from Louisiana (Mr. BAKER).

Under the terms of this legislation, the Secretary of the Interior is directed to acquire by purchase or donation up to 36,000 acres of land that will form the basis of this new exciting refuge.

□ 2320

The House considered and approved this measure by voice vote. The other body adopted a few technical amendments which we concur in today. In addition, an additional amendment was added naming the visitors center at the Chincoteague National Wildlife Refuge in Virginia after our former colleague, the late Herb Bateman. Congressman Herb Bateman's tireless commitment to what he called America's First District was legendary. This is a fitting tribute to an outstanding man. I urge the adoption of H.R. 3292. I compliment the author, the gentleman from Louisiana (Mr. BAKER) for his superb leadership in shepherding this legislation through the legislative process.

Mr. Speaker, I reserve the balance of my time.

Mr. FALEOMAVAEGA. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in support of H.R. 3292, a bill sponsored by the gentleman

from Louisiana (Mr. BAKER), a bill that would establish the Cat Island National Wildlife Refuge in the State of Louisiana. The biological diversity and ecological significance of these resources will be a valuable addition to our national wildlife refuge system.

We reviewed the amendments and technical corrections that were added to this legislation by the other body, and we find them helpful and noncontroversial. Consequently, we have no objections in passing this amended bill.

Mr. Speaker, it is my understanding that the administration fully supports the provisions of this bill, and I urge my colleagues to support the bill.

Mr. Speaker, I yield back the balance of my time.

Mr. HANSEN. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore (Mr. RYAN of Wisconsin). The question is on the motion offered by the gentleman from Utah (Mr. HANSEN) that the House suspend the rules and concur in the Senate amendments to the bill, H.R. 3292.

The question was taken.

Mr. FALEOMAVAEGA. Mr. Speaker, I object to the vote on the ground that a quorum is not present and make the point of order that a quorum is not present.

The SPEAKER pro tempore. Pursuant to clause 8, rule XX and the Chair's prior announcement, further proceedings on this motion will be postponed.

The point of no quorum is considered withdrawn.

SAINT HELENA ISLAND NATIONAL SCENIC AREA

Mr. HANSEN. Mr. Speaker, I move to suspend the rules and concur in the Senate amendment to the bill (H.R. 468) to establish the Saint Helena Island National Scenic Area.

The Clerk read as follows:

Senate amendment:

Page 4, line 1, strike out all after ''REQUIREMENTS.—'' down to and including ''Forest.'' in line 5 and insert ''Within 3 years of the acquisition of 50 percent of the land authorized for acquisition under section 7, the Secretary shall develop an amendment to the land and resources management plan for the Hiawatha National Forest which will direct management of the scenic area.''

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Utah (Mr. HANSEN) and the gentleman from American Samoa (Mr. FALEOMAVAEGA) each will control 20 minutes.

The Chair recognizes the gentleman from Utah (Mr. HANSEN).

Mr. HANSEN. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, H.R. 468, the Saint Helena Island National Scenic Area, was introduced by our colleague, the gentleman from Michigan (Mr. KILDEE). This legislation would establish the area known as Saint Helena Island in the State of Michigan as a National Scenic Area to be included in the Hiawatha National Forest.

H.R. 468 passed the House under suspension of the rules on September 21, 1999, by a recorded vote of 410–2.

The Senate has returned this bill to the House with a technical amendment that clarifies the plan amendment process for management of the area.

Mr. Speaker, I urge passage of Saint Helena National Scenic Area, as amended, by the Senate.

Mr. Speaker, I reserve the balance of my time.

Mr. FALEOMAVAEGA. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in support of this legislation.

H.R. 468 authorizes the Secretary of Agriculture to acquire from willing sellers most of Saint Helena Island for management as a National Scenic Area. The nearly 270-acre island, which sits a couple of miles offshore from the Hiawatha National Forest shoreline in northern Lake Michigan, is rich in ecological and cultural resources.

The small bit of acreage that does not convey to the Forest Service is owned by the Great Lakes Lighthouse Keepers Association. This bill overwhelmingly was passed by the House in September of last year; and in October of this year, the Senate unanimously passed it with a minor amendment.

Mr. Speaker, I urge my colleagues to support this bill.

Mr. Speaker, I reserve the balance of my time.

Mr. HANSEN. Mr. Speaker, I reserve the balance of my time.

Mr. FALEOMAVAEGA. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I want to note the particular good work of the gentleman from Michigan (Mr. KILDEE), my good friend and colleague, certainly for his leadership and for his sponsorship of this important piece of legislation.

Mr. KILDEE. Mr. Speaker, on February 25, 1999, I introduced H.R. 468, the St. Helena Island National Scenic Area Act, and I am pleased that several of my colleagues from Michigan joined me as cosponsors of this effort. As many of you know, the House originally passed the legislation in September of 1999. Our colleagues on the Senate side added an amendment at the request of the National Forest Service. I have no problem with this change, and I am pleased that we are approving the final version of the bill today, clearing the way for its passage into law.

First of all, I would like to thank Chairwoman CHENOWETH-HAGE and Chairman YOUNG for their help in bringing H.R. 468 to the floor of the House. I also appreciate the work of the Ranking Members, ADAM SMITH and GEORGE MILLER. Furthermore, I wish to thank the majority and minority staff for their work on this effort. During committee consideration, I was pleased to work with both the majority and minority to make technical and clarifying amendments, and I believe this resulted in a good piece of legislation, worthy of bipartisan support.

H.R. 468 is simple—it authorizes the purchases of St. Helena Island from the willing sellers of the Brown and Hammond families. The island would become part of the Hiawatha National Forest, which would manage the island as a national scenic area, and the island would be open to the public for recreational use.

I thank all of my colleagues for their support of this effort.

Mr. FALEOMAVAEGA. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. HANSEN. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Utah (Mr. HANSEN) that the House suspend the rules and concur in the Senate amendment to the bill, H.R. 468.

The question was taken.

Mr. HANSEN. Mr. Speaker, I object to the vote on the ground that a quorum is not present and make the point of order that a quorum is not present.

The SPEAKER pro tempore. Pursuant to clause 8, rule XX and the Chair's prior announcement, further proceedings on this motion will be postponed.

The point of no quorum is considered withdrawn.

EXTENDING AUTHORITY OF LOS ANGELES UNIFIED SCHOOL DISTRICT

Mr. HANSEN. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 5083) to extend the authority of the Los Angeles Unified School District to use certain park lands in the city of South Gate, California, which were acquired with amounts provided from the land and water conservation fund, for elementary school purposes.

The Clerk read as follows:

H.R. 5083

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. FINDINGS.

Congress finds the following:

(1) In 1988, the Los Angeles Board of Education voted to close Tweedy Elementary School in the city of South Gate, California, due to concerns about health risks at the site of the school.

(2) The school was temporarily relocated to South Gate Park on park land that was originally acquired with amounts provided by the Secretary of the Interior from the land and water conservation fund.

(3) In March 1991, the lease with the city that allowed the Los Angeles Unified School District to operate the school on park land expired, and no progress had been made in constructing new facilities to relocate the school and its students.

(4) In 1992, Congress enacted Public Law 102–443 (106 Stat. 2244), which authorized an eight-year extension in the lease for the use of the park land pending the construction of the new school.

(5) This eight-year extension is due to expire on October 23, 2000, and little progress has been made on the part of the Los Angeles Unified School District to relocate Tweedy Elementary School.

(6) In addition to the long-delayed Tweedy Elementary School relocation, recent studies have identified the need for additional educational facilities in the city of South Gate, including a new high school, junior high, and three primary centers in the near future.

(7) The lack of commitment, oversight, and accountability in finding a new site for Tweedy Elementary School must be corrected in any further lease extension, and a similar situation also must be avoided in addressing the construction of other education facilities in the City of South Gate.

SEC. 2. CONTINUATION OF TEMPORARY USE OF PARK LANDS FOR ELEMENTARY SCHOOL PURPOSES, SOUTH GATE, CALIFORNIA.

Notwithstanding section 6(f)(3) of the Land and Water Conservation Fund Act of 1965 (16 U.S.C. 460*l*–8(f)(3)), the city of South Gate, California, may extend until October 23, 2004, the lease between the city of South Gate and the Los Angeles Unified School District, dated June 8, 1988, and otherwise subject to expire on October 23, 2000, pursuant to Public Law 102–443 (106 Stat. 2244), regarding the use of approximately three acres of South Gate Park as the temporary site for Tweedy Elementary School.

SEC. 3. REPORT ON PROGRESS TO RELOCATE TWEEDY ELEMENTARY SCHOOL AND OTHER SCHOOL CONSTRUCTION.

(a) PERIODIC REPORTS REQUIRED.—As a condition on the extension of the lease referred to in section 1 beyond October 23, 2000, the President of the Board of Education for the Los Angeles Unified School District shall require the preparation of periodic reports describing—

(1) the progress being made to relocate Tweedy Elementary School from South Gate Park to a permanent location; and

(2) the School District's construction plans for a new high school, middle school, and 3 primary centers in the city of South Gate, California.

(b) ELEMENTS OF REPORT.—Each report under subsection (a) shall describe—

(1) the progress being made in site selection and acquisition, facility design, and construction; and

(2) any factors hindering either the relocation of Tweedy Elementary School or progress on the School District's other construction plans for the city of South Gate.

(c) SUBMISSION.—The reports required by subsection (a) shall be submitted to the City Manager of the city of South Gate, the Congress, the Los Angeles Board of Education, and Padres Unidos Pro Nuevas Escuelas. The first report shall be submitted not later than May 1, 2001, and subsequent reports shall be submitted every six months thereafter during the term of the extended lease.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Utah (Mr. HANSEN) and the gentleman from American Samoa (Mr. FALEOMAVAEGA) each will control 20 minutes.

The Chair recognizes the gentleman from Utah (Mr. HANSEN).

Mr. HANSEN. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, H.R. 5083 extends the authority of the Los Angeles Unified School District to use certain park lands in the city of South Gate, California, for elementary school purposes.

Mr. Speaker, H.R. 5083 is a good piece of legislation that provides school children in South Gate, California, with temporary educational facilities. I commend the gentlewoman from California (Ms. ROYBAL-ALLARD), my colleague, for her hard work in bringing this legislation to the floor. I apologize for keeping her for so long on the floor.

In 1988, the Los Angeles Board of Education voted to close Tweedy Elementary School in the city of South Gate, California, due to concerns about health risks at the site of the school. The school was relocated to South Gate Park on park land that was originally acquired with amounts provided by the Secretary of the Interior from the Land and Water Conservation Fund.

On October 23, 2000, the lease with the city that allowed the Los Angeles Unified School District to operate the school on park land will expire. Little progress has been made on the part of the Los Angeles Unified School District to relocate Tweedy Elementary School.

H.R. 5083 would authorize the city of South Gate, California, to extend the lease between the city of South Gate and the Los Angeles Unified School District as the temporary site for the Tweedy Elementary School until October 23, 2004.

As a condition of the extension of the lease, the president of the Board of Education for the Los Angeles Unified School District shall require the preparation of periodic reports describing the progress made to relocate Tweedy Elementary School from South Gate Park to a permanent location.

It will also require the preparation of periodic reports describing the school district's construction plans for a new high school, middle school and three primary centers in the city of South Gate, California. These reports shall be submitted to the city manager of South Gate, to the Congress, and the Los Angeles Board of Education.

This is a worthy cause that will provide the students in South Gate, California, with essential educational facilities. H.R. 5083 is simple legislation that resolves a very difficult problem for these students. I urge my colleagues to support this legislation.

Mr. Speaker, I reserve the balance of my time.

Mr. FALEOMAVAEGA. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I wanted to thank the gentleman from Utah (Mr. HANSEN), my good friend, for his management of these pieces of legislation. I want to also offer my apologies to the gentlewoman from California (Ms. ROYBAL-ALLARD), our colleague, who has been so patient in wanting to get this bill that she has worked so hard in her efforts to provide legislation for, H.R. 5083.

Mr. Speaker, I yield such time as she may consume to the gentlewoman from California (Ms. ROYBAL-ALLARD).

Ms. ROYBAL-ALLARD. Mr. Speaker, I thank the gentleman from American Samoa (Mr. FALEOMAVAEGA) for yielding the time to me.

Mr. Speaker, I also want to thank the gentleman from Alaska (Chairman YOUNG) and the gentleman from California (Mr. MILLER), the ranking member of the Committee on Resources, and the gentleman from Utah (Chairman HANSEN) and the gentleman from Puerto Rico (Mr. ROMERO-BARCELÓ), the ranking member of the Subcommittee on National Parks and Public Lands, for bringing H.R. 5083 to the floor.

This legislation addresses an urgent need for hundreds of children who attend Tweedy Elementary School in my congressional district.

As the gentleman from Utah (Chairman HANSEN) mentioned, in 1988 the Los Angeles Board of Education closed Tweedy Elementary School in South Gate, California, due to health risks from environmental contamination at the school site.

Consequently, the school was moved to South Gate Park located on Federal land, until a new school could be built.

To enable Tweedy Elementary students to attend school in their community, Congress approved a lease, at fair market value, between the city of South Gate and the Los Angeles Unified School District.

The current lease, as was mentioned, is going to expire this fall.

Mr. Speaker, since L.A. Unified is still in the process of replacing Tweedy Elementary, this bill extends the current lease 4 years to allow L.A. Unified time to construct the new school.

□ 2330

As a condition of the extension, the bill requires a school district to provide progress reports twice a year to the City of South Gate, to Congress, and, most importantly, to the parents of Tweedy students.

With no available alternative site, passage of this measure is essential to ensure that the children of Tweedy are not evicted and their education is not disrupted while LAUSD constructs a permanent replacement site.

For the children of South Gate, I urge my colleagues to pass this critically needed legislation. I would like to thank the gentleman from Utah (Chairman HANSEN) for his support of this very important measure.

Mr. HANSEN. Mr. Speaker, I yield back the balance of my time.

Mr. FALEOMAVAEGA. Mr. Speaker I yield myself such time as I may consume.

Mr. Speaker, H.R. 5083, as introduced by the gentlewoman from California (Ms. ROYBAL-ALLARD) would extend for a period of 4 years a lease that allows the Los Angeles Unified School District to operate an elementary school on the park land in the City of South Gate, California that was acquired with monies from the Federal Land and Water Conservation Fund.

Such an extension is necessary because the school district has thus far failed to relocate the elementary school to a permanent site. The elementary school was originally moved onto local park land in 1988 because of concern with health risks associated with the former school site.

In 1992, Public law 102–443 was enacted that allowed an 8-year extension of the lease of three acres of the local park for elementary school purposes. That lease extension is set to expire on October 23 of this year. Without that additional extension, the elementary school will be in a precarious situation.

Mr. Speaker, it is, indeed, unfortunate that the Los Angeles Unified School District has thus far failed to provide a new permanent facility for the elementary school. We support the extension provided in the provisions of this bill. I urge my colleagues to support the provisions of this bill.

Mr. Speaker, if I may not detract too far from the pieces of legislation that the gentleman from Utah (Chairman HANSEN) and I have tried earnestly to complete this evening, I really think I would be remiss if I did not share with my colleagues that, 2 days from now, that our colleagues will be going to the State of Minnesota to express our sense of condolences to the great gentleman, the Congressman from Minnesota, my good friend and former chairman of the Subcommittee on National Parks and Public Lands, the late Congressman BRUCE VENTO.

If ever my colleagues in this Chamber, when we talk about national parks, when we talk about public lands, when we talk about scenic trails, when we talk about wildlife refuge, when we talk about historic preservation, historic sites, perhaps two words come out more starkly, very, very clear in my mind when we think of this great American, the son of Minnesota, Congressman BRUCE VENTO.

When we talk about conservation and the environment, I think of the legacy that this gentleman has left us in this Chamber and the tremendous amount of energy and work that he has committed on behalf of our Nation.

When we talk about conservation environment, there is also another gentleman I want to recognize, the unsung heroes. I say a lot of times that when we do things as Members that we do not give credit which is due. This is my good friend Rick Healy, who, for many years, served as staff director to Congressman BRUCE VENTO and doing such a fantastic, tremendous job in passing some 300 pieces of legislation during Congressman VENTO's tenure as chairman of the Subcommittee on National Parks and Public Lands.

I want to let him know that certainly this Member and certainly my colleagues in the Chamber want to express our sense of appreciation to Rick for the outstanding job that he has done with the national parks and public land issues.

Mr. HANSEN. Mr. Speaker, will the gentleman yield?

Mr. FALEOMAVAEGA. I am glad to yield to the gentleman from Utah.

Mr. HANSEN. Mr. Speaker, I would like to associate myself with the remarks made by the gentleman from American Samoa (Mr. FALEOMAVAEGA) concerning our late colleague, BRUCE VENTO. I also served with him for many years and was ranking member when he was chairman. We have lost a good friend and a very fine legislator.

Mr. FALEOMAVAEGA. Mr. Speaker, I thank the gentleman for his kind comments.

Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore (Mr. RYAN of Wisconsin). The question is on the motion offered by the gentleman from Utah (Mr. HANSEN) that the House suspend the rules and pass the bill, H.R. 5083.

The question was taken.

Mr. HANSEN. Mr. Speaker, I object to the vote on the ground that a quorum is not present and make the point of order that a quorum is not present.

The SPEAKER pro tempore. Pursuant to clause 8, rule XX and the Chair's prior announcement, further proceedings on this motion will be postponed.

The point of no quorum is considered withdrawn.

GENERAL LEAVE

Mr. HANSEN. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks on H.R. 2389, H.R. 4345, H.R. 4656, H. Res. 621, H.R. 150, H.R. 2879, H.R. 3292, H.R. 468 and H.R. 5083.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Utah?

There was no objection.

□ 2355

TRANSPORTATION RECALL ENHANCEMENT, ACCOUNTABILITY, AND DOCUMENTATION (TREAD) ACT

Mr. TAUZIN. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 5164) to amend title 49, United States Code, to require reports concerning defects in motor vehicles or tires or other motor vehicle equipment in foreign countries, and for other purposes, as amended.

The Clerk read as follows:

H.R. 5164

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the ''Transportation Recall Enhancement, Accountability, and Documentation (TREAD) Act''.

SEC. 2. PRESERVATION OF SECTION 30118.

The amendments made to section 30118 of title 49, United States Code, by section 364 of the Department of Transportation and Related Agencies Appropriations Act, 2001 are repealed and such section shall be effective as if such amending section had not been enacted.

SEC. 3. REPORTING REQUIREMENTS.

(a) DEFECTS IN FOREIGN COUNTRIES.—Section 30166 of title 49, United States Code, is amended by adding at the end the following:

''(1) REPORTING OF DEFECTS IN MOTOR VEHICLES AND PRODUCTS IN FOREIGN COUNTRIES.—

''(1) REPORTING OF DEFECTS, MANUFACTURER DETERMINATION.—Not later than 5 working days after determining to conduct a safety recall or other safety campaign in a foreign country on a motor vehicle or motor vehicle equipment that is identical or substantially similar to a motor vehicle or motor vehicle equipment offered for sale in the United States, the manufacturer shall report the determination to the Secretary.

''(2) REPORTING OF DEFECTS, FOREIGN GOVERNMENT DETERMINATION.—Not later than 5 working days after receiving notification that the government of a foreign country has determined that a safety recall or other safety campaign must be conducted in the foreign country on a motor vehicle or motor vehicle equipment that is identical or substantially similar to a motor vehicle or motor vehicle equipment offered for sale in the United States, the manufacturer of the motor vehicle or motor vehicle equipment shall report the determination to the Secretary.

''(3) REPORTING REQUIREMENTS.—The Secretary shall prescribe the contents of the notification required by this subsection.''.

(b) EARLY WARNING REPORTING REQUIREMENTS.—Section 30166, of title 49, United States Code, is amended by adding at the end the following:

''(m) EARLY WARNING REPORTING REQUIREMENTS.—

''(1) RULEMAKING REQUIRED.—Not later than 120 days after the date of enactment of the Transportation Recall Enhancement, Accountability, and Documentation (TREAD) Act, the Secretary shall initiate a rulemaking proceeding to establish early warning reporting requirements for manufacturers of motor vehicles and motor vehicle equipment to enhance the Secretary's ability to carry out the provisions of this chapter.

''(2) DEADLINE.—The Secretary shall issue a final rule under paragraph (1) not later than June 30, 2002.

''(3) REPORTING ELEMENTS.—

''(A) WARRANTY AND CLAIMS DATA.—As part of the final rule promulgated under paragraph (1), the Secretary shall require manufacturers of motor vehicles and motor vehicle equipment to report, periodically or upon request by the Secretary, information which

is received by the manufacturer derived from foreign and domestic sources to the extent that such information may assist in the identification of defects related to motor vehicle safety in motor vehicles and motor vehicle equipment in the United States and which concerns—

''(i) data on claims submitted to the manufacturer for serious injuries (including death) and aggregate statistical data on property damage from alleged defects in a motor vehicle or in motor vehicle equipment; or

''(ii) customer satisfaction campaigns, consumer advisories, recalls, or other activity involving the repair or replacement of motor vehicles or items of motor vehicle equipment.

''(B) OTHER DATA.—As part of the final rule promulgated under paragraph (1), the Secretary may, to the extent that such information may assist in the identification of defects related to motor vehicle safety in motor vehicles and motor vehicle equipment in the United States, require manufacturers of motor vehicles or motor vehicle equipment to report, periodically or upon request of the Secretary, such information as the Secretary may request.

''(C) REPORTING OF POSSIBLE DEFECTS.—The manufacturer of a motor vehicle or motor vehicle equipment shall report to the Secretary, in such manner as the Secretary establishes by regulation, all incidents of which the manufacturer receives actual notice which involve fatalities or serious injuries which are alleged or proven to have been caused by a possible defect in such manufacturer's motor vehicle or motor vehicle equipment in the United States, or in a foreign country when the possible defect is in a motor vehicle or motor vehicle equipment that is identical or substantially similar to a motor vehicle or motor vehicle equipment offered for sale in the United States.

''(4) HANDLING AND UTILIZATION OF REPORTING ELEMENTS.—

''(A) SECRETARY'S SPECIFICATIONS.—In requiring the reporting of any information requested by the Secretary under this subsection, the Secretary shall specify in the final rule promulgated under paragraph (1)—

''(i) how such information will be reviewed and utilized to assist in the identification of defects related to motor vehicle safety;

''(ii) the systems and processes the Secretary will employ or establish to review and utilize such information; and

''(iii) the manner and form of reporting such information, including in electronic form.

''(B) INFORMATION IN POSSESSION OF MANUFACTURER.—The regulations promulgated by the Secretary under paragraph (1) may not require a manufacturer of a motor vehicle or motor vehicle equipment to maintain or submit records respecting information not in the possession of the manufacturer.

''(C) DISCLOSURE.—None of the information collected pursuant to the final rule promulgated under paragraph (1) shall be disclosed pursuant to section 30167(b) unless the Secretary determines the disclosure of such information will assist in carrying out sections 30117(b) and 30118 through 30121.

''(D) BURDENSOME REQUIREMENTS.—In promulgating the final rule under paragraph (1), the Secretary shall not impose requirements unduly burdensome to a manufacturer of a motor vehicle or motor vehicle equipment, taking into account the manufacturer's cost of complying with such requirements and the Secretary's ability to use the information sought in a meaningful manner to assist in the identification of defects related to motor vehicle safety.

''(5) PERIODIC REVIEW.—As part of the final rule promulgated pursuant to paragraph (1), the Secretary shall specify procedures for the periodic review and update of such rule.''.

(c) SALE OR LEASE OF DEFECTIVE OR NONCOMPLIANT TIRE.—Section 30166 of title 49, United States Code, as amended by subsection (b), is amended by adding at the end the following:

''(n) SALE OR LEASE OF DEFECTIVE OR NONCOMPLIANT TIRE.—

''(1) IN GENERAL.—The Secretary shall, within 90 days of the date of enactment of the Transportation Recall Enhancement, Accountability, and Documentation (TREAD) Act, issue a final rule requiring any person who knowingly and willfully sells or leases for use on a motor vehicle a defective tire or a tire which is not compliant with an applicable tire safety standard with actual knowledge that the manufacturer of such tire has notified its dealers of such defect or noncompliance as required under section 30118(c) or as required by an order under section 30118(b) to report such sale or lease to the Secretary.

''(2) DEFECT OR NONCOMPLIANCE REMEDIED OR ORDER NOT IN EFFECT.—Regulations under paragraph (1) shall not require the reporting described in paragraph (1) where before delivery under a sale or lease of a tire—

''(A) the defect or noncompliance of the tire is remedied as required by section 30120; or

''(B) notification of the defect or noncompliance is required under section 30118(b) but enforcement of the order is restrained or the order is set aside in a civil action to which section 30121(d) applies.''.

(d) INSURANCE STUDY.—The Secretary of Transportation shall conduct a study to determine the feasibility and utility of obtaining aggregate information on a regular and periodic basis regarding claims made for private passenger automobile accidents from persons in the business of providing private passenger automobile insurance or of adjusting insurance claims for such automobiles. Not later than 120 days after the date of enactment of this Act, the Secretary shall transmit the results of such study to the Committee on Commerce of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate.

SEC. 4. REMEDIES WITHOUT CHARGE.

Section 30120(g)(1) of title 49, United States Code, is amended by—

(1) striking ''8 calendar years'' and inserting ''10 calendar years''; and

(2) striking ''3 calendar years'' and inserting ''5 calendar years''.

SEC. 5. PENALTIES.

(a) CIVIL PENALTIES.—Section 30165(a) of title 49, United States Code, is amended to read as follow:

''(a) CIVIL PENALTIES.—

''(1) IN GENERAL.—A person that violates any of sections 30112, 30115, 30117 through 30122, 30123(d), 30125(c), 30127, or 30141 through 30147, or a regulation prescribed thereunder, is liable to the United States Government for a civil penalty of not more than $5,000 for each violation. A separate violation occurs for each motor vehicle or item of motor vehicle equipment and for each failure or refusal to allow or perform an act required by any of those sections. The maximum penalty under this subsection for a related series of violations is $15,000,000.

''(2) SECTION 30166.—A person who violates section 30166 or a regulation prescribed under that section is liable to the United States Government for a civil penalty for failing or refusing to allow or perform an act required under that section or regulation. The maximum penalty under this paragraph is $5,000 per violation per day. The maximum penalty under this paragraph for a related series of daily violations is $15,000,000.''.

(b) CRIMINAL PENALTIES.—

(1) IN GENERAL.—Subchapter IV of chapter 301 of title 49, United States Code, is amended by adding at the end the following:

''§ 30170. Criminal Penalties.

''(a) CRIMINAL LIABILITY FOR FALSIFYING OR WITHHOLDING INFORMATION.—

''(1) GENERAL RULE.—A person who violates section 1001 of title 18 with respect to the reporting requirements of section 30166, with the specific intention of misleading the Secretary with respect to motor vehicle or motor vehicle equipment safety related defects that have caused death or serious bodily injury to an individual, (as defined in section 1365(g)(3) of title 18), shall be subject to criminal penalties of a fine under title 18, or imprisoned for not more than 15 years, or both.

''(2) SAFE HARBOR TO ENCOURAGE REPORTING AND FOR WHISTLE BLOWERS.—

''(A) CORRECTION.—A person described in paragraph (1) shall not be subject to criminal penalties under this subsection if (1) at the time of the violation, such person does not know that the violation would result in an accident causing death or serious bodily injury and (2) the person corrects any improper reports or failure to report within a reasonable time.

''(B) REASONABLE TIME AND SUFFICIENCY OF CORRECTION.—The Secretary shall establish by regulation what constitutes a reasonable time for the purposes of subparagraph (A) and what manner of correction is sufficient for purposes of subparagraph (A). The Secretary shall issue a final rule under this subparagraph within 90 days of the date of enactment of this section.

''(C) EFFECTIVE DATE.—Subsection (a) shall not take effect before the final rule under subparagraph (B) takes effect.

''(b) COORDINATION WITH DEPARTMENT OF JUSTICE.—The Attorney General may bring an action, or initiate grand jury proceedings, for a violation of subsection (a) only at the request of the Secretary of Transportation.''.

(2) CLERICAL AMENDMENT.—The subchapter analysis for subchapter IV of chapter 301 of title 49, United States Code, is amended by adding at the end the following:

''30170. Criminal penalties.''.

SEC. 6. ACCELERATION OF MANUFACTURER REMEDY PROGRAM.

Section 30120(c) of title 49, United States Code, is amended by inserting at the end thereof the following:

''(3) If the Secretary determines that a manufacturer's remedy program is not likely to be capable of completion within a reasonable time, the Secretary may require the manufacturer to accelerate the remedy program if the Secretary finds—

''(A) that there is a risk of serious injury or death if the remedy program is not accelerated; and

''(B) that acceleration of the remedy program can be reasonably achieved by expanding the sources of replacement parts, expanding the number of authorized repair facilities, or both.

The Secretary may prescribe regulations to carry out this paragraph.''.

SEC. 7. SALES OF REPLACED TIRES.

Section 30120(d) of title 49, United States Code, is amended by adding at the end the

following: ''In the case of a remedy program involving the replacement of tires, the manufacturer shall include a plan addressing how to prevent, to the extent reasonably within the control of the manufacturer, replaced tires from being resold for installation on a motor vehicle, and how to limit, to the extent reasonably within the control of the manufacturer, the disposal of replaced tires in landfills, particularly through shredding, crumbling, recycling, recovery, and other alternative beneficial non-vehicular uses. The manufacturer shall include information about the implementation of such plan with each quarterly report to the Secretary regarding the progress of any notification or remedy campaigns.''.

SEC. 8. SALES OF REPLACED EQUIPMENT.

Section 30120 of title 49, United States Code, is amended by adding at the end the following:

''(j) PROHIBITION ON SALES OF REPLACED EQUIPMENT.—No person may sell or lease any motor vehicle equipment (including a tire), for installation on a motor vehicle, that is the subject of a decision under section 30118(b) or a notice required under section 30118(c) in a condition that it may be reasonably used for its original purpose unless—

''(1) the defect or noncompliance is remedied as required by this section before delivery under the sale or lease; or

''(2) notification of the defect or noncompliance is required under section 30118(b) but enforcement of the order is set aside in a civil action to which section 30121(d) applies.''.

SEC. 9. CERTIFICATION LABEL.

Section 30115 of title 49, United States Code, is amended by inserting ''(a) IN GENERAL.—'' before ''A manufacturer'' and by adding at the end the following:

''(b) CERTIFICATION LABEL.—In the case of the certification label affixed by an intermediate or final stage manufacturer of a motor vehicle built in more than 1 stage, each intermediate or final stage manufacturer shall certify with respect to each applicable Federal motor vehicle safety standard—

''(1) that it has complied with the specifications set forth in the compliance documentation provided by the incomplete motor vehicle manufacturer in accordance with regulations prescribed by the Secretary; or

''(2) that it has elected to assume responsibility for compliance with that standard.

If the intermediate or final stage manufacturer elects to assume responsibility for compliance with the standard covered by the documentation provided by an incomplete motor vehicle manufacturer, the intermediate or final stage manufacturer shall notify the incomplete motor vehicle manufacturer in writing within a reasonable time of affixing the certification label. A violation of this subsection shall not be subject to a civil penalty under section 30165.''.

SEC. 10. ENDURANCE AND RESISTANCE STANDARDS FOR TIRES.

The Secretary of Transportation shall conduct a rulemaking to revise and update the tire standards published at 49 C.F.R. 571.109 and 49 C.F.R. 571.119. The Secretary shall complete the rulemaking under this section not later than June 1, 2002.

SEC. 11. IMPROVED TIRE INFORMATION.

(a) TIRE LABELING.—Within 30 days after the date of enactment of this Act, the Secretary of Transportation shall initiate a rulemaking proceeding to improve the labeling of tires required by section 30123 of title 49, United States Code to assist consumers in identifying tires that may be the subject of a decision under section 30118(b) or a notice required under section 30118(c). The Secretary shall complete the rulemaking not later than June 1, 2002.

(b) INFLATION LEVELS AND LOAD LIMITS.—In the rulemaking initiated under subsection (a), the Secretary may take whatever additional action is appropriate to ensure that the public is aware of the importance of observing motor vehicle tire load limits and maintaining proper tire inflation levels for the safe operation of a motor vehicle. Such additional action may include a requirement that the manufacturer of motor vehicles provide the purchasers of the motor vehicles information on appropriate tire inflation levels and load limits if the Secretary determines that requiring such manufacturers to provide such information is the most appropriate way such information can be provided.

SEC. 12. ROLLOVER TESTS.

Section 30117 of title 49, United States Code, is amended by adding at the end the following:

''(c) ROLLOVER TESTS.—

''(1) DEVELOPMENT.—Not later than 2 years from the date of enactment of this subsection, the Secretary shall—

''(A) develop a dynamic test on rollovers by motor vehicles for the purposes of a consumer information program; and

''(B) carry out a program of conducting such tests.

''(2) TEST RESULTS.—As the Secretary develops a test under paragraph (1)(A), the Secretary shall conduct a rulemaking to determine how best to disseminate test results to the public.

''(3) MOTOR VEHICLES COVERED.—This subsection applies to motor vehicles, including passenger cars, multipurpose passenger vehicles, and trucks, with a gross vehicle weight rating of 10,000 pounds or less. A motor vehicle designed to provide temporary residential accommodations is not covered.''.

SEC. 13. TIRE PRESSURE WARNING.

Not later than one year after the date of enactment of this Act, the Secretary of Transportation shall complete a rulemaking for a regulation to require a warning system in new motor vehicles to indicate to the operator when a tire is significantly under inflated. Such requirement shall become effective not later than 2 years after the date of the completion of such rulemaking.

SEC. 14. IMPROVING THE SAFETY OF CHILD RESTRAINTS.

(a) IN GENERAL.—Not later than 12 months after the date of enactment of this Act, the Secretary of Transportation shall initiate a rulemaking for the purpose of improving the safety of child restraints, including minimizing head injuries from side impact collisions.

(b) ELEMENTS FOR CONSIDERATION.—In the rulemaking required by subsection (a), the Secretary shall consider—

(1) whether to require more comprehensive tests for child restraints than the current Federal motor vehicle safety standards requires, including the use of dynamic tests that—

(A) replicate an array of crash conditions, such as side-impact crashes and rear-impact crashes; and

(B) reflect the designs of passenger motor vehicles as of the date of enactment of this Act;

(2) whether to require the use of anthropomorphic test devices that—

(A) represent a greater range of sizes of children including the need to require the use of an anthropomorphic test device that is representative of a ten-year-old child; and

(B) are Hybrid III anthropomorphic test devices;

(3) whether to require improved protection from head injuries in side-impact and rear-impact crashes;

(4) how to provide consumer information on the physical compatibility of child restraints and vehicle seats on a model-by-model basis;

(5) whether to prescribe clearer and simpler labels and instructions required to be placed on child restraints;

(6) whether to amend Federal Motor Vehicle Safety Standard No. 213 (49 C.F.R. 571.213) to cover restraints for children weighing up to 80 pounds;

(7) whether to establish booster seat performance and structural integrity requirements to be dynamically tested in 3-point lap and shoulder belts;

(8) whether to apply scaled injury criteria performance levels, including neck injury, developed for Federal Motor Vehicle Safety Standard No. 208 to child restraints and booster seats covered by in Federal Motor Vehicle Safety Standard No. 213; and

(9) whether to include child restraint in each vehicle crash tested under the New Car Assessment Program.

(c) REPORT TO CONGRESS.—If the Secretary does not incorporate any element described in subsection (b) in the final rule, the Secretary shall explain, in a report to the Senate Committee on Commerce, Science, and Transportation and the House of Representatives Committee on Commerce submitted within 30 days after issuing the final rule, specifically why the Secretary did not incorporate any such element in the final rule.

(d) COMPLETION.—Notwithstanding any other provision of law, the Secretary shall complete the rulemaking required by subsection (a) not later than 24 months after the date of enactment of this Act.

(e) CHILD RESTRAINT DEFINED.—In this section, the term ''child restraint'' has the meaning given the term ''Child restraint system'' in section 571.213 of title 49, Code of Federal Regulations (as in effect on the date of enactment of this Act).

(f) FUNDING.—For each fiscal year, of the funds made available to the Secretary for activities relating to safety, not less than $750,000 shall be made available to carry out crash testing of child restraints.

(g) CHILD RESTRAINT SAFETY RATINGS PROGRAM.—No later than 12 months after the date of enactment of this Act, the Secretary of Transportation shall issue a notice of proposed rulemaking to establish a child restraint safety rating consumer information program to provide practicable, readily understandable, and timely information to consumers for use in making informed decisions in the purchase of child restraints. No later than 24 months after the date of enactment of this Act the Secretary shall issue a final rule establishing a child restraint safety rating program and providing other consumer information which the Secretary determines would be useful consumers who purchase child restraint systems.

(h) BOOSTER SEAT STUDY.—In addition to consideration of booster seat performance and structural integrity contained in subsection (b)(7), not later than 12 months after the date of enactment of this Act, the Secretary of Transportation shall initiate and complete a study, taking into account the views of the public, on the use and effectiveness of automobile booster seats for children, compiling information on the advantages and disadvantages of using booster seats and determining the benefits, if any, to children

from use of booster with lap and shoulder belts compared to children using lap and shoulder belts alone, and submit a report on the results of that study to the Congress.

(i) BOOSTER SEAT EDUCATION PROGRAM.—The Secretary of Transportation within 1 year after the date of enactment of this Act shall develop 5 year strategic plan to reduce deaths and injuries caused by failure to use the appropriate booster seat in the 4 to 8 year old age group by 25 percent.

SEC. 15. IMPROVING CRITERIA USED IN A RECALL.

(a) REVIEW OF STANDARDS AND CRITERIA USED IN OPENING A DEFECT OR NONCOMPLIANCE INVESTIGATION.—The Secretary shall, not later than 30 days after the date of enactment of this Act, undertake a comprehensive review of all standards, criteria, procedures, and methods, including data management and analysis used by the National Highway Traffic Safety Administration in determining whether to open a defect or noncompliance investigation pursuant to subchapter II or IV of chapter 301 of title 49, United States Code, and shall undertake such steps as may be necessary to update and improve such standards, criteria, procedures, or methods, including data management and analysis.

(b) REPORT TO CONGRESS.—Not later than 1 year after the date of enactment of this Act, the Secretary shall transmit to the Committee on Commerce of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate a report describing the Secretary's findings and actions under subsection (a).

SEC. 16. FOLLOW-UP REPORT.

One year after the date of enactment of this Act, the Secretary of Transportation shall report to the Congress on the implementation of the amendments made by this Act and any recommendations for additional amendments for consumer safety.

SEC. 17. AUTHORIZATION OF APPROPRIATIONS.

In addition to any sums authorized to be appropriated by sections 30104 or 32102 of title 49, United States Code, there is authorized to be appropriated to the Secretary of Transportation for the National Highway Traffic Safety Administration for fiscal year 2001 $9,100,000 to carry out this Act and the amendments made by this Act. Such funds shall not be available for the general administrative expenses of the Secretary or the Administration.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Louisiana (Mr. TAUZIN) and the gentleman from Michigan (Mr. DINGELL) each will control 20 minutes.

The Chair recognizes the gentleman from Louisiana (Mr. TAUZIN).

GENERAL LEAVE

Mr. TAUZIN. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks and to include extraneous material on H.R. 5164.

The SPEAKER pro tempore (Mr. RYAN of Wisconsin). Is there objection to the request of the gentleman from Louisiana?

There was no objection.

Mr. TAUZIN. Mr. Speaker, I yield myself 6 minutes.

Mr. Speaker, I am proud to rise in support of this bill, H.R. 5164, the Transportation Recall Enhancement, Accountability, and Documentation Act, or the TREAD act, introduced by my colleague the gentleman from Michigan (Mr. UPTON), the chairman of the Subcommittee on Oversight and Investigations of the Committee on Commerce of the House.

Together our two subcommittees have been working to uncover the facts surrounding the Firestone tire recall action focusing primarily on the action as it pertains to relevant Ford vehicles, in particular one of the Nation's most popular SUVs, the Ford Explorer.

I want to begin by thanking my dear friend the gentleman from Michigan (Mr. DINGELL) and the ranking minority member of our subcommittee, the gentleman from Massachusetts (Mr. MARKEY), again as well as the gentleman from Michigan (Mr. UPTON), the author of this legislation, for not only the success we have had in bringing this bill to the floor but more importantly for I think an extraordinary investigative series of hearings, an investigation that even now goes on.

Up here in Congress we always hear about how we must act on something because it is life or death. Well, in regard to this situation, no one has been exaggerating. This is about life and death.

As we are aware, Bridgestone/Firestone announced on August 9 a voluntary recall of 6.5 million of its 15-inch tires used on light trucks and sport utility vehicles. The recalled tires and other tires have been implicated in an increasing number of deaths and injuries in the United States, and the investigation is indeed far from complete.

Despite the ongoing investigation by NHTSA, the question of what is the precise cause of these tire tread separation accidents remains largely unanswered.

At our hearings we did not expect to find the smoking gun. Instead, the main purpose of our joint hearings was to find out what happened with the process, who knew what, and what they did with the information that was available to them.

We heard from the companies and from NHTSA on their progress in getting to the root cause of the tire failures on these Ford Explorers. We examined the testing done by Firestone and Ford on those tires, and we delved into what type of testing did the National Highway Traffic Safety Administration actually require and was that enough to protect the American public.

It was the hope of every member of the two subcommittees that we would work together in a bipartisan fashion to use these hearings and this horrible experience to learn how to correct the process and, more importantly, how to prevent something of this magnitude from ever happening again.

I would like to again express my sincere appreciation to Members on both sides of the aisle of the Committee on Commerce for working together in such a constructive fashion to craft what we believe is very reasonable and targeted legislation to ameliorate the shortfalls in our law that were uncovered in the hearings and in the ongoing investigation.

Given the extraordinary time constraints associated with the task, it was absolutely imperative that this legislation move through the committee process as quickly as possible.

In that regard, I wish to thank the staff and the chairman of the Committee on the Judiciary who were very helpful in working with the Committee on Commerce. We are often at odds in jurisdictional debates, but the Committee on the Judiciary was extremely helpful in crafting those sections of our bill that have to do with criminal sanctions.

H.R. 5164 is intended to address problems raised in the investigation and the accompanying hearings. The hearings highlighted the fact that the information available to NHTSA regarding motor vehicles and these tires was in fact inadequate.

It also became clear that NHTSA did not effectively use the data that was available to spot trends that were related to these tire failures.

I would like to touch on some of the important provisions contained in the bill.

□ 0000

The bill, for example, requires that manufacturers report actual and potential defects in motor vehicles and products in foreign countries. This covers similar models, not just those models offered for sale in the United States.

The bill directs the Secretary to promulgate rules to require manufacturers to provide early warning reporting data, including warranty and claims data and such other data as may be requested by the Secretary. I am particularly thankful for our friend the gentleman from Massachusetts (Mr. MARKEY) for the language in this area. Importantly, the Secretary must make certain findings regarding the need and utilization of this data. We require NHTSA to harmonize the collection of this information in a manner that enables it to quickly and more efficiently identify problematic patterns in products and vehicles.

The bill lengthens the period in which a manufacturer of a motor vehicle or a tire must remedy the defect without charge, and directs the Secretary to conduct a rulemaking to upgrade the 30-year-old tire standard to bring it in line with modern tire technology.

The bill directs the Secretary to review procedures for opening a defect investigation and directs the Secretary to conduct a rulemaking to improve tire labeling so that we do not have to

crawl under our cars to see what our tires are really made of and what size and what pressure they should be operated under.

The bill prohibits the resale of motor vehicle equipment removed and replaced as a part of a recall. It provides additional funding for NHTSA consistent with the appropriation already provided tied to carrying out the provisions of this act.

The bill increases civil penalties to $5,000 per violation per day and a maximum of $15 million and it provides enhanced criminal penalties for violations of existing law that requires filing honest and good information with the government and provides that a person who has specific intent of misleading the Secretary with respect to motor vehicle defects that have caused death or serious bodily injury would suffer more serious criminal penalties.

Importantly, the bill encourages the reporting of information and provides a safe harbor for those who do, but it makes that safe harbor only available to someone who did not actually have actual knowledge that false reporting or incorrect reporting would result in serious injury or death.

Mr. Speaker, I urge all of my colleagues to report this very reasonable bipartisan legislation that passed our committee on a 43–0 vote. I encourage literally the House to pass it on to the Senate and to do this important thing for this Nation to make sure this national tragedy does not happen again in the future.

Mr. Speaker, I reserve the balance of my time.

Mr. DINGELL. Mr. Speaker, I yield myself 3 minutes.

Mr. Speaker, I rise in support of H.R. 5164, the Transportation Recall Enhancement, Accountability and Documentation Act. This is important legislation of which I was a cosponsor and it has bipartisan support. It was reported by the Committee on Commerce by a unanimous recorded vote of 42–0.

Firestone's recall of 14.4 million tires which it announced in August of this year is the second largest tire recall ever. It is surpassed only by Firestone's recall of 14.5 million tires in 1978. The recent recall came about only after Ford Motor Company whose vehicles were equipped with many of the recalled tires was given access to Firestone's claims data in late July and was able to link 46 deaths and a large number of claims to accidents involving two 15-inch models of Firestone tires, the ATX and the Wilderness AT.

Since August 9, the number of fatalities attributable to accidents involving the recall of Firestone tires has grown to 101 according to NHTSA, the National Highway Traffic Safety Administration.

Mr. Speaker, I would note that the gentleman from Louisiana (Mr. TAUZIN), the gentleman from Michigan (Mr. UPTON), and the gentleman from Massachusetts (Mr. MARKEY) deserve a great deal of credit for what has transpired here as does the gentleman from Minnesota (Mr. LUTHER), the gentleman from Illinois (Mr. SHIMKUS) and the gentleman from Ohio (Mr. SAWYER). They have worked hard, as have a number of other Members too numerous to be mentioned at this time.

In any event, the legislation is necessary. It needs to be adopted at an early time.

Mr. Speaker, I rise in support of H.R. 5164, the Transportation Recall Enhancement, Accountability, and Documentation Act. This important legislation, of which I am a cosponsor, has broad-based, bipartisan support. It was reported out of the Commerce Committee by a unanimous, recorded vote of 42 to 0.

Firestone's recall of 14.4 million tires, which it announced on August 9th of this year, is the second largest tire recall ever. It is surpassed only by Firestone's recall of 14.5 million tires in 1978.

The recent recall came about only after Ford Motor Company, whose vehicles were equipped with many of the recalled tires, was given access to Firestone's claims data in late July and was able to link 46 deaths and a large number of claims to accidents involving two 15-inch models of Firestone tires—the ATX and the Wilderness AT. Since August 9th, the number of fatalities attributable to accidents involving the recalled Firestone tires has grown to 101, according to the National Highway Traffic Safety Administration (NHTSA).

Even today, countless Americans are on the road—picking up their kids, driving to work—and the last thing that should worry them is the quality and soundness of their tires.

Mr. Speaker, time is of the essence. H.R. 5164 can and should be enacted into law this year. It directly responds to the problems that the committee's hearings uncovered in the Firestone tire recall case. The legislation directs the National Highway Traffic Safety Administration (NHTSA) to develop a plan for analyzing and using information it receives. This is important because the hearings showed that more than two years ago, NHTSA had information on 47 cases of tread separation involving the recalled tires, but failed to do anything with the information it already had.

In addition, this legislation requires manufacturers to give NHTSA claims data and other information that proved to be so important in the Firestone case. If this legislation becomes law, manufacturers will have to notify NHTSA about recalls or customer satisfaction actions taken in foreign countries. Furthermore, new enhanced criminal penalties will apply to manufacturers and others, if they knowingly and willfully withhold or falsify information with the specific intention of misleading the Secretary concerning safety related defects that have caused death or serious bodily injury.

Mr. Speaker, the criminal penalties provided in this legislation fit the requirements set out by Transportation Secretary Rodney Slater when he testified before the committee. At that time, Secretary Slater said the wrong kind of criminal penalties could slow down NHTSA's enforcement activities, and that he would only support criminal penalties for ''egregious activity'' and ''serious matters''. The criminal penalties provided in the legislation strike the proper balance between holding people accountable for their actions without discouraging voluntary reporting and cooperation with government agencies.

We have adopted an amendment on criminal penalties which will ensure that the safe harbor provisions cannot be used by an individual if that individual had actual knowledge at the time of the violation that the violation would result in accident causing death or serious bodily injury, as the gentleman from Louisiana, Mr. TAUZIN, stated in his explanation of the provision.

Mr. Speaker, I also call to my colleagues' attention the fact that this legislation authorizes $9.1 million for NHTSA, the full amount that the Agency requested to deal with matters related to the Firestone tire recall. While budget cuts in the past may have hindered NHTSA's activities in important areas, it is clear that, at this time, Republican, and Democratic members of the committee recognize the importance of NHTSA's work.

I would note, however, that we must move quickly, if we are to help NHTSA prevent a recurrence of the kind of problem that occurred in the Firestone case. Time is quickly running out for this Congress. While there is not enough time to solve every problem at NHTSA, we can, and we should, enact legislation to deal with the major problems uncovered in the committee's investigation of the recent Firestone tire recalls.

Mr. Speaker, public concern is great, and not just about the dangers of driving on the recalled tires. The public rightly perceives that both Firestone and NHTSA failed to respond early on to information and warnings that should have alerted them to the problems with the recalled Firestone tires. Those failures caused consumers to be exposed to risks of injury and death far longer than should have been the case. Both NHTSA and the companies involved need to take affirmative steps to restore public confidence.

Mr. Speaker, enactment of this legislation will help restore public confidence. I urge my colleagues to support H.R. 5164.

Mr. Speaker, I reserve the balance of my time.

Mr. TAUZIN. Mr. Speaker, I am pleased to yield 5 minutes to the gentleman from Michigan (Mr. UPTON), the author of this legislation, the chairman of the Subcommittee on Oversight and Investigations.

Mr. UPTON. Mr. Speaker, I would like to associate my remarks with those that have gone before me, both my good friend down the hall, my colleague from the great State of Michigan (Mr. DINGELL), and certainly the chairman of the Subcommittee on Telecommunications, Trade and Consumer Protection, the gentleman from Louisiana (Mr. TAUZIN).

This effort has been bipartisan from the very start, from the very get-go. There are a lot of people here to thank. Obviously the gentleman from Virginia (Mr. BLILEY) for getting this on the fast track through subcommittee and

full committee last week, the hearings that the gentleman from Louisiana (Mr. TAUZIN) and I conducted last month, the many hours of hearings, and his leadership on this has been refreshing for the Congress to get this done. But particularly as we have reached across on both sides of the aisle, working with my good friend the gentleman from Michigan (Mr. DINGELL), the gentleman from Massachusetts (Mr. MARKEY) and others and the Committee on the Judiciary, we have in fact put together a bill that is solid, that is common sense. We identified major problems and we addressed them with this legislation.

I looked back at the record back in the 1970s. There was another big tire recall. It was the Firestone 500 tire. A lot of evidence came forth. A lot of problems were identified. Yet the Congress did not move, the House or Senate, to actually correct it and here we are 25, 30 years later and we are undergoing the same thing. But this is much more of a tragedy, for we have lost more than 100 lives because of these tires. We have seen hundreds and hundreds of accidents, many serious injuries. What this bill does is it corrects those problems.

As chairman of the Subcommittee on Oversight and Investigations, our investigative staff went out and, in fact, we did collect the evidence, we did identify the problems, and we worked very closely with the legislative subcommittee, and the gentleman from Louisiana (Mr. TAUZIN) did a wonderful job of laying that out in the many days and the many hours of hearings that we had the last 6 weeks. And we worked in a bipartisan fashion to get this thing done. And here we are early now in the morning, in the waning days of the Congress trying to complete this task.

The gentleman from Louisiana talked about the many positives about this bill so that in fact this cannot happen again. And now passing this tonight as we will do, or this morning I guess I should say, working with the Senate to make sure that this gets done, already talking with the White House to make sure that this bill lands on the President's desk and he is going to be able to sign it. Shame on us, shame on this Congress if we cannot get this bill done in the last couple of days.

I think it is a terrific credit to the staff, to the Members, to get this bill done tonight in this bipartisan way dealing with the information that we learned over the last 4 or 5 weeks, working with all those involved on this very important issue to in fact put together a bill that would pass in the full Committee on Commerce, 42–0, and again hopefully on the floor tonight without dissent.

Mr. DINGELL. Mr. Speaker, I yield 3 minutes to the distinguished gentleman from Massachusetts (Mr. MARKEY).

Mr. MARKEY. Mr. Speaker, I thank the gentleman from Michigan very much for yielding me this time.

I too want to go down the litany of saints who have participated in the construction of this piece of legislation, the gentleman from Michigan (Mr. DINGELL), the gentleman from Minnesota (Mr. LUTHER) on our side along with many others, the gentleman from Louisiana (Mr. TAUZIN), the gentleman from Michigan (Mr. UPTON), the gentleman from Virginia (Mr. BLILEY) and many others on the other side.

This has been a piece of legislation which obviously has had to move very quickly. I thank the majority for their cooperation, including three amendments that I was particularly interested in: Dynamic testing so that we would be able to ensure that there is a better understanding of exactly what happens to these vehicles under road conditions rather than some static test that really does not test the full capabilities of vehicles; ensuring that there is a warning system in vehicles in the event that there is a problem with pressure of a tire that could cause a danger to those who are using the car or any vehicle; and an early warning system as well so that there is ample notification that there could be defects in any of these products.

What I would like to do right now is to rise to engage the gentleman from Louisiana in a colloquy in order to provide some clarification concerning two matters of particular concerns to the public.

□ 0010

First, under the section entitled ''early warning requirements,'' we provide for the reporting of new information to NHTSA generally at an earlier stage than the stage when an actual recall takes place based on the finding of a defect. To protect the confidentiality of this new early stage information, the bill provides in Section 2(b) in the subsection titled ''disclosure'' that such information shall be treated as confidential unless the Secretary makes a finding that its disclosure would assist in ensuring public safety, but with respect to information that NHTSA currently requires be disclosed to the public it is my understanding of the committee's intention that we not provide manufacturers with the ability to hide from public disclosure information which under current law must be disclosed. Would the gentleman from Louisiana (Mr. TAUZIN) agree that this special disclosure provision for new early stage information is not intended to protect from disclosure that is currently disclosed under existing law such as information about actual defects or recalls?

Mr. TAUZIN. Mr. Speaker, will the gentleman yield?

Mr. MARKEY. I yield to the gentleman from Louisiana.

Mr. TAUZIN. Mr. Speaker, the gentleman is correct.

Mr. MARKEY. Mr. Speaker, I think my wife is calling me here. I will not answer it at this time.

Hon, I will be calling you back in just a second.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (Mr. RYAN of Wisconsin). The gentleman will disable his telephone.

Mr. MARKEY. Mr. Speaker, I would like to engage the gentleman from Louisiana (Mr. TAUZIN) in this colloquy.

Second, in the same section in the subsection entitled ''information in the possession of manufacturer,'' we provide that the Secretary may not require a manufacturer to maintain and submit records respecting information not in the possession of the manufacturer. Concern has been expressed that this provision not become a loophole for unscrupulous manufacturers who might be willing to destroy a record in order to demonstrate that it is no longer in its possession. Would the gentleman agree that it is in the Secretary's discretion to require a manufacturer to maintain records that are in fact in the manufacturer's possession and that it would be a violation of such a requirement to destroy such a record?

Mr. TAUZIN. Mr. Speaker, will the gentleman yield?

Mr. MARKEY. I yield to the gentleman from Louisiana.

Mr. TAUZIN. The gentleman is again correct.

Mr. MARKEY. Mr. Speaker, I thank the gentleman from Louisiana (Mr. TAUZIN) for his responses.

Mr. Speaker, I note the gentleman from Illinois who is here and he deserves special praise for his work on child safety seats.

Mr. TAUZIN. Mr. Speaker, will the gentleman yield?

Mr. MARKEY. I yield to the gentleman from Louisiana.

Mr. TAUZIN. Mr. Speaker, I simply again want to tell the gentleman again how much I deeply appreciate his contributions to the legislation and to the hearings.

Mr. MARKEY. Mr. Speaker, I hope that we can pass this TREAD bill this year so we do not have to come back.

I wanted to make sure that everyone understand how important it is that we move together to pass this legislation this year.

Mr. TAUZIN. Mr. Speaker, I yield such time as he may consume to the gentleman from Illinois (Mr. SHIMKUS), a member of the Committee on Commerce.

Mr. SHIMKUS. Mr. Speaker, I rise in support of H.R. 5164, the TREAD Act, and I would like to thank the gentleman from Virginia (Mr. BLILEY), the

gentleman from Louisiana (Mr. TAUZIN), the gentleman from Michigan (Mr. UPTON), the gentleman from Massachusetts (Mr. MARKEY) for his help and, of course, the ranking member, the gentleman from Michigan (Mr. DINGELL) for their support in this legislation.

We worked hard in the Committee on Commerce to find out why our safety organization cannot connect the dots, identify the problem and warn consumers about the Ford Firestone accidents. The TREAD Act is our response. I also want to thank the chairman for including provisions in my bill, the Child Passenger Safety Act of 2000. Each year more than 1,500 children below the age of 9 are killed and another 20,000 suffer incapacitating injuries in motor vehicle crashes. Parents put their trust in the government standards to assure them that they are purchasing a safe child restraint seat. Unfortunately, like current tire standards, Federal car seat standards are woefully outdated. Testing and manufacturing standards are based on tests performed on a sled not in a real car, and only measure frontal impacts. Car seats are not subject to dynamic testing in various crash modes such as side, rear and rollover impacts. These would measure the durability of each seat when subject to real crash scenarios.

In addition, Federal standards and regulations do not address the safety needs of children over the age of 4 who weigh more than 50 pounds. It is not well-known that over-the-shoulder seat belts are not always safe for children. Booster seats should be used as a transition safety device for toddlers and small children. However, Federal standards have not been developed for manufacturers of boosters.

As a parent of three young boys, I know firsthand that there is a lack of useful consumer information regarding child restraints to assist parents in making the best safety seat selections for their children. That is why I introduced the Child Passenger Safety Act. This legislation included in the TREAD Act will enhance the safety of children in motor vehicles by requiring the National Highway Traffic Safety Administration to improve child restraint safety performance testing and standards and provide parents with better consumer information and labeling for child restraints.

The National Highway Traffic Safety Administration should be about the job of highway traffic safety. In passing the TREAD Act with the inclusion of the Child Passenger Safety Act and signing it into law, they can be about their business.

Mr. DINGELL. Mr. Speaker, I yield 3 minutes to the distinguished gentleman from Minnesota (Mr. LUTHER).

Mr. LUTHER. Mr. Speaker, I certainly want to thank the same key players here that have already been thanked adequately, the gentleman from Louisiana (Mr. TAUZIN), the gentleman from Virginia (Mr. BLILEY), the gentleman from Michigan (Mr. DINGELL), the gentleman from Michigan (Mr. UPTON), the gentleman from Massachusetts (Mr. MARKEY) and the staffs, as well as my own staff, for the excellent work in developing this sensible bipartisan piece of legislation.

Mr. Speaker, I particularly want to highlight sections 7 and 8 of the bill. Those sections reflect an amendment that I authored that was added with the support of the gentleman from Louisiana (Mr. TAUZIN), with the support of other Members in the Committee on Commerce. The goal that we had in adopting that particular amendment was, quite frankly, to get these tires off the road just as quickly as possible.

I think there was general consensus that today there are still too many recalled tires in use. There are too many waiting lists at dealers in this country. That is an unacceptable situation and presents much too great of a risk to the consumers of America.

First, under Section 7, tire manufacturers are absolutely required to print tire ID numbers so that consumers can easily determine if their tire is subject to a recall. We heard information to the effect that mechanics even today are having a hard time determining if a particular tire is subject to a recall. This will require that those ID numbers be on the sidewalls so that consumers themselves can make this determination.

Secondly, Section 8 gives the government the flexibility and authority to require manufacturers to fully reimburse consumers for replacing defective parts with competitors' parts even if the manufacturer is unable to do so in a timely basis. The goal there being, let us get the problem taken care of and worry about the compensation later.

□ 0020

Moreover, manufacturers can be directed to fully reimburse consumers who replace the defective parts before the formal recall occurs.

At this very moment, Firestone is having difficulty replacing their defective parts with new, safer parts. This delay puts consumers, as I mentioned, at risk, at an unacceptable risk of serious injury or death to them or to their family members.

What this Section 8 will do is ensure that in the future, dangerous and defective parts will be off the road as quickly as possible.

Again, I want to commend my colleagues on the Committee on Commerce for bringing this bill to the floor, this pro-consumer bill, this year, and for their commitment to getting this passed into law this year. I think it is just outstanding the work that has been done in this regard.

I think what this act does show is that when we work together in a bipartisan manner like this, we can accomplish good things for the American consumer and attempt to ensure that tragedies like the one that we heard in this committee will never happen again.

Mr. DINGELL. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. TAUZIN. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, let me close very briefly. I do want to make a few comments.

First of all, I want to say a word to the investigators on the Committee on Commerce. I think the Nation owes them a debt of gratitude. The investigators on the Democratic and Republican side of the aisle who work for our Committee on Commerce have done incredible work.

Those who witnessed the hearings by which our Committee on Commerce and our two subcommittees delved into the causes of this problem, and hopefully the solutions that we bring to the House floor tonight, those hearings were in large measure determined by the great work of the investigative staff of our committee. I wanted to say a word of thanks to them. I think indeed our country is going to be better off because of their work.

Secondly, I thought we ought to think about tonight the victims of this tragedy, the victims and their families. There are people still being injured and still, unfortunately, suffering severe injury, even death on the highway, as this awful recall continues. It may be the worst recall I have seen in all my years in public service.

Until it is finished, until every family has safe tires to ride upon, our committee will continue its investigation and continue pressing the companies involved here to complete this recall in as quick a fashion as possible.

I also think we ought to think about the workers at these two companies. I know they have been terribly stressed by this awful position the two companies find themselves in, both Bridgestone/Firestone and also the Ford Motor Company.

Obviously, this has been a trying time for all the families of the workers who support these two great American companies. On the other hand, both companies obviously have a lot to answer to as this investigation continues.

I think the work we did is going to help victims recover in the courts of our land, recover damages for accidents and deaths. I hope that will be one of the good effects of our investigation, that the facts we uncovered will assist them in proper recovery.

I also want to make the point that what we have tried to do is not determine who was liable, either civilly or otherwise. What we have tried to do is find out what was wrong with the process.

In doing so, I wanted to first of all commend NHTSA for the many, many lives it has saved over the years and the good work that our national highway safety transportation agency does.

We believe, from the facts we have found, that someone dropped the ball in this case. That is regrettable. But I think that should not take away from the fact that NHTSA is still a great agency that protects safety on the highways, and has in fact saved many lives.

Finally, I wanted to point out that the legislation we will finally pass tonight is all about information. It is about getting the information in the proper hands so that, instead of an awful recall, instead of a body count accumulating before defective products are taken off the market, that in fact those products never make it to the marketplace in the first place, that we do not have to suffer the loss of American citizens to find out that something went wrong.

Again, I want to thank all of my colleagues and all the staffs for the great work on this bill. I hope that before we adjourn this session, the words of the gentleman from Michigan (Mr. UPTON) will ring in the ears of everyone who is left to consider that, that it would be an awful shame if we left this session without putting this bill for signature on the President's desk.

Mr. HYDE. Mr. Speaker, we all understand the importance of this legislation. It would have been difficult, if not impossible, to ignore the well publicized incidents involving motor vehicles and their tires which have been highlighted in excellent oversight hearings by the Committee on Commerce. The result of these hearings has been to call into question the sufficiency of the regulatory scheme governing the motor vehicle industry, and to ask whether further incentives are needed to ensure that safety information will be made available to the public in a timely fashion. It was the considered opinion of the Commerce Committee that changes were needed, as evidenced by this bipartisan legislation that we have before us.

The TREAD Act, as it is known, strengthens current reporting requirements about defects in motor vehicles, tires, or other motor vehicle equipment. It would also require reporting of defects in motor vehicles and products which occur in foreign countries, something that many believe would have saved lives had it been in place when safety incidents began occurring in places such as Venezuela and Saudi Arabia. As part of this intensified reporting scheme, H.R. 5164 would subject persons who intentionally violate these, as well as existing, reporting requirements to heightened criminal fines and penalties.

In my view, this new criminal penalty section strikes an eminently reasonable balance. It penalizes truly intentional acts of withholding or falsifying safety information while continuing to encourage the motor vehicle industry to provide full information to the National Highway Transportation Safety Administration about possible safety problems involving their products. I see no striking departure in this legislation from existing principles of criminal law. In fact, if anything, it builds on current law. Section 1001 of Title 18 makes it a crime to make a false statement to the government. The Attorney General currently may, and will continue to have the authority to, prosecute anyone who either makes false reports to the NHTSA, or who fails to disclose information that is required by statute. What this bill does in rightly recognize that withholding information that, if known, could be the difference between life or death should carry a higher penalty. What it means, in essence, is that a person who intends to mislead the government about safety related defects will be subject to a harsher penalty than one who, just through reckless indifference, submits a form that contains false information. Both of these acts currently carry a maximum jail sentence of five years. Under H.R. 5164, an intentional misstatement (or omission) of information about safety related defects would lead to a trebled maximum penalty of 15 years.

Under normal circumstances, the Committee on the Judiciary would have formally asserted and exercised its jurisdiction over the criminal penalties section of this legislation. However, at this late stage in the session it would have been difficult for us to do so without running the risk that it become delayed or bogged down by procedural roadblocks. Given the importance of this bill, we instead chose to work closely with the Commerce Committee and its staff to develop and perfect the criminal provisions. Included in our consultations with the Commerce Committee was a discussion of many of the issues that were identified to us by the Department of Justice. Where possible, we incorporated their constructive suggestions.

I have been assured, however, that by electing not to formally exercise the committee's jurisdiction over these important criminal sections, we have in no way waived or limited our right to be fully represented on any conference committee that might be appointed to resolve differences with the Senate.

It is my strong hope that this legislation will be enacted before the end of this legislative session, and that the new criminal provisions it contains will have the desired deterrent effect on the withholding of safety information, and a concurrent salutory effect on the safety of the motor vehicles available to American consumers. I congratulate its sponsors for their hard work in crafting a balanced measure which they were able to bring to the floor so expeditiously, and in such a bipartisan manner.

Mr. GREEN of Texas. Mr. Speaker, I rise today in support of H.R. 5164, the TREAD Act. This bill, of which I am a cosponsor, was introduced by my friends on the Commerce Committee, Representatives TAUZIN and UPTON.

I would like especially to thank Representative TAUZIN, the Chairman of the Telecommunications Subcommittee, for his willingness to work with our office on the two amendments, which were accepted.

These amendments, which deal with keeping recalled and defective equipment out of the stream of commerce and the safety testing of vehicles, addressed key consumer safety issues and I am pleased they were included in this important legislation.

Overall, this legislation will require companies to report foreign recalls to the National Highway Traffic Safety Administration (NHTSA) within five days.

In addition, manufacturers will now be required to contact NHTSA immediately if they begin to notice a significant number of injuries associated with their product.

The legislation will also increase the civil penalties and add criminal penalties to better encourage those companies to err on the side of caution if there is a safety question.

Mr. Speaker, I believe that this bill will make our roads a safer place and it serves as a good starting point for when we take up the reauthorization of NHTSA next Congress.

Mr. WAXMAN. Mr. Speaker, I rise in support of this bill because we need legislation that will improve the flow of important safety information from motor vehicle and motor vehicle parts manufacturers to federal regulators and consumers. This bill does not do all it should, but it does represent a modest step forward. And even more importantly, further improvements are possible in discussions with the Senate as we craft final legislation.

There are several deficiencies in the bill that should be addressed by the conference committee in the event that Senator MCCAIN'S bill, S. 3059, passes the Senate. Foremost among these are provisions that have the appearance of criminal penalties but will, in all likelihood, have no meaningful impact.

The criminal provisions in this bill would only extend to a particularly exotic variety of false statements. It does nothing to punish a manufacturer's willful introduction of a deadly and defective product onto the market. Nor does it punish a manufacturer's knowing failure to act to prevent a deadly and defective product from reaching consumers. That is the type of conduct that the government needs to deter and needs to punish through the criminal law.

In fact, the criminal provisions in this bill are probably unenforceable. To obtain a conviction under this bill, a prosecutor would first have to prove up all of the elements of a criminal false statement with respect to an auto safety reporting requirement. That conduct is already punishable by imprisonment under existing law, 18 U.S.C. 1001. In addition, a prosecutor would need to prove that the accused made the false statement with (1) the specific intent, (2) to mislead the Secretary of Transportation, (3) with respect to safety related defects, (4) that caused death or grievous bodily harm to an individual. That's not all. On top of all that, a prosecutor must also prove that the accused failed to correct the error or omission within a reasonable time. How long a reasonable time is, and what exactly constitutes a correction is anyone's guess. The bill leaves it up to the Secretary of Transportation.

If those aren't enough obstacles to successful enforcement, there's more: The Justice Department may only prosecute a violation of this statute at the request of the Transportation Secretary. A prosecutor can not commence a prosecution if the Secretary fails or refuses to act.

There are so many obstacles to prosecution in this bill that it would probably never be used successfully, and it will probably do little to

deter the egregious misconduct that we're all concerned about. We can and must do better than that.

The provisions Senator MCCAIN has included in S. 3059, while not perfect, are at least a better approach. The Senate bill focuses, not on false statements to government regulators, but more appropriately on a manufacturer's intentional failure to act to prevent a serious accident. That bill would make it unlawful for a director, officer, or agent of a manufacturer to authorize, order, or ratify the introduction of a motor vehicle or motor vehicle equipment if he or she knew that the company had failed to comply with a safety standard or failed to report a defect; knew the condition of a vehicle created an ''imminent serious danger of death or grievous bodily harm;'' and knew that the condition actually caused grievous bodily harm or death. I believe this provision more directly addresses the problem and will more effectively deter a manufacturer from ignoring serious safety defects simply to pursue a profit.

If and when this bill reaches the conference committee, we should at least adopt the Senate provision. I intend to work with Senator MCCAIN to further improve the criminal penalty provisions he has already included.

This legislation also fails to provide the National Highway Traffic Safety Administration with the civil enforcement provisions that they say they need. NHTSA has been hamstrung by its inability to assess civil penalties administratively. Almost every other regulatory agency has this authority, including the Environmental Protection Agency, the Food and Drug Administration, and agencies within the Department of Transportation. While NHTSA has requested this authority, the House Commerce Committee has denied it.

This creates the baffling situation where members of Congress are attacking NHTSA for not enforcing motor vehicle safety laws more aggressively, while denying NHTSA's request for adequate enforcement powers.

Finally, there are also lost opportunities in this legislation. In the early 1970's, NHTSA issued a roof crush resistance standard for passenger cars. This standard is outdated and fails to model what happens in real-world crashes.

This is a very serious matter. According to NHTSA, in 1998 there were almost 11 million vehicle crashes involving rollovers. Over 3.6 million of those accidents resulted in injury or death. Rollovers played a part in over 15 percent of the passenger car crashes that resulted in fatalities. Rollovers occurred in 36 percent of sport utility vehicle accidents that resulted in fatalities.

This legislation should require NHTSA to issue a new roof crush standard. Our cars have changed remarkably since the 1970's, and it's just commonsense that our safety standards ought to keep pace with these changes.

Mr. Speaker, this is the time to pass strong legislation that provides meaningful protection for the public. I urge my colleagues to pass this bill so that we can work with the Senate to craft legislation that families across our country deserve.

Mr. TAUZIN. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore (Mr. RYAN of Wisconsin). The question is on the motion offered by the gentleman from Louisiana (Mr. TAUZIN) that the House suspend the rules and pass the bill, H.R. 5164, as amended.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the bill, as amended, was passed.

A motion to reconsider was laid on the table.

LEAVE OF ABSENCE

By unanimous consent, leave of absence was granted to:

Ms. CARSON (at the request of Mr. GEPHARDT) for today on account of official business.

Mr. STARK (at the request of Mr. GEPHARDT) for today on account of health reasons.

Mr. POMBO (at the request of Mr. ARMEY) for today on account of attending a funeral.

SPECIAL ORDERS GRANTED

By unanimous consent, permission to address the House, following the legislative program and any special orders heretofore entered, was granted to:

(The following Members (at the request of Mr. LUTHER) to revise and extend their remarks and include extraneous material:)

Mrs. MALONEY of New York, for 5 minutes, today.

Mr. FILNER, for 5 minutes, today.

Mr. SCOTT, for 5 minutes, today.

Mr. HOYER, for 5 minutes, today.

SENATE BILLS REFERRED

Bills of the Senate of the following titles were taken from the Speaker's table and, under the rule, referred as follows:

S. 1756. An act to enhance the ability of the National Laboratories to meet Department of Energy missions, and for other purposes; to the Committee on Science; in addition to the Committee on Armed Services for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

S. 2686. An act to amend chapter 36 of title 39, United States Code, to modify rates relating to reduced rate mail matter, and for other purposes; to the Committee on Government Reform.

S. 3062. An act to modify the date on which the Mayor of the District of Columbia submits a performance accountability plan to Congress, and for other purposes; to the Committee on Government Reform.

ENROLLED BILLS SIGNED

Mr. THOMAS, from the Committee on House Administration, reported that the committee had examined and found truly enrolled bills of the House of the following titles, which were thereupon signed by the Speaker.

H.R. 1509. An act to authorize the Disabled Veterans' LIFE Memorial Foundation to establish a memorial in the District of Columbia or its environs to honor veterans who became disabled while serving in the Armed Forces of the United States.

H.R. 5284. To designate the United States customhouse located at 101 East Main Street in Norfolk, Virginia, as the ''Owen B. Pickett United States Customhouse.''

On October 7, 2000:

H.R. 4733. Making appropriations for energy and water development for the fiscal year ending September 30, 2001, and for other purposes.

H.R. 4578. Making appropriations for the Department of the Interior and related agencies for the fiscal year ending September 30, 2001, and for other purposes.

On October 10, 2000:

H.R. 4444. To authorize extension of nondiscriminatory treatment (normal trade relations treatment) to the People's Republic of China, and to establish a framework for relations between the United States and the People's Republic of China.

ADJOURNMENT

Mr. TAUZIN. Mr. Speaker, pursuant to House Resolution 618, I move that the House do now adjourn in memory of the late Hon. BRUCE F. VENTO.

The motion was agreed to; accordingly (at 12 o'clock and 25 minutes a.m.), pursuant to House Resolution 618, the House adjourned in memory of the late Hon. BRUCE F. VENTO until today, October 11, 2000, at 10 a.m.

EXECUTIVE COMMUNICATIONS, ETC.

Under clause 8 of rule XII, executive communications were taken from the Speaker's table and referred as follows:

10514. A letter from the Under Secretary, Food, Nutrition, and Consumer Services, Department of Agriculture, transmitting the Department's final rule—FOOD STAMP PROGRAM, REGULATORY REVIEW: Electronic Benefit Transfer (EBT) Provisions of the Personal Responsibility and Work Opportunity Reconciliation Act of 1996 [Amendment No. 390] (RIN: 0584–AC44) received October 6, 2000, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Agriculture.

10515. A letter from the Deputy Associate Administrator, Environmental Protection Agency, transmitting the Agency's final rule—Phosphorous Acid; Exemption from the Requirement of a Tolerance [OPP–301030; FRL–6599–1] (RIN: 2070–AB) received October 4, 2000, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Agriculture.

10516. A letter from the Assistant Secretary, Occupational Safety and Health Administration, transmitting the Administration's final rule—Nationally Recognized Testing Laborities—Fees; Public Comment Period on Regulation Notices [Docket No. NRTL 95–F–1] (RIN: 1218–AB57) received October 3, 2000, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Education and the Workforce.

10517. A letter from the Director, Regulations Policy and Management Staff, FDA, Department of Health and Human Services, transmitting the Department's final rule—Food Labeling: Health Claims and Labeling Statements; Dietary Fiber and Cancer; Antioxidant Vitamins and Cancer; Omega-3 Fatty Acids and Coronary Heart Disease; Folate and Neural Tube Defects; Revocation [Docket Nos. 91N–0101, 91N–0098, 91N–0103, and 91N–100H] (RIN: 0910–AA19) received October 6, 2000, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Commerce.

10518. A letter from the Director, Regulations Policy and Management Staff, FDA, Department of Health and Human Services, transmitting the Department's final rule—Regulations on Statements Made for Dietary Supplements Concerning the Effect of the Product on the Structure or Function of the Body; Partial Stay or Compliance [Docket No. 98N–0044] (RIN: 0910–AB97) received October 6, 2000, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Commerce.

10519. A letter from the Director, Regulations Policy and Management Staff, FDA, Department of Health and Human Services, transmitting the Department's final rule—Listing of Color Additives for Coloring Sutures; D&C Violet No. 2; Confirmation of Effective Date [Docket No. 99C–1455] received October 6, 2000, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Commerce.

10520. A letter from the Director, Regulations Policy and Management Staff, FDA, Department of Health and Human Services, transmitting the Department's final rule—Gastroenterology and Urology Devices; Effective Date of Requirement for Premarket Approval of the Implanted Mechanical/Hydraulic Urinary Continence Device [Docket No. 94N–0380] received October 6, 2000, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Commerce.

10521. A letter from the Deputy Associate Administrator, Environmental Protection Agency, transmitting the Agency's final rule—Hazardous Waste Management System; Identification and Listing of Hazardous

Waste; Chlorinated Aliphatics Production Wastes; Land Disposal Restrictions for Newly Identified Wastes; and CERCLA Hazardous Substance Designation and Reportable Quantities [SWH–FRL–6882–6] (RIN: 2050–AD85) received October 4, 2000, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Commerce.

10522. A letter from the Deputy Associate Administrator, Environmental Protection Agency, transmitting the Agency's final rule—Clean Air Act Promulgation of Extension of Attainment Date for the San Diego, California Serious Ozone Nonattainment Area [CA–029–EXTa; FRL–6872–8] received October 4, 2000, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Commerce.

10523. A letter from the Deputy Associate Administrator, Environmental Protection Agency, transmitting a Agency's final rule—Comprehensive Environmental Response, Compensation and Liability Act (CERCLA) or SUPERFUND, Section 104 ''Announcement of Proposal Deadline for the Competition for the FY 2001 Brownfields Cleanup Revolving Loan Fund Pilots'' [FRL–6884–1] received October 5, 2000, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Commerce.

10524. A letter from the Secretary, Federal Trade Commission, Bureau of Consumer Protection, transmitting the Commission's final rule—Rule Concerning Disclosures Regarding Energy Consumption and Water Use of Certain Home Appliances and Other Products Required Under the Energy Policy and Conservation Act—received October 5, 2000, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Commerce.

10525. A letter from the Director, Office of Congressional Affairs, Nuclear Regulatory Commission, Office of Nuclear Material Safety and Safeguards, transmitting the Commission's final rule—List of Approved Spent Fuel Storage Casks: HI-STAR 100 Revision (RIN: 3150–AG58) received October 9, 2000, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Commerce.

10526. A letter from the Assistant Secretary for Legislative Affairs, Department of State, transmitting certification of a proposed license for the export of defense articles or defense services sold commercially under a contract to the United Kingdom, France, Italy, Sweden, Australia, Germany, Norway, Japan, Belgium, Bermuda, Canada [DTC 111–00], pursuant to 22 U.S.C. 2776(c); to the Committee on International Relations.

10527. A letter from the Assistant Secretary for Legislative Affairs, Department of State, transmitting certification of a proposed license for the export of defense articles or defense services sold commercially under a contract to France and Germany [Transmittal No. DTC 66–00], pursuant to 22 U.S.C. 2776(c); to the Committee on International Relations.

10528. A letter from the Director, U.S. Trade and Development Agency, transmitting a report on the Strategic Plan for FY 2001–2006; to the Committee on Government Reform.

10529. A letter from the Program Analyst, FAA, Department of Transportation, transmitting the Department's final rule—Airworthiness Directives; Airbus Model A330 and A340 Series Airplanes [Docket No. 2000–NM–43–AD; Amendment 39–11907; AD 2000–19–06] (RIN: 2120–AA64) received October 6, 2000, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

10530. A letter from the Program Analyst, FAA, Department of Transportation, transmitting the Department's final rule—Airworthiness Directives; Boeing Model 777 Series Airplanes [Docket No. 2000–NM–259–AD; Amendment 39–11909; AD 2000–19–08] (RIN: 2120–AA64) received October 6, 2000, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

10531. A letter from the Program Analyst, FAA, Department of Transportation, transmitting the Department's final rule—Airworthiness Directives; Empresa Brasileira de Aeronautica S.A. (EMBRAER) Model EMB–135 and EMB–145 Series Airplanes [Docket No. 2000–NM–300–AD; Amendment 39–11903; AD 2000–19–02] (RIN: 2120–AA64) received October 6, 2000, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

10532. A letter from the Program Analyst, FAA, Department of Transportation, transmitting the Department's final rule—Airworthiness Directives; Empresa Brasileira de Aeronautica S.A. (EMBRAER) Model EMB–135 and EMB–145 Series Airplanes [Docket No. 2000–NM–301–AD; Amendments 39–11904; AD 2000–19–03] (RIN: 2120–AA64) received October 6, 2000, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

10533. A letter from the Program Analyst, FAA, Department of Transportation, transmitting the Department's final rule—Airworthiness Directives; Agusta S.p.A. Model A109E Helicopters [Docket No. 2000–SW–41–AD; Amendment 39–11898; AD 2000–17–52] (RIN: 2120–AA64) received October 6, 2000, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

10534. A letter from the General Counsel, National Aeronautics and Space Administration, transmitting the Administration's final rule—Code of Contact for International Space Station Crew (RIN: 2700–AC40) received October 4, 2000, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Science.

REPORTS OF COMMITTEES ON PUBLIC BILLS AND RESOLUTIONS

Under clause 2 of rule XIII, reports of committees were delivered to the Clerk for printing and reference to the proper calendar, as follows:

Mr. BLILEY: Committee on Commerce. House Resolution 575. Resolution supporting Internet safety awareness; with an amendment (Rept. 106–949). Referred to the House Calendar.

Mr. BLILEY: Committee on Commerce. H.R. 762. A bill to amend the Public Health Service Act to provide for research and services with respect to lupus; with an amendment (Rept. 106–950). Referred to the Committee of the Whole House on the State of the Union.

Mr. SESSIONS: Committee on Rules. House Resolution 615. Resolution providing for consideration of motions to suspend the rules (Rept. 106–951). Referred to the House Calendar.

Mrs. MYRICK: Committee on Rules. House Resolution 616. Resolution waiving points of order against the conference report to accompany the bill (H.R. 4205) to authorize appropriations for fiscal year 2001 for military activities of the Department of Defense and for military construction, to prescribe military personnel strengths for fiscal year 2001, and for other purposes (Rept. 106–952). Referred to the House Calendar.

A bill to amend title 49, United States Code, to require reports concerning defects in motor vehicles or tires or other motor vehicle equipment in foreign countries, and for other purposes; with an amendment (Rept. 106–954). Referred to the Committee of the Whole House on the State of the Union.

PUBLIC BILLS AND RESOLUTIONS

Under clause 2 of rule XII, public bills and resolutions of the following titles were introduced and severally referred, as follows:

By Mr. PORTMAN (for himself and Mr. LEVIN):

H.R. 5427. A bill to reauthorize the Drug-Free Communities Act, and for other purposes; to the Committee on Government Reform, and in addition to the Committee on Commerce, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Mr. GIBBONS:

H.R. 5428. A bill to direct the Secretary of the Interior to exercise authority under the Southern Nevada Public Land Management Act of 1998 to acquire by exchange certain environmentally sensitive lands for inclusion in the Red Rock Canyon National Conservation Area; to the Committee on Resources.

By Mr. CUNNINGHAM:

H.R. 5429. A bill to amend title 18, United States Code, to protect and promote the public safety and interstate commerce by establishing Federal criminal penalties and civil remedies for certain violent, threatening, obstructive and destructive conduct that is intended to injure, intimidate, or interfere with persons seeking to operate animal enterprises, and for other purposes; to the Committee on the Judiciary.

By Mr. GREEN of Texas:

H.R. 5430. A bill to require the Federal Trade Commission to prescribe regulations to protect the privacy of personal information collected from and about individuals on the Internet, to provide greater individual control over the collection and use of that information, and for other purposes; to the Committee on Commerce.

By Mr. GUTIERREZ:

H.R. 5431. A bill to redesignate the facility of the United States Postal Service located at 3319 North Cicero Avenue in Chicago, Illinois, as the ''Roman Pucinski Post Office''; to the Committee on Government Reform.

By Mrs. MALONEY of New York (for herself and Mr. LANTOS):

H.R. 5432. A bill to amend the Nazi War Crimes Disclosure Act to extend and modify the functions of the Nazi War Criminal Records Interagency Working Group to cover records of the Japanese Imperial Government, for other purposes; to the Committee on Government Reform.

By Mr. RANGEL:

H.R. 5433. A bill to permit expungement of records of certain nonviolent criminal offenses; to the Committee on the Judiciary.

By Mrs. ROUKEMA:

H.R. 5434. A bill to amend title XVIII of the Social Security Act to eliminate discriminatory copayment rates for outpatient psychiatric services under the Medicare Program; to the Committee on Commerce, and in addition to the Committee on Ways and Means, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Mr. SMITH of New Jersey (for himself and Mr. SAXTON):

H.R. 5435. A bill to amend title 38, United States Code, to authorize the payment of dependency and indemnity compensation to the surviving spouses and children of certain veterans with a service-connected disability that was continuously rated totally disabling for a period of one or more years immediately preceding death; to the Committee on Veterans' Affairs.

By Mr. SMITH of New Jersey:

H.R. 5436. A bill to amend the Internal Revenue Code of 1986 to allow a credit against gross income for organ donation; to the Committee on Ways and Means.

By Mr. TIERNEY (for himself, Mr. MEEHAN, Mr. NEAL of Massachusetts, Ms. WOOLSEY, Mr. GEORGE MILLER of California, Mr. CAPUANO, Mr. OLVER, Mr. WEINER, Ms. MILLENDER-MCDONALD, Mr. STARK, Mr. MCGOVERN, Mr. FRANK of Massachusetts, Mr. MARKEY, Mr. MOAKLEY, Mr. NADLER, Mr. ANDREWS, Mr. PALLONE, Mr. MENENDEZ, Mr. DELAHUNT, Ms. LOFGREN, and Ms. PELOSI):

H.R. 5437. A bill to require a study by the Bureau of Labor Statistics to develop a methodology for measuring the cost of living in each State, and to require a study by the General Accounting Office to determine how Federal benefits would be increased in each State if the determination of such benefits were based on such methodology; to the Committee on Education and the Workforce, and in addition to the Committees on Ways and Means, and Banking and Financial Services, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Ms. KAPTUR (for herself and Mr. OBEY):

H. Con. Res. 420. Concurrent resolution providing for corrections in the enrollment of the bill H.R. 4461; to the Committee on Commerce, and in addition to the Committee on House Administration, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Mr. BRYANT:

H. Con. Res. 421. Concurrent resolution expressing the sense of the Congress with respect to the accomplishments of the U.S.S. Tennessee (BB–43) during World War II; to the Committee on Armed Services.

By Mr. DAVIS of Illinois:

H. Con. Res. 422. Concurrent resolution authorizing the use of the Capitol Grounds for the Million Family March; to the Committee on Transportation and Infrastructure.

By Mr. OBERSTAR:

H. Res. 618. A resolution expressing the condolences of the House of Representatives on the death of the Honorable Bruce F. Vento, a Representative from the State of Minnesota; considered and agreed to.

By Mr. GREEN of Wisconsin:

H. Res. 619. A resolution expressing the sense of the House of Representatives that the United States Postal Service should issue a postage stamp commemorating the Pulitzer Prize winning author Edna Ferber; to the Committee on Government Reform.

By Mr. SMITH of New Jersey (for himself, Mr. HOYER, Mr. WOLF, Mr. GEJDENSON, Mr. GREENWOOD, Mr. CARDIN, Mr. PITTS, Ms. SLAUGHTER, and Mr. FORBES):

H. Res. 620. A resolution expressing the sense of the House of Representatives regarding recent elections in the Federal Republic of Yugoslavia, and for other purposes; to the Committee on International Relations.

By Mr. YOUNG of Alaska:

H. Res. 621. A resolution providing for the concurrence by the House with an amendment in the Senate amendment to H.R. 150; considered and agreed to.

ADDITIONAL SPONSORS

Under clause 7 of rule XII, sponsors were added to public bills and resolutions as follows:

H.R. 842: Mr. BLAGOJEVICH.
H.R. 960: Mr. LANTOS.
H.R. 1046: Mr. ROGAN.
H.R. 1275: Mr. BROWN of Ohio, Mr. GREEN of Wisconsin, Mrs. CAPPS, and Ms. BROWN of Florida.
H.R. 1422: Mr. CONDIT.
H.R. 1621: Mr. JONES of North Carolina and Mr. SISISKY.

EXTENSIONS OF REMARKS

TRIBUTE TO JAMES L. HARRISON, 16TH PUBLIC PRINTER OF THE UNITED STATES

HON. STENY H. HOYER

OF MARYLAND

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 10, 2000

Mr. HOYER. Mr. Speaker, today I wish to pay tribute to an outstanding civil servant, Mr. James L. Harrison, of Bethesda, Maryland, who died October 5, 2000, at age 94. Mr. Harrison was the 16th Public Printer of the United States, serving during the Kennedy, Johnson, and Nixon administrations, and overseeing a fundamental and far-reaching transformation of the Government Printing Office during his tenure.
